2020 Performance Oversight Questions

(Responses Sent to the Committee on Transportation and the Environment on January 14, 2020)

District Department of Transportation

A. ORGANIZATION AND OPERATIONS

- 1. Please provide a complete, up-to-date <u>organizational chart</u> for the agency and each division within the agency. Please include an explanation of the roles and responsibilities for each division and subdivision within the agency.
 - Please include a list of the employees (name and title) for each subdivision.
 - Has the agency made any organizational changes in the last year? If so, please explain.

As of January 13, 2020, DDOT is still compiling this information and reviewing to ensure that all information is accurate and up to date. DDOT will follow up shortly to provide a response to the Committee. When the information is internally verified as complete, DDOT's current organizational chart, explanation of the responsibilities for each division and subdivision, and list of employees will be attached as Appendix Q1.

- 2. Please list each <u>new program</u> implemented by the agency during FY 2019. For each initiative please provide:
 - A description of the initiative.
 - The funding required to implement the initiative.
 - Any documented results of the initiative.

DDOT's new programmatic work in FY2019 focused primarily on the changing mobility landscape and serving users of different modes throughout the District.

H and I Street Bus Lanes

DDOT piloted rush-hour bus-only lanes on H and I Streets NW in the downtown area from June 3 to September 29, 2019. The bus lanes extend from 14th to 18th Street NW on H Street and from 13th to 20th Street NW on I Street. DDOT decided to make these lanes permanent and extend the hours of operation to 7:00 AM – 7:00 PM, which went into effect on November 14, 2019. Overall, the bus lanes on H and I Streets NW have improved bus travel times.

| Change in Avg Travel Time Along Corridor (All Routes)* | | |
|--|---------|--------|
| | AM | PM |
| H Street NW | ↓ 6.0% | ↓ 1.0% |
| I Street NW | ↓ 12.5% | ↓ 9.0% |

^{*}September 2019 (after bus lanes) compared to September 2018 (before bus lanes)

DDOT is continuing to monitor the performance of the bus lanes and will be updating the design plans in FY 2020 to further improve bus operations, particularly in areas with high right turn volumes.

Off-Sidewalk Bike and Scooter Parking

In FY2019, DDOT began installing off-sidewalk bike and scooter parking locations throughout the District. Typically installed in-street where there is currently no legal standing or parking, these locations are where bike and scooter users can safely and quickly end their trips using personal or rented devices. This space for parking not only provides a location off of the sidewalk where scooters and bikes can be stored, it also helps daylight crosswalks for better visibility of pedestrians.

To date, DDOT has installed approximately 40 of these off-sidewalk spaces, with a goal to complete installation of 100 total spaces by Spring 2020.

Shared Motor-Driven Cycles (Mopeds)

Mobility options for District residents expanded in FY2019 when DDOT provided shared motor-driven cycle company Revel a pilot permit to operate in the public right-of-way. This pilot is a part of the District's continued commitment to foster new shared mobility options.

This demonstration period has allowed DDOT to continue to evaluate how mopeds will fit in our transportation network. This is another opportunity for the agency to reduce dependence on single occupant vehicles and expand the sustainable transportation options we offer to residents and visitors.

The terms include current laws related to the operation of mopeds such as requiring a helmet, possessing a valid driver license, and no riding on the sidewalks. The pilot program also includes a prohibition on sidewalk parking for shared motor-driven cycles, DDOT has extended the current pilot permits to allow continued operations through Saturday, February 29, 2020. The second phase of the motor driven cycle pilot will begin on March 1, 2020 and continue through September 30, 2020.

The Department released the second phase draft terms and conditions for public comment. The draft terms and conditions allow companies to operate up to 600 vehicles in the District and also include additional safety and equity requirements for the second phase of the pilot. DDOT is still evaluating preliminary data about the pilot.

- 3. Please provide a complete, up-to-date **position listing** for your agency, which includes the following information for each position:
 - Title of position.
 - Name of employee or statement that the position is vacant, unfunded, or proposed.
 - Date employee began in position.
 - Salary and fringe benefits, including the specific grade, series, and step of position.
 - Job status (continuing/term/temporary/contract).

See Appendix Q3.

4. Does the agency conduct annual **performance evaluations** of all of its employees? Who conducts such evaluations? What steps are taken to ensure that all agency employees are meeting individual job requirements? What are the performance measures by which employees are evaluated?

DDOT completes performance evaluations of its employees on a mid-year and annual basis. The mid-year review is initiated by the employee's immediate supervisor, or (in the absence of the immediate supervisor) the reviewer. This review serves as a mechanism for providing feedback to an employee and, if necessary, identifying areas that need improvement. Annual evaluations are completed by each employee's immediate supervisor with review by the next level of managerial supervision. DDOT's Human Resources Division utilizes a query created by DCHR to review current status of employee plans and evaluations; status updates are sent to the employee's Supervisor and Managers encouraging them to conduct performance reviews and planning sessions with each employee. When an employee does not meet individual job requirements, the supervisor meets with the employee to discuss deficiencies; if job requirements are not met after discussions, the supervisor places the employee on a PIP – Performance Improvement Plan.

5. Please list all <u>employees detailed</u> to or from your agency, if any. Please provide the reason for the detail, the detailed employee's date of detail, and the detailed employee's projected date of return.

DDOT does not have any detailed employees as of December 22, 2019.

6. Please provide the position name, organization unit to which it is assigned, and hourly rate of any **contract workers** in your agency, and the company from which they are contracted.

| Name | Unit | Contractor Name | Hourly Rate |
|--------------|-------------------|-------------------|-------------|
| Pamela Drew | Call Center | Corporate Systems | \$23.47 |
| | | Resources, Inc. | |
| Caleb Taylor | Call Center | Corporate Systems | \$23.47 |
| | | Resources, Inc. | |
| Julius Tate | Customer Services | Corporate Systems | \$23.47 |
| | | Resources, Inc. | |

- 7. Please provide the Committee with:
- a. A list of all employees who receive cellphones, personal digital assistants, or similar communications devices at agency expense.
 - Please provide the total cost for mobile communications and devices at the agency for FY 2019 and FY 2020 to date, including equipment and service plans.
- b. A list of all vehicles owned, leased, or otherwise used by the agency and to whom the vehicle is assigned.
- c. A list of employee bonuses or special award pay granted in FY 2019 and FY 2020, to date.
- d. A list of travel expenses, arranged by employee.
- e. A list of the total overtime and worker's compensation payments paid in FY 2019 and FY 2020, to date.
- a. A list of all employees who receive cellphones, personal digital assistants, or similar communications devices at agency expense.
 - Please provide the total cost for mobile communications and devices at the agency for FY 2019 and FY 2020 to date, including equipment and service plans.

Please see Appendix Q7a for the list of all employees who receive cellphones, personal digital assistants, or similar communications devices at agency expense.

The total costs for mobile communications and devices for individual users are also listed in Appendix Q7a. Communication equipment are free to DDOT, as part of the service plans.

b. A list of all vehicles owned, leased, or otherwise used by the agency and to whom the vehicle is assigned.

Please see Appendix Q7b.

c. A list of employee bonuses or special award pay granted in FY 2019 and FY 2020, to date.

See Appendix Q7c.

d. A list of travel expenses, arranged by employee.

See Appendix Q7d

e. A list of the total overtime and worker's compensation payments paid in FY 2019 and FY 2020, to date.

See Appendix Q7e.

- 8. Please provide a list of each **collective bargaining agreement** that is currently in effect for agency employees.
 - Please include the bargaining unit (name and local number), the duration of each agreement, and the number of employees covered.
 - Please provide, for each union, the union leader's name, title, and his or her contact information, including e-mail, phone, and address if available.
 - Please note if the agency is currently in bargaining and its anticipated completion date.

See Appendix Q8.

- 9. Please identify all **electronic databases** maintained by your agency, including the following:
 - A detailed description of the information tracked within each system.
 - The age of the system and any discussion of substantial upgrades that have been made or are planned to the system.
 - Whether the public can be granted access to all or part of each system.

See Appendix Q9. Also see the DC Enterprise Data Inventory at https://octo.in.dc.gov/node/14551.

10. Please describe the agency's procedures for investigating allegations of <u>sexual harassment</u> or misconduct committed by or against its employees. List and describe any allegations received by the agency in FY 2019 and FY 2020, to date, and whether and how those allegations were resolved.

DDOT has designated a Sexual Harassment Officer (SHO) in accordance with the Mayor's Order 2017-313, Sexual Harassment Policy, Guidance and Procedures issued on December 18, 2017. The SHO is responsible for ensuring that both the individual filing the complaint and the accused individual are aware of the seriousness of the sexual harassment complaint. The SHO is responsible for adhering to the following procedural actions: explaining the sexual harassment policy and investigation procedures to the complainant and the respondent; arranging for an investigation of the alleged harassment; preparation of a written report of the findings; submission of a written report summarizing the results of the investigation and recommendations, submission of the final report to internal counsel for review and forwarding to the MOLC; and notification to the complainant and the respondent of the corrective actions to be taken, if any, and administering those actions.

Sexual Harassment Allegations:

FY 2019 - 3

All three (3) matters have been investigated. Two have been closed, and the third is still under review for legal sufficiency.

FY 2020 - 2

One matter was investigated and is pending an investigative report.

One matter is currently being investigated.

- 11. For any **boards or commissions** associated with your agency, please provide a chart listing the following for each member:
 - The member's name;
 - Confirmation date:
 - Term expiration date;
 - Whether the member is a District resident or not;
 - Attendance at each meeting in FY 2019 and FY 2020, to date.
 - Please also identify any vacancies.

As of January 13, 2020, DDOT is still compiling this information and reviewing to ensure that all information is accurate and up to date. DDOT will follow up shortly to provide a response to the Committee.

12. Please list the <u>task forces and organizations</u>, including those inside the government such as interagency task forces, of which the agency is a member and any associated membership dues paid.

As of January 13, 2020, DDOT is still compiling this information and reviewing to ensure that all information is accurate and up to date. DDOT will follow up shortly to provide a response to the Committee.

13. What has the agency done in the past year to make the activities of the agency more **transparent** to the public?

DDOT implemented a number of changes this past year to improve transparency and community engagement. DDOT is building on existing processes and procedures to ensure the agency is providing timely, relevant, and beneficial information about operations, services, outreach activities, and key personnel. The agency is using innovative and user-friendly technologies, as well as face-to-face meetings to reach the public and convey the array of resources and services that are available. The following resources and applications were implemented or improved to enhance transparency for the public:

Public Meetings - In FY 2019, DDOT continued semi-annual open houses to better collaborate with Advisory Neighborhood Commissioners (ANC). The events brought together key leaders and subject matter experts from DDOT and ANCs from across the District. The open houses provided a unique forum to discuss transportation-related issues and solutions, as well as an opportunity to educate commissioners on how to effectively work with the agency. In FY 2019 DDOT expanded the open house format to include ward-based open houses to educate residents and ANCs about all of the projects from the planning to construction phases for each ward. DDOT participated in over 244 public meetings and public engagement events, averaging about 20 meetings per month. The meetings provided an opportunity to listen to residents, garner input as well as share information regarding projects, studies, and services provided by the agency. Participants included DDOT's Director as well as senior and mid-level managers and project specialists. Community engagement and program staff attended ANC meetings, civic association meetings, Mayoral community walks, and other community meetings in an effort to better connect with residents and other impacted stakeholders. The public can see the schedule of meetings as they are listed on the agency's website at www.ddot.dc.gov/events.

DDOT is the public facing website that can be found at www.ddot.dc.gov. The site increases the agency's transparency efforts as it houses comprehensive information and timelines for projects and studies, calendar of events, press releases, traffic advisories, weekly construction updates, testimonies, statements, and more. The website is updated regularly. DDOT also continues to support the online community meeting request calendar to better plan for public meetings. The online intake form requests that residents give the agency three weeks advance notice to allow for proper coordination and staffing in preparation for the meetings. Meetings are now routinely accepted on a first-come, first-serve basis, with staff providing specific updates as requested. The form can be found at: https://ddot.dc.gov/webform/meeting-request-form-advisory-neighborhood-commissions-or-other-community-groups. DDOT also upgraded the Notice of Intent site in FY 2019 providing a place where all NOIs and related documents can be found in one place.

Social Media and Digital Engagement – DDOT incorporates social media into its overall communications strategies to deliver timely information to the public. DDOT's twitter feed (@DDOTDC) has more than 40,000 followers and actively engages the community via daily posts, responses, campaigns, and high engagement levels. DDOT's twitter handle continues to be a useful tool to share instant and up-to-date transportation-related changes to the community at large. DDOT's @DCVisionZero twitter feed performs a similar function, with an emphasis on safety information.

Traditional Media - On a monthly basis, DDOT's Public Information Division issues more than a dozen press releases, traffic advisories, public meeting notices, and weekly construction updates to keep residents informed about services, meetings, and projects. Each month, DDOT receives media inquiries from a variety of daily, weekly, and monthly bloggers as well as print and electronic media seeking responses for a variety of stories such as the launch of new shared mobility and curbside pilot programs. The earned media generates hundreds of stories that paint an overall picture of the agency. DDOT's Public Information Division ensures that the picture is an accurate one.

Work Plans - In FY 2018, DDOT launched the award winning PaveDC, a current-year paving work plan, on the agency's website, providing the public with instant access to information and maps on specific roadways, alleys, and roadway markings. In FY 2019 a sidewalk construction work plan was added to the site. The public may view the current paving projects at PaveDC. In FY 2019, DDOT continued to publish a weekly construction update of road paving projects, pavement restoration projects, alley improvements, and more. This targets District residents and other stakeholders via email distribution and social media and was placed on the DDOT website. DDOT has continued this practice in FY 2019.

DDOT Compendium - To continue supporting transparency with the District's constituency, DDOT maintains a public repository of policies and procedures when managing public space and the transportation network. All DDOT policies are publicly searchable and can be found at https://comp.ddot.dc.gov/SitePages/Home.aspx.

Transportation Online Permitting System (TOPS) - DDOT provides the District with a real-time Public Space Permitting System. TOPS is an intuitive, online system that enables homeowners, utility companies, and businesses to apply for the specific type of public space occupancy, construction, excavation, and annual or rental permit required for use of the public space within the District of Columbia. TOPS may be accessed from home or conveniently placed kiosks at local Metropolitan Police Department District offices, and at DDOT's Public Space Permit Office located at 1100 4th Street SW.

Open Data - OCTO provides hundreds of data feeds on District government information via the open data website. DDOT has submitted many data sets that are publicly accessible including street light data, residential parking permit data, alley maintenance inventory, pavement marking data, and parking meter data. DDOT and OCTO published more than 17 million mapped records related to traffic enforcement and crashes. All of DDOT's open transportation data can be found at http://opendata.dc.gov/datasets?q=transportation.

DDOT Call Center and Clearinghouse - DDOT manages an internal call center that answers and assists with incoming constituent queries pertaining to DDOT's feature services. This past fiscal year, the call center answered 58,501 calls. DDOT's customer service clearinghouse received and responded to 1,949 written communications from the "Ask the Director" link on DDOT's webpage, as well as formal letters to the Director and/or the Mayor via the Intranet Quorum (IQ) System.

- 14. How does the agency solicit **feedback** from customers? Please describe.
 - What is the nature of comments received? Please describe.
 - How has the agency changed its practices as a result of such feedback?

DDOT is very interested in public feedback, and offers the community opportunities, as well as opportunities to provide input on changes to the District's transportation infrastructure and agency initiatives. DDOT uses a variety of methods to solicit feedback from customers including:

Social Media - The comments received through this medium vary, but they are typically related to projects, programs, and services provided by the agency. Residents also use the tool to raise issues and seek corrective actions. As a result of the feedback, comments, questions, and complaints are forwarded to the appropriate divisions for review and/or necessary action. DDOT responds to residents in the medium in which they approached the agency.

Public Meetings – DDOT regularly attends public meetings to gather input and public opinion as well as share information with the public regarding projects and services provided by the agency. During FY 2019, DDOT participated in hundreds of public meetings hosted by DDOT or others. These range from ANC Open Houses, DC Circulator meetings, Vision Zero, information sessions, construction projects, planning studies, alley and roadway improvements, and disadvantaged business enterprise (DBE) program forums. DDOT presented at dozens of ANC and community meetings to solicit feedback from customers. DDOT continues to expand public engagement efforts on specific projects through innovative means intended to increase participant feedback. Even after public meetings have concluded, DDOT gives the public extended opportunities to weigh in on projects or proposed changes through online surveys. As a result of the feedback received, DDOT has improved proposed plans to address the concerns and needs of the District's varied constituencies.

Dedicated Community Engagement Team - Community engagement is a core component of DDOT's efforts at soliciting feedback about the agency and how it is perceived in the community. The community engagement team's efforts include not only addressing residential requests, but to seek solutions to outstanding issues. Some of the community engagement activities included Mayoral community walks, ANC open houses, civic association presentations, online surveys, project-specific community meetings, and more. Each activity allowed DDOT staff and executives the opportunity to have personal one-on-one conversations with constituents and stakeholders. These ongoing efforts have led to DDOT's ability to further build trust and engage the public by garnering its input on specific infrastructure changes affecting the community. In FY 2019, following feedback from the residents during the paving season, the community engagement team worked with the Asset Management Division to create and distribute doorhangers to improve advance notice of paving work for residents. In FY 2019 DDOT also added a supervisor within the community engagement division to focus on efforts to reach communities that have been historically underserved.

Notice of Intent (NOI) - DDOT is required to give a written Notice of Intent (NOI) to modify traffic and/or parking requirements. The agency provides a publicly available NOI to notify ANCs and residents, as well as to solicit comments on the proposed modifications. Residents may provide comments to DDOT regarding the modifications proposed in an NOI no later than 30 days after the date of the NOI's publication. In FY 2019 DDOT upgraded the website for NOIs to allow all affiliated documents, ANC resolutions, and official responses to be found in one place. A listing of DDOT's recently published NOIs can be found at https://wiki.ddot.dc.gov/display/NOI/Notice+of+Intent

Public Space Meetings - The Public Space Committee meets monthly to review and render decisions on a number of permit applications for the use and occupancy of the public right of way. These permits include sidewalk cafes, over-height retaining walls, over-height fences, and security bollards. The public is encouraged to participate and provide feedback as it is considered. A complete list of the meeting dates can be found here http://ddot.dc.gov/page/public-space-committee-meetings

Press Releases and Media Relations – The public is informed of projects or initiatives that affect the community through press releases that are distributed to the media, the ANCs, other government leadership, stakeholders, and the community.

Specific Project Emails - DDOT creates new emails tied to various projects so staff can accept comments from the public. Residents can submit feedback, which is considered and included in project briefing packets and updates.

Ask the Director on the DDOT Website - DDOT's website features an Ask the Director tab, where residents can send in questions, complaints, and comments that are addressed in a timely fashion.

