D.C. Department of Transportation: Workers Compensation Payments in FY 2

Workers Compensation	Payment Type			
Fiscal Year	Allocated Loss Expense	Indemnity	Medical	Grand Total
2015	\$2,750.95	\$312,996.34	\$89,489.27	\$405,236.56
2016		\$137,503.35	\$51,612.89	\$189,116.24
Grand Total	\$2,750.95	\$450,499.69	\$141,102.16	\$594,352.80

!015 and FY 2016 (To Date)

DDOT Information Technology Electronic Systems

AASHTOWare

This desktop application is a design system for transportation construction tracking and cost estimates. It helps DDOT in building cost estimates for procurement bidding and managing field operation cost. This application is used by all DOTs in the US and includes several extensions and modules.

- System Age – 11 years
- Last Upgrade – 2014
- Data Available to Public – No

ARCMAP & ArcGIS Online

Software delivering Geographic Information System (GIS) solutions. DDOT is part of the District's Enterprise License Agreement (ELA).

- System Age – 13 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL - <https://sp3.ddot.dc.gov/oi/data/DataWiki/Home.aspx>

CaBi Dashboard

This is a web-based solution that provides a CaBi dashboard and publishes over 16 key performance metrics of the Capital Bikeshare program to the public.

- System Age – 9 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL - <http://cabidashboard.ddot.dc.gov/CaBiDashboard/#Home>

DDOT Information Technology Electronic Systems

Call Center Console

Call Center Console allows DDOT's Call Center representatives to capture and track internal and external requests (phone calls).

- System Age – 2 year
- Last Upgrade – 2014
- Data Available to Public – No

Call for Projects Intake Form

The "Call for Projects" Intake Form is a web-based application that collects projects and programs for each administration within DDOT to support the project submission process and approval process.

- System Age – 3 years
- Last Upgrade - 2014
- Data Available to Public – No

CapTop

This web-based/GIS centric system is used by DDOT's Traffic Management Center for traffic operation, incident management, traffic data collection, processing, data sharing, and traffic performance evaluations.

- System Age – 4 years
- Last Upgrade – 2014
- Data Available to Public – No

Cityworks

This is a web-based/Commercial of the Shelf (COTS) Work Order Management System DDOT uses to manage over 250K 311 Service Request (SR) each year. This system currently integrates with OUC 311 CSR system.

- System Age – 11 years
- Last Upgrade – 2015
- Data Available to Public – No

DDOT Information Technology Electronic Systems

Circulator Dashboard

This is a web-based solution that provides a Circulator dashboard publishes over 23 key performance metrics of the circulator bus to the public.

- System Age – 5 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL - <http://circulatordashboard.dc.gov/cirdashboard/#Home>

Cyclomedia Globespotter

This is a web-based/GIS centric solution used to view panoramic street level imagery collected for the District Government. The system produces Cycloramas (digital, spherical, 360° panoramic images).

- High resolution imagery
 - Well defined internal image geometry
 - Accurate georeference (10 cm) and orientation (0,1°)
 - Complete Metadata
 - All Roads and Alleys were collected
 - Delivery through web hosting or local installation
 - Integrated with ArcGIS and AGO
 - Data Collection Toolbar
 - Measuring tool
- System Age – 2 years
 - Last Upgrade – 2014
 - Data Available to Public – No
 - URL - <https://globespotter.cyclomedia.com/>

DBE

This web-based solution provides the Disadvantage Business Enterprise office a tracking and management tool for Certified Disadvantage Business Entreprises (DBE) performing work with DDOT.

- System Age – 4 years
- Last Upgrade – 2014
- Data Available to Public – No

DDOT Information Technology Electronic Systems

DDOT Public Internet - DDOT's web site for public, communication channel for all DDOT related information for public and private. Content is updated by DDOT's PIO. The Content Management System "Drupal" is maintained by OCTO.

- System Age – 3 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL – <http://ddot.dc.gov>

DDOT University

DDOTUniversity, the web based training site to find information on the entire courses DDOT offer and encourage Employee's to participate, both internally and externally. This system allows employees to register for training and the training office to track approval and cost.

- System Age – 5 years
- Last Upgrade – 2014
- Data Available to Public – No

DTAP

District Transportation Access Portal system is used to inform the public of Capital Infrastructure Projects.

- System Age – 6 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL - <http://dashboard.ddot.dc.gov/ddotdashboard/#Home>

Electronic Procurement Management System (EPMS)

This web-based SharePoint application allows DDOT to track the status of procurements as they move through the OCP procurement process.

- System Age – 3 years
- Last Upgrade – 2014

DDOT Information Technology Electronic Systems

- Data Available to Public – No

Envista

This SaaS/web-based/GIS centric application enables D.C. and its Utilities to share construction project schedules. The system reports on conflicts, opportunities, and streets protected under the five year moratorium. On a monthly basis, the Top 20 conflicting projects are automatically identified and resolved by project managers.

- System Age – 7 years
- Last Upgrade – 2014
- Data Available to Public – No

E-Time

This web-based application is DDOT's employee time sign-in tracking system to track employee daily tour of duty.

- System Age – 8 years
- Last Upgrade – 2014
- Data Available to Public – No

Facility Mgmt (FM) Service Request

This web-based application is a 'Service Request' tracking system for DDOT's Facility Management team. It allows administrations to request employee relocation moves and other request affiliated with facility.

- System Age – 4 years
- Last Upgrade – 2014
- Data Available to Public – No

HPMS

This is the Highway Performance Monitoring System, a web-based application used by IPMA for managing roadway condition data into the mandated FHWA 2010+ format. It generates accurate reports for annual FHWA submittal.

- System Age – 4 years

DDOT Information Technology Electronic Systems

- Last Upgrade – 2014
- Data Available to Public – Yes
- URL - <http://ddotgisapp02/hpms>

Invoice Tracking System

Infrastructure Project Management Administration (IPMA) Invoice Tracking System, web-based application used to track construction and consultant invoices.

- System Age – 8 years
- Last Upgrade – 2013
- Data Available to Public – No

ITEMS

The Information Technology Equipment Management System is a web-based application used within the IT team as an asset tracking system for DDOT. This system is used to track all computers, monitors, tablets, phones, etc.

- System Age – 2 year
- Last Upgrade – 2014
- Data Available to Public – No

MicroPAVER

This is a desktop pavement management system used to track pavement condition index (PCI) and perform analysis report. DDOT uses this system to prioritize roadways that will be restored or repaved each year.

- System Age – 11 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL – FY 12/13 PCI
<http://ddot.in.dc.gov/ddot/cwp/view.asp?a=1229&q=492572>

FY 15 Work Plan (includes link to interactive map)

<http://ddotfiles.com/db/WPFY15Completed/>

Microstation Bentley

DDOT Information Technology Electronic Systems

This desktop Computer Aided Design/Drafting (CAD) software is used by DDOT's engineers for viewing or modifying drawings.

- System Age – 10 years
- Last Upgrade – 2014
- Data Available to Public – No

NHS CCTV

GIS centric application used to monitor Cameras along the National Highway System (NHS) routes.

- System Age – 7 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL - http://nhscameras.ddot.dc.gov/NHS_Cameras/

NOI

Notice of Intent, This web-based application provides the public access to “Notice of Intent” for construction projects. In addition to the notice it also provides the public with a way to provide comments.

- System Age – 3 years
- Last Upgrade – 2013
- Data Available to Public – Yes
- URL - <https://noiadmin.hostpilot.com/SitePages/noi.aspx>

NOV System

Notice of Violation System (NOV) is a web based system used by the DDOT Public Space Inspectors (PSI). PSI uses this system to issue, track and enforce respondents suspected of illegally using public space in the District of Columbia. This system allows our PSI office to capture all relevant information concerning the respondent, the date and location of the violation, the violation code and the fine.

DDOT Information Technology Electronic Systems

- System Age – 5 years
- Last Upgrade – 2014
- Data Available to Public – No

OITI Ticket System

This is web-based /SharePoint IT ticketing system is used to support DDOT's internal IT, GIS, Telecom, Network, and Desk support team. It tracks and monitors all IT related service requests.

- System Age – 5 years
- Last Upgrade – 2014
- Data Available to Public – No

Packet Tracker

This web-based system electronically tracks various packets as they move through DDOT for sign-off and approval. This system standardizes approval flows. Provides a document library and allows for packet document attachments.

- System Age – 6 years
- Last Upgrade – 2013
- Data Available to Public – No

Permit Locator Tool

This application gives the public the ability to see active public space permits and applications on an interactive map.

- System Age – 5 years
- Last Upgrade – 2013
- Data Available to Public – Yes
- URL - <http://gis.ddot.dc.gov/PermitLocator/#Home>

DDOT Information Technology Electronic Systems

Permit Viewer

This application gives the public the ability to see active public space permits and applications on an interactive map. This application is available as a web-based system and also available as a mobile app through iOS and Android devices.

- System Age – 3 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL -

<http://maps2.dcgis.dc.gov/DCAGOL/basicviewer/?appid=f82726c0a4b545c7bc6779377c44f33c&webmap=b08e4155c7984d2b9d88c96bd2dfd24c>

Temporary Public Space Occupancy Map

This map shows existing construction projects, emergency utility work and special events that may impede on travel time. The icons represent activities temporarily affecting public space, which display various details when selected. For example, public space permit numbers and beginning and end dates for a project or special event. This allows users to examine activities in greater detail.

Data for the map is pulled from [DDOT's Transportation Online Permitting System](#) (TOPS) and ProTrack (DDOT project tracking) databases.

- System Age – 2 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL -

<http://maps2.dcgis.dc.gov/DCAGOL/basicviewer/?appid=f82726c0a4b545c7bc6779377c44f33c&webmap=b08e4155c7984d2b9d88c96bd2dfd24c>

Compendium

The web-based SharePoint DDOT Compendium is an online reference that provides comprehensive information about all of DDOT's policies, procedures, and services. The Compendium contains a variety of materials - ranging from regulations, to federal legislation, to transportation studies, to FAQs. It is organized alphabetically, by subject, and contains summary pages that provide links to all related documents and references.

DDOT Information Technology Electronic Systems

According to the District Department of Transportation Policy Compendium Act of 2012 (District Law 19-168):

- “On or before September 30, 2013, the District Department of Transportation shall prepare a policy compendium listing all of the agency’s policies and procedures that affect the management of the transportation network and public space...”
- “The District Department of Transportation shall make the policy compendium available online...”

The Compendium complements the innovative online resources already provided by DDOT and the District government, such as DDOT's website (www.ddot.dc.gov) for current department news and projects, DDOT's Transportation Online Permitting System (TOPS) for processing public space applications and permits, and 311 Online for accessing city service requests.

- System Age – 5 years
- Last Upgrade – 2013
- Data Available to Public – Yes
- <http://comp.ddot.dc.gov/SitePages/Home.aspx>

Pontis

This web-based application is used by DDOT’s Infrastructure Project Management Administration as a Bridge Management Software, tracking yearly Bridge maintenance records on DC bridges.

- System Age – 8 years
- Last Upgrade – 2014
- Data Available to Public – No
- URL - <http://10.83.49.153/BrM521/DesktopDefault.aspx?ReturnUrl=%2fBrM521>

PROMPT

This web-based Project Management Performance Tool (PROMPT) 2.0 PROMPT provides DDOT’s project managers and executive team with project financial and obligation information.

All active projects must be updated in PROMPT monthly:

- Project Status
- Milestone Dates, Planned and Actual Milestone Dates
- General Information: Verify that the description, scope, project manager, etc. are current
- Payroll Spending: Make sure that the correct employees are charging to the correct project

DDOT Information Technology Electronic Systems

- Funding Availability by Phase: Check that there are sufficient funds available in each active project phase in order to avoid going into anti-deficiency.
- System Age – 8 years
- Last Upgrade – 2014
- Data Available to Public – No

Protrack

This web-based GIS centric application captures the geographic extent of all roadway projects. In addition it captures the phase, status, and completion date. This system is also used to monitor streets protected under the District's five year moratorium for newly paved roads.

- System Age – 9 years
- Last Upgrade – 2015
- Data Available to Public – Yes
- URL - <http://sddotgissvr/ProTrack/Login.aspx>

QA/QC Management System

This is a web-based system designed for DDOT's Infrastructure Project Management Administration to manage data at the McMillan Dr Material Lab. This system is used to perform testing and ensure Quality Assurance and Quality Control (QA/QC) of all approved material to be used in roadway and sidewalk construction by DDOT's contractors.

- System Age – 9 years
- Last Upgrade – 2015
- Data Available to Public – No

Rapid plan

Rapid Plan is a desktop application used by DDOT's Traffic Work Zone Technicians to develop Traffic Control Plans (TCPs).

- System Age – 5 years
- Last Upgrade – 2015
- Data Available to Public – No

DDOT Information Technology Electronic Systems

Road Care

This is a web-based system used to track pavement condition through the use of roadway video log.

- System Age – 3 years
- Last Upgrade – 2014
- Data Available to Public – No

RideDC

The RideDC Portal Dashboard was conceptualized to provide DC retail establishments and organizations with a web-based tool that would allow users to easily create their own “custom” dashboard to display a dynamic map of transit options near their establishment. The RideDC Portal Dashboard provides near real-time information about multi-modal transportation options and locations on the map. The portal displays:

- Metro Bus / DC Circulator schedules and Nextbus updates
- Metrorail arrival predictions
- Capital Bikeshare bike and open dock availability
- Caresharing location and car availability

The custom dashboard are expected to be display on a monitor near the exit of the retail establishment or somewhere easily accessible to visitors of the establishments, offering the clients near real-time transportation options for their next destination.

- System Age – 2 year
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL - <http://ridedc.ddot.dc.gov/>

Sharepoint 2010 and 2013

This Microsoft web-based solution is used for internal collaborations, conference room reservation, leave calendar, projects and so on with added features in Microsoft products.

- System Age – 7 years

DDOT Information Technology Electronic Systems

- Last Upgrade – 2014
- Data Available to Public – No

Sidewalk Cafe Inspection System

This web-based GIS centric system is used by DDOT's Public Space Inspectors to perform detailed inspections of each sidewalk café in the District. Information contained in this system includes but is not limited to Certificate of Occupancy, dimensions of Sidewalk Café, number of ADA tables, number of chairs, etc.

- System Age – 2 years
- Last Upgrade – 2013
- Data Available to Public – Yes
- URL - <https://sp.ddot.dc.gov/SitePages/Home.aspx>

SIS

This web-based GIS solution provides users with information on the Street Inventory System. Information contained in this system but limited to is number of lanes, routes, pavement condition, pavement type, etc.

- System Age – 9 years
- Last Upgrade – 2008
- Data Available to Public – No

Snow AVL – This Automated Vehicle Locator (AVL) is a web-based GIS centric application used during snow and ice removal operations to track snow plow vehicles and their current activity.

- System Age – 7 years
- Last Upgrade - 2014
- Available to Public – Yes
- URL - <http://dc.eroadtrack.com/login.aspx>

SSD

Street Spatial Database (SSD) is a web-based GIS centric application used to maintain the District's street network and provides a computerized base roadway network. The street centerlines polyline GIS

DDOT Information Technology Electronic Systems

dataset is the keystone data item for DDOT's Linear Referencing System. Many of DDOT's data and business systems are already integrated and/or associated with the centerline/LRS; the plan moving forward is to have all assets associated for ease of maintenance and analysis.

- System Age – 9 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL - General Public:

http://opendata.dc.gov/datasets/99d13287b85240b89bd46b2aa89e1acf_41

- URL - GIS Web Service:

<http://maps2.dcgis.dc.gov/dcgis/rest/services/DDOT/SSD/MapServer>

StormTrak

StormTrak is a web-based application used during snow and storm events to track labor and material cost for DDOT and DPW.

- System Age – 3 years
- Last Upgrade – 2014
- Data Available to Public – No

TIES

The Transportation Integrated Enterprise Solution (TIES) is a framework developed on the ArcGIS platform and integrated with ArcGIS Online as a geospatial frame work to tie each disparate system together using location as the common denominator. The resulting Service Oriented Architecture (SOA) supports a user driven analytical dashboard providing managers and decision makers access to information resulting in increased knowledge across the enterprise; thus increasing services to constituents while reducing cost.

- System Age – 3 years
- Last Upgrade – 2014
- Data Available to Public – Yes

DDOT Information Technology Electronic Systems

- URL - <http://maps2.dcgis.dc.gov/dcgis/rest/services/DDOT>

TRAKA

Traka (To Track A Key Asset) provides intelligent key access control for fleet management at DDOT. This solution includes hardware and software. TRAKA key lockers are currently installed at five DDOT locations (offices).

- System Age – 4 years
- Last Upgrade – 2014
- Data Available to Public – No

Tree Permit System

This web-based system is used by Urban Forestry Administration (UFA) for Special Tree Removal. The system allows the public to apply to have a tree removed on private property that is hazardous, ill, or due to construction. UFA uses the system to track of Tree inventory on private property and issue the permit. This system is a component of the TOPS permitting system.

- System Age – 4 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL – <https://tops.ddot.dc.gov>

TOPS

This web-based application is the District Department of Transportation's Online Permitting System (TOPS) that allows you to apply for a Public Space Occupancy, Construction, Excavation or Annual Rental Permit required for use of public space within the District of Columbia. You can be a home owner, tenant, or business needing to occupy metered or unmetered curbside parking, sidewalk, alley or travel lane areas for your activity or construction related work. Once registered, the system makes it easy for you to log into your account any time to apply for a permit, edit your application, upload plans electronically, or check the status of your application. TOPS even allows you to pay for the permit online and then print your permit and reserved parking or emergency not parking signs at any of the DDOT kiosks. The DDOT kiosks are conveniently located at the local 2nd, 3rd, 4th, 5th, 6th, 7th Metropolitan Police Department District offices and our DDOT Public Space Permit Office at 1100 4th Street SW.

DDOT Information Technology Electronic Systems

- System Age – 7 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL – <https://tops.ddot.dc.gov>

Vendor Point Picker

The Street Vendor Point Pick application is a web-based GIS centric system to verify vending locations in the District that aids in the street vendor approval and inspection process by leveraging GIS to receive specific XY coordinates and exact locations. Street Vendor Point Pick application provides customers a means to select a prospective location for street vending based on dropping a point on a GIS centric map. Through a spatial query, the map will zoom to the block to verify the location and its availability. This system is used by DCRA and DDOT.

