A. Organization and Operations

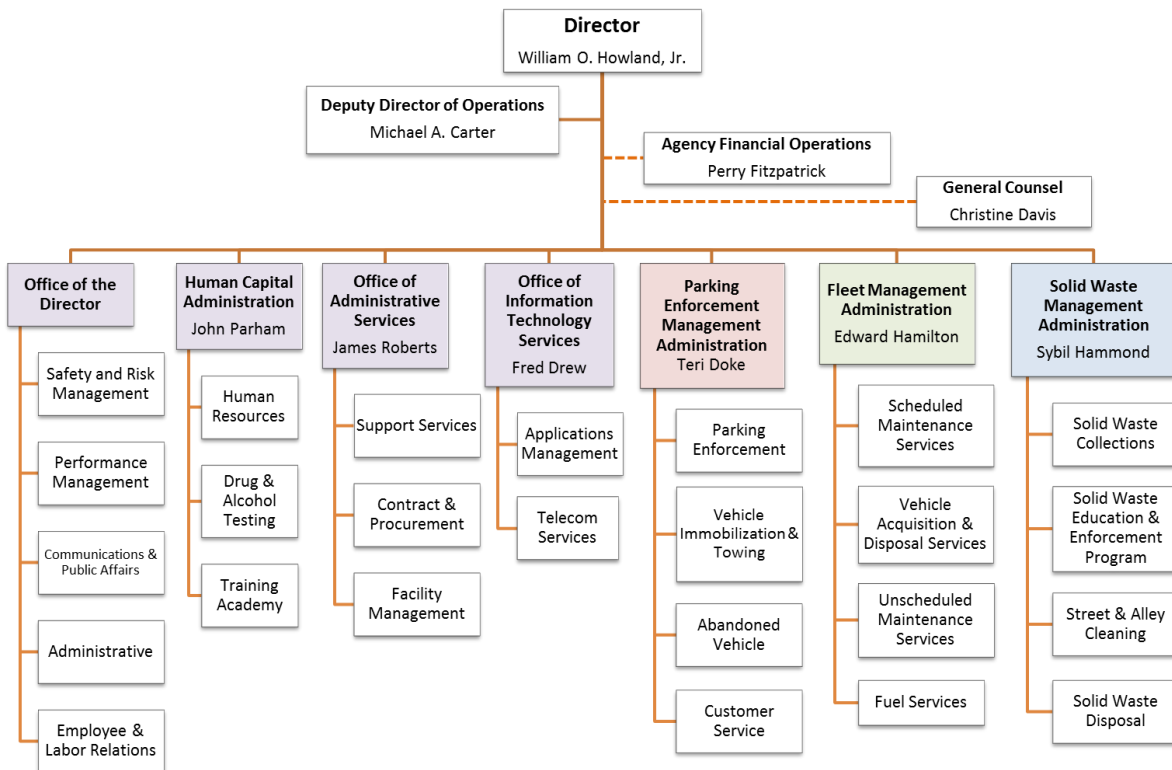

- 1 Please provide a complete, up-to-date **organizational chart** for the agency and each division within the agency. Please include an explanation of the roles and responsibilities for each division and subdivision within the agency.
 - Please include a list of the employees (name and title) for each subdivision and the number of vacant positions.

The list of employees, etc. is included in the answer for Question 3 (see **Figure 31**: [Questions 1 & 3] Complete, Up-to-Date Position Listing for DPW on page 58). For the organizational chart by division with an explanation of the roles, see...

- Figure 1: DPW - Agency Organizational Chart
 - Figure 2: DPW Agency Management Organizational Chart
 - Figure 3: DPW Solid Waste Management Organizational Chart
 - Figure 4: DPW Parking Enforcement Management Organizational Chart
 - Figure 5: DPW Fleet Management Organizational Chart
- Has the agency made any organizational changes in the last year? If so, please explain.

The agency has not made any organizational changes in the last year.

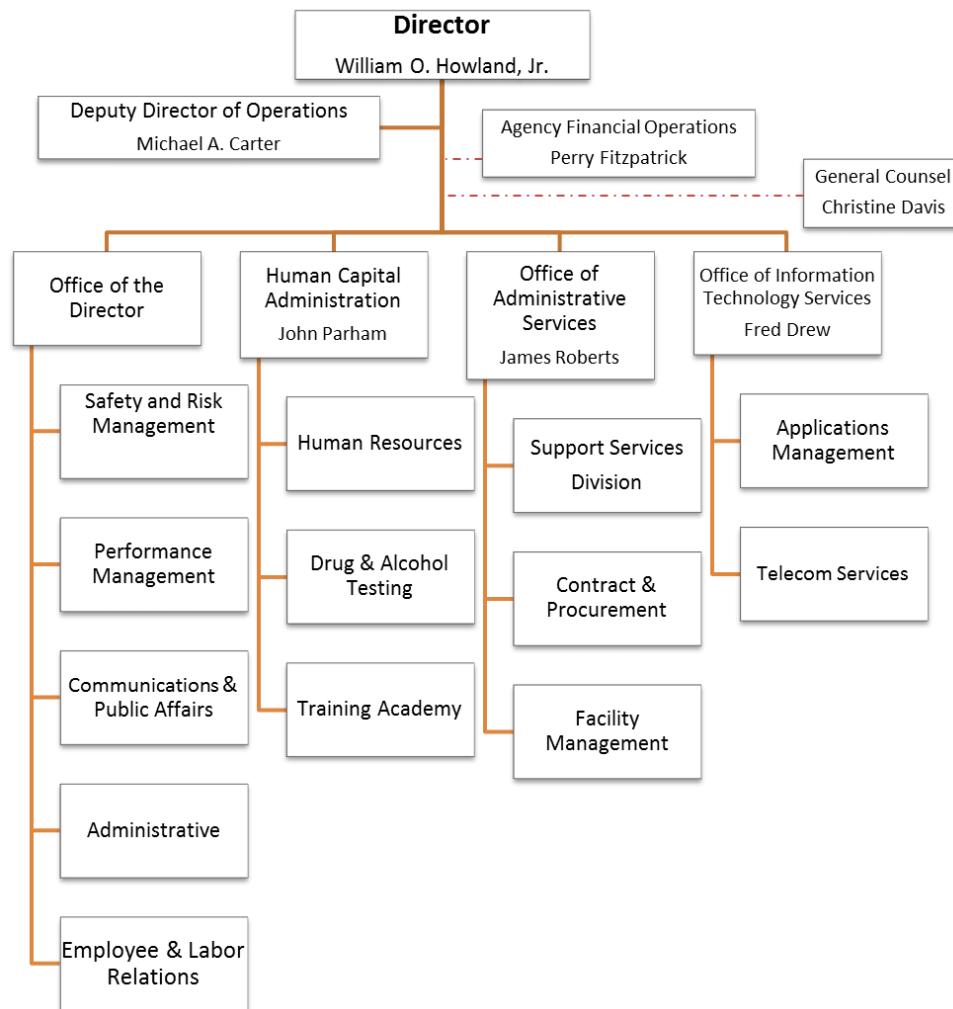

Figure 1: DPW - Agency Organizational Chart

Agency Management - provides for administrative support and the required tools to achieve operational and programmatic results. This division is standard for all agencies using division-based budgeting. Sub-divisions include:

- *Office of the Director* – provides overall direction and leadership for all DPW functions.
- *Human Capital Administration* – provides personnel training and development and drug and alcohol testing services to DPW employees.
- *Office of Administrative Services* – provides procurement, contract management, facilities management, copier maintenance, and mail services.
- *Office of Information Technology* – provides and maintains the information technology for all of the department administrations and offices. OITS advises administrations of new technologies that support their business requirements, develops standards to ensure conformity and integration among DPW divisions, and administers telecommunications systems, voice and data, for the department.
- *Agency Financial Operations* – provides comprehensive and efficient financial management services to and on behalf of District agencies so that the financial integrity of the District of Columbia is maintained. The Agency Financial Operations is part of the Office of the Chief Financial Officer and has a “dotted” line relationship with DPW.
- *Office of the General Counsel* – provides legal services, including but not limited to legal advice, representation at administrative hearings, legal sufficiency review of documents, legislative drafting, FOIA and Ethics.

