<p>This donation provided lunch for the symposium participants. The symposium, entitled -- "Race & Policy: Advancing Racial Equity and Economic Inclusion in the District of Columbia" was held on 1/17/19 for which 400 individuals RSVP 'yes' to attend. The symposium was made up of panels featuring academic, government, and advocacy leaders addressing major policy areas. It was necessary to host an open dicussion about race as data illustrates the inequities in the District. A 2016 Urban Institute study found that white households in D.C. have a net worth 81 times greater than Black households. That is the product of generations of racism and discriminatory policies, and this event was the first step in attempting to dismantling the systems that created and perpetuates these inequities.</p>