- System Age – 3 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL – <https://streetvendor.ddot.dc.gov/StreetVendor/#>

Visitor Parking Pass

This web-based application is DDOT's Visitor Parking Pass (VPP), Online system that allows residents to apply and request a VPP pass. The system prints and issues passes to eligible District household on a Residential Parking Permit (RPP) zoned blocks in District.

- System Age – 3 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL – <https://vpp.ddot.dc.gov>

Fleet

DDOT uses a Fleet Management database management system. The agency records, maintains, and manages its fleet using this information, which includes activities such as Registration, Inspection, Infraction, Trip Information, and Maintenance.

DDOT Information Technology Electronic Systems

- System Age – 2 Months
- Last Upgrade – December 2015
- Data Available to Public – No

FLMA

DDOT uses the Family Leave Recording System to track and manage employee leave. This includes information about leave (FMLA/PFL/Federal FMLA) requested by an employee and whether leave was approved, deferred, or rejected.

- System Age – 1 Month
- Last Upgrade – January 2016
- Data Available to Public – No

Visitor Parking Pass

This web-based application is DDOT's Visitor Parking Pass (VPP), Online system that allows residents to apply and request a VPP pass. The system prints and issues passes to eligible District household on a Residential Parking Permit (RPP) zoned blocks in District.

- System Age – 3 years
- Last Upgrade – 2014
- Data Available to Public – Yes
- URL – <https://vpp.ddot.dc.gov>

FY 2015 Performance Accountability Report District Department of Transportation

INTRODUCTION

The Performance Accountability Report (PAR) measures each agency's performance for the fiscal year against the agency's performance plan and includes major accomplishments, updates on initiatives' progress and key performance indicators (KPIs).

MISSION

The District Department of Transportation's (DDOT) mission is to enhance the quality of life for District residents and visitors by ensuring that people and goods move safely with minimal adverse impact on residents and the environment.

SUMMARY OF SERVICES

DDOT executes its mission through the work of the following divisions:

The Infrastructure Project Management Administration designs and builds roads, bridges, rails and other transportation infrastructure projects; the Progressive Transportation Services Administration provides public transportation service through Metro and the Circulator bus system; the Transportation Operations Administration ensures a safe and user-friendly transportation environment; the Planning, Policy and Sustainability Administration develops strategic goals for the agency; the Public Space Regulation Administration regulates the safe and efficient use of the public space for various public and private uses; the Urban Forestry Administration maintains the District's street trees, providing our community with traffic calming, improved air quality, increased ground water retention that minimizes runoff and flooding, temperature moderation, and aesthetics.

OVERVIEW – AGENCY PERFORMANCE

The following section provides a summary of DDOT performance in FY 2015 by listing DDOT's top three accomplishments, and a summary of its progress achieving its initiatives and progress on key performance indicators.

TOP THREE ACCOMPLISHMENTS

The top three accomplishments of DDOT in FY 2015 are as follows:

Accomplishment One

Kids Ride Free

Progressive Transportation Services Administration (PTSA)

Objective 1 Increase and Promote mass transportation modes to meet the mobility and economic development needs of the District.

Initiative 1.2 Implement the Metrobus free student transportation program

The School Transit Subsidy Program offers free or reduced fares for District students who use Metrobus, Metrorail, or the DC Circulator to travel to and from school and school-related activities. DDOT, with the assistance of OCTO and WMATA, successfully rolled out the Kids Ride Free on Bus student pass at the start of the 2014-2015 school year. Students were successfully able to ride Metrobus and the DC Circulator to school for free using their DC One Cards. On June 30, 2015, the D.C. Council authorized Mayor Bowser's proposed expansion of the Kids Ride Free program to include Metrorail. DDOT, WMATA, OCTO, and the Deputy Mayor for Education coordinated to implement this expanded program. In August 2015, students were eligible to go online and enroll in both programs using their DC One. As of the end of FY15, approximately 13,000 students enrolled in the Kids Ride Free program and have taken more than over 5,700 trips on rail.

Accomplishment Two

Optimize Traffic Signals

Transportation Operations Administration (TOA)

Objective 1 Ensure that the District's current transportation assets (traffic signals, parking meters, streetlights) are in good working condition and utilized at their optimal capacity.

Initiative 1.2 Optimize traffic signals (Sustainable DC Plan Transportation Action 2.5)

To accommodate the significant development activity within the District and the new traffic signals and changing of travel patterns associated with the development, DDOT is working to optimize traffic signals throughout the District. The goal is to improve overall traffic flow, optimize pedestrian crossing times, and reduce bus-running times. In FY15, DDOT completed Phase Two of this five-year project (optimizing all 1,600 plus traffic signals). Specifically, Phase Two included the optimization of approximately 635 signals, which resulted in network-wide travel-time savings of 15.6% for passenger cars and 5% for buses. The signals optimized during Phase II were located in and around the downtown area between Rock Creek Parkway in the west, North Capitol in the east, U Street/Florida Avenue in the north, and I-395 in the south. The optimized area also includes a few intersections in Georgetown area along M St, NW.

Accomplishment Three

AlleyPalooza

Infrastructure Project Management Administration (IPMA)

Objective 1 Preservation of existing transportation infrastructure assets to maintain and improve

condition rating in a cost effective manner

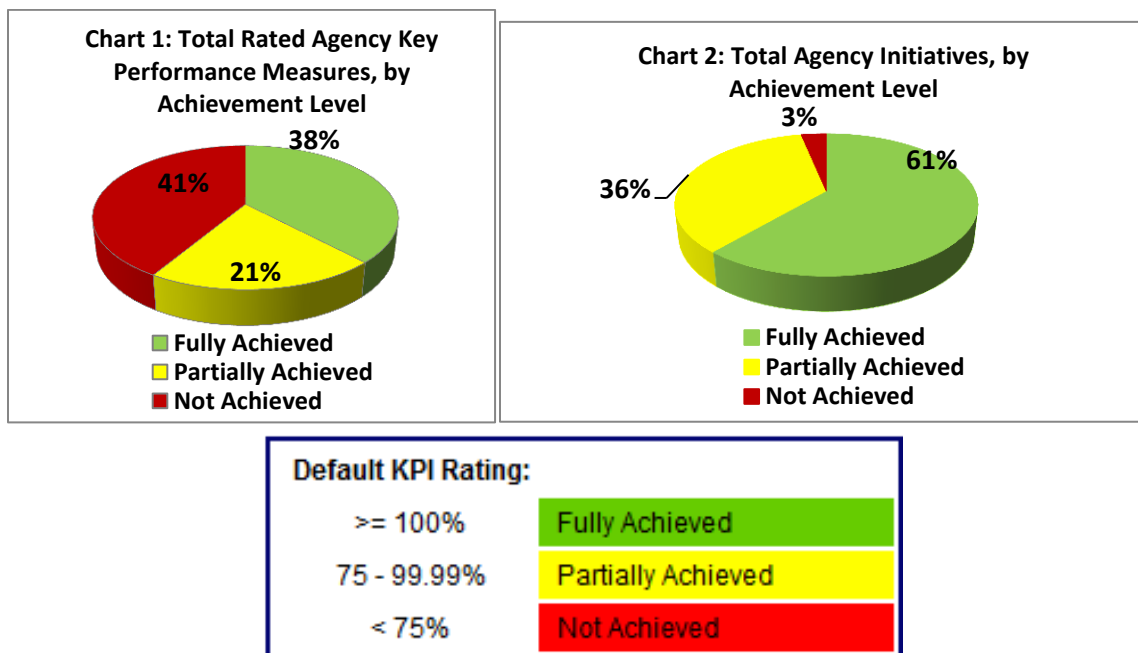

Initiative 1.1 Preserve District roadways

The District provides targeted, expedited alley maintenance services for the residents of the District of Columbia, including roadways and connected alleys. In FY15, DC launched the first ever AlleyPalooza campaign. Over an 8-week period (July 8 - September 11), DDOT repaired or reconstructed 8 alleys in each of 8 Wards. The goal of this program is to complete work on 64 alleys. This is a core activity for the DDOT, involving a broad scope of work ranging from everyday maintenance, such as pothole repair, to the complete reconstruction or rehabilitation of an alley. The District's alleys are a vital, yet often overlooked piece of our City's infrastructure and provide convenience access points to buildings, garages, garbage pick-up, and loading docks. Mayor Bowser has invested \$175 million over the next 6 years in the District's local infrastructure, roads, alleys and sidewalks.

SUMMARY OF PROGRESS TOWARD COMPLETING FY 2015 INITIATIVES AND PROGRESS ON KEY PERFORMANCE INDICATORS

Table 1 (see below) shows the overall progress the DDOT made on completing its initiatives, and how overall progress is being made on achieving the agency's objectives, as measured by their key performance indicators.

In FY 2015, DDOT fully achieved almost two thirds of its initiatives and nearly 40 percent of its rated key performance measures. **Table 1** provides a breakdown of the total number of performance metrics DDOT uses, including key performance indicators and workload measures, initiatives, and whether or not some of those items were achieved, partially achieved or not achieved. **Chart 1** displays the overall progress is being made on achieving DDOT’s objectives, as measured by their rated key performance indicators. Please note that chart 2 contains only rated performance measures. Rated performance measures do not include measures where data is not available, workload measures or baseline measures. **Chart 2** displays the overall progress DDOT made on completing its initiatives, by level of achievement.

PERFORMANCE INITIATIVES – ASSESSMENT DETAILS

Urban Forestry Administration (UFA)

OBJECTIVE 1: Increase the number and improve the health of street trees in order to provide District neighborhoods with a healthy urban tree canopy (Sustainable DC Plan Nature Action 2.1).

INITIATIVE 1.1: Track the street tree mortality.

UFA will embark on tracking tree mortality related to the street tree planting program. The tree mortality rate will allow UFA to ensure that we understand the losses to the street tree canopy over time. The information will assist UFA with the planning of the tree planting needs within the District and ensure we remain on track to accomplish the 40% canopy goal

by 2032 as outlined in the District's Sustainable DC Plan and Urban Tree Canopy Plan.
Completion Date: September 30, 2015.

● **Performance Assessment Key: Fully Achieved**

UFA is tracking tree mortality rate for street tree planting and developed a working group to create a standard operating procedure for tracking mortality. In FY 15, the mortality rate for UFA street trees was 1.63%. UFA continues to track the overall mortality rate with the street tree population to ensure our planting program covers the loss but provides the gain needed to achieve the 40% canopy goal by 2032.

INITIATIVE 1.2: Increase tree species diversity planted in public space (Sustainable DC Plan Nature Action 2.1, 2.5; and Water Action 2.2).

● **Performance Assessment Key: Fully Achieved**

UFA continues to look for new varieties of trees and cultivars that thrive successfully in the urban environment. As these species are identified, UFA adds these names to the planting list and works closely with the contractor to procure them. When they are not available, UFA looks for similar replacements or takes the suggestion from the nursery grower. Last year, the city planted nearly 130 different species and cultivars, with an even greater diversity planned for FY16. Through a process of rigorous tree inventory analysis, UFA has identified those species that occur in an overabundance and have adjusted the planting list to reflect a balance amongst the different plant species

INITIATIVE 1.3: Inspect green infrastructure sites within the right-of-way to ensure that these sites are operational, plant material is alive and invasive species are removed.

This initiative will ensure that we remain compliant with our MS4 permit and are improving water quality. These sites range from small green spaces that are depressions allowing water to percolate to medium size green spaces that have drainage being routed from the site to large retention ponds that have trash grates and large landscaped berms. **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

UFA has mapped most of the Low Impact Development sites citywide that are under DDOT's jurisdiction. With this information, UFA has created a map and inventory of these sites for all to view. UFA staff performs inspections throughout the year to ensure that the sites are functioning. UFA has formed a working group to continue this process with tracking and development of inventories for green infrastructure.

INITIATIVE 1.4: Maintain beehives on public spaces throughout the District through the use of swarm capturing techniques as available (Sustainable DC Plan Food Action 1.4).

This initiative will help with the pollination of trees and plants citywide and meet the goals of Sustainable DC. Many are located in community gardens (Mclean Gardens, Wangari Gardens and Alger Park) and on sites with partners like Earth Conservation Corps. All honey production will be given to local food pantries. **Completion Date: September 30, 2015.**

● Performance Assessment Key: Fully Achieved

Maintenance of beehives on public space will support the pollination of trees and plants citywide and the goals of Sustainable DC. UFA will collaborate with DS to examine other ways to incorporate food-producing landscapes into public space. UFA has 7 hives in production throughout the city. Many are located in community gardens (Mclean Gardens, Wangari Gardens and Alger Park) and on sites with partners like Earth Conservation Corporation

KEY PERFORMANCE INDICATORS– Urban Forestry Administration

	KPI	Measure	FY 2014 YE Actual	FY 2015 YE Target	FY 2015 YE Revised Target	FY 2015 YE Actual (KPI Tracker)	FY 2015 YE Rating (KPI Tracker)	Budget Program (KPI Tracker)
	1.1	Percent of street tree population inspected	29%	29.5%		28.3%	98.02%	Urban Forestry Administration
	1.2	Percent of green infrastructure sites inspected	90%	91%		88.4%	97.1%	Urban Forestry Administration
	1.3	Number of trees planted Citywide (Sustainable DC Nature Goal 2)	8,600	8,600		8635	100.41%	Urban Forestry Administration
	1.4	Percent of street trees in a healthy	97.9%	97%		95.84%	98.80%	Urban Forestry Administration

		condition						
●	1.5	Street tree mortality rate	2.03%	7.5%		1.63%	1846.64%	Urban Forestry Administration

Infrastructure Project Management Administration (IPMA)

OBJECTIVE 1: Preservation of existing transportation infrastructure assets to maintain and improve condition rating in a cost effective manner.

INITIATIVE 1.1: Preserve District roadways.

The pavement management program is a planned strategy of cost effective treatments to improve and maintain the District of Columbia's roadway network system. The local paving work plan includes various pavement treatments such as milling and resurfacing, slurry seal, deep patching and crack sealing. The plan for the federal roadway network will include a variety of treatments similar to local streets. After the treatments are applied, those segments of pavement will experience an increase in the average pavement condition index from a poor/very poor rating to good/excellent rating. The segments are selected based on pavement condition data that indicates the condition of the roads. The FY 15 budget for paving is approximately \$18.5 million. **Completion Date: December 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

The Pavement Management Program (PMP) is working to complete the goal of preserving the District's roadways. Federally and locally funded contracts are in place to provide strategic pavement treatments to improve the average pavement condition indices. The PMP is deploying many solutions to help management the roadways throughout the District such as slurry seal, creak sealing, and general resurfacing to help extend the life of the asset.

INITIATIVE 1.2: Preserve District bridges.

The bridge asset management program includes maintaining inventory of structures; performing biennial National Bridge Inventory (NBI) and element level inspection; condition assessment and load ratings of all structures; and implementing bridge preservation actions that are intended to address bridges while they are still in good or fair condition. Bridge preservation activities will be performed based on prioritization of structures as part of the overall preservation program. Some repair activities require design. The FY15 bridge preservation program cost is approximately \$8 million. **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

The Bridge Asset Management Program is working to preserve the District's bridges. Federally funded contracts are in place to inspect, assess, and repair bridges in our inventory as part of a bridge preservation program.

INITIATIVE 1.3: Preserve District tunnels.

The tunnel management system allows DDOT to update and maintain condition data of the various tunnel assets within the District. DDOT manages a citywide performance based tunnel contract, which contains asset inventory and performance measures for the mechanical, electrical, structural, and lighting assets within the tunnels. Assets will receive preventive maintenance based on established standards to maintain an accepted level of service. Additionally, engineering design for an emergency communication system within the mall tunnel to further improves emergency response and safety needs will be completed. The FY15 associated construction cost is approximately \$6 million. **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

The Tunnel Management System is working to update and maintain the District's tunnels. The citywide performance-based tunnel contract provides for preventative maintenance as well as state of good repair for mechanical, structural, lighting and lighting assets within the tunnels. The Federally funded contract to support this activity is in place.

OBJECTIVE 2: Incorporate into the infrastructure design sustainability, multimodal, historic preservation and low impact elements. (Sustainable DC Plan Water Action 2.2; and Transportation Action 2.1).

INITIATIVE 2.1: Expand the South Capitol Street Bike Trail (Sustainable DC Plan Nature Action 3.2; and Transportation Action 2.1).

The project is part of a continuing effort to expand multi modal transportation options and connect the District to regional multi-use trail systems. It consists of the preliminary design of 4.25 miles of a new bicycle/multi use trail on the west side of South Capitol Street from the intersection of Firth Sterling Avenue to the Oxon Run trail in Southeast DC. This new trial section will be a vital link allowing District residents to access major trail systems within Maryland and Virginia (and vice versa) and will supplement commuting options for employees of the Coast Guard Headquarters and Department of Homeland Security facilities at St. Elizabeth's West Campus as well as Joint Base Anacostia Bolling (JBAB) facilities. The trail will be lighted, landscaped and feature safe new crossings and bicycle/pedestrian signals at the major entrances to JBAB and at cross roads. **Preliminary Design Completion Date: April 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

The staff working within the IPMA division completed the Preliminary Design by April 30, 2015.

INITIATIVE 2.2: Preserve the Francis Scott Key Bridge.

The project calls for the rehabilitation/preservation of the historic Francis Scott Key Bridge, a District landmark and one of the most picturesque bridges on the Potomac River. The Key Bridge is an eight span reinforced concrete open spandrel arch bridge that carries six lanes of two-way traffic between Northern Virginia and the District of Columbia over the C&O Canal, the Whitehurst Freeway, K Street, the Potomac River, and the George Washington Parkway. The bridge was originally constructed in 1925 and was rehabilitated in 1986 with a new deck. The bridge has a total length of 1781'-8", an out-to-out deck width of 90'-0" and a curb-to-curb width of 66'-0". All work on the bridge and roadways will be performed within the existing right-of-way. The scope of the rehabilitation work includes the repair of superstructure and substructure concrete, strengthening of areas of the bridge deck, maintenance of traffic, replacement of streetlights, installation of decorative and accent lighting for the bridge arches, clean and painting bridge railings and steel appurtenances, cleaning and repairing the bridge drainage system, repair of utility supports, and installation of bicycle activated flashers and signage at the ramp to Whitehurst Freeway. The final scope of work will include all rehabilitation necessary to maintain the current level of service for 30 years. The construction cost is estimated in the \$15 to \$20 million range. **Design Completion Date: March 31, 2015**

● **Performance Assessment Key: Partially Achieved**

The construction contract for the Rehabilitation of the Key Bridge over Potomac River is presently being advertised and will have a bid opening on December 9, 2015. The award will follow with tentative notice to proceed in April 2018.