Public Involvement Plan - DDOT published a Public Involvement Plan in FY 2019 to guide the development of project-specific public outreach and standardize processes across different functional units in the department. The plan can be found at https://ddot.dc.gov/page/public-involvement-plan

15. How has the agency tried to reduce agency <u>energy use</u> in FY 2019? Did the agency's energy use increase or decrease in FY 2019? Please identify how much energy use increased or decreased in terms of kwH and therms, and what percentage increase/decrease that is compared to FY 2018.

DGS is the leading agency regarding buildings and the improvements to energy usage. DDOT leases the headquarters building and therefore does not have information on the kwH or therms. DDOT is located in a LEED Certified building (Gold) along the M Street corridor in Southeast near the Nationals Stadium. DDOT, in conjunction with DGS, is relocating to 250 M Street SE in March 2021. This new building will also be LEED Gold and will improve the energy footprint of our headquarters building.

DDOT participates in the District Fleet Share with DPW and ZipCar for shared services, which includes hybrid and compressed natural gas vehicles. DDOT employees are also eligible for free Capital Bikeshare memberships and many staff ride bicycles, segways, or walk during their tour of duty to perform work in the public space.

16. Please complete the following chart about the residency of <u>new hires</u>:

Number of Employees Hired in FY 2019*

| Position Type | Total Number | Number who are District Residents |
|---------------|--------------|--------------------------------------|
| Continuing | 204 | 140 (68.6%) |
| Term | 5 | 5 (100%) |
| Temporary | 0 | 0 |
| Contract | 0 | 0 |

^{*}This includes new hires, agency transfers, and promoted employees.

Number of Employees Hired in FY 2020+*

| Position Type | Total Number | Number who are District |
|---------------|--------------|-------------------------|
| | | Residents |
| Continuing | 34 | 22 (64.7%) |
| Term | 0 | 0 |
| Temporary | 0 | 0 |
| Contract | 0 | 0 |

⁺Note that all numbers are based on employees who were hired as of December 22, 2019.

17. Please provide the agency's FY 2019 Performance Accountability Report.

See Appendix Q17, DDOT's FY 2019 Performance Accountability Report.

^{*}This includes new hires, agency transfers, and promoted employees.

B. BUDGET AND FINANCE

18. Please provide a chart showing your agency's **approved budget and actual spending**, by division, for FY 2019 and FY 2020, to date. In addition, please describe any variance between fiscal year appropriations and actual expenditures.

See Appendix Q18.

- 19. Please list any **reprogrammings**, in, out, or within, related to FY 2019 or FY 2020 funds. For each reprogramming, please list:
 - The reprogramming number;
 - The total amount of the reprogramming and the funding source (i.e., local, federal, SPR);
 - The sending or receiving agency name, if applicable;
 - The original purposes for which the funds were dedicated;
 - The reprogrammed use of funds.

See Appendices Q19A and Q19B.

- 20. Please provide a complete accounting for all <u>intra-District transfers</u> received by or transferred from the agency during FY 2019 or FY 2020, to date, including:
 - Buyer agency and Seller agency;
 - The program and activity codes and names in the sending and receiving agencies' budgets;
 - Funding source (i.e. local, federal, SPR);
 - Description of MOU services;
 - Total MOU amount, including any modifications;
 - The date funds were transferred to the receiving agency.

See Appendices Q20a and Q20b.

21. Please provide a list of all <u>MOUs</u> in place during FY 2019 and FY 2020, to date, that are not listed in response to the question above.

See Appendix Q21.

- 22. Please identify any <u>special purpose revenue accounts</u> maintained by, used by, or available for use by your agency during FY 2019 or FY 2020, to date. For each account, please list the following:
 - The revenue source name and code.

- The source of funding.
- A description of the program that generates the funds.
- The amount of funds generated by each source or program in FY 2019 and FY 2020, to date.
- Expenditures of funds, including the purpose of each expenditure, for FY 2019 and FY 2020, to date.

See Appendix Q22.

- 23. Please provide a list of all projects for which your agency currently has **capital funds** available. Please include the following:
 - A description of each project, including any projects to replace aging infrastructure (e.g., water mains and pipes).
 - The amount of capital funds available for each project.
 - A status report on each project, including a timeframe for completion.
 - Planned remaining spending on the project.

See Appendix Q23.

24. Please provide a complete accounting of all <u>federal grants</u> received for FY 2019 and FY 2020, to date, including the amount, the purpose for which the funds were granted, whether those purposes were achieved and, for FY 2019, the amount of any unspent funds that did not carry over.

See Appendix Q24.

- 25. Please list each contract, procurement, lease, and grant ("contract") awarded, entered into, extended and option years exercised, by your agency during FY 2019 and FY 2020, to date. For each contract, please provide the following information, where applicable:
 - The name of the contracting party.
 - The nature of the contract, including the end product or service.
 - The dollar amount of the contract, including budgeted amount and actually spent.
 - The term of the contract.
 - Whether the contract was competitively bid or not.
 - The name of the agency's contract monitor and the results of any monitoring activity.
 - Funding source;
 - Whether the contract is available to the public online

See Appendix Q25 and Q40.

26. Please provide the details of any **surplus** in the agency's budget for FY 2019, including:

- Total amount of the surplus.
- All projects and/or initiatives that contributed to the surplus.

See Appendix Q26.

C. LAWS, AUDITS, AND STUDIES

27. Please identify any <u>legislative requirements</u> that the agency lacks sufficient resources to properly implement.

There are no current legislative requirements that DDOT lacks sufficient resources to implement.

28. Please identify any statutory or regulatory <u>impediments</u> to your agency's operations or mission.

There are no statutory or regulatory impediments to DDOT's operations at this time.

29. Please list all <u>regulations</u> for which the agency is responsible for oversight or implementation. Where available, please list by chapter and subject heading, including the date of the most recent revision.

| DCMR Title & | Description | Most Recent |
|--------------|--|-------------------|
| Chapter | - | Revision |
| 18-12 | Bicycles, Motorized Bicycles, and Miscellaneous Vehicles | August 21, 2015 |
| 18-14 | Commercial Transportation Safety | November 19, 2010 |
| 18-15 | DC Circulator | December 10, 2010 |
| 18-16 | DC Streetcar | November 28, 2014 |
| 18-17 | Student Transportation | February 27, 2015 |
| 18-20 | Traffic Regulations: Applicability and Enforcement | March 6, 1998 |
| 18-21 | Traffic Signs, Signals, Symbols, and Devices | May 2, 2008 |
| 18-22 | Moving Violations | January 4, 2019 |
| 18-23 | Pedestrians | August 14, 1987 |
| 18-24 | Stopping, Standing, Parking, and Other Non-Moving | September 11, |
| | Violations | 2019 |
| 18-25 | Size, Weight, Construction, and Loading of Vehicles | November 1, 1991 |
| 18-26 | Civil Fines for Moving and Non-Moving Infractions | August 16, 2019 |
| 18-27 | Special Parking Privileges for Persons With Disabilities | August 16, 2019 |
| 18-40 | Traffic Signs and Restrictions At Specific Locations | November 4, 2016 |
| 18-99 | Definitions | August 16, 2019 |
| 24-1 | Occupation and Use of Public Space | January 27, 2017 |
| 24-2 | Rental of Public Space | February 4, 2011 |
| 24-3 | Administrative Procedures for Sidewalk Cafes | August 31, 2019 |
| 24-5 | Vendors and Solicitors (Just Newspaper Stands) | July 30, 1993 |
| 24-6 | Parking Facilities and Valet Parking | September 4,2009 |
| 24-7 | Parades and Public Events | September 24, |
| | | 2010 |

| 24-8 | Presidential Inaugurations | May 21, 1982 |
|-------|---|-------------------|
| 24-10 | Deposits On Public Space | June 30, 1989 |
| 24-11 | Downtown Streetscape | September 1, 2000 |
| 24-12 | Sidewalks | December 13, 2013 |
| 24-13 | Civil Fines Under D.C. Law 6-100 | September 3, 2010 |
| 24-14 | Street and Alley Closing | July 21, 1989 |
| 24-16 | Valet Parking | September 3, 2010 |
| 24-20 | Prevention of Hazardous Conditions | January 11, 1991 |
| 24-26 | Transportation of Ultra-Hazardous Materials | December 9, 2005 |
| 24-33 | Public Right-of-Way Occupancy Permits | December 21, 2018 |
| 24-34 | Public Space Management of Excavation Work | September 24, |
| | | 2010 |
| 24-35 | Intercity Buses | June 24, 2011 |
| 24-37 | Special Trees | January 21, 2005 |
| 24-41 | Publisher Boxes | November 18, 2016 |

30. Please explain the impact on your agency of any <u>federal legislation or regulations</u> adopted during FY 2019 that significantly affect agency operations.

Section 2403 of the John D. Dingell, Jr. Conservation, Management, and Recreation Act of 2019, approved March 12, 2019 (Public Law 116-9; 133 Stat. 747) authorized the Secretary of the Interior to enter into cooperative management agreements with the District of Columbia. This federal law allows the District of Columbia to expend funds for capital and operating obligations to improve, maintain, operate, or manage National Parks located in the District of Columbia.

- 31. DISREGARD Duplicate question, see Q 21.
- 32. Please provide a list of all studies, research papers, and analyses ("<u>studies</u>") the agency requested, prepared, or contracted for during FY 2019. Please state the status and purpose of each study.

| Study | Purpose | Status |
|-------------------------|---|------------------------|
| Transportation Research | Presented at the 2020 | Presented January 2020 |
| Board Papers | Transportation Research | |
| | Board Annual Meeting: | |
| | "Estimate of the Safety | |

|---|---|--|
| Freight Trip Generation | DDOT has undertaken a research project to understand freight activity at buildings in the District in order to inform on-site loading requirements and curbside management policies. | Study started May 2016, report in final stages of review before publication. |
| Analysis of Bicycle and Pedestrian Crash Causes and Interventions | DDOT has several years' worth of crash data and reports on pedestrian and bicyclist involved crashes. These crashes are analyzed yearly on some summary attributes, but little is known about the true causes of these crashes, and changes to the built environment that would have the greatest crash reduction impact. The goal of this study is to analyze a representative sample of bike and pedestrian crash data from around the District, create a typology of the most common crash types that have a relationship to street design, and provide a recommendation on the potential projects to focus on in order to best address bicycle and pedestrian | Study started July 2017. Report published July 2019. |

33. Please list and describe any ongoing <u>investigations</u>, audits, or reports on your agency or any employee of your agency, or any investigations, studies, audits, or reports on your agency or any employee of your agency that were completed during FY 2019 or FY 2020, to date.

See Appendix Q33 & Q34.

34. Please identify all <u>recommendations</u> identified by the Office of the Inspector General, D.C. Auditor, or other federal or local oversight entities during the previous 3 years. Please provide an update on what actions have been taken to address these recommendations. If the recommendation has not been implemented, please explain why.

See Appendix Q33 & Q34.

35. Please list any **reporting** requirements required by Council legislation and whether the agency has met these requirements.

Please see the response to Question 94.

36. Please list all pending <u>lawsuits</u> that name the agency as a party, and provide the case name, court where claim was filed, case docket number, and a brief description of the case.

See Appendix Q36.

37. Please list all <u>settlements</u> entered into by the agency or by the District on behalf of the agency in FY 2019 or FY 2020, to date, including any covered by D.C. Code § 2-402(a)(3), and provide the parties' names, the amount of the settlement, and if related to litigation, the case name and a brief description of the case. If unrelated to litigation, please describe the underlying issue or reason for the settlement (e.g. administrative complaint, etc.).

See Appendix Q37.

38. Please list any <u>administrative complaints or grievances</u> that the agency received in FY 2019 and FY 2020, to date, broken down by source. Please describe the process utilized to respond to any complaints and grievances received and any changes to agency policies or procedures that have resulted from complaints or grievances received. For any complaints or grievances that were resolved in FY 2019 or FY 2020, to date, describe the resolution.

Office of Employee Appeals

Employees may appeal certain disciplinary actions or terminations to the Office of Employee Appeals (OEA) within 30 days of that action taking place. In general, employees can allege that DDOT did not follow the proper procedure to enact discipline or terminate his or her employment.

If parties request mediation or the nature of the appeal is one that can be settled through mediation, the appeal is referred to OEA's Mediation and Conciliation Program. If mediation is unsuccessful or the appeal was not referred to mediation, the appeal is referred to an administrative judge for adjudication. An administrative judge will hold a pre-trial followed by a hearing where both parties can provide supporting documentation and call witnesses. The administrative judge will issue an initial decision that may be appealed either to the full OEA board or to the DC Superior Court.

DDOT is currently handling one OEA matter that is considered pending. That claim is in regard to an employee who has appealed their termination for being found unsuitable for their position after allegedly driving while intoxicated and in violation of a court order prohibiting them from driving until further order of the court.

An additional OEA matter was filed by a terminated employee; however, that appeal was dismissed as the employee did not file the appeal with OEA in a timely fashion.

Office of Human Rights

Employees may file a claim with the Office of Human Rights if they believe they have been discriminated against due to membership in a <u>District protected class or trait.</u> DDOT has received three claims of this nature; each is currently pending.

A current employee filed a claim alleging he was discriminated against on the basis of race by not being promoted, and on the basis of disability for not being provided with reasonable accommodations.

Two claims were filed by employees alleging they were discriminated against for utilizing family and medical leave.

All of these claims are currently pending.

U.S. Equal Employment Opportunity Commission

Former or current employees may file a claim with the U.S. Equal Employment Opportunity Commission (EEOC) if they believe they have been discriminated against due to membership in a federally protected class or characteristic to include an individual's: race, children, national origin, religion, sex, age, disability, sexual orientation, gender identity, genetic information, and retaliation for reporting a discriminatory practice. DDOT has received three claims of this nature: two being dismissed and one currently pending.

According to one claim, a current employee alleges she was not promoted due to discrimination on the basis of sex and religion. This claim was dismissed by the EEOC.

A second claim from a former employee alleged discrimination on the basis of race, color, and retaliation. This claim was also dismissed by the EEOC.

Most recently, DDOT received a claim from a former employee, alleging discrimination on the basis of race and color. This claim is pending.

Office of Administrative Hearings

DDOT serves Notices of Violation for public space violations and Notices of Infraction for Urban Forestry violations. These citations are adjudicated before the Office of Administrative Hearings (OAH)

In contrast to usual procedures, as opposed to DDOT initiating an OAH matter through enforcement action, DDOT received a claim before this tribunal from a public space permit applicant. The permit application was denied; and, as a result, the applicant seeks to have OAH compel DDOT to issue the two permits sought. Upon assignment of a docket number, DDOT will move to dismiss this matter as being beyond the scope of OAH's jurisdiction.

Public Employee Relations Board

The Public Employee Relations Board (PERB) responds to and adjudicates unfair labor practice complaints that are filed in accordance with PERB Rules.

DDOT adjudicated no unfair labor practice complaint through PERB this past reporting period.

D. ADDITIONAL ORGANIZATION AND OPERATIONS QUESTIONS

39. Please list any allegation of wrongdoing or workplace misbehavior reported to the agency in FY 2019 and FY 2020, broken down by source. Please also describe the process utilized to respond to these allegations.

DDOT understands that this question is concerning allegations of ethics violations or fraud. DDOT has not received any allegations of ethics violations or fraud in Fiscal Year 2019 or Fiscal Year 2020, to date.

The process to respond to an allegation of an ethical violation is to forward that claim to the Board of Ethics and Government Accountability (BEGA) to take action. If BEGA issues a notice of violation against a DDOT employee, DDOT would take appropriate disciplinary action against the employee. The process to respond to an allegation of fraud is to forward the allegation to the Office of the Inspector General (OIG) to investigate. DDOT officials will work with OIG inspectors to determine if fraud has occurred. If there is criminal misconduct, OIG will assume the entire investigation. If OIG reports to DDOT that fraud has occurred, DDOT would take appropriate disciplinary action against the employee.

40. How many contracts did the agency enter into in FY 2019? Are all available to the public online? If not, how many are available online? Why are some not available online?

See Appendix Q25 and Q40. One hundred and fifty-seven (157) contracts and task orders were awarded in FY2019. As of January 14, 2020, the Office of Contracting and Procurement (OCP) reports that 16 contracts entered into during FY 2019 are now available online. One hundred and thirty-seven (137) of the items relevant to this question are Task Orders or Change Orders to contracts. OCP reports that such items are typically not posted online. As of January 14, 2020, four of the FY 2019 contracts are not yet published, because OCP approval to publish is pending final approval of all relevant documentation.

- 41. What funds have been reprogrammed from the agency in FY 2020?
 - The Mayor is currently planning a reprogramming of FY 2020 funds. What funds will be reprogrammed from DDOT?

Please see the response to Q19 for information on reprogrammings.

- 42. How much of the agency's FY 2019 and FY 2020 budgets, in dollar amount and percentage, is federal funding?
 - How much of this funding is for roads?

DDOT 2020 Performance Oversight Hearing

Appendix 42 - Federal Funding

Table 1: Federal funding for DDOT's Operating and Capital Budgets, FY 2019 (in thousands)

| | l otal | ⊢ederal |
|--|-----------|---------------|
| Operating | \$142,590 | \$11,474 8% |
| Capital | \$627,273 | \$173,722 28% |
| MRR00 - Major Rehabilitation, Reconstruction, Replacement* | | \$23,361 |

Table 2: Federal funding for DDOT's Operating and Capital Budgets, FY 2020 (in thousands)

| | Total | Federal |
|--|-----------|---------------|
| Operating | \$146,658 | \$14,509 10% |
| Capital | \$646,917 | \$176,077 27% |
| MRR00 - Major Rehabilitation, Reconstruction, Replacement* | | \$40,917 |

^{*} The MRR00 Master Project funds rehabilitation and reconstruction of minor arterials, collectors, arterials, roads on the national highway system, highways/freeways, bridges, as well as pedestrian and cyclist facilities.

Source: FY 2019 and 2020 Approved Budgets for the District of Colombia

- 43. Please explain precisely how DDOT became the administrator of the Automated Traffic Enforcement Program. Please also explain the following:
- How DDOT's role has changed under the new approach
- How decisions were and are now made with respect to the placement of cameras.
- Whether such decisions have more or less resident involvement
- Whether such decisions have more or less communication with executive officials outside of DDOT, such as the Deputy Mayor, Mayor's Office, CFO or others.

Please explain precisely how DDOT became the administrator of the Automated Traffic Enforcement Program:

The program was transferred pursuant to Mayor's Order 2019-085, issued September 27, 2019.

Please also explain the following:

• How DDOT's role has changed under the new approach:

DDOT now administers the ATE program, including reviewing requests from the community for placement of cameras. DDOT is assessing various components of the program using a strategic, data-driven approach to assess existing business processes, technology, and engineering components of the program. DDOT's end goal is to fine-tune the program to enhance traffic safety in the District.

• How decisions were and are now made with respect to the placement of cameras:

DDOT is developing an expanded site assessment process that incorporates DDOT's safety goals. Overall placement considerations are envisioned as a two-sided approach: a proactive, data-driven network screening approach and a reactive process which would be responsive to external requests from

law enforcement and other entities. Site suitability will be expanded to include a safety study examining both crash history and other network elements which introduce exposure (particularly for vulnerable users). The framework will be data driven (crash history, crash frequency, crash types, speed profiles, roadway geometrics, functional class, site characteristics, adjacent land use and other factors).