Figure 2: DPW Agency Management Organizational Chart

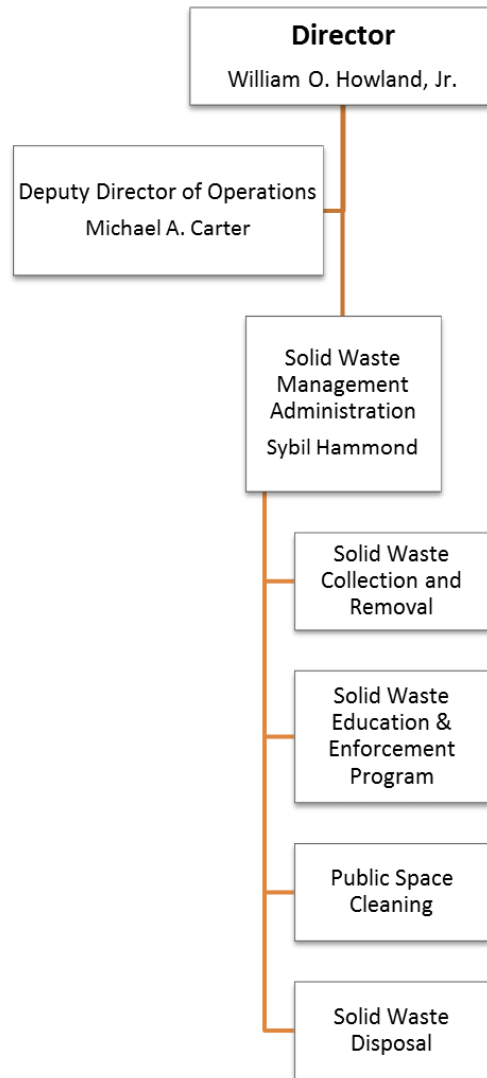

Solid Waste Management (SWMA) - performs a number of daily operations, including trash and recycling collection, sanitation education and enforcement, graffiti removal, public litter can service, fall leaf collection, transfer station/disposal services, and street and alley cleaning. SWMA contains the following 4 activities:

- *SWEEP* - inspects properties for sanitation violations; enforces sanitation regulations, including commercial recycling; educates residents and businesses about sanitation regulations;
- *Public Space Cleaning* – provides comprehensive street and alley cleaning services to residents, visitors, and businesses so that they can live, work, and play in clean neighborhoods. Specific services include mechanical street sweeping, litter can collections, rights-of-way mowing, nuisance and graffiti abatement, seasonal leaf collection, and snow and ice removal;
- *Solid Waste Collection and Removal* – provides solid waste (trash, recycling, and bulk) collection services to residents of single-family homes so that they

can have their trash, recyclables, and bulk items removed conveniently and regularly; and

- *Solid Waste Disposal* – provides municipal waste disposal services to DPW, other District agencies, private haulers, and residents so that they can unload collected waste safely, conveniently, and legally. Collects household hazardous waste and electronic materials; and shreds residents' personal documents.

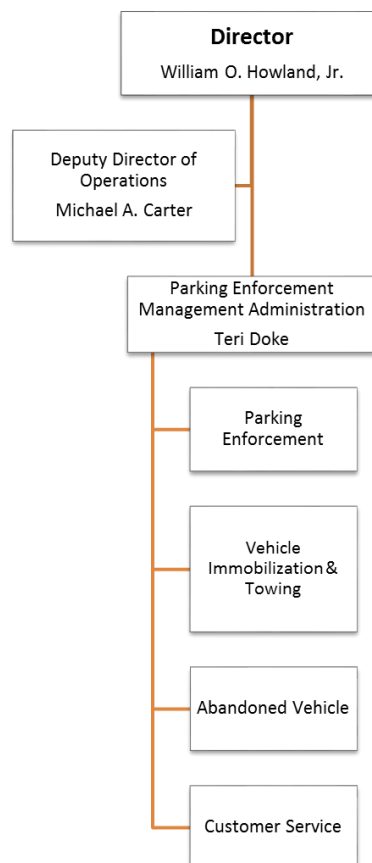

Figure 3: DPW Solid Waste Management Organizational Chart

Parking Enforcement Management (PEMA) - provides on-street parking enforcement services, including ticketing, towing, booting, impoundment, and removal of abandoned and dangerous vehicles. PEMA contains the following 4 activities:

- *Parking Regulations Enforcement* – provides parking enforcement of the District’s parking regulations to promote vehicular safety and provide smooth traffic flow and increased access to short-term parking at meters and long-term parking on residential streets;
- *Towing* – provides reduced parking congestion in the District by facilitating the timely relocation and/or impoundment of illegally parked vehicles from public space; and
- *Abandoned and Junk Vehicles* – provides the oversight of safe streets through the efficient removal of abandoned and dangerous vehicles from public space and nuisance properties within the District. Manages the impoundment lot.
- *Customer Service* – provides assistance to residents, visitors and employees with parking management issues. Manages the Towing Control Center and will dispatch Parking Officers upon request and coordinate tow request and information.

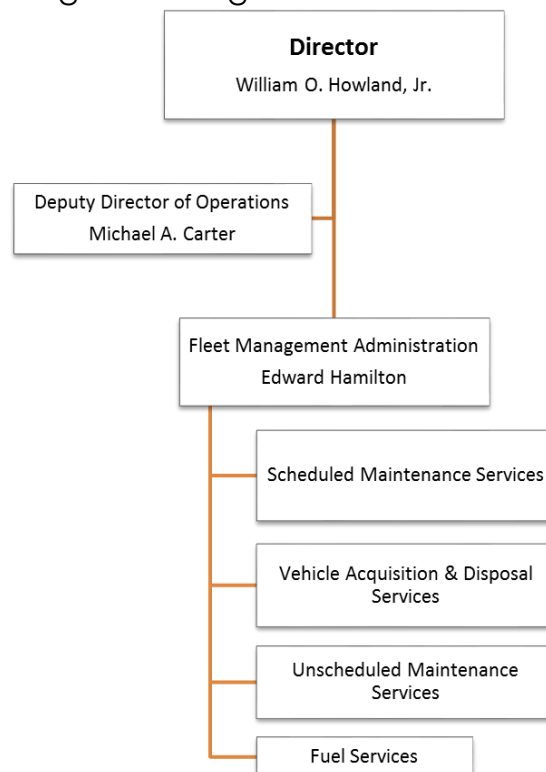

Figure 4: DPW Parking Enforcement Management Organizational Chart

Fleet Management (FMA) - keeps the District government going by repairing and maintaining more than 3,000 vehicles used for all city services except police, fire, corrections and schools. FMA also fuels all 6,000 DC government vehicles, including school buses, fire and trash trucks, police cars, street sweepers and the vehicles used in the Snow and Ice Control Program. About 30 DC government agencies rely on Fleet's expertise when acquiring new vehicles to meet program needs. FMA contains the following 4 activities:

- *Fuel Services* – helps the District reduce its fuel consumption and meet its environmental goals for improved air quality; provides District agencies with operational fueling stations; procures fuel, oil, and other lubricants; introduces alternative fuel; and installs fuel rings;
- *Scheduled Fleet Maintenance* – performs preventive maintenance services, including changing oil and filters and checking tires, engines, batteries, and transmissions; and prepares vehicles for seasonal and year-round duties (alley cleaning, snow removal, leaf collection, pothole repair, etc);
- *Unscheduled Vehicle and Equipment Repairs* – tows inoperable vehicles, diagnoses why vehicles are not operating properly, and makes the necessary repairs or transfers vehicles to vendors for return to service; and
- *Vehicle and Equipment Acquisitions* – consults with District government agencies about vehicle needs, procures vehicles, and disposes of vehicles when they exceed their useful life.

