Government of the District of Columbia

Office of Contracting and Procurement

Responses to Pre-Performance Hearing Questions
Round 2

Chairman Phil Mendelson Committee of the Whole

1. Please describe every grant OCP is, or is considering, applying for this fiscal year.

OCP has no pending grant applications at this time.

2. Please provide the name of each employee who was or is on administrative leave in FY 2013 and thus far for FY 2014. In addition, for each employee identified, please provide: (1) their position; (2) a brief description of the reason they were placed on leave; (3) the dates they were on administrative leave; (4) whether the leave is paid or unpaid; and (5) their current status.

Paid administrative leave is a part of separation packages for individuals who have been terminated. It is our practice to keep identities of terminated employees confidential. During FY 2013, five employees were place on administrative leave as part of their terminations: Executive Assistant; Measurement and Planning Analyst; Property Disposal Specialist; Manager, Customer Contact Center; and Contract Specialist.

Year to date, (October 1, 2013 through February 21, 2014) no one has been placed on administrative leave.

3. How many grievances have been filed by labor unions against OCP management? Please list each of them by year FY 2012 - FY 2014 (to date), and by union, if more than one union. Give a brief description of each grievance, and the outcome as of February 10, 2014.

No new grievances were filed by labor unions against OCP management for FY2012, FY2013, and year to date for FY2014.

4. Please provide a list of all procurements for FY 2013 and FY 2014. Give a brief explanation of each. Exclude from this answer credit card purchases and procurements for other agencies. This question seeks information about procurements for OCP, not procurements process by OCP for other agencies.

See OCP Procurements FY13 and FY14.

5. Please provide in table format a list (in descending order by value of contract) of all OCP contracts in effect as of February 1, 2014, including the name of the contractor, purpose of the contract, and the total dollar amount of the contract. Exclude from this answer procurements made for other agencies.

6. Please provide a chart showing both OCP's approved budget and actual spending, by program, for FY 2013 and FY 2014 through January 31, 2014. In addition, please explain any variance between fiscal year appropriations and actual expenditures for FY 2013 and FY 2014 to date.

See attachment, OCP Approved Budget v. Actual Spending

- 7. Please list each policy initiative of your agency during FY 2013 and FY 2014 to date. For each initiative, please provide:
- (a) A detailed description of the initiative;
- (b) The total number of personnel (FTEs and contract) assigned to the initiative; and
- (c) The amount of funding budgeted to the initiative.

See attachment, OCP Policy Initiatives.

8. Please describe any initiatives your agency implemented during FY 2013 and FY 2014 to date to improve the internal operation of the agency or the interaction of U1e agency with outside parties (including other agencies). Please describe the results, or expected results,

of each initiative.

CURRENT AND NEW INITIATIVES (Staffing and Budget TBD)

- Recruit Chief Learning Officer -- The appointment of an OCP Chief Learning Officer will bring enhanced dedication to learning for the procurement staff.
- Transition technical support to OCP IT team -- In-Sourcing of the OCP IT Support function will net operational efficiency and cost savings for the agency.
- Policy and Procedure updates -- Draft and issue a series of critical operational directives to clarify procurement practice and strengthen internal controls will net improved communications and procurement compliance.
- Business Process Automation -- Automate notification and tracking process for policy and procedural updates will bring improved communications and procurement compliance.
- Transition to Delegated Procurement Authority Model -- The Delegated Procurement Authority will increase the efficiency of operations

9. What efforts has OCP made in the past year to increase transparency? Explain.

In fiscal year 2014, OCP worked with the Office of the Chief Technology Officer to reorganize the agency website and move it to a new content management system. This reorganized website is easier to navigate and find information. Further, we established a team to work on increasing transparency. The team is working to determine how to improve transparency without comprising confidential information during and after the solicitation process.

10. Please list all regulations for which the agency is responsible for oversight or implementation. Please list by title and subject heading, including the date of the most recent revisions.

The Office of Contracting and Procurement is responsible for the procurement rules in the following chapters of title 27 of the DC Municipal Regulations:

- Chapter 5, Criminal Background and Traffic Check Records, May 1, 2009

11. Please identify any legislative requirements that the agency lacks sufficient resources to properly implement. Explain.

There are no legislative requirements that we lack sufficient resources to implement.

12. Please identify any statutory or regulatory impediments to OCP's operations.

DC Official Code sec. 2-361.05, Acquisition Planning. The requirement to submit the plan by March 20 is problematic since agencies are still finalizing their budgets for the next fiscal year.

13. Please describe any other successes or challenges experienced by the agency during FY 2013 and 2014 to date not already discussed.