• Whether such decisions have more or less resident involvement:

The community engagement portion of the program is still being developed. The framework will be applied proactively, but will be able to screen external requests while maintaining DDOT's role as the traffic safety expert. Automated traffic enforcement is one of the many tools that DDOT has at its disposal to improve traffic safety in the District.

• Whether such decisions have more or less communication with executive officials outside of DDOT, such as the Deputy Mayor, Mayor's Office, CFO or others:

DDOT is an agency under the oversight of the Deputy Mayor for Operations and Infrastructure and therefore works closely with the Deputy Mayor and the Mayor on a wide range of issues, which includes the ATE program. DDOT strives for full transparency as it delivers programs and services to the residents of the District of Columbia, and management of the ATE program will be consistent with that philosophy.

E. <u>Program-Specific Questions</u>

I. Infrastructure and Maintenance

- 44. What is the state of federal roads in the District? Please provide:
- The number of miles of federal roads in the District.
- The percentage of federal roads assessed as Excellent, Good, Fair, and Poor.
- The agency's goals for federal roads assessed as Excellent, Good, Fair, and Poor in FY 2020.
- The amount of funding spent (broken out by local, federal, and special purpose dollars) on resurfacing/improving federal roads in FY 2019.
- Miles of federal roads resurfaced/improved in FY 2019.
- An assessment of whether the amount of funding dedicated to federal roads in FY 2019 was sufficient to meet agency goals.
- The number of miles of federal roads in the District. 472.25, of which 448.52 miles are DDOT maintained.
- The percentage of federal roads assessed as Excellent, Good, Fair, and Poor.

| Excellent | 26.37% |
|-----------|--------|
| Good | 30.11% |
| Fair | 24.86% |
| Poor | 18.66% |

• The agency's goals for federal roads assessed as Excellent, Good, Fair, and Poor in FY 2020.

DDOT is expanding on the work process that was created in early FY 2018 to develop the FY 2020 paving plan. DDOT will create a list of locations following a data informed decision model and process. DDOT will use data from the asset's condition rating, outstanding 311 service requests, age of service requests, and other pertinent data to prioritize locations throughout the District in addition to conducting a final engineering assessment. The results of the process aid in the selection of locations that will generate the PaveDC dashboard.

• The amount of funding spent (broken out by local, federal, and special purpose dollars) on resurfacing/improving federal roads in FY 2019.

In FY 2019, DDOT spent \$23.6M on federal system, (\$5.6M) on non-NHS roads and (\$18M) on National Highway System roads.

Miles of federal roads resurfaced/improved in FY 2019.

19.32 miles

• An assessment of whether the amount of funding dedicated to federal roads in FY 2019 was sufficient to meet agency goals.

The amount of funding allocated to the paving program in FY 2019 allowed DDOT to accomplish the proposed federal paving plan. However, there were a small number of locations that were delayed due to weather and other priority projects.

- 45. What is the state of local streets in the District? Please provide:
- The number of miles of local streets in the District.
- The percentage of local streets assessed as Excellent, Good, Fair, and Poor.
- The agency's goals for local streets assessed as Excellent, Good, Fair, and Poor in FY 2020.
- The amount of funding (broken out by local, federal, and special purpose dollars) spent resurfacing/improving local streets in FY 2019.
- Miles of local streets resurfaced/improved in FY 2019.
- An assessment of whether the amount of funding dedicated to local streets in FY 2019 was sufficient to meet agency goals.

• The number of miles of local streets in the District.

699.47, of which 591.87 miles are DDOT maintained.

• The percentage of local streets assessed as Excellent, Good, Fair, and Poor.

| Excellent | 31.38% |
|-----------|--------|
| Good | 20.54% |
| Fair | 23.42% |
| Poor | 24.21% |

The agency's goals for local streets assessed as Excellent, Good, Fair, and Poor in FY 2020.

DDOT is expanding on the work process that was created in early FY 2018 to develop the FY 2020 paving plan. DDOT will create a list of locations following a data informed decision model and process. DDOT will use data from the asset's condition rating, outstanding 311 service requests, age of service requests, and other pertinent data to prioritize locations throughout the District in addition to conducting a final engineering assessment. The results of the process aid in the selection of locations that will generate the PaveDC dashboard.

• The amount of funding (broken out by local, federal, and special purpose dollars) spent resurfacing/improving local streets in FY 2019.

DDOT spent \$57.8M on local street resurfacing and roadway improvements in FY 2019. This includes both roadway rehabilitation and pothole repair.

Miles of local streets resurfaced/improved in FY 2019.

84.14 miles

 An assessment of whether the amount of funding dedicated to local streets in FY 2019 was sufficient to meet agency goals.

The amount of funding allocated to the paving program in FY 2019 allowed DDOT to accomplish the proposed paving plan. However, there were a small number of locations that were delayed due to weather and other priority projects

- 46. What is the state of alleys in the District? Please provide:
- The number of miles of alleys in the District.
- The percentage of alleys assessed as Excellent, Good, Fair, and Poor.
- The agency's goals for alleys assessed as Excellent, Good, Fair, and Poor in FY 2020.
- The amount of funding (broken out by local, federal, and special purpose dollars) spent resurfacing/improving alleys in FY 2019.
- Miles of alleys resurfaced/improved in FY 2019.
- An assessment of whether the amount of funding dedicated to alley maintenance and repair in FY 2019 was sufficient to meet agency goals.
- The number of miles of alleys in the District. 362.61, of which 350.04 miles are DDOT maintained.
- The percentage of alleys assessed as Excellent, Good, Fair, and Poor.

| Excellent | 59.69% |
|-----------|--------|
| Good | 13.70% |
| Fair | 10.36% |
| Poor | 16.25% |

• The agency's goals for alleys assessed as Excellent, Good, Fair, and Poor in FY 2020.

DDOT is expanding on the work process that was created in early FY 2018 to develop the FY 2020 alley paving plan. DDOT will create a list of locations following a data informed decision model and process. DDOT will use data from the asset's condition rating, outstanding 311 service request counts, age of service requests and other pertinent data to prioritize locations throughout the District in addition to conducting a final engineering assessment. The results of the process aid in the selection of locations that will generate the PaveDC dashboard.

• The amount of funding (broken out by local, federal, and special purpose dollars) spent resurfacing/improving alleys in FY 2019.

DDOT spent \$22.2M of local capital funds in FY 2019 on alleys.

• Miles of alleys resurfaced/improved in FY 2018.

150 unique alley locations or 21.7 miles

• An assessment of whether the amount of funding dedicated to alley maintenance and repair in FY 2019 was sufficient to meet agency goals.

The amount of funding allocated to the alley program in FY 2019 allowed DDOT to accomplish the proposed paving plan. However, there were a small number of locations that were delayed due to weather and other priority projects. The agency was able to start and complete AlleyPaloozas 8 & 9, complete 21.7 miles of alleys.

- 47. What is the state of sidewalks in the District? Please provide:
- The number of miles of sidewalks in the District.
- The percentage of sidewalks assessed as Excellent, Good, Fair, and Poor.
- The agency's goals for sidewalks assessed as Excellent, Good, Fair, and Poor in FY 2020.
- The amount of funding (broken out by local, federal, and special purpose dollars) spent resurfacing/improving sidewalks in FY 2019.
- Miles of sidewalks resurfaced/improved in FY 2019.
- An assessment of whether the amount of funding dedicated to sidewalks in FY 2019 was sufficient to meet agency goals.
- The number of miles of sidewalks in the District. 1,495.08, of which 1,406.76 miles are DDOT maintained
- The percentage of sidewalks assessed as Excellent, Good, Fair, and Poor.

| Excellent | 58.48% |
|-----------|--------|
| Good | 32.08% |
| Fair | 9.44% |
| Poor | 0% |

• The agency's goals for sidewalks assessed as Excellent, Good, Fair, and Poor in FY 2020.

DDOT is expanding on the work process that was created in early FY 2018 to develop the FY 2020 sidewalk plan. DDOT will create a list of locations following a data informed decision model and process. DDOT will use data from the asset's condition rating, outstanding 311 service requests, age of service requests, and other pertinent data to prioritize locations throughout the District in addition to conducting a final engineering assessment. The results of the process aid in the selection of locations that will generate the PaveDC dashboard.

• The amount of funding (broken out by local, federal, and special purpose dollars) spent resurfacing/improving sidewalks in FY 2019.

DDOT spent \$20.3M of local capital funds in FY 2019 on sidewalks.

- Miles of sidewalks resurfaced/improved in FY 2019.
- 31.51 miles of sidewalk blocks
- An assessment of whether the amount of funding dedicated to sidewalks in FY 2019 was sufficient to meet agency goals.

The amount of funding allocated for the sidewalk program in FY 2019 allowed DDOT to accomplish the proposed capital plan. The agency was able to resurface/improve 31.51 miles of sidewalks.

48. What is the state of bridges and tunnels in the District? Please provide:

- The number, name, and location of each structurally deficient bridge and tunnel.
- The timeline for repairing or replacing each structurally deficient bridge and tunnel, including the date when construction is expected to begin.
- Are any of these bridges and tunnels expected to reach a hazardous state, necessitating its closure or reduction in use, before construction is completed?
- The amount of funding (broken out by local, federal, and special purpose dollars) spent resurfacing/improving bridges and tunnels in FY 2019.
- Miles of bridges and tunnels resurfaced/improved in FY 2019.
- What department at DDOT is responsible for removing graffiti on bridges?
- What is DDOT's protocol for detecting and removing graffiti on bridges?
- How much money did DDOT spend on removing graffiti on bridges in FY 2019?

See Appendix Q48 for Structurally Deficient Bridges.

• The number, name, and location of each structurally deficient bridge and tunnel.

There are four (4) structurally deficient bridges in the District. The table above shows the name and location of each structurally deficient bridge.

• The timeline for repairing or replacing each structurally deficient bridge and tunnel, including the date when construction is expected to begin.

The table above shows the status and timeframe for repairing/replacing each bridge.

• Are any of these bridges and tunnels expected to reach a hazardous state, necessitating its closure or reduction in use, before construction is completed?

None of these bridges is in a critical state.

• The amount of funding (broken out by local, federal, and special purpose dollars) spent resurfacing/improving bridges and tunnels in FY 2019.

For estimated project costs, please see table above. The typical share for bridge projects between local and federal funding is 20 percent local and 80 percent federal.

• Miles of bridges and tunnels resurfaced/improved in FY 2019.

In FY 2019 DDOT's bridge preservation and preventive maintenance program improved approximately 50 bridges (approximately 4.0 miles) and 15 tunnels (approximately 2.0 miles).

• What department at DDOT is responsible for removing graffiti on bridges?

DDOT does not have a graffiti removal contract. Graffiti removal happens alongside regular maintenance work performed on the bridge, not as a separate work item.

What is DDOT's protocol for detecting and removing graffiti on bridges?

DDOT will remove graffiti on bridges as part of regular maintenance. In cases where federal highway funding is used for bridge maintenance, if graffiti removal is not included in the scope of work, it cannot be done, even with local funds.

How much money did DDOT spend on removing graffiti on bridges in FY 2019?

DDOT's Asset Management team spent \$0 on graffiti removal in FY 2019.

- 49. What is the status of the Streetscape projects currently underway? For each project, please include:
- The project's name and location.
- The project's budget.
- Status (e.g., the stage in design process or under construction).
- Whether the project is on schedule and on budget.
- Anticipated completion date.

See Appendix Q49- Streetscape Projects for all active streetscape projects.

Projects in earlier stages of the project development process (Planning and Preliminary Engineering) have less certain costs and construction schedules. The construction schedules shown assume funding availability. However, the construction dates may change based on funding availability. Projects shown with "TBD" dates in the table are being advanced through planning or preliminary design, but are too early in the process to assign construction start/end dates.

- 50. Please address the following projects with the same information as requested in question #48 (e.g. the project's name and location):
 - The Florida Avenue NE Multimodal project
 - The Maryland Avenue NE Streetscape project
 - The Cleveland Park Streetscape and Drainage Improvement Project- The C Street Northeast rehabilitation project
 - The Reconstruction and Rehabilitation of the Pedestrian Bridge and Connecting Trail at Arizona Avenue, NW.-
 - Canal Road and sidewalk connecting Arizona to Capital Crescent Trail
- The design for the Florida Avenue NE Streetscape Project (from 2nd Street to H Street NE) is 65% complete. DDOT anticipates delivering the final design by fall 2020. DDOT plans to advertise the project for construction in late 2020 and begin construction in spring 2021.
- The Maryland Avenue NE Streetscape project is in construction and it is about 10% complete, the project is scheduled to be completed by June 2021.
- The C Street Northeast rehabilitation design will be completed by March 2020, and as soon as funding becomes available it should be advertised for construction in 2020.
- Cleveland Park PS&E submission is expected in Winter of 2020. Construction is expected to be advertised in Fall of 2020 and construction to start in Winter of 2021.
- The Pedestrian Bridge over Arizona Ave and connecting trails is in design and is 30% complete. There will be a Public meeting in January of 2020 to present the preliminary design. Final design is expected to start in Winter of 2020 and be completed in Winter of 2021.
- 51. What is the status of the 11th Street Bridge and South Capitol Street Bridge Projects? Did the timeline, budget, or scope of either project change in FY 2019 or FY 2020, to date?

11th Street Bridge Park Project

Bound by the Washington Navy Yard on one side and Anacostia Park on the other, the 11th Street Bridge Park will be a place for gathering and entertainment for those in the neighboring communities, a playful destination for some, and a pedestrian or bicycle route for others.

Current Status: The project is currently in the environmental and preliminary design (0-30%). The design concept (as revised based on the feasibility study) was reviewed and approved by the National Capital Planning Commission (NCPC) on November 2, 2017 and the Commission of Fine Arts (CFA) on November 16, 2017 and the feasibility report was completed. Currently, the environmental assessment and preliminary design of the project contract is being reviewed.

Timeline: The current project schedule is: preliminary design and environmental assessment as per NEPA to be completed in Fall 2020 and estimates for final design to be completed Fall 2021. Assuming funding availability, estimated award for construction is Spring 2022.

South Capitol Street Bridge Project

The South Capitol Street (SCS) Corridor Project is divided into two phases:

- Phase 1 includes a new Frederick Douglass Memorial Bridge (FDMB) over the Anacostia River, and includes the approaches on each side of the river plus reconstruction of a portion of I-295, including the I-295/Suitland Parkway Interchange.
- Phase 2 includes a new interchange on Suitland Parkway at MLK, Jr. Avenue, plus reconstruction and streetscape improvements on South Capitol Street north of the Nationals Ballpark and New Jersey Avenue north of M Street SE. Phase 2 of the project will not start until approximately 2022. While the timeline of the project has not changed, the overall costs of Phase 2 have been reduced due to refining the design along Suitland Parkway and Martin Luther King, Jr. Avenue.
- Phase 1 of the SCS Corridor Project was procured using a design/build delivery method. The project was awarded in July 2017 to South Capitol Bridge Builders A Joint Venture of Archer/Western and Granite Construction Companies. At \$440.8 million, Phase 1 is the largest infrastructure project in DDOT's history. Additionally, DDOT awarded the Program Management/Construction Management Oversight contract to HNTB in August 2017.

Current Status: DDOT issued the notice to proceed for the bridge construction in January 2018 and a groundbreaking ceremony was held on Tuesday February 13, 2018. Currently, construction activities are in progress and the bridge is likely to be completed by Winter 2021/2022.

Timeline: The project timeline did not change significantly. With the award of the project and DDOT obtaining all major construction permits, the project timeline for Phase 1 remains as follows:

- Project Award July 2017
- Start of Construction January 2018
- New FDMB and approaches completion Summer 2021
- Project Completion Winter 2021/2022

Funding: Funding for the project remains as shown in the Updated Financial Plan.

52. Please provide the agency's street, alley, and sidewalk improvement schedule for FY 2019 through FY 2023.

- Which streets, alleys, and sidewalks were scheduled to be improved in FY 2019?
- Of these, which were not completed? Why?

Each year, DDOT creates an annual work plan to address infrastructure related repairs (Sidewalk, Streets and Alleys) based on annual surveys, other quality assessments, and 311 service requests. The annual work plans are published on DDOT's PaveDC website, as well as project status (planned, under construction, substantially complete, and completed).

The FY 2020 work plan is currently in a draft final stage and paving locations are being inspected by DDOT's engineers for final approval.

Locations that were not completed in FY 2019 can be found on the PaveDC website. They are primarily due to delays in availability of federal funds (waiting for August redistribution monies/obligation), partial suspension of work per contract requirements, differing site conditions, and/or inclement weather the region experienced throughout the construction season. However, each of the locations not completed in FY 2019 will become part of next year's 2020 work plan.

53. Please explain whether DDOT facilitates a utility working group to plan and coordinate when roads can and will be torn up for utility line replacement.

- Are there set times for meetings? If so, when and how often are they? Please provide a list of meeting dates, times, locations, and attendees for FY 2019 and FY 2020, to date.
- What is the protocol to determine whether a street can be torn up for utility work? How do the various utilities coordinate on which streets to tear up?
- What is the process for tearing up a road during an emergency? What constitutes an emergency, and is that definition based in regulation or policy?
- How many emergencies have there been in FY 2019 and FY 2020, to date, that required a road or sidewalk to be torn up?
- Are utilities required to restore the road to its original condition within a certain amount of time after completing their work? How does the agency enforce this requirement?

DDOT IPMD holds monthly Utility Coordination Meetings where IPMD Project teams provide updates on the status of their projects in various stages of planning, design, and/or construction. It offers an opportunity for the entities listed below to communicate current and future work, and also address any coordination efforts that may be required at the present time.

Which entities are involved? Is this required by a law, regulation, or policy?

Invitees include representatives from the following entities:

- DC Water
- Pepco
- Washington Gas
- Verizon
- Comcast
- RCN
- CenturyLink/Qwest
- WMATA

- Public Service Commission
- DDOT IPMD Teams
- DDOT TOA Asset Management Branch
- DDOT PSRD

24 DCMR 3401.1 requires that "On the first day of June and December of each year, or the first regular business day immediately thereafter, any Person owning underground stand-alone conduit in the Public Right-of-Way shall submit to the Department a plan" showing planned excavation work anticipated during the upcoming two-year period. The above list of entities either own such conduit, own assets likely to be impacted by excavation in the public right-of-way, or have relevant regulatory authority over such entities.

• Are there set times for meetings? If so, when and how often are they? Please provide a list of meeting dates, times, locations, and attendees for FY 2019 and FY 2020, to date.

The meetings are held ten (10) times annually, at 10:30 AM on the last Tuesday of each month excluding August and December. The meetings all take place at DDOT's 55 M Street SE location.

