

Fiscal Year 2018 Budget and Financial Plan Questions
Washington Metropolitan Area Transit Authority

- 1) Please provide a copy of WMATA's FY2016 CAFR. What is the action plan for addressing any material weaknesses or significant deficiencies that have been identified? What is being done to ensure that the FY2017 CAFR is completed on time?

Answer:

- a) WMATA's FY2016 CAFR may be obtained at the following hyperlink: https://www.wmata.com/about/records/public_docs/upload/CAFR-Final-12-15-16.pdf
- b) To address material weaknesses and deficiencies identified during the audit, WMATA:
- Actively recruited management positions in the Office of Accounting.
 - Initiated an asset management system upgrade to resolve processing deficiencies (anticipated deployment FY2019).
 - Centralized tracking, management and oversight of audit remediation activities across WMATA within the Office of Internal Compliance.
- c) WMATA has taken proactive steps to ensure a timely and clean audit report on its FY2017 financial statements; including applying lessons learned from FY2016 audit; enhanced audit readiness to streamline accounting and financial close processes; and adherence to a prescriptive audit milestone schedule.
- 2) Please provide a copy of WMATA's FY2018 Operating Budget, FY2018-2023 Capital Improvement Plan, and Capital Funding Agreement.

Answer:

- WMATA's Board of Director's approved the General Manager's amended revised FY2018 Operating budget and FY2018-2023 Capital Improvement Program (CIP) on March 22, 2017. The related documents including the Operating and Capital Budget Plans as well as the one year extension of the Capital Funding Agreement (CFA) can be obtained at:
- <https://www.wmata.com/about/board/meetings/board-pdfs/upload/3A-FY18-Budget-and-CFA-Combined-2017-03-22.pdf>
- 3) While WMATA again plans to execute a one year extension of its Capital Funding Agreement with jurisdictional partners, what is being done to develop a long-term funding agreement for WMATA's capital needs?

Answer:

In late 2016 WMATA completed phase one of a Capital Needs Inventory that identified unconstrained reinvestment needs totaling more than \$25 billion over the next decade. In light of this significant reinvestment need and jurisdictional funding capacity constraints,

the partners and Metro have extended the CFA for one year to allow time for regional discussions about funding for WMATA's capital needs over the next ten years.

- 4) What is the status of WMATA's efforts to reconcile, drawdown, and closeout 35 federal grants associated with completed projects that were open during the FTA's Financial Management Oversight review period? Will WMATA be able to obtain reimbursement for the full amount of those federal grants? If not, will the District's share of project costs increase? What changes have been made to WMATA's grant application and management process to ensure that WMATA gets fully reimbursed for all federal funding that is available to the agency?

Answer:

WMATA currently has 33 active FTA grants. Of those, nine became unrestricted in December 2016, and will be fully drawn as the funds are expended. Another 17 formula and PRIIA grant funds remain restricted. WMATA and FTA have worked together to revise, amend, or replace those grants to allow full recovery. These 17 grants will be fully drawn and closed by December 2017, with no impact to regional funding partners. The final seven grants are for restricted use projects (Largo Extension, Hurricane Sandy Resiliency, Bus Livability, New Freedom, Asset Management, CMAQ Bus Purchases and Transit Works). Most of these projects are currently active and WMATA generally expects to expend and fully draw these grants.

WMATA continues to work with FTA to gain full reimbursement of all open grants, however, it remains a possibility that some older grants will not be completely reimbursed due to cost eligibility and legacy documentation issues. In the event that some amounts cannot ultimately be collected, additional funding would need to be identified, potentially from future jurisdictional contributions. These amounts will not be known until the conclusion of WMATA's efforts to fully recover the FTA grants.

- 5) What are the current WMATA bond ratings by each rating agency? Please provide a chart showing the 20 year reserves of WMATA (1997 to 2017) and also show a bond rating history by each rating agency of ratings over the past 20 years. Additionally, please provide bonds ratings for the 10 largest transit agencies in the United States.

Answer:

WMATA Rating History (See attachment #5)

- 6) Please provide a list of all pension funds and outstanding pension and other post-employment benefit liabilities. Additionally, please provide an explanation of steps being taken by WMATA to address these outstanding matters.

Answer:

WMATA has five employee pension plans including Transit Employees' Retirement Plan (TERP) for Local 689; WMATA/Local 922 Retirement Plan; WMATA Transit Police

Retirement Plan; WMATA/Local 2 Retirement Plan; and WMATA Retirement Plan for non-represented employees.

Combined, these plans have \$3.6 billion in assets and \$1.0 billion in unfunded actuarial liabilities as of the plans' most recent actuarial valuations.

