Alcoholic Beverage Regulation Administration

The Adjudication Division is responsible for supporting the ABC Board's adjudication function for two primary areas of the law that govern licensees' operations. The first area concerns the protest process whereby Adjudication Staff assists licensees, Advisory Neighborhood Commissions and the public when a protest is filed against an application. Adjudication works with and notifies parties about the protest process and the hearings that are involved. If a protest results in a Settlement Agreement, Adjudication ensures that parties are notified that hearings are cancelled and that the Board is made aware of the settlement.

The second area of law concerns the show cause hearings for enforcement actions. Here too Adjudication works with parties, to include the Office of the Attorney General, to ensure that hearings are properly noticed. Adjudication also ensures that fines levied by Board Order are collected in a timely manner.

Lastly, Adjudication works closely with the Office of the General Counsel (OGC) to manage the Board's calendar and legal agendas. OGC implements the ABC Board decisions on the legal agenda and drafts Board Orders that result from adjudicated hearings.

Alcoholic Beverage Regulation Administration

ABRA's Licensing Division processes alcoholic beverage license applications to issue new and renewed licenses to off-premise retailers (liquor stores, grocery stores, and markets) and on premise retailers (restaurants, hotels and nightclubs,) as well as other establishments that manufacture, distribute, sell or serve alcoholic beverages in the District of Columbia. The division also provides information to the public about the licensing process. Licensing personnel work with Advisory Neighborhood Commissions (ANCs) and other community organizations to notify the public and keep an open dialogue among these groups. In addition, licensing staff members evaluate and recommend changes in licensing processes, regulations, and licensing fees.

Alcoholic Beverage Regulation Administration

The Enforcement Division conducts regulatory and voluntary agreement compliance inspections, conducts underage compliance checks, conducts joint investigations as needed with the Metropolitan Police Department (MPD), Fire and Emergency Medical Services Department, (FEMS), the Office of Tax and Revenue (OTR), the Department of Consumer and Regulatory Affairs (DCRA), and others; and conducts various inspections associated with the licensing and adjudicatory processes such as final, compliance, placard, special event, and financial audit investigations. The program also participates in Neighborhood Core Meetings, meetings and briefings with MPD Districts, police roll calls, and other activities in order to facilitate interagency cooperation and knowledge sharing on matters of common concern.

Alcoholic Beverage Regulation Administration

The Agency Management Program provides for administrative support to achieve operational and programmatic results. This program is standard for all agencies using performance-based budgeting. The Public Information Officer (PIO) is responsible for planning, developing, and communicating the agency's programs, policies, and activities, as well as externally to the general public through news media, various constituencies, and municipal entities for the agency. The PIO is responsible for providing leadership and direction for program operations including, but not limited to records management, community resources, and communications.
