

**2019 Performance Oversight Questions**  
*DC Water*

**A. ORGANIZATION AND OPERATIONS**

1. Please provide a complete, up-to-date **organizational chart** for the agency and each division within the agency, including the names and titles of all senior personnel. Please include an explanation of the roles and responsibilities for each division and subdivision within the agency.
  - Please include a list of the employees (name and title) for each subdivision and the number of vacant, frozen, and filled positions. For vacant positions, please indicate how long the position has been vacant.
  - Please provide a narrative explanation of any changes to the organizational chart made during the previous year. **See Attachments 16-23**
2. Please list each **new program** implemented by the agency during FY 2018 and FY 2019, to date. For each initiative please provide:
  - A description of the initiative, including when begun and when completed (or expected to be completed);
  - The funding required to implement the initiative;
  - Any documented results of the initiative.

1. **Enterprise Resources Planning – This initiative has technology and process development component. The current financial system is outdated, and requires replacement. OCFO took this opportunity to improve process and internal controls while implementing a new technology. The estimated cost: Currently under bid. Project start Summer 2019 Estimated completion December 2020**

As a preparation for this project Jacobs Engineering was hired to identify potential process improvements and efficiencies and make recommendations regarding coordination to be considered for the implementation of the new financial system and budget monitoring and controls. Project Cost: \$75,000 Project Start: December 2018 Project Completion: February 2019

Expected benefits - The technology adoption along with the process changes should provide tighter fiscal control of better financial forecast, budgeting and budgetary controls and better tracking tools for cost savings efforts.

2. **Aligning Operational and Strategic Priorities. DC Water’s objective was to assess its structure and ensure its structure and workforce efforts are aligned with best practices. This review resulted in 11 recommendations and 52 opportunities. Xx recommendations are implemented, which includes a major structural reorganization streamlining operations to deliver services efficiently and effectively.**

Project Cost XX Project start xx Project completion xxx

Expected benefits include a more consistent customer experience, decreased silos, improvements to core business functions, increased strategy in key functions, and improved focus on leadership, communication, and transparency

3. Meter to cash process optimization – DC Water undertook an initiative to assess its operations along the meter-to-cash lifecycle and to identify process improvements, areas of risk, and potential cost savings. Industry leading expertise was applied after understanding the breadth and depth of the meter to cash value stream considering the effectiveness of business processes, technology, information systems and staff. The resulting roadmap identifies a number of very promising opportunities for additional revenue, cost savings, transparency, accountability and improve the customer experience. DC Water will evaluate implementation options for priority projects with high potential and benefits.

The cost of the project was \$113,000. Project start: December 2018. Completion: February 2019

Expected benefits – An estimated \$20 million in savings opportunities over 15 years, plus additional revenue, transparency, accountability, and an improved employee and customer experience

4. Procurement optimization – DC Water is undertaking an initiative to enhance transparency, accountability, and collaboration through considered integration of Engineering procurement functions with Finance and Procurement. Such an integration would enable employees to focus on core competencies and strengthen procurement processes and rigor. DC Water and a third party are evaluating the current state of procurement processes and co-creating a future state based on recommended actions and industry best practices.

Expected benefits include increased transparency and improved fiscal rigor in the business practices of the organization. A return on investment will be calculated upon conclusion.

Estimated Cost: \$396,000 Project Start: December 2018 Estimated completion: March 2019

5. SCADA Optimization – DC Water is undertaking an initiative to optimize and upgrade pump station systems, and enhance governance and ownership across departments. DC Water and a third party will assess the current state of SCADA and control systems and identify and implement key upgrades for pilot water quality and storm water pumping stations.

The estimated cost of the project \$80,000. Project started in September 2018 Estimated completion March 2019.

Expected benefits: Identification of technology risks and its mitigation. Effective governance structure.

3. Please provide a complete, up-to-date **position listing** for your agency, ordered by program and activity, and including the following information for each position:
- Title of position;
  - Name of employee or statement that the position is vacant, unfunded, or proposed;
  - Date employee began in position;
  - Salary and fringe benefits (separately), including the specific grade, series, and step of position;
  - Job status (continuing/term/temporary/contract);

- Whether the position must be filled to comply with federal or local law. **Please see Attachment 24**
4. Does the agency conduct annual **performance evaluations** of all of its employees, and was this done in FY 2018? Who conducts such evaluations? What are they performance measures by which employees are evaluated? What steps are taken to ensure that all agency employees are meeting individual job requirements? What steps are taken when an employee does not meet individual job requirements? **DC Water conducts annual performance evaluations for all employees. In 2018, non-probationary union employees received their performance evaluations between April 1, 2018 and April 30, 2018. Non-union employees received performance evaluations between October 1, 2018 and October 31, 2018. Evaluations are conducted by each employee's direct supervisor. The evaluation is a 4-Point rating system based on 5 competencies: communication, problem solving, job mastery, relationship management, customer service. Managers are evaluated on these competencies, as well as two additional, leadership and strategic thinking. Employees also receive between 3 and five performance goals specific to their job. These goals are rated on the same four-point scale. All performance evaluations are completed within DC Water's learning management system called Cornerstone. These evaluations are monitored and audited by the department heads and staff within People and Talent. Employees not meeting performance expectations are placed on a performance improvement plan. This plan outlines job expectations and/or development opportunities where appropriate. People and Talent conduct routine audits of job qualifications to ensure all employees have and maintain required certifications and licenses per their position descriptions**
5. Please list all **employees detailed** to or from your agency, if any. Please provide the reason for the detail, the detailed employee's date of detail, and the detailed employee's projected date of return. **This provisions does not apply to DC Water. The Authority does not have employees detailed to another agency within the District of Columbia.**
6. Please provide the position name, organization unit to which it is assigned, and hourly rate of any **contract workers** in your agency, and the company from which they are contracted.  
**Please See Attachment 14**
7. Please provide the Committee with:
- A list of all employees who receive cellphones or similar communications devices at agency expense.
    - ◆ Please provide the total cost for mobile communications and devices at the agency for FY 2018 and FY 2019 to date, including equipment and service plans. **Please see Attachment 10**
  - A list of all vehicles owned, leased, or otherwise used by the agency and to whom the vehicle is assigned. **Please see Attachment 1**
  - A list of employee bonuses or special award pay granted in FY 2018 and FY 2019, to date.  
**Total Bonuses Paid Out – Union:**

- FY16 - 4-1-2015 thru 3-31-2016 - \$785,627
- FY17 - 4-1-2016 thru 3-31-2017 - \$882,845
- FY18 - 4-1-2017 thru 3-31-2018 - \$888,985

**Total Bonuses Paid Out – Non-Union:**

- FY16 - \$834,190
- FY17 - \$784,340
- FY18 - \$822,645

**Retention Bonus Savings – FY18: \$37,197**

- Individuals who did not receive a Bonus because they received a Longevity Bonus (I believe we are speaking of the Execs who received the retention bonus

**Total Merit Increase Dollars for Non-Union:**

- FY16 - \$1,153,507
- FY17 - \$1,251,285
- FY18 - \$1,285,311

**Total 3% Union Increase (Pay Range Adjustment) per CBA:**

- FY16 - \$1,412,897.30.
- FY17 - \$1,446,007.44.
- FY18 - TBD

**# of Step Increases with the Associated Cost Per CBA:**

- FY18 – Count = 195
- FY18 – Cost = \$521,156.97
- FY19 – Thru 2-3-2019 – Count = 67
- FY19 – Cost = \$165,810.86

- A list of travel expenses, arranged by employee. **Please see Attachment 6**
- A list of the total overtime and worker’s compensation payments paid in FY 2018 and FY 2019, to date.

**Overtime Payments**

<b>FY 2018</b> (10/01/17 - 09/30/18)	<b>\$ 8,988,075</b>
<b>FY 2019</b> (10/01/18 - 1/31/19)	<b>\$ 1,995,375</b>

**Workers’ Compensation**

<b>FY 2018</b> (10/1/17 - 9/30/18)	<b>\$ 1,207,800</b>	medical, indemnity, vocational rehabilitation and expenses
<b>FY 2019</b> (10/1/18 - 1/31/19)	<b>\$ 426,624</b>	medical, indemnity, vocational rehabilitation and expenses

8. Please provide a list of each **collective bargaining agreement** that is currently in effect for agency employees.
- Please include the bargaining unit (name and local number), the duration of each agreement, and the number of employees covered.

- Please provide, for each union, the union leader's name, title, and his or her contact information, including e-mail, phone, and address if available.
  - Please note if the agency is currently in bargaining and its anticipated completion date. [Please see Attachment 13.](#)
9. Please identify all **electronic databases** maintained by your agency, including the following:
- A detailed description of the information tracked within each system;
  - The age of the system and any discussion of substantial upgrades that have been made or are planned to the system;
  - Whether the public can be granted access to all or part of each system. [Please see Attachment 15](#)
10. Please describe the agency's procedures for investigating allegations of **sexual harassment** or misconduct committed by or against its employees. List and describe any allegations received by the agency in FY18 and FY19, to date, and whether and how those allegations were resolved.
- [Anyone who believes they have witnessed or are the target of sexual harassment or misconduct \("harassment"\), whether directly or indirectly, or a person acting on the victim's behalf with or without the victim's consent, may report a harassment incident to the Authority's Equal Employment Officer \(EEO Officer\) or to any member of management.](#)
  - [The EEO Officer is responsible for the receipt, acknowledgment, investigation, and reporting of the findings of complaints of harassment and discriminatory employment practices. The Manager of Labor Relations and Compliance Programs is designated as the Authority's EEO Officer.](#)
  - [Supervisors or other employees to whom an employee has reported allegations of harassment shall take prompt action to report the alleged incident\(s\) to the EEO Officer.](#)
  - [The EEO Officer or his/her designee shall promptly initiate investigations of harassment allegations.](#)
  - [The EEO Officer or his/her designee who investigates the harassment allegations shall submit a report of their findings to the Executive Vice President of People and Talent. If an EEO complaint is filed against the CEO and GM, Chief of Staff, Executive Vice President of Legal Affairs, Executive Vice President of Finance and Procurement, or another Executive Vice President, the EEO Officer will arrange for the complaint to be investigated by a party not subject to supervision by an Authority official, or involved in any contractual or other business dealing with the Authority.](#)
  - [Once the investigative report has been submitted to the Executive Vice President of People and Talent for review, a meeting shall be arranged with the Executive Vice President of HCM, EEO Officer and the appropriate Department Heads, and both the targeted employee's and offending employee's supervisors to discuss the report's findings. Should the findings reveal that the allegations are "substantiated," then a resolution plan must be implemented.](#)
  - [The EEO Officer shall meet with the person who reported the alleged harassment to advise them whether the investigation resulted in a finding that the complaint was "substantiated" or "unsubstantiated." If the complaint was "substantiated," the employee will be informed of the resolution plan.](#)

11. For any **boards or commissions** associated with your agency, please provide a chart listing the following for each member:

- The member's name;
- Confirmation date;
- Term expiration date;
- Whether the member is a District resident or not;
- Attendance at each meeting in FY18 and FY19, to date.
- Please also identify any vacancies. **Please See Attachment 3**

12. Please list the **task forces and organizations**, including those inside the government such as interagency task forces, of which the agency is a member and any associated membership dues paid. **Please see Attachment 2**

Urban Forestry Advisory Council (DC Water ex officio representative, Maureen Holman)

DC (DDOE) Green Building Advisory Council (DC Water ex officio representative, Maureen Holman)

DC (DDOE) Storm Water Advisory Panel

DOEE Anacostia River Sediment Consultative Working Group

OP Comprehensive Plan Revision Process and Resilience Advisory Group

Anacostia Waterfront Development Working Group (OP)

DOEE Comprehensive Energy Plan Revision Process, Clean Energy DC

DC – Copenhagen Partnership with DOEE

District Mitigation Plan (DMP) Core Planning Team, led by HSEMA

Sustainable DC 2.0 Update (lead by DOEE)

MWCOG

COG Anacostia Watershed Restoration Partnership Steering Committee

COG Chesapeake Bay Water Resources Policy Committee

COG Climate, Energy and Environment Policy Committee

- Maureen Holman, Commission on Climate Change & Resiliency (Ward 5)
- Maureen Holman, Leadership Council for a Cleaner Anacostia River (Ward 5)
- Korey Gray, Workforce Investment Council (WIC) Board, Employment Services Committee
- Terrance Hunter, Office of Disability Rights (Ward 7)... also Advisory Neighborhood Commissioner for Ward 7 Section 7F02

13. What has the agency done in the past year to make the activities of the agency more **transparent** to the public?

We live stream all Board of Directors meetings and publish all meeting materials and agendas on our website at <https://www.dewater.com/watch-board-meetings>.

We post documents frequently requested through the Freedom of Information Act on our website at <https://www.dewater.com/foia>. That includes a list of our employees and the union and non-union pay scales; Board approved resolutions, agendas and meeting minutes; addresses with lead service lines; annual budgets and information on the expenditure of funds. In addition, in response to Council requests, we also now post the outcomes of administrative hearings.

We maintain an Open Data Portal (<https://dewater.com/open-data-portal>) that gives customers access to key datasets. That includes the status of every fire hydrant in the District; historical data on water main breaks and sanitary sewer overflows; the automated meter replacement program; and our planned capital projects across the city.

In spring 2018, our Interim General Manager held a series of Budget Town Hall meetings in all 8 Wards of the District. The meetings were co-hosted by the Ward Councilmembers and more than 400 residents attended. The majority of participants who took a short survey after the meetings said they had a better understanding of DC Water projects in their community and a better understanding of DC Water rates.

Our Community Outreach Team and other ambassadors from throughout the organization supported a record number of community engagement events in 2018. We participated in 77 events across the District, from large festivals to neighborhood block parties, as well as constituent services events hosted by Councilmembers. We also held our first Infrastructure Forum to inform and educate residents about infrastructure work impacting their communities. We hosted hundreds of visitors for tours of the Blue Plains Advanced Wastewater Treatment Plant, and our education outreach program provided hands-on lessons, field trips and environmental education events to more than 2,000 students during the school year.

14. How does the agency solicit **feedback** from customers? Please describe.

- What is the nature of comments received? Please describe.
- How has the agency changed its practices as a result of such feedback?
  - Customer Service Center at (202)354-3600
  - 24-hour Command Center at (202) 612-3400
  - Customer Service phone numbers on every customer bill
  - Online comment and Report-A-Problem application
  - Mobile Report-A-Problem form (includes photo upload and GPS location capabilities)
  - Town hall meetings in every ward every two years (advertised in multiple ways including automated calls to customers who have contacted DC Water over the previous year with complaints or reported issues.)
  - Door-to-door notification of affected addresses before planned construction work
  - Follow-up surveys after major construction work concludes
  - Participation in community meetings, events and festivals
  - Social media including Twitter, Facebook and Instagram

- Routine monitoring and responses to DC Water mentions in blogs, on social media and in conventional media.
- Customer Satisfaction Survey, conducted in 2018

15. What has the agency done to reduce agency **energy use** in FY 2018? Did the agency’s energy use increase or decrease in FY 2018? Please identify how much energy use increased or decreased in terms of kWh and therms, and what percentage increase/decrease that is compared to FY 2017.

In FY2018, the Authority’s energy use increased by 10% as compared to the use in FY2017, due to startup of new facilities, including the Wet Weather Treatment Facility (WWTF) at Blue Plains. The WWTP includes five 3,000 Horse Power (HP) Tunnel Dewatering Pumps (TDPs) that lift the flow 156 ft to the above ground Enhanced Clarification Facility (ECF), to provide treatment for Combined Sewer Overflows (CSO) conveyed through the Long-Term Control Plan (LTCP) tunnel systems to Blue Plains.

During Fiscal Year 2018 DC Water implemented a Secondary Aeration System Upgrade in conjunction with the DCSEU. The expenditures for this project was \$7.9 million and is calculated to yield 4,600,000 kwh of electricity usage annually. DC Water received a \$120,000 rebate based on this efficiency improvement project.

DC Water's Blue Plains Tunnel (BPT) and Anacostia River Tunnel (ART) came on line in March 2018. As a result of these Clean River projects, DC Water captured in these tunnels, conveyed to Blue Plains, and pumped out 3,192 million gallons of combined sewer and storm water for treatment by the Blue Plains Advanced Wastewater Treatment Facility. Additional electricity was utilized to pump and treat these 3,192 million gallons of combined sewer and storm water captured in the tunnels which otherwise would have been diverted directly into the waterways.

16. Please complete the following chart about the residency of **new hires**:

**New Hires Residency Chart**

Position Type	FY18		FY19	
	Total Number	DC Residents	Total Number	DC Residents
Continuing	108	21	14	2
Term	11	5	2	0
Temporary	10	3	0	0
Contract	N/A	N/A	N/A	N/A

17. Please provide the agency’s FY 2018 Performance Accountability Report. **FY 2018 operating expenditures were \$553.3 million, representing 99% of the approved budget (\$561.9 million)**

**B. BUDGET AND FINANCE**

18. Please provide a chart showing the agency's **approved budget and actual spending**, by division, for FY 2018 and FY 2019, to date. In addition, please describe any variance between fiscal year appropriations and actual expenditures for each program and activity code.

**FY 2018 Operating Budget**

The Approved FY 2018 budget of \$561.9 million was adopted by the Board of Directors on December 1, 2016. Total operating expenditures were below the approved budget by \$8.7 million mainly from debt service (\$7.1 million) and core operations and maintenance (\$1.6 million).

