Open OIG Findings Audit 03-14-003-03-315: (total = 9)

A:1	Address the problems that occurred when it disabled automated UI processing controls during the period February 2009 through July 2010. Specifically, DOES had not identified the individuals who were not eligible for but received UI benefits, and recouped the UI benefits improperly paid to them. DOES could not explain what action, if any, they took on 1,347 claimants who did not respond to the notices that were mailed to them.
A:2	Expediently ensure the completion and issuance of a clear and detailed written policy for requesting and implementing programming modifications to its MIS, and formalize a mechanism by which such a policy will be periodically reviewed and updated. The final policy should be reviewed by the DOES General Counsel and the Director, and a copy forwarded to the Inspector General.
A:3	In collaboration with the MIS vendor, modify the existing DOES System Change Approval form to require the review and approval by the Director and General Counsel of DOES, as well as the inclusion of all relevant information, such as the reason for a computer system change, the effect of not implementing the change, and a risk assessment.
A:4	Implement a process to identify DC government employees receiving UI benefits and take action if they are not eligible.
A:5	Monitor repayment agreements for DC government employees who owe DC DOES amounts related to UI overpayments.
A:6	Monitor for compliance all repayment agreements, including employers who owed DC DOES for underpayment of UI wage taxes
A:7	Create a quality assurance process as part of the UI eligibility determination.
A:8	Gain real-time access to vital records to ensure a claimant's social security information was valid and did not belong to a deceased individual
A:9	Establish an Internal Audit position and/or office with a degreed, certified individual who reports to the Director.