Figure 5: DPW Fleet Management Organizational Chart

- 2 Please list each **new program** implemented by the agency during FY 2013. For each initiative please provide:
- A description of the initiative
 - The funding required to implement to the initiative
 - Any documented results of the initiative

Figure 6: [Question 2] New Programs Implemented by DPW in FY 2013

Program	Funding Required	Description and Results in FY 2013
Fleet Management Administration		
Fuel Management System Upgrade	\$330,058.28	<p>DPW upgraded our fuel management system to the state-of-the-art Ward4 system which allows real-time remote monitoring, troubleshooting, and reporting of the Districts twelve fueling stations. The new system also allows the use of automatic fueling devices that are reprogrammable which will save money when vehicles are retired and compatible with all vehicles and equipment in the District fleet which will reduce manually entered data errors, increase accountability, and track fuel usage more accurately.</p> <p>Results: Over 700 vehicles, generators, and light towers have been equipped with the new devices.</p>
Wireless at DPW FMA Maintenance Facility	\$118,990.88	<p>Installation of Wireless Access Points throughout the DPW FMA Maintenance Facility and acquisition of wireless tablets.</p> <p>Results: DPW FMA technicians can now program the wireless fueling devices (Cancievers 802.11N) installed on the District's vehicles and equipment. Before this implementation, staff had to call in to personnel at an office PC, or go back and forth from a hardwired PC themselves, to receive information during programming. It also allows DPW FMA technicians to wirelessly diagnose, repair and program the Districts vehicles and equipment through their On-Board Diagnostic (OBD) interface. The tablets have allowed DPW FMA staff to perform all programming duties themselves, taking advantage of the wireless infrastructure at the DPW FMA 1833 Maintenance Facility, therefore increasing productivity.</p>

Program	Funding Required	Description and Results in FY 2013
Fleet Management Administration		
GPS Technology on CDL Vehicles	\$29,264.90	Installation of GPS technology on CDL Vehicles to allow District CDL drivers to electronically capture pre and post trip checks of their vehicles. Projected completion date: September 2014.
GPS Technology on non-Vehicle Assets	\$3,487.19	Installation of GPS technology on non-vehicle assets (i.e. light towers), to track their location. The program has a projected completion date of September 2014
Solid Waste Management Administration (SWMA)		
Commercial Food Waste Acceptance And Transfer Pilot Program		<p>Identify the operational and financial opportunities and constraints of providing this service. The service was offered to all licensed commercial haulers in the District and was located indoors, on the tipping floor of the Benning Road Transfer Station. The pilot program received 862 tons of food waste, but only 433 tons were suitable for composting, a 50% contamination rate. Contaminants included glass, plastics, metals and other non-compostable materials. SWMA charged haulers participating in the pilot program \$62.52 per ton for food waste delivered. In comparison, SWMA charges \$50.62 per ton of trash delivered. Both fees reflect our costs.</p> <p>The pilot program concluded on July 31, 2013. DPW learned that there is a vital need for outreach and education and as well as quality control on the part of the business contracting for food waste disposal before it is collected. We also learned that the economics of food waste composting are too expensive when compared with trash disposal as there are no acceptance/processing facilities located in the immediate metropolitan Washington area. The on-going pilot programs in Prince George's County and Howard County are limited to only County-generated materials.</p>

- 3 Please provide a complete, up-to-date **position listing** for your agency, which includes the following information for each position:
- Title of position
 - Name of employee or statement that the position is vacant, unfunded, or proposed.
 - Date employee began in position
 - Salary and fringe benefits, including the specific grade, series, and step of position
 - Job status (continuing/term/temporary/contract)
- Please list this information by program and activity*

See Figure 31: [Questions 1 & 3] Complete, Up-to-Date Position Listing for DPW on page 58.

- 4 Does the agency conduct annual **performance evaluations** of all its employees? Who conducts such evaluations? What steps are taken to ensure that all agency employees are meeting individual job requirements? What steps are taken when an employee does not meet individual job requirements?

The Department of Public Works conducts annual performance evaluations based on the guidelines established by the DC Department of Human Resources. The evaluations are conducted by supervisory personnel and include both mid-year and annual evaluations. In addition, employees who provide services on a temporary seasonal basis are evaluated, which is then used as a portion of the criteria to be hired in the future. The performance evaluations supported the Strategic Plan of DPW as well as the FY 2013 Performance Plan. Feedback is provided continuously to DPW employees to ensure adherence to performance goals and competencies.

- 5 Please list all **employees detailed** to or from your agency, if any. Please provide the reason for the detail, the detailed employee's date of detail, and the detailed employee's projected date of return.

No employees were detailed to or from DPW in FY 2013.

- 6 Please provide the Committee with:
- A list of all employees who receive cellphones, personal digital assistants, or similar communications devices at agency expense

Currently, 565 employees have cell phones with the direct connect capability, 274 have cell phones with direct connect only service, and 68 utilize a tablet.

See Figure 32: [Question 6, 1st Bullet] DPW Employees who Receive Cellphones, PDAs, or Similar Communications Devices at the Agency's Expense on page 97.

- A list of all vehicles owned, leased, or otherwise used by the agency and to whom the vehicle is assigned

See

Figure 33: [Question 6, 2nd Bullet] All Vehicles Owned, Leased, or Otherwise Used by DPW on page 118.

One DPW employee has an assigned vehicle: Director William O. Howland, Jr. is assigned a Toyota Tacoma (Equipment #20-10900). Vehicle assignments for all other agencies are maintained by each agency head per Mayor's Order 2009-160 as noted in the excerpt below.

According to Mayor's Order 2009-160,

Section I: The head of each agency shall implement and maintain a system of managing the use of vehicles for authorized government business that ensures ...accountability of operators ...having assigned custody of a government vehicle; complete knowledge of the nature of vehicle assignments and custody.

- A list of employee bonuses or special award pay granted in FY 2013 and FY 2014, to date

No employees received bonuses or special pay in FY 2013 or FY 2014 YTD.

- A list of travel expenses, arranged by employee

See **Figure 7:** [Question 6, 4th Bullet] Travel Expenses by Employee (FY 2013 and FY 2014YTD) on page 13.

			Total	\$445.20

(Question #6 continued)

- A list of the total overtime and workman's compensation payments paid in FY 2013 and FY 2014, to date

The total paid for overtime is \$5,407,299 for FY 2013 and \$2,487,616 for FY 2014. The total paid for workman's compensation is \$2,063,706 for FY 2013 and \$630,991 for FY 2014 YTD.

- 7 Please identify all **electronic databases** maintained by your agency, including the following:
- A detailed description of the information tracked within each system
 - The age of the system and any discussion of substantial upgrades that have been made or are planned to the system
 - Whether the public can be granted access to all or part of each system

See **Figure 8**: [Question 7] Electronic Databases Maintained by DPW on page 18.