Departments	(\$000's)		
	Approved Budget	Actual Results	Fav/(Unfav)
WWT - Process Engineering	\$7,673	\$6,944	\$729
Maintenance Services	19,558	17,807	1,751
Water Services	23,619	23,603	16
Sewer Services	14,315	14,070	245

Cash Financed Capital Improvements	35,260	35,260	0
<b>Total Operating Expenditures</b>	<b>\$561,948</b>	<b>\$553,279</b>	<b>\$8,668</b>
Personnel Services charged to Capital Projects	(21,061)	(15,527)	(5,534)
<b>Total Net Operating Expenditures</b>	<b>\$540,887</b>	<b>\$537,752</b>	<b>\$3,135</b>

**Personnel Services:** Authority-wide overspending is due to impact of the Board-ratified union labor contract and other employee salary adjustments, increased hiring efforts and high overtime costs. The high overtime cost was for after-hour work performed in response to emergencies, historically high water main breaks experienced during the winter season, and support for the on-going Automated Meter Reader (AMR) Program.

**Maintenance Services:** Underspending mainly in personnel due to higher vacancies and lower than anticipated warehouse issuances for parts.

**Engineering & Technical Services and Waste Water Engineering:** Overall underspending for the two departments mainly in contract services. Waste Water Engineering department was established during the fiscal year, with associated budget reprogramming from the Board-approved budget for Engineering & Technical Services department to cover the personnel costs for the newly created department.

**Wastewater Treatment- Operations:** Underspending is primarily due to lower than anticipated unit prices for electricity and energy generation from the Combine Heat and Power (CHP) facility, which represents approximately 6.7MW or 21 percent of Authority-wide usage. Increased personnel costs and chemicals costs due to higher unit prices of some major chemicals (methanol and sodium bisulfite) and usage in the Tunnel Dewatering Pump Station during the rain events.

**Facilities Management:** Underspending primarily in contractual services relating to janitorial services and other equipment maintenance services.

**General Counsel:** Underspending primarily for litigation costs and contingencies, offset by increased personnel costs.

**Water Services and Water Quality & Technology:** Total overspending mainly in personnel costs including high overtime for emergency repairs for water main breaks. Water Quality & Technology department was established during FY 2018 with associated budget reprogramming from the Board-approved budget for Water Services departments.

**Customer Services:** Overspending primarily in personnel services, rental for additional lease space for the CIS project team, postage costs and credit card fees for on-line payments by customers.

**Human Capital Management:** Overspending primarily in contractual services related to worker's compensation claims.

**Fleet Management:** Overspending primarily in contractual services for automotive repairs and maintenance, warranty services and DC Water Works Program (CDL Drivers Training).

**Debt Service:** Underspending is primarily due to lower than anticipated interest rates on existing variable rate debt throughout fiscal year 2018.

### **FY 2019 Operating Budget**

The Approved FY 2019 operating budget is \$582.8 million as adopted by the Board of Directors on March 1, 2018.

At the end of December 2018, operating expenditures (including debt service and the right of way PILOT fees) totaled \$133.1million or 22.8% of the approved budget. Total operating expenditures were in line with expectations for the first quarter of fiscal year 2019. These numbers include estimated, incurred but unpaid invoices and are subject to revision in subsequent months.

The following provides DC Water's comparative expenditure by major object category through December 31, 2018 of the fiscal year.

Category	FY 2019		
	Approved Budget	Actual (YTD) as of 12/31/2018	Percent of Budget
Personnel Services	\$162,620	\$37,405	23.0%
Contractual Services	81,679	18,875	23.1%
Water Purchases	30,520	7,572	24.8%
Supplies & Chemicals	32,091	8,908	27.8%
Utilities	26,905	6,806	25.3%
Small Equipment	1,240	80	6.5%
<b>Subtotal O &amp; M Expenditures</b>	<b>\$335,055</b>	<b>\$79,646</b>	<b>23.8%</b>
Debt Service	199,025	47,998	24.1%
Payment in Lieu of Taxes	16,602	4,151	25.0%
Right of Way	5,100	1,275	25.0%
Cash Financed Capital Improvements	26,999	0	0.0%
<b>TOTAL OPERATING</b>	<b>\$582,781</b>	<b>\$133,070</b>	<b>22.8%</b>
Capital Labor	(18,259)	(3,308)	18.1%
<b>Total Net Operating Expenditures</b>	<b>\$564,522</b>	<b>\$129,762</b>	<b>23.0%</b>

19. Please list any **reprogrammings**, in, out, or within, related to FY 2018 or FY 2019 funds.

For each reprogramming, please list:

- The reprogramming number;
- The total amount of the reprogramming and the funding source (i.e., local, federal, SPR);
- The sending or receiving agency name, if applicable;
- The original purposes for which the funds were dedicated;
- The reprogrammed use of funds.

### FY 2018 Reprogramming

During FY 2018, a total of \$15.8 million was reprogrammed to meet operational and maintenance needs within the Authority's approved operating budget as follows:

a) Personnel Services (\$7.3 million):

Interdepartmental reprogrammings were effected within personnel services due to the impact of the Board-ratified union contract, increased hiring efforts, departmental restructurings, and higher overtime costs during the extreme cold season.

b) Non-Personnel Services (\$8.4 million)

Interdepartmental reprogrammings were effected using savings from within O&M and Debt Service line items of the budget. Reprogrammings were effected to:

Meet required funding for alignment of functions arising from departmental restructurings (\$ 4.5 million)

Established two new departments Water Quality and Technology department (\$2.8 million) previously within the department of Water Services; and Waste Water Engineering (\$1.7 million) previously within the department of Engineering and Technical Services

Provide funding to support various programs (\$3.9 million)

- o Credit card transaction fees due to the increase in on-line bill payment and postage costs (\$0.5 million)
- o Rental of additional lease space for the CIS project (\$0.9 million)
- o DC Water Works Program- CDL Driver training (0.2 million)
- o Workers compensation claims (\$0.9 million)
- o Warranty & Geotab programs (\$0.3 million)
- o Organizational realignment costs (\$0.2 million)
- o Repairs and maintenance on motors, pumps, Potomac Interceptor meters and Supervisory Control and Data Acquisition (SCADA) systems (\$0.9 million)

#### FY 2019 Reprogramming

During FY 2019, a total of \$1.1 million has been reprogrammed through December 31, 2018 within the Board-approved budget for the following:

- Partial funding for the creation of new department (Office of Emergency Management) - \$ 1.1 million previously funded within the Department of Distribution and Conveyance System (DDCS).

20. Please provide a complete accounting for all **intra-District transfers** received by or transferred from the agency during FY 2018 and FY 2019, to date, including:

- Buyer agency and Seller agency;
- The program and activity codes and names in the sending and receiving agencies' budgets;
- Funding source (i.e. local, federal, SPR);
- Description of MOU services;
- Total MOU amount, including any modifications;
- The date funds were transferred to the receiving agency. **See Attachment 4**

21. Please provide a list of all **MOUs** in place during FY 2018 and FY 2019, to date, that are not listed in response to the question above.

- Memorandum of Understanding between DC Water, Arlington County, Fairfax County Water Authority, and the Department of the Army (Water Coordination Agreement)
- Memorandum of Understanding between Army Corps of Engineers and DC WASA re. Sampling, Testing and Analysis of District's Drinking Water
- Memorandum of Understanding between DC Government, DC Fire and Emergency Medical Services and DC WASA for Fire Hydrant Inspection Services
- Memorandum of Understanding Amendment #1 between DC Government, DC Fire and Emergency Medical Services and DC WASA for Fire Hydrant Inspection
- Memorandum of Understanding between DC Water and DC Fire and Emergency Services re. Clean Water Tunnel Safety and Emergency Response

- Memorandum of Understanding between The District Department of the Environment and The DC Water and Sewer Authority (Rain Barrel)
- Memorandum of Understanding with Central Union Mission Clarifying the Maintenance of Certain Storm Water Structures
- Memorandum of Understanding Between The District of Columbia and The District of Columbia Water and Sewer Authority for Payment of PILOT Fees
- Memorandum of Understanding Between The District of Columbia and The District of Columbia Water and Sewer Authority for Payment of Right-of-Way Fees
- Memorandum of Understanding Between DC Water and the D.C. Office of the City Administrator for the Northeast Boundary Neighborhood Protection Projects

22. Please identify any **special purpose revenue accounts** maintained by, used by, or available for use by your agency during FY 2018 and FY 2019, to date. For each account, please list the following:

- The revenue source name and code;
- The source of funding;
- A description of the program that generates the funds;
- The amount of funds generated by each source or program in FY 2018 and FY 2019, to date;
- Expenditures of funds, including the purpose of each expenditure, for FY 2018 and FY 2019, to date.

DC Water does not have special purpose revenue accounts

23. Please provide a list of all projects for which your agency currently has **capital funds** available. Please include the following:

- A description of each project, including any projects to replace aging infrastructure (e.g., water mains and pipes);
- The amount of capital funds available for each project;
- A status report on each project, including a timeframe for completion;
- Planned remaining spending on the project.

A brief summary of the major capital activities and a detailed listing for each project in DC Water's Approved FY 2018 - FY 2027 Capital Improvement Program is found in Section V (page V-5) of the FY 2019 Approved Budget Book.

Below is a link to the document:

<https://www.dcwater.com/budget-and-financial-planning>

24. Please provide a complete accounting of all federal grants received for FY 2018 and FY 2019, to date, including the amount, the purpose for which the funds were granted, whether those purposes were achieved and, for FY 2018, the amount of any unspent funds that did not carry over.

In FY 2018, DC Water received a total of \$18.4 million in EPA funds for programs under Clean Water Act and Safe Drinking Water Act. In FY 2019 so far, we have received \$4.1 million in such funds. The purpose of the funds was to strengthen or improve blue plains waste water treatment facility, water main replacements, storage facilities upgrades, and pumping station upgrades.

These are reimbursement grants and we draw down funds only after the vendors have been paid. In FY 2018, there were no unspent funds that did not carry over.

Similarly, we received \$229k in FEMA funds in FY 2018 and FY 2019, so far under Hazard Mitigation Grant Program and Pre-Disaster Mitigation Grant programs. The purpose of these grants is to improve pumping stations, facility walls, etc. in order to mitigate impact on our continuity of services due to any potential disasters. In FY 2018, there were no unspent funds that did not carry over.

Each year the United States Congress appropriates certain amount of funds to support DC Water’s Clean River’s Combined Sewer Overflow projects (CSO). In FY 2018, we received \$14 million in such appropriation. There were no unspent funds at the end of FY 2018.

	Descriptions	FY 2019	FY 2018	Total
EPA	Clean Water Act Grant Programs	-	\$1,613,710	\$1,613,710
EPA	Safe Drinking Water Act Programs	4,114,100	16,744,949	20,859,049
	<b>Total EPA</b>	<b>\$4,114,100</b>	<b>\$18,358,659</b>	<b>\$22,472,759</b>
FEMA	Hazard Mitigation Grant Program	-	110,658	110,658
FEMA	Pre-Disaster Mitigation Program	-	119,246	119,246
	<b>Total FEMA</b>	<b>-</b>	<b>\$229,904</b>	<b>\$229,904</b>
Congress	CSO Direct Appropriation	-	14,054,000	14,054,000
	<b>Total CSO</b>	<b>-</b>	<b>\$14,054,000</b>	<b>\$14,054,000</b>
	<b>Grand Total</b>	<b>\$4,114,100</b>	<b>\$32,642,563</b>	<b>\$36,756,663</b>

25. Please list each contract, procurement, lease, and grant (“**contract**”) awarded, entered into, extended and option years exercised, by your agency during FY 2018 and FY 2019, to date. For each contract, please provide the following information, where applicable:

- The name of the contracting party;
- The nature of the contract, including the end product or service;
- The dollar amount of the contract, including budgeted amount and actually spent;
- The term of the contract;
- Whether the contract was competitively bid or not;
- The name of the agency's contract monitor and the results of any monitoring activity;
- Funding source;
- Whether the contract is available to the public online.

Please See Attachment 5

26. Please provide the details of any **surplus** in the agency's budget for FY 2018, including:
- i. Total amount of the surplus;
  - ii. All projects and/or initiatives that contributed to the surplus.

DC Water ended fiscal year 2018 with a total budget surplus of \$16 million mainly from higher revenues and lower operating expenditures than anticipated in the budget. In addition to the budget surplus, there was a cash surplus as a result of reconciliation of county refunds, and project and federal billing due to timing of receipts. As a result the Board authorized an allocation of PAYGO of \$18 million to the capital program to reduce future borrowing for the capital expenditures and DC Water held over \$7 million related to project billing refunds.

### C. LAWS, AUDITS, AND STUDIES

27. Please identify any **legislative requirements** that the agency lacks sufficient resources to properly implement.

There are no legislative requirements that DC Water lacks sufficient resources to properly implement.

28. Please identify any statutory or regulatory **impediments** to your agency's operations or mission.

**Water and Sewer Operations Amendment Act of 2002**, effective October 1, 2002 (D.C. Law 14-190, § 3902; D.C. Official Code, § 34-2107 et seq.) prohibits DC Water from charging customers the costs for treating groundwater discharged from improved real property. This results in higher sewer rates for all rate payers to compensate for the lost revenue from the customers that receive free sewer treatment for their groundwater discharges. Revisions to this statute would authorize DC Water to charge for these costs and address equity, compliance and budget issues. DC Water would like to work with the Council to amend this legislation.

**The Public Works Act**, effective May 18, 1954 (68 Stat. 104, ch. 218; D.C. Official Code 2101 et seq.) sets a 30 day period within which a DC Water customer must pay their bill before they can be charged a 10% late fee. This provision was reasonable and effective when the District/DC Water rendered water and sewer bills on a quarterly basis. Since 2002, however, DC Water has employed the use of automatic meter reading meters and changed the billing period from quarterly to monthly, which is before the 30 day statutory payment period has elapsed. The current statutory payment period prohibits DC Water from including

the late fees on the next bill creating customer confusion on the total amount that they owe. Pursuant to 15 DCMR 305, bills rendered by District Utility, Energy Supplier, or Telecommunications Service Providers must be paid within 20 days after the date their bills are rendered. Shortening the statutory bill payment period for water and sewer bills will improve the effectiveness of DC Water billing processes consistent with DC Water current metering system and other District Utilities. DC Water would like to work with the Council to amend this statute and related legislation.

**The Freedom of Information Act**, effective Oct. 21, 1968, amended Oct. 22, 2015 (D.C. Law 21-36 § 4063, D.C. Code § 2-534(a)(15)) exempts from disclosure critical infrastructure information for companies regulated by the Public Service Commission. Because DC Water is not regulated by the Public Service Commission, DC Water may not utilize this exemption to withhold from disclosure in response to a FOIA request data or documents containing critical infrastructure information. As a result, DC Water could be required to disclose information which jeopardizes the security of critical water and sewer infrastructure. This could be resolved with the addition of the words “and the District of Columbia Water and Sewer Authority” after the word “Columbia” in this paragraph. DC Water would like to work with the Council to amend this statute.

**District of Columbia Water and Sewer Operations Amendment Act of 1990**, amended Mar. 30, 2004, D.C. Law 15-132, § 2, 51 DCR 1804, D.C. Code § 34-2407.02, gives DC Water a continuing lien on property until all water and sewer charges are paid in full. However, D.C. Code § 47-1340(b) requires that when DC Water certifies its lien to OTR, "the taxing agency shall file with the Recorder of Deeds a Notice of Converted Real Property Tax releasing the prior lien as of the date of certification." A lien cannot be continuing if it has been released. OTR collects only that portion of the charges that are certified in the Converted Real Property Tax Certificate. D.C. Code §47-1382(c) makes clear that "[t]he purchaser shall pay all amounts that would be required of a person redeeming under § 47-1361." The purchaser's interest then is only subject to those items under §47-1382(a) --- namely a lien of a taxing agency recorded at the Recorder of Deeds. OTR has taken the position that a new lien would need to be filed for any water sewer charges that are accrued after filing a Converted Real Property Tax Certificate for water and sewer charges and OTR is not responsible for collecting such charges. As the lien is released while OTR transfers title to the property to the purchaser at a tax sale and a judgment subsequently entered, it causes confusion as to the responsibility of the charges that have accumulated between the time the Converted Real Property Tax Certificate is filed and the title is transferred to a purchaser. DC Water would like to work with the Council to amend this statute to make it clear all charges to the date of the payment should be collected by OTR.

**Amend Section 12–309 of the District of Columbia Official Code** (Actions against District of Columbia for unliquidated damages; time for notice). D.C. Official Code § 12-309, provides that a civil action against the District of Columbia for unliquidated damages to person or property may not proceed unless the Mayor of the District of Columbia receives notice of the circumstances of the injury or damages within six months. DC Water is not entitled to similar notice. If DC Water received similar notice, it would be able to respond more quickly to potential hazards, thereby mitigating the risk of future damages or injuries.

Under the status quo, DC Water often does not receive notice of a hazard or defect until suit is filed up to three years later, when the statute of limitations runs. DC Water would like to work with the DC Council to amend this legislation.

29. Please list all **regulations** for which the agency is responsible for oversight or implementation. Where available, please list by chapter and subject heading, including the date of the most recent revision.

Title 21 Water and Sanitation		
Chapter No.	Subject Heading	Last Revision
Chapter 1	Water Supply	1/19/2018
Chapter 2	Public Sewer System	6/18/1999
Chapter 3	Water Meters	1/24/2003
Chapter 4	Contested Water and Sewer Bills	10/1/2013
Chapter 15	Discharges to Wastewater System	2/1/2018
Chapter 40	Retail Ratemaking	5/2/1997
Chapter 41	Retail Water and Sewer Rates	1/1/2019
Chapter 52	D.C. Water and Sewer Authority Personnel Regulations	6/20/2008
Chapter 53	District of Columbia Water and Sewer Authority Procurement Regulations	9/18/2009
Chapter 54	Cross Connection	2/23/2001

30. Please explain the impact on your agency of any **federal legislation or regulations** adopted during FY 2018 that significantly affect agency operations or resources.

DC Water is not aware of any federal legislation or regulations that were enacted during FY 2018 that significantly affected DC Water’s operations or resources.