FY 2019 Dates:

- October 30, 2018
- November 27, 2018
- January 29, 2019
- February 26, 2019
- March 26, 2019
- April 30, 2019
- May 28, 2019
- June 25, 2019
- July 30, 2019
- September 24, 2019

FY 2020 Dates:

- October 29, 2019
- November 26, 2019
- January 28, 2020
- February 25, 2020
- March 31, 2020
- April 28, 2020
- May 26, 2020
- June 30, 2020
- July 28, 2020
- September 29, 2020

Please see Appendix Q53 for October 30, 2018 – November 26, 2019 meeting attendees.

• What is the protocol to determine whether a street can be torn up for utility work? How do the various utilities coordinate on which streets to tear up?

DC Regulations provide that other than for non-emergency work, a permit will not be issued for streets that have been "reconstructed or resurfaced" in the five (5) years before the application for a permit was submitted. The regulation does provide for DDOT to grant exceptions to this "moratorium" for good cause shown. Other than for emergency work, which is explicitly excluded from the moratorium, the most common reasons DDOT grants exceptions are for new utility connections for new construction and for capping existing service when service is no longer required by the end user. If an exception is granted, the person performing the excavation may be held to a higher standard for restoring the right of way beyond the limits of restoration provided for in DDOT's Standard Specifications for Highways and Structures.

• What is the process for tearing up a road during an emergency? What constitutes an emergency, and is that definition based in regulation or policy?

Utilities report emergencies 24 hours a day, 7 days a week, using DDOT's online permitting system, TOPS. They initiate a report whenever a crew is dispatched to investigate any report the utility receives of an emergency in public space. Nearly 30 percent of initial investigations return a report that an emergency excavation is not required.

When an emergency report results in an excavation the utility is then required to submit a public space permit application through the normal permitting process, consistent with regulations and practices. Emergencies are defined in regulations and policy (DCMR 24-3403.9 and Standard Specifications for Highways and Structures. The DCMR provision defines an emergency as "any action necessary for the preservation of life or property or for the restoration of interrupted service provided by a utility". The Standard Specifications define an emergency much the same way ("a threat to public safety or a situation in which vital [i.e. electricity, gas, water, sanitary sewers, storm sewers, or telephone services to a premise] has been disrupted."—107.08).

• How many emergencies have there been in FY 2018 and FY 2019, to date, that required a road or sidewalk to be torn up?

In FY 2019, utilities reported 6,736 emergencies, of which 5,266 required some level of excavation. In FY 2020 to date (12/16/2019), utilities have reported 1,312 emergencies, of which 1,209 required some level of excavation.

• Are utilities required to restore the road to its original condition within a certain amount of time after completing their work? Do they always meet this expectation? How does the agency enforce this requirement?

All excavations, whether emergencies or standard permitted work, are required to be restored at the end of the permit authorizing the work. (Note that all emergency work that requires an excavation must be followed by a public space permit application by DCMR 24-303.)

Utilities do not always meet this expectation. DDOT takes various enforcement actions with utilities when they fail to restore the right of way before a permit expires, depending on the severity of the failure to restore. In FY 2019 DDOT issued over 700 Notices of Violation and Stop Work Orders for failure to restore before the permit expired, failure to restore to DDOT standards, excavating without a permit, and other violations.

• How long does the agency permit metal plates to be installed in a road?

Plates are placed in the roadway for a variety of reasons. Those placed by persons performing excavations are permitted to be in place for the duration of the period necessary to perform the excavation. In most cases, this is a period less than a week. In the case of longer term excavations this can be a period of months.

- 54. Please provide an update on efforts to convert the District's streetlights to LED.
 - Where has DDOT already installed LED bulbs? Please provide a list or map of the locations that also indicates the temperature of the bulbs in those locations any other pertinent information as to their brightness.
 - Where does DDOT intend to install LED bulbs in the remainder of FY 2020 and in FY 2021? Please provide a list or map of the locations indicating the anticipated temperature of the bulbs to be installed in those locations.
 - Does DDOT also install night shields on the lights? How does DDOT determine when to install a night shield?
 - Where does the P3 currently stand?
- Where has DDOT already installed LED bulbs? Please provide a list or map of the locations that
 also indicates the temperature of the bulbs in those locations any other pertinent information as to
 their brightness.

DDOT publishes an interactive map online showing where LEDs are located and their respective correlated color temperatures. Please see link for map:

https://dcgis.maps.arcgis.com/apps/webappviewer/index.html?id=b57bda72b43d45f59118fd841af03a24

• Where does DDOT intend to install LED bulbs in the remainder of FY 2020 and in FY 2021? Please provide a list or map of the locations indicating the anticipated temperature of the bulbs to be installed in those locations.

DDOT is still working on its implementation plan and has not yet determined the exact locations of LED installations.

• Does DDOT also install night shields on the lights? How does DDOT determine when to install a night shield?

DDOT's maintenance contractor installs shields on lights, whether LED or HPS, upon resident request, typically through 311, and pending Streetlight Division approval. When a request is made a Streetlight Division Ward Representative will make a technical determination as to if the shield is warranted and where the shield should be positioned. Once approved, the shield will be installed.

• Where does the P3 currently stand?

After a thorough re-evaluation, three teams were shortlisted to continue to the RFP stage of the procurement. One team did protest this shortlist, but the CAB has ruled in favor of the District. The DDOT team has held two sets of one-on-one meetings with each of the shortlisted teams as part of the RFP procurement. The DDOT team has also worked to refine the RFP documents.

- 55. What is the status of the District's implementation of 5G Small Cells?
 - When did DDOT begin accepting applications for 5G Small Cells?
 - How many 5G Small Cells have been installed in the public space thus far?
 - Is the 5G installation process delayed? If so, why?

- Has DDOT settled on a uniform design for free-standing poles?
- If yes, has this design been approved by the Commission on Fine Arts, the National Capital Planning Commission, or the Office of Planning?
- What is the status of the District's implementation of 5G Small Cells?

The permitting of Small Cell installations in public space is currently underway. On March 21, 2019, the Public Space Committee formally adopted a comprehensive set of guidelines that resulted from an open, transparent, comprehensive, and thorough campaign to solicit feedback from all stakeholders. The guidelines were the first formal step in the implementation process.

• When did DDOT begin accepting applications for 5G Small Cells?

On April 26, 2019 DDOT opened its online permitting system, TOPS, for small cell installation applications. On November 22, 2019, following coordination with the small cell providers and the owners of third-party utility poles (i.e. Pepco and Verizon), DDOT implemented an enhancement to the permit application system for small cell installations.

• How many 5G Small Cells have been installed in the public space thus far?

9 locations have been installed as of December 18, 2019. These include installations in wards 3, 5, 6, 7, and 8.

• Is the 5G installation process delayed? If so, why?

The 5G installation process is not delayed. The implementation of a major utility infrastructure upgrade, especially one that will be deployed across the city and has many different stakeholders, requires a methodical and incremental approach. DDOT has deployed resources, time, and attention to ensure the program is deployed in a manner that is thoughtful and well-planned.

Additionally, there are elements of the deployment that are outside of DDOT's control. For example, installations on utility poles require the approval of the pole owner. The owner's input on the location, design, and installation of small cell infrastructure is outside of DDOT's authority to mandate. DDOT has included the pole owners in the discussions and planning for both the online permitting protocols and the mapping of an overall process flowchart so there are clear expectations and commitments from all stakeholders.

• Has DDOT settled on a uniform design for free-standing poles?

No. The coordination meetings to draft a single uniform design for free-standing poles are ongoing while private sector partners work to address engineering challenges posed by the original prototype designs.

• If yes, has this design been approved by the Commission on Fine Arts, the National Capital Planning Commission, or the Office of Planning?

These parties have been included in the design process, which as noted is ongoing.

56. What is the status of a bike lane on Connecticut Ave NW? Has DDOT commissioned a study on the removal of reversible lanes?

A kick-off meeting for the Connecticut Avenue Reversible Lane Study occurred on December 18, 2019. The selected consultant team is led by AMT Engineering. The study will have two phases. Phase I will last 9 months, concluding in fall of 2020, and generate a concept report that includes recommendations of any alternatives and new infrastructure, including a bike lane, that may advance to Phase II. Phase II will last six months, concluding in Spring of 2021, and include tasks related to development of a Categorical Exclusion (Level 3) environmental document, as part of the NEPA process, and community engagement.

- 57. What is the status of the completion of the H Street Bridge Project? Did the timeline, budget, or scope of the project change in FY 2019 or FY 2020, to date?
- Please provide an update on the FY 2019-24 Transportation Improvement Program for the National Capital Region and the allocation of Federal Grant money.

DDOT is completing the preliminary design of the project for the H Street Bridge project. The is a very complex project and DDOT has been actively coordinating with the Union Station Redevelopment Corporation (USRC), Amtrak, Akridge, Federal Railroad Administration (FRA), DC Streetcar, and the U.S. Department of Transportation in planning, preliminary design, and bridge construction.

DDOT is planning to use a "design-build" project delivery procurement for this project in order to considerably reduce construction time. Unlike the typical "design-bid-build" process which requires design to be complete before construction can begin, the "design-build" approach allows the design phase to overlap with the construction phase, reducing the total construction time.

Timeline: As of November 2019, DDOT has completed the bridge documents (30 percent design) and DDOT is working on the RFQ package. The design-build-construction contract will be advertised by mid-2020, rather than early 2020, as DDOT works toward satisfying requirements related to Historic Preservation and the Project Labor Agreement.

Scope: DDOT has been working with FRA, USRC, DC Streetcar and Amtrak on the reconstruction, maintenance, and design of the bridge. This work has been coordinated with the Washington Union Station Expansion Project Environmental Impact Statement (EIS) process. Decisions about passenger rail facilities, pedestrian and bicycle flow, parking access, intercity buses, streetcar, and development access all factored into the preliminary design and future construction of the bridge. DDOT has coordinated with other stakeholders to ensure the project meets the needs of all the stakeholders and to ensure it is successful.

Funding (TIP FY2019-24: The funding supporting the H Street Bridge project in the FY 2020- FY 2025 CIP, the plan provided \$248M in budget authority all of which is backed by General Obligation (GO) Bond revenue proceeds.

The preliminary design and the ongoing Washington Union Station Expansion Project Environmental Impact Statement led by the Federal Railroad Administration will refine the cost estimates for the final design and construction phases, along with programming the necessary funding in the region's

Transportation Improvement Program (TIP) and the District's Statewide Transportation Improvement Program (STIP).

58. What is the status of the Oregon Avenue NW and Eastern Avenue NE Projects? Did the timeline, budget, or scope of either project change in FY 2019 or FY 2020, to date?

Oregon Avenue

Construction began on December 16, 2019 and is expected to last 27 months and be complete in early 2022. The project award for construction was had to be extended due to the need to identify additional funds after the construction bids came in higher than anticipated. The scope of the \$25M project is unchanged.

Eastern Avenue

This project extends from New Hampshire Avenue to Whittier Street, and the estimated construction cost is \$9 million, The Final Design is currently at the 65 percent design stage. A request from the City of Takoma Park in FY2017 to resurface Eastern Avenue to Laurel Avenue, NW as part of this project was denied; however, the requested work will be completed into existing asset management contracts. The project schedule has been extended to underground street light conduits and design traffic signals at the intersections of Eastern at Sligo Mill Road and Eastern at Kansas Avenue. Design should be complete by summer 2020, construction should begin in Winter 2021, and should finish in spring 2022.

59. Please provide a status update of the rehabilitation of Broad Branch road and confirm that it has been completed. In late 2017, DDOT resurfaced Broad Branch Road from Western Avenue NW down to Runnymede Place NW, but the road from Linnean Avenue NW to Beach Drive NW remained to be rehabilitated.

The Final EA is being reviewed by FHWA. There will be a public meeting in Spring of 2020. The EA completion is expected to be in Fall of 2020. The next phase of the project will be the Design Phase. Construction is estimated to begin in the Winter of 2023 at an approximate cost of \$40 M.

60. What is the status of the East Capitol St. Bridge and Theodore Roosevelt Bridge rehabilitations? Did the timeline, budget, or scope of either project change in FY 2019 or FY 2020, to date?

East Capitol Street Bridge

East Capitol Street Bridge Rehabilitation Project was awarded a notice-to-proceed (NTP) on February 27, 2019, and is currently in Phase 2 of three phases of construction. Change Orders to the scope of work pertaining to permanent lighting modifications, bridge bearings, storm drain design, and utility conflicts are currently in negotiations. These outstanding change orders are estimated to add approximately \$940,000.00 to the cost of the project. The estimated completion date for the project is July-August of 2020.

Theodore Roosevelt Bridge

Theodore Roosevelt Bridge rehabilitation project is currently under the final design phase which includes the environmental documentation task for Categorical Exclusion (CATEX) Level 3. The project will perform supplemental assessment of the deck structure condition and Value Engineering (VE) review per DDOT Design Engineering Manual. The project also requires extensive coordination and special use

permits by the National Park Service (NPS) due to the proposed sidewalk widening on the north side the bridge. Final design is 65% complete. The final design of bridge rehabilitation is anticipated to complete in December 2020. Construction funds have not been identified yet.

61. What is the status of the Tenley Plaza project? Did the timeline, budget, or scope of either project change in FY 2019 or FY 2020, to date?

After further evaluation of the project needs, DDOT is reviewing options that will allow the department to meet the transit needs of Tenley Plaza faster than a large-scale capital project would allow.

- 62. What is the status of the K Street Transitway project?
 - Is DDOT able to progress with the project despite limited funding made available by the Council in FY 2020?

K Street Transitway is midway through 30% Design, with an updated 30% Design set anticipated to be completed in Spring 2020. The final design contract is anticipated to begin in summer 2020 and completed in summer 2021. With Mayoral and Council approval, DDOT was able to reprogram \$4.7M of unused WMATA local capital funds (SA311C) in June 2019 to expedite the design of the K Street Transitway (see REPROG23-0026). Due to this reprogramming, DDOT can continue to progress with the project. DDOT's FY21-27 Capital Budget Request reflects the years in which funding will be needed to meet the project's accelerated timeline.

- 63. What is the status of DDOT's plans to deal with the virtual circle of New York Ave, Florida Ave, First Street NE, and Eckington Place NE?
 - What is the timeline for making changes there?
 - Is DDOT looking at short-term solutions? What are they?

Over several years, DDOT has made many adjustments to and studied major capital improvements for the intersection of Florida Ave NE, New York Ave NE, First Street NE, and Eckington Place NE. The intersection is sometimes known as the "Virtual Circle," in reference to the intersection design installed by DDOT in 2010, or "Dave Thomas Circle," in reference to the Wendy's restaurant located at the center of the intersection. DDOT is pursuing a new intersection design that would realign and add two-way traffic to First Street NE, restore two-way traffic on Florida Avenue NE, and make other improvements to the safety and legibility for all modes. This project represents an opportunity to improve safety for all roadway users, particularly pedestrians and bicyclists, and to improve a key transportation link across the city.

In 2019, DDOT built upon previous studies, data collection, and community engagement to advance the project. DDOT has worked with the Federal Highway Administration (FHWA) to secure the environmental approval that is necessary to move forward with the design and property acquisition. In response to meetings with community stakeholders and additional traffic and safety analysis, DDOT has made revisions to the design, with particular attention paid to safety for all users, particularly pedestrians and bicyclists. The project is currently at 30% design.

As part of the design process, DDOT is partnering with the NoMa Business Improvement District (BID), which is hiring an urban design/landscape architecture firm to advance concepts for the new open spaces. Additionally, the DC Office of Planning (OP) is conducting a Public Life Study which looks at how people use and move through the space today and makes recommendations for the future.

DDOT is prioritizing the final design of the intersection and the acquisition of the property at the center of the intersection to advance this capital project. DDOT anticipates completing the final design in Fall 2020 and estimates construction from Spring 2021 to Summer 2022.

64. What is the status of the Foundry Branch trolley trestle? Does DDOT have future plans for the bridge?

In December 2018, DDOT kicked off a feasibility study for the Palisades Trail, including the Foundry Branch Bridge. The Study was completed in December 2019. The study identified opportunities and constraints related to building a trail for pedestrians and bicyclists along the old trolley corridor. The study found that restoration of the Foundry Trestle Bridge is feasible through replacement of the approach trestles and abutments at a cost between \$2.5 and \$4.5 million. However, the trestle rehabilitation, along with most of the rest of the \$20 million Palisades Trail will not move forward at this time due to cost, engineering, and right of way challenges. Any trail alignment near the Foundry Trestle Bridge would require property from WMATA, NPS, and/or Georgetown University. DDOT plans to develop a small section of the Palisades Trail near the Arizona Avenue Bridge and improve the connection to the Capital Crescent Trail at Arizona Avenue. The future of the trestle is now in the hands of WMATA and Mayor's Agent for Historic Preservation.

65. What is the status of the Pennsylvania Avenue West streetscape project?

The project completed preliminary design in September 2019, and is currently in the final design phase. Final design of the project is expected to complete by October 2020. The project will include new protected bike lanes in both directions, separated by new medians. Other streetscape improvements for streetlight, landscape, sidewalk, drainage, stormwater management are included in the project.

66. In FY 2020, the Committee allocated \$62,754,000 for Streetscapes and Beautification projects (LMBSS). Please list the projects being funded by this allocation and the estimated cost of each.

| Project No | Project Title | FY 2020 |
|---|--|------------|
| LMBSSC STRE | ETSCAPES AND BEAUTIFICATION | 62,754,000 |
| LMB23C - FLORIDA | AVE NE AND NEW YORK AVENUE NE INTERSECTION | 35,000,000 |
| EDL18C - NEW YO | RK AVENUE STREETSCAPE AND TRAIL PROJECT | 4,500,000 |
| SR098C - WARD 8 | STREETSCAPES (MARTIN LUTHER KING JR. AVENUE SE) | 12,000,000 |
| LMB20C - EASTERI | NAVE NE REHABILITATION | 4,883,000 |
| LMB05C - FLORIDA | AVE. NW, 9TH TO SHERMAN | 3,526,000 |
| LMB19C - CHESTN | JT ST FROM WESTERN AVE TO OREGON AVE NW SIDEWALK | 1,845,000 |
| TBD - NEW YORK | AVENUE MEDIANS | 1,000,000 |
| *Federal formula funds will be leveraged to support the budget plans as provided through the development of the federal obligation plan | | |

67. Please provide an update on the efforts of the National Park Service to rehabilitate Beach Drive. What work has NPS completed to date? What is the estimated timeline for completion of Phase IV?

The three-year project to rehabilitate Beach Drive is now complete. Phase IV of the project was completed in September 2019; the entire stretch of Beach Road is now open to traffic. Over the last three years, the National Park Service and Federal Highway Administration have:

- Resurfaced 6.5 miles of road.
- Installed new pavement markers, center-line rumble strips, guardrails and road signs along the whole road.
- Improved safety markings and crosswalks throughout Beach Drive.
- Replaced traffic signals and streetlights.
- Rehabilitated or repaired six bridges.
- 68. Please explain the status of the green alley program. Please include the location of any projects completed in FY 2018 and FY 2019 or planned for FY 2020 and FY 2021 and the costs associated with each project.
 - What is the protocol for maintaining the green alleys? Are they assessed every year?