Figure 8: [Question 7] Electronic Databases Maintained by DPW

Line #	SYSTEM TITLE	DESCRIPTION - INFORMATION TRACKED	PUBLIC ACCESS YES/NO	AGE OF SYSTEM or DATABASE	UPGRADES AND REASON
Solid Waste Management Administration					
1	Residential Trash Routes	Polygons representing boundaries of residential trash routes with route ID and trash collection day.	N	4-5 years	As needed
2	Residential Recycling Routes	Polygons representing boundaries of residential recycling routes with route ID and recycling collection day.	N	9 years	As needed
3	Trash/recycling Day Boundaries	Polygons representing boundaries of trash and recycling day areas with collection day attribute.	Y	4- 5 years	As needed
4	Points of Service	Points representing the collection locations for all residential trash/recycling customers.	N	7 years	As needed
5	Leaf Collection Boundaries	Polygons representing boundaries of leaf collection areas with area ID and leaf collection pass schedule.	Y	7 years	Yearly schedule attributes are updated
6	Signed Street Sweeping Routes	Lines paralleling street blocks representing the blocks that are part of the weekly signed street sweeping program.	N	4 years	As needed
7	Litter can Locations	Points that represent the positions of litter cans maintained by DPW along with indication of type of can and proximity to a bus stop.	N	9 years	As needed
8	Street and Alley Cleaning Routes	Polygons representing boundaries of street and alley cleaning routes with route ID.	N	8 years	As needed
9	Parking Beats	Polygons representing boundaries of parking beats with beat ID.	N	9 years	As needed
10	Abandoned Vehicle Investigator Areas	Polygons representing boundaries of abandoned auto investigator areas with area ID.	N	4 year	As needed
11	Bulk Appointment Locations	Locations of bulk collection appointments with items to be collected, date of collection, CSR service request #, and street segment ID of the street segment associated with the address. This database is generated through an interface with the CSR.	N	8 years	Daily database update
12	Web Reporting	Web Reporting is a real time reporting module in the Scale System used by the client to generate daily transactional report via internet. Each client can generate at any given time the number of trucks dumped by their drivers.	N	4 years	As needed

Electronic Databases Maintained by DPW (continued)

Line #	SYSTEM TITLE	DESCRIPTION - INFORMATION TRACKED	PUBLIC ACCESS YES/NO	AGE OF SYSTEM or DATABASE	UPGRADES AND REASON
Solid Waste Management Administration					
13	Scale System	Scale system database is used for all of the transfer station operation.	N	4.5 years	As needed
14	Work Management System - Trakster	SQLServer database containing all SWMA operational data based on route. Includes time, personnel assignments, tonnage, equipment, service request information Includes an interface to CSR to bring service requests in and to close out service requests in both systems.	N	8 years	Daily updates, system upgrades as needed
15	Web-based Leaf Collection Tracking	SQLServer database containing attribute information associated with street centerlines that tracks leaf collection status of that street segment .	Y, indirectly	2 years	Daily database updates during leaf season
16	Web-based Street and Alley Cleaning Tracking	SQLServer database containing attribute information associated with street centerlines that tracks cleaning status of that street or alley segment.	N	2 years	Intended for daily, has not been used yet due to lack of resources
17	Commercial Recycling & Haulers Tracking System	SQLServer database used to track and manage commercial recycling plans and commercial recycling haulers registered with DPW.	N	9 years	As requested
18	eSWEEP	new Mobile public space ticket issuance and mangement system. Tracks and manages notice of violations(NOV) from electronic issuance, notification to violator thru final decision render from the Office of Administrative Hearings (OAH) in accordance with the Litter Control Act.	N	2.5 years	As requested
19	ETIMS/SWEEP TICKET PROCESSING	ACS vendor proprietary ticket information management system managed by DMV. Used to track, manage and report on SWEEP tickets issued with final disposition rendered from OAH.	N	SWEEP users (5 years)	Daily database updates
Office of the Director					
20	Motorola Customer Service System (311 System)	Citywide system for logging citizen requests for service administered by the Office of Unified Communications and accessed by agencies that perform the services scheduled through the system.	Y	4.5 years	Database updated daily, System upgraded as needed/requested
Human Capital Administration					
21	Compliance Information System	SQLServer database containing DPW and DDOT drug and Alcohol testing.	N	7 years	As needed/requested
Office of Information Technology Services					
22	DPW IT Equipment Inventory	Strategic Asset Management System - Computer equipment inventory logs equipment make, model, serial #, location of equipment, and warranty information.	N	6 years	Updated monthly, upgraded as needed/requested

Electronic Databases Maintained by DPW (continued)

Line #	SYSTEM TITLE	DESCRIPTION - INFORMATION TRACKED	PUBLIC ACCESS YES/NO	AGE OF SYSTEM or DATABASE	UPGRADES AND REASON
Parking Enforcement Management Administration					
23	Auto Impound Management System (AIMS)	AIMS system Microsoft's 2003 server, SQL database, Visual Basic front end and Wave Link wireless handheld front-end software. Uses active call queue to display vehicles in route to the impoundment lot. Impounds vehicles, Owner Notification, Inventory Maintenance, Vehicle Disposition, and System Administration. Interfaces with Citywide CAD System, manual data export to eTIMS.	N	6 years	As needed
24	MES (Back Office users)	Mobile Enforcement System (MES) database used to administer the ticketing handheld software accounts.	N	System 12 years - Oracle database 1.5 years	Database updated daily, system upgraded as needed/requested
25	MES-ROSA (Back Office users)	Mobile Enforcement System (MES) database used to administer the ROSA application on PEMA MDTs.	N	System 7 years - Oracle database 1.5 years	Database updated daily, system upgraded as needed/requested
26	MES-RPP (Back Office users)	Mobile Enforcement System (MES) database used to administer the RPP application on PEMA MDTs.	N	System 12 years - Oracle database 1.5 years	Database updated daily, system upgraded as needed/requested
27	MES-Towing System (Back Office users)	Mobile Enforcement System (MES) database used to administer the Towing application on PEMA MDTs.	N	2.5 years	Database updated daily, system upgraded as needed/requested
28	MES-TicPix	Mobile Enforcement System (MES) module used to review pictures taken to support parking tickets written by PEMA Parking Enforcement Officers	N	2 year	
29	GoogleDocs for Rush Hour Tows (Editors + Viewers)	A Google Docs table that generates temporary Towing Control Numbers that allow crane drivers to conduct their work in the field without being delayed by a wait for the assignment of an official TCN by the CAD system. The official TCN is later associated with the temporary number so the details of the tow can be entered into CAD.	N	6 years	Database updated daily,
30	CAD Users (Operators and Management)	Centralized Towing System is a module of the Intergraph CAD system operated by Office of Unified Communications. It tracks all information related to towed vehicles including locations towed from and towed to, times, vehicle make, model, color, and tag.	In part - through the DPW vehicle locator web interface	7 years	Database updated daily, system upgraded as needed/requested
31	Intellirex Auctioning (Operators and Management)	On-line abandoned vehicle auctioning system that tracks vehicles, customers, bidding, and transactions related to disposal of abandoned vehicles.	Y	4 years - Acquired service since 2010 and hosted by vendor.	
32	Phase II (applicable users)	Old abandoned vehicle system used for historic data lookup.	N	21 years	No longer upgraded

Electronic Databases Maintained by DPW (continued)

Line #	SYSTEM TITLE	DESCRIPTION - INFORMATION TRACKED	PUBLIC ACCESS YES/NO	AGE OF SYSTEM or DATABASE	UPGRADES AND REASON
Fleet Management Administration					
33	Fleet Management System, FasterCS	Database used by DPW FMA, MPD, and Fire & EMS to track and manage all Fleet vehicle parts, maintenance and labor performed by DPW, FEMS and MPD.	N	20 years	DPW will upgrade from FASTER WIN to FASTER WEB. The current Fleet Management System FASTER WIN, runs in a Citrix application infrastructure environment, is nearing the end of its life cycle, and has not been upgraded in over five years. FASTER WEB will allow the District's Fleet users easier deployment and accessibility of the application through a web browser such as Microsoft's Internet Explorer, thereby eliminating the requirement of the Citrix software being installed/configured on each user login profile desiring to access the Fleet Management System.
34	FLEET Survey Web Application	Database used by DPW FMA for customer service survey web application. It is used to track and manage FMA customer service survey web information.	Y	4 years	As needed
35	Invoice Tracking	Database used internally by DPW FMA to track and manage its invoices.	N	12 years	As needed
36	Fuel Management System (WardProd)	Database used by DPW FMA to track fuel usage of DC Govt. Vehicles and manage DC Govt. fuel sites.	N	13 years	As needed
37	Fleet Share	Application tracks a subset of DPW's fleet vehicles at District locations and District Government users.	N	5 years	As needed

- 8 What has the agency done in the past year to make the activities of the agency more **transparent** to the public? In addition, please identify ways in which the activities of the agency and information retained by the agency could be made more transparent.