31. Please provide a list of all **MOUs** in place during FY 2018.

See response to Question 21.

32. Please provide a list of all studies, research papers, and analyses (“**studies**”) the agency requested, prepared, or contracted for during FY 2018. Please state the status and purpose of each study.

**Water Research Foundation 4713 – Full Lead Service Line Replacement Guidance**

-Evaluates strategies to reduce lead exposure after conducting full lead service line replacements (FLSLRs).

Effective date: Oct 1, 2018

Status: On-going

**Point-of-Use Filter Study in DC Schools, collaboration with the District Department of General Services**

-Evaluates the filtered water quality related to microbial activity on drinking water fountain point-of-use (POU) filters.

Effective Date: May, 2017

Status: Completed April 30, 2018

**Point-of-Use Filter Laboratory Study, collaboration with the District Department of General Services**

-Evaluates the microbial growth on point-of-use (POU) filters and effects on water quality.

Effective Date: March, 2018

Status: On-going

**Cost of Service (COS) study for Miscellaneous Fees, FOG (Fat, Oil and Grease) and Cross-Connection Fee:**

The COS for Miscellaneous Fees determines the appropriate fees for recovering the costs for providing miscellaneous services to the customers.

Effective Date: October 1, 2018

Status: Completed February 6, 2019

**Research Studies:**

The wastewater research and development group conducts research related to Blue Plains operations, with several multi-year studies in the program areas listed below. The research work itself is conducted by DC Water staff, graduate student interns, and graduate students that are contracted either through their University or through a temporary agency.

**Carbon Removal (secondary treatment).**

Investigations include assessment of contact stabilization and high rate treatment strategies to minimize aeration basin volume and transfer more carbon from the wastewater into the digesters for biogas generation; improvement of solids settling characteristics; and aerobic granulation as a strategy to increase the capacity of Blue Plains secondary treatment system.

**Effective Date:** FY2014

**Status:** Ongoing

**Nitrogen removal**

Investigations include assessment of “short-cut” nitrogen removal strategies such as use of anammox bacteria to reduce methanol and energy requirements for nitrogen removal at Blue Plains. Work also includes optimization strategies for the new Filtrate Treatment Facility.

**Effective Date:** FY2012

**Status:** Ongoing

**Solids Handling**

(Thermal hydrolysis process, anaerobic digestion and biosolids dewatering). Research work includes experimentation with strategies to enhance digestion process kinetics; develop predictive digester controls, and dewatering improvements.

**Effective Date:** FY2016

Status: Ongoing

**The following research papers were published from the ongoing wastewater research work at Blue Plains during 2018:**

**33.** Please list and describe any ongoing **investigations**, audits, or reports on your agency or any employee of your agency, or any investigations, studies, audits, or reports on your agency or any employee of your agency that were completed during FY 2018 and FY 2019, to date.

**Please See Attachment 25**

**34.** Please identify all **recommendations** identified by the Office of the Inspector General, D.C. Auditor, or other federal or local oversight entities during the previous 3 years. Please provide an update on what actions have been taken to address these recommendations. If the recommendation has not been implemented, please explain why.

DC Water did not receive any recommendations from the Office of the Inspector General, D.C. Auditor, or other federal or local oversight entities.

35. Please list any **reporting** requirements required by Council legislation and whether the agency has met these requirements. **None**

36. Please list all pending **lawsuits** that name the agency as a party, and provide the case name, court where claim was filed, case docket number, and a brief description of the case.

**A. Pending lawsuits (Torts, Breach of Contract and Employment) involving DC Water:**

*Baten v. DC Water*, 2018 SC3 008409; (D.C. Sup. Ct., filed October 11, 2018), is a property damage claim. DC Water damaged Plaintiff's water service line while repairing an adjacent sewer later. DC Water repaired the damage, but Plaintiff claims the repaired line is likely to fail in the future and he demands that the entire line be replaced, or \$5,343. The Court ordered the parties to early mediation, which is scheduled for February 28, 2019.

*Brown v. DC Water*, 2018 CA 008105 B (D.C. Sup. Ct., filed Nov. 19, 2018), is a personal injury claim. Plaintiff claims she was injured on or about October 11, 2017 when she tripped and fell on a water meter cover. Plaintiff seeks \$150,000 in damages.

*Brown v. DC Water*, 2018 CA 006785 B (D.C. Sup. Ct., filed September 24, 2018), is an employment discrimination claim. Plaintiff alleges race discrimination, gender discrimination, and retaliation in violation of the District of Columbia Human Rights Act. Plaintiff also asserts a claim for violation of the District of Columbia Whistleblower Act. Plaintiff seeks \$5,000,000 in damages.

*Chubb Corp. f/k/a/ Fireman's Fund Insurance v. DC Water*, 2018 CA 004699 C (D.C. Sup. Ct., filed April 4, 2018), is a subrogation claim. Plaintiff insurer alleges that its insured sustained substantial property damage when a July, 2015, meter change out allegedly caused a flood. Plaintiff seeks \$89,113.71 in damages.

*Coleman v. DC Water*, 18-cv-01215-APM (D.D.C. filed May 29, 2018) is an employment discrimination claim. Plaintiff alleges that DC Water violated the Age Discrimination in Employment Act when his position was eliminated during a reorganization. Plaintiff makes no monetary demand.

*Covington v. DC Water*, 2018 CA 001790 B (D.C. Sup. Ct., filed March 13, 2018), is a personal injury claim. Plaintiff claims he was injured on or about November 1, 2015 when he tripped and fell on a defective manhole. Plaintiff seeks \$250,000 in damages.

*Davis v. DC Water*, 2018 CA 006784 B (D.C. Sup. Ct., filed September 27, 2018), is an employment discrimination claim. Plaintiff alleges race discrimination and retaliation in violation of the District of Columbia Human Rights Act. Plaintiff also asserts a claim for violation of the Family Medical Leave Act. Plaintiff seeks unspecified monetary damages.

*DC Water v. Armed Forces Retirement Home*, No.1:18-CV-00049-JEB (D.D.C. filed January 9, 2018), is a breach of contract case brought by DC Water against the Armed Forces Retirement Home. DC Water alleges that the AFRH failed to pay sewer charges from 2004 to present in excess of \$8 million dollars. DC Water seeks \$15 million in damages.

*DC Water v. B. Frank Joy, LLC*, 2016 CA 003717 B (D.C. Sup. Ct., filed May 24, 2016), is a property damage case brought by DC Water against a contractor who installed a utility vault in the 1990s that resulted in a roadway collapse on May 21, 2013. That utility vault bisected a nearby catch basin lead which caused water to leak over the years, resulting in the erosion of soil surrounding and supporting a trunk sewer. DC Water was awarded a verdict in the amount of \$916,538. Defendant has appealed.

*DC Water v. First Hand Land*, 2016 CA 000187 (D.C. Sup. Ct., filed Jan. 18, 2016), is a property damage case brought by DC Water against project developers, the permit expeditors and others to recover damages to a trunk sewer where a condo was constructed over it and caused approximately \$3.0 million in damages. DC Water also incurred approximately \$400,000 in damages razing the building. DC Water asserts that the project developers and permit expeditors neglected to get DC Water's approval before issuing permits. DC Water seeks \$3 million in damages. The developers have counterclaimed against DC Water for allegedly wrongfully razing the building.

*Derricott v. DC Water*, 2018 CA 000204 B (D.C. Sup. Ct., filed Jan.11, 2018), is a personal injury claim. Plaintiff alleging that on or about May 14, 2017, she tripped and fell on a water meter cover located in the tree space at or near 55 Gallitan Street, N.W. Plaintiff claims she fell as a result of a hazardous defect in the sidewalk. Plaintiff seeks \$500,000 in damages.

*Dixon v. DC Water*, 2017 CA 000917 B (D.C. Sup. Ct., filed Feb. 7, 2018), is a personal injury claim. Plaintiff Verizon employee alleges that he sustained serious bodily injury at the residence of 5031 5th Street, N.W., when he fell in an unsecured manhole on the property of co-defendant property owner. Plaintiff seeks \$75,000 in damages.

*Duma v. DC Water*, 2017 CA 007301 B (D.C. Sup. Ct., filed Nov.15, 2017), is a case brought by a DC Water customer (Plaintiff) against DC Water in D.C. Superior Court for misappropriation and/or allocation of water and sewer fees. Plaintiff alleges that DC water failed to allocate her payments properly from January to August 2017. Plaintiff seeks \$10,000 in damages.

*Edge v. DC Water*, 2017 CA 000621 (D.D.C., filed Apr. 6, 2017), is a suit nearly identical to the Superior Court action. Edge seeks recovery for damages resulting from DC Water's demolition of a condo constructed over the Northeast Branch Tunnel Sewer. Edge alleges an illegal "taking" of its property by DC Water and a violation of its due process rights.

*Gonzalez-Garcia v. DC Water*, 2018 CA 004262 B (D.C. Sup. Ct., filed June 4, 2018), is a personal injury claim. Plaintiff alleges that he sustained serious and permanent bodily injuries when he stepped on a meter cover located in the tree space of 3929 4th Street, N.E., and fell into the meter hole. Plaintiff alleges that there had been numerous complaints regarding the cover, and DC Water failed to respond prior to the incident. Plaintiff demands \$500,000 in damages.

*Gentile v. DC Water*, 2018 CA 000449 B (D.C. Sup. Ct., filed Jan. 25, 2018), is a personal injury case. Plaintiff alleges that while riding his bicycle he was injured as a result of striking a fire hose in the road at the intersection of 1st and V Street, N.W. Plaintiff has also named DC Water contractors Skanska USA and Jay Dee Contractor, Inc., in this action. Plaintiff seeks \$2,000,000 in damages.

*Hardy v. DC Water*, 16-AA-0933 (D.C. Ct. of Appeals, filed Jan. 4, 2017), is a case brought by a DC Water customer (Claimant/Appellant) against DC Water via the administrative hearings process in November 2016. Appellant contested her impervious surface charges alleging that she is not connected to the public sewer system and creates no storm water runoff. The Administrative Hearing Officer entered a decision in favor of DC Water. Appellant filed an appeal challenging the Hearing Officer's decision.

*Harris v. DC Water*, 1:12-cv-01453 (D.D.C. Sept. 12, 2013), is a wrongful termination and employment case brought in the U.S. District Court for the District of Columbia by a former employee (Plaintiff) against DC Water. Plaintiff asserts a claim for unlawful termination and retaliation in violation of the D.C. Whistleblower Act, Title VII of the Civil Rights Act, Sec. 1981 of the Civil Rights Act of 1866, and common law public policy. Plaintiff also asserts a claim for unlawful interference/ termination in violation of the DC FMLA. Plaintiff seeks \$1 million in damages.

*Haynes v. DC Water*, 1:16-cv-02086 (D.D.C., filed Sept. 29, 2016), is a wrongful termination and employment case. Plaintiff, a former DC Water employee, claims he was terminated from employment due to a learning disability rather than his failure to meet new licensing requirements necessary to perform the job. Plaintiff made no monetary demand.

*Hegens v. DC Water*, 2018 CA 008396 B (D.C. Sup. Ct., filed Dec. 4, 2018), is a personal injury claim. Plaintiff alleges that while walking on the sidewalk at or near 1501 1st Street, S.W., she stepped onto an uncovered manhole and fell into the hole. Plaintiff alleges that due to DC Water's negligence, she fell and sustained serious injuries to both of her legs, suffered and will suffer great pain of body and mind, incurred and will incur medical and out-of-pocket expenses, as well as missed wages. Plaintiff seeks \$90,000 in damages.

*Hughes v. DC Water*, 2014 CA 005573 B (D.C. Sup. Ct., filed Sept. 10, 2013), is a personal injury claim. Plaintiff alleges that on June 3, 2013, he lost control of his scooter in loose gravel at the intersection of 14th & E Streets, N.W., where DC Water was previously doing work and sustained serious injurious. Plaintiff seeks \$5 million in damages.

*Kimberly-Clark Corporation v. District of Columbia et al*, 1:17-cv-01901 (D.D.C., filed Sept. 15, 2017), is a case brought by the Kimberly-Clark Corp., (Plaintiff) against DC Water and others, alleging constitutional violations of the First Amendment, Fifth Amendment, and Commerce Clause, as well as alleged violation of the Declaratory Judgment Act, relating to legislation passed by the DC Council in December 2016 requiring disposable wipes to meet certain test and labelling standards. Plaintiff seeks injunctive relief and attorneys' fees.

*Miller v. DC Water*, 1:17-cv-00840 (D.D.C., filed May 17, 2017), is a property damage and contamination case brought by District of Columbia residents (Plaintiffs) against DC Water, alleging that DC Water caused untreated sewage, and contaminated drinking water to enter their respective homes as a result of a water main break on November 18, 2016 at or near Delafield Place, N.E. The residents also assert environmental, civil rights and trespass claims in their Complaint. Plaintiffs made no monetary demand.

*Moore v. DC Water*, 2018 CA 001365 B (D.C. Sup. Ct., filed Feb. 27, 2018), is a employment discrimination claim. Plaintiff has alleged violations of the DC HRA for disparate treatment discrimination (race, sex), hostile work environment (race, sex), and retaliation. Plaintiff has also alleged a violation of 42 U.S.C. Sec. 1981 (discrimination in the making of contracts). Plaintiff made no monetary demand.

*Moore-Warren v. DC Water*, 2016 CA 006511 V (D.C. Sup. Ct., filed Mar. 13, 2017 (Third-Party Complaint filed on Mar. 7, 2018)), is a personal injury complaint. Plaintiff alleges injury when her vehicle struck a pothole at or near 1754 Lanier Place, N.W. The District of Columbia, a co-defendant, in the lawsuit cross-claimed DC Water and alleged that DC Water was on notice of a damaged manhole cover. Based on the District's assertions, Plaintiff filed an amended complaint to add DC Water to the case. Plaintiff seeks \$500,000 in damages.

*Norair Engineering Corp. v. DC Water*, 16-CV-01585 (D.D.C., filed Aug. 4, 2016), is a bid protest case brought by a company (Plaintiff) against DC Water, alleging that DC Water violated the Equal Protection Clause when DC Water treated EPA's Fair Share Objectives like quotas, thus resulting in it not winning a contract for the upgrade of a Blue Plains wastewater pump station.

*Owens v. DC Water*, 17-cv-460 (D.C. Ct. of Appeals, filed Dec. 29, 2017), is an appeal of the order issued by the trial in court in *Owens v. DC Water*, 2017 CA 7472 B, whereby a DC Water customer's (Claimant/Appellant) Motion for a Temporary Restraining Order and Complaint were denied; thus, permitting DC Water to terminate services at her property for nonpayment of water and sewer charges. Specifically, Ms. Owens attempted to enjoin DC Water from terminating her water service for nonpayment of charges. Appellant demands restoration of her water services at her property.

*Pearson v. DC Water*, 2018 CA 003754 B, (D.C. Sup. Ct., filed May 25, 2018), is a personal injury case. Plaintiff alleges that she fell into manhole located on the sidewalk of 1532 Neal Street, N.E. Plaintiff claims that as a result of the fall she incurred substantial medical expenses and injuries that may be permanent in nature. Plaintiff demands \$5,000 in damages.

*PEPCO v. DC Water*, 2018 CA 007074 B (D.C. Sup. Ct., filed Oct. 4, 2018), is a property damage case. Plaintiff alleges that its vault and underground lines were damaged as a result of a sewer back up. Plaintiff alleges \$34,146.05 in damages.

*PEPCO v. DC Water*, 2018 CA 002194 B (D.C. Sup. Ct., filed Mar. 28, 2018), is a property damage case. Plaintiff alleges that its vault and underground lines were damaged as a result of DC Water failing to flush and clean spillage from its sewer lines at 1440 P Street, N.W., after a sewer main leak. Plaintiff alleges \$13,541 in damages.

*Plummer v. DC Water*, 2018 CA 004241 B (D.C. Sup. Ct., filed June 14, 2018), is a personal injury claim. Plaintiff alleges that she stepped on a manhole cover located on the sidewalk at or near 76 Forrester Street, NW. Plaintiff alleges that she sustained physical injuries and demands \$100,000 in damages.

*Poland v. DC Water*, 1:16-cv-2031 (TST) (D.D.C., filed Oct. 11, 2016), is an employment discrimination and retaliation claim. Plaintiff, a DC Water employee, alleges employment discrimination and retaliation from 2007-present. Plaintiff asserts claims for race discrimination (Count I), hostile work environment (Count II), and retaliation (Count III) in violation of the DCHRA. Plaintiff also asserts common law claims for negligent infliction of emotional distress (Count IV), intentional infliction of emotional distress (Count V) and a violation of 42 U.S. 1983 (Count VI). Claims arise out of disciplinary action taken against Plaintiff due to altercations with coworkers. Plaintiff demands \$50,000 in damages.

*Ragland v. DC Water*, 2017 CA 007803 B (D.C. Sup. Ct., filed Nov. 17, 2017), is a personal injury claim. Plaintiff alleges that she stepped on a water meter cover that gave way and she fell into the water meter hole located at or near 50th Place and Jay Street, N.E. Plaintiff claims that as a result of the fall she incurred substantial medical expenses and loss wages. Plaintiff demands \$600,000 in damages.

*Sescoe v. DC Water*, No. 14-358-P (CN); EEOC Charge No. 570-2013-01599 (July 3, 2013), is an employment discrimination (EEOC) case brought by a DC Water employee against DC Water in the DC Office of Human Rights alleging race discrimination by his (white, Hispanic) and retaliation for complaining about his performance evaluation by his supervisors. The DC Office of Human Rights found reasonable cause, disputed by DC Water. Conciliation failed and the matter has been certified for a de novo hearing before the DC Human Rights Commission. Plaintiff's last settlement demand was \$200,000.