To date, DDOT's Stormwater Management team has constructed various green infrastructure (GI) facilities such as green alleys, permeable parking lanes, and bioretention cells at different locations in the city. Approximately \$11M has been expended on projects that are completed or currently under construction (FY2017-2019), with an additional \$4M planned for construction in FY 2020 and FY 2021. DDOT will start designs for additional projects in 2020 with an expected construction cost of approximately \$4M.

In 2018 DDOT completed the construction of seven (7) standardized green alleys at a cost of \$2.7 million paid for by DC Water at the following locations:

- 1365 Oak ST NW Sq. 2835, 600
- Hamilton ST NW Sq. 3211
- 509 Randolph St NW Sq. 3232
- 4611 Arkansas Ave NW Sq. 2814
- 715 Madison ST NW Sq. 3155
- 5511 13th St NW Sq. 2933
- 3712 T ST NW

The following includes the location of green alley projects completed in FY2018 and FY2019.

- Group 1 construction complete: (3 Alleys)
 - o 3800 Klingle Pl NW (\$530,000) in WARD 3 (Completed in FY 2018)
 - o 2212 R St NE (\$360,000) in WARD 5 (Completed in FY 2018)
 - o 4121 18th Pl NE (\$240,000) in WARD 5 (Completed in FY 2018)
- Group 2 construction completed: (3 Alleys)
 - o 2901 South Dakota Ave NE (\$400,000) in WARD 5
 - o 7016 9th St NW (\$250,000) in WARD 4 (Completed in FY 2018)
 - o 2432 Irving St SE (\$160,000) in WARD 8 (Completed in FY 2018)
- Group 3 Design completed: Construction (3 Alleys)
 - o 3908 Jenifer St NW (\$310,000) in WARD 3 (Completed FY2019)
 - o 3346 Erie St SE (\$920,000) in WARD 7 (Completed in FY2019)
 - o Roxanna Rd NW (\$450,000) in WARD 4 (Completed in FY2019)

- Green Alleys as part of a watershed project
 - o Alger Park Upland LID Project in WARD 7 1 Alley completed in FY2019
 - o LeDroit Park Phase 1 in WARD 1/5 2 Alleys (Completed in FY2019
 - o LeDroit Park (Bloomingdale) Phase 2 in WARD 1 − 2 alleys (Completed in FY2019)
 - Oregon Avenue Watershed Green Streets in WARD 4 1 Alley (Substantial Completion FY2019)
 - o Klingle Watershed in WARD 3 2 Alleys (Completed in FY2019)

Generally there are two types of maintenance actions (routine and need-based) outlined in DDOT's GI standards.

Routine Maintenance

- Department of Public Works conducts routine maintenance of green alleys and permeable pavements installed along streets and parking lanes through the street sweeping program.
- Routine maintenance for permeable pavers is scheduled to be done quarterly in potential high sediment load areas or twice a year otherwise.
- Routine maintenance of bioretention facilities is currently being undertaken by DDOT's Urban Forestry Division. Routine maintenance for bioretention ranges from watering plants to weed control, mulching, etc., and schedules vary from weekly (watering) to three years (remove and replace mulch layer).

Need-Based Maintenance

DDOT's Asset Management team performs all need based maintenance activities for major infrastructure repair or and specialized groups like the UFD for special needs.

In general, in order to facilitate better and effective planning, implementation, and management of DDOT's Green Infrastructure, DDOT plans to launch the following three citywide programmatic projects in FY 2020-2021:

- Create a GIS-based database in which DDOT will keep and update inventory of GI constructed to include unique identifier, geographic location, facility type, regular maintenance type, and status;
- Create citywide inspection and evaluation program for all DDOT built GI. This program will help trigger as-need maintenance work to keep facilities at their best possible performance state; and
- In an effort to reduce pre-design and design costs (mainly on green alleys), DDOT is planning to start a citywide GI Suitability study to identify potential suitable areas to implement GI projects, types of GI projects, and create standardized designs ready for construction.
- 69. What environmental or green initiatives has the agency pursued in FY 2019?
 - How much impervious surface has been changed to pervious surface?
 - How many green alleys have installed rain gardens, bioswales, or the like?

DDOT pursues various green initiatives by incorporating green infrastructure in streetscape projects; installing tree planters by creating bump outs on roadways where there are no tree furnishing zones; retrofitting standard streetscape with green infrastructure facilities; converting impervious pavements to pervious on parking lanes, etc.

The following projects are some examples of green initiatives DDOT has either implemented or is currently working on:

- Implementation of green infrastructure in various streetscape projects throughout the city; (Ongoing)
- Urban Forestry Division installation of citywide tree canopy in all eight wards; (Ongoing)
- Retrofit Projects that replace standard streetscape with green infrastructure facilities--the area of the facilities is listed below but the acreage of stormwater managed is much higher: (Completed)
 - o Green Alleys: 32,750 SF
 - o Dix Street Green Infrastructure Retrofit: 9060 SF
 - o Alger Park Upland LID: 5730 SF
 - o Klingle Watershed: 1160 SF
 - o LeDroit Park Phase 2: 22,025 SF
 - o Oregon Avenue Watershed Green Streets: 13,000 SF

The following provides a list of green alleys, rain gardens and bioretention areas installed by DDOT

- LeDroit Park Phase 2: Construction completed
 - 2 alleys
 - 19 bioretention areas and parking lanes
- Klingle Valley Watershed: Construction completed
 - o 4 alleys
 - o 4 bioretention areas
 - o 4 permeable parking lanes
- Dix Street (Ward 7): Construction completed
 - o 11 bioretention and parking lanes
- Alger Park (Ward 7): Construction completed
 - o 1 alley
 - o 28 bioretention and parking lanes construction completed
- Oregon Avenue Watershed: Construction completed
 - o 1 green alley
 - o 22 bioretention and parking lanes
- Hickey Run, Nash Run, Pope Branch, Fort Dupont Watershed designs (under solicitation)

In addition, DDOT is developing Green Alley Standardization Guidelines. The proposed guidelines provide a standard design approach to reduce design costs and decrease construction time.

The Stormwater Management GI program also provides support for DDOT roadway projects with green infrastructure elements, including the following construction projects:

- Minnesota Avenue SE
- Metropolitan Branch Trail
- Hill East Streetscape
- Oregon Avenue Reconstruction
- Broad Branch Road Reconstruction
- Rock Creek Trail
- Kenilworth Avenue Reconstruction
- C Street NE

- Kennedy Street
- South Capitol Street Bridge
- Pennsylvania and Minnesota Intersection
- 70. How much funding did DDOT receive for green infrastructure projects in FYs 2018, 2019, and 2020 from funds that the Department of Energy and Environment administers (broken down into the Stormwater Permit Compliance Enterprise Fund, the EPA Clean Water State Revolving Fund, and the Anacostia Rover Clean Up and Protection Act of 2009 fund)?
 - How many gallons of stormwater will be managed as a result of each year's spending?
 - Please provide the formula by which DDOT calculates this metric.

DDOT receives funding for its Green Infrastructure projects from a variety of sources. Primarily, funds may be classified in two groups: funding administered by the Department of Energy and Environment (DOEE) and DDOT matching local funds. Funding administered by DOEE come from the District Stormwater Permit Compliance Enterprise Fund (MS4 Fund), the Environmental Protection Agency (EPA) Clean Water State Revolving Fund (CWSRF), and the Bag Bill, which are administered by DOEE.

Funds DDOT received for green infrastructure projects in FYs 2018, 2019 and 2020 from funds that DOEE administers includes:

- FY 2020 not awarded
- FY 2019
 - o DOEE Stormwater Enterprise Capital Funds: \$337,500
 - o EPA CWSRF Clean Water Construction: \$742,500
- FY 2018
 - o DOEE Stormwater Enterprise Capital Funds: \$882,085
 - o EPA CWSRF Clean Water Construction: \$1,215,771

Projects funded by DOEE and EPA often span multiple fiscal years and DDOT often receives funding from multiple sources for projects. For example, the projects funded in FY2018 include funding from FY2013 and FY2016 as well which complicates the calculation of gallons provided by each year's spending. Costs and associated gallon amounts are tracked per project, not fiscal year.

The cost effectiveness varies based on several factors, including the size of the area that drains to a facility, type of soil, and conflicting uses of the public space. Cost effectiveness is calculated based on the cost to construct the facility divided by the volume of stormwater the facility can treat. The amount of treatment provided by a facility is calculated based on the type of treatment provided. The most common treatment calculation follows DOEE regulations for stormwater retention credits (SRCs), which factors in the following:

- The amount of stormwater that flows to the facility
- The type of facility
- The storage available in the facility
- The infiltration rate of the soils below the facility
- 71. In FY 2014, DDOT, in conjunction with Pepco, introduced the DC Power Line Undergrounding (DC PLUG) Initiative to underground up to 60% of the most vulnerable primary and lateral mainline feeders in the city to provide resilience and greater reliability to the District's power system.

- What is the status of the undergrounding effort?
- What is the estimated completion time for this project?

The First Biennial Plan ("Plan") for the DC PLUG program was filed with the Public Service Commission ("PSC") on July 3, 2017. The Plan was approved on November 9, 2017, and the PSC issued an order that included a number of directives to be filed 90-days post-approval. DDOT and Pepco submitted this Ninety Day Compliance Filing to the PSC on February 7, 2018. The Plan consists of undergrounding all or portions of six (6) primary electrical feeders located in Wards 3, 4, 5, 7, and 8.

Emergency legislation, DC Act 22-606, amending the DC PLUG Act was signed into law on January 24, 2019. This new legislation removed certain legal restraints on DDOT's ability to provide CBE set-asides for certain contracts related to the undergrounding project and will allow DDOT to maximize the utilization of CBEs on the undergrounding project consistent with this new legislation.

Feeder 308, located in Ward 3, and the first stand-alone feeder undergrounding project, began construction in June 2019. A Mayoral groundbreaking was held on June 14.

Feeder 14900 is a DC PLUG "Opportunity Project" associated with the IPMD Team 2 Reconstruction of Oregon Avenue project. The IFB was released in January 2019 and construction Notice to Proceed was issued for December 15, 2019.

An RFQ for DC PLUG Program Management was released on September 28, 2019. Following a protest to the Contracts Appeals Board and ruling by the Board, the evaluation and source recommendation was completed by the Technical Evaluation Panel. A negotiation meeting was held on December 17, and the contract is expected to be authorized in January 2020.

An RFQ for the design of the four remaining First Biennial Plan feeders was released on May 5, 2019 with design work planned to commence in the first quarter of 2020.

The Second Biennial Plan for the DC PLUG program was filed with the PSC on September 30, 2019. The Second Biennial Plan includes ten feeders, with two each in Wards 3, 4, 5, 7 and 8. Approval from the PSC is expected by February 2020.

II. Transportation Operations Administration Programs

- 72. What is the status of the School Crossing Guard program? Please provide:
- The agency's current crossing guard deployment plan.
- The current number of crossing guard positions.
- The current number of vacancies.
- The agency's efforts to recruit and fill vacancies in FY 2019 and results of those efforts.
- The number of new crossing guard positions necessary to meet the needs of District schools in FY 2019, and the number of outstanding crossing guard requests from schools.
- The agency's current crossing guard deployment plan. See Appendix Q72.
- The current number of crossing guard positions. 265 positions
- The current number of vacancies.

9 (as of December 17, 2019)

• The agency's efforts to recruit and fill vacancies in FY 2019 and results of those efforts. The agency hired 45 new school crossing guards in FY 2019. After several hiring fairs, the agency has a list of "pool" candidates who are able to begin within 2-4 weeks of a position becoming open. Outreach events were held in partnership with the Mayor's Office of Latino Affairs, the Mayor's Office of Veterans Affairs, Department of Employment Services, and Academy of Hope Public Charter School (adult learning public charter school), and others. The outreach events with the partners are detailed below:

| Date | Partner |
|----------|---------------------------------------|
| 10/26/18 | Mayor's Office of Veterans Affairs |
| 10/29/18 | Academy of Hope Public Charter School |
| 10/31/18 | Mayor's Office of Latino Affairs |
| 9/5/18 | Lafayette Elementary School |
| 9/13/18 | Reeves Center (DOES Event) |
| 5/10/19 | Mayor's Office of Veterans Affairs |
| 5/17/19 | Mayor's Office of Latino Affairs |

Outreach events were followed by hiring events in November 2018 and June 2019. The results of these events are detailed below:

| Date | Interviews Performed | Hires |
|---------------|----------------------|-------|
| November 2018 | 67 | 28 |
| June 2019 | 69 | 17* |

^{*}New hires from this event are ongoing given the nature of pooling potential candidates.

• The number of new crossing guard positions necessary to meet the needs of District schools in FY 2019, and the number of outstanding crossing guard requests from schools.

To meet the needs of District Schools in FY 2020 we will need 279 total crossing guards, inclusive of the 14 outstanding requests from schools.

73. What is the status of the Traffic Control Officer (TCO) program? Please provide:

- The agency's current TCO deployment plan.
- The current number of TCO positions.
- The current number of vacancies.
- Statistics of tickets written by TCOs in FY 2019 and FY 2020, to date.
- The three most common infractions for which TCOs write tickets.

The agency's current TCO deployment plan:

29 Locations

AM/PM Peak

- 14th & Pennsylvania Ave NW
- 14th & E St NW
- 14th & F St NW
- 14th & G St NW
- 14th & NY Ave NW
- 14th & H St NW
- 14th & I St NW
- 14th & K St NW

- 17th & K St NW
- 17th & I St NW
- Connecticut Ave & K St NW
- 7th & H St NW
- 15th & Massachusetts Ave NW
- 19th & L St NW
- 14th & Park Rd NW
- 14th & Columbia Rd NW
- 14th & Irving St NW
- 6th & Florida Ave NW
- Minnesota Ave & Benning Rd NE
- Good Hope Rd & MLK, Jr Ave SE
- MLK, Jr Ave & Howard Rd SE
- Minnesota Ave & Pennsylvania Ave SE

Night Life Deployment

- 18th & Columbia Rd NW
- 18th & Belmont Rd NW
- 18th & Kalorama Rd NW
- Connecticut Ave & N St NW
- 18th & Connecticut Ave NW
- 18th & Jefferson Pl NW
- Connecticut & Rhode Island Ave/ M St NW

• The current number of TCO positions:

147

135 TCOs

8 TCO Leads

3 TCO Supervisors

1 TCO Branch Manager

• The current number of vacancies

2 vacancies (as of December 18, 2019).

Note: One position is in the selection phase of the hiring process.

 Statistics of tickets written by TCOs in FY 2019 and FY 2020, to date and three most common infractions.

FY 2019 (Oct. '18 – Sept '19) - 8,518 citations P007-Disobeying official sign-1,815 tickets P012-park in a bus zone -1,470 tickets P269-No Standing Anytime-1,193 tickets

FY 2020 (Oct. – Jan.) – 1,213 citations

- 74. What is the status of DDOT and DPW's coordinated effort to address conflicting street signs in the District? Please provide:
 - A list of meeting dates, times, locations, and attendees for FY 2019 and FY 2020, to date.
 - The number of sign locations discussed by DDOT and DPW.

- The number of locations where signs were repaired, replaced, modified, or improved as a result of the meetings.
- The average length of time, in days, between DDOT receiving notice of an issue with a sign and remedying that issue.
- Steps taken by DDOT in FY 2019 and FY 2020, to date, to inform the public on how to report conflicting signs.
- A list of meeting dates, times, locations, and attendees for FY 2019 and FY 2020, to date.
 - o FY 2020:
 - **1**0/7/19
 - 10/9/19 (DMOI Budget Coordination)
 - **1**/28/20
 - o FY 2019: DDOT/DPW Coordination meeting
 - 10/30/18 (Budget Coordination)
 - **3/26/19**
 - 4/5/19 (Parking Services Industry Day)
 - **5/22/19**
- The number of locations where signs were repaired, replaced, modified, or improved as a result of the meetings.
 - o DDOT and DPW discussed 222 locations in FY '19 and 54 in FY '20. DDOT modified signs at 116 locations in FY '19 and 13 locations in FY 20 due to these meetings.
- The average length of time, in days, between DDOT receiving notice of an issue with a sign and remedying that issue.
 - o DDOT took, on average, 230 weekdays (median 196) close these related concerns.

DPW service requests continue to be a priority for DDOT and are factored into the agency's daily work load. In conjunction with the meetings, providing them with direct access to our system has also reduced our response time. In April of 2019 DDOT launched #goodsigndc to encourage residents to report conflicting or faded signs to DDOT for replacement or correction.

For sign conflicts that present a safety hazard, DDOT is committed to resolving the conflict within 24 hours.

• Steps taken by DDOT in FY 2019 and FY 2020, to date, to inform the public on how to report conflicting signs.

In FY2019, DDOT's Parking and Ground Transportation Division (PGTD) released the Parking 101 brochure, focused on the parking rules in the District that do not require signage (i.e. parking by a fire hydrant, bus stop, bike lane, etc.) and also highlighting rationale through graphics as to the why behind the rule (emphasis on Vision Zero). DDOT will continue to work with a public outreach campaign in FY 2020 that focuses on Parking 102 (focus on signage components and messaging) and Parking 103 (focus on large vehicle curbside management). This includes information on how to report conflicting signs to DDOT by using 311, and educating the public about signs to better understand what is and is not conflicting. PGTD will also be rolling out the ParkDC website, bringing disparate curbside management / parking information to one source point for the public, to include interactive maps and media.

- o The process to address conflicting signs is as follows:
 - A resident reports a conflicting sign to DDOT through 311, or
 - DPW inputs conflicting signs reports into DDOT's Cityworks portal when they are seen in the field, then
 - DDOT downloads the requests daily and distributes to technicians for analysis (DDOT has a 10-day acknowledgment receipt process)

- Technicians create work orders and send them to DDOT's Field Operations Division (FOD) for replacement or repair
- Once the service request is completed, DDOT closes out the work order in the Cityworks portal

III. Services, Safety, and Planning

- 75. Please provide the number of service requests received by category of request for FY 2019.
- Please provide statistics on responsiveness to these requests.
- Has the response time for service requests decreased or increased in the last year?
- What is DDOT doing to improve its response to requestors?

DDOT received 106,733 requests in FY 2019. That compares to 102,673 received in FY 2018 and 96,388 in FY 2017. Please see the following table for the numbers by category.

| Category | Number of SRs Received in FY 2019 |
|------------------------------|-----------------------------------|
| Parking Meter Repair | 35,498 |
| Pothole Repair | 14,931 |
| Roadway Sign | 13,602 |
| Streetlight Repair | 10,007 |
| Tree Inspection | 6,484 |
| Sidewalk Repair | 4,663 |
| Tree Pruning | 3,573 |
| Traffic Signal Issue | 3,415 |
| Tree Planting | 2,684 |
| Roadway Repair | 2,578 |
| Tree Removal | 2,141 |
| Traffic Safety Investigation | 2,101 |
| Roadway Markings | 1,347 |
| Alley Repair | 957 |
| Utility Repair Issue | 664 |
| Pole Painting | 586 |
| Bicycle Services | 565 |
| Bus/Rail Issues | 397 |
| Roadway Striping/Markings | 265 |
| Resident Parking Permit | 147 |
| ANC Resolution | 99 |
| School Crossing Guard | 15 |
| Child Safety Seat Program | 8 |
| Streetcar | 5 |
| Alleylight Repair | 1 |
| Total | 106,733 |

Please provide statistics on responsiveness to these requests.