Operating Efficiency

Improving on the District's FY12 CAFR and Single Audit results – OCP deficiencies declined for
the fourth consecutive year; the District's bond rating was upgraded to stable in part due to a
strong system of internal control; and for the second consecutive year, OCP recorded no
'questioned costs' in the Single Audit;

Operational Response to Challenges:

- Upgrading leadership capabilities in the procurement operation by hiring an experienced Deputy Director for Procurement Operations and senior level managers and supervisors. These efforts also include an ongoing reorganization of the DDOT procurement office;
- Implementation of an inter-agency monitoring and reporting tool (Joint Chiefs Report) to improve 'shared accountability' outcomes;
- Realigning procurement division by cluster to improve communication and troubleshooting capabilities; and
- Implementing system tools and controls (O-PIF) to track unplanned procurements.
- 14. Did OCP receive any FOIA requests in FY 2013? If yes, did the agency file a report of FOIA disclosure activities with the Secretary of the District of Columbia? If available, please provide a copy as an attachment.

Yes, OCP received FOIA requests in FY13. Please see attachment OCP's FOIA Disclosure Report.

15. (a) Please attach copies of the required small business enterprise (SBE) expenditure reports for fiscal years 2012 and 2013. (b) D.C. Official Code § 2-21 8.53(b) requires each District agency to submit supplemental information with their annual SBE expenditure report, including: a description of the activities the agency engaged in to achieve their fiscal year SBE expenditure goal; and a description of any changes the agency intends to make during the next fiscal year to achieve their SBE expenditure goal. Has OCP submitted the required information for fiscal years 2012 and 2013?

See attachment OCP SBE Expenditure Reports.

- **16.** Please provide a copy of the FY 2013 annual reports for OCP, if available. OCP does not produce an annual report.
- 17. Please provide the total number of dollars contracted or procured through OCP on behalf of other agencies for FY 2013 and FY 2014 to date. Disaggregate these funds by D.C. Supply Schedule, GSA Federal Supply Schedule, and non-supply schedule procurements.

Fiscal Year	Description	Number of Employees	Budget (\$\$s)
13	INITIATIVE 1.1: All procurements done by OCP Agencies will be done through E- Sourcing tool in Procurement Automated Support System (PASS). In FY 12, OCP began full utilization of the E-Sourcing tool, which effectively automates each step of the procurement process from solicitation to award. Using E-Sourcing provides vital tracking information and ensures that all the required steps in the procurement process are followed and documented. Use of E-Sourcing reduces cycle time by giving online access to vendors for OCP solicitations and allowing them to respond to solicitations electronically, resulting in greater process efficiency and reduced cycle times. E-Sourcing also provides a central repository for documents and correspondence associated with procurements. Completion Date – June 30, 2013	3	There is no additional funding as the cost of this initiative was reflected in the FY 13 budget.
13	INITIATIVE 1.2: Increase the utilization of Term Contracts. In FY 13 OCP will work towards increasing the utilization of term contracts. Consistent with 27DCMR §2416.1, OCP defines Term Contracts to include all Requirements and Indefinite Quantity contracts. This definition encompasses District of Columbia Supply Schedules (DCSS) contracts. Term contracts are an efficient and cost-effective method for buying goods and services where there is a frequent or widespread need coupled with unpredictable, yet considerable, volume. The establishment and use of term contracts is a procurement best practice. Completion Date – September 30, 2013	4	There is no additional funding as the cost of this initiative was reflected in the FY 13 budget.

		5	There is no additional funding as the cost of this initiative was reflected in the FY 13 budget.
13	INITIATIVE 1.1: Continued development of Customer Service Center. In FY12, OCP launched a full service customer service unit. This unit has responded to public and agency inquiries and correspondence, interacts with vendors, and works closely with the OCP Public Information Officer. The Customer Service Center contributes to the reduction of procurement cycle time by shifting call volume from contract specialists and officers, thus providing them more time to focus on execution of procurements. In FY 13, OCP will continue to focus on strengthening this unit. The focus of the Customer Service Center will be: 1.) to increase Customer Service Center visibility so agencies utilize this unit for information on their procurements, 2.) to increase vendor registrations thereby increasing competition and bringing in more local businesses to do business with the District and 3.) work with the procurement team to continue hosting the OCP "Procurement Clinics". Completion Date – September 30, 2013		
13	INITIATIVE 3.1: Increase the quality and value of surplus services by maximizing the use of the equipment re-utilization program. Continue to expand the equipment re-utilization program. The Surplus Property Division will expand the re-utilization program by 20% through a marketing program, in-person training for agency property officers, and expanded outreach to our certified participants. Completion Date – September 30, 2013	4	There is no additional funding as the cost of this initiative was reflected in the FY 13 budget.
13	INITIATIVE 1.1: Institute periodic E-Val reviews. These reviews will be conducted to monitor the timely submission of vendor evaluations completed by the contracting officer and contract administrator. In addition, these reviews are purposed to identify specific contracts requiring field audits. Completion Date – September 30, 2013	4	There is no additional funding as the cost of this initiative was reflected in the FY 13 budget.