The Public Affairs Office launched its new Web site in March 2013, which transferred existing DPW information into the Drupal format, a more visual and accessible format for information retrieval. Customers now may link directly to multiple DPW services and information sites from the home page. Another home page feature is the link to the holiday trash and recycling collections schedule. Now residents have easier access to the schedule. Another new feature is the "New to the Neighborhood" block on the home page. DPW needed a way to get the attention of new residents who don't know "how we

do things" so we created this block with links to pertinent information about parking enforcement, rules for disposing of items at Ft. Totten, sanitation services and what to do when it snows.

- 9 How does the agency solicit **feedback** from customers? Please describe.
- What is the nature of comments received? Please describe.
 - How has the agency changed its practices as a result of such feedback?

A primary tool is Grade.DC.gov, which gives customers the opportunity to comment on current DPW services as well as offer their opinion about what new services should be offered or how current services can be refined to better suit their needs. Among the comments received that influenced our decision making is the request for larger recycling cans. Since 2005 when DPW began single-stream recycling, we have seen an increase in the amount of items residents recycle. In some households recycling amounts now exceed those of trash thus requiring a larger can. As a result, the recycling diversion rate has more than doubled, up from 13% to 28% and in FY 2014 DPW is distributing new, larger recycling cans to all recycling collection customers.

DPW also has a very active role in neighborhood listservs, where we receive significant feedback about our services and much of that feedback is generated by residents new to the District. Now, we are more careful about using jargon in information posted on the listservs and give more extensive explanations of services.

- 10 How was the agency tried to reduce agency energy use in FY 2013?

During FY 2013, DPW attempted to reduce its energy usage by continuing to utilize the electric charging stations at the Reeves Center (2000 - 14th Street, NW) and at 441 - 4th Street, NW for electric vehicles in the District fleet.

- 11 Please complete the following chart about the residency of **new hires**:

Figure 9: [Question 11] Number of Employees Hired in FY 2013 and FY 2014YTD

Position Type	Total Number		Number Who are District Residents	
	FY 2013	FY 2014 YTD	FY 2013	FY 2014 YTD
Continuing	2	14	1	11
Term	17	4	12	1
Temporary	161	163	149	142
Contract	0	0		

B. Budget and Finance

12 Please provide a chart showing your agency’s **approved budget and actual spending**, by division, for FY 2013 and FY 2014, to date. In addition, please describe any variance between fiscal year appropriations and actual expenditures.

- 15 Please identify any **special purpose revenue accounts** maintained by, used by, or available for use by your agency during FY 2013 or FY 2014, to date. For each account, please list the following:
- The revenue source name and code
 - The source of funding
 - A description of the program that generates the funds.
 - The amount of funds generated by each source or program in FY 2013 and FY 2014, to date
 - Expenditures of funds, including the purpose of each expenditure, for FY 2013 and FY 2014, to date

Figure 20: [Question 15] Special Purpose Revenue Funds (FY 2013 and FY 2014 YTD)

Fund Detail	Title (Source Name)	DC Code	Who Pays (Fund Source)	Description	FY13		FY14		
					Revenue	Expenditures	Revenue	Encumbrances	Expenditures
6000	Fleet Services Reimbursable	DC Budget Support Act.	Vendors, sponsors or those who put on the events. Law 6-100 Litter Control Administration Act of 1985 DC Code 45-2559 DC Law 7-38, Litter Control Expansion Act of 1987; DC Act 6 - 128	Persons who violate the District's sanitation laws.	DPW recovers the clean-up related costs it incurs when it has to remediate a private property that fails to meet the City's "Clean It or Lien It" standards.	2,169,523.08	2,106,920.69	374,414.67	248,840.00	306,147.92
					\$ 7,388,519.06	\$ 6,270,459.07	\$ 1,588,200.15	\$ 2,583,345.00	\$ 706,204.77

- 16 Please provide a list of all projects for which your agency currently has **capital funds** available. Please include the following:
- A description of each project, including any projects to replace aging infrastructure (e.g., water mains and pipes).
 - The amount of capital funds available for each project
 - A status report on each project, including a timeframe for completion
 - Planned remaining spending on the project

Figure 21: [Question 16] Projects with Capital Funds Currently Available

Project	Description	Status	Planned Spending Remaining
Benning Road Solid Waste Transfer	Repair of the Benning Road trash Transfer Facility due to a fire that caused significant damage to the buildings. The repairs to the facility will include but are not limited to a new roof, new lighting repair of the floor etc.	Project is 95% complete.	Current available funds: \$91,850.76 All available funds will be exhausted to complete the project.
SWS12C – Security Cameras	Purchase and installation of video surveillance equipment, in lieu of having full-time security guards, at the West Virginia Avenue, NE campus and the Fort Totten Trash Transfer Station.	The project is currently out for bid and is scheduled to be completed within 180 days of the Notice to Proceed date. The anticipated award date is March 28, 2014.	Current available funds: \$48,948.61 All available funds will be exhausted to complete the project.
FS101C – Upgrade to DPW Fueling Sites	The Department of Public Works will continue to upgrade the District's existing fuel sites throughout the city. With EPA, DOH, DCFD, and DCRA regulations being revised on a consistent basis, DPW is mandated to maintain all current and changing standards.	Scope of Work for project is currently under development. Anticipated date of completion is March 30, 2014.	Current available funds: \$648,024.10 All available funds will be exhausted to complete the project.

- 17 Please provide a complete accounting of all **federal grants** received for FY 2013 and FY 2014, to date.

DPW received a federal grant in FY2013 in the amount of \$237,600 for the License Plate Recognition system. DPW has not received any Federal grants in FY2014 year to date.

- 18 Please list each contract, procurement, lease, and grant ("**contract**") awarded, entered into, extended and option years exercised, by your agency during FY 2013 and FY 2014, to date. For each contract, please provide the following information, where applicable:
- The name of the contracting party
 - The nature of the contract, including the end product or service
 - The dollar amount of the contract, including budgeted amount and actually spent
 - The term of the contract
 - Whether the contract was competitively bid or not
 - The name of the agency's contract monitor and the results of any monitoring activity
 - Funding source

See Figure 43: [Question 18] Contracts Awarded by DPW during FY 2014YTD on page 187 and Figure 44: [Question 18] Contracts Awarded by DPW during FY 2013 on page 196.

- 19 Please provide the details of any **surplus** in the agency's budget for FY 2013, including:
- Total amount of the surplus.
 - All projects and/or initiatives that contributed to the surplus.

DPW had a surplus in Fund 6082 (Trash and Disposal) of \$677,494.02 as a result of not finding enough expenditures eligible for usage of this particular fund.

C. Laws, Audits, and Studies

- 20 Please identify any **legislative requirements** that the agency lacks sufficient resources to properly implement.

The Department is not aware of any legislative requirements that we have insufficient resources to properly implement.

- 21 Please identify any statutory or regulatory **impediments** to your agency's operations.

The Department is not aware of any statutory or regulator impediments to our operations.

- 22 Please list all **regulations** for which the agency is responsible for oversight or implementation. Please list by chapter and subject heading, including the date of the most recent revision.

- 23 Please explain the impact on your agency of any **federal legislation or regulations** adopted during FY 2013 that significantly affect agency operations.

DPW is not aware of any federal legislation or regulations adopted during FY2013 that significantly affect agency operations.