Of the 106,733 requests received in FY 2019, DDOT has closed the request and met the Service Level Agreement (SLA) 49 percent of the time. There are an additional 13 percent still open and within the SLA. Therefore, DDOT has the potential to meet the SLA 62 percent of the time for requests received in FY 2019.

| 311 Status | Definition | |
|------------|--------------------------------|--------|
| Met | Closed 311 Service Requests | 48.57% |
| | that met the SLA | |
| Missed | Closed 311 Service Requests | 33.13% |
| | that missed the SLA | |
| Open | Open 311 Service Requests that | 12.69% |
| | are within the SLA | |
| Overdue | Open 311 Service Requests that | 5.61% |
| | are overdue | |

• Has the response time for service requests decreased or increased in the last year?

The average and median response time for service requests increased in FY 2019.

| | FY 2017 | FY 2018 | FY 2019 |
|---------------------|---------|---------|---------|
| Average Weekdays to | 24 days | 49 days | 88 days |
| Close a 311 SR | | | |
| Median Weekdays to | 2 days | 2 days | 13 days |
| Close a 311 SR | | | |

DDOT has focused on service requests in the 311 system, which has led to the closure of more and older service requests but has also increased our closure rates due to the initial date of the request. As shown in the following chart, some of the service requests that DDOT closed last year were created as far back as FY 2014. The benefit was that we were able to close out and clear up older service requests, providing a more accurate data source for the FY 20 planning and effort.

| FY in which 311 SR was | FY in which 311 SR was | Median number of Weekdays |
|------------------------|------------------------|---------------------------|
| closed | created | to Close a 311 SR |
| FY 2017 | FY 2016 | 150 days |
| | FY 2017 | 2 days |
| FY 2018 | FY 2016 | 493 days |
| | FY 2017 | 174 days |
| | FY 2018 | 2 days |
| FY 2019 | FY 2014 | 1,349 days |
| | FY 2015 | 1,050 days |

| FY 2016 | 738 days |
|---------|----------|
| FY 2017 | 489 days |
| FY 2018 | 150 days |
| FY 2019 | 4 days |

• What is DDOT doing to improve its response to requestors?

DDOT conducts a TranStat meeting where the Performance Team focuses on service delivery. During these meetings, the performance team works directly with all DDOT programs to improve business processes, analyze data, and train staff on business analytics software. Together the effort is yielding improvements in overall work processes and data collection. In addition, the Director continues to hold specific deep dive reviews of programs where we are able to understand how programs are operating. This has led to improvements across several programs and allowed the executive team to adjust budget and staff to help where the specific improvements have been identified. With the Directors recent hiring of the Chief Operating Officer, DDOT will have a leader over the operations team again which has already provided improvements to the daily work effort.

- 76. Please list the number of public space permits, by type, issued in FY 2018, FY 2019, and FY 2020, to date. Please describe any trends in the type or quantity of permits issued.
 - Please indicate the fee for each type of public space permit and whether the revenue goes to the general fund or a special purpose revenue fund (if an SPR, please identify the name/number of the fund).

| Permit Type | Issued FY18 | Issued FY19 | Issued FY20 (12/16/2019) |
|--------------|-------------|-------------|-----------------------------|
| Occupancy | 41,051 | 41,695 | 7,769 |
| Construction | 13,998 | 14,911 | 3,830 |
| Annual Tag | 2,431 | 2,576 | 128 |
| Single Haul | 1,980 | 1,755 | 340 |
| Special Tree | 1,164 | 1,315 | 271 |
| Total | 60,624 | 62,252 | 12,338 |

Permits issued in FY 2019 closely matched the number issued in FY 2018. The permits issued through December 16, 2019 in FY 2020 continues this trend. DDOT expects the rate of public space permitting to continue at this level.

Public Space Permit Fees are articulated in 24 DCMR 225. These permit fees are deposited into the General Fund. The two exceptions are the technology fee, which is deposited into the Enterprise Fund, and the shared dockless bicycle fee, which is deposited into the Bicycle Fund.

- 77. How many public space inspectors are currently employed by DDOT? Please describe the exact procedure public space inspectors follow to ensure compliance with the conditions of public space permits.
 - What percentage of locations with public space permits were inspected by public space inspectors in FY 2018, FY 2019 and FY 2020, to date?

DDOT employs 29 Public Space Inspectors who perform inspections six days a week covering 18 to 20 hours every day through staggered shifts.

During the life of each public space application and permit, particularly for those permits that cover either a larger excavation area (e.g. the installation of hundreds or more feet of utility lines) or an extended time period (e.g. the occupancy of public space during construction of a building), a Public Space Inspector conducts the following series of inspections to ensure compliance, oversight, and enforcement:

- 1. Pre-Inspection
 - a. Conducted during the application process
 - b. Assess the scope of requested work and the current field conditions
 - c. Identify any special conditions to apply to the permit or modifications to the plans prior to approval
- 2. Pre-Construction Meeting
 - a. Conducted after the permit has been approved and issued
 - b. Performed on-site with Permittee
 - c. Discuss timing of work, traffic control plan set up, and methods of construction
- 3. Ongoing Field Monitoring and Site Consultation
 - a. Conducted during the life of the permit
 - b. Typically includes multiple inspections
- c. Inspections are both scheduled (e.g. when phase of construction will change, when permittee has modification or adjustment in the field based on site conditions, when inspector is conducting general area rounds, if requested by manager, or based on complaint received from the community).
- d. When particular public space infrastructure will be installed, such as streetlights, street trees, or sidewalks. PSI may reach out to other DDOT offices for assistance with monitoring specialized installations, such as stormwater management facilities.
- 4. Final Inspection
 - a. Conducted prior to and upon permit expiration
 - b. Sets level of restoration based on DDOT standards, the condition of the roadway prior to excavation, and other relevant conditions
 - c. Identifies any "punch list" items to be completed prior to DDOT acceptance
 - d. Confirms all work has been completed to DDOT standards
- 5. Two-Year Inspection
 - a. Performed at completion of 2-year warranty period
 - b. Scheduled at the request of the permit holder
 - c. Confirms restoration has met DDOT standards and met warranty period and requirements
 - d. Authorizes release of any deposits

| Public Space Inspections by Type | FY 2019 | FY 2020 (through 12/16/2019) |
|-------------------------------------|---------|---------------------------------|
| Permitted Inspections | 51,250 | 10,950 |
| Emergency Work Permits | 3,031 | 685 |
| Addt'l Inspection Requests | 4,559 | 938 |
| Total | 58,840 | 12,573 |

- 78. What is the status of the Personal Delivery Device (PDD) program? Please provide:
 - A list of companies participating in the program.
 - The number of PDDs each company has deployed.
 - Any issues or incidences involving PDDs and a pedestrian, bicycle, or vehicle reported to DDOT.

Though Starship applied for and received a public space permit to operate 15 personal delivery devices in 2019, DDOT does not have record of any deployment during the calendar year. There has been no additional interest in the permit program from other operators.

- 79. Please provide a <u>list AND a map</u> identifying the location and length of all sharrows, cycle tracks, and bicycle lanes in the District. Please also identify how much of the District's bicycle infrastructure is contiguous.
- Please provide a list AND a map, identifying the location and length of all bicycle infrastructure
 the agency installed in FY 2019, and all bicycle infrastructure work currently underway or
 scheduled for installation in FY 2020, FY 2021, FY 2022, and FY 2023, with projected timeline
 for completion of each part.

Existing Bikeways

| Facility Type | Length (Miles) |
|---------------|----------------|
| Bike Lane | 76.5 |
| Cycle Track | 12.5 |
| Sharrows | 21.2 |

A map of all existing bike facilities can be found at https://godcgo.com/wp-content/uploads/2019/03/BikeMap2019.pdf

The following are bike lanes and intersection improvements that were completed in 2019.

2019 Completed Projects

| Roadway | From | To | Ward | Street Miles | Facility Type |
|--------------------|------------------------|-----------------------|------|--------------|---------------------|
| 7th St SW | I St | Maine Ave | 6 | 0.06 | Bike Lanes |
| 8th St NW | Butternut St | Eastern Ave | 4 | 0.63 | Neighborhood |
| | | | | | Bikeway/Cont raflow |
| 10th St NE | Florida Ave | H St | 6 | 0.25 | Contraflow |
| 13th St NE | Constitution Ave | Tennessee | 6 | 0.09 | Bike Lane |
| 31st Pl NE | South Dakota Ave NE | Ft Lincoln Dr NE | 5 | 0.17 | Climbing lane |

| 2nd St NE | F St | L St | 6 | 0.44 | Shared Lane |
| Florida Ave, NE | Staples St | H St | 5/6 | 0.11 | Shared Lane |
| | | | TOTAL: | 0.68 | |

The following projects are scheduled for installation during 2020, but are pending additional design development and/or community outreach. Therefore, some projects listed here may change based upon further analysis and community engagement.

The following are all bicycle infrastructure projects scheduled for installation in FY 2020

| Roadway | From | То | Ward | Street Miles | Facility Type |
|---------------|---------------|--------------|-------|--------------|------------------|

- 80. Please provide a <u>list or map</u> identifying the location and length of all trails in the District. Please also identify how much of the District's trail infrastructure is contiguous.
- Please provide a list, identifying the location and length, of all trail infrastructure the agency installed in FY 2019, and all trail construction work currently underway or scheduled in FY 2020 and FY 2021.

The following is a list of all existing trails in the District. DDOT does not have a metric for contiguous trails, and there is not an industry standard for this metric. However, a number of DDOT's bike lane projects involve improving connections to the District's off-street trail system and filling network gaps. In 2019 DDOT was under construction for repairs on the Klingle Valley Trail; additional Green Infrastructure on the Marvin Gaye Trail, and Metropolitan Branch Trail from Brookland to Fort Totten.

| TRAIL NAME | PRIMARY RESPONSIBILITY | MILEAGE |
|-------------------------------------|---------------------------|---------|
| Anacostia River Trail East Bank | DDOT/NPS | 7.27 |
| Anacostia River Trail West Bank | DDOT/NPS | 4.26 |
| Anacostia Riverwalk Trail | DDOT | 1.1 |
| Bolling AFB Waterfront Trail | DOD | 1.11 |
| C&O Canal Towpath | NPS | 4.92 |
| Capital Crescent Trail | NPS | 3.64 |
| Ft Circle Parks Trail | NPS | 4.09 |
| Georgetown Waterfront Park Trail | NPS | 0.47 |
| Kingman Island Trail | DOEE | 0.6 |
| Klingle Valley Trail | DDOT | 0.66 |

| Marvin Gaye Trail | DDOT | 2.39 |
|---------------------------|---------------------|-------|
| Metropolitan Branch Trail | DDOT | 4.39 |
| Mount Vernon Trail | NPS | 1.65 |
| National Capitol Grounds | AOC | 0.64 |
| National Mall Trails | NPS | 10.4 |
| Oxon Cove Trail | DDOT | 0.15 |
| Oxon Run Trail | DDOT | 3.52 |
| Pennsylvania Ave SE Trail | DDOT | 0.97 |
| Rock Creek Trail | NPS | 5.57 |
| Rose Park Trail | NPS | 0.45 |
| South Dakota Ave Trail | DDOT | 0.52 |
| Suitland Parkway Trail | DDOT | 1.97 |
| | Total Trail Mileage | 60.74 |

• Please provide a list, identifying the location and length, of all trail infrastructure the agency installed in FY 2018, and all trail construction work currently underway or scheduled in FY 2019 and FY 2020.

| Title | Owner | Project Stage | Status / Next Steps | Responsible for Next Action | Anticipated Construction Timeline |
|--|--------------------|---------------|--|--------------------------------|---|
| Klingle Valley Trail | DDOT | Construction | Completed June 2017; Substantial completion of repairs in Jan/Feb 2020. | DDOT | Substantial completion of repairs in Jan/Feb 2020. Final completion with porous asphalt in Spring 2020. |
| Met Branch Trail - Brookland to Fort Totten | DDOT/NPS/W MATA | Construction | Groundbreaking July 2018. Complete construction expected in Fall 2020. | DDOT | 2020 |
| Rock Creek Trail Improvements | NPS | Construction | DDOT portion: Advertised for construction in February 2019. Bids came in too high, DDOT is re-bidding the project Winter 2019 expected to break ground in Spring 2020. | DDOT | 2020 |
| Met Branch Trail - Fort Totten to Takoma | DDOT/NPS/W MATA | Final Design | Final design in 2020. Construction expected 2021. | DDOT | 2021 |

| Ft Lincoln - ART Connector Trail | DDOT | Planning | Feasibility Study completed in Fall 2018. Environmental Assessment underway expected completion Winter 2020. Construction schedule TBD | DDOT | TBD |
| Shepherd's Branch Trail Feasibility Study | DDOT/ CSX/ PEPCO | Planning | Feasibility study underway expected in Spring 2020. Right-of-way acquisition required. | DDOT | TBD |

81. Please provide an update on the Metropolitan Branch Trail project. Did the timeline, budget, or scope of either project change in FY 2019 or FY 2020, to date?

Metropolitan Branch Trail Brookland to Fort Totten:

The design-build contract for this segment of trail was awarded to Potomac Construction and notice to proceed was issued on October 31, 2017. A groundbreaking was held in June 2018. The design has been substantially completed for the project, and construction permits are being coordinated with CSX, NPS, and WMATA. Construction activity has been substantially completed along John McCormack Drive NE, and is currently underway between Gallatin St NE and the Fort Totten Metro. Construction is expected to begin along the railroad tracks, near the DPW Trash Transfer Station and the Fort Totten Metro in winter of 2020. The scope and budget of the project have remained the same, but the timeline for the project completion has been delayed and is now expected to be complete in September 2020. Construction and design have experienced delays from the contractor and is seeking to expedite the remaining tasks.

Metropolitan Branch Trail Fort Totten to Takoma:

The preliminary design for this segment of trail was completed in 2017. DDOT engaged the community in nine public meetings in 2017 that resulted in a supportive resolution from ANC4B in support of advancing the project. The community concern primarily regards the trade-off of replacing one lane of traffic on Blair Rd with the Metropolitan Branch Trail. DDOT has hired a design consultant for the final design of the project and expects to complete final design by the end of 2020 with construction beginning in Spring 2021.

82. Please provide an update on Klingle Valley Trail with regard to the rehabilitation of the trail, the stormwater management plan, and tree replacement.

DDOT added signage and temporary barriers to stop vehicle access onto the trail and is currently making permanent fixes to repair storm damage and install permanent barriers at entrances. Construction began in

September 2019 and is substantially complete. Fixes to the storm sewer and eroded areas have been completed. Permanent bollards to stop unauthorized vehicle access to the trail are expected to be complete in February 2020. Landscaping improvements will be made in Spring 2020.

83. How many existing bicycle racks were damaged, destroyed, or lost in FY 2019? How many new or replacement bicycle racks did DDOT install in FY 2019?

DDOT repaired 36 damaged bike racks in FY 2019. Eight bike racks were reported lost and those locations were added to installation lists in FY 2019 and FY 2020. Of the eight reported lost, four have already been replaced and the remainder will be reinstalled in FY 2020.

In FY 2019, 561 bike racks were installed in the District (386 installed by DDOT; 175 installed by BIDs). This total does not include racks installed with new developments as part of zoning requirements as DDOT does not have a full accounting of the number of racks added through this method.

- 84. What is the status of the Capital Bikeshare Program? Please include:
- The number and location of stations that currently exist.
- The number and location of stations that DDOT added and removed in FY 2019.
- The number and location of stations that DDOT has added or plans to add in FY 2020.
- The number and location of requests for new bike stations.
- Plans for introducing bikes for the disabled.
- The number of active annual members and active monthly members in FY 2017, FY 2018, and FY 2019.
- Any plans DDOT has to keep Capital Bikeshare viable and competitive despite losing users to other means, such as dockless bikes or scooters.
- The number and location of stations that currently exist.

There are 578 stations in the system, and 305 of them are located in the District.

The number and location of stations that DDOT added and removed in FY 2019.

DDOT added 23 Capital Bikeshare Stations in FY 2019. No stations were removed. Stations were added to the following locations:

- Kansas Ave & Sherman Cir NW
- 7th & K St NW
- 4th & M St SE
- King Greenleaf Rec Center
- Montello Ave & Holbrook Terr NE
- New Jersey Ave & F St NW
- Maryland Ave & 17th St NE
- Massachusetts Ave & 6th St NE
- Woodley Park Metro / Calvert St & Connecticut Ave NW
- Trinidad Rec Center
- Rosedale Rec Center / 17th & Gales St NE
- New Hampshire & Gallatin St NW
- 11th & C St SE

- United Medical Center
- 18th & New Hampshire Ave NW
- Georgia Ave & Morton St NW
- Rhode Island Ave & Montana Ave NE
- 17th & Upshur St NW
- North Capitol & R St NE
- 7th & S St NW
- 14th & Otis Pl NW
- John McCormack Rd NE
- Edgewood Rec Center

The number and location of stations that DDOT has added or plans to add in FY 2020.

DDOT has added six stations to date in FY20:

- 8th & K & West Virginia Ave, NE
- Kingman Island / The Fields at RFK
- Kenilworth Terr & Hayes St NE
- Valley Ave & Wheeler Rd SE
- Ridge Rd Community Center
- Fort Stanton Rec Center

DDOT plans to add the following 20 Stations in the remainder of FY 20:

- Hardy Rec Center
- Reservoir Rd & 38th St NW / Georgetown University Hospital
- Rose Park
- R.I.S.E. Center
- Minnesota Ave & R St. SE
- National Cathedral
- Grant Circle
- 4th & G St SW
- 4th & P St SW / Titanic Memorial
- Stadium Armory Metro South Entrance
- Benning Park Community Center
- Alabama Ave & Irving St SE / MPD 7th District
- 8th & H St NE
- 1st St & Potomac Ave SE
- Entertainment & Sports Arena
- East Capitol & 55th St SE
- 4th & Morse St NE
- Lafayette Elementary School
- Palisades Rec Center
- 1st & K St NE

• The number and location of requests for new bike stations.

There are 8,591 requests for new bike stations that have been collected from the public. Requests cover all 8 Wards. All requests, along with location are online at https://www.cabistations.com/.

• Plans for introducing bikes for the disabled.

Separately from the Capital Bikeshare program, DDOT plans to launch an Adaptive Bike Program. Hand tricycles, recumbent tricycles, cargo-bikes, and tandems will be offered for people in several locations in the District. In 2019 DDOT conducted public outreach, including survey tools and stakeholder meetings. DDOT staff investigated similar programs in peer cities including Portland, OR and Detroit, MI. DDOT staff toured possible locations at Department of Parks and Recreation facilities as well as DDOT facilities. DDOT is currently identifying funding sources to establish this program. DDOT hopes to establish this program in the spring of 2020.