Pension Plan	Most Recent Actuarial Valuation	Unfunded Actuarial Liability (millions)	Actuarial Value of Assets (millions)
TERP	1/1/2016	773.5	2,683.6
Local 922	1/1/2016	22.0	187.7
Transit Police	1/1/2016	57.4	185.6
Local 2	7/1/2016	22.4	145.7
WMATA	7/1/2016	147.5	375.1
Total		\$1,022.7	\$3,577.7

Additionally, WMATA has \$1.8 billion in unfunded Other Posts Employment Benefits (OPEB) actuarial liabilities. Unlike the pension plans, no trust for these liabilities has been established, and Metro funds its OPEB obligations on a pay-as-you-go basis. However, pursuant to the approved FY2018 Operating Budget, WMATA is authorized to establish an OPEB trust, contingent upon achieving \$3 million savings targeted by the General Manager's initiatives to control absenteeism and overtime.

- 7) Please provide a status update on the escalator repairs conducted throughout the District, by station. Please provide a list of all escalator and elevator repairs conducted in the District over the past three years, and include an expected and actual completion date for each project. Additionally, please provide a schedule for escalator repairs in the District, by station, up until September 30, 2018.

Answer:

(See **attachment #7**) The Items in green have been completed; red are out of service and yellow are upcoming.

- 8) Please provide an update on the DC *Kids Ride Free* program and any changes to the program you expect in the coming year.

Answer:

For WMATA's 2017 fiscal year, which coincides with the 2016-2017 DCPS academic year, Metro estimates total revenue of \$18.6 million from the DC Schools Subsidy Program. WMATA anticipates that approximately 7.3 million bus trips and 1.9 million rail

trips will be recorded by students in the program this school year, including an additional allowance for approximately 800,000 unrecorded Rail trips in FY2017.

Of the total \$18.6 million in anticipated revenue for FY2017, approximately \$12.7 million comes from Bus, \$4.2 million from recorded Rail trips, plus \$1.7 million for unrecorded Rail trips. Bus trips are priced at \$1.75 per trip, Rail at \$2.15 per trip (the minimum Peak fare).

Changes approved for FY2018 include the elimination of the 10 Trip Bus Pass and the 10-Trip Rail Pass due to very low usage. WMATA also recognizes the adoption of a year-round pass (365 days) versus separate passes for regular school year and summer school periods and the elimination of current geographical locations

- 9) Safety of passengers and employees, as well as property damage continues to be an issue. How will funds be used to enhance safety of riders, bus operators and station managers?

Answer:

Overall Part I Crime was down nearly 5% last year. The MTPD uses a wide variety of deployment practices, from directed high-visibility patrol; the use of plain clothes officers; the use of Motor officers; K-9 officers; and officers from our Anti-Terrorism Teams. Additionally, the MTPD has a dedicated unit that monitors our CCTV system, providing key information during criminal incidents, which allows the unit to send photos and videos directly to officers in the field. An additional deployment strategy are HITE's (High Intensity Target Enforcement), which is where we saturate a geographical area with officers during a defined time frame. Finally, our fare enforcement efforts in 2016 increased by over 40% and bus operator assaults were reduced by over 10%. Parking Lot crime continues to remain flat. Over the last five years, parking lot crime is at historical lows and we experienced a slight increase from 2015-2016, with most of it occurring in Northern Virginia. An individual was stealing scooters from our stations, since his arrest late last fall, we have not had any additional thefts. As a matter of information, we reduce bike thefts by 15% last year.

- 10) What is the status of improving communications within the Metrorail system for workers, emergency first responders, and customers?

Answer:

Cellular and Radio Service

WMATA and the wireless carriers worked together on the first phase of the project and currently all 91 Metrorail stations (including 47 underground stations) provide customers with access to cell phone service. A major capital improvement project is underway to

install radio cable along 100 miles of tunnel walls throughout the underground rail system. The project will result in vastly improved radio coverage for Metro and the region's first responders, as well as wireless technology coverage within Metro's tunnels.

Under the agreement between WMATA and the wireless carriers, the project is being advanced using Metro-managed workers thereby yielding cost and efficiency benefits. Metro is installing dual radio and cellular cables—known as coaxial—on the walls in 100 miles of tunnel. The process involves carefully installing special trays into the tunnel walls to support the heavy cables, which are two-inches thick, and relocating thousands of reflective signs that are currently affixed to the tunnel walls. The system will be easier to maintain than the current radio system as critical equipment is moved to locations where it can be accessed at all times without track outages. In order to minimize the impact to normal Metrorail operations, the installation work is being done at night and on the weekends, in coordination with other capital projects. Recognizing that the carriers have ownership and installation responsibilities to initiate cell phone service, service is being activated by the wireless carriers as each tunnel segment is completed, meaning that riders will notice incremental improvements in as the project advances. On November 30, 2016, AT&T, Sprint, T-Mobile and Verizon Wireless launched commercial wireless service in the first section of Metro's underground subway tunnel – on Metro's Blue, Orange and Silver lines, between Potomac Avenue and the Stadium Armory tunnel portal. This covered approximately 1.1 miles of tunnels in each direction. The next tunnel segment where cellular service will be activated is the Red Line, between Glenmont Station and Silver Spring Station, where we expect wireless service to become available later this spring.