24 Please provide a list of all **MOUs** in place during FY 2013.

Figure 22: [Question 24] MOUs in Place for FY 2013

Collaborating Agency	Description
OCA	Citywide MOU for disposal and recycling services provided at DPW's trash transfer stations.
OAG	DPW sought legal services including legal advice, litigation support and programmatic support to its operations from OAG.
HSEMA	HSEMA provided grant funds for purchase and use of new license plate recognition technology by DPW.
DDOT	DDOT sought equipment and staff with requisite skills to maintain the right of way for DDOT under the public space cleaning program.
DMH	DMH sought drug and alcohol testing services and training from DPW.
DCPL	DCPL bought defensive driver training services from DPW.
DGS	DPW bought security services for its Okie Street NE facility from DGS.
DDOT	DDOT purchased DPW Drug and Alcohol Testing services for employees who are required to have a CDL in order to perform their jobs.
DDOE	DDOE provided funding to DPW to assist in implementation of street sweeping, collection and disposal of household hazardous waste and public education activities under the MS4 Enterprise fund
DCBOEE	DC BOEE sought services of 29 licensed drivers to transport and deliver election results during the primary and general elections.
DC Commission on Art & Humanities	DC CAH assisted in the installation and furnish public art under the DC Murals program
ORCA	DPW provided Commercial Driver's License training to returning citizens.
DDOT & DC Water	DDOT and DC Water provided services, including equipment and labor, to assist DPW with emergency snow removal and ice control operations.
OCTO	OCTO provided configuration and installation of 45 PCs.
OCTO	OCTO provided configuration and installation of 42 PCs.
OCTO	DC Net provided 37 indoor and 2 outdoor access points, wireless services and related peripheral hardware to DPW/FMA.
DDOE, DDOT, DMV	Agencies transferred funds back to DPW for shared services provided by CFO.
St. Elizabeth's Hospital	DPW provided access to solid waste transfer facilities.

- 25 Please provide a list of all studies, research papers, and analyses (“**studies**”) the agency requested, prepared, or contracted for during FY 2013. Please state the status and purpose of each study.

Figure 23: [Question 25] Studies DPW Requested, Prepared, or Contracted (FY13)

Topic	Status	Purpose
Mobile Computing 2013-1016 Strategic Plan	Completed June 5, 2013	Because the operations of DPW are essentially in the field (City sanitation services, parking enforcement, fleet services for District staff use of vehicles), it is crucial in field communications, and in staff's use of portable devices, that DPW is aware of the direction of the market, the communication and intelligent devices available, coming, and planned in the market as it relates to DPW's acquisition of devices, and communication and mobile computing services.
Roadmap For The Long-Term Solid Waste Management Needs Of The District	DPW plans to conduct a public session in the near future to further explain the study and to receive resident and interest group feedback.	Study that will provide a strategic roadmap for the long-term solid waste management needs of the District. The study will include the development of a quantitative planning tool that will calculate the amount of air, land and water resources that our current solid waste management system uses. DPW plans to use that information to compare several alternative solid waste management strategies including source reduction, material reuse, increased recycling and refining residual materials for energy. These data will be used in the future design of an integrated solid waste management system that returns value to the District economy in the form of jobs, localized control of materials, and natural capital asset capacity.

- 26 Please list and describe any ongoing **investigations**, audits, or reports on your agency or any employee of your agency, or any investigations, studies, audits, or reports on your agency or any employee of your agency that were completed during FY 2013 or FY 2014, to date.

- a) The Office of the Inspector General issued a Significant Activity Report, on December 20, 2012, regarding a DPW employee being convicted of and sentenced for uttering, passing counterfeit currency at a local

department store. The U. S. District Court Judge sentenced the employee to 24 months of supervised probation.

- b) The Office of the Inspector General is conducting an evaluation of parking ticket writing in the District of Columbia. The OIG is reviewing the operations of agencies with parking ticket writing authority. DPW met with the OIG in September of 2013 and has since responded to their inquiries and facilitated observation of our parking enforcement officers on patrol.
- c) The Office of the Inspector General is also conducting an audit of overtime of DPW, DDOT, DMV and DDOE. A few years ago, DPW requested an audit to ensure there was no theft of overtime. The OIG decided to review the operations cluster.

- 27 Please identify all **recommendations** identified by the Office of the Inspector General, D.C. Auditor, or other federal or local oversight entities during the previous 3 years. Please provide an update on what actions have been taken to address these recommendations.

Findings of the Committee's Review of the Procurement and Use of DC Official Vehicles, Committee on Public Works and the Environment (April 12, 2011) After reviewing the procurement and use of DC Official Vehicle, the Committee on Public Works and the Environment issued their findings which included the following recommendations:

1. The Mayor must require DPW to follow and implement centralized fleet management as required by mayor's Order 2000-75 and implement recommendations of the Auditor's report;
2. They Mayor should provide standards for certifying that a larger-than-compact vehicle is essential to an agency's mission;
3. The Mayor should review the assignment of chauffeurs and ensure that Council receives quarterly reporting for agencies that use chauffeurs;
4. The Mayor should examine coordination between all appropriate agencies including DPW, DMV, and the Office of Risk Management , to ensure agencies receive citation information promptly and subsequently hold employees accountable for citations received while using a District vehicle;
5. The Mayor should examine other opportunities to reduce fleet demand including :
 - a. Publicizing existing regulations on reimbursement for use of public transit and taxis for appropriate work travel;
 - b. Evaluate the process for employees to use personal vehicles for

- work trips; and
- c. Develop incentives for employees to use Capitol bikeshare for suitable work travel.
6. The Mayor and Council should consider legislation that allows for some greater flexibility to make the most efficient use of District employees' travel time;
 7. DPW must immediately begin following district law with respect to the SUV prohibition by not leasing or purchasing non-exempt SUVs;
 8. DPW must immediately begin following District law with respect to miles per gallon requirements by not leasing or purchasing non-exempt vehicles that fall below EPA estimated 22 mpg;
 9. DPW must implement a centralized fleet management policy, as required by Mayor's Order 2000-75, beginning with a comprehensive inventory of all vehicles owned by the District;
 10. DPW must establish clear responsibilities and procedures for ensuring that procurement and use of District fleet vehicles comply with District law; and
 11. DPW must review individual agency fleet policies to be sure that all restrictions on vehicle procurement are included.

Internal operational changes along with the Employee Transportation Act of 2012 address the concerns raised in the Fleet Management Audit and the findings regarding the procurement and use of DC Government vehicles. The following are some of the changes that have been implemented since the audit and findings:

1. All agencies except a select few, i.e. MPD, FEMS, DOC, are required to procure and lease vehicles through DPW;
2. New procedures, including a written justification from the requesting agency, for purchase or lease of non-compact vehicles have been implemented;
3. Quarterly, DPW submits its report on the use of chauffeur to Council;
4. DPW notifies each agency, weekly, of parking or automated enforcement tickets issued to vehicles assigned to their agency. Satisfaction of those tickets is still an issue. Last council period, the Mayor proposed the District of Columbia employee Motor Vehicle Responsibility Act of 2011. The committee on Government Operations and Environment did not move the bill, however, the Mayor is prepared to re-submit the bill;

5. Rather than rely on the inventory an agency admits it has, DPW will conduct a physical inventory of the equipment assigned to each agency; and
6. DPW will conduct an assessment of the equipment in an agency's inventory to determine if has met the end of its useful life. If it is no longer viable to maintain and repair the equipment, recommendations for replacement equipment will be made.

D. Program-Specific Questions

I. Solid Waste Management Administration

28 Please list the amount of waste and recyclables collected by type (i.e. household waste, household recycling, bulk trash, electronic waste, hazardous waste) in FY 2012, FY 2013, and FY 2014, to date.

See Figure 24: [Question 28] Waste and Recyclables Collected by Type (in Tons) for FY 2012, FY 2013, and Q1-FY 2014 and Figure 25: [Question 28] Household Hazardous Waste Data for FY 2012, FY 2013, and Q1-FY 2014.