INITIATIVE 2.3 Minnesota Avenue Streetscape (Sustainable DC Plan Energy Action 1.3, Transportation Action 2.5, Water Action 2.2 & Power Undergrounding Age-Friendly DC Goal: Domain # 2).

The Minnesota Avenue Streetscape project will be focused on safety improvements and sustainability. Phase I of the project is from A Street SE to 100' feet north of Dix Street NE. The project will incorporate traffic calming measures as part of the overall design including high visibility crosswalks and new curb extensions, which promote pedestrian safety by reducing crossing distances at crosswalks. The project will also replace wheelchair ramps to meet the latest ADA guidelines. Traffic signals and streetlights will be upgraded including a new traffic signal to be installed at the Minnesota Avenue/Blain Street intersection. Catch basins will be replaced to improve drainage. The number of tree and planter boxes will be increased along the corridor to reduce storm water runoff. Some tree boxes will be continuous with structural soil added to sections below the sidewalk for better water absorption and tree root expansions. Bio-retention planters will also be incorporated.

Redundant driveways will be consolidated along with other driveways relocated to allow installation of clear pedestrian path. Environmentally friendly LED lights that consume 50% less electricity and have a life span of 15 years will be installed as part of the project. The project will also include underground power line infrastructure that will be utilized by electric company for the purpose of undergrounding existing overhead primary power lines. Total cost of this federally participating project is \$18 million. **Completion date: November 30, 2015**

 **Performance Assessment Key: Partially Achieved**

Phase I of the Minnesota Ave. Streetscape project is presently under construction. The total project cost (Construction + Construction Management) is \$14.7M. Notice to proceed was given on August 10, 2015, and the total construction duration will 18 months for a target completion of February 2017. Currently, the project is 15.5% complete.

KEY PERFORMANCE INDICATORS– Infrastructure Project Management Administration

	KPI	Measure	FY 2014 YE Actual	FY 2015 YE Target	FY 2015 YE Revised Target	FY 2015 YE Actual	FY 2015 YE Rating	Budget Program
	1.1	Percent of blocks in paving plan completed	87.7%	90%		37.03%	41.14%	Infrastructure Project Management Administration
	1.2	Percent of streets in "Fair to Excellent" condition	80.75%	78%		80.12%	102.72%	Infrastructure Project Management Administration
	1.3	Number of structurally deficient bridges	11	10		5	200%	Infrastructure Project Management Administration
	1.4	Percent of sidewalks in plan completed	127.27%	90%		24.51%	27.24%	Infrastructure Project Management Administration
	1.5	Percent of current year projects completed within 10% of budget (except for those with	100%	95%		48.39%	50.93%	Infrastructure Project Management Administration

		scope change)						
●	1.6	Percent of current year projects completed within 60 days of planned end date (except for those with scope change)	100%	95%		37.10%	39.05%	Infrastructure Project Management Administration

Progressive Transportation Services Administration (PTSA)

OBJECTIVE 1: Increase and promote mass transportation modes to meet the mobility and economic development needs of the District.

INITIATIVE 1.1: Construct and launch streetcar service on H Street/Benning corridor (Sustainable DC Plan Transportation Action 1.1). Plan and coordinate future streetcar system expansion beyond H/Benning corridor.

DDOT will complete the design-build effort, which includes installation of traction power system and construction of the multi-use Car Barn and Training Center (Phase I). The streetcar operator, a contracted service, is under contract and on schedule to initiate the streetcar revenue service operation. Revenue service is scheduled to launch by December 30, 2014. Completion Date: December 30, 2014.

DDOT will complete the DC Streetcar System Plan (2014 update), based on recommendations of moveDC, it is a technical update to the DC’s Transit Future System Plan (2010). It will be the new guiding document to direct development and DC Streetcar staging, to provide “Big Picture” conceptual planning for the DC Streetcar program at a system level, and to identify corridors based on mobility and transit needs and economic development potentials. Completion Date: December 1, 2014.

DDOT will update the DC Streetcar Design Criteria to incorporate new and up-to-date information, standard and industry practice based on the latest development in DC Streetcar programs. **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Partially Achieved**

DDOT will complete the design-build effort, which includes installation of traction power system and construction of the multi-use Car Barn and Training Center (Phase I). The

streetcar operator is under contract and on schedule to initiate the streetcar revenue service operation.

DDOT completed a top-to-bottom review of the streetcar program in spring 2015. This review concluded that the District should prioritize investment in the East-West corridor extending the H/Benning Line to the east as far as Benning Road Metro Station and to the west as far as Georgetown. The review also concluded that DDOT should focus on improving the project delivery process for transit projects and utilizes investments in streetcar to improve the speed and reliability of the transit system. Planning for both extensions continued in FY15 with Environmental Assessments in process.

DDOT will update the DC Streetcar Design Criteria to incorporate new and up-to-date information, standard and industry practice based on the latest development in DC Streetcar programs. DDOT is currently examining the status of streetcar technology as our future needs require a solution where power is supplied by methods other than overhead contact wire systems. As we move towards the procurement of additional vehicles, our design criteria and specifications will be developed to meet the latest developments.

INITIATIVE 1.2: Implement the Metrobus free student transportation program.

During FY 15, DDOT, in partnership with WMATA, will continue to promote the Kids Ride Free on Bus program through an enhanced comprehensive outreach strategy through social media and direct contact with schools, students, parents and bus operators. In conjunction with this effort, WMATA will require students tap their student DC One Card on the farebox Smartrip target each time they board the bus using a free bus pass that is uploaded to eligible student's cards. This requirement will allow Metro and DDOT to track student ridership more efficiently and curtail the number of unauthorized users participating in the program.

With the majority of District schools on the DC One Cards, students will be required to use their individual DC One Card to access the program during the school year. Nonetheless, DDOT and WMATA will continue to work together to inform students about the importance of obtaining a DC One Card and will work with the schools to assist them with the implementation of this policy. **Completion Date: September 30, 2015.**

 **Performance Assessment Key: Fully Achieved**

DDOT, with the assistance of OCTO and WMATA, successfully rolled out the Kids Ride Free on Bus student pass at the start of the 2014-2015 school year. Students were successfully able to ride Metrobus and the DC Circulator to school for free by flashing their DC One Cards. Beginning with the second semester DDOT, OCTO and WMATA rolled out the Kids Ride Free on Bus electronic pass. To use the new electronic bus pass, eligible students had to register and download the pass on-line. While technically successful, DDOT and WMATA had some difficulty in convincing students to download the pass and transition from flashing the pass to

tapping the pass on the bus farebox. With the introduction of Kids Ride Free on Rail in the fall of 2015, the electronic rail pass was combined with the bus pass. DC One Card registration has increased and nearly 13,000 students have downloaded the bus pass. With DC One card faregate tapping required to enter the rail system, tapping on bus fareboxes has steadily increased and currently students are tapping their farecards at the bus farebox to use Kids Ride Free on Bus. WMATA, DDOT, and the Office of the Deputy Mayor for Education continue to undertake outreach to students on the need to tap their DC One Cards on the farebox to use their Kids Ride Free on Bus privileges. DDOT will continue this effort in fiscal year 2016.

INITIATIVE 1.3: Implement Circulator expansion plan for new routes and route extensions beginning in FY15 (Sustainable DC Plan Nature Actions 3.4; and Transportation Action 1.2, Age-Friendly DC Goal: Domain # 2).

During FY15, DDOT will undertake a number of actions to implement Circulator route extensions and introduce a new Circulator route on the National Mall. Those actions include procuring 13 new buses to support this service and expand the Circulator fleet. (these buses will arrive early in the second quarter of FY15), completing a MOA on cost-sharing and other matters for the National Mall route with the National Park Service; working with WMATA to prepare a new RFP for operation and maintenance of the Circulator bus system that will be finalized in FY15. **Completion Date: September 30, 2015.**

 **Performance Assessment Key: Partially Achieved**

In FY 2015, DDOT procured 18 new buses to enable the start of service on the National Mall route and to meet the vehicle requirements of other routes in the DC Circulator network. Service began on the National Mall route on June 14, 2015 with a ribbon-cutting ceremony. The additional buses procured in FY 2015 have not been available for the extensions due to the unexpected failure of some of the oldest vehicles in the fleet. In order to provide adequate service levels on the current routes, expansion buses were repurposed to replace the failing buses. Due to the time required to manufacture buses, DDOT expects additional buses to be available to implement extensions during FY 2017.

KEY PERFORMANCE INDICATORS– Progressive Transportation Services Administration

   	KPI	Measure	FY 2014 YE Actual	FY 2015 YE Target	FY 2015 YE Revised Target	FY 2015 YE Actual	FY 2015 YE Rating	Budget Program
	1.1	Farebox Recovery Ratio	18.05%	20.29%		17.04%	84%	Progressive Transportation Services

●	1.2	Total Circulator riders	7,613,639	7,517,890		3,773,727	50.20%	Progressive Transportation Services
	1.3	Subsidy per Circulator rider	\$2.83	\$2.54		\$12.36	N/A – None Listed	Progressive Transportation Services

Planning, Policy and Sustainability Administration (PPSA)

OBJECTIVE 1: Comprehensive and integrated transportation planning.

INITIATIVE 1.1: Continue Implementation of the moveDC Plan (Sustainable DC Plan Climate and Environment Action 2.4, Nature Action 3.1; and Transportation Actions 1.3, 1.4, 3.5, Age-Friendly DC Goal: Domain # 2).

The moveDC Plan outlines a transportation vision through 2040 to accommodate growth, improve safety, and increase transportation options in the District. The final plan will include an Action Plan that outlines two years of priorities as well as mid- and long-term actions to implement the plan. The plan includes green initiatives, parking management, evacuation planning and routing, and the use of Intelligent Transportation Systems; all aimed at finding innovative and effective ways to move people and goods. moveDC incorporates opportunities for climate adaptation and long term sustainable funding into final outcomes of the plan as a part of Sustainable DC goals. Initiating the implementation process will include policy, programmatic, and infrastructure initiatives. **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

The moveDC Plan was completed in October 2014 and included a two-year action plan with 36 initiatives. During FY15, DDOT began work on 31 of the initiatives, including advancing critical safety improvements, State of Good Repair projects, and initiating projects to implement transit priority treatments and better bicycle infrastructure. DDOT is on track to implement the 36 initiatives and advance other priorities in the plan.

Initiative 1.2: Initiate the 16th Street Transit Priority Study (Sustainable DC Plan Transportation Action 1.3).

The 16th Street corridor has been identified as a transit priority corridor in moveDC and has been the focus of community advocacy. DDOT will conduct a planning study and community engagement to determine the appropriate approach to transit improvements in the corridor, in order to improve transit performance and efficiency, increase transit ridership, and increase overall person-carrying capacity of the transportation system.

Completion Date: September 30, 2015.

- **Performance Assessment Key: Partially Achieved**
DDOT kicked off the 16th Street Transit Priority Study in January 2015. To date, staff is gathering data on existing conditions and has engaged with the public through a large public meeting, four public engagement events along the corridor, and three Citizens Advisory Groups. Based on this public feedback, DDOT has developed and shared three alternative approaches to improve transit conditions on 16th Street. The study is on track to be completed in Winter 2016.

Initiative 1.3: Complete a study of east side of downtown bicycle connections. (Sustainable DC Plan Transportation Action 2.1).

There is no continuous north-south bicycle facility east of 11th Street NW. In FY15 DDOT will conduct a planning study of north-south bicycle facilities to identify potential route(s), engage with community stakeholders, and conduct analysis. The study area will focus on the area between 7th and 4th Streets NW. **Completion Date: September 30, 2015.**

- **Performance Assessment Key: Partially Achieved**
DDOT began the study in Spring 2015, gathered existing conditions data, and began stakeholder engagement. The data-screening portion of the project is complete and DDOT has developed four potential bike lane solutions. Further planning and analysis along with public engagement will determine a preferred alternative in the winter of FY16.

OBJECTIVE 2: Research, Develop and Document Leading-edge Transportation Policies.

INITIATIVE 2.1: Support implementation of Performance Based Parking Zones (Sustainable DC Plan Transportation Action 3.1).

Performance Based Parking is a curbside parking management approach wherein metered rates and time limits are adjusted, dynamically, based on changes in parking demand. During FY15, DDOT is planning the expansion of performance parking zones through a detailed policy and implementation framework. DDOT will initiate a dynamic pricing pilot in the Chinatown/Penn Quarter area, and will implement zones District-wide. Implementation and management plans will be developed in cooperation with community stakeholders. **Completion Date: September 30, 2015.**

- **Performance Assessment Key: Partially Achieved**
Planning for the Chinatown/Penn Quarter dynamic parking pricing was completed in Q4 FY15, along with initial research into occupancy sensing technology. DDOT transitioned the pilot area to Pay-by-Space parking in October 2015, which will enable the development of detailed algorithms to predict parking occupancy on specific blocks based on available data. The pilot project will continue through FY16 and end in early FY17. Potential price adjustments and evaluation of the program will be continuing in FY16.

INITIATIVE 2.2: Comprehensive Curbside Management Policy (Sustainable DC Plan Transportation Action 3.1).

The management of curbside use is essential to the efficient functioning of the transportation system. A comprehensive curbside management study and report has provided the framework for balancing the debate about the often-conflicting demands on the curbside in the District. In FY15 DDOT will begin implementing a refined and coordinated approach for residential, commercial and visitor parking that will take into consideration Sustainable DC goals. Specifically, DDOT will work with three neighborhoods to develop comprehensive parking plans. DDOT will also explore citywide changes to existing programs that may require legislation and new regulations, which are to be determined. **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Partially Achieved**

In FY15, DDOT began stakeholder engagement processes in three neighborhoods to develop comprehensive parking and curbside management plans. We met with stakeholders from Georgetown, DuPont Circle and Eastern Market neighborhoods. Through discussions with both business and residential stakeholders in these areas, we identified issues, developed new data analysis tools and methods, and began to identify solutions. This public input will inform citywide changes to existing programs that may require legislation and new regulations.

INITIATIVE 2.3: Implement Commercial Loading Zone Management Program.

Initial planning work was completed but implementation was not completed in FY14. The intent of the Commercial Loading Zone program is to assess a meter fee for the use of each of the approximately 500 commercial loading zones in the District of Columbia. The program will address curbside infrastructure, fees, payment methods, and enforcement techniques. Metering provides an efficient method for managing curbside loading zones; encouraging turnover, limiting double parking, and enhancing the overall efficiency of our transportation system. The program will also benefit the motor carrier industry with more curbside in which to operate, fewer parking violations, and improved overall safety and logistical processes. **Completion Date: September 30,, 2015.**

● **Performance Assessment Key: Partially Achieved**

DDOT successfully launched the Commercial Loading Zone program in January 2015 with paid parking for all Commercial Loading Zones in the District. To prepare for this launch, DDOT completed an analysis of all curbside commercial loading zones and cataloged these zones. The renewal period for the annual tags is approaching, and DDOT will open up 2016 tags for purchase in November/December of this year. PSA and PSRA will coordinate on issuing the 2016 tags.

OBJECTIVE 3: Champion a sustainable transportation system that meets the travel needs of the public, efficiently and affordably, while protecting the environment and the cultural resources of the District.

INITIATIVE 3.1: Fill 10 segments of priority sidewalk.

Sidewalks are important to advancing pedestrian safety and supporting the ability of District residents and visitors to walk comfortably to meet their everyday needs. DDOT has made progress in this area, but there are still significant sidewalk gaps in many places, and other locations have substandard sidewalks. DDOT will refine agency processes for identifying, prioritizing, and constructing new sidewalks. Priority will be placed on sidewalks near schools, transit stations, and in areas with large juvenile or senior populations. During FY15, DDOT will identify and build at least 10 segments of new sidewalks. **Completion date: September 30, 2015.**

Performance Assessment Key: Fully Achieved

In FY15, the PPSA at DDOT filled over ten segments of sidewalk gaps throughout the District. DDOT completed sidewalk installation projects through existing roadway resurfacing projects where sidewalks did not previously exist to help with the overall pedestrian experience and improve the safety of the pedestrian. In FY 16 DDOT will have a separate contract that will focus on missing segments along arterials that will improve pedestrian safety. Here are the segments that were completed in FY 15:

FEDERAL ADA COMPLIANCE:

Blair Rd. at Oglethorpe St. NW
Kansas Ave. at Blair Rd. NW
Branch Ave. at Highwood St. SE
Eastern Ave. at Perry St. NE
Tunlaw Rd. at W Pl. NW
Lowell St. at 44th St. NW
Southern Ave. and Urn St. SE

LOCAL SIDEWALK RESTORATION:

Bangor Street SE from 34th Street to 36th Street
Linnean Terrace NW from Dead End to Linnean Avenue
Greenvale Street NW from Chestnut Street NW to Western Avenue
32nd Street NW from Davenport Street to Ellicott Street
Meade Street NE from 50th Street to Eastern Avenue

INITIATIVE 3.2: Collect data and evaluate recent transportation projects. (Sustainable DC Plan Transportation Action 2.4)

DDOT will evaluate three recent transportation projects to determine whether they are performing as anticipated. In addition, DDOT will enhance its data collection functions by deploying at least 3 permanent bicycle-counting stations and will produce a report on bicycle and pedestrian performance information and gaps for further data collection. **Completion date: September 30, 2015**

● **Performance Assessment Key: Fully Achieved**

DDOT conducted a study of three recent projects, M Street NW, Sherman Avenue NW, and Naylor Road SE. Data collection and analysis is complete and DDOT is finalizing a public report and monitoring plan for these three projects that can be used to inform the planning and design of future DDOT projects. DDOT also installed 4 permanent bicycle and pedestrian counting stations: (1) 15th Street NW at N Street (bike only), (2) Eye Street SW at 3rd Street (bike only), (3) Metropolitan Branch Trail NE just north of Rhode Island Avenue (bike and pedestrian) and (4) 2nd Street NE at G Street (pedestrian only) and has developed plans for further deployment of this technology.