• The number of active annual members and active monthly members in FY 2019

Systemwide: 29,621 annual members; 62 monthly members In DC: 19,424 annual members; 14 monthly members

• Any plans DDOT has to keep Capital Bikeshare viable and competitive despite losing users to other means, such as dockless bikes or scooters.

DDOT remains committed to Capital Bikeshare which retains its core of annual members despite the proliferation and popularity of dockless bike and scooter options. To remain viable and competitive, DDOT has negotiated new marketing services into its contract with the operator of Capital Bikeshare, which has led to immediate growth in annual membership levels. DDOT also has continued to expand Capital Bikeshare stations into new and underserved areas of the District. Most impactful, DDOT has been preparing for the return of e-bikes to the Capital Bikeshare fleet. The e-bike pilot in 2018 showed very promising early results with e-bikes generating nearly twice as many daily trips as conventional bikes. Since then a new generation of e-bike has been developed by Capital Bikeshare's operator which is both dock and dockless compatible, allowing Capital Bikeshare to directly compete with dockless e-bikes with all the advantages of a reliable, established, public bikeshare option.

- 85. What is the status of the dockless bikeshare pilot program? Please include:
 - A list of companies participating in the program.
 - The number of bikes each company has deployed.
 - The number of complaints DDOT has received about dockless bikes for each month over the last 12 months. Please identify how many dockless bike operators there were for each month.

In 2019, DDOT began its official shared dockless vehicle permit program. The 17-month pilot informed the official program which had one dockless bike operator, Jump. Jump started the year with 600 vehicles and received a performance based increase of 300 vehicles in May and then an additional 75 vehicles in August 2019 to end the year with 975 dockless bicycles.

For the 2020 permit, DDOT has permitted 2 companies to operate 2,500 vehicles each.

- Jump (motorized bicycles)
- HelBiz (motorized bicycles)

Through <u>dockless.mobility@dc.gov</u>, DDOT received 13 complaints about shared dockless bicycles from January through December 2019.

| Month | # of Complaints | # of Permitted Operators |
|----------|-----------------|--------------------------|
| January | 0 | 1 |
| February | 0 | 1 |
| March | 0 | 1 |

| April | 4 | 1 |
|-----------|---|---|
| May | 4 | 1 |
| June | 1 | 1 |
| July | 1 | 1 |
| August | 1 | 1 |
| September | 1 | 1 |
| October | 0 | 1 |
| November | 0 | 1 |
| December | 1 | 1 |

- 86. What is the status of the dockless scooter pilot program? Please include:
 - A list of companies participating in the program.
 - The number of scooters each company has deployed.
 - The number of complaints DDOT has received about dockless scooters for each month over the last 12 months. Please identify how many dockless scooters operators there were for each month.
 - How is DDOT looking to improve the safety of scooter riders and pedestrians? Has DDOT considered any short mandatory training before allowing users to get on a scooter (such as a short video embedded in the app)?
 - Has DDOT considered requiring helmets for riders?

DDOT has extended permits for 2019 dockless scooter operators through March 31, 2020 in order to allow the appeals process for the 2020 permit to conclude.

Companies expected to continue operating through March 31, 2020 with fleet maximums from 2019 permit year:

- Bird (600 electric scooters)
- Bolt (600 electric scooters)
- Jump (600 electric scooters)
- Lyft (720 electric scooters)
- Lime (675 electric scooters)
- Razor (600 electric scooters)
- Skip (720 electric scooters)
- Spin (720 electric scooters)

The current list of operators approved to operate dockless PMDs starting April 1, 2020 is:

- Jump (2,500 electric scooters)
- Lyft (2,500 electric scooters)
- Skip (2,500 electric scooters)
- Spin (2,500 electric scooters)

As a means of creating a safe riding environment, the terms and conditions agreement requires dockless operators to abide by the current law restricting personal mobility devices (inclusive of electric scooters) to 10 mph, and to communicate to users regarding the prohibition on sidewalk riding in the Central Business District. In the past year we have required all operators to inform riders in the app about the

Central Business District riding restrictions. DDOT is also working on a campaign to place information at the entrance of the Central Business District to inform those riding that the sidewalk is a "dismount zone."

DDOT encourages operators to provide safe riding tutorials in their respective apps where riders are informed on vehicle operation, safe street riding, and proper parking via visual displays. DDOT has not required operators to use videos in the apps.

DDOT encourages dockless operators to provide helmets to riders upon request. However, only persons over 18 years of age are allowed to rent dockless scooters according to the user agreements with the companies. In the District, applicable law does not require helmets for those over the age of 16. DDOT is focused on building safe scooting and biking facilities for those using all modes of micromobility.

Through <u>dockless.mobility@dc.gov</u>. DDOT received 241 complaints about shared dockless scooters from January through December 2019.

| Month | # of Complaints | # of Permitted Operators |
|-----------|-----------------|--------------------------|
| January | 4 | 4 |
| February | 1 | 4 |
| March | 15 | 4 |
| April | 31 | 5 |
| May | 32 | 5 |
| June | 24 | 5 |
| July | 13 | 7 |
| August | 20 | 7 |
| September | 13 | 7 |
| October | 48 | 7 |
| November | 26 | 7 |
| December | 14 | 7 |

- 87. How does DDOT monitor dockless bicycle and scooter compliance with the regulations?
 - Please provide data as to the most common injuries sustained while using a dockless bicycle and a dockless scooter.
 - What other data does DDOT use to evaluate the dockless operators? Please provide that data.
 - Please explain what a company must show in order to achieve a favorable semiannual evaluation leading to the ability to expand their fleet?
 - Is DDOT able to fine operators who do not comply with the rules of the terms and conditions or District law?
 - Please describe the basis on which DDOT determines that an operator should lose their license to operate or be fined.
 - What insurance must an operator carry? Does it cover both the operator and the user?
 - Assuming there were no legislative barriers in place, would DDOT prefer to see the scooter speed limit remain at 10mph or be increased?
- Please provide data as to the most common injuries sustained while using a dockless bicycle and a dockless scooter.

DDOT does not track specific types of injuries beyond hospitalized or not hospitalized and has requested operators to submit summarized accident reports to the agency since August 2019. Through the end of 2019, the agency received 43 such reports. The majority of the 21 incidents that resulted in a visit to the emergency room involved a collision with an automobile.

• What other data does DDOT use to evaluate the dockless operators? Please provide that data.

DDOT uses data submitted from the data reports and collected from the private APIs that are required via the permit Terms and Conditions. A description of the data sets can be found in the Terms and Conditions document, located at the following link:

https://ddot.dc.gov/sites/default/files/dc/sites/ddot/page_content/attachments/Dockless%20Terms%20and%20Conditions%20-%20Phase%20II%20-%20Scooters%20-%2012.19.18.pdf

These reports are categorized as level 3 in the District of Columbia's Data Privacy standards and the actual data sets have not been made publicly available due to concerns around Personally Identifiable Information (PII).

Please refer to https://octo.dc.gov/page/district-columbia-data-policy for the District's Data Privacy standards.

• Please explain what a company must show in order to achieve a favorable semi-annual evaluation leading to the ability to expand their fleet?

The 2019 Terms and Conditions allowed quarterly fleet increases. In 2019, the first quarter of the calendar year proved difficult to assess, due to the limited amount of data available in the winter months where there is lower demand and dockless operators have typically put out fewer vehicles. As a result, in the 2020 Terms and Conditions DDOT is moving to a semi-annual evaluation.

DDOT will first assess whether a maximum fleet increase beyond 10,000 is warranted. This will likely depend on individual operator monthly data reports and DDOT data observations via the Mobility Data Specification (MDS).

The second assessment will be an evaluation based on:

- Total number of trips per month;
- Trips per vehicle per day;
- Average miles per trip;
- Miles per vehicle per day;
- Trips originating and terminating in Equity Emphasis Areas;
- Response time to violations;
- Responsiveness to DDOT's requests;
- Equity programs;
- Safe operations;
- Effectiveness of user education;
- Number and corrective action of parking violations;

- Number of safety violations;
- Data provision violations;
- Vehicle idle time;
- Adaptive Vehicle Operations;
- Installation of parking infrastructure; and
- Incentivizing users to park vehicles at corrals or DDOT-specified locations.
- Is DDOT able to fine operators who do not comply with the rules of the terms and conditions or District law?

DDOT is not able to fine operators who do not comply with the Terms and Conditions or District law as this is not included in the DCMR. However, DDOT has suspended permits when serious safety or operational concerns arise. DDOT continues to reserve the right to suspend and/or revoke permits for operators who repeatedly do not comply with Terms and Conditions and District law after warnings, or at any time if it is in the interest of public safety.

 Please describe the basis on which DDOT determines that an operator should lose their license to operate or be fined.

Repeated and egregious violations without resolution would result in the revocation of a permit. Further information on the procedures for revoking a permit can be found in the Terms and Conditions for 2020.

• What insurance must an operator carry? Does it cover both the operator and the user?

Requirements related to the insurance of an operator can be found in the Terms and Conditions (Article II, Section I)

 $\frac{https://ddot.dc.gov/sites/default/files/dc/sites/ddot/2019.11.6\%20Shared\%20dockless\%202020\%20Terms\%20and\%20Conditions\%20scooter.pdf$

At all times during the term of this Permit and any use of the public right-of way by Permit holder pursuant to this Permit, Permit holder shall maintain the insurance coverage set forth below:

- a. Commercial General Liability Insurance coverage of One Million Dollars (\$1,000,000) per occurrence with the District as an additional insured;
- b. Workers' Compensation Insurance coverage for all employees involved in operations pertaining to this Permit including Employer's Liability Insurance coverage of at least One Hundred Thousand Dollars (\$100,000) per occurrence. Permit holder agrees to comply at all times with the provisions of the Workers' Compensation laws of the District

• Assuming there were no legislative barriers in place, would DDOT prefer to see the scooter speed limit remain at 10mph or be increased?

DDOT does not have evidence to support a change in the speed limit established in District law.

- 88. To date and to the best of the agency's knowledge, has dockless bikeshare competed with or complemented the existing Capital Bikeshare service?
 - How has the use of dockless scooters in the District affected the number of Capital Bikeshare users?

It remains difficult to judge if dockless micromobility has competed with or complemented Capital Bikeshare. In all likelihood it has done both. The matter of competition is much clearer now than it was last year. Capital Bikeshare has seen a sustained reduction in "casual" users, understood as users of the system who are not annual members. This, in turn, has led to a year-over-year revenue reduction of approximately 10 percent for the District. Annual membership levels have remained fairly steady. Annual members contribute the bulk of the trips in the Capital Bikeshare system, so total average monthly trips have only seen small declines (from about 310,000 trips per month in 2018 to approximately 270,000 trips per month on average in 2019). Conversely, rides from casual users have declined from a high in 2018 of approximately 80,000 per month on average to approximately 40,000 per month on average in 2019. There are likely several reasons for this trend: There are more dockless vehicles available in the District than Capital Bikeshare bikes, especially in tourist-heavy areas like the National Mall where, although most dockless operators have no-parking zones, dockless vehicles are not constrained by docking station space in the same way that Capital Bikeshare is constrained. For much of 2019 the price of dockless trips, which are set by the operators, were lower than the average Capital Bikeshare trip price as well. Capital Bikeshare expects to reverse these trends by re-introducing e-bikes in 2020. Capital Bikeshare e-bikes were piloted in 2018 and were extremely popular, generating approximately four times as many trips as conventional bikes in the pilot period.

The question of whether complementary effects exist is more difficult to judge. However, looking at trip distribution alone may fail to capture the complementary impact of the dockless program. The sheer number of dockless trips per month suggests that dockless vehicles are reaching individuals who are not prone to use conventional Bikeshare, which may be expanding the overall number of micro-mobility and active transportation users. Anecdotally, personal e-scooters are more commonly seen now, for example. In other words, it appears that dockless vehicles have expanded sustainable transportation mode share options but have yet to equitably expand geographic access. Surveys suggest that dockless vehicle trips are most likely to replace ride-hailing trips, so this would support DDOT's goals as laid out in MoveDC.

- 89. Please describe all actions that the agency has taken in FY 2019 and FY 2020, to date, to improve pedestrian and bicycle safety.
 - How was the Vision Zero Pedestrian and Bicycle Safety Fund used in FY 2019 and FY 2020, to date? Please be specific.
 - DDOT recently hired a full-time employee focused entirely on Vision Zero. What will that person's responsibilities be, and what support will they have available at the agency?

People on our streets who are not in vehicles are at special risk in the case of any incident, and the Vision Zero initiative aims to reduce the likelihood of injury and death through redesign and reorientation of roadway design. People should feel and be safe on our streets, whether they are walking, exiting a vehicle, cycling, or using a wheelchair. During Fiscal years 2019 and 2020 to date, DDOT has undertaken the following actions to increase safety for these vulnerable road users:

- Changed DDOT policy to have all crosswalks be high visibility crosswalks.
- Constructed quick-build safety improvements along Florida Avenue NE between 3rd Street and 14th Street
- Constructed and upgraded several miles of bicycle facilities
- Finalized redesign of the intersection of Malcolm X Avenue and Martin Luther King, Jr. Avenue SE, for construction in FY 2020, a high-crash location
- Continued elimination of dual left-turn conflicts at intersections all around the District
- Left turn hardening to slow down cars as they enter crosswalks at 31 locations
- Expanded Leading Pedestrian Intervals that give people time to establish themselves in the crosswalk to an additional 270 locations
- Prohibition of Right Turn on Red at 100 intersections to reduce conflicts
- Continued the work of the Vision Zero Working Group, co-chaired by the Deputy Mayor for Operations and Infrastructure and the Deputy Mayor for Public Safety and Justice, which meets monthly
- Creation of the Vision Zero office at DDOT
- Installation of two traffic gardens at DCPS schools
- Launch of Vision Zero campaign using DC Circulator fleet
- Monthly meetings of the Major Crash Review Task Force, with recommendations issued in the first annual report in summer 2019.
- Implementation of the Vision Zero rulemaking
 - Higher fines for dangerous behaviors
 - o Commercial vehicle safety requirements
 - o Slow zones near schools, recreation centers, seniors centers, pools, athletic fields, etc.
 - o Improved patient transport and safety for first responders
- Expansion of Pick-up and Drop-off zones to alleviate conflicts along the curb
- Hosted bike and walk to school day events
- Trained DDOT staff and external stakeholders involved in the Transportation Management Plan (TMP), Maintenance of Traffic (MOT), and Traffic Control Plan (TCP) process for any type of Work Zone projects in the District of Columbia.
- Hired public space inspectors for safe accommodations rapid response team.
- How was the Vision Zero Pedestrian and Bicycle Safety Fund used in FY 2019 and FY 2020, to date? Please be specific.

Vision Zero Funding utilized in 2019 and 2020:

Several grants continued implementation through the end of FY 2019 and into FY 2020. Those include the following:

Safe Routes to School National Partnership - \$117,000

The Safe Routes to School National Partnership will create "Safe Routes for Youth," a program for teens in Wards 7 and 8 to support a youth-led Vision Zero agenda, develop youth leadership, and to implement activities that promote a culture of injury-free, healthy active transportation. The Vision Zero grant will support the goal of reducing collisions and fatalities over the medium to long-term by positioning youth

in Wards 7 and 8 as community leaders who can engage their peers and District agencies on transportation safety and establish a youth-centered, culturally responsive transportation agenda. The program will prioritize approaches and design strategies that increase transportation safety for youth and conduct youth-led traffic safety education for young people. It will also seek to build understanding around safety issues affecting youth in Wards 7 and 8, including traffic injuries, street harassment, and street violence.

Gearin' Up Bicycles - \$108,000

Gearin' Up Bicycles is a non-profit full-service bicycle shop, located in Ward 5, that focuses on career development for youth from underserved communities. The Vision Zero grant will support "Bike Force," a series of mobile bicycle pop-up shops staffed by youth mechanics that provide free bicycle maintenance, repairs, and education. Gearin' Up will serve more than 1,200 District residents at 50 pop-up events, with special emphasis on locations East of the Anacostia River, where no bicycle shops exist. Gearin' Up will continue to align its programming with District of Columbia Public Libraries (DCPL), District of Columbia Public Schools (DCPS), and Metropolitan Police Department (MPD) events.

<u>The Southwest Business Improvement District - \$60,000</u>

The Southwest BID will pilot and measure the effectiveness of placemaking and safety interventions in a rapidly growing DC neighborhood. The Southwest BID will also put on a major street safety event on 4th Street SW that will highlight the use of the right-of-way as public space and provide an opportunity for community members to come together.

In FY 2020, DDOT is programming Vision Zero funds to support a change in driving culture in the District that is part of a dramatically safer future city. Programs include Open Streets events like the one on Georgia Avenue in October, neighborhood slow zones, marketing around lower speeds in neighborhoods, and using targeted outreach to reduce aggressive driving.

• DDOT recently hired a full-time employee focused entirely on Vision Zero. What will that person's responsibilities be, and what support will they have available at the agency?

The director of DDOT's new Vision Zero Office started in March 2019. The new office also includes two additional FTE who have expertise in transportation policy and engineering. The Vision Zero Office's purpose is to lead, rather than supplant, the work of the other divisions within DDOT as we strive to reduce and eliminate traffic deaths and injuries. Close coordination with the Traffic Engineering and Signals Division as well as the Traffic Operations and Safety Division, for example, led to the summer 2019 completion of the Florida Avenue NE quick-build safety project. As we continue to build out the function and value of the Vision Zero Office, the agency will fill needs for communications, marketing, design review, and research work with contract support.

In addition to leading safety work within DDOT, the Vision Zero Office works closely with the interagency Vision Zero working group, which is co-led by Deputy Mayors Babers and Donahue and the Major Crash Review Task Force. The Office is also working closely with the Community Engagement team to create a truly community-owned program that can create a truly safer city for all.

90. Please list the number and location of collisions involving pedestrians, bicyclists, and scooter users in the past 3 years, including the number of injuries and fatalities associated with each type of collisions. Please also list the number of pedestrian, bicyclist, and scooter fatalities for calendar year 2016, 2017, 2018, and 2019.

- Has DDOT identified any trends in these collisions? If so, please explain.
- For each collision resulting in hospitalization in FY 2019, please describe how the collision occurred.

Please refer to Appendix 90a. As DDOT has noted previously, these data are reported by calendar year, not fiscal year. The total numbers for crashes, injuries, and fatalities are reported by mode for calendar years 2016, 2017, 2018, and 2019 (to date) on the tab labeled "Ped-Bike-Scooter (3 years)."

• Has DDOT identified any trends in these collisions? If so, please explain.

Trend analysis for crashes is published by Howard University's Transportation Research Center under an agreement with DDOT. Appendix 90b is an excerpt from the most recent report, focused on crashes involving pedestrians and bicyclists. Please note, these trends are for the 2016-2018 data as the 2019 data has not yet been analyzed. Also, as scooter crash data is a recent addition, a trend analysis is not available at this time.