*Shand v. DC Water*, 2018 CA 003188 B (D.C. Sup. Ct., filed May 9, 2018), is a personal injury claim. Plaintiff alleges that he stepped on an unsecured water meter cover at or near 926 9th Street, NE, and sustained serious bodily injury. Plaintiff demands \$50,000 in damages.

*State Farm Insurance Company v. DC Water*, 2017 SC3 003727 (D.C. Sup. Ct., filed Apr. 6, 2018) is a subrogation claim. Plaintiff's insurer is seeking reimbursement of monies paid to its insured property owner for damage allegedly at 1246 Delafield Place, N.E., and caused by a water main break that caused sewage to back up into the insured's home. Plaintiff is seeking \$9,517.05.

*State Farm Insurance Company v. DC Water*, 2018 CA 002481 C (D.C. Sup. Ct., filed Apr. 4, 2018) is a subrogation claim. Plaintiff insurer is seeking reimbursement of monies paid to its insured property owner for damage allegedly at 1250 Delafield Place, N.E., and caused by a water main break that caused sewage to back up into the insured's home. Plaintiff is seeking \$34,293.75.

*Volz v. DC Water*, 2018 CA 006954 B (D.C. Sup. Ct., filed Oct. 1, 2018), is a personal injury claim. Plaintiff alleges that while walking over a manhole cover located at 1740 13th Street, N.W., between Riggs Road and S Street, N.W., the cover tipped up causing him to suddenly fall into the manhole. Specifically, Plaintiff alleges that due to DC Water's negligence, he sustained serious and permanent injuries. Plaintiff demands \$300,000 in damages.

*Washington v. DC Water*, 2018 CA 007039 B (D.C. Sup. Ct., filed Oct. 3, 2018), is a personal injury claim. Plaintiff alleges that while walking on the sidewalk located at 1722 I Street, NW, Washington, DC, she sustained an injury when she stepped on a unsecured manhole cover. Specifically, Plaintiff alleges that due to DC Water's negligence, she sustained severe, painful and permanent injuries to her body when an unsecured manhole cover collapsed when she stepped on it. Plaintiff demands \$1,000,000 in damages.

*Watson v. DC Water*, No.1:16-cv-02033 (D. D.C., filed Oct. 19, 2016), is a retaliation claim. Plaintiff alleges employment discrimination under Title VII of 1964 Civil Rights Act and Retaliation in or around 2015, dates unspecified. Plaintiff claims he applied and was not hired for a job position in retaliation for participating in a class action settlement. Plaintiff made no monetary demand.

*Williams v. DC Water*, 2018 CA 006088 B (D.C. Sup. Ct., filed Aug. 24, 2018), is a personal injury claim. Plaintiff alleges that she sustained injury to all parts of her body, suffered and will suffer great pain of body and mind, when she stepped into an uncovered water meter in front of her residence at 4079 Grant Street, NE, Washington, D.C. Plaintiff demands \$74,000 in damages.

*Zelaya v. DC Water*, 17-CV-411 (D.C. Ct. of Appeals, filed Apr. 3, 2017), is a personal injury action brought by a construction foreman (Plaintiff/Appellant) employed by a District of Columbia Department of Transportation (DDOT) contractor, who was working on a DDOT roadway project near Riggs Road and South Dakota Ave, N.E., and received severe electrical burns and other injuries when a boom truck boom hit an overhead electrical cable on September 16, 2010. A DC Water Safety Inspector was on the project site when the incident occurred. Plaintiff/Appellant demands \$12 Million in damages.

37. Please list all **settlements** entered into by the agency or by the District on behalf of the agency in FY18 or FY19, to date, including any covered by D.C. Code § 2-402(a)(3), and provide the parties' names, the amount of the settlement, and if related to litigation, the case name and a brief description of the case. If unrelated to litigation, please describe the underlying issue or reason for the settlement (e.g. administrative complaint, etc.).

<b>Case/Case Number</b>	<b>Settlement Date</b>	<b>Settlement Amount</b>	<b>Reason for Settlement?</b>
<i>5039 Connecticut Avenue, LLC v. DC Water</i>	March 15, 2018	\$12,428.39	Plaintiff's account was overcharged and overpaid, and a refund was credit to the account. Plaintiff sought reimbursement. Facts made a verdict for DC Water unlikely.
<i>Hill v. DC Water, 2017 CA 000610 V</i>	April 11, 2018	\$6,500	Motor vehicle accident. Facts made a verdict for DC Water unlikely.
<i>Hall v. DC Water, 2016 CA 3869 B</i>	April 12, 2018	\$6,666	DC Water prevailed in the trial court. Cost-benefit analysis related to appeal was performed, which favored settling for minimum value relative to exposure in personal injury action.
<i>Pepco v. DC Water, 2017 CA 005559 B</i>	February 13, 2018	\$9,752	Cost-benefit analysis performed on the case, which favored settling for minimum value relative to exposure in utility strike.
<i>Ray v. DC Water, 2018 CA 1048</i>	July 31, 2018	\$85,000	Facts suggested possible liability to DC Water for vibration damages resulting from First Street Tunnel. Cost-benefit analysis favored settling for minimal value as compared to exposure.
<i>Montgomery v. DC Water, 2015 CA 008635; 2017 CA 00109 B</i>	August 31, 2018	\$150,000	Facts suggested possible liability to DC Water arising from claims of assault, negligent retention/supervision, race discrimination, and wrongful termination. Cost-benefit analysis favored settling for minimal value as compared to exposure.
<i>Henry v. DC Water, 2018 CA 000826 B</i>	January 16, 2019	\$1,000	Facts suggested likely verdict against DC Water as the result of not making a defective meter cover safe.
<i>Wesimantel v. DC Water, 2017 SC3 005812</i>	July 16, 2018	\$2,000	Facts suggested possible liability to DC Water for water damage resulting from water main break.

Case/Case Number	Settlement Date	Settlement Amount	Reason for Settlement?
			Cost-benefit analysis favored settling for minimal value as compared to exposure.

38. Please list any **administrative complaints or grievances** that the agency received in FY 2018 and FY 2019, to date, broken down by source. Please describe the process utilized to respond to any complaints and grievances received and any changes to agency policies or procedures that have resulted from complaints or grievances received. For any complaints or grievances that were resolved in FY 2018 or FY 2019, to date, describe the resolution. **Please See Attachment 12**

**D. PROGRAM-SPECIFIC QUESTIONS**

***Human Resources and Customer Service***

39. In its responses to the Committee’s 2018 performance oversight pre-hearing questions, DC Water reported that it had finalized a successor Master Agreement on Compensation with the unions; however, this contract would expire on October 1, 2019, with the negotiations for the next Master Agreement beginning in late 2018.

- a. What is the status of these negotiations?
- b. When do you anticipating finalizing the new Master Agreement, and how long will it be in effect? **The parties anticipate negotiations may take several months to complete. Duration of Agreement will be at least three years, as required by District Law.**

40. In the agency’s responses to the Committee’s 2018 pre-hearing questions, the agency noted that it would be pursuing an RFI for industry input on system-wide energy partnerships. Please provide the Committee with the status of that RFI, and any information on partnerships that DC Water has entered into in FY 2018 and FY 2019 to date, or plans to enter into in the future. **Staff released the Energy Partner RFI and received 11 responses. The RFI was designed to survey the market for firms that would be interested in helping prioritize the items on our Energy Opportunities Map, which shows a series of potential projects that can extract energy, savings, or revenue from assets controlled by DC Water. DC Water is seeking partners with access to capital and technical expertise in energy process optimization, to help implement these projects to generate revenue and improve sustainability. Staff reviewed the responses and met with those firms that best understood the goals of the RFI. From the information gathered with the RFI, staff is preparing an RFP for a renewable gas project for the digester gas at Blue Plains. This project has risen to prominence because of the economic benefits and will be the first product of the RFI. It is expected that the RFP will be advertised in the coming weeks. Outside of the RFI, staff started several innovative energy projects:**

Phase I of the Blue Plains solar project is underway, with design nearing completion. Phase I will generate approximately 4 MW of solar power for use at Blue Plains.

The sewer heat recovery system at our new headquarters building, HQO, began operation this past fall, pulling energy heat/BTUs out of the sewer for use as building heat. The system has the capacity to heat the entire building with green, renewable energy.

Staff registered three sources of renewable energy at Blue Plains. The first is the electricity generated from the turbines fueled by our digester gas. The second is the heat (BTUs) recovered from the turbines and used to heat up the thermal hydrolysis (pre-digestion for pathogen kill) process to 160 degrees C. The third is the cooling of solids prior to digestion by use of our cool effluent instead of using a fossil fuel energy for cooling. All three of these generate Tier 1 Renewable Energy Credits (RECs).

41. Please describe how DC Water has worked to increase its hiring of District residents in FY 2018.

- a. How many graduates of the DC Water Works program were hired by DC Water in FY 2018 and FY 2019, to date? How many graduates found other employment opportunities? What percentage of the total number of graduates does this amount to?

As part of DC Water’s Strategic Initiatives, the DC WaterWorks program was designed to encourage and support the development and employment of District and local residents as employees on DC Water construction and service projects. Between October 1, 2018 and September 30, 2019, ninety-nine (99) new DC Water contractor positions were filled. Of these, sixty-seven (67) were DC residents.

Included in this number were District residents who participated in the DC Water Skills Training programs. In FY 2018, DC Water conducted two different training programs as follows:

Training Program	Number of Participants	Number of DC Participants	Number of Graduates	*Number of Graduates Employed
<b>Completed Programs</b>				
➤ Commercial Driver’s License	13	13	11	10
➤ Green Infrastructure (3 cohorts)	46	46	21	18

Additionally, DC Water has three active training programs.

Training Program	Number of Participants	Number of DC Participants	Number Currently Enrolled
➤ Facilities Training Program	9	9	7
➤ Senior Community Service Employment Program	1	1	1

➤ Green Infrastructure (1 cohort)	15	15	11
-----------------------------------	----	----	----

Of the skills training programs, twenty-eight (28) of the thirty-two (32) graduates were employed either with DC Water contractors, government, non-profit or other private sector employers (87% placement rate). Employers who have hired skills training program graduates: American Contracting and Environmental Services; AKRF; Allied Universal; Anchor construction; Aves Construction; Bulldog Distribution Group; the Centerra Group; Constituent services Worldwide; DC Lines; GE Frisco; Flippo; Metro Paving; Mobile Dredging; Prince Construction; REI Drayco; and WMATA.

- What percentage of DC Water contracts were awarded to certified business enterprises in FY 2018?

Pursuant to its Procurement Regulations, for projects not funded by federal grants, DC Water employs every reasonable effort to ensure that certified small businesses principally located in the DC Water User Jurisdiction (the District of Columbia, Prince George’s County, Montgomery County, Fairfax County and Loudoun County) are afforded full and equitable opportunities to participate as vendors, prime contractors, subcontractors and joint ventures for goods and services, and construction contracts funded by the District of Columbia and the user jurisdictions.

In FY 18, DC Water procured \$128.4M worth of goods and services. As part of its commitment to procuring goods and services with certified small and women owned businesses, DC Water awarded \$24.7M with certified Local Small Businesses (34% of eligible dollars), and additional \$13.5M with certified Minority Business Enterprises (30% of eligible dollars), and \$2.8M with Certified Women Business Enterprises (6% of eligible dollars).

In Fiscal Year 2018, DC Water awarded 53 new non-federally funded goods and services awards totaling \$53.51M. Of this, certified local small businesses were awarded \$21.68 (35%) in contracts and subcontracts, including \$12M in awards specifically to Certified Business Enterprises (19%). This includes two projects awarded under the Green Infrastructure MOU which carries a 50% goal specifically for DSLBD identified Certified Business Enterprises. The total value of these projects was 8.04M, of which \$7.2M was awarded with Certified Business Enterprises (89%).

42. Please provide the Committee with information on any plans to integrate the new authority provided to the Office of the People’s Counsel in the DC Water Consumer Protection Amendment Act of 2018. DC Water has been in constant contact with the Office of People’s Counsel since the day the law was enacted. DC Water has also invited the OPC staff to participate in tours of DC Water facilities to learn more about the organization and a meeting between the GM of DC Water and the OPC Director is planned for February. Finally, DC Water has held internal meetings to discuss implementation and staffing.

43. Please provide an accounting of the final costs for the new DC Water Administrative Headquarters Building. Did the project stay within its \$55 million budget for hard construction costs, as reported in the agency's responses to the Committee's 2017 pre-hearing questions? **In last year's answer to this question we informed the Committee that the hard construction costs would be \$60 million. We are within that number. The actual and projected hard construction costs for the headquarters building is \$57.8 million, including contingency.**

**HQO - Cost Through December 31, 2018**

	Approved	Expended/Committed Through December
31, 2018		
BUDGET Design	\$ 4,149,620	\$
4,149,620		
Building Construction	\$55,392,311	\$57,820,411*
FF&E (Furniture/Equipment)	\$ 5,500,000	\$ 5,620,000*
<b>TOTAL AMOUNT OF GMP CONTRACT</b>	<b>\$65,041,931</b>	
\$67,590,031		
Owner Contingency	\$ 3,240,000*

691,900		
<b>Total Project With Remaining Contingency</b>		<b>\$75,641,931</b>

***Clean Rivers Project***

44. Please provide an update on the progress of the Clean Rivers Project, including:
- For each component of the Project, including Tunnel development and Green Infrastructure installation:
    - A description.
    - A status report, including a timeframe for completion.
    - The amount of capital funds spent and available.
    - Planned remaining spending each year until completion in 2032.
    - Annual maintenance costs for any completed projects.
    - The expected maintenance costs per year once the projects are complete.

The purpose of the DC Clean Rivers Project is to control combined sewer overflows (CSOs) to District waters. In the older sections of the District, there is a single combined sewer in the street which handles both stormwater runoff and sanitary sewage from homes and businesses. During dry weather, sewage is conveyed to DC Water's Advanced Wastewater Treatment Plant at Blue Plains (Blue Plains), located in the southwestern part of the District on the east bank of the

Potomac River. When the capacity of a combined sewer is exceeded during storms, the excess flow, which is a mixture of sewage and stormwater runoff, is discharged to the Anacostia and Potomac Rivers, Rock Creek, and tributary waters. This excess flow is called combined sewer overflow (CSO) and there are 47 potentially active CSO outfalls in the District's combined sewer system.

The Clean Rivers Project consists of deep tunnels, targeted sewer separation and green infrastructure (GI) designed to reduce CSO discharges to District waters. After completion, the volume of CSO discharges in an average year of rainfall will be reduced by 96% system wide. There will be a 98 percent reduction in CSO discharges to the Anacostia; a 96 percent reduction of discharges to the Potomac; and a 90% reduction in discharges to Rock Creek. US Environmental Protection Agency (EPA) and the District Department of the Environment have determined that the plan will bring CSOs into compliance with the District's water quality standards, subject to post construction monitoring.

The project is required by a federal consent decree signed by US EPA, the Department of Justice, the District and DC Water. The consent decree dictates a schedule for implementation and includes many interim milestones. Stipulated penalties can be assessed for failure to meet decree deadlines. The project is on schedule to meet the consent decree deadlines to place projects in operation to control CSOs. The major milestones in the consent decree are as follows:

- March 23, 2018 - The Anacostia River Tunnel system from Blue Plains to RFK Stadium including a new wet weather treatment system at Blue Plains is required to be placed in operation by this date. The system was placed online ahead of the consent decree deadline by three days (March 20, 2018).
- March 23, 2025 - The Northeast Boundary Tunnel which runs from RFK Stadium to 6th and R St NW is required to be placed in operation by this date. The project has been accelerated to provide early flood relief to the Northeast Boundary area including Bloomingdale and LeDroit Park, and is scheduled to be placed in operation in 2023.
- March 23, 2030 - The Potomac River Tunnel which addresses the major Potomac River CSOs is required to be placed in operation by this date.

The consent decree was amended in 2016 to include green infrastructure for the Potomac River and Rock Creek and to extend the time required to implement the projects from 2025 to 2030. The modification requires DC Water to construct initial green infrastructure projects in the Potomac and Rock Creek sewersheds and to evaluate these projects to determine their practicability as follows:

- If green infrastructure is determined to be practicable for the Potomac, then it will be used to control CSO 027, 028 and 029 and the Potomac Tunnel may be reduced in volume so as to not address those CSOs with the tunnel. If green infrastructure is determined to be impracticable for the Potomac, then the tunnel will be extended to control CSO 027, 028 and 029.
- For Rock Creek, if green infrastructure is determined to be practicable, then it will be used to control CSO 049; otherwise a 9.5-million-gallon storage facility will be constructed to control that CSO.

- Regardless of whether green or gray infrastructure (tunnels and appurtenances) is used, all projects for the Potomac River and Rock Creek must be placed in operation by March 23, 2030.

Table 1, below, includes a description of each component of the Clean Rivers Project, the amount of capital funds available, and a status report, including a timeframe for completion.

The following is a summary of operation and maintenance costs per year after all the projects are complete in 2030:

- For the gray infrastructure projects (tunnels and related appurtenances), DC Water estimates an approximate cost of \$1.35 million per year (year 2019 dollars). Please note: the wet weather treatment and pump station facilities have just been constructed and the contractor is currently paying for operation costs at this time. These costs will be refined as the facilities are taken over by DCWater.
- For the green infrastructure, the purpose of the practicability assessment is to develop capital, operating and maintenance, and performance parameters for the facilities. The reason for the practicability assessment is because reliable and extensive cost and performance data for large scale green infrastructure, particularly in the District of Columbia, does not exist. As a result, the consent decree provides for the practicability assessment to generate this data to make informed decision going forward. The first GI projects are under construction and the practicability assessments will be completed in 2020. Estimates of operation and maintenance costs will be available at that time. Please see Attachment P.