INITIATIVE 3.2 Review all DDOT policies, programs, and planning initiatives to ensure compliance with guidelines of the Age-Friendly DC Task Force and the Health in All Policies Task Force (Sustainable DC Transformation Order Section 10, Age-Friendly DC Goal: Domains # 1 & 2).

There are several overarching initiatives that have been launched to guide the District into a more sustainable future. The mission of the **Age-Friendly DC Task Force** is to ensure that the District will be an Age-Friendly City that is inclusive and accessible and encourages active and healthy aging. The **Health in All Policies Task Force** was established through the **Sustainable DC Transformation Order** that spelled out the steps necessary to make the District the healthiest, greenest, and most livable city in the United States. All DDOT policies, programs and planning initiatives will be evaluated to ensure that they meet the intent of these directives. **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

DDOT participated in the completion of the Age-Friendly DC Task Force and has begun working to integrate the policy recommendations into agency work plans and programs. DDOT also actively participated in the Health In all Policies (HIAP) initiative and in drafting the final HIAP plan for the District. DDOT's sustainability policies (complete streets, Vision Zero, bike and pedestrian safety initiatives, sidewalk gap closure and maintenance) support HIAP by ensuring that all users of the transportation network have travel options suitable for their abilities.

KEY PERFORMANCE INDICATORS– Planning, Policy and Sustainability Administration

	KPI	Measure	FY 2014 YE Actual	FY 2015 YE Target	FY 2015 YE Revised Target	FY 2015 YE Actual (KPI Tracker)	FY 2015 YE Rating (KPI Tracker)	Budget Program (KPI Tracker)
	3.1	Percent of zoning case transportation impact reports submitted a minimum of 10 days before hearing	79%	100%		82.05%	82.05%	Planning, Policy and Sustainability Administration
	3.2	Vehicle miles traveled per capita	NA	5,550		5,354	96.46%	Planning, Policy and Sustainability Administration
	3.3	New sidewalk segments constructed	5	10		2	20%	Planning, Policy and Sustainability Administration

Transportation Operations Administration (TOA)

OBJECTIVE 1: Ensure that the District's current transportation assets (traffic signals, parking meters, streetlights) are in good condition and utilized at their optimal capacity.

INITIATIVE 1.1: Increase the number of networked parking meters and payment options. (Sustainable DC Plan Transportation Action 3.1).

To encourage more efficient use of curbside spaces, DDOT will continue to implement technologies to network 7,500 parking meters and implement approaches for parking management within the District. These technologies and approaches will result in different pricing strategies to encourage turnover or offer parking allowances for residents. **Completion Date: September 30, 2015**

Performance Assessment Key: Fully Achieved

DDOT completed a refresh of aged parking meter assets throughout major commercial sectors of the City, including installation of 934 new multi-space meters and 5,097 networked single space meters. This implementation established a network of parking meter technologies that are managed through a single backend system and allows DDOT to proactively maintain the assets and eventually make meter rate adjustments.

INITIATIVE 1.2 Optimize traffic signals. (Sustainable DC Plan Transportation Action 2.5).

DDOT will continue its program of systematically optimizing the timings of all its traffic signals. Optimized signal timing reduces delays, emissions and fuel consumption and results in smoother traffic flow. DDOT will have optimized timing plans for all of its signalized intersections (currently 1680). **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

In FY15, DDOT completed Phase Two of this five-year project (optimizing all 1,600 plus traffic signals). Specifically, Phase Two included optimizing approximately 635 signals, which resulted in network-wide travel-time savings of 15.6% for passenger cars and 5% for buses. The signals optimized during Phase II were located in and around the downtown area between Rock Creek Parkway in the west, North Capitol in the east, U Street / Florida Avenue in the north, and I-395 in the south. Phase II also included a few intersections in Georgetown area along M St, N.W. Phase III will continue into FY 16 on the final round of intersections.

OBJECTIVE 2: Enhance operational efficiency, safety and customer service.

INITIATIVE 2.1: Enhance traffic signal operations by developing and implementing special timing plans for planned/special events and emergency response.

The safety and efficiency of the transportation network in the District is directly associated with the efficient operation of traffic signals. Planned and special events can create traffic congestion and disruptions to traffic flow. TOA will develop and implement special timing plans for planned/special events and emergency response. **Completion Date: September 30, 2015.**

● **Performance Assessment Key: Fully Achieved**

In FY 15, DDOT created special timing plans for each of the intersections that were part of the optimization process in Initiative 2.1. Each of these intersections was reviewed and new timing plans were also made for special events or emergency response. This process of optimizing the timing for regular traffic as well as developing timing plans for emergency events will continue in phase three. In both phase one and two DDOT developed timing plans for each intersection as it relates to emergency or special events.

INITIATIVE 2.2: Install green, energy-efficient streetlights (Sustainable DC Plan Energy Action 1.3, Nature Action 2.2).

In FY15 DDOT will continue to convert street and alley lights to Light-Emitting-Diode (LED). LED lights consume 50% less electricity and have a life-span of 15 years (compared to 6-months for incandescent, 2 years for mercury vapor and 4 years from high pressure sodium).

This is a multi-year initiative, with the overall goal of converting all streetlights to LED at a rate of 200 per fiscal year. **Completion Date: September 30, 2015.**

 **Performance Assessment Key: Not Achieved**

In 2011, DDOT issued an RFP for five-year Citywide Streetlight Asset Management services. Since 2011, there have been three protests from unsuccessful bidders. In 2015, DDOT reviewed all options for contract vehicles to meet the agency’s needs, with consideration of previous protests. Moving forward, DDOT intends to use all of its funding for asset management, LED conversion, and ensuring robust service and reliability. However, because DDOT is in the procurement process (solicitation development), the agency is protecting the confidentiality of internal procurement deliberations that occurred during FY15.

KEY PERFORMANCE INDICATORS– Transportation Operations Administration

	KPI	Measure	FY 2014 YE Actual	FY 2015 YE Target	FY 2015 YE Revised Target	FY 2015 YE Actual	FY 2015 YE Rating	Budget Program

●	1.9	Number of injury crashes per million vehicle miles traveled (VMT)	0.75	1	1.91	52.36%	Transportation Operations Administration	

Public Space Regulation Administration (PSRA)

OBJECTIVE 1: To increase and improve the timeliness, consistency, transparency and completeness of public space permits.

INITIATIVE 1.1: PSRA will build on its Operation Smooth Street program to ensure restorations occurring following the regulatory established Winter Moratorium are coordinated and proactively addressed.

Regulations establish a moratorium on final restorations for excavations of the roadways between the months of November through March. As a result, in the early spring there are thousands of temporary restorations across District roadways from utility work performed in those months. PSRA will begin planning for final restoration of these excavations in the late winter, leveraging information technology to integrate District and utility records of unrestored locations. PSRA will streamline the permitting and inspection processes so work can commence when the weather turns. PSRA plans to ensure at least 1,500 excavations are identified, restored, and inspected by the close of the Operation Smooth Streets program.

Completion Date: June 30, 2015.

● **Performance Assessment Key: Fully Achieved**

Operation Smooth Streets has completed a successful season. 1,040 roadway locations were temporarily restored during the winter moratorium. Utilizing IT tools and partnering with the

utilities to expedite their restoration, PSI lead the PSRA team to have 1,019 of these locations restored by the end of the program, reflecting a 98 percent completion rate. Notices of Violation were issued to the utilities for the 21 locations that have not been restored.

INITIATIVE 1.2: PSRA will coordinate utility capital improvement projects (CIP) to reduce duplicative excavations and to minimize impacts on neighborhoods during CIP work.

The major utilities perform hundreds of large scale Capital Improvement Projects (CIPs) annually. These projects range in size from one block to city-wide programs. Many of these projects are years in the planning stages and often can be situated in the same areas. When not coordinated this results in needlessly duplicative excavations. These redundant excavations also are more costly and reduce the quality of life for residents for extended periods while serial construction sites are set up and dismantled.

PSRA will begin and implement a program to coordinate the major utilities CIP projects. Leveraging existing IT tools and building on the established program wherein DDOT coordinates its infrastructure projects with utilities, PSRA will map out the upcoming utility projects for the next two years, including locations and timelines. PSRA will monitor the utilities work and records to make sure the information is accurate and up to date. Through the permit process PSRA will coordinate time and location of excavations. In the field PSRA will work with utility crews and contractors to make sure construction activity takes place in a uniform, timely, and efficient manner. **Completion Date: September 30, 2015.**

Performance Assessment Key: Fully Achieved

PSRA (PSI, Plan Review, and Permits Team) continues to participate in IPMA's monthly coordination meeting in an effort to monitor and ensure duplicative excavations are eliminated. These meetings inform the utilities of IPMA's Capital Improvement Projects (CIPs) several years in advance. The utilities are able to plan/coordinate all excavations/repairs before the CIPs begin. During these meetings IPMA and the Utilities review the status of ongoing projects as well. Additionally, PSI attends the monthly Utility Construction Meeting. This meeting is established by IPMA and Chaired by Thomas Fulton. It is designed to utilizing the opportunity to provide an overview of your IPMA/DDOT projects, and to positively and productively surface potential conflicts that can be resolved, mitigated quickly or thru further consultation with the project team.

OBJECTIVE 2: Increase the knowledge, skills, and ability of staff in the performance of duties

INITIATIVE 2.1: PSRA will enhance the Preliminary Design Review Meeting process.

PSRA issues permits for development projects. The pace and amount of development projects in the District are both increasing. PSRA has been given the complete management of the Preliminary Development Review Meeting (PDRM) process. PDRMs are held at the early to mid-design phases for larger development projects. These projects typically involve

the most complex and multifaceted uses of public space. PSRA will enhance the PDRM process through process reengineering and solicitation of stakeholder feedback. It will enter into Level of Service agreements with internal and external reviewers and will establish transparent timelines and deliverables for all parties involved in the PDRM process. It will create incentives for reviewers and applicants to participate in and follow through on the commitments made in PDRMs. It will standardize inputs and outputs of the program. Monitoring of progress and delivery on commitments will be measured to demonstrate the tangible benefits adhering to all participants. **Completion Date: September 30, 2015.**

 **Performance Assessment Key: Partially Achieved**

The draft level of service agreement has been revised based on input from stakeholders and analysis of existing process. This revised program will be implemented in FY16.

INITIATIVE 2.2: PSRA will create greater consistency and transparency in the Public Space Committee application process.

PSRA provides administrative support to the Public Space Committee (PSC), a multi-agency body established through a Mayor's Order that makes determinations on certain classes of public space permit applications. The PSC is similarly situated to other government bodies such as the Alcoholic Beverage Control Board (ABC), the Board of Zoning Adjustment (BZA), and the Zoning Commission (ZC). To ensure the PSC is delivering consistent, transparent, and efficient service PSRA will perform a complete review of its processes, including identification of the classes of applications submitted to it for decisions; a review of the regulations and Mayor's Order to ensure its actions are properly aligned with its jurisdiction; and a mapping of its current processes. It will conduct best practices research of the ABC, BZA, and ZC processes. It will solicit feedback from internal and external stakeholders including applicants, associations, and Advisory Neighborhood Commissions. It will enter into Level of Service agreements with internal and external reviewers and will establish transparent timelines and deliverables for all parties involved in the PSC process. It will enhance its online tools and will publish its agendas and actions on an established calendar published in the DC Register. It will consult with the Office of Boards and Commissions to ensure it is meeting all requirements including openness and transparency. **Completion Date: September 30, 2015.**

 **Performance Assessment Key: Fully Achieved**

The PSC has benchmarked its operations against other government boards and commissions and has also participated in training from the Mayor's Office of Talent and Appointments. As a result, the PSC has modified its practices to conform more closely with the Open Meetings Act. These changes, which include how meetings are conducted (e.g. roll call votes for all actions) and how it administers the application process (e.g. file review attendance has been revamped to ensure compliance with the Open Meetings Act) have substantially increased the transparency and accountability of the process. This work will continue into FY16.

KEY PERFORMANCE INDICATORS- Public Space Regulation Administration (PSRA)

 	KPI	Measure	FY 2014 YE Actual	FY 2015 YE Target	FY 2015 YE Revised Target	FY 2015 YE Actual	FY 2015 YE Rating	Budget Program

Office of the Director

OBJECTIVE 1: Implement and enhance sustainable, environmentally friendly practices and alternative transportation modes (OCAP – Action Item 1.4.5, 3.7.1,3.7.2 and Indicator 3C).

INITIATIVE 1.1 – Conduct agency sustainability assessment using OCA approved criteria developed by DDOE and OP in accordance with Mayor’s Order 2013-209 (Sustainable DC Governance Goal 1, Action 1.2; Built Environment Goal 3)

Within one hundred twenty (120) days after the City Administrator approves sustainability assessment criteria developed jointly by the District Department of the Environment and the Office of Planning, each agency head subject to the authority of the mayor shall use the criteria to evaluate the sustainability of their respective operations in accordance with the requirements of Mayor’s Order 2013-209, the Sustainable DC Transformation Order, and submit to his or her responsible Deputy Mayor and the Office of the City Administrator the results of the agency’s internal assessment. **Completion Date: April 2015**

 **Performance Assessment Key: Partially Achieved**

DDOT completed and submitted the agency's internal sustainability assessment in FY15. The information submitted corresponded to the established criteria under executive order 2013-209 and identified ways to improve DDOT's operational sustainability. Specifically, DDOT examined and responded on matters related to energy-savings, sustainable products, and printing policies. DDOT continues to work with DOEE on future adaptation plans and projects to enhance sustainable activities.

Question 14 - Reprogramming - FY2015

Original Use of Funds (From)	Use of Funds (To)	Amount	Purpose
Contractual service for TOA (Fund 0100 - 5020 - 0041)	Uniforms for staff TOA (Fund 0100 - 5020 - 0020)	\$ 115,000.00	Funds are needed to purchase uniforms and boots for Street and Bridge Maintenance program within TOA.
KEO - WMATA Fund 6030 (DC Circulator)	KEO - WMATA Fund 0601 (Parking Meters)	\$ 2,836,313.99	Funds are needed to allow WMATA to properly align budget with planned spending for the DC Circulator Program.
Capital Project 11th Street Bridge - Fund 0350 (HTF00A/04)	Capital Project Maintenance - Fund 0350 (MNT00A/04)	\$ 5.00	Funds are needed to be properly aligned in the Master Projects to correspond to DDOT's planned obligations.
AMP-Property Management - 0041 - Fund 0100 - 1030	AMP-Property Management - 0020 - Fund 0100 - 1030	\$ 15,000.00	Funds are needed to purchase materials to repair the sand filters and manholes at Farragut. (Within AMP)
DDOT Capital Budget - Project TRF01C - Fund 0301	(Reverse PayGo Project PA0 RPA02C Fund 0301) to DMPED operating budget (EBO)	\$ 2,000,000.00	The reprogrammed PayGo capital budget will support the financing costs of the DC United Soccer Stadium.
Streetcar Revenues Fund 6908 CSG 41	Transportation Infrastructure Mitigation Fund 6909 CSG 41	\$ 449,680.00	There is no anticipated revenue for Streetcar this fiscal year and budget authority is need in the Transportation Infrastructure Mitigation.
Transportation Infrastructure Mitigation - Fund 6909 5010 - 0040	Fund 0301 PayGo to Capital Project EW002C/01 Fund 0331 - 0409	\$ 458,653.33	The funds are needed to allow DDOT on behalf of CSX to compensate the vendor for CSX work on the 11th St, SE bridges.
KEO - WMATA project SA311C/04 Fund 0300	A new DCNG project (AM0) NG715C, Youth Challenge Educational Campus	\$ 700,000.00	It will enable the Department of General Services (DGS) to improve the outdoor security lighting system at the DCNG's Youth Challenge Educational Campus.
Multiple Projects within KA0 - Capital Fund 0345 O-Type Fund 6909 (Transportation Infrastructure Mitigation - 5010)	Multiple Projects within KA0 - Capital Fund 0345 Pay-As-You-Go Local Capital Fund 0301 in project CI063A /03(0011) & 04(0041)	\$ 2,957,285.01 \$ 345,431.82	Funds are needed in various projects and phases to meet the contractual estimates. The reprogramming will ensure the TIGER grant is properly aligned. The funds are needed for traffic signal work at the intersection of 8th Street and Florida Avenue, NW.
Transportation Infrastructure Mitigation - 5010 - Fund 0100 - 0040	PayGo Capital to Project CD044A/01 0011 & 0041 Fund 0301, Anacostia Waterfront Initiative	\$ 350,000.00	The budget is needed to allow DDOT on behalf of the U.S. General Services Admin (GSA) to obtain permits to complete FY2015 project requirements.
Operating Budget (IPMA - 2010 - Fund 0100 - 0041)	PayGo Capital to Project SR098C/01, Fund 0301 - 0041 & 0011	\$ 2,000,000.00	The funds are needed to allow DDOT to complete the work requested for Ward 8
Local Fund 0100 - Planning, Policy and Sustainability Administration (PPSA - 4010)	Local Fund 0100 - Transportation Operations Administration (TOA - 5010)	\$ 918,000.00	The funds are needed to execute pavement marking activities throughout the District.
Capital Project Maintenance - Fund 0350 (MNT00A/04)	Capital Project 11th Street Bridge - Fund 0350 (HTF00A/04)	\$ 5.00	Funds are needed to be properly aligned in the Master Projects to correspond to DDOT's planned obligations.
Capital Fund 0300 and Fund 0330 within local capital projects (PM301C, PM303C & PM304C)	Local Capital Project Neighbor Parking Fund NPP01C and Parking Planning PM302C	\$ 666,667.00	Funds are needed to fulfill priority requests for improvements in three Performance Parking Zones (Columbia Heights, H Street & Ballpark Area).
Transportation Infrastructure Mitigation Fund 6909 - TOA 5010 - 0040	PayGo to Local Capital Project MRR16C/01 Fund 301 - 0409&0111 Virginia Avenue Tunnel	\$ 1,202,900.00	The budget is needed to allow DDOT to complete project requirements (design reviews, permitting and field verification activities).
Local Fund 0100 - Infrastructure Project Management Administration (IPMA) - 0050	Transportation Operations Administration (TOA) - Snow Funds - 0013	\$ 342,939.00	Funds are needed to cover overtime expended during the snow season.
Capital Budget Fund 0300	Metro Memorial Park	\$ 521.66	Funds are needed to support the cost of park construction
Master Lease Capital Budget	Department of Parks and Recreation (DPR)	\$ 405,819.55	Funds are needed to help support the costs of purchasing vehicles for the DPR fleet to transport citizens to recreational programs through the District.
Fund 6909 Center Leg Freeway Pilot - IPMA 2010 - 0041	Fund 0301 Center Leg Freeway - CDTB6A/04 - 0409&0111	\$ 1,779,433.00	Budget is needed to support DDOT's cost for design completion and construction review on the Capitol Crossing Project.
TOA - 5010 - Fund 06909 - 0409	IPMA - 2010 - Fund 6395 - 0409	\$ 1,779,433.00	Budget is needed to support DDOT's cost for design completion and construction review on the Capitol Crossing Project.