By the end of 2017, the east side of the Red line, plus the entire eastern portion of the Blue and Silver lines will have cell phone availability between underground stations. The entire project, with cellular service and the new radio system for Metro workers and first responders, is scheduled for completion in 2020.

The full installation schedule is provided below:

Activity	Line	Start Infrastructure Installation	Infrastructure Installation Complete	Cell Phone Availability	Radio Availability
Glenmont to Silver Spring	RD	1/2/16	3/31/17	4/28/17	8/21/18
Potomac Ave to Stadium Armory	BL/OR/SV	7/15/16	10/31/16	11/30/16	10/30/18
Metro Center to Potomac Ave	BL/OR/SV	4/1/17	8/8/17	9/8/17	10/30/18
Benning Rd to Largo Town Center	BL/SV	8/9/17	9/18/17	10/20/17	10/31/18
College Park to Gallery Pl	GN/YL	9/19/17	4/17/18	5/31/18	12/31/18

Union Station to DuPont Circle	RD	4/18/18	7/2/18	8/31/18	4/8/19
Metro Center to Rosslyn	BL/OR/SV	7/3/18	8/16/18	9/30/18	5/2/19
Rosslyn to Ballston	OR/SV	8/17/18	11/11/18	12/30/18	7/26/19
Pentagon to King St	BL/YL	11/12/18	2/28/19	4/30/19	9/8/19
Gallery Pl to Southern Ave & Suitland to Branch Ave	GL/YL	3/1/19	9/8/19	11/15/19	1/22/20
DuPont Circle to Medical Center & Grosvenor to White Flint	RD	9/9/19	5/4/20	6/30/20	10/30/20

Emergency Exercises

Each quarter WMATA's Office of Emergency Management (OEM) conducts full scale exercises for Metro employees, regional first responders and transit partners. WMATA is the only transit agency in the United State to conduct emergency responses exercise on a quarterly basis. Full-Scale Exercise simulates a real event as closely as possible. It is an exercise designed to evaluate the operational capability of emergency management systems in a highly stressful environment that simulates actual response conditions.

These exercises provide internal and external stakeholders an opportunity to discuss scenarios and apply their skills in a simulated real world environment. OEM has conducted full-scale exercises on both the Metrorail and Metrobus systems. These exercises often include simulated mass casualties, smoke, fire and/or law enforcement scenarios. The schedule for the exercises rotates between Maryland, D.C and Virginia, but regional first responders are invited to participate in all exercises, regardless of the jurisdiction.

Last November 5th, Metro lead an exercise at our Southern Avenue station to test emergency responders' ability to evacuate a disabled train that has encountered smoke in the tunnel. The exercise involved Metro officials as well as first responders from the District of Columbia and Prince George's County. We are planning another exercise at Navy Yard on April 23, 2017.

Exercise Date/<i>Proposed Date</i>	Exercise Location	Jurisdiction
April 19, 2015	Greenbelt	Prince George's County
August 23, 2015	Stadium-Armory	District of Columbia
December 13, 2015	Forest Glen	Montgomery County
March 13, 2016	Eisenhower Avenue	City of Alexandria
June 26, 2016	Greensboro	Fairfax County