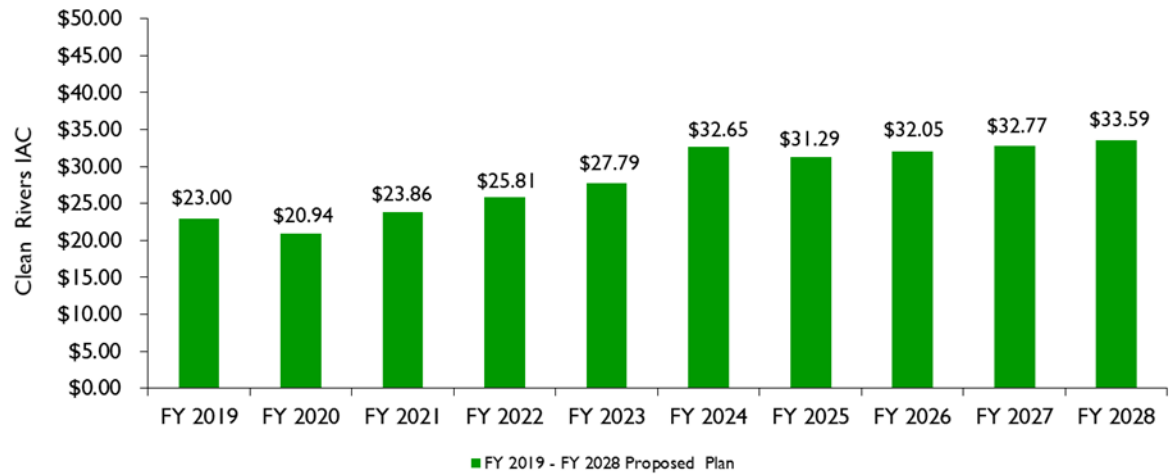

45. Please update the Committee on how DC Water is funding the Clean Rivers Project, including what bonds, loans, grants, and other funding are being drawn from to pay for the project each year. How much of ratepayers' CRIACs are going towards debt service and interest vs. directly into the project?

The Clean Rivers project is funded by the following sources (Green Bonds):

- Series 2014A = \$350 million
  - Series 2015A = \$100 million
  - Series 2017A = \$100 million
  - Series 2018A = \$100 million
  - Series 2016B (Environmental Impact Bond) = \$25 million
  - Prior to 2013, Clean Rivers was funded as part of debt issued for capital projects.
- (1) The project is also funded by Federal CSO Grants. In FY2018 DC Water received \$8.5 million. However, it is not certain if DC Water will receive any Federal CSO Grants funding in the future.
  - (2) As per the Inter-municipal Agreement (IMA), the Wholesale customers contribute approximately 7.1 percent of eligible project costs.
  - (3) Approximately 70% of ratepayers' CRIACs are going toward debt service and interest and 30% directly to the project.

46. Please provide the projected CRIAC per ERU that ratepayers will be charged in FY 2020 and future fiscal years for which DC Water has projections.

- a. Please describe DC Water’s efforts in FY 2018 and FY 2019 to date to decrease these rising charges for ratepayers.
- b. DC Water has committed to review the method the agency uses to assess CRIC on users and whether other funds may be used to pay for those costs. Please provide an update of the status of that review.
- c. Does DC Water have any plans to revise its policy for calculating the CRIAC for horizontal condominiums?

The chart above shows the projected CRIAC charges for the proposed FY 2019-FY 2028 financial plan. Approximately 70% of the revenue from the CRIAC pays debt service costs and 30% is used as PAYGO for the project. To help ensure that the rate that DC Water charges is as accurate as possible, every three years DC Water undertakes cost of service study in order to charge actual cost of service for Clean Rivers Impervious Area Charge, and every year staff review actual and projected debt service costs.

DC Water has taken a number of additional actions over the years to reduce the CRIAC. DC Water has refinanced much of its old debt to achieve the lowest possible interest rates. We have a very high credit rating, and that has helped us achieve some of the lowest costs of financing. Also the consent decree was renegotiated, allowing more time to complete the project and this has reduced what would have been a higher burden on our ratepayers.

The projected rates in the chart above reflect a shift of 18% of the Clean Rivers costs to the sewer volumetric rate. This is the result of work that we have done with the Stakeholder Alliance group. Formed in August 2018, the Stakeholder Alliance was conceived to:

- Provide independent advice and a diversity of viewpoints to DC Water Management on a variety of programs and policies
- Increase customer education by providing DC Water with new opportunities for outreach
- Propose to the Authority ways to continue effective and efficient long-term public involvement with improved communication tools

The Stakeholder Alliance has formed three subcommittees; 1) Customer Service; 2) Finance and Operations; and 3) Infrastructure to enable a more thorough review of specific issues.

During the meetings, the Stakeholder Alliance provided DC Water with concerns primarily about the Clean Rivers Impervious Area Charge (CRIAC). Many of the participants indicated that the fees were too high. Suggestions from the group ranged from renegotiating the consent decree, charging each property based on the actual amount of runoff, and charging condominiums more than other customers.

Together the DC Water team explored these options with the Stakeholder Alliance, with an eye towards what DC Water could do in its FY2020 budget cycle. One idea that was of much interest to the Stakeholder Alliance was to remove the exemption for public roads and sidewalks.

As a result of the discussions with the Stakeholder Alliance, the proposed budget moves 18% of the FY20 Clean Rivers costs from the Clean Rivers Impervious Area Charge to the sewer volumetric rate. There are a number of reasons for this recommendation:

- DC Water must construct the \$2.7 billion Clean Rivers program
- The annual revenue requirement is about \$120 million in FY2020, and it will continue to grow until 2030 when the last expenditures are made on that program
- Expenses will not end until all of the debt is extinguished, some of the debt will be repaid over a period of up to 100 years.
- Between 18 and 37 percent of the volumes that enter the Clean Rivers tunnels are from sanitary flows
- Much of the concern about the CRIAC comes from organizations where there is a large disparity between water usage and impervious area (cemeteries, for example, or religious institutions with a lot of impervious area and lower water consumption)
- Shifting some of the Clean Rivers cost recovery to the volumetric rate gives customers more control over the amount that they pay towards the project.

DC Water is, with the Board of Directors, exploring two methodologies for the shift, one method would shift 18% of the costs to the volumetric rate and the other 37%. The 18% is based on modeling of pollutant loads and the other is based on modeling of wastewater flows.

In the tables below, we have shown the impact that the two methodologies would have on sample customers. In both scenarios the average household customer would pay about the same. However, customers with little volumetric use and large impervious area would pay less.

**Alternative 1: 18% of CRIAC Shift to Sewer Volumetric:**

Monthly	Average Household	Average Multi-Family	Sample Commercial	Sample Cemetery	Sample Church (High Con)	Sample Church (Low Con)
Monthly CCF	6.2	92.6	4,478	4.0	876	9.42
ERU	1	6.3	52.2	115.1	128.6	59.2
FY2020 Monthly Total Bill	\$114	\$1,373	\$62,315	\$3,314	\$15,812	\$1,887
FY 2020 Estimated Total Bill with 18% IAC recovered through Volumetric Charge	\$114	\$1,413	\$65,431	\$2,783	\$15,873	\$1,619

Alternative 2: 37% of CRIAC Shift to Sewer Volumetric:

Monthly	Average Household	Average Multi-Family	Sample Commercial	Sample Cemetery	Sample Church (High Con)	Sample Church (Low Con)
Monthly CCF	6.2	92.6	4,478	4.0	876	9.42
ERU	1	6.3	52.2	115.1	128.6	59.2
FY2020 Monthly Total Bill	\$114	\$1,373	\$62,315	\$3,314	\$15,812	\$1,887
FY 2020 Estimated Total Bill with 37% IAC recovered through Volumetric Charge	\$114	\$1,454	\$68,671	\$2,228	\$15,932	\$1,340

The Stakeholder Alliance also voiced concern about the 4% CRIAC credit provided for Stormwater Best Management Practices. DC Water is proposing to increase the Clean Rivers Impervious Surface Area Charge (CRIAC) Incentive Discount Program maximum credit from 4% to 20% for Stormwater Best Management Practices (BMP) for FY 2020.

On February 7th, DC Water management updated the Board of Directors during a Budget Workshop on the shifting cost from the CRIAC to sewer volumetric rate. Further detail discussion on the shifting cost will take place during the DC Retail Water and Sewer Rates Committee meeting scheduled on February 28th.

**Water Rates**

47. Please provide an update on DC Water’s Customer Affordability Programs.
  - How many customers did the Customer Assistance Program assist and how much money did the program give out in FY 2017, FY 2018, and FY 2019?
  - How many customers received the 100% credit for the Water System Replacement Fee in FY 2018 and FY 2019, to date?

- How many customers did the SPLASH program assist and how much money did the program give out in FY 2017, FY 2018, and FY 2019, to date?
- Has DC Water created any new programs to help low-income consumers pay their water bills and prevent disconnection in FY 2018 or FY 2019, to date? If so, please describe.

□ In FY 2017, CAP assisted approximately 4,244 customers and provided \$1,135,297.

□ In FY 2018, CAP assisted approximately 4,324 customers and provided \$1,188,574

□ From October 2018 to December 2018 (FY2019), CAP assisted 3,281 customers and provided \$95,775 as of December 2018.

□ In FY 2018, 4,324 customers received WSRF credits.

□ From October 2018 to December 2018 (FY 2019), 3,281 customers received WSRF credits

□ In FY 2017, SPLASH assisted 331 households and provided \$103,283 in contributions to low-income customers.

□ In FY 2018, SPLASH assisted 212 households and provided \$104,361 in contributions to low-income customers.

□ From October 2018 to December 2018 (FY 2019), SPLASH assisted 85 households and provided \$22,356 in contributions to low-income customers.

The SPLASH program offers assistance to families in need so that they get back on their feet. The program is administered by the Greater Washington Urban League. Every dollar received by DC Water is distributed to eligible customers.

The SPLASH program was implemented in FY 2001 to help families in sudden need avoid termination of critical water and sewer services. The program is administered by the Greater Washington Urban League. Every dollar received by DC Water is distributed to eligible customers.

For low-income CAP customers, the CAP discount was expanded from May 1, 2017 to include a 50% discount on the Clean Rivers Impervious Surface Area Charge (CRIAC).

On July 5, 2018, the DC Water Board directed DC Water to propose changes to the Customer Assistance Program (CAP).

On December 6, 2018, the DC Water Board approved resolution #18-80 to expand the Customer Assistance Program (CAP) to establish rules for DC Water’s CAP2 Program, of which expenditures will not exceed \$6 million dollars.

DC Water – CAP2 (Residential Customers) Eligible single-family or individually metered residential customers shall receive a discount of 3 Ccf on their billed water and sewer service charges and 50% on their billed CRIAC.

**CAP2**

DC Water: \$5,500,000.00; and

DC Water: \$500,000.00 Admin; and

DOEE: \$1,200,000.00

As of January 2019, 40 enrollments have been processed

DOEE - CAP3 (Residential Customers) Eligible single-family or individually-metered Residential customers shall receive CAP3 benefits as defined by DOEE, subject to the availability of District funds, and conformance with applicable law and regulations.

**CAP3**

DOEE: \$1,300,000.00

As of January 2019, 6 enrollments have been processed

DOEE – CRIAC Non-profit Relief Program (Non-Residential Customers) Eligible non-residential customers shall receive CRIAC Nonprofit Relief Program benefits as defined by DOEE, subject to the availability of District funds.

**CRIAC Nonprofit Relief Program**

DOEE: \$3,580,000.00

As of January 2019, 44 enrollments have been processed

48. How much revenue was raised by Blue Drop in FY 2017, FY 2018, and FY 2019, to date. How were those funds spent in FY 2018 and FY 2019, to date?
- i. How much revenue does DC Water project Blue Drop to raise in FY 2019 and FY 2020?

	<b>FY17</b>	<b>FY18</b>	<b>FY19 (as of 12/31/18)</b>		<b>FY19</b>	<b>FY2020</b>
<b>Revenue</b>	\$153,554	\$405,494	\$142,518	<b>Projected Revenue</b>	\$1,005,000	\$1,460,000
<b>Expenses</b>	\$174,410	\$432,506	\$205,492			
Personnel	\$61,043	\$233,622	\$157,547			
Consulting & Professional Fees	\$76,672	\$73,661	\$10,808			

Office Expense	\$16,237	\$41,082	\$2,884			
Occupancy	\$1,568	\$5,075	\$14,461			
Travel	\$5,405	\$33,343	\$11,864			
Communications & Promotional	\$13,485	\$45,723	\$7,928			
<b>Net Profit/Loss</b>	-\$20,856	-\$27,012	-\$62,974			

49. Does DC Water have, or is it planning for, other initiatives to raise revenue?

In FY 2017, DC Water engaged consultants to conduct a Water and Wastewater Miscellaneous Fee Cost of Service Study (COS) to develop sustainable miscellaneous fees for its water and wastewater enterprise. The impetus for this update was the escalating costs for providing service for ancillary or non-user charge related customer activities. DC Water had not undertaken a comprehensive study of miscellaneous fees since 2011, so many fees were not been updated in several years.

The consultants performed a cost of service analysis for two newly fees; (a) Fats, Oil, Grease (FOG) and (b) Cross Connection/Backflow Preventer Fees (CC/BFP). Both the FOG and CC/BFP are new fees to pay for expanded enforcement. Combined, these fees will generate roughly \$1.5 million annually to cover program costs, including inspection services that are already provided by DC Water.

FOG – relates to the discharge of fat, oil and/or grease into the sewer system. The fee represents the cost to enforce installation and maintenance of FOG abatement systems and monitor/check establishments that have registered grease traps that periodically discharge FOG effluent. These masses of fat impede sewer flow and increase maintenance costs for DC Water.

CC/BFP – the CC/BFP fee allows for enhanced inspection of assemblies that prevent polluted water from accidentally siphoning backward into the distribution system thus contaminating clean, or potable, water. Currently, DC Water inspects backflow preventers, but new fees would allow them to increase frequency of those inspections. Services, like restaurants, laundromats, etc. utilize these devices.

DC Water charges the customers based on the cost of service provided. The current Engineering and Permitting Fees are based on the cost of service study conducted in 2011, which are much less than the current costs to provide the services. In 2018, costs of service study were conducted to update and realign the Engineering and Permitting Fees to the actual cost incurred. These fees will become effective June 3, 2019 and anticipated to generate \$2 million per year.

- DC Water innovations and intellectual property
- Excess facility capacity

- Leasing of tower space for cell phone antennas
- Event rentals at the new DC Water headquarters

50. When will DC Water schedule public meetings in 2019 to discuss rate increases? Where can residents learn about the dates and locations of these meetings?

DC Water currently holds budget town hall meetings every two years during the rate setting process. If any adjustments are proposed for FY2020, the Board of Directors will hold a public hearing and the location, date and time will be publicized.

### ***Infrastructure and Drinking Water Improvements***

51. Please describe the status of DC Water’s Thermal Hydrolysis and Anaerobic Digester Project, including:

- i. The amount of energy the digesters are currently generating, the percentage of DC Water’s energy use now generated by the digesters, and any plans to expand the Digester Project to create more energy in the future. **The digesters produced 68,000 MWhr of energy in CY2018, from an average of 7.75 MW of gross power production.**
- ii. The amount of revenue generated in FY 2018 and FY 2019, to date, by the sale of Class A biosolids produced by the digesters.
- iii. **Bloom sales accounted for revenue in the amounts of \$40,690 in FY18 and \$15,007 so far in FY19, and savings of \$278,053 in FY18 and \$71,949 so far in FY19. We derive savings from avoidance of contractual fees to haul the biosolids to storage or reuse sites in VA. Marketing the biosolids sees some revenue but substantial savings.**

	<b>FY18</b>	<b>FY19 – to 1/31</b>
Revenue	\$40,689.23	\$15,006.70
Savings	\$278,053.01	\$71,949.29

- iv. How, if at all, DC Water is working with the Department of Public Works to expand the aerobic digester operations to include organic waste products.

DC Water has entertained several inquiries for use of its excess digester capacity. One such request came from DC DPW for source separated food waste. In order to consider all these potential additional sources of co-digestion feedstocks, DC Water is examining the feasibility of adding additional treatment capacity at Blue Plains.

During the past year, DC Water worked with DC DPW on a co-digestion feasibility study, looking at the operational and economic feasibility of feeding a pre-processed food-waste slurry into the Blue Plains digesters. The study is nearing finalization (as of this writing). While DC Water agrees that the receipt of food-waste is technically

and economically feasible, there are several issues we need to consider prior to committing capacity to DPW. The issues are as follows:

1. Blue Plains is a regional facility and therefore we must ensure that our service area partners agree with any allocation of the shared capacity. The capital expense for the facility was shared proportionally (by flow volume) with our regional partners, and there may be concerns about losing that treatment capacity. Any agreement would include an estimated timeline defining the end of food-waste receipt.
2. DC DPW should be aware that DC Water has several other entities requesting the capacity in the digesters, and we will determine which of the options is best for Blue Plains operations and economics. The feasibility of the food-waste co-digestion study does not guarantee that the digester capacity will be available for DPW.
3. Operational uncertainty would not allow for immediate introduction of food-waste, and while we believe strongly these issues will be solved by the time DC DPW rolls out the food-waste collection program (2023?), DC Water would require a gradual introduction of food-waste into the digesters, building up to the quantities estimated in the study.
4. EPA has declared that addition of food to digesters in any quantity changes the renewable fuel designation (RIN) from D3 to D5, cutting their value by 90%. Since we are considering a switch to pipeline injection and sale of the gas as a renewable fuel, we would not commit to taking food-waste until such time that we can negotiate a change with EPA. This EPA interpretation was just recently rendered this past fall. We have met once with EPA and will continue to work on this issue.
5. The nitrogen that comes in with the food-waste will need to be included in the DC allocation, which may reduce the amount of N that can come through the sewer pipes.