		4	There is no additional funding as the cost of this initiative was reflected in the FY 13 budget.
13	INITIATIVE 1.2: Quarterly Certification of Management (QCM) reviews. While these reviews were partially implemented during FY 2012, due to resource limitations and identified data inconsistencies, the review program was not fully implemented. However, following the successful completion of the contract file upload initiative undertaken by OCP during the 3rd and 4th quarters of FY 2012, OCP-OPIC will conduct these reviews regularly as these become due, i.e. every 90 days after contract award to identify inconsistencies or non-compliance with specific requirements of large contracts (>\$100k). Completion Date – September 30, 2013		
14	INITIATIVE 1.3: Increase utilization of the Contracts Module. OCP will fully utilize the capabilities of the Contracts Module, which is the repository for awarded contracts in the Ariba Spend Management System. After award, procurement staff populates and publishes a contract in the PASS Contracts Module. Once a contract is published, the designated Contract Administrators receive automated e-mails that link them directly to the corresponding electronic performance evaluations (E-Vals). Similarly, a published contract creates automatic reminders for designated procurement staff to exercise option years, and maintain other critical and time-sensitive requirements of the contract. In FY13, OCP issued several directives requiring that all contracts be loaded into the Contracts Module. Though loaded, OCP oversight has revealed that the majority of contracts lack a "Published" status, which is required to fully utilize the automated E-val and maintenance capabilities of the Module. In FY14, OCP will review all contracts in the Contracts Module to ensure the contract status is accurate and the subsequent automated procedures are working properly. Completion Date: June 30, 2014	4	There is no additional funding as the cost of this initiative was reflected in the FY 14 budget.

14	INITIATIVE 2.1: Increase revenue generated by the District of Columbia Supply Schedule (DCSS). In FY14, OCP will migrate the application and management process of all DCSS contracts to E-Sourcing. OCP attempted to accomplish this same goal in FY13, however, technical constraints and unexpected procedural inefficiencies resulting from the initiative thwarted progress. OCP is working with its IT process partners to address these inefficiencies and re-engage this initiative. Utilizing E-Sourcing will ensure that key data and other information are captured and tracked. OCP will utilize this data to develop a system of billing for DCSS vendors required to pay a 1% fee on all awarded purchase orders. System-driven tracking of DCSS purchases will allow OCP to track DCSS purchases more accurately, thus maximizing DCSS fee collections. Completion Date: September 30, 2014	7	There is no additional funding as the cost of this initiative was reflected in the FY 14 budget.
14	INITIATIVE 3.1: Increase government and institutional procurement of local foods (Sustainable DC Plan Action FD3.6). In FY14, OCP will work with the Office of Planning (OP), the Sustainable DC initiative, and other agency partners to research best practices and the feasibility of implementing a District local purchase program. OCP will work with District programs that purchase large amounts of food to research sustainable and local best practices and opportunities. Completion Date: September 30, 2014	4 (including 1 consultant)	Mayor's FY13 sustainability budget challenge (\$187K).
14	INITIATIVE 3.2: Use anchor institutions to create local markets for sustainable enterprises (Sustainable DC Plan Action JE1.3, and WS2.1). Over the next year, OCP will participate in local and national networks to better understand its influence on local markets for sustainable enterprises. OCP will create a strategy for leveraging the District's spending power as a sustainable model for other institutions in the city and as well research best practices and the feasibility of implementing a District product stewardship program as a part of the Sustainable DC Plan. Completion Date: September 30, 2014.	5 (* including staff from CCDC and GWU)	There is no additional funding as the cost of this initiative was reflected in the FY 14 budget.

14	INITIATIVE 1.1: In FY 2014, OCP shall develop and deliver a formal, standardized procurement training curriculum through OCP's training center, the Knowledge Plus Institute (KPI), to train and certify OCP staff to execute District procurement. OCP will continue our partnership with University of the District of Columbia (UDC), DCHR and other external experts to develop and certify the procurement curriculum and the tiered certification program. This initiative is a holdover from FY2013 and was not started due to administrative changes at UDC. Completion Date: September 30, 2014	5 (* including staff from CCDC and GWU)	There is no additional funding as the cost of this initiative was reflected in the FY 14 budget.
14	INITIATIVE 2.2: Train agency property officers on the Federal reutilization website, GSAXCESS.gov. OCP has collaborated with its federal partners to give District agencies access to the federal surplus property system called GSAXCESS.GOV. This web based system gives District agencies access to federal surplus property on a global platform for District usage. OCP will train 30 agency property officers on the federal reutilization program and will continue its efforts to leverage federal resources that provide District agencies with acquisition solutions that produce maximal relief to the environment. Completion Date: September 30, 2014		There is no additional funding as the cost of this initiative was reflected in the FY 14 budget.
14	INITITATIVE 2.1: Enhance PASS system and develop new Business Intelligent tools to better provide effective distribution of regulations, procedures and processes to OCP staff, agencies and vendors. In FY13, OCP Technology Division implemented multiple enhancements to the current PASS system to allow automated updates to the OCP's internet and intranet sites to better meet the requirements of the PPRA and overall transparency. For FY14, OCP Technology will develop better business intelligence tools, such as Operation Dashboards, automated update of contract award documents to the internet in real time. Completion Date: September 30, 2014	2	There is no additional funding as the cost of this initiative was reflected in the FY 14 budget.
