- **Fully Achieved.** As part of the Sustainable DC Plan, DPR has increased the access of healthy food to District residents by raising the number of community gardens to 25 in FY14; thus, yielding an increase in the acres of land for agricultural use.

**INITIATIVE 3.2: Expand DPR's meal program to include supper meals**

- **Partially Achieved.** DPR has continued to expand access to healthy food by developing a Supper Meals Program throughout the school year to augment the Summer Meals Program. Accordingly, DPR staff and sister agencies promoted the Supper and Summer Meals Program through a strategic recruitment campaign, but the agency did not meet target number of meals served in FY14.

**Office of Partnerships and Development Division**

**OBJECTIVE 1: Deliver outstanding partners, volunteers, and external resources to support program goals and fill asset gaps.**

**INITIATIVE 1.1: Increase funding from sources outside the Government.**

- **Fully Achieved.** The Partnerships and Development Division is continually enhancing the Partnerships Strategic Development Plan to proactively increase agency resources in the form of cash value of volunteer hours, partnerships, sponsors, donations and grants. Accordingly, through the enhancements of partnership processes there was a significant increase in funding from sources outside the government in FY14.

**Program Division**

**OBJECTIVE 1: Provide equal access to programs that are high quality, outcome-based, and focused on the user.**

**INITIATIVE 1.1: Implement customer feedback system.**

- **Fully achieved.** DPR implemented an evaluation system to allow for regular feedback from participants at DPR events and programs. The Programs Division collected participant feedback at the end of events and programs using hard copy and electronic surveys to ensure that DPR programming are meeting the intended program objectives.

**INITIATIVE 1.2: Implement comprehensive program evaluation plan.**

**Fully Achieved.** DPR uses the a modified version of the Program Assessment Assistance System (PAAS), developed by the Children's Youth Investment Trust Corporation to measure the quality of DPR programs. This instrument focuses on program performance, satisfaction, compliance and utilization; thus, ensuring that this agency is efficiently investing in high quality programs. This observation tool has remarkably augmented the quantitative program evaluation tool, and the agency continues to observe an increase in program quality.

**INITIATIVE 1.3: Recreation specialists will make data-informed adjustments to program delivery to achieve a positive customer experience.**

**Partially Achieved.** DPR programmatic staff participated in various data and evaluation training opportunities to better incorporate programmatic feedback into service delivery and enhance agency-wide customer service. Recreation Specialists and Program Managers distributed and collected surveys to gauge customer satisfaction at the conclusion of seasonal DPR programs and events. The data-informed service delivery adjustments produced an increase in the programmatic customer service rating. However, this feedback coupled with the feedback from the Play DC Master Plan highlighted a need to increase programs that meet the needs of the changing demographics and to develop a more strategic program outreach plan.

## ***Programs Division***

### **SUMMARY OF SERVICES**

Community Services and Programs housed in the Programs Division plans, organizes and ensures the quality of all programs and activities offered at DPR. DPR provides a wide range of recreational programs and activities to individuals and groups of all ages throughout the District of Columbia, including aquatics, athletics, fitness, urban camps, therapeutic recreation, environmental education, and food and nutrition programs. Community Services and Programs promotes participation by assessing and meeting the needs of its customers in each neighborhood or ward.

Community Recreation oversees recreation staff responsible for implementing structured programs and providing excellent customer service. Community Recreation is also responsible for recruiting constituents and other visitors to the District to ensure maximum utilization of programs and services.

### **OBJECTIVE 1: Provide equal access to high quality programs that are outcome-based and focused on the user.**

#### **INITIATIVE 1.1: Enhance program quality based on customer feedback**

DPR has a program-specific feedback mechanism that allows for the collection of more in depth data on program delivery in accordance with our PlayDC Master Plan Framework and national industry standards<sup>3</sup>. This feedback mechanism allows for consistent and regular data collection from participants at DPR events and programs. The participant feedback system measures participant satisfaction at the end of each event, program or season to ensure that DPR programming is meeting the intended program objectives. In FY15, the programmatic adjustments informed by the feedback system will yield an increase in the percentage of participants meeting program goals to 88%.

**Completion Date: September, 2015**

#### **INITIATIVE 1.2: Improve comprehensive program evaluation plan.**

DPR has established a systematic program evaluation process to measure the quality of all DPR programs by focusing on program performance, satisfaction, compliance and utilization: The Program Assessment and Assistance System (PAAS). PAAS is a comprehensive set of instruments and procedures, created with input from program providers, which evaluate and help develop the work of youth and family serving programs. PAAS collects information on program outcomes using research based evaluation tools such as surveys, focus group interviews, staff interviews and formal observations. In FY15, the systematic program evaluation process is expected to increase

In accordance with the Play DC Master Plan Framework, Recreation Specialists will incorporate programmatic feedback into service delivery and enhance agency-wide customer service<sup>5</sup>. To continue this effort in FY15, Recreation Specialists will distribute and collect surveys to gauge customer satisfaction at the conclusion of every program. The resulting data-informed service delivery adjustments will produce an increase in the customer service rating to 93% and maintain program utilization rate at 78%. **Completion Date: September, 2015**