52. Please describe the status of the fire hydrant inspection and maintenance program, including:

- The current number of known mechanically defective hydrants in the District. Is DC Water currently meeting its goal of having less than 1% of fire hydrants out of service? As of February 1, 2019, there are 9995 Public Fire Hydrants of which 9948 are in service; where 47 are out of service (20 defective requiring repair/replacement and 27 out of service due to inaccessibility or temporary construction work)
- Yes, as of February 1, 2019 the percentage of out of service fire hydrants requiring repair or replacement is less than 1%.
- The number of hydrants replaced in the District in FY 2018. 253 hydrants were replaced by DCWATER crews in FY 2018 in conjunction with our hydrant replacement program. All 253 hydrant replacements under this program were installed by DC Water.

53. Please provide a status update on all ongoing Sewer Rehabilitation projects, including:

- a. A description.
- b. The amount of capital funds allotted.
- c. A status report, including a timeframe for completion.
- d. Planned remaining spending on each of these projects.

- e. A list of projects to begin in FY 2019 and FY 2020, including expected costs and completion dates. **Please see Attachment 7**

54. Please describe DC Water's progress with water system upgrades during FY 2018 and FY 2019, to date.

- Please provide a chart of how many small and large water mains were replaced or rehabilitated in FY 2018, and the projected number to be replaced or rehabilitated in FY 2019.
- What drinking water pumping stations were upgraded in FY 2018 and which will be upgraded in FY 2019?

DC Water continues to make progress upgrading the water distribution system. Great progress has been made the upgrading vertical facilities, which includes four pumping stations; five underground reservoirs; and four elevated storage tanks.

- All four water pumping stations have recently undergone major renovations: completed in FY03 (Bryant Street); FY09 (Anacostia); FY15 (16th & Alaska); and FY18 (Fort Reno).
- Fort Reno is the only Pump Station that completed upgrades in FY2018 and no capital construction is planned in FY19.
- Four of the five underground reservoirs have had major upgrades completed since 2011.
- In FY18, Brentwood reservoir completed construction of improvements following the sanitary survey by EPA. Construction at Soldiers Home reservoir is scheduled to start in late FY19.
- Also in FY19, minor capital repairs will be done at Ft Stanton No. 1.
- The four elevated storage tanks have not required major upgrades but have each completed minor improvement projects since 2012. Rehabilitation of Boulevard tank was completed in FY18. In FY19, Good Hope will be inspected, and rehabilitation work will be planned.
- Minor rehabilitation projects continue at all vertical facilities as identified through asset management condition assessments.

There has been progress made renewing the DC Water linear assets, 230 miles of large diameter transmission mains and 1070 miles of small diameter water mains; however, more work and funding in the near term is required to reach Asset Management goals:

- In FY18, detailed condition assessment was performed on 1.7 miles of high risk water mains.
- In FY18, 0.4 miles of large water main rehabilitation were completed.
- In FY18, 8.4 miles of small diameter water main were renewed, 6.9 miles replaced, and 1.5 miles cleaned and cement mortar lined.
- For FY19, there is on-going construction of 1.6 miles of large diameter water main rehabilitation.
- For FY19, there is on-going design of 1.8 miles of large main rehabilitation.
- For FY19, there is scheduled replacement for 1.5 miles of small diameter water mains.
- For FY19, there is on-going design for 30.8 miles of small diameter water main replacement jobs. There are is also another 5.5 miles of small diameter water main replacement jobs with design completed that is on-hold and has not progressed to construction due to budget limitations and other priorities.

It should be noted that DC Water's planned linear asset inspection and renewal programs have been significantly impacted by near term budget constraints and competing priorities over the last couple of years. This caused many projects to be deferred till FY21 and beyond.

55. Some buildings in the District may be able to benefit by obtaining energy from the methane associated with our sewer system. Is DC Water working with businesses and building owners to inform them about this potential benefit, and how they might access this energy source? **The sewer heat recovery system at our new headquarters building, HQO, began operations this past fall, pulling energy (heat/BTUs) out of the sewer for use as building heat. The system has the capacity to heat the entire building with green, renewable energy. This is not a capturing of the methane, but rather just the heat in the sewers. DC Water's carbon footprint model shows that there is methane in the sewers, but there are no plans yet to capture and make use of it. We have not considered capture technology since the concentrations are quite low.**
56. In its responses to the Committee's 2017 performance oversight questions, DC Water reported that it had experienced setbacks in replacing small diameter water mains in the system in FY 2016 and FY 2017, but projected that it would make up for this delay in FY 2018.
- i. Did DC Water make up for this delay during FY 2018?
  - ii. Is the agency on schedule to replace on average 1% of small diameter water mains each year over the next 3 fiscal years?

**The setbacks to achieving the 1% goal for small diameter water main renewal continued into FY18. DC Water has a backlog of projects in design and/or ready to bid for construction that could make the 1% goal for the coming years; however, we have had to defer these projects in favor of projects with higher priority. This has prohibited us from meeting the 1% goal in FY18 and FY19. See response to question #54.**

57. Please provide an update on the Pressure Reducing Valve projects.
- i. How many valves in each Ward have been replaced thus far and how many still need to be replaced? How many will be replaced in FY 2019? When does DC Water estimate that this project will be completed?

**There have been two Pressure Reducing Valve projects: one in the 4th High Reno zone (Ward 3 and a small portion of Ward 4), and the other is for Anacostia 2nd High zone (Ward 8). No other Pressure Reducing Valve projects are needed.**

#### **4th High Reno**

**The project is completed. There were 747 eligible customers, and 427 customers participated in the free PRV program, for a 57% participation rate.**

#### **Anacostia 2nd High**

**The project is nearing completion, with only final follow-up appointments being scheduled. There were 1712 eligible customers, and 1,197 customers participated in the free PRV program, for a 70% participation rate.**

58. Please provide an update on the Water Meter Rehabilitation Project. How many water meters has DC Water replaced, to date, and how many more need to be replaced? When does DC Water project that this project will be completed?

The Water Meter Rehabilitation Program was initiated to address approximately 88,000 meter replacements throughout the district for mostly residential and some smaller multi-unit buildings. The first replacement was completed in 2nd quarter FY2017 and by year end close FY2018, DC Water's contractor completed 79,500 meter/MTU installations, which increased the overall AMR transmission rate to 87.7%. The program encouraged cooperation with multiple Departments to support the contractor in addressing the known but challenging installations. Key achievements for 2018 include all costs remained within the approved budget; the contractor exceeded the goal of 60% or more inside appointments and maintained a low amount of potential risk management claims. The program will have a second phase to address more of the challenging locations with a goal to attempt to complete in 2019.

- i. In FY 2018 and FY 2019 to date, how many billing inquiries has DC Water received associated with the meter exchange, and how many of those have led to DC Water adjusting a customer's bill? Reporting confirms 935 cumulative customer inquiries received as of 01/22/2019, of which 678 are billing related covering mostly the request for customer appointments due to the meter location.
- ii. In FY 2018 and FY 2019 to date, how many District residents have been charged retroactively to correct calculation errors by the old water meters? How much, on average, have these residents been charged? Reporting for secondary billing adjustments covers both AMR and Non-AMR accounts and totals in FY 2018 there was 1,667 accounts for \$132,125 and FY 2019 was 12 accounts for \$54,450.

59. Please provide an update on lead service line replacement in the District, including:

- i. How many public lead service lines were replaced in FY 2018 and FY 2019, to date? Of these, how many were partial lead service line replacements (replacements of only the public side, not the private side)? FY 2018 – 506 public-side replacements
- ii. Of these 506 replacements, 201 were “partial” (i.e., ONLY the public-side service line was replaced)
- iii. Of the 201 “partial” LSRs, field crews connected to a “non-lead” (i.e., brass, copper, etc.) pipe on the private-side at 73 premises. DC Water considers these 73 premises to have full non-lead service lines.
- iv. FY 2019 – 123 public-side replacements (reported through 01.31.2019)
- v. Of these 123 replacements, 39 were “partial” (i.e., ONLY the public-side service line was replaced)
- vi. Of the 39 “partial” LSRs, field crews connected to a “non-lead” (i.e., brass, copper, etc.) pipe on the private-side at 19 premises. DC Water considers these 19 premises to have full non-lead service lines.

- vii. How many District residents replaced their private lead service lines in FY 2018 and FY 2019, to date? Of those, how many were replaced while DC Water was replacing the public side of the water mains, and how many were independent projects? How much did these replacements cost, on average? **FY 2018 – 317 private-side replacements that DC Water participated in the work; and 3 private-side replacements that were conducted and reported by the homeowner/contractor.**
- viii. **Of the 317 replacements in which DC Water participated:**
  - ix. **281 were independent projects (i.e., DC Water’s Voluntary Full Lead Service Line Replacement (VFR) Program or part of a DWS ‘Emergency Repair’)**
  - x. **36 were replaced while DC Water was replacing the public-side of the water main**
  - xi. **FY 2019 –85 private-side replacements (reported through 01.31.2019)**
  - xii. **Of these 85 replacements:**
  - xiii. **All (85) were independent projects (I.e., DC Water’s VFR Program or part of a DWS ‘Emergency Repair’)**
  - xiv. **We estimate the average cost to be between \$2,000 and \$2,500 for the private portion of the replacement through the VFR program. DC Water incurs mobilization and permitting costs for the entire project, therefore we expect the average cost of replacement for a project that does not include the public portion to be higher. For the water main replacement project private-portion of the LSR, the average to the homeowner was \$1,052.**
- xv. How many remaining public lead service lines exist in the District? How many total public lead service lines have been replaced? When does DC Water estimate that all public lead service lines will be replaced? **As of February 5, 2018, DC Water’s service line data has 11,106 public lead service lines in the District. There are 14,583 service lines listed as unknown. For planning purposes, DC Water assumes half the unknowns are lead, bringing the total estimate to 18,398. Through January 31, 2019, there have been 21,391 public-side lead service replacements in the District. If 500 public-side lead service lines are replaced per year, it would take 36.8 years to replace the estimated 18,398 lead services (includes services with data showing lead pipe and those without pipe material data).**

60. Please describe the status of DC Water’s plan to install solar panels over its roofs, tanks, and on other property. **Solar is underway, with Phase I in design and planning. The work was awarded to Amaresco – a big energy and solar company with a national presence. Phase I is buildings and parking lots, and will get us 4.5 MW. Phase II is over the settling tanks, and won’t start for another year. That will likely yield about 10 MW. See Attachment XX. Separately, DC Water is also pursuing a solar array off Brentwood Reservoir. In December 2018 DC Water signed a Development Agreement with Urban Ingenuity / National Housing Trust (NHT) to explore the development and eventual land**

lease of the Brentwood Reservoir for a 1-1.5MW solar farm. This Agreement allows DC Water to continue exploring the development of solar capacity at the Brentwood Reservoir just across from Gallaudet University – which would provide direct revenue to DC Water to offset operations but also position DC Water as a champion for low-income residents by supporting the capacity of the DC Community Solar for All program.

61. Please describe DC Water’s progress in implementing the Water Quality Assurance Amendment Act of 2012. DC Water conducted the Environmental Protection Agency’s (EPA) Unregulated Contaminant Monitoring Rule (UCMR) required sample collection and testing of the water in the distribution, beginning February, 2018 and ending November, 2018. The data are currently under review by EPA. Once approved, DC Water will post the data to its website and send a report to the Mayor.
62. In the agency’s answers to the Committee’s FY 2018 performance oversight questions, DC Water stated that a list of potential members for the Water Quality Advisory Panel would soon be finalized and submitted to the Mayor.
  - Has DC Water sent this list of potential members to the Mayor? If so, when was this list sent? If not, please explain the cause of the delay.
  - When does the agency anticipate members of the Water Quality Advisory Panel to be appointed?

DC Water submitted a list of candidates to the mayor in March 2018. We are hopeful that the executive proceeds with this process ASAP.

## **DC Water Organizational Memberships**

### **American Water Works Association (AWWA)**

**Annual Cost: \$12,052**

**Mission:** AWWA is the authoritative resource on safe water, with more than 60,000 members worldwide sharing knowledge on water resource development, water and wastewater treatment technology, water storage and distribution, and utility management and operations. AWWA provides knowledge, information and advocacy to improve the quality and supply of water in North America and beyond and advances public health, safety and welfare by uniting the efforts of the full spectrum of the water community.

**Benefits:** Provides technical support, research on relevant issues and advocacy for waterworks issues. Discounted training and certification opportunities, public affairs campaigns in support of utility issues, subscription to three publications, local section membership, online research library access, standards manuals, etc.

### **National Association of Clean Water Agencies (NACWA)**

**Annual Cost: \$26,220**

**Mission:** To lead the nation's publicly owned wastewater management agencies in the development and implementation of scientifically based, technically sound and cost-effective environmental programs for protecting public and ecosystem health.”

**Benefits:** Website access, regulatory alerts, weekly newsletter, conferences, advocacy on policy issues, potential project funding, technical committee participation.

### **Association of Metropolitan Water Agencies (AMWA)**

**Annual Cost: \$14,199**

**Mission:** AMWA is the nation's only policy-making organization solely for metropolitan drinking water suppliers. The association was formed in 1981 by a group of general managers of metropolitan water systems who wanted to ensure that the issues of large publicly owned water suppliers would be represented in Washington, D.C. Member representatives to AMWA are the general managers and CEOs of these large water systems. The Association represents the interests of these water systems by working with Congress and the federal agencies to ensure safe and cost-effective federal drinking water laws and regulations that protect public health. In the realm of utility management, AMWA focuses on competitiveness issues, providing programs, publications and services to help water suppliers be more effective and efficient.”

**Benefits:** Networking, advocacy, resources for water authority managers

### **Water Environment Federation**

**Annual Cost: \$13,482**

**Mission:** The Water Environment Federation is a not-for-profit association that provides technical education and training for thousands of water quality professionals who clean water and return it safely to the environment.

**Benefits:** Newsletter subscriptions, participation in technical committees, regulatory updates, conferences and manuals, job bank access.

### **DC Chamber of Commerce**

**Annual Cost: \$7,340**

**Mission:** The DC Chamber of Commerce promotes business development within the District and serves as a leading voice for business issues.

**Benefits:** Advocacy, committees, seminars, training, etc.

### **Maryland-District of Columbia Utilities Association**

**Annual Cost: \$1,200**

**Mission:** The Maryland-District of Columbia Utilities Association promotes and develops the utility industry for the common interest of our customers, our members, and the general public. The association includes representatives from the region's electric, gas, telecommunications, and sanitary utilities in the region.

**Benefits:** Provides a forum for the exchange of ideas and information which increases the effectiveness of utility services and provides opportunities outside of the formal hearing process for member companies and regulatory bodies to discuss areas of mutual interest

### **US Water Alliance**

**Annual Cost: \$35,000**

**Mission:** The US Water Alliance believes that all water has value and must be managed in a sustainable and inclusive manner to build strong economies, vibrant communities, and healthy environments. An approach to water stewardship that is innovative, inclusive, and integrated. As a member-supported national nonprofit organization, the Alliance educates the nation about the true value of water and proactively advances policies and programs that manage water resources to advance a better quality of life for everyone.

**Benefits:** National dialogues, collaborative platforms for knowledge building and peer exchange

### **Metropolitan Washington Council of Governments (MWCOG)**

**Annual Cost: \$10,825**

**Mission:** MWCOG is an independent, nonprofit association where area leaders address regional issues affecting the District of Columbia, the suburban Maryland and northern Virginia. MWCOG comprises 22 local governments in the Washington metropolitan area, as well as area members of the Maryland and Virginia state legislatures, the U.S. Senate, and the U.S. House of Representatives.

**Benefits:** A wide range of networking on policy, technical, and advisory committees, partnerships, and programs advancing MWCOG's regional work

### **District of Columbia Building Industry Association (DCBIA)**

**Annual Cost: \$1,245**

**Mission:** With 500 member companies representing owners, developers, general contractors, architects and engineers, lenders, attorneys, brokers, title companies, utility companies, community development organizations and other industry members representing all facets of real estate development, DCBIA's vision is to help make Washington, DC a vibrant city that is

meeting significant challenges to be a livable, competitive and thriving community for all. Their mission is to lead (be the voice of the real estate development community); build (to enhance the capability and effectiveness of DCBIA members; and partner (with governments, business and civic organizations to strengthen the city and realize our vision).

**Benefits:** Build partnerships, networking and advocacy.

**Government Finance Officers Association (GFOA)**

**Annual Cost: 2,650**

**Mission:** The purpose of the Government Finance Officers Association is to promote excellence in state and local government financial management. The objectives of the Association are to identify principles of economy and efficiency in state, provincial, and local government. To develop and encourage the use of uniform standards and procedures of governmental finance management and to provide for the professional development of public finance managers and to assist individuals in seeking governmental finance career. In addition, the GFOA identifies issues of governmental fiscal policy and informs those persons interested in such issues. GFOA develops, improves, and publishes a body of knowledge in governmental finance management. They also extend cooperation and assistance to other associations and professional organizations concerned with governmental finance management.

**Benefits:** Various resources such as best practices/advisories/ public policy statements, governmental financial reviews, custom research, training, etc.

