

A PROPOSED RESOLUTION

IN THE COUNCIL OF THE DISTRICT OF COLUMBIA

To declare the existence of an emergency with respect to the need to amend the Firearms Control Regulations Act of 1975 to create a judicial process through which individuals who have been disqualified from receiving a firearms registration certificate due to having been voluntarily admitted or involuntarily committed to a mental health facility, determined to be an incapacitated individual, adjudicated as a mental defective, or committed to a mental institution, can petition the Superior Court of the District of Columbia for relief from that disqualification, to expand the number of offenses for which an individual can surrender unlawfully possessed firearms or ammunition to the Metropolitan Police Department without arrest or prosecution, to increase the penalty for possessing a large capacity ammunition feeding device to not more than 3 years' imprisonment, a fine, or both, to allow persons to petition the Superior Court of the District of Columbia for an extreme risk protection order, which would prohibit the respondent from possessing firearms or ammunition if the court finds that the subject poses a significant danger of causing bodily injury to self or others, to establish a process for the personal service, renewal, and termination of extreme risk protection orders, to establish procedures for the surrender, storage, assessment of fees for storage, and return of firearms and ammunition that are recovered pursuant to an extreme risk protection order, and to establish a penalty for a violation of an extreme risk protection order; To amend An Act to control the possession, sale, transfer, and use of pistols and other dangerous weapons in the District of Columbia, to provide penalties, to prescribe rules of evidence, and for other purposes to prohibit the possession of bump stocks.