Question 14 - Reprogramming - FY2015

Original Use of Funds (From)	Use of Funds (To)	Amount	Purpose
PayGo Fund 0301 within Capital Project LTCMOC (Long Term Control)	PayGo Fund 0301 within Capital Project TID01C (Traffic Infrastructure Development)	\$ 83,638.48	Funds are needed to allow spending in accordance with the revenues received from developer agreements for traffic infrastructure services
Special Purpose Operating Budget - TOA 5010 - 0041	As PayGo to project TID01C/01 - 0409, Traffic Infrastructure Development Project	\$ 39,000.00	The budget is needed to allow TOA to make safety improvements around Kecham Elementary School.
Special Purpose Revenue Funds - Fund 6904 - PPSA 4010 - 0041	As PayGo local capital project BEE00C/04 - 0409 - Fund 0301 - Bus Efficiency Enhancements	\$ 5,297,923.00	The budget will be used to improve bus service and the bus customer experience by improving bus facilities in DC.
Special Purpose Operating Budget - Fund 6902 - PPSA 4010	As PayGo capital budget to project NPP01C/04 - 0409 - Neighborhood Parking Performance	\$ 2,255,469.00	The budget is needed to allow DDOT to procure awarded community projects to complete project requirements.
Fund 6903 - Bike Share - PPSA 4010 - 0041	As PayGo to Project MRR16C/01 - 0409&0111, Virginia Avenue Tunnel Project Fund 0301	\$ 1,541,000.00	The budget is needed to allow DDOT to complete project requirements (design reviews, permitting and field verification activities).
Local Fund 0100 - PPSA 4010 - 0041	As PayGo Capital budget to project ED311C/01 - 0409 - Kennedy Street Streetscape Fund 0300	\$ 300,000.00	The budget is needed to advance the Kennedy Street Streetscape project.
Local Fund 0100 Various Admins 0040 & 0041	As PayGo Capital budget to project SR098C/01 - 0409 - Ward 8 Streetscapes Fund 0300	\$ 1,439,272.00	The budget is needed to advance the redesign of the intersection of Martin Luther King Jr. Ave SE and Malcolm X SE in Ward 8.
Local Fund 0100 - TOA Citywide Program 5090 - 0041	As PayGo Capital budget to project TRL50C/01 - 0409 - Trails - Fund 0300	\$ 1,424,922.03	The budget is needed to provide the resources to initiate and continue planning and designing activities associated with the District's trail system.
Local Fund 0100 Operating Budget - Debt Services payment to DC Water & Parking Operations	As PayGo Capital budget to BR101C - Fund 0300 - Kenilworth Parkside Pedestrian Bridge	\$ 1,080,000.00	The funding will connect the redeveloped Kenilworth Parkside community with the Deanwood METRO station across I-295.
KEO WMATA Surplus Capital Budget	Office of the Chief Technology Officer	\$ 500,000.00	The funds are needed to support the second phase of an information technology system to be utilized across multiple agencies.

Question 20 - Agency FY2015 Surplus
 Department of Transportation (KA0)
 FY 2015 Budget Balance Explanations

Local Fund

APPR FUND 0100 CSG	FY15 Budget	FY15 Expenditures	Variance	Comments
0011 - 0015	\$ 42,836,834	\$ 42,616,557	\$ 220,277	Balance is due to turnover for administrative support staff.
PS	\$ 42,836,834	\$ 42,616,557	\$ 220,277	
0020	\$ 1,081,770	\$ 970,007	\$ 111,763	Balance is due to lower than anticipated cost for uniforms for Transportation Operations field workers.
0030	\$ 8,105,489	\$ 7,977,175	\$ 128,314	Balance is due to lower than anticipated utility cost.
0040	\$ 6,053,918	\$ 5,871,760	\$ 182,158	Balance is due to lower than anticipated cost for maintenance of snow vehicles and for traffic control services.
0041	\$ 18,327,802	\$ 17,404,476	\$ 923,326	Variance of \$700k of fund 100 NPS due to contractual savings for parking operations and street & bridge maintenance.
0050	\$ 100,386	\$ 100,000	\$ 386	
0070	\$ 138,918	\$ 109,757	\$ 29,161	Balance is due to lower than anticipated cost for equipment purchases.
NPS	\$ 33,808,283	\$ 32,433,175	\$ 1,375,108	
Total	\$ 76,645,117	\$ 75,049,732	\$ 1,595,385	

Federal Grant Fund

APPR FUND 0200	FY15 Budget	FY15 Expenditures	Variance	Comments
200	\$ 5,197,594	\$ 5,197,544	\$ 50	Balance is due to a reversal of an expense that occurred after the grant modification package was approved and budget was reduced to equal expenditures.

Special Purpose Revenue Fund

APPR FUND 0600	FY15 Budget	FY15 Expenditures	Variance	Comments
0600	\$ 13,709,740	\$ 11,258,388	\$ 2,451,352	Variance of \$1.1M of NPS SPR fund 6901 due to timing of funding awards within the Agency. In FY2016, a more rigorous spend plan in place and currently 90% of funding for fund 6901 has been expended or obligated. Variance of \$1.3M of authority was left in fund 6909 Transportation Mitigation Fund.

*Variance Description formatted to include response from Resource Management.

Question 25 - MOUs

Request Date	Buyer Agency	Seller Agency	Description of Service	Amount
July 30, 2015	DDOT	DDOE	To install stormwater reduction devices and technologies in the public space	\$ -
August 4, 2015	OP	DDOT	Implementation of Sustainable DC Innovation Challenge, Pavers on CT Ave, NW	\$ 50,000.00
August 11, 2015	DDOT	OP/SHPO	Amendment - Expedited review of DDOT projects for fiscal Year 2016	\$ 140,000.00
August 20, 2015	DDOT	OCFO	Funding for one FTE for OCFO to collect public space surface rental bills in FY15	\$ 109,434.42
September 15, 2015	DDOT	DGS	To perform preliminary work to quantify the risks associated with proposed development of the green space along PA AVE	\$ 200,000.00
October 6, 2015	DDOT	DCCAH	Provide DCCAH assistance with an art event called Art All Night	\$ 3,147.00
October 24, 2015	DDOT	JR0	For cost of sign language interoperation services from ODR	\$ 3,000.00
October 27, 2015	DDOT	OCME	The OCME employ one FTE who will perform necessary toxicology casework and improve the chemical testing knowledge base	\$ 165,000.00
November 4, 2015	DDOT	DCHR	To provide funding for the Capital Fellows Program in FY16	\$ 112,697.00
November 4, 2015	DDOT	FEMS	To upgrade the existing FEMS simulator so that it can mimic various District Traffic & other incident scenarios	\$ 351,048.54
November 4, 2015	DDOT	OAG	Administrative costs, courier and transportation, and telecommunication services	\$ 162,000.00
December 17, 2015	DDOT	OAG	Administrative costs, courier and transportation, and telecommunication services	\$ 392,000.00
December 23, 2015	DDOT	MPD	For various safety related enforcement activities and to include DUI enforcements and pedestrian safety initiatives	\$ 2,745,595.63
January 6, 2016	DPW	OSSE	DDOT will provide training and review applicable invoices	\$ -
February 3, 2016	DDOT	DCTC	DC Taxicab Commission will provide service of taxi trips to & from eligible facilities for district residents enrolled in MetroAccess	\$ 2,800,000.00
August 3, 2015	DDOE	DDOT	Clean Water Act State Revolving Fund Projects	\$ 3,780,774.00
February 11, 2016	DDOT	OUC	Citywide Radio System, Computer-Aided Dispatch and Mobile Data Services	\$ 51,502.81

27. AUDITS, REVIEWS, EVALUATIONS

Issuing Entity	Report Number	Date Issued	Report Title	Description
OIG	OIG No. 14-1-23KA	January-15	District Department of Transportation - Highway Trust Fund Financial Statement Audit - For the Fiscal Year Ended September 30, 2014	OIG audit of the Highway Trust Fund, which is administered by the District of Columbia Department of Transportation as of and for the year ended September 30, 2014. These financial statements are the responsibility of the Highway Trust Fund's management and the Office of the Chief Financial Officer. Our responsibility is to express an opinion on these financial statements based on our audit.
APTA	n/a	April-15	Report of the APTA Peer Review Panel on the Streetcar Service Readiness	The Agency requested a peer review from APTA to evaluate DC Streetcar Program service readiness.
OIG	OIG NO. 14-1-23KA(a)	June-15	District Department of Transportation - Report on the Examination of the District of Columbia Highway Trust Fund's Forecast Statements for Fiscal Years 2015-2019 With Actual Audited Figures for Fiscal Year 2014	A report summarizing the results of the OIG's Examination of the Highway Trust Fund's 5-year forecast expenditure conditions and operations.
DC Auditor	DCA042016	January-16	Status Report on Implementation of District of Columbia Auditor Recommendations	The purpose of this report is to make public the implementation status of the recommendations DC Auditor have made to District of Columbia government agencies in their audit reports.
OIG	OIG No. 15-1-21KA	January-16	District Department of Transportation - Highway Trust Fund Financial Statement Audit - For the Fiscal Year Ended September 30, 2015	OIG audit of the Highway Trust Fund, which is administered by the District of Columbia Department of Transportation as of and for the year ended September 30, 2014. These financial statements are the responsibility of the Highway Trust Fund's management and the Office of the Chief Financial Officer. Our responsibility is to express an opinion on these financial statements based on our audit.
FTA	FTA SMR	January-16	FTA State Management Review	The Federal Transit Administration (FTA) conducted a State Management Review of the District DOT. The review assesses management practices and program implementation to ensure that the FTA programs are administered in accordance with 49 U.S.C. Chapter 53, Federal transit law provisions, and FTA requirements and are meeting program objectives.

DDOT Admin	Report Date	Report Number	Report Title	Issue	Issuing Entity	Compliance Status	Recommendation Summary	Estimated Completion Date/Date Resolved	Status of Implementation
IPMA	January-13	OIG No.11-2-28KA	MANAGEMENT ALERT REPORT ON DDOT'S INVENTORY OF CAPITAL EQUIPMENT	Capital Equipment	OIG	Closed	1) Take immediate possession of the District-owned barrier moving machine from the contractor. 2) Determine whether to surplus the barrier moving machines and offer them for sale. 3) Conduct a complete inventory of all construction capital equipment. 4) Discontinue the practice of allowing contractors to use District-owned equipment by lease or any other means without appropriate documentation of terms and conditions in a contract issued by the DDOT chief contracting officer. The documentation is essential for monitoring and oversight to ensure payment and other terms of the agreement are complied with. 5) Develop written procedures to implement adequate internal controls for the control of fixed assets. The procedures should provide guidance for allowing contractors to utilize District-owned equipment when government furnished equipment is not included in the solicitation or invitation for bid. 6) Recover payment for equipment rental using the verified period of equipment use and the complete offer made by the contractor for the rental of both DDOT-owned barrier moving machines and equipment.	Completed	The equipment was sold by the District. DDOT has a complete inventory of all construction Capital Equipment. DDOT does not rent equipment to contractor anymore. The contractor has paid the District for the use of the DDOT owned barrier moving machines.
OCFO	February-13	OIG No. 12-1-13KA	DISTRICT OF COLUMBIA HIGHWAY TRUST FUND	Highway Trust Fund	OIG	Closed	None	N/A	N/A
Civil Rights	July-13	HAD-DC	TITLE VI/NON DISCRIMINATION COMPLIANCE REVIEW	Reporting Requirements	FHWA	Open	1. DDOT must ensure that the office of ROW manager is sufficiently trained to effectively fulfill her duties and that ROW activities are integrated into DDOT's project development phase in time for the initiation of projects in 2013. 2. DDOT must revise existing operations manuals (design & engineering and environment) to include more specific procedures regarding conducting community outreach and for public involvement and participation. These processes must be referenced in the participation plan section of the Title VI/Nondiscrimination plan. 3. DDOT and COG do not presently collect demographic information (age, sex, national origin, color, disability etc.) DDOT must ensure that all Title VI/Nondiscrimination program related population data is being collected. 4. DDOT must develop an effective annual PAR program, include the program as part of the Title VI/Nondiscrimination plan, and integrate the PAT program into the program areas. 5. DDOT's call center must use the LEP Four fact analysis results to determine if 311 service messages need to be provided in on or more additional languages (Executive Order #13166) 6. DDOT must develop a process to periodically evaluate the effectiveness of the criteria used in each of the approximately 14 categories to determine if otherwise eligible firms are not included in the A&E schedule. 7. DDOT must update the Title VI/Nondiscrimination policy statement to identify the Title VI/Nondiscrimination coordinator and explicitly communicate that DDOT's Associate Directors have been delegated authority and responsibility to effectively implement Title VI/Nondiscrimination requirements through the program areas of each AD. Additionally, DDOT must provide the Title VI/Nondiscrimination policy statement to participants of the Title VI/Nondiscrimination training provided by the training department (DDOT's).	FY2016	A corrective action plan was submitted to FHWA on 10/9/2013. This plan will correct all the identified deficiencies through the year 2015.
ASA	August-13	FY2013-010	DCHR AUDIT REPORT Q1 & 2 FY 2013	Hiring Practices	DCHR	Open	1) Incomplete merit staffing case files Recommendation: Include all needed documentation in MSCF 2) Discrepancies in the vacancy announcements Recommendation: Implement a more thorough check for accuracy 3) Incomplete OPF's Recommendation: Implementation of effective filing process (DCHR Recommendation)	Completed	Finding #1: DDOT's ASA recruiters currently use the checklist to ensure that all required documents are included in the MSCF. All MSCFs are reviewed by a designated support staff to assure all required documents are included before the MSCFs are filed and closed out. As a result of the findings of this audit, we are currently including the DCSF-62 in all interview packages that are prepared for the panelist to complete. Finding #2: As a result of the audit findings, all postings are assigned to three ASA staff, serving in the role of originator, recruiter and approver. This will ensure that the postings are reviewed for accuracy by three individuals before the announcement is posted on DCHR's website. This will help prevent the omission of pertinent information in our job postings. Finding #3: This is a DCHR recommendation
OD	January-14	OIG No. 13-1-28KA	HIGHWAY TRUST FUND FINANCIAL STATEMENT AUDIT FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013	Highway Trust Fund	OIG	Closed	OIG examination included a review of existing processes, policies, and controls for the purpose of expressing an opinion on the accompanying forecasted statements. Although OIG found no instances of noncompliance that would be reportable under generally accepted government auditing standards, the objective of our review was not to provide an opinion on overall compliance with such provisions.	N/A	N/A
ASA	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Contract duplicate payment	OIG	Closed	1. Initiate the process to seek reimbursement from FHWA in the amount of \$307,322 (or 83.15% of \$369,600) for the portion of the federal financial participation (FFP) disallowed by FHWA for project STP 8888(269) for payment to the contractor that DDOT determined was not duplicated.	Completed	No status required
IPMA	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Internal control deficiencies in management of federal-aid projects	OIG	Closed	2. Establish adequate internal controls to ensure that new processes and procedures recently put in place, through the Construction Management Manual, are sufficient to timely identify and correct errors. 3. Maintain and make available for review upon request, a record of training provided to project management staff and contract administration personnel to ensure compliance with the Construction Management Manual and effective management of construction projects. 4. Ensure compliance with DDOT's requirements governing change orders.	Completed	No status required