Project	Project Name	Description	Phase	Amount of Capital Funds	Status	Construction Start	Completion Date	Planned Remaining Spending
G502	Creekbed Sewer Rehabilitation Soapstone Valley	Rehabilitation of 6,200 LF of 18-inch diameter pipe, 22 manholes, and 6 exposed stream crossing. This project is located in NPS property.	Design	\$ 13,382,842.00	NEPA Document submitted and awaiting final NPS approval.	11-Apr-20	20-Oct-22	\$ 8,961,665.00
IL04	Creekbed Sewer Rehabilitation Fort Stanton Park Irving & Suitland Parkway	Rehabilitation of 1,300 LF of sewer along a stream that runs from 22nd St SE towards Gainesville Street SE was completed as part of an Emergency CIPP. DC Water and DOEE entered an MOU for DOEE to protect DC Water sewer assets as part of the stream restoration work they are doing.	Design	\$ 1,035,000.00	Pipe rehab & asset protection contracted through MOU with DOEE.	30-Jun-20	25-Dec-21	\$ 890,000.00
LZ07	PI Phase 5 Pipe Rehab Between MH31 and MH30	Rehabilitation of the Potomac Interceptor between M-31 and M-30 in Fairfax County. The work includes replacement of a 6-ft diameter interceptor near M-31, extending the existing odor control system, rehabilitation of about 150 LF of 78-inch RCP, replacement of about 200 LF of 54-inch RCP, and rehabilitation of about 200 LF of 54-inch pipe. This is a design-build project.	Design	\$ 13,664,000.00	Ongoing	29-Oct-19	21-May-21	\$ 11,730,122.00
A419/GY04/GY05	Watts Branch Sewer Rehab	Installation of 7,700 LF of CIPP in various sizes using heavy clean procedures for approximately 2,800 LF and chemical root treatment on approximately 1,700 LF. Abandonment of about 500 LF of sewer and 3 manholes. Complete manhole rehabilitation on approximately 50 manholes. Surface restoration and bypass pumping mechanisms to be implemented as required.	Construction	\$ 7,093,202.00	Ongoing	13-Mar-17	31-Jul-19	\$ 2,731,784.00
DR02	Low Area Trunk Sewer (LATS) Rehab	Rehabilitation of 11,700 LF of 42-inch brick and cast-in-place unreinforced concrete sanitary interceptor. This interceptor starts at the White House and runs along Pennsylvania Ave towards the US Capitol, across several buildings and I-395. This also includes the reactivation of the 3rd and Constitution PS as the primary means of conveying flow downstream.	Construction	\$ 21,442,931.00	Ongoing	12-Jul-18	10-Jul-20	\$ 9,166,201.00
FY01	Beach Drive Ph1	This project includes the construction of 2 doghouse manholes along Beach Drive NW in coordination with NPS/FHWA project.	Construction	\$ 2,295,600.00	Ongoing	1-Aug-17	30-May-20	\$ 88,045.00
G504	Klinge Valley Sewer Rehab	Rehabilitation of 3,700 LF of sewer along a stream that runs through Rock Creek Park. This work is being done under an MOU with DDOT with DC Water providing funding.	Construction	\$ 3,197,376.00	Ongoing	1-Aug-16	31-Aug-19	\$ 123,885.00
GA01	Sewer Rehab 4	Cleaning and CCTV inspection of storm, sanitary, and combined sewer pipe lines ranging in size from 8-inch to 24-inch. Installation of about 57,000 LF of CIPP liners in DuPont Park S.E. and Washington Highlands S.E. with 13,000 LF of CIPP as Alternates in Lamond Riggs N.E. and Park View N.W. The scope also includes reinstatement of approximately 1,755 service laterals and rehabilitation of approximately 500 lateral connections and 400 manholes. Surface restoration and bypass pumping mechanisms to be performed as required.	Construction	\$ 8,013,540.00	Construction is Completed. Close-out process ongoing.	23-Mar-15	1-May-19	\$ 796,055.00
IL10	Oregon Ave	Construction of approximately 4,400 FT of gravity sewer by open cut and trenchless methods. Construction of 17 new sewer manholes and installation of geopolymer lining for existing and new manholes. Abandonment of existing sewers.	Construction	\$ 27,207,669.00	Ongoing	30-Sep-16	10-Sep-20	\$ 3,792,969.00
IL11	Spring Valley Sewer Rehab	Installation of 1,405 LF of CIPP lining in 10-inch sewer line segments. Surface restoration and bypass pumping mechanisms to be implemented as required. This work is awarded in conjunction with A419.	Construction	\$ 889,556.00	Ongoing	11-Mar-17	31-Mar-20	\$ 624,173.00
J001	B Street/New Jersey Avenue Trunk Sewer Re	Rehabilitation of 4,350 LF of 10 ft x 18 ft span arch sewer tunnel, rehabilitation of 15 manholes, and heavy cleaning of the B St/NJ trunk sewer.	Construction	\$ 15,520,983.00	Ongoing	21-May-18	19-May-20	\$ 6,351,250.00
J306	National Arboretum Sewer Rehab	Rehabilitation of 4-ft 3-inch diameter East Side Interceptor and relocation of 2 manholes. This portion of the ESI is located in the National Arboretum.	Construction	\$ 9,999,243.00	Completed except minor restoration	15-Jul-16	27-Apr-20	\$ 986,444.00
G401	Upper Potomac Interceptor Sewer Rehab	Rehabilitation of 2,100 LF of 48-inch interceptor that has been out of service since 1972. Work also includes manhole reconstruction, bulkhead removal, and interceptor reactivation.	Construction	\$ 6,644,906.00	Completed except restoration only	1-Mar-17	29-Sep-19	\$ 304,750.00

**Table 1 – Clean Rivers Project Component Update**

Division	Title	Description	Capital Budget as of 2/5/2019 (\$ M)	Remaining Capital Funds (unspent) as of 2/5/2019 (\$ M) <sup>4</sup>	Status Report	Planned Spending (\$M)

<b>Anacostia River Projects</b>																	
A	Blue Plains Tunnel	The Blue Plains Tunnel is 23-foot inside diameter tunnel, approximately 24,000 feet long from Blue Plains to Main Pumping Station near the National Stadium. The tunnel includes five shafts and provides approximately 73 million gallons of storage to provide CSO control and to reduce peak flows in wet weather to Blue Plains to enable more economical nutrient removal for the Chesapeake Bay. Voted “2016 Project of the Year” by Engineering News Record.	377.6	0	The project is complete (started in 2011, completed in 2016)												
B	Tingey Street Diversion Sewer	Division B consists of two chambers which divert flows from existing CSO 013 and 014 sewers into a new sewer along Tingey Street. The sewer connects to the Blue Plains Tunnel at Main Pumping Station. The purpose of the project is to intercept CSO 013 and 014 flows and convey the captured CSO to the tunnel.	16.5	0	The project is complete (started in 2012, completed in 2014) Worked closely with DMPED and completed project prior to the grand opening of Harris Teeter and other commercial establishments in the Navy Yard area.												
C	CSO 019 Overflow and Diversion Structures	This project consists of a diversion structure to intercept CSO 019 near RFK stadium, the largest CSO in the system. The project also includes an overflow structure that relieves flow to the Anacostia River when the capacity of the tunnel is exceeded.	31.2	0	The project is complete (started in 2011, completed in 2013)												
D	JBAB Overflow and Diversion Structures	The JBAB Overflow and Diversion Structures will capture flow from the Potomac Outfall Sewers and convey it to the Blue Plains Tunnel for treatment at Blue Plains. The overflow structure provides a relief for CSOs when the capacity of the tunnel is exceeded. The project also includes installation of monitoring instrumentation at multiple sites throughout the city.	60.2	16.84	The project started in 2014 and was substantially completed on February 15, 2018. Working on administrative closeout.												
E	M Street Diversion Sewer	The M Street Diversion Sewer intercepts CSO 015, 016 and 017 near the Navy Yard and conveys flows to the Anacostia River Tunnel for treatment at Blue Plains. Worked closely with DDOT on its 11 <sup>th</sup> Street Bridge project and access over the CSO Virginia Avenue Tunnel Project.	38.95	0	The project is complete (started in 2012, completed in 2015)												
G	CSO 007 Diversion Structure and Diversion Sewer	This project consists of a diversion structure to intercept flows from CSO 007 and a sewer constructed in tunnel under the approach ramps of the 11th Street bridge. The purpose of the project is to intercept CSO 007 and convey the captured CSO to the Anacostia River Tunnel for treatment at Blue Palins	6	0	The project is complete (started in 2012, completed in 2013)												
H	Anacostia River Tunnel	The Anacostia River Tunnel is 23-foot inside diameter tunnel, approximately 12,000 feet long from Poplar Point to CSO 019 near RFK Stadium. The tunnel provides approximately 38 million gallons of storage to provide CSO control for CSO 005, 007, CSO 017, CSO 018, and CSO 019.	271.01	32.16	The project started in 2013 and substantially completed on March 8, 2018. Working on administrative closeouts												

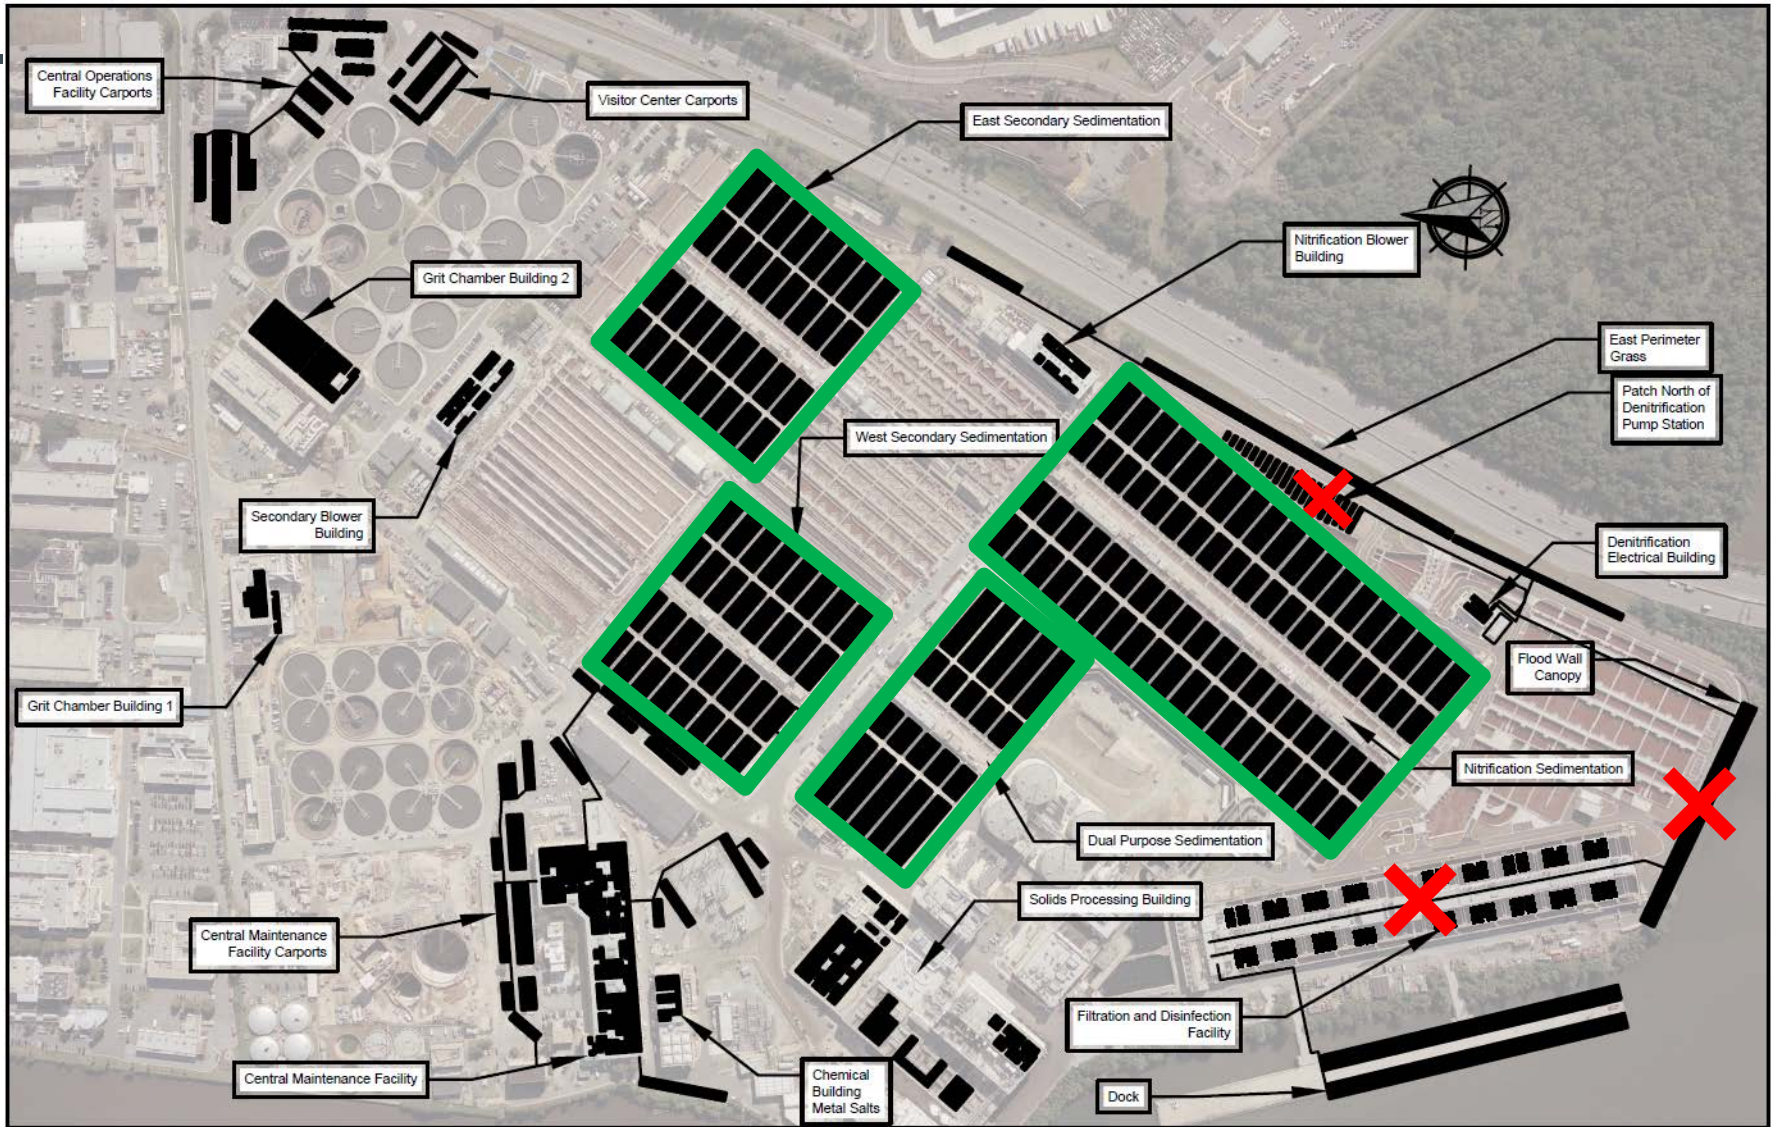

Division	Title	Description	Capital Budget as of 2/5/2019 (\$ M)	Remaining Capital Funds (unspent) as of 2/5/2019 (\$ M) <sup>4</sup>	Status Report	Planned Spending (\$M)													
						FY19	FY20	FY21	FY22	FY23	FY24	FY25	FY26	FY27	FY28	FY29	FY30	FY31	FY32
		sewershed will be constructed. If GI is determined to be impracticable, then the Potomac River Tunnel will be used to control CSO 027, 028 and 029.																	
PR-B	CSO 021 Diversion Facility	CSO 021 is located on property controlled by the Kennedy Center for the Performing Arts. This project involves constructing the diversion chamber and shaft for the future Potomac River Tunnel at the same time the Kennedy Center is constructing an expansion of its facility. In the future, this facility will be connected to the Potomac River Tunnel. This will minimize disruption to the Kennedy Center and reduce costs and risks to DC Water.	38.73	13.89	The project started in 2016 and was completed in May 2018. Working on administrative closeout.														
TBA	CSO 025/026 Separation	Separation of sewershed's tributary to two small CSOs along the Georgetown water front.	19.00	19.00	The planning of this project started in January 2019. Based on the schedule in the consent decree, construction is planned for 2021 to 2023.			2.41	13.08	3.51									
TBA	Potomac River Tunnel <sup>2</sup>	Currently in the planning stage, the Potomac River Tunnel will control CSOs along the Potomac River from the Lincoln Memorial to Georgetown. Diversion structures and drop shafts will be constructed to divert CSO flows to a deep underground storage and conveyance tunnel, which will convey captured flows via gravity Blue Plains.	371.12	371.12	Facility planning submitted to EPA on December 21, 2018. Finalizing the environmental assessment and developing a Programmatic Agreement. Based on the schedule in the Consent Decree, construction is currently planned for 2023 to 2030					4.33	46.65	37.68	92.99	70.33	46.49	36.41			
TBA	Potomac Project 2 (GI) <sup>3</sup>	This project involves the design and construction of multiple GI facilities, such as bioretention facilities and porous pavement. The project will only be constructed if green infrastructure is determined to be practicable as part of the assessment conducted after the first green infrastructure project.	30.10	30.10	This project has not started. Based on the schedule in the Consent Decree, construction is planned for 2022 to 2024.				1.18	19.25	9.67								
TBA	Potomac Project 3 (GI) <sup>3</sup>	This project involves the design and construction of multiple GI facilities, such as bioretention facilities and porous pavement. The project will only be constructed if green infrastructure is determined to be practicable as part of the assessment conducted after the first green infrastructure project.	31.00	31.00	This project has not started. Based on the schedule in the Consent Decree, construction is planned for 2025 to 2027.							1.15	19.76	10.09					
Rock Creek Projects																			
RC-A	Rock Creek GI Project A	This project involves construction of multiple green infrastructure facilities, including bioretention facilities and porous pavement to manage stormwater at the source to control CSOs. This project will be used, along with others, to assess the practicability of green infrastructure for controlling Rock Creek CSO 049. If green infrastructure is determined to be practicable, then the remainder of the GI projects in Rock Creek will be constructed. If GI is determined to be impracticable, then CSO 049 will be controlled by a gray infrastructure storage project.	33.5	25.3	The project was substantially completed in October 9, 2018. The project is undergoing post construction monitoring to support the practicability assessment.	9.73													
RC-B	Design Challenge Green	Implement design for two GI parks and one GI Streetscape. Construct GI facilities for one GI Streetscape in NW DC. The GI practices implemented through this	3.43	2.12	Design for these projects are complete. Construction for the GI streetscape project is substantially complete. Final Completion	2.12													

