2017 Strategic Initiatives

Strategic Initiative Title	Strategic Initiative Description	Proposed Completion Date
POLICY REPORTS AND PROPOSALS (3 Strategic initiative-operation links)		
Identify the necessary components to be included in a Continuity of Operations Plan	COOP planning is an effort to assure that capability exists to continue essential or functions that are mission critical across a wide range of potential emergencies. Given the time and resources the agency has expended over the past three years in developing a comprehensive and complex data system, developing a COOP plan is essential to ensure continued performance of essential functions during an emergency, protect records and data files, reduce or mitigate disruptions to operations and achieve a timely and orderly recovery for an emergency situation. This initiative will focus on identifying the necessary components to be included in a comprehensive COOP plan and will serve as the basis for the agency's development of a COOP plan.	09-30-2017
Provide Sentencing Data Sets on WebSite	The agency will develop and post on its website, at a minimum, two data sets that include: (1) all felony counts sentenced between 2010 - 2016, and (2) all homicide counts sentenced between 2010 and 2016. These data sets will include both demographic and sentencing related data elements that will enable the public, students, and criminal justice professional to easily access and conduct their own analysis on this data increasing transparency, efficiency and public awareness of sentencing trends within the District of Columbia. This initiative will begin October 1, 2016 and be completed by April 3, 2017.	04-03-2017
Evaluation Study	Phase II and III of the sentencing guideline evaluation study which analyzes sentencing patterns pre-and-post guideline implementation will be completed by November 30, 2016. The Guideline Evaluation Study, which focuses on the effectiveness of the guidelines in achieving their stated goals of certainty, consistency, and adequacy of punishment in sentencing will be completed and distributed in February 2017. The study will inform citizens, policy makers and criminal justice professionals of the impact the implementation of the guidelines have had on sentencing in the District.	02-06-2017
SENTENCING GUIDELINE MONITORING (4 Strategic initiative-operation links)		
Judicial Compliance Verification Procedure	Develop and implement a standardized manual review process for sentences initially designated as "non-compliant" by the GRID system. All sentences initially identified as non-compliant will be reviewed for data quality issues and the data will be verified using JUSTIS within four weeks. This will enable departure letters to be sent to the court within 60 days of sentencing, with the goal of increasing departure letter response rates by 10%, and enable the agency to achieve its projected 96.5% compliant Guideline sentences. This initiative will begin on October 1, 2016 and be completed by September 30, 2017.	09-30-2017
11(c)(1)(c) Pleas	The Guidelines classifies certain sentences imposed outside the recommended guideline sentence range as "compliant departures" due to special sentencing rules or 11(c)(1)(c) pleas, which represent a sentence that has been agreed upon by both the prosecutor and defense counsel. Although these sentences are outside the recommended guideline sentence, they represent a specific type of sentence given that both parties are in agreement. The percentage of compliant departures that are classified as 11(c)(1)(c) will be calculated each quarter to identify the impact they have on the total number of compliant departure sentences imposed under the guidelines and to identify any sentencing trends that may occur.	09-30-2017
Evaluation Study	Phase II and III of the sentencing guideline evaluation study which analyzes sentencing patterns pre-and-post guideline implementation will be completed by November 30, 2016. The Guideline Evaluation Study, which focuses on the effectiveness of the guidelines in achieving their stated goals of certainty, consistency, and adequacy of punishment in sentencing will be completed and distributed in February 2017. The study will inform citizens, policy makers and criminal justice professionals of the impact the implementation of the guidelines have had on sentencing in the District.	02-06-2017

SENTENCING GUIDELINES TRAINING (2 Strategic initiative-operation links)		
Improve Effectiveness of Guideline Training	Develop a Guideline Training Evaluation Form to be distributed and completed by participants at the end of each training that identifies the most and least effective areas of training by December 30, 2016. Data from the evaluation form will be recorded and analyzed by training staff quarterly and changes to the training syllabus will be implemented to achieve an effectiveness rating of 80% or higher by September 30, 2017.	09-29-2017
Guideline Training FAQ's	This initiative will develop a FAQ section for the Guideline Training portion of the agency's website and include the most frequent questions addressed during training sessions. Expanding the training portion of the website to include the FAQ's will complement the website trainings available and provide responses in a very quick and easy to access format to commonly asked questions, while increasing both citizens and criminal justice professionals understanding and applications of the Sentencing Guidelines. An initial set of FAQ's will be developed and posted by December 30, 2016, with updates to the list completed quarterly as needed.	01-30-2017