DDOT Admin	Report Date	Report Number	Report Title	Issue	Issuing Entity	Compliance Status	Recommendation Summary	Estimated Completion Date/Date Resolved	Status of Implementation
IPMA	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Project files missing supporting documentation	OIG	Unresolved	5. Seek assistance from FHWA regarding design costs approved in Report FMISD05A for 8888(171) for Dalecarlia and any documentation supporting the FHWA Area Engineer's decisions related to this project. If there is no documentation evidencing the FHWA Area Engineer's disapproval, DDOT should initiate the process to seek reimbursement from FHWA in the amount of \$77,043 (or 83.15% of \$92,655) for FFP.	TBD	Although FHWA agreed to the initial overall scope of the project and its estimated cost, as outlined in Report FMISD05A for 8888(171), the design cost in question was beyond this initial decision to obligate federal funds. In order to be eligible for reimbursement, the design costs would have been required to be part of an approved Form 1365, and neither DDOT or FHWA can find evidence that the work was covered by a Form 1365. As a result FHWA provided written notice on July 28, 2008, that it would not participate.
IPMA	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Project files missing supporting documentation	OIG	Open	6. Ensure compliance with DDOT's CM regarding maintenance of contract files.	In Progress	Begin necessary further investigation and determine appropriate action March 2, 2015
OCFO	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Rights-of-way revenue policies and procedures have not been revised to incorporate changes in governing legislation	OIG	Unresolved	7. Revise the Rights-of-Way Policies and Procedures to reflect current law governing the HTF.	Completed	Previous procedures rescinded. T the amount of Rights-of Way revenue transferred to the HTF annually is determined by BSA legislation, with a one time annual transfer to the HTF once sufficient rights-of way revenue is received.
OCFO	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Rights-of-way revenue policies and procedures have not been revised to incorporate changes in governing legislation	OIG	Unresolved	8. Monitor the recording of ROW rental fees to ensure that ROW revenue is deposited into the correct account.	Completed	Previous procedures rescinded. T the amount of Rights-of Way revenue transferred to the HTF annually is determined by BSA legislation, with a one time annual transfer to the HTF once sufficient rights-of way revenue is received. Rights of Way fees are always deposited to the DC Custodial Bank account and recorded as rights of way revenue in the KZ0-Transfer Agency.
OCP	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Contract files lack evidence of compliance with certain provisions of procurement laws and regulations	OIG	Open	9. Ensure compliance with procurement laws and regulations.	In Progress	Begin necessary further investigation and determine appropriate action March 2, 2015
OCP	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Contract files lack evidence of compliance with certain provisions of procurement laws and regulations	OIG	Open	10. Ensure that contract files contain evidence of compliance with relevant procurement laws and regulations.	In Progress	Begin necessary further investigation and determine appropriate action March 2, 2015
OCFO	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	DDOT lacks controls to monitor direct labor payroll costs charged to highway trust fund projects	OIG	Closed	11. Develop, document, and implement controls for the periodic review of payroll costs to ensure that only allowable payroll costs are charged to projects.	Completed	
OCFO	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	DDOT-OCFO recorded DC water advance for project in wrong fund	OIG	Closed	12. Monitor activity posted to the HTF to ensure it is in accordance with established budget authority.	Completed	
OCFO	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Incorrect cost allocation overhead posting	OIG	Closed	13. Adhere to established policies and procedures to ensure that cost allocation journal entries posted to SOAR are correct; and 14. Ensure that entries submitted to OFOS for processing are correctly recorded in SOAR.	Completed	This was a one time error when OFOS posted an incorrect upload batch and the error was not detected. . Accounting staff now reviews the entry once upload is completed to ensure that no error has been made prior to posting.
OCFO	April-14	OIG No. 12-1-13KA(b)	HIGHWAY TRUST FUND MEMORANDUM OF RECOMMENDATIONS FOR FY ENDED 9/30/12	Incorrect classification of motor fuel tax refunds due	OIG	Open	15. Develop clear and concise policies and procedures to ensure that refunds owed by the HTF are correctly classified in SOAR and incorporate the new procedure(s) in the OTR section of the HTF's Revenue Cycle Memorandum that outlines current revenue controls, policies, and procedures.	TBD	
IPMA	April-14	OIG No. 11-2-28KA(b)	AUDIT OF CONSTRUCT MANAGEMENT AT THE DISTRICT DEPARTMENT OF TRANSPORTATION	Compliance, internal control, and economy and efficiency	OIG	Closed	Incorporate the construction management manual in all construction management contracts and amend existing contracts to incorporate the manual.	Completed	Implemented
IPMA	April-14	OIG No. 11-2-28KA(b)	AUDIT OF CONSTRUCT MANAGEMENT AT THE DISTRICT DEPARTMENT OF TRANSPORTATION	Compliance and internal control	OIG	Closed	Develop a procedure to standardize the initial CM meeting to ensure that adequate documentation systems are designed and implemented for construction projects, and require that the results of the meeting be documented in the construction management project files	Completed	Implemented Procedures
IPMA	April-14	OIG No. 11-2-28KA(b)	AUDIT OF CONSTRUCT MANAGEMENT AT THE DISTRICT DEPARTMENT OF TRANSPORTATION	Compliance, internal control, and economy and efficiency	OIG	Closed	Implement a program to develop or enhance project engineer skills that are necessary to effectively oversee construction managers' documentation and inspection of construction projects. The program should require that the verification of project staff certification and experience, and the acceptance or approval of staff by DDOT's Engineer or his/her representative be documented in the project files.	Completed	Implemented Program
IPMA	April-14	OIG No. 11-2-28KA(b)	AUDIT OF CONSTRUCT MANAGEMENT AT THE DISTRICT DEPARTMENT OF TRANSPORTATION	Compliance and internal control	OIG	Open	Develop a list of the project deliverables required by each construction management contract, include them in the monthly reports, and require the CM to address the status of each deliverable in the monthly report.	In Progress	Monthly reports are required on all CM managed construction projects and is ongoing. DDOT also implemented a standard IDR form that captures critical project information on a daily basis. Document management system is developed and being utilized. Additional efforts such as revising DDOT manuals are ongoing. Draft CM check list is under discussion and will be implemented
IPMA	April-14	OIG No. 11-2-28KA(b)	AUDIT OF CONSTRUCT MANAGEMENT AT THE DISTRICT DEPARTMENT OF TRANSPORTATION	Economy and Efficiency	OIG	Open	Require IPMA approval on contract deliverables included in construction contracts and establish periodic reviews to eliminate or reduce unnecessary contract deliverables as project wind down to completion.	In Progress	CMs are required to document and/or process IDR's, reports, RFI, correspondences that will be reviewed/approved/amended by IPMA Staff. Contract Administration training was offered to all IPMA engineers. Draft CM check list is under discussion and will be implemented.
TOA	September-14	OIG No. 14-1-0063	SPECIAL EVALUATION: PARKING AND AUTOMATED TRAFFIC ENFORCEMENT TICKETS – PART I: TICKET ISSUANCE PRACTICES.	ATE Policies	OIG	Open	1. A January 2014 report to the D.C. Council, which was intended to "instill public trust that speed cameras are installed by the D.C. government to improve safety and not just increase local revenues," justified the need for speed cameras at all 241 planned/proposed locations that were studied. However, at nearly half of those locations, the 85th percentile speed—a common traffic engineering benchmark—was at or below the posted speed limit. (1) That the Chief of MPD (C/MPD) and the Director of DDOT (D/DDOT), to bolster public trust in the District's automated speed enforcement program, critically evaluate the January 2014 traffic safety study protocol and its results, and request and document further justification prior to installing ATE equipment at any of the planned or proposed locations addressed in the study.	Ongoing	Collaborated with MPD and Responded to OIG on August 20, 2014. Data is being gathered to conduct the evaluation.
TOA	September-14	OIG No. 14-1-0063	SPECIAL EVALUATION: PARKING AND AUTOMATED TRAFFIC ENFORCEMENT TICKETS – PART I: TICKET ISSUANCE PRACTICES.	ATE Policies	OIG	Open	(2) That the D.C. Council, following collaboration with MPD, DDOT, and outside subject matter experts, amend the D.C. statute that authorizes the use of ATE to: (1) require a robust justification, accompanied by traffic data, of the need for an ATE device at a planned location; (2) within a reasonable period following installation of the device, require a statistical analysis of the impact of the device on traffic safety at the location; and (3) make all of these documents readily available to the public on DDOT's website.	Ongoing	Collaborated with MPD and Responded to OIG on August 20, 2014. Data is being gathered to conduct the evaluation.

DDOT Admin	Report Date	Report Number	Report Title	Issue	Issuing Entity	Compliance Status	Recommendation Summary	Estimated Completion Date/Date Resolved	Status of Implementation
TOA	September-14	OIG No. 14-I-0063	SPECIAL EVALUATION: PARKING AND AUTOMATED TRAFFIC ENFORCEMENT TICKETS – PART I: TICKET ISSUANCE PRACTICES.	ATE Policies	OIG	Open	2. The D.C. Code and DCMR are silent with regard to other important ATE program issues that should be addressed in the statute or regulations, such as the confidentiality and retention of violation images, as well as limitations on camera operations and the information captured by them. That the D.C. Council, after conferring with MPD and DDOT, consider inserting language in the D.C. Code to codify key ATE program elements, including, but not limited to: 1) the confidentiality of and limitation on uses of all images and other information collected by the District's ATE program; 2) guidelines and timeframes for the retention and destruction of all images and videos captured by the District's program equipment; 3) limitations on the number of cameras that can be placed in the District and their hours of operation; 4) the requirement for a site-specific safety study prior to each new camera placement; and 5) the requirement for a sign at every location where ATE equipment is deployed.	Ongoing	Collaborated with MPD and Responded to OIG on August 20, 2014. Data is being gathered to conduct the evaluation.
TOA	September-14	OIG No. 14-I-0063	SPECIAL EVALUATION: PARKING AND AUTOMATED TRAFFIC ENFORCEMENT TICKETS – PART I: TICKET ISSUANCE PRACTICES.	Parking Enforcement	OIG	Open	8. TCOs lack written instructions about key facets of ticketing operations, foremost being how they should take photographs of violating vehicles, which has led to glaring inconsistencies in TCOs' ticketing practices. The OIG team also noted numerous inconsistencies between DDOT's and DPW's ticketing operations. That the D/DDOT promulgate new, comprehensive policies and procedures that address situations commonly encountered by TCOs, including but not limited to: writing a ticket for a vehicle parked at a broken meter; documenting a violation after a motorist drives away before the TCO has finished writing the ticket; testing a meter before issuing a parking ticket; and reporting a broken parking meter.	3/1/2015	Collaborated with MPD and Responded to OIG on August 20, 2014. DDOT engaged a consultant to update Standard Operating Procedures and the TCO training manual. The SOPs will incorporate guidance on how to address broken parking meters. The updated SOP and Training Manual are due to be completed in March 2015, and all TCOs will receive training.
TOA	September-14	OIG No. 14-I-0063	SPECIAL EVALUATION: PARKING AND AUTOMATED TRAFFIC ENFORCEMENT TICKETS – PART I: TICKET ISSUANCE PRACTICES.	Parking Enforcement	OIG	Open	9. TCOs are not required to take photographs that document parking and moving violations, nor do they have written procedures describing the types and number of photographs that would best support the violations they encounter. That D/DDOT promptly write and implement policies and procedures, and train TCOs on them, for photographing parking and moving violations. Further, to improve consistency and uniformity between DDOT's and DPW's ticket writing processes, D/DDOT should coordinate a review of the new policies and procedures by DPW's Parking Enforcement Management Administration. That way, regardless of whether the ticket for a particular parking violation is issued by DDOT or DPW, the photographic evidence presented to the motorist will be consistent.	3/1/2015	Collaborated with MPD and Responded to OIG on August 20, 2014. DDOT engaged a consultant to update Standard Operating Procedures and the TCO training manual. The SOPs will incorporate guidance on including photographs when citations are issued. The SOPs and updated Training Manual are due to be completed in March 2015, and all TCOs will receive training. DDOT also procured new handheld devices that have the capacity to store photographs. These are the same devices (and software) that DPW uses.
TOA	September-14	OIG No. 14-I-0063	SPECIAL EVALUATION: PARKING AND AUTOMATED TRAFFIC ENFORCEMENT TICKETS – PART I: TICKET ISSUANCE PRACTICES.	Parkmobile Policies	OIG	Closed	10. DDOT does not closely monitor transaction fees paid to Parkmobile, or track and analyze Parkmobile complaint data. That the D/DDOT establish systems and assign responsibility for monitoring on a monthly basis: (1) the transaction fees paid to Parkmobile and (2) the number and types of complaints lodged with both the District's and Parkmobile's customer service entities.	Completed	DDOT receives monthly reports regarding transaction fees that are paid to Parkmobile. In addition, DDOT requested and received a breakdown of inquiries to Parkmobile and will implement a process to receive the information on a monthly basis. The District Customer Service Center (311) forwards all complaints directly to Parkmobile.
OD	September-14	DCA262014	DISTRICT SPECIAL EVENTS PROCESSES CAN BE IMPROVED	Transparency of Fee Collection Practices	DC Auditor	Open	Auditor recommends that District Agencies establish a system to ensure that special event organizers are charged the correct fees and payments are received in a timely manner, in accordance Mayor's Special Events Task Group Planning Guide	Completed	Responses submitted to DC Auditor but response not acknowledged in Final Report
OD	September-14	DCA262014	DISTRICT SPECIAL EVENTS PROCESSES CAN BE IMPROVED	Transparency of the internal control process for special events	DC Auditor	Open	Auditor recommends that HSEMA and the agency members of the Mayor's Special Events Task Group execute proper internal controls over the special events process.	Completed	Responses submitted to DC Auditor but response not acknowledged in Final Report
PPSA	September-14	DCA292014	STATUS REPORT ON IMPLEMENTATION OF DISTRICT OF COLUMBIA AUDITOR RECOMMENDATIONS	Grant Management	DC Auditor	Closed	DDOT should strengthen its internal control environment to ensure grant-related policies and procedures address appropriate District laws and the City-Wide Sourcebook Grants Manual and Sourcebook.	Completed	According to DC Auditor - this has been 'Implemented'
PPSA	September-14	DCA292014	STATUS REPORT ON IMPLEMENTATION OF DISTRICT OF COLUMBIA AUDITOR RECOMMENDATIONS	Grant Management	DC Auditor	Closed	DDOT should ensure that grant-related policies and procedures are clearly known and implemented.	Completed	According to DC Auditor - this has been 'Implemented'
PPSA	September-14	DCA292014	STATUS REPORT ON IMPLEMENTATION OF DISTRICT OF COLUMBIA AUDITOR RECOMMENDATIONS	Grant Management	DC Auditor	Open	DDOT should ensure adherence with grant agreement terms prior to disbursing grant payments	In Progress	Agency has made necessary changes. According to DC Auditor - this is 'In Progress'. DDOT reports that this recommendation has been implemented. However, they have not provided documentary evidence to support this assertion
OD	January-15	OIG No. 14-I-23KA	DISTRICT DEPARTMENT OF TRANSPORTATION HIGHWAY TRUST FUND FINANCIAL STATEMENT AUDIT FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2014	Highway Trust Fund	OIG	Closed	OIG audited financial statements of the HTF, which is administered by the DDOT as of and for the year ended September 30, 2014. These financial statements are the responsibility of the HTF's management and the OIG's responsibility is to express an opinion on these financial statements based on our audit	N/A	N/A
PTSA	April-15	n/a	Report of the APTA Peer Review Panel on the Streetcar Service Readiness	Streetcar program overview	APTA	Close	"There appear to be no critical issues in the project that would prevent it from beginning passenger or revenue service." 18 items were recommended to complete prior to entering revenue service.	Completed	DDOT has addressed all issues.
OD	January-16	DCA182014	STATUS REPORT ON IMPLEMENTATION OF DISTRICT OF COLUMBIA AUDITOR RECOMMENDATIONS	Contractor Selection & Quality Assurance	DC Auditor	Open	DDOT should develop clear and complete guidance for required responsibility reviews so that they will be consistently conducted and documented.	Open	DDOT is preparing a response to address DC Auditor recommendations.
OD	January-16	DCA182014	STATUS REPORT ON IMPLEMENTATION OF DISTRICT OF COLUMBIA AUDITOR RECOMMENDATIONS	Contractor Selection & Quality Assurance	DC Auditor	Open	DDOT management should further clarify their policies and procedures to indicate which deadline is to be used when calculating possible liquidated damages. In addition, the date which contract work is determined to be complete must be clearly communicated to all parties and documented.	Open	DDOT is preparing a response to address DC Auditor recommendations.
PTSA	January-16	FTA SMR	FTA State Management Review	State Management Review	DDOT	Open	DDOT made some clarifications in their procurement and grants management standard operating procedures to include new FTA grant requirements, which included: ensure all subrecipients provide a DUNS number, correct FFR reporting to FTA by OCFD, inclusion of consistent verification of procurements check with the FFATA and SAMS reporting systems, inclusion of consistent verification in procurements of vehicles that required it of TMV and Pre and Post Award audits. FTA also included the need for additional clarification regarding verification of Lobbying Certifications when required and lastly the need to further improve our practices regarding our vehicle maintenance oversight for 5310 vehicles. DDOT revised all its processes to date and provided revisions to FTA. DDOT is currently awaiting their comments.	Open	Currently pending FTA Review on DDOT response; DDOT provided a response to FTA regarding the findings of the 2015 agency State Management Plan. We are awaiting to hear from the regarding comments/confirmation of findings close out.

STREETSCAPE PROJECTS FY2016 and FY2017 [FEDERAL & LOCAL]

Project Name	Location	Budget	Status	On Schedule?	Anticipated Completion Date
Dedicate Bus Lanes on Georgia Ave., NW	Florida Ave to Barry Place	\$5M	Construction	Yes	2nd Qtr, 2016
Safety Improvements on 15th St., NW Intersection	15th St, NW intersections with V. St, and W. St.	\$4M	Construction	Yes	2nd Qtr, 2016
Streetscape of 7th St., NW	N St, NW to Florida Ave., NW	\$8M	Construction	Yes	1st Qtr, 2017
14th St., NW Streetscape	Thomas Circle to Florida Ave., NW	\$10 M	Design 90%	Yes	3rd Qtr, 2016
U Street, NW Phase II Reconstruction	14th St., NW west to Florida Ave. NW	\$10M	Design 90%	Yes	3rd Qtr, 2017
WARD 8 STREETSCAPES	MLK Jr. Avenue, SE from S Capitol Street to Milwaukee Place	\$6M	Final Design	Yes	2nd Qtr, 2017
Cleveland Park Streetscape and Drainage Improvement	Conn. Ave from Macomb to Quebec	\$2.5M	Design	Yes	1st Qtr, 2017
Kennedy Streetscape	Georgia to North Capitol Street	\$3.5M	Design	Delayed (Rebid)	2nd Qtr, 2016
17th Street	Potomac to Benning	\$9M	Construction	Delayed (DC Water/Gas)	2nd Qtr, 2018
Revitalization of Minnesota Ave, NE	Benning Rd to Sheriff Rd	\$700k	Final Design	Yes	2nd Qtr, 2017
NJ & NY Avenues Intersection Improvements	H st to N st	\$14M	Construction	Delayed (Cap. Crossing)	3rd Qtr, 2018

1.0 Introduction

Councilmember Mary Cheh coordinated site visits to five “high crash” intersections with the District Department of Transportation during an 8-day period from August 27, 2015 to September 5, 2015. The site visits engaged members of the local Advisory Neighborhood Commissions (ANCs), Business Improvement Districts (BIDs) and other business groups, members of the Bicycle and Pedestrian Advisory Councils (BAC and PAC), the Washington Area Bicyclist Association (WABA), All Walks DC and other concerned stakeholders. The following table outlines the locations and dates of each of the conducted site visits.