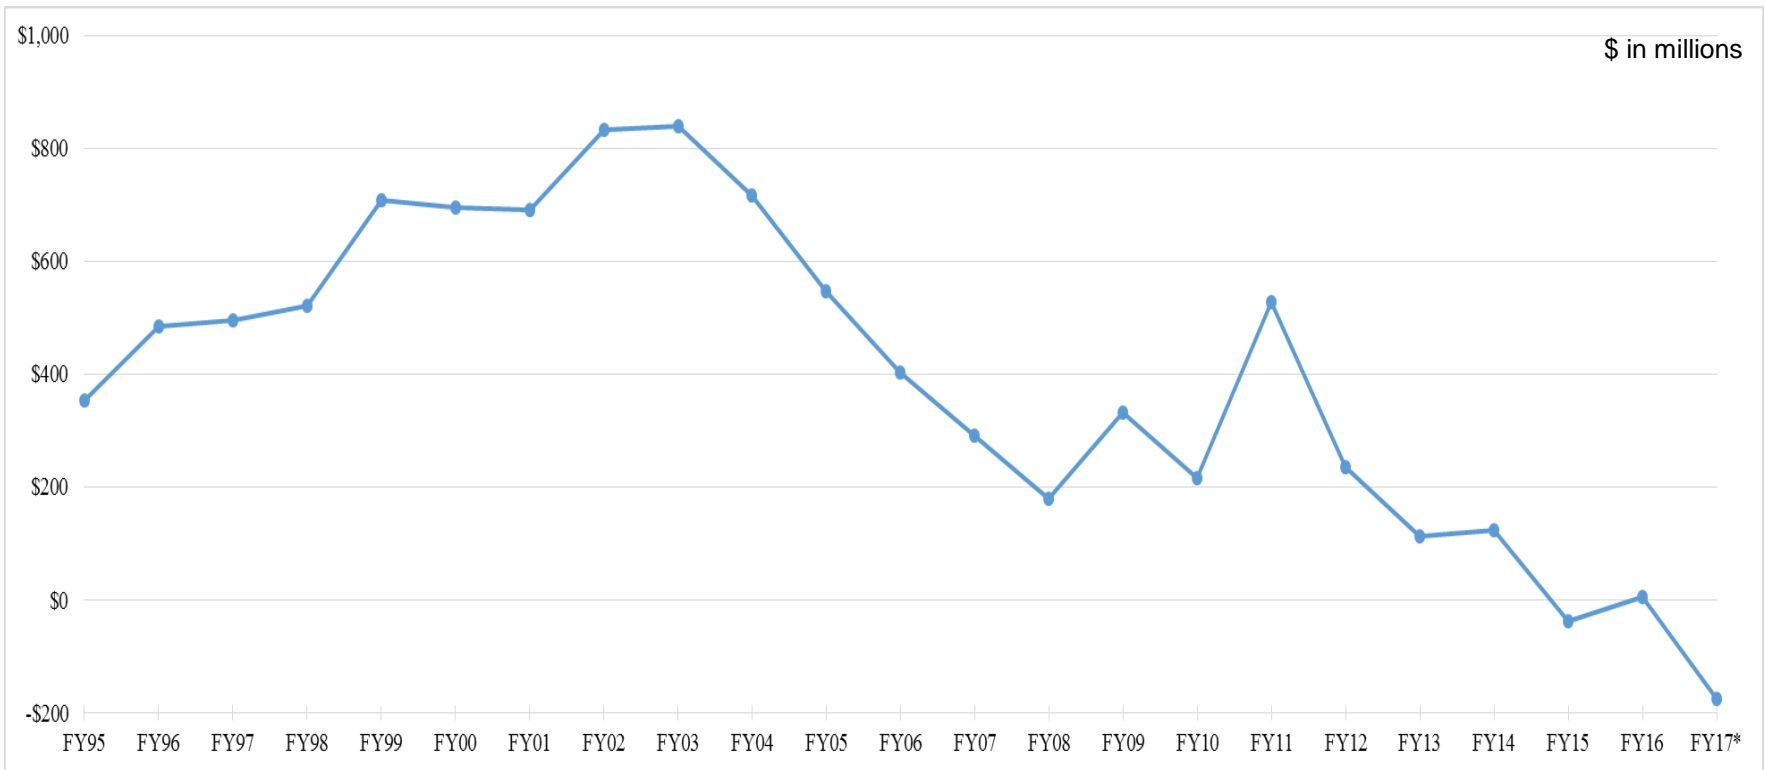

Sunday, August 28, 2016	L-Line Bridge	Arlington County/ District of Columbia
Sunday, November 6, 2016	Southern Avenue	Prince George's County
Sunday, April 23, 2017	Navy Yard	District of Columbia
June 25, 2017	Pentagon	Arlington County
August 27, 2017	White Flint	Montgomery County
November 5, 2017	Van Dorn Street	Fairfax County/Alexandria

Social Media

WMATA continues to invest in technologies and incorporate industry best practices to keep the public well informed of Metro-related information. Last year, Metro introduced a new Social Engagement Team, embedded within the customer service call center, to assist customers via Twitter and Facebook, including real-time engagement and assistance with a wide range of inquiries. Since launching in 2016, WMATA's Social Engagement Team has responded to an average of 60% of the 20,106 mentions. Metro also introduced an entirely new wmata.com website – the Authority's primary information channel that is designed to modern web standards and allows users to access information from mobile 11 devices that now account for more than half of all website traffic.
