Uncompensated Care is the combination of charity care and bad bebt. Charity care is defined as medical care which is provided to persons who do not have the ability to pay for care. Bad Debt is defined as medical care which is provided to persons who had the apparent ability to pay for that care, but who fail to pay.

** Hospital did not fully meet its obligation (obligation amount is greater than the total provided to all persons).

The above is the 2023 Uncompensated Care Data Report. The information includes dollar value for uncompensated care, as self-reported by DC hospitals. The information has not been verified by the SHPDA.

Five hospitals, Children's National Medical Center, Sibley Memorial Hospital, George Washington University Hospital, MedStar National Rehabilitation Hospital, and Hospital for Sick Children have not met the required level of uncompensated care.

Four facilities have not submitted their report at the time of this submission.

No reason was provided by these hospitals to demonstrate why they were unable to meet the requirements.