Table 1: Site Visit Locations and Dates

Site Visit Location	Date
First Street and Massachusetts Avenue NE	August 27, 2015
14 th Street and U Street NW	September 1, 2015
Minnesota Avenue and Benning Road NE	September 2, 2015
New York Avenue and Bladensburg Road NE	September 3, 2015
Wisconsin Avenue and M Street NW	September 4, 2015

Collectively, these five intersections were the locations of three fatalities and 12 disabling injuries in the last 3½ years. With the Vision Zero Initiative, DDOT and the District as a whole seeks to eliminate traffic-based fatalities and serious injuries within 10 years. To accomplish this requires a proactive approach to analyzing and addressing behaviors and physical conditions that contribute to traffic deaths. DDOT analyzed historical crash data to inform the discussion and formulation of action steps at each of the intersections. This process reinforced the incomplete nature of crash data. For example, a contributing factor is not specified in nearly 80 percent of the crashes at the five intersections visited. Through our efforts to enhance data collection and reporting as part of the Vision Zero initiative, we will work collaboratively with our enforcement partners to ensure that we have comprehensive data to inform our safety priorities and improvements.

The site visits were conducted in an open and collaborative manner, with participants identifying and discussing issues and potential solutions. Each site visit summary includes:

1. Crash analysis and data
2. Recent and planned projects for the location
3. A discussion of site visit observations
4. A summary of next steps and action items

High Crash Intersection Site Visits

DDOT intends to use these site visit summaries as a guide to inform and prioritize short-term, interim, and longer-term infrastructure improvements to promote increased safety at these five locations. DDOT values the collaborative nature of the site visits and intends to utilize this method of targeted stakeholder engagement on safety issues moving forward. In early spring 2016, DDOT plans to organize another series of five intersection site visits in early spring of 2016. The following sections present the site visit summaries at each of the five high crash locations that were a part of this initiative.

2.0 First Street and Massachusetts Avenue NE

The intersection of First Street and Massachusetts Avenue NE is adjacent to Union Station and functionally serves as the confluence of First Street, Massachusetts Avenue, the vehicular exit from Columbus Plaza, and E Street NE. This is a complex intersection with multiple traffic signal phases.

The August 27, 2015 site visit included staff from Councilmembers Cheh, Allen, and Grosso's offices, as well as representatives from ANC 6C, bicycle and pedestrian advocates, and members of the Bicycle and Pedestrian Advisory Councils.

2.1. Crash Data

From January 1, 2012 through August 1, 2015, there were more than 200 crashes at this intersection. More than half of these crashes were sideswipes, which tend to occur when drivers quickly change lanes. The severity of these crashes was fairly low, with one disabling injury, four non-disabling injuries, and one crash in which speed was a contributing factor. Bicycle and pedestrian involvement was also low, representing three and five crashes respectively. The rate of taxi involved accidents at this location was extremely high at 30 percent, but, accounted for, in part, by the adjacency to Union Station. Figure 1 provides the summary report of crashes at this location.

Figure 1: First Street and Massachusetts Avenue NE Crash Data

High Crash Intersection Site Visits

2.2. Recent and Planned Projects

DDOT has recently completed several projects in this area, including: the full reconstruction of Columbus Plaza (2013), signal optimization as part of the Downtown area optimization (2015), and the completion of the Metropolitan Branch Trail extension on First Street NE (2015). DDOT has also worked with the Union Station Redevelopment Corporation over the past year to improve the operations of Columbus Plaza and installed some updated signage in Winter 2015. Additionally, in 2015, the Architect of the Capitol repaved E Street between Massachusetts Avenue and North Capitol and added bike lanes in coordination with DDOT.

2.3. Site Visit Observations

Participants identified issues related to all modes. Some may only require minor fixes, while others could require more substantial capital improvements. Many require further investigation and evaluation by DDOT. The timeline for next steps is included in the next section.

Figure 2: First Street and Massachusetts Avenue NE Site Visit Observations

Pedestrian Issues:

- P1. There is a short time for pedestrians to cross Massachusetts Ave NE. There is currently 10 seconds of “walk” time and 7 seconds of “don’t walk” time during AM peak. The multiple signal

High Crash Intersection Site Visits

phases in the intersection creates a challenge in allocating time for each. Participants observed a high number of pedestrians violating the signal and crossing during the “don’t walk” phase.

- P2. There is a lack of marked crossings of Massachusetts from E Street NE and Louisiana Avenue NE. There are currently no marked pedestrian crossings between the southeast side of Louisiana Avenue and the First Street crossing. This forces pedestrians to deviate from desire lines.
- P3. Where First Street connects to the plaza, the “trail” portion of the sidewalk and crosswalk are not clearly defined, so pedestrians walk in the trail. The pedestrian crossing at the top of First Street near the Bikestation is not clearly defined and pedestrians could be stranded in the median.
- P4. At Louisiana Avenue and Massachusetts Avenue, there is a lagging pedestrian phase for pedestrians crossing Massachusetts Avenue. Pedestrians are held when northbound cars on Louisiana Avenue receive a green light for the right turn. Next, the pedestrians get the walk signal but vehicles continue to get a green and proceed across the crosswalk.

Bicycle Issues:

- B1. People biking westbound on Massachusetts Avenue have a difficult time making the left turn onto E Street NE. E Street NE/NW offers a connected bike lane all the way to 13th Street NW and is a popular route. This maneuver currently requires crossing three lanes of vehicular traffic into the turn pocket.
- B2. People biking southbound on First Street NE have difficulty navigating the trail connection in the westbound Massachusetts direction. There is also some driver confusion with signals on First Street which leads to some conflicts with bicyclists following the bicycle signal.
- B3. People biking eastbound on Massachusetts have a pocket lane between the right turn lane and the through lane. Stakeholders reported seeing the right turn lane regularly used to bypass queues in an unsafe manner.
- B4. There is not an easy/designated way to bike from the Bikeshare station on 2nd Street to Massachusetts Avenue so riders go through Columbus Plaza, which creates challenges for all users.

Vehicular Issues:

- V1. During the site visit, the participants observed a number of instances of vehicles running red lights and blocking intersections, which significantly impacted overall traffic operations and posed safety challenges for users of all modes.

High Crash Intersection Site Visits

V2. Participants mentioned a general level of confusion for drivers, which could be a cause of the predominance of sideswipes noted in the crash history. Many drivers are trying to access Union Station, which can be confusing for those who do not regularly access the station.

V3. There are a number of areas marked off as no-parking with hatching but that nonetheless see people regularly parking. Parking is often close to crosswalks, which reduces visibility of people crossing.

2.4. Next Steps

The following table identifies the next step for each issue and the associated timeline. Wherever possible, both design/evaluation and implementation timelines are noted, but further exploration for some issues may find potential solutions infeasible.

Issue	Next step	Timeline
Pedestrian Issues		
P1. Short crossing time for pedestrians across Mass Ave NE.	Evaluate signal timing to see if more walk time can be given across Massachusetts.	Evaluation: February 2016 Implementation: March 2016
P2. Lack of marked crosswalks across Massachusetts Avenue.	Conduct investigation into crosswalk needs and potential issues, including ADA access and catch basins.	Evaluation: January 2016 Implementation: TBD
P3. Pedestrian/Bike conflicts from 1 st Street/MBT to Mass.	Identify marking changes, such as green paint or clearer delineation.	Design: February 2016 Implementation: May 2016
P4. Louisiana Avenue crossing of Mass.	Evaluate signal phasing to reduce conflicts with pedestrians.	Evaluation February 2016 Implementation: March 2016
Bicycle Issues		
B1. Difficulty of WB bikes on Mass.	Explore adding “two-stage” bike turn with bike box in front of vehicles exiting Columbus Plaza.	Design: February 2016 Implementation: May 2016
B2. Pedestrian/Bike conflicts from 1 st Street/MBT to Mass.	Identify marking changes, such as green paint or clearer delineation. Evaluate signal operations and potentially identify signage changes.	Design: February 2016 Implementation: May 2016
B3. EB Mass biking conditions.	Explore strategies, including: addition of green paint to the pocket lane, improved channelization, or removal of the right turn lane.	Design: February 2016 Implementation: May 2016
B4. Bike connection from Bikeshare station on 2 nd Street to Mass Ave.	Identify potential new or improved facilities.	Design: February 2016

High Crash Intersection Site Visits

Issue	Next step	Timeline
Vehicular Issues		
V1. Red light running	Explore automated red light enforcement with MPD.	Evaluation: March 2016 Implementation: TBD
V2. Driver confusion on Columbus Plaza	Work with USRC and Amtrak to explore adding additional lane markings on pavement directing drivers in advance of Columbus Plaza entry and/or signage upgrades.	Design: March 2016 Implementation: May 2016
V3. Parking in no-parking areas.	Explore addition of flex posts or other barriers to keep drivers from parking in these areas.	Design: March 2016 Implementation: May 2016

Table 2: First Street and Massachusetts Avenue NE Next Steps

3.0 Bladensburg Road and New York Avenue NE

Bladensburg Road and New York Avenue NE is one of the busiest intersections in the District, with around 100,000 vehicles each day, approximately 75,000 on New York Avenue and 25,000 on Bladensburg Road. In addition to the overall volumes, there are heavy turn volumes, which create challenges for pedestrians.

The September 3, 2015 site visit included staff from Councilmembers Cheh’s office, representatives from ANC 5C, MPD staff, bicycle and pedestrian advocates, and members of the Bicycle and Pedestrian Advisory Councils.

3.1. Crash Data

The crash data reflects the high vehicular volumes and higher speeds at this intersection when compared with the other intersections visited. The number of alcohol-related crashes was high as were the percent of the crashes involved trucks, which reflects the freight volume at this location. Nearly one third of the crashes were rear end, which is indicative of locations with high congestion and/or high speeds.

Not reflected in the crash data summary is the high number of hit and run crashes at this location, which MPD has noted. During the data period, there was one fatality and four disabling injuries at this location, along with a number of other injuries. Thirteen pedestrians and five bicyclists were involved in crashes at this intersection. Figure 3 provides the summary report of crashes at this location.

Figure 3: Bladensburg Road and New York Avenue NE Crash Data

High Crash Intersection Site Visits

3.2. Recent and Planned Projects

DDOT has not made any major improvements to the intersection in some time, and there are not currently capital improvement plans for this location. Three photo-enforcement cameras operate at this location to detect red light running and speeding.

3.3. Site Visit Observations

Participants identified a number of issues related to all modes. Some may only require minor fixes, while others could require more substantial capital improvements. Many require further investigation and evaluation by DDOT. The timeline for next steps is included in the next section.

Figure 4: New York and Bladensburg Road NE Site Visit Observations

Pedestrian Issues:

P1. Signal timing for pedestrians is problematic. Leading Pedestrian Intervals or shifting left turns to lagging would give pedestrians a head start across the intersection. Participants also noted short crossing times overall and that pedestrians often must cross in two stages. Participants also

noted that trucks stopping at the intersection often obscure the pedestrian signals for those crossing New York Avenue. The eastern crossing of New York Avenue has higher pedestrian demand with hotel guests crossing to access restaurants. This is also a heavy right turn volume from WB New York Avenue to SB Bladensburg Road. The signal has a leading protected turn phase with right arrow, but eventually the green arrow turns into a green ball when the pedestrians get the walk signal. Drivers fail to yield the right-of-way and continue to turn right through the crosswalk even after pedestrians are present.

- P2. Pedestrian refuge islands along New York Avenue are small and may not be ADA compliant.
- P3. Pedestrian conditions along New York Avenue are substandard. Sidewalks have light poles in the middle of them and do not meet DDOT standards for width. Participants thought ADA conditions should be evaluated/retrofitted.
- P4. Bus stops are far from the intersection (south of New York Avenue near the Taco Bell) which encourages mid-block crossing. MPD positions an officer to serve as a school crossing guard there in the mornings. A HAWK signal or Rectangular Rapid Flashing Beacon (RRFB) could be ways to allow pedestrians to cross safely. At the intersection of T Street and Bladensburg Road, there is a “Tee” intersection with no labelled crosswalks. Consider warrants for a signalized intersection, pedestrian refuge, or HAWK signal.

Figure 5: A police officer is regularly posted at the intersection of T Street and Bladensburg NE to facilitate pedestrian crossings and is visible in Google Street View.

High Crash Intersection Site Visits

Bicycle Issues:

- B1. There are fairly low bicycle volumes at this intersection, but there were nevertheless five bicyclist crashes during the analysis period. Participants discussed the potential to add bike boxes on the Bladensburg Road approaches. One participant said that he has difficulty turning from Bladensburg to Queens Chapel Road and requested a climbing lane on Queens Chapel Road.
- B2. The Fifth District Police Station on Bladensburg just south of the intersection needs bicycle racks. There are numerous community events held in this building and the existing bike racks are located in a secured area.

Vehicular Issues:

- V1. The large number of driveways complicate turning movements and increase conflict points. The high number of curb cuts presents safety and operational concerns for all users.
- V2. Participants mentioned that Queens Chapel Road gets used as a cut-through when traffic is congested along New York Avenue, including oversize and overweight trucks.
- V3. Participants discussed the potential to add better signage to New York and Bladensburg, including potentially mounting street signs to traffic signals. Some of the existing traffic signs are placed low on the poles, which limits visibility and impacts pedestrians as well.

3.4. Next steps

The following table identifies the next step for each issue and the associated timeline. Wherever possible, both design/evaluation and implementation timelines are noted, but further exploration for some issues may find potential solutions infeasible.

Issue	Next step	Timeline
Pedestrian Issues		
P1. Pedestrian crossings of New York Avenue	Evaluate signal timing and phasing, particularly NB Bladensburg right turn onto New York Ave.	Evaluation: January 2016 Implementation: March 2016
P2. Pedestrian refuge islands on New York	Evaluate ADA compliance and identify physical improvements.	Evaluation: January 2016 Implementation: TBD
P3. Pedestrian conditions along New York Avenue	Evaluate sidewalk needs. Widening sidewalks would be a major capital project, which is not currently budgeted.	Evaluation: January 2016 Implementation: TBD
P4. Bladensburg Road south of New York Avenue	Evaluate potential for HAWK or Rectangular Rapid Flashing Beacon (RRFB) and initiate design.	Evaluation: January 2016 Implementation: TBD
Bicycle Issues		
B1. Bike conditions at intersections	Assess potential for bike improvements at intersections along Bladensburg Road and Queens Chapel Road	Evaluation: January 2016 Installation: TBD
B2. Bicycle racks at Fifth District Police Station	Add location to DDOT installation database and schedule for installation.	Installation: Summer 2016
Vehicular Issues		
V1. Access management and curb cuts	Assess potential to close some driveways that do not meet DDOT standards.	Evaluation: February 2016
V2. Queens Chapel Road gets used as a cut-through when traffic is congested along NY Ave.	Work with MPD to evaluate potential photo enforcement, particularly for oversize/overweight vehicles.	Evaluation: February 2016
V3. Driver confusion and signage	Evaluate signage at intersections and upgrade as necessary.	Evaluation: January 2016 Implementation: March 2016

Table 3: Bladensburg Road and New York Avenue NE Next Steps

4.0 14th Street and U Street NW

14th Street and U Street is fairly typical signalized intersection, but processes approximately 40,000 vehicles per day, in addition to very high pedestrian, bicycle, and transit demands. The intersection is also at the center of the U Street nightlife/entertainment district, which presents some atypical demands from for-hire vehicles.

The September 1, 2015 site visit included staff from Councilmembers Cheh’s, Councilmember Nadeau’s Office, Councilmember Evans’ office, representatives from ANC 2B, ANC 1B, MPD staff, bicycle and pedestrian advocates, and members of the Bicycle and Pedestrian Advisory Councils.

4.1. Crash Data

During the analysis period, there were two fatalities and one disabling injury in this location. More than 10 percent of crashes involved pedestrians and bicyclists, and the 25 pedestrians and bicyclists involved in crashes was the highest for any of the five locations visited. Three of the pedestrian crashes involved pedestrians crossing in the crosswalk with the “walk” signal. More than one third of the crashes are sideswipes, which can be indicative of rapid lane changes in congested areas, in this case likely associated with the high volume of vehicular turning movements at the intersection, quick lane changes in response to double parking, or rapid changes to find parking. More than 10 percent of crashes involved taxis. Speed was a contributing factor in only two crashes. Over half of all crashes happen overnight, from 6:30pm to 7:30am. Figure 6 provides the summary report of crashes at this location.

Figure 6: 14th Street and U Street NW Crash Data

4.2. Recent and Planned Projects

The intersection of 14th Street and U Street in Northwest will be included in the scope of work for the 14th Street Streetscape project. The project is currently in design and 90% complete, and already incorporates a number of improvements to the intersection. The design phase of this project will

High Crash Intersection Site Visits

conclude in winter 2016, and construction, which will cost approximately \$10 million, is anticipated to begin in fall of 2016. The streetscape project is a potential mechanism to incorporate additional items and refinements identified during the site visit.

Figure 7 is an overview of the project boundaries and Figure 8 is an image of the proposed signs and marking plan, which depicts the following changes:

- Bulb-outs at each corner to improve pedestrian crossing safety through reducing the crossing distance.
- Bus Bulb outs along 14th Street, north of the intersection to improve boarding and alighting.
- Pavement Markings for a bike lane on 14th Street and a bike box at the intersection of 14th and U Streets.
- ADA compliant sidewalks and curb-ramps.
- New streetlights and signals with Audible Pedestrian Signal pushbuttons.
- Pavement milling and overlay with new pavement markings, including high visibility crosswalks.

Figure 7: 14th Street NW Streetscape Project Boundaries

Figure 8: 14th Street NW and U Street Intersection – Signage and Pavement Marking Plan

Participants in the site visit asked about the potential for short term or “interim” improvements. There is currently \$75,000 to \$125,000 available from the 13th and U development, which may be used to support traffic safety improvements in the area.

4.3. Site Visit Observations

Participants identified a number of issues related to all modes. Some may only require minor fixes, while others could require more substantial capital improvements. Many will also require further investigation and evaluation by DDOT. The timeline for next steps is included in the next section.