Figure 24: [Question 28] Waste and Recyclables Collected by Type (in Tons) for FY 2012, FY 2013, and Q1-FY 2014

Material Type Collected	Tonnage		
	FY 2012	FY 2013	FY 2014 (Qtr1)
Household Waste	96,444	93,827	22,260
Household (Curbside) Recyclables	26,468	32,216	7,754
Bulk Trash	2,944	2,594	638
Seasonal leaves	8,203	5,920	5,939
Shredded paper	120	137	34
Electronic Waste	130	137	
Total	134,309	134,831	36,625

Figure 25: [Question 28] Household Hazardous Waste Data for FY 2012, FY 2013, and Q1-FY 2014

Line #	Waste Category	FY 2012	FY 2013	FY 2014 (1st Qtr)
1	Participation (# of cars)	5,628	4,110	1,672
2	Lab Pack Waste Propane (Recycling) Unit Pounds	2,200	2,000	1,000
3	Lab Pack Waste Fire Extinguishers (Unit Pounds)	2,200	1,600	-
4	Lab Pack Waste Flammable Solid (Unit Pounds)	1,200	400	200
5	Bulk Waste Flammable Liquid (Gas, Thinners, Solvents, Automotive Products, Kerosene, Paint) Unit Gallons	-	-	-
6	Lab Pack Waste Flammable Liquid (paints, roofing, tar, driveway sealers) Unit Pounds)	17,900	22,300	-
7	Lab Pack Waste Oxidizers (pool chemicals, household cleaners) Unit Pounds	3,000	3,000	1,400
8	Lab Pack Organic Peroxides (treatment)	-	-	-
9	Lab Pack Waste Pesticides Liquid (insecticides) Unit Pounds	8,400	8,800	-
10	Lab Pack Waste Pesticides Solid (insecticides) Unit Pounds)	6,400	8,400	3,200
11	Lab Pack Waste Corrosive Acid (household cleaners, photographic supplies, battery fluid) Unit Pounds)	4,400	3,000	2,000
12	Lab Pack Waste Corrosive Basic (household cleaners, photographic supplies, battery fluid) Unit Pounds	18,200	14,600	-
13	Lab Pack Waste Toxic (Unit Pounds)	-	400	600
14	Lab Pack Mercury Light Bulbs (Fluorescent Bulbs & mercury lamps) Unit Pounds	4,700	4,325	1,750
15	Lab Pack Rechargeable Batteries (recycling)	-	-	-
16	Lab Pack Non-Regulated Dry Cell Batteries (AA, A, C & D) Unit Pounds	-	-	-
17	Asbestos (secure landfill)	3,000	1,600	-
18	Lab Pack Mercury (Unit Pounds)	195	-	-
19	Bulk Non-Regulated Motor Oil (Unit Gallons)	1,200	-	110
20	Bulk Non-Regulated Antifreeze (Unit Gallons)	250	-	-
21	Car Batteries (recycling)	41	3	-
22	Propane Tanks	18	2	-
23	Lab Pack Flammable Aerosols (Unit Pounds)	9,200	8,000	3,600
24				
25	Total Drums	649	650	255
26	Total Gallons	29,535	31,075	10,245
27	Total Pounds	60,095	54,595	23,350

- 29 In the FY 2014 budget, the Committee provided additional funds to increase the collection of household hazardous waste and materials for e-cycling and shredding from monthly collection to twice-monthly collection. Why has DPW not implemented this program? How does DPW intend to use these funds?

DPW has used the first part of FY 2014 to develop a model for what it will cost to offer this service every week. We plan to begin offering the expanded collection service April 5, 2014. We are also exploring the feasibility of using this funding to establish permanent drop-off capacity at the Fort Totten Transfer Station to support the household hazardous waste and electronics programs. Shredding services will continue to be provided on a monthly basis.

- 30 Last spring DPW piloted a composting program where it collected food waste from District restaurants. What was the result of this pilot? What plans does DPW have to re-launch or expand the program?

The Solid Waste Management Administration implemented a commercial food waste acceptance and transfer pilot program in FY 2013 to identify the operational and financial constraints of providing this service. The service was offered to all licensed commercial haulers in the District and was located indoors, on the tipping floor of the Benning Road Transfer Station.

The pilot program operated for four (4) months: April 1, 2013 through July 31, 2013. Our contractor, Urban Services, transported food waste from the Benning Road site to the McGill Environmental Systems Inc. processing site, which is located south of Richmond, Virginia. McGill Inc. is an organics recycling company that produces compost and soil amendment products for retail sale.

The pilot program received 862 tons of food waste, but only 433 tons were suitable for composting, a 50% contamination rate. Contaminants included glass, plastics, metals and other non-compostable materials. SWMA charged haulers participating in the pilot program \$62.52 per ton for food waste delivered. In comparison, SWMA charges \$50.62 per ton of trash delivered. Both fees reflect our costs.

The pilot was concluded on July 31, 2013. DPW learned that there is a need for education and quality control on the part of the business contracting for food waste disposal before it is collected. Post-consumer food waste is very likely to be contaminated. We also learned that the economics of food waste composting are too expensive when compared with trash disposal in part because there are no facilities located in the immediate metropolitan Washington area that accept food waste for composting. The closest commercial facilities available at this time are located south of Richmond or in Delaware at the base of the Delaware Memorial Bridge. The on-going pilots in

Prince George's County and Howard County are limited to County-generated materials only.

DPW solicited for this service again in the Fall 2013. We received no bids. At this time, we are waiting for food waste composters to establish businesses closer to the District.

- 31 What is the status of the meetings that DPW has had with DC Water and DDOE to collect food waste from the city for composting through DC Water's anaerobic digesters at Blue Plains?

DC Water is testing the viability of introducing food waste into their anaerobic digesters once they are fully operational, approximately two years after start up. They are working with DPW and a private waste management firm to test food slurries in a model digester to see how to best to introduce food into that system. The food must be in a homogeneous state to work in the digester and requires pre-processing before it can be injected into the system. We should have some additional results later this spring.

- 32 Director Howland stated during DPW's 2013 oversight hearing that SWEEP inspectors would be cross-trained to identify both recycling and waste violations. Has this happened?

SWEEP has provided training to all solid waste inspectors on the recycling regulations. Some inspectors feel very comfortable issuing citations for recycling regulations while others do not. During FY 2014, SWEEP and the Office of Recycling is developing additional recycling training, which will include pairing recycling investigators with solid waste inspectors for field inspections. By the end of FY 2014 every solid waste inspector will have been prepared to issue citations for recycling violations.

33 Please list the number of citations DPW issued in FY 2013 related to recycling by type.

Figure 26: [Question 33] Recycling Citations Issued by Type (FY2013)

Violation	# of Tickets Issued		
	Total	Commercial Properties	Apartments, Condos, Residential
Failure to Separate Recycling from Other Solid Waste	1,200	545	655
Failure to have sufficient number of containers for recyclables	709	305	404
Failure to have a valid recycling registration	32	32	0
Failure to provide timely quarterly report	10	10	0
Failure to Arrange for proper removal of recyclables	28	15	13
Failure to post recycling signs	3	1	2
Insufficient collection of recyclables	3	1	2
Total	1,985	909	1,026

34 Please list the recycling diversion rates for FY 2011, FY 2012, and FY 2013. Has there been a significant change in the diversion rates?

There has been a 33% increase in the residential diversion rate during this period: DPW's service population is putting more recyclables out for collection curbside and DPW is composting more seasonal leaves, holiday trees, and storm debris.

The information provided in Figure 27: [Question 34] Residential Recycling Diversion Rate FY 2011 – FY 2013 is the *residential* recycling diversion rate, as that is the only sector for which we have complete information.

Figure 27: [Question 34] Residential Recycling Diversion Rate FY 2011 – FY 2013

Fiscal Year	Residential Diversion Rate
2011	21.24%
2012	25.85%
2013	28.3%

- 35 When did DPW last update recycling education materials for both commercial and residential properties? In the FY 2014 budget, the Committee provided \$58,000 to increase recycling education. How is DPW using these funds?

SWEEP developed and issued new recycling and solid waste outreach and education materials for both residential and commercial properties in 2013. There is \$58,000 in FY2014 Budget for recycling public information. The Public Information Office and SWEEP are in the process of reviewing all recycling materials and developing new materials. SWEEP/DPW is looking to also use social media (twitter, facebook and instagram) to get more information on recycling and solid waste storage to residents and businesses.