Division	Title	Description	Capital Budget as of 2/5/2019 (\$ M)	Remaining Capital Funds (unspent) as of 2/5/2019 (\$ M) <sup>4</sup>	Status Report	Planned Spending (\$M)													
						FY19	FY20	FY21	FY22	FY23	FY24	FY25	FY26	FY27	FY28	FY29	FY30	FY31	FY32
	Infrastructure Sites	streetscape project include bioretention (rain gardens), permeable parking lanes, permeable sidewalk pavers, landscape infiltration gaps, new street trees and stormwater related educational art.			of the Streetscape is anticipated in April of 2019.														
TBA	Rock Creek Project 2 (GI) <sup>3</sup>	This project involves the design and construction of multiple GI facilities, such as bioretention facilities and porous pavement. The project will only be constructed if green infrastructure is determined to be practicable in Rock Creek as part of the assessment conducted after the first green infrastructure project.	35.28	35.28	This project has not started. Based on the schedule in the Consent Decree, construction is planned for 2022 to 2024.				12.51	18.19	4.5								
TBA	Rock Creek Project 3 (GI) <sup>3</sup>	This project involves the design and construction of multiple GI facilities, such as bioretention facilities and porous pavement. The project will only be constructed if green infrastructure is determined to be practicable in Rock Creek as part of the assessment conducted after the first green infrastructure project.	52.53	53.53	This project has not started. Based on the schedule in the Consent Decree, construction is planned for 2025 to 2027.							13.82	26.27	12.44					
TBA	Rock Creek Project 4 (GI) <sup>3</sup>	This project involves the design and construction of multiple GI facilities, such as bioretention facilities and porous pavement. The project will only be constructed if green infrastructure is determined to be practicable in Rock Creek as part of the assessment conducted after the first green infrastructure project.	55.73	55.73	This project has not started. Based on the schedule in the Consent Decree, construction is planned for 2027 to 2029.									0.01	25.75	29.97			
TBA	Rock Creek Project 5 (GI) <sup>3</sup>	This project involves the design and construction of multiple GI facilities, such as bioretention facilities and porous pavement. The project will only be constructed if green infrastructure is determined to be practicable in Rock Creek as part of the assessment conducted after the first green infrastructure project.	57.41	57.41	This project has not started. Based on the schedule in the Consent Decree, construction is planned for 2028 to 2030.										7.26	39.57	10.58		
		<b>System Wide Projects</b>																	
N	Low Impact Development Retrofit	The Low Impact Development Project included design, construction, monitoring and maintenance of low impact development techniques at three DC Water facilities to reduce runoff volume to the collection system. The components are: 1) two bioretention areas and permeable pavers in the parking lot of the Anacostia Water Pumping Station, 2) green roof over the East Side Pumping Station, and 3) green roof over Fort Reno Reservoir and permeable pavers in the parking lot.	3.84	0	The project is complete (started in 2012, completed in 2014)														

- Notes:
1. TBA = to be assigned
  2. CIP budget for the Potomac River Tunnel is a rough order of magnitude (ROM). The budget will be updated based on the results of the Environmental Assessment and Facility Planning.
  3. CIP budgets for future green infrastructure projects are rough order of magnitude (ROM) estimates prepared based on similar projects around the country. The Consent Decree stipulates evaluation of GI projects Rock Creek Project A and Potomac Project A as part of the practicability assessment. The results of this practicability assessment will be used to update required budgets if necessary.
  4. Includes retainage on construction contracts

## **Research Studies:**

The wastewater research and development group conducts research related to Blue Plains operations, with several multi-year studies in the program areas listed below. The research work itself is conducted by DC Water staff, graduate student interns, and graduate students that are contracted either through their University or through a temporary agency.

### **Carbon Removal (secondary treatment).**

Investigations include assessment of contact stabilization and high rate treatment strategies to minimize aeration basin volume and transfer more carbon from the wastewater into the digesters for biogas generation; improvement of solids settling characteristics; and aerobic granulation as a strategy to increase the capacity of Blue Plains secondary treatment system.

**Effective Date:** FY2014

**Status:** Ongoing

### **Nitrogen removal**

Investigations include assessment of “short-cut” nitrogen removal strategies such as use of anammox bacteria to reduce methanol and energy requirements for nitrogen removal at Blue Plains. Work also includes optimization strategies for the new Filtrate Treatment Facility.

**Effective Date:** FY2012

**Status:** Ongoing

### **Solids Handling**

(Thermal hydrolysis process, anaerobic digestion and biosolids dewatering). Research work includes experimentation with strategies to enhance digestion process kinetics; develop predictive digester controls, and dewatering improvements.

**Effective Date:** FY2016

**Status:** Ongoing

### **The following research papers were published from the ongoing wastewater research work at Blue Plains during 2018:**

#### **Journal papers**

bpl-sqlreports2	cdlemailsent, DC Water Heads, emailsent, probation_union	CDL Certification	This database is used for HCM to automatically notify employees that it is time to get their CDL Certificate renewed		None	Standard Edition (64-bit)
bpl-sqlreports2	cdlemailsent, DC Water Heads, emailsent, probation_union	ALL HCM Applications	this database is used to extract the employee's department head to send him a copy of the letter that the employee is receiving		None	Microsoft SQL Server 2005
bpl-sqlreports2	cdlemailsent, DC Water Heads, emailsent, probation_union	Driver's License	this database tracks to see if the employee received their notice that their driver's license is going to expire Y72 or Y30		None	Microsoft SQL Server 2005
bpl-sqlreports2	cdlemailsent, DC Water Heads, emailsent, probation_union	eRecruiter Application tracking system	Reporting database HCM uses monthly to run custom applicant reports. This is an auto feed from Ceridian		None	Microsoft SQL Server 2005
bpl-sqlreports2	Kofax9_UST2	Kofax (Development)	Database for the Production Kofax system. Kofax is part of the Enterprise Document Management System, used to process and release documents to Livellink.		None	Microsoft SQL Server 2005
bpl-sqlreports2	KofaxCapture	Kofax (Production)	Database for the Production Kofax system. Kofax is part of the Enterprise Document Management System, used to process and release documents to Livellink.		None	Microsoft SQL Server 2005
bpl-sqlreports2	SimpleK; SimpleK-arch	SimpleK	This DB is used by Facilities; currently the access is setup through SimpleK application and limited to the added users. For backend the access is based on DB Profiles	4	None	Microsoft SQL Server 2005
bpl-sqlreports2	VHR_DCW	Ceridian	This database is used for HCM to do their SQL Reprting		None	SQL2005
bpl-vhr	VHR_DCW	Ceridian	This database is used for HCM to do their SQL Reprting	2 Years	None	SQL Server 2005
bpl-winora	CPMORA	CPM / Vertex / VLM Interface	CPM Production Database, Gateway for VLM Interface, Staging for Vertex	2 years	None	Oracle 11.2.0.3
bpl-winora	RATIONAL	Rational Production	Rational Production database	3years	None	Oracle 11.2.0.4
bpl-winora	CPMORA	CPM/VLM	CPM and link between Lawson and VLM	3years	None	Oracle 11.2.0.4
cmf-mvm	faultline	McAfee Vulnerability Manager	Patch Vulnerability Scanner	1 Year	None	SQL2008
cmf-oradev	PIMS	Vertex / Oracle	Vertex Reporting Tool. Payment and customer information pulled from Vertex external database maintained by third party.	2 years	None	Oracle 11.2.0.3
cmf-oradev	PIMS	Vertex Reports	Vertex Reporting Tool. Payment and customer information pulled from Vertex external database maintained by third party.	5+ years	None	Oracle 11.2.0.4
fst-sql	ivrstats	ivr	production ivrstats database - stores IVR-related stats & data like Call Volume, Employment Opportunity Listings, etc.	10	None	Microsoft SQL Server 2000
Monet	aotask	AO Task System	Commercial system for mapping organizational goals to departmental tasks.		None	mysql
Monet	avr	AV Request System	System for tracking room set-up requests for A/V.		None	mysql
Monet	Correspondence	Procurement Tracking	Correspondence tracking system for Procurement's use		None	mysql
Monet	Correspondence	Correspondence Tracking	Correspondence tracking system for DC Water users		None	mysql
Monet	critlist_water	Critical Equipment List	Tracks maintenance and impact of sewer/water system components		None	mysql

Monet	hr_fitness	HR Fitness System	Used during the 1010 walk company fitness program to track and compare teams. This is a seasonal database		None	mysql
Monet	lead_db	Lead Management System (leaddata/leadreports)	System for tracking lead test kit results		None	mysql
Monet	ports15	PORTS	IT Purchase Order Request Tracking System		None	mysql
Monet	scts	Security Case Manager	document management applications, and enables high volume		None	mysql
mst-sql	huna_prod	huna	production HUNA database keeps track of our customer high usage water events, notifications, and preferences	12	The database itself is not public, but data in the database is displayed to customers in the form of a HUNA email, phone call, or text message. HUNA preferences that are stored in this database are displayed to customers via a web interface (Through AMR Graph)	Microsoft SQL Server 2012
mst-sql	NCCS_Web	AMR Graph/HUNA	Used to calculate usage (which is then queried for high usage, and notifications sent out). Also used by AMR Graph		The database itself is not public, there is a web AMR Graph interface that is public & displays the data in NCCS_Web to customers	Microsoft SQL Server 2012
mst-sql	SymantecEndpoint_MST	Symantec Endpoint Protection	Symantec Endpoint Protection - M Street Site	1 Year	None	SQL Server 2008
mst-sql	SYN_Common_dev	eLogger	Development Database for for eLogger app	1 Year	None	SQL Server 2008
mst-sql	sys_common	eLogger	Electronic logbook software replaces paper log books and disconnected systems collecting, storing and distributing real-time data about your 24 x 7 operations	3 Years	None	SQL Server 2008
SQLCLUS	compsadb	Dell Compellant Enterprise Manager	Compellant Storage Database. Records information on servers and attached LUNS, as well volumes exported to servers.	1 year	None	SQL2005
SQLCLUS	CTS_Data	Linko CTS	LinkoCTS - Compliance Tracking Software is designed specifically for Industrial Pretreatment compliance tracking. LinkoCTS, now in its 12th Version Release, is a mature and highly functional database software application. In accordance with EPA 40 CFR - 403 and the new pretreatment streamlining rule, LinkoCTS is an accurate and organized way for POTW's to manage activities and evaluate industrial pretreatment compliance. Because not all pretreatment programs are alike, Linko offers a variety of product configurations certain to meet your unique responsibilities. Our Add-On Modular Features allow us to meet your program's specific responsibilities.	1 year	None	Microsoft SQL Server 2008 (SP4) - 10.0.6000.29 (X64)
SQLCLUS	DCWConfigDB	Citrix XenApp	Citrix XenApp is the industry-leading solution for virtual application delivery, providing Windows apps as secure mobile services.	1 Year	None	Microsoft SQL Server 2008 (SP4) - 10.0.6000.29 (X64)
SQLCLUS	DCWFarmDB	Citrix XenApp	Citrix XenApp is the industry-leading solution for virtual application delivery, providing Windows apps as secure mobile services.	1 Year	None	Microsoft SQL Server 2008 (SP4) - 10.0.6000.29 (X64)
SQLCLUS	EAS	Zantaz EAS	Used for Email Archives	12 Years	None	Microsoft SQL Server 2008 (SP4) - 10.0.6000.29 (X64)
SQLCLUS	ePO_CMF-EPO	McAfee EPO	McAfee ePolicy Orchestrator (McAfee ePO) is the most advanced, extensible, and scalable centralized security management software in the industry.		None	SQL2008
SQLCLUS	MSSQLSSO	ESSOM	Enterprise Single Sign On	1 Year	None	SQL Server 2008
SQLCLUS	MSSQLSSO-Dev	ESSOM Dev	Enterprise Single Sign On	1 Year	None	SQL Server 2008
SQLCLUS	MSSQLSRPM	Self Service Password Reset	System used by end users to reset the Network Account Passwords		None	Microsoft SQL Server 2008 (SP4) - 10.0.6000.29 (X64)
SQLCLUS	Protect	Shavlik Protect	Patching Software	2 Years	None	SQL Server 2008
SQLCLUS	RightFaxDB_Ent	RightFax 10.5	RightFax is a centralized, computer-based fax solution that provides faxing capabilities across an organization. RightFax integrates fax and document distribution with email, desktop and	1 Year	None	Microsoft SQL Server 2008 (SP4) - 10.0.6000.29 (X64)
SQLCLUS	SiteAuditData	Netphor SiteAudit Application	Used manage the Canon copiers and MFD units at Dcwater	1 Year	None	SQL Server 2014
SQLCLUS	SUSDB	Windows Server Update Services	Windows Patch Management System	1 Year	None	SQL Server 2008
SQLCLUS	SymantecEndpoint	Symantec Endpoint Protection	Symantec Endpoint Protection - Blue Plains Ssite DB	1 Year	None	SQL Server 2008
SQLCLUS	TabFusion	Tab Fusion	Inventory System used by DETS for records management	1 Year	None	SQL Server 2008
SQLCLUS	VCDB55	VMware vSphere	vSphere application used to manage vmware ESX/ESXi hosts and Virtual machines.	2 Years	None	SQL Server 2008
SQLCLUS	VCDB55_Update	VMware vSphere Update Manager	Used to update and patch ESXi hosts and VM's	2 Years	None	SQL Server 2008
SQLCLUS	VCDB60	VMware vSphere	vSphere application used to manage vmware ESX/ESXi hosts and Virtual machines.	3 months	None	SQL Server 2008

## **Question #33 – Investigations, Audits or Reports on the Agency**

### **Office of Legal Affairs – Compliance Officer Audits**

#### **Powered Industrial Truck (PIT) Program review**

DC Water operations are subject to the Powered Industrial Truck (PIT) program requirements listed at 29 Code of Federal Regulations (CFR) 1910.178. The objective(s) of this task was to (1) evaluate existing PIT program elements against the regulatory requirements, DC Water Policies & Procedures, and industry wide best management practices, (2) to identify opportunities for this safety program improvement (including recommended preventive/corrective measures) to enhance program effectiveness, and (3) Assist Safety Department on an ongoing basis in achieving compliance with the regulatory requirements. Program review findings and recommendations were submitted to Director, Safety Department on August 14, 2018.

#### **OLA Compliance Requirements Notification System (CRNS) reviews**

The internal reviews of each department's compliance requirements (as listed on CRNS) were conducted during FY 2018. The process included review of core activities such as raw data inputs, data gathering steps, internal/external communications, internal/external controls, data accuracy and integrity, report preparation and submittal, records management, etc. The compliance review included identification of any new requirements that are currently not in the Compliance Reporting Notification System (CRNS).

#### **Fleet Department**

In CRNS, Fleet currently has one compliance requirement. Required report was found submitted in a timely manner. No additional compliance items were identified during this review.

#### **Chief of Staff department**

Chief of Staff department currently has five compliance reporting requirements. Review of all items indicated no compliance issues or violations. Required reports were found submitted in a timely manner.

#### **Department of Occupational Safety and Health (DOSH)**

In CRNS, DOSH currently has six compliance requirements identified. Review of all items indicated no compliance issues or violations. Required reports were found submitted in a timely manner.

## **Question #33 – Investigations, Audits or Reports on the Agency**

### **Department of Security**

The Department of Security currently has forty-six compliance reporting requirements. All these items were previously managed by Facilities department. However, based on discussions with Security department directors (current and previous) it was determined that these items shall be handled by Security department. During FY 2018, the CRNS was updated to reflect changes. Review of all items indicated no compliance issues or violations. No additional compliance items identified during this review.

### **Department of Human Capital Management**

Human Capital Management (HCM) department currently has one compliance reporting requirement. No compliance issues or violations noted.

### **Department of Engineering and Technical Services (DETS)**

In CRNS, DETS currently has two compliance requirements. Review of all items indicated no compliance issues or violations. Required reports were found submitted in a timely manner. No additional compliance items were identified during this review.

### **External Affairs Department**

External Affairs department currently has seven compliance reporting requirements. Review of all items indicated no compliance issues or violations. No additional compliance items identified during this review.

### **Department of Finance & Budget**

In CRNS, Finance & Budget department currently has two compliance requirements identified. Review of all items indicated no compliance issues or violations. No additional compliance items were identified during this review.

### **Department of Long Term Control Plan**

Long Term Control Plan (LTC) department currently has forty-eight compliance requirements. Review of all items indicated no compliance issues or violations. Required reports were found submitted in a timely manner.

## **Question #33 – Investigations, Audits or Reports on the Agency**

### **Facilities Department**

Facilities currently has fourteen compliance requirements. As mentioned previously under Security department, responsibility for many of the items were transferred from Facilities to Security department. Review of all items indicated no compliance issues or violations.

### **Department of Wastewater Treatment**

Wastewater Treatment department currently has twelve compliance requirements. Review of all items indicated no compliance issues or violations.

### **Department of Water Services**

Water Services department currently has fourteen compliance requirements. Review of all items indicated no compliance issues or violations. Required reports were found submitted in a timely manner.

### **DDCS**

DDCS department currently has one compliance reporting requirement. Review indicated no compliance issues or violations. Required reports were found submitted in a timely manner.

### **Department of Sewer Services**

Sewer Services currently has two compliance reporting requirements. Review of compliance items indicated no compliance issues or violations. Required reports were found submitted in a timely manner.