Figure 9: 14th and U Street NW Site Visit Observations

Pedestrian Issues:

- P1. Participants discussed signal timing issues overall and concepts such as a diagonal crosswalk and “Barnes Dance” timing, as well as modifying signal timing to prioritize pedestrians. Participants discussed the potential to evaluate signal timing to restrict turning movements while pedestrians are crossing. The leading left for NB 14th Street onto WB U Street is problematic, as pedestrians often violate the exclusive left turn phase and drivers are stuck in the intersection.
- P2. There are several uncontrolled pedestrian crossings along 14th Street south of U Street. A 2013 DDOT evaluation found that these locations do not warrant HAWK signals, but other improvements in visibility and safety may be possible. Recent repaving also has left some intersections without full crosswalk markings.
- P3. There is heavy pedestrian traffic during late night conditions at the intersection, mostly on Fridays and weekends. Participants identified the potential for a Traffic Control Officer (TCO) to be stationed in high pedestrian volume periods.

High Crash Intersection Site Visits

Bicycle Issues:

- B1. There are concerns with “right hooks” for bikes (when vehicles turn across a bike lane and collide with people biking) along 14th Street. Green pavement markings and stronger markings continuing through intersections may be improvements to highlight the visibility of people biking.
- B2. Participants noted seeing parking in bike lanes frequently, especially at Trader Joe’s.
- B3. The streetscape project incorporates bus bulb outs at the intersection, but these could be a concern for people biking if they are not well integrated into the final design.
- B4. Valet stands conflict with bike lanes and result in parking/pick-up/drop-off in the bike lanes.

Vehicular Issues:

- V1. Participants discussed the high volume of U-Turns mid-block along U Street and 14th Street, especially by for-hire vehicles during evenings and weekends, and the potential for delineators or bollards to discourage this behavior.
- V2. Participants asked for information from MPD on speed cameras.

4.4. Next steps

The following table identifies the next step for each issue and the associated timeline. Wherever possible, both design/evaluation and implementation timelines are noted, but further exploration for some issues may find potential solutions infeasible.

Issue	Next step	Timeline
Pedestrian Issues		
P1. Pedestrian crossings and signal timing	Evaluate signal timing to see if more walk time can be given, including the potential for a “Barnes Dance”.	Evaluation: January 2016 Implementation: March 2016
P2. Pedestrian crossings on 14 th Street corridor	Evaluate potential for HAWK signals or Rectangular Rapid Flashing Beacon (RRFB) and ensure appropriate crosswalk are markings in place.	Evaluation: January 2016 Implementation: TBD
P3. Late night/weekend pedestrian volumes	Evaluate potential for a dedicated Traffic Control Officer (TCO) to manage high pedestrian volume periods.	Evaluation: February 2016

High Crash Intersection Site Visits

Issue	Next step	Timeline
Bicycle Issues		
B1. Turning movement conflicts for bikes	Identify interim treatments prior to streetscape project construction, such as green paint treatment.	Design: March 2016 Installation: May 2016
B2. Parking in bike lanes	Work with DPW and MPD to improve enforcement of parking in bike lanes.	Ongoing
B3. Potential conflicts between “bus bulbs” and bikes	Refine streetscape design to address safety for all users.	Design: January 2016 Construction: 2017
B4. Valet stand conflicts with bike lanes	Work with permit holders to improve compliance, including enforcement.	January 2016
Vehicle Issues		
V1. U-Turns mid-block along U Street and 14 th Street	Work with DCTC and MPD to address U-turns, especially by for-hire vehicles.	Ongoing
V2. Speeding in corridor	Work with MPD to evaluate potential photo enforcement locations.	January 2016

Table 4: 14th Street and U Street NW Next Steps

5.0 Minnesota Avenue and Benning Road NE

Minnesota Avenue and Benning Road NE is a heavily traveled intersection that serves substantial demand by vehicles and pedestrians. Over 40,000 vehicles per day traverse the intersection, with high turn volumes, particularly from Minnesota Avenue towards westbound Benning Road. Multiple Metrobus lines serve the intersection, connecting to the Minnesota Avenue Metrorail station and points farther east on Benning Road and south on Minnesota Avenue.

The September 2, 2015 site visit included staff from Councilmembers Cheh's office, MPD staff, bicycle and pedestrian advocates, and members of the Bicycle and Pedestrian Advisory Councils.

5.1. Crash Data

There were 206 crashes at this intersection during the analysis period, more than 10 percent of which involved left turns. Over 50 percent involved either rear end or side swipes, which is consistent with both the congestion and the heavy turn volumes. While there were no fatalities during the analysis period, there were four disabling injuries. Sixteen pedestrians and five bicyclists were involved in the crashes, the highest pedestrian total and the second highest combined pedestrian/bicyclist total of the five locations. Four of the pedestrians were hit in the crosswalk crossing with the "walk" signal, and another four were crossing outside of the crosswalk, an issue that is highlighted and discussed below. There were also a number of crashes related to speed or alcohol use, including four speed-related crashes. Figure 10 provides the summary report of crashes at this location.

Figure 10: Minnesota Avenue and Benning Road NE Crash Data

5.2. Recent and Planned Projects

The Minnesota Avenue, N.E. Revitalization Phase II Project, encompassing a segment of the roadway 300 feet south of Benning Road to Sheriff Road, is currently under design, and the design team is

High Crash Intersection Site Visits

preparing to submit 90% plans for review. The Phase II design plan is a continuation of the Phase I plan (which encompassed the section south of Benning Road), and includes intersection improvements, lane and median reconfiguration, pavement reconstruction, driveway and sidewalk adjustments, streetlights upgrades, new traffic signals, drainage improvements, landscape and streetscape improvements, and the undergrounding of Pepco’s primary feeder line.

The design is anticipated to be complete in spring 2016, with the potential construction advertisement in fall 2016. The project will implement some physical upgrades to the intersection, including a new refuge island, upgraded curb ramps, and upgraded markings. The signage and marking plan is shown in Figure 11.

Figure 11: Minnesota Avenue and Benning Road Intersection – Signage and Pavement Markings

The Benning Road Streetcar Extension Environmental Assessment is also ongoing. The Environmental Assessment envisions additional modifications to traffic conditions at the intersection in conjunction with the reconstruction of the bridge, and the eastern expansion of the existing H Street/Benning Road Line. Improvements would include better pedestrian conditions crossing the bridge towards the downtown area and a lengthening of the eastbound left turn bay. The Environmental Assessment is expected to be complete in winter 2016, with a potential Finding of No Significant Impact (FONSI) by mid-year. However, the physical improvements from the streetcar extension are still likely several years away from construction.

High Crash Intersection Site Visits

5.3. Site Visit Observations

Participants identified a number of issues related to all modes. Some may only require minor fixes, while others could require more substantial capital improvements. Many will also require further investigation and evaluation by DDOT. The timeline for next steps is included in the next section.

Figure 12: Minnesota Avenue and Benning Road NE Site Visit Observations

Pedestrian Issues:

- P1. Participants discussed improvements such as high visibility crosswalks, signage, and longer pedestrian crossing times to improve the safety of the intersection.
- P2. The setback of the crosswalk on Minnesota south of Benning creates visibility challenges for turning vehicles. The setback is created because of the access road along the bridge that services an industrial site.
- P3. There is the potential to relocate the northbound bus stop located at Minnesota Avenue north of Benning Road to the south and closer to the intersection. This would require modifications to an existing driveway, and needs to be evaluated for bus turning movement and operations. There is also the potential to move the southbound bus stop closer to intersection prior to

High Crash Intersection Site Visits

Phase II project. This would require relocation of the bus shelter, but would improve pedestrian crossings and minimize violations for transfers.

- P4. Participants discussed several ideas for improving the crossing of Benning Road on the west side of Minnesota, particularly to address the heavy eastbound to southbound right turn movements that are taken at relatively high speeds. One idea included a pedestrian “refuge” created with flex posts in anticipation of the Phase II project (see Figure 13) and Installation of R10-15 (“Turning Vehicles Yield to Pedestrians”) signs on the NW corner pole facing the southbound right turning drivers, and the SW corner pole facing the eastbound right turning drivers. Another idea was to make the protected signal phase for the northbound left turn to westbound Benning “lagging”, rather than “leading”. This would reduce non-compliance by pedestrians, and could permit a Leading Pedestrian Interval.

Bicycle Issues:

- B1. The intersection is fairly difficult to navigate by bicycle, because of the high turn volumes and narrow roadways. Participants discussed the potential for a bike lane along Minnesota Avenue. While this may be challenging due to traffic and transit volumes, the area can be evaluated for bike facility opportunities.

Vehicle Issues:

- V1. Participants discussed bus bunching of the X2 articulated buses making the eastbound left turn to Minnesota Avenue.
- V2. Participants noted the challenges with red light running and intersection blocking in general, particularly near the fire station on Minnesota north of the Benning Road intersection.

5.4. Next steps

The following table identifies the next step for each issue and the associated timeline. Wherever possible, both design/evaluation and implementation timelines are noted, but further exploration for some issues may find potential solutions infeasible.

Issue	Next step	Timeline
Pedestrian Issues		
P1. Pedestrian crossings improvements.	Evaluate for inclusion in the Phase II project, and/or shorter-term markings upgrades.	Design: March 2016 Potential interim markings: May 2016 Phase II construction: 2017
P2. Setback of south side Minnesota Avenue pedestrian crossing	Short: improve visibility of crosswalk. Long: reconfigure access and straighten crossing.	Short: with Phase II construction. Long: TBD
P3. Bus stop locations	Evaluate bus stop relocations with WMATA in near term and through capital projects.	Evaluation: February 2016 Implementation: TBD
P4. Benning Road pedestrian crossing	Evaluate signal timing and potential for temporary “refuge”.	Evaluation: March 2016 Implementation: May 2016
Bicycle Issues		
B1. Bike access on Minnesota	Identify potential bicycle access improvements.	Evaluation: March 2016 Implementation: TBD
Vehicle Issues		
V1. Signal operations for transit vehicles.	Evaluate phasing, especially for EB to NB X2 bus.	Evaluation: January 2016 Implementation: March 2016
V2. Driver behavior, including blocking the box and red light running.	Evaluate photo enforcement opportunities with MPD and/or TCO presence. Move “Do not block firehouse” sign closer to the station.	Evaluation: February 2016 Implementation: TBD

Table 5: Benning Road and Minnesota Avenue NE Next Steps

Figure 13: Mock-up of Potential Interim "Pedestrian Refuge" on West Side Crossing of Benning Road.

6.0 M Street and Wisconsin Avenue NW

M Street and Wisconsin Avenue NW is at the heart of the Georgetown shopping district and serves a busy mix of vehicles, bicyclists, pedestrians, and transit vehicles. Approximately 35,000 vehicles use the intersection daily, and pedestrian volumes are high, especially on weekends.

The site visit was held on Friday, September 4, 2015 at 9am. Attendees included DDOT staff, Councilmember Cheh, ANC 2E, Georgetown BID, WABA, All Walks DC, and the Pedestrian and Bicycle Advisory Councils. The intersection experiences high turning volumes, a high bus volume demand, and heavy peak-period demand by all modes of travel. The M Street corridor itself is a congested vehicular route on a daily basis, particularly leading towards the Key Bridge.

6.1. Crash Data

The crash data shows fairly low severity, with two disabling injuries and no fatalities during the analysis period. Almost half of all crashes were sideswipes, indicative of an intersection with heavy turn volumes and can also be representative of a location with lane changing or high parking demand/turnover. There were 12 pedestrians and nine bicyclists involved in crashes, the second highest combined total of the five intersections. A third of pedestrians were not in crosswalks, an issue discussed further below. There are high rates of taxi involvement in crashes, and heavy vehicles (buses and trucks) make up almost one quarter of vehicles involved in crashes. Figure 14 provides the summary report of crashes at this location.

Figure 14: M Street and Wisconsin Avenue NW Crash Data

6.2. Recent and Planned Projects

DDOT does not have major planned projects at M and Wisconsin NW, and the last major project ended more than five years ago.

High Crash Intersection Site Visits

6.3. Site Visit Observations

Participants identified a number of issues related to all modes. Some may only require minor fixes, while others could require more substantial capital improvements. Many will also require further investigation and evaluation by DDOT. The timeline for next steps is included in the next section.

Figure 15: M Street and Wisconsin Avenue NW Site Visit Observations

Pedestrian Issues:

- P1. Pedestrians have 16 seconds to cross M Street in the eastern crosswalk, and pedestrians are often still crossing as the phase ends. There was discussion of a possible “Barnes Dance” to permit diagonal crossings.
- P2. There are long crossing distances and small queuing areas for pedestrians, especially on weekends. Curb extensions may be possible on the NW, SW, and SE corners (see Figure 16).
- P3. There are frequent pedestrian crossings on Wisconsin outside of crosswalk south of M Street. A marked crossing at the canal could reduce some of the demand on the M Street crosswalk and make an existing pedestrian behavior safer.
- P4. There are high volumes of pedestrians in evenings and weekends when vehicular demands are different. Attendees mentioned that some of the highest volume pedestrian times do not

High Crash Intersection Site Visits

coincide with highest volume vehicular demands, so additional timing plans giving more time for pedestrians could be possible at these times.

P5. Pedestrians run for buses, particularly for buses accessing eastbound M Street stop east of Wisconsin. There were suggestions to move the stop farther east, to 31st Street or to have “mini-layovers” built into schedules which would allow pedestrians to miss the signal cycle but still catch the bus without jaywalking.

Bicycle Issues:

- No specific bicycle issues were discussed during the site visit. It is likely that the pedestrian and vehicle issues also impact overall bicycle safety.

Vehicle Issues:

V1. The participants cited bad driver behavior at this intersection, particularly the running of red lights and blocking the intersection. The ANC and BID have requested red light cameras and MPD has previously indicated willingness to install, but sight lines and access are challenging.

V2. There are significant vehicular demands from at many times of day and very high turn volumes at this location. Interactions between drivers and pedestrians, especially during turns, create some safety hazards. More proactive management of the intersection may be necessary, and the Georgetown BID has requested additional TCO deployment at this location.

6.4. Next steps

The following table identifies the next step for each issue and the associated timeline. Wherever possible, both design/evaluation and implementation timelines are noted, but further exploration for some issues may find potential solutions infeasible.

Issue	Next Step	Timeline
Pedestrian Issues		
P1. Short crossing time for pedestrians across M Street	Evaluate signal timing to see if more walk time can be given or if alternative phasing is possible.	Evaluation: January 2016 Implementation: March 2016
P2. Long crossing distances and small queuing areas for pedestrians, especially on weekends	Explore “temporary” curb extensions, installed with paint and potentially flex posts in order to test the feasibility. (Figure 16)	Evaluation: March 2016 Implementation: May 2016

High Crash Intersection Site Visits

Issue	Next Step	Timeline
P3. Frequent pedestrian crossings on Wisconsin outside of crosswalk south of M Street	Explore feasibility of new crossing, particularly south of M Street across Wisconsin Avenue.	Evaluation: March 2016 Implementation: TBD
P4. High pedestrian volumes coincide with off-peak auto times	Evaluate potential for additional signal timing plans during non-peak times.	Evaluation: March 2016 Implementation: May 2016
P5. Pedestrians run for buses, particularly for buses accessing eastbound M Street stop east of Wisconsin.	Evaluate potential for bus stop location changes.	Evaluation: January 2016 Implementation: TBD
Bicycle Issues		
- No specific bicycle issues were discussed during the site visit.		
Vehicle Issues		
V1. Bad driver behavior, particularly running red lights and blocking box	ANC and BID have requested red light camera and MPD has previously indicated willingness to install, but sight lines and access are challenging.	Evaluation: January 2016 Implementation: TBD
V2. Traffic and turning movement volumes.	Evaluate whether TCO deployment can be accommodated as well as signal timing changes to minimize pedestrian/vehicle conflicts.	Evaluation: January 2016

Table 6: M Street and Wisconsin Avenue NW Next Steps

Figure 16: Conceptual Layout for Curb Extensions.

7.0 Conclusion

The high crash intersection site visit process was a useful exercise in which key stakeholders developed a common understanding of transportation safety issues and quickly evaluated a number of different issues in specific locations.

The theme of the site visits coalesces well with the District’s Vision Zero Initiative to eliminate transportation fatalities and serious injuries within 10 years as Vision Zero will require concerted and collaborative effort from a number of stakeholders. These intersection evaluations and improvements are important early actions in achieving the vision, along with the engineering, infrastructure, and enforcement changes at these locations. This collaborative approach to improving data collection and analysis and engaging regularly with key stakeholders will enable us to identify and address safety issues more effectively.

DDOT expects to institutionalize this process more formally, and accelerate the time to summarize and evaluate the site visits. The agency will identify five additional locations for site visits in early Spring 2016.

8.0 Appendix A: Large Format Location Issue Maps

First Street and Massachusetts Avenue NE

P3/B2: Bike/Ped conflicts at trail

P1: Short crossing time across Mass

V1: Red light running

B1: Difficult L turn for WB bikes

P2: Lack of marked crosswalks

B3: EB "floating" bike lane safety

V3: Parking in "No Parking" areas

B4: Connections from Bikeshare to Mass Avenue

V2: Driver confusion on Columbus Plaza

Bladensburg Road and New York Avenue NE

P2: Narrow pedestrian refuge islands on New York

V1: Red light running

P3: Substandard crosswalks and V3: poor and confusing signage

P1: Pedestrian signal timing across New York

V2: Queens Chapel Road is used as cut through

B1: Potential for "bike boxes" at intersection

V1: High number of driveways increase conflict points

P4: Bus stops are far from signalized intersections

14th and U Street NW

P1: Signal timing and turning movements

B1: "Right hook" conflicts for bikes

B2: Frequent parking in bike lanes and
B4: Valet stand conflicts with bikes

B3: Bus bulb/
bike design in
streetscape project

V1: High volumes of
U-Turns mid-block
on U and 14th

P2: Uncontrolled
crossings south of U

Minnesota Avenue and Benning Road NE

V2: Potential for photoenforcement

V1: Bus turning issues/bunching

P4: Pedestrian crossing issues

P2: Setback of crosswalk creates visibility issues

P3: NB bus stop far from Benning Road

B1: No bike connections along Minnesota Ave

P1: Pedestrian crossing issues

M Street and Wisconsin Ave NW

P2: Long crossing distances and small queueing area for pedestrians

V1 and V2: Bad driver behavior and general traffic enforcement

P5: Pedestrians run for buses to access EB stop

P1: Short crossing time for pedestrians across M Street

P3: Frequent pedestrian crossings south of M Street