- 36 What is the status of DPW's waste-to-energy study? Please provide a timeline for this project.

The Department of Public Works contracted for a study that will provide a strategic roadmap for the long term solid waste management needs of the District. This is not a waste-to-energy study.

The study will include the development of a quantitative planning tool that will calculate the amount of air, land and water resources that our current solid waste management system uses. DPW plans to use that information to compare several alternative solid waste management strategies including source reduction, material reuse, increased recycling and refining residual materials for energy. This data will be used in the future design of an integrated solid waste management system that returns value to the District economy in the form of jobs, localized control of materials and natural capital asset capacity.

DPW plans to conduct a public session the week of April 7th to further explain the study and to receive resident and interest group feedback. A final report will be delivered to DPW by the end of FY 2014.

II. Snow Removal

- 37 During FY 2012, DPW acquired salt trucks with aluminum beds to prevent corrosion of the trucks. How are the new aluminum beds performing during this busy snow season?

The trucks with aluminum bodies are performing well. We have had good performance so far. Time will tell the outcome but with our maintenance and spring cleaning of all equipment, we expect a long service period with these trucks.

- 38 In addition to using a beet-derived de-icing chemical, is DPW using other green practices to manage snow removal?

DPW continues to research products and stay informed of the experiences and tests conducted by other jurisdictions and organizations, such as Clear Roads and the American Association of State Highway Transportation Officials (AASHTO) with the use of the range of deicing products and techniques.

The District uses two products – rock salt and a salt brine/beet juice mixture. Rock salt is the primary product, and approximately 25,000 tons are used during a typical winter. It is applied to all road and bridge surfaces. The salt brine/beet juice mixture is used to pre-treat bridges, overpasses, ramps, other elevated structures and streets that present a particular challenge to clear snow and ice.

The brine/beet juice mixture is applied by spraying on the surfaces days in advance of a snow event. The beet juice additive holds the brine in the pores of the pavement and even after the liquid dries, the mixture remains effective to melt snow and ice days after application.

What DPW has done to reduce the use of rock salt is to pre-treat more roads, more frequently with the brine mixture. We are also using a pet-friendly de-icer on our high pedestrian bridge sidewalks.

This winter DPW introduced a pet friendly ice melt for the sidewalk bridges. The results have been very good. The ice melt has been effective in keeping the sidewalks safe and there have been no complaints from pet owners this winter about the product harming their pets.

III. Parking Enforcement Management Administration

39 Please list the approximate number of parking enforcement officers, booting staff, and towing staff, in FY 2010, FY 2011, FY 2012, and FY 2013.

Figure 28: [Question 39] Parking Enforcement Staff Count (FY 2010 – FY 2013)

Position	Fiscal Year			
	2010	2011	2012	2013
Parking Enforcement Officer	231	219	205	190
Lead Parking Enforcement Officer	21	21	21	19
TOTAL PARKING ENFORCEMENT OFFICERS	252	240	226	209
Booter	18	19	7	7
Booter Leader	1	n/a	n/a	n/a
TOTAL BOOTERS	19	19	7	7
TOTAL MOTOR VEHICLE OPERATORS	29	29	32	26

40 For FY 2010, FY 2011, FY 2012, and FY 2013, please list the number of citations, by type, that PEMA officers wrote and the number of vehicles booted.

See Figure 29: [Question 40] Parking Enforcement Citations Issued by Type (FY 2010 – FY 2013) on page 48.

- 41 Are PEMA officers still observing wide-spread fraudulent uses of disability placards? If so, how does PEMA address this problem? Does PEMA contact MPD or other agencies when officers suspect abuse?

Yes, DPW is still observing fraudulent use of the disability placards. There has been no change in the use from last year. DPW-PEMA Parking Enforcement Officers are mandated to honor all disabled parking placards from every state in the United States of America. DPW-PEMA has no authority to question or address the abuse of disabled parking in the District. DPW-PEMA does enforce those vehicles not eligible to park in designated disabled spaces including private residential disabled reserved spaces. Parking officers do not notify MPD when they suspect abuse of disabled parking.

- 42 In the FY 2014 budget, the Committee created and funded 30 new parking enforcement officers. How many of these new positions have been filled?

To date, 22 positions have been filled with ten of the Parking Enforcement Officers starting on February 24, 2014. At this point, eight of the 30 positions have not been filled.

IV. Fleet Management Administration

43 Please list the number of vehicles in the fleet, by type, in FY 2012 and FY 2013.

The FASTER fleet management software does not currently have the capability to report inventory counts/information for a particular timeframe in the past. To that end, current inventory information is provided in **Figure 30**: [Question 43] Number of Vehicles in the Fleet by Type (FY 2014) on page 54.

- 44 How many fueling sites does DPW manage? How many of these sites offer CNG and other types of alternative fuels? What has DPW done to increase the use of alternative fuels?

DPW manages twelve fueling sites. Two sites offer CNG; one fast-fill at 1835 West Virginia Ave NE, and one time-fill at 1241 W St NE. One site (West Virginia Ave) offers ethanol (E-85). Five sites offer biodiesel; West Virginia, Ft Totten, MPD 2nd District, MPD 3rd District, MPD 6th District.

In FY 2013 DPW continued to be a national leader in the use of Biodiesel providing 1,375,287 gallons to the District fleet. According to the Department of Energy's Alternative Fuel Life-Cycle Environmental and Economic Transportation (AFLEET) Tool's conversion factors, the use of Biodiesel in place of Diesel fuel reduced the District's fleet greenhouse gas emissions by 2,173 tons and displaced 183,868 gallons of diesel with pure B100 biodiesel in FY 2013.

DPW has also submitted a capital enhancement request for the construction of two new CNG fueling stations that will allow for expansion of the District's CNG fleet. At least one of these new stations will make CNG available to the public in order to expand CNG usage and improve air quality in the District.

During the fiscal year, DPW purchased and/or leased 220 new flex-fuel vehicles that use E-85 motor fuel. These vehicles along with increased E-85 usage from existing flex-fuel vehicles helped DPW displace 306,096 gallons of unleaded fuel with E-85 in FY 2013, a 35% increase from FY 2012.

- 45 Approximately what percentage of the fleet operates on CNG or other alternative fuels?

Approximately 46.04% of the fleet operates on CNG or other alternative fuels.

V. Agency Management

- 46 During last year's oversight hearing, DPW mentioned that it started a "Thrive in the Workplace" program to train employees in the Street and Alley Cleaning Division. What is the status of that program?

DPW successfully implemented a pilot of the Thriving in the Workplace Program in FY 2013. The program began with 22 employees and 15 supervisors in the Street and Alley Cleaning division. The program consisted of a total training of 80 hours in Computer Proficiency, English/Math Enrichment, Customer Service, Workplace Ethics, Conflict Resolution, Critical Thinking and Taking Initiative/Leadership. Twelve (12) employees successfully completed the program and fifteen (15) supervisors have completed the first half and will complete the second half after the snow season. The Department of Human Resources has embedded the Thriving in the Workplace program as a core component of its Enterprise Learning Management program which provides development opportunities to all District government employees at every level of employment.

Answer to Question #3 (Organization and Operations)

Answer to Question #13 (Budget and Finance)

Figure 34: [Question 13] DPW-AMP FY2014YTD Reprogrammings

AMP FY2014 Reprogrammings										
FUND	ORG	PCA	CSG	COBJ	ORIG BUDG	IN	OUT	REV BUDG	DATE	
0100	1080	COM80	0020	0201	500.00	8,000.00		8,500.00	1/14/2014	
0100	1080	COM80	0041	0409	37,700.00		(8,000.00)	29,700.00	1/14/2014	
					\$38,200.00	\$8,000.00	(\$8,000.00)	\$38,200.00		

This reprogramming was to re-align the budget to correctly reflect spending.
