Cellular and Mobile Devices

Response to Question 19.

(a)

Total cost of mobile devices for FY 2011:	\$184,643.85
Total cost of mobile devices for FY 2012:	\$145,184.83
Total cost of Mobile devices for FY 2013:	\$112,525.36
Total cost of Mobile devices for FY 2014:	\$ 36,463.06 (10/2013 to 1/2014)

1

The enclosed spreadsheet is the present inventory (30 January 2014) with the name of each individual with an assigned device. Regarding the authorization to use such devices, authorization for the use of mobile platforms is managed in each department individually by their Director, Vice President or Dean.

2

The billing record is too voluminous to provide a paper breakdown for each device, given the existing invoicing practices; additionally, the existing electronic record is categorized by cost code (e.g. department) rather than individual user .

We include here for comparison a sample month for each year requested:

The total cost of mobile devices for the month of January 2011: \$ 16,550.88

The total cost of mobile devices for the month of January 2012: \$12,303.76

The total cost of mobile devices for the month of January 2013: \$ 10,104.80

The total cost of mobile devices for the month of January 2014: \$ 9,616.47

Since January 2011 UDC has reduced its overall mobile expenditures by an average of \$6,000.00 per month.

3

Decisions regarding the assignment of mobile devices rests with the head of each unit; devices are assigned when such possession is necessary to perform related work duties or enhance the performance of said duties. Mobile devices are assigned to persons that very frequently, (or even constantly such as maintenance persons or executives) are away from their assigned office and it is necessary to maintain rapid contact with them.

(b)

During FY2012, OIT conducted an audit of all telephone services at the University, including mobile devices.

On January 1, 2012 there were 2514 land lines, as of 30 January 2014 there are 1,378

On January 1, 2012 there were 201 mobile devices, as of 30 January 2014 there are 166. These numbers include mobile telephones, hot spots, cellular modems and tablets with data access plans.

The reduction of the units was one result of the aforementioned review. More importantly, the contractual agreements with multiple providers were also considered as a cost factor. On 31 March 2013, OIT terminated agreements with disparate vendors and has combined all mobile services with a singular provider. This endeavor has resulted in a lower overall mobility cost and simultaneously reduced the number of device choices the user community has available, thus creating consistency within the operational environment. Finally, with one common vendor, UDC has been able to pool all of our existing mobile minutes ensuring that no overage charges will be incurred should a user exceed the limit of their existing mobile plan.

As demonstrated by the above, OIT has been both diligent and aggressive in reducing costs while maintaining service levels for UDC users.

The University of the District of Columbia (GFO) has one Capital pool project, UG706C, from which several sub-projects are executed. The project is used to renovate the Van Ness Campus and facilities at other locations within the University of the District of Columbia system (UDC), including the University's College of Arts and Sciences, School of Business and Public Administration, School of Law, School of Engineering and Applied Science, College of Agriculture, Urban Sustainability, & Environmental Sciences, and the Community College sites at Bertie Backus and PR Harris. The scope of work may include addressing much needed renovations to classrooms, academic laboratories, athletic facilities, auditoriums, faculty and administrative offices, and material storage areas. The scope of work may also include upgrades to the mechanical, electrical, and structural systems, installation of energy management systems and monitoring equipment, and new energy efficient windows throughout the Van Ness Campus. NOTE: There is a slight difference in FY 2012 total that was submitted last fiscal year. Cardholder Byunggu Yu's, P-Card total amount was inadvertently dropped from the spreadsheet when the calculations were done; however, it has been included in this report..

The University P-Card Program Division has occasionally increased Mr. Alvin Venson's P-Card to allow for emergencies for the daily operation of the University's facilities.