For each collision resulting in hospitalization in FY 2019, please describe how the collision occurred

For crashes resulting in hospitalization in calendar year 2019, please refer to the tabs labeled "Ped Hospitalization 2019," "Bike Hospitalization 2019," and "Scooter Hospitalization 2019" in Appendix 87a. DDOT has provided crash report numbers, locations, and dates for these crashes in this appendix. Information related to descriptions of crashes that result in hospitalization is maintained by the Metropolitan Police Department.

- 91. Please identify the most dangerous intersections for vehicle, bicycle, scooter, and pedestrian crashes over the past 3 years.
 - Please provide an update on the top 10 pedestrian crash locations identified in 2019.
 - Please provide an update on the top 10 bicycle crash locations identified in 2019.
 - Please provide an update on the top 10 scooter crash locations identified in 2019.
 - Please provide an update on the top 10 vehicle crash locations identified in 2019.

DDOT ranks the safety performance of intersections using a formula called the Crash Composite Index. The formula takes into account the severity of crashes that occur at an intersection, the frequency (or total number of annual crashes), and the rate of crashes (the share of car crashes that occurred out of the total number of cars that traveled through the intersection, for example). The Crash Composite Index is multimodal, and accounts for crashes involving people walking, biking, and operating motor vehicles.

Appendices 91a and 91b provide 2019 data and 2016-2018 data (by mode) for the frequency of crashes, as well as a normalized calculation of crash frequency, Crash Composite Index. Crash frequency is used to determine locations with a high number of crashes. Please note that for scooter crashes, we are using frequency data, and no intersections have had more than one scooter crash. Therefore, all crash locations for that mode have been listed.

- 92. Please provide a list of the intersections DDOT has identified in its site assessments for "high crash" intersections in FY 2018 and FY 2019.
 - Please describe the improvements planned and in progress for these intersections.
 - Please describe the status of the plans for each site improvement.

In both 2018 and 2019, DDOT organized site visits at five (5) identified high-crash intersections. DDOT conducted a detailed safety evaluation at each site, the scope of which was intended to identify potential improvements to mitigate observed crash patterns. Short-term improvements, such as signage, marking enhancement, and signal timing adjustments were identified for installation. Long-term recommendations developed from the studies will be incorporated as part of planned capital improvement projects, such as intersection modification or streetscape projects, but improvements focused on those that can be installed in the short- and mid-term focusing on temporary materials and rapid deployment of safety interventions.

In 2018, DDOT visited the following locations:

• 7th St NW at Mt Vernon Square

The site visit for this location included the three closely spaced intersections along 7th St NW, on the east side of Mt. Vernon Square. Short-term signage and marking improvements have been completed. The timing of the traffic signals was also evaluated and updated as part of DDOT's yearly Signal Optimization program. Evaluation of the short- and mid-term recommendations to alter lane configurations, prohibit/modify turning maneuvers, and evaluate potential bike facilities on 7th St NW will be completed and the results will be shared with the affected ANCs in 2020.

• 13th St & Kenyon St NW

The recommendation to install a Leading Pedestrian Interval (LPI), as well as the other short-term marking improvements have been completed. This intersection was also included in DDOT's Left-Turn Hardening project and No Turn On Red intersections, both of which have been completed.

• Blair Rd & Nicholson St NW

The short-term signage recommendations have been completed. Evaluation of the mid-term recommendation to remove the peak period parking restrictions is currently underway, to be completed and shared with the affected ANCs in 2020. The feasibility of long-term improvements, including the installation of a crosswalk across Blair Rd NW, will be coordinated with DDOT's Metropolitan Branch Trail project.

• Eastern Ave & Nash St NE

The short-term signage recommendations have been completed. Evaluation of the mid-term recommendation to restripe Eastern Ave NE and clarify the cross-section as one (1) travel lane and one (1) parking lane in each direction is currently underway, to be completed and shared with the affected ANCs in 2020. Additionally, the feasibility of other mid-term improvements, including the installation of a crosswalk across Eastern Ave NE and sidewalk on Nash St NE is under evaluation. The evaluation of the long-term improvements will be completed following installation of the mid-term improvements.

• Pennsylvania Ave & Fairlawn St SE

The short-term recommendations for pavement markings and installation of additional flexible delineator posts has been completed. Long-term improvements are being coordinated with other adjacent DDOT projects, including the DC-295 Long Term Improvements, Pennsylvania Ave/Minnesota Ave SE, and Shepherd Branch Trail projects.

In 2019, DDOT visited the following locations:

• 7th and G Streets NW

Short-term improvements, including signage, removal of the shared bus-bike lane on northbound 7th Street NW, flex-post curb bump outs, and installation of planters (as part of a short-term streetscape

project for 7th Street NW) have been completed. Improvements associated with DDOT's Left Turn Hardening project have also been completed. The timing of the traffic signal was also evaluated and updated as part of DDOT's yearly Signal Optimization program. Mid-term improvements, including the evaluation of right-turn on red restriction and additional flex-post curb extensions, is currently underway and will be completed and the results shared with the affected ANCs in 2020.

• 1st and Florida Ave NW

Short-term improvements, including installation of a left-turn arrow for southeast-bound Florida Avenue at R Street NW has been completed. The timing of the traffic signal was also evaluated and updated as part of DDOT's yearly Signal Optimization program. Other short- and mid-term improvements, including assessment of vehicle speeds, potential circulation changes, and ADA-upgrades, will be completed and shared with the affected ANCs in 2020.

• 7th and M Street NW

Short-term improvements, including installation of Left Turn hardening infrastructure have been completed. The timing of the traffic signal was also evaluated and updated as part of DDOT's yearly Signal Optimization program. Other short- and mid-term improvements, including assessment of flexpost curb extensions, right-turn on red prohibition, and updates to the curbside uses/loading zones, will be completed and shared with the affected ANCs in 2020.

• Vermont Ave & U Street NW

Short-term improvements, including installation of Left Turn hardening infrastructure have been completed. The timing of the traffic signal was also evaluated and updated as part of DDOT's yearly Signal Optimization program. Other short- and mid-term improvements, including assessment of flexpost curb extensions and right-turn on red prohibition, will be completed and shared with the affected ANCs in 2020.

• 14th Street & Spring Road NW

Short-term improvements associated with resurfacing the roadway – upgraded pavement markings and upgrading existing crosswalks to be ADA-compliant – have been completed. Other short- and mid-term improvements, including assessment of flex-post curb extensions, leading pedestrian intervals, and right-turn on red prohibition, will be completed and shared with the affected ANCs in 2020.

A detailed list of the completed and ongoing work for each location from 2018 and 2019 is provided as Appendices Q92a and Q92b. A copy of each site visit report can be found on DDOT's Vision Zero website (dcvisionzero.com)

- 93. How does the agency make crash data available to the public, and how often is it updated?
 - What steps has DDOT taken in FY 2018 and FY 2019, to date, to increase the accessibility and transparency of such data and improve the response time for such requests?

The new Vision Zero website (http://www.dcvisionzero.com) provides summaries of key metrics that illustrate trends in crashes, violations, and other safety data. It also provides a map of crashes that is interactive by mode, severity, and date.

Current downloadable crash data is published every twenty-four hours at opendata.dc.gov: http://opendata.dc.gov/datasets/crashes-in-dc.

These data can be downloaded in multiple formats, including a spreadsheet for statistical analysis or in GIS (geographic information system) format for spatial analysis. Each data point refers to the street centerline network of Washington, DC maintained by the DDOT and OCTO. In addition to locations, a related table consisting of crash details is available for each crash. This table provides some anonymized information about each of the persons involved in the crash. Crash data are derived from the MPD crash data management system (COBALT) and represent DDOT's attempt to summarize some of the most requested elements of the crash data. Details of point locations and crash details table include location points with some basic summary statistics, the DC ward in which the crash occurred, summary totals for: injuries (minor, major, fatal) by type (pedestrian, bicycle, car), mode of travel involved (pedestrian, bicycle, car), impaired participants (pedestrian, bicyclist, car passengers), if speeding was involved, the nearest intersecting street name, distance from nearest intersection, cardinal direction from the intersection, and many other details.

These open data regarding crashes in DC make FOIA requests unnecessary.

94. Please identify any reports, studies, or regulations due to the Council in FY 2019, whether the deadline was met and, if not, why. Please also identify any outstanding reports, studies, or regulations due to Council from previous years, and why they remain outstanding.

As of January 13, 2020, DDOT is still compiling this information and reviewing to ensure that all information is accurate and up to date. DDOT will follow up shortly to provide a response to the Committee.

- 95. Please provide any update on the Red Top Meter Program District-wide.
 - Is DDOT pursuing any other initiatives to assist handicapped users of public parking?

DDOT implemented the Red Top meter (RTM) program on May 8, 2017 within the Central Business District (CBD). This involved designating a reserved metered space on the block that provides ADA curbside access to the sidewalk and parking meter. Currently, there are over 360 designated accessible metered spaces.

DDOT convened an Accessible Parking Roundtable on January 31, 2019, May 13, 2019, and October 1, 2019 to discuss accessible curbside management in the District, including accessible meter parking. The roundtable will continue into FY 2020 to meet quarterly, with the next meeting anticipated in late January/early February 2020. A list of organizations invited follows:

Department of Disability Services

DC Commission on Persons with Disabilities

Developmental Disabilities Council Office of Disability Rights (ODR) National Park Service (NPS)

DC Council

District Department of Transportation (DDOT)

Department of Motor Vehicles (DMV)
Department of Public Works (DPW)
Building Industry Association
Columbia Lighthouse for the Blind

Deaf Reach

The Arc of DC

DC Chamber

Downtown BID

Capitol Riverfront BID Southwest Waterfront BID

Golden Triangle BID

Quality Trust for Individuals with Disabilities Multimodal Accessibility Advisory Council

Age Friendly DC DC Villages

University Legal Services

Brain Injury Association of DC

DDOT established the roundtable to have a forum to discuss accessible curbside management issues. With mobility involving more than parking, DDOT wants to ensure accessibility is incorporated into the discussions, planning, design, implementation, and operation of curbside management programs.

Current Program Updates:

- Implementing "All May Park, All Must Pay" decals on all meters in RTM operating zone in FY 2020 to resolve cases where eligible parkers did not know payment was required (currently Central Business District)
- Finishing field inspections in FY 2020 and retrofitting existing CBD RTMs to full ADA compliance
- Expanding RTM operations to Stadium Event Zone, including outreach campaign in advance of upcoming 2020 baseball season
 - Asset-lite Accessible Meter Parking (designating the space by signage and customers use accessible pay stations).
 - Pay stations converted to enable pay-by-plate functionality to facilitate verification of parkers requiring accessible spaces
 - Briefed ANC 6D in May 2019
 - ParkDC app displays accessible meter parking spaces (and will include expanded area)
 - Also displays off-street garage and vertical height clearance for accessible vans.
- Rebranding the program from "Red Top Meters" to "Accessible Meter Parking"

Over time, DDOT anticipates implementing Accessible Meter Parking operations District-wide to assist residents and visitors in need of accessible parking throughout the District rather than just in the commercial core. DDOT's short-term objective is to expand implementation to the Stadium Event Zone, where there is the most immediate need to ensure availability of accessible parking in an area of high demand.

- 96. DDOT currently operates performance parking pilots in Chinatown and Navy Yard. How does DDOT currently use these programs?
 - How does DDOT set pricing on game days in Navy Yard?
 - Has DDOT issued any reports on the success of these programs? If so, please provide them.
 - Under the current laws authorizing performance parking pilots, the Executive may create additional parking pilots throughout the city. Does DDOT have any plans to establish additional parking pilots?

DDOT selected the Chinatown/Penn Quarter Area to test various technologies to make parking easier and reduce congestion by increasing parking availability and providing drivers with tools to find available parking spaces. The congestion pricing model used for this pilot project charges higher prices on higher-demand blocks, while keeping prices static or lowering them on blocks with lower parking demands. The pricing also adjusts during the day, recognizing that parking has peak and non-peak hours as well. Rate changes are communicated to the customers using: decals on parking meters; real-time parking availability apps (ParkDC and VoicePark); and the www.parkdc.com/website.

Since October 2016, DDOT has adjusted the prices eight times, most recently in August 2019. Prices have gradually increased or decreased on blocks, and prices now range from \$1 per hour to \$7 per hour. In addition, DDOT has increased time restrictions from 2 hours to 4 hours in the eastern part of the study area during evenings and on Saturdays, to encourage higher usage during lower-demand times. Data show that the pilot area has seen occupancy generally increase, and over two-thirds of the blocks were in the target occupancy range as of the last price change. The change in time limits appears to have had the intended outcome of increasing usage during low-demand periods for the affected areas.

The pilot project was operationally completed in Spring 2018 and assigned to DDOT's Parking and Ground Transportation Division (PGTD) for continued, regular operations. PGTD has implemented the sixth through eighth price change, plus a major update to the ParkDC app in December 2018 to show all parking meter location and policy information across the District. In addition, through the rest of 2018, DDOT finalized and published a final evaluation report that documented lessons learned, determined how to maintain dynamic pricing operations in Penn Quarter/Chinatown going forward, and identified strategies that were deemed viable and easy to maintain for the other performance pricing zones.

In the Stadium Event Zone, DDOT sets meter prices on game days in an attempt to be competitive with off-street parking options. However, with a legislated price cap of \$8 per hour, on-street parking is less expensive than most off-street parking options for patrons of Nationals Park. This results in street spaces quickly being filled and, along with the lack of a time limit on game days, results in most spaces being used by baseball fans instead of being available for shorter-term use by visitors and patrons of local businesses. DDOT believes that a much more flexible price cap would allow for more accurate pricing of metered parking during ballpark events and encourage longer-term parkers to use off-street options, freeing up metered spaces for greater turnover.

A performance pricing concept of operations plan was recently drafted for the western end of downtown DC, to include the Golden Triangle BID, ANC 2B, and areas immediately adjacent to the west of the Penn Quarter/Chinatown area. This concept of operations is pending operational implementation in FY2021, subject to resource allocation. Future efforts to expand the program to other areas of the District will continue upon the ratification of a new, multi-year curbside asset management services contract by the end of FY 2020.

- 97. What is the status of DDOT's Traffic Calming Assessment program? Please provide:
 - A list of all Traffic Calming Assessment Application Petitions DDOT received in FY 2019 and FY 2020, to date, including whether the Petition was accepted or denied, the rationale for why the Petition was accepted and denied, and the status of any ongoing petitions.
 - The average length of time, in days, between DDOT's receipt of a Traffic Calming Assessment Application Petition and the implementation of traffic calming measures to address issues raised in the Application Petition.
 - A list of the number, location, and type of traffic calming measures which were installed in the District in FY 2019 and FY 2020.

Please see Appendix Q97 for a list of Traffic Calming Assessment Petitions.

• The average length of time, in days, between DDOT's receipt of a Traffic Calming Assessment Application Petition and the implementation of traffic calming measures to address issues raised in the Application Petition.

The average length of time to complete a Traffic Calming Assessment is approximately 115 days. The actual time it takes to complete a single Traffic Calming Assessment varies around that average based on complexity, scope, and even the time of year. Several projects begin as traffic calming and may evolve into larger-scale projects at the neighborhood level. The assessment for those projects utilizes more resources and requires more time for completion. Additionally, the data collection effort around a Traffic Calming Assessment is also limited to specific times within the year when representative data can be collected. In general, data collection is not conducted during the school summer vacation, holidays, weekends, winter weather events, or other times that create unusual traffic patterns. Finally, the actual implementation of safety measures is sometimes only possible during the warmer months of each year.

Regardless of the results of DDOT's traffic calming assessments, safety improvements are nearly always made at the requested locations. In the event that the data show that speeding is not a regular occurrence at the requested location and traffic calming devices are not warranted, DDOT works with the requestor and the community to make other modifications such as refreshed crosswalks and signage that will help address the stated safety concerns.

A list of the number, location, and type of traffic calming measures which were installed in the District in FY 2018 and FY 2019.

Ward 3

- 1. 4100 Albemarle Street, NW -- Driver Feedback Sign
- 2. 5000 Cathedral Avenue, NW (1) Speed Hump with signs and markings
- 3. 5100 Cathedral Avenue, NW (1) Speed Hump with signs and markings

Ward 4

- 1. 1200 Underwood Street, NW (2) Speed Humps with signs and markings
- 2. 1300 Somerset Place, NW -- (4) Speed Humps with signs and markings
- 3. 1300 Sheridan Street, NW -- (4) Speed Humps with signs and markings
- 4. 200 Oglethorpe Street, NW (2) Speed Humps with signs and markings
- 5. Unit blk of McDonald Place, NE (1) Speed Hump with signs and markings
- 6. 100 blk of Webster Street, NW (3) Speed Humps with signs and markings
- 7. 1300 Longfellow Street, NW -- (1) Speed Hump with signs and markings

Ward 5

- 1. 2800 Monroe Street, NE -- (2) Speed Humps with signs and markings
- 2. 1200 Simms Place, NE -- (3) Speed Humps with signs and markings

Ward 6

- 1. 1800 D Street, SE -- (1) Speed Hump with signs and markings
- 2. 200 16th Street, SE (1) Speed Hump with signs and markings
- 3. 1300 G Street, SE -- (1) Speed Hump with signs and markings

- 4. 615 A Street, NE -- (2) Speed Humps with signs and markings
- 5. 100 North Carolina Ave., SE -- (2) Speed Humps with signs and markings

Ward 7

- 1. 3300 Gainesville Street, SE -- (1) Speed Table with signs and markings
- 2. 3342 Highwood Drive, SE -- (1) Speed Hump with signs and markings
- 3. 5000 blk of B Street, SE -- (1) Speed Hump with signs and markings
- 4. 300-400 blk of Burbank Street, SE -- (4) Speed Humps with signs and markings
- 5. 5000 blk of Call Place, SE -- (2) Speed Humps with signs and markings
- 6. 3700 D Street, SE -- (2) Speed Humps with signs and markings
- 7. 700 Congress Street, SE -- (2) Speed Humps with signs and markings

Ward 8

- 1. 1400 Mississippi Avenue, SE -- (2) Speed Humps with signs and markings
- 2. Stanton Rd. and Mississippi Avenue, SE -- (2) Raised Crosswalk with signs and markings
- 3. 18th Street and Mississippi Avenue, SE -- (1) Raised Crosswalk with signs and markings
- 4. 19th Street and Mississippi Avenue, SE -- (2) Raised Crosswalk with signs and markings
- 5. 14th-1500 blk of W Street, SE -- (3) Speed Tables with signs and markings
- 6. 1700 blk of 18th Street, SE -- (1) Speed Hump with signs and markings
- 7. 1800 blk of 18th Street, SE -- (1) Speed Hump with signs and markings
- 8. 1400 blk of 19th Street, SE -- (1) Speed Hump with signs and markings
- 9. 1600 blk of U Street, SE -- (2) Speed Humps with signs and markings
- 10. 2200 blk of Shannon Place, SE -- (2) Speed Humps with signs and markings
- 11. 1300 blk of Valley Avenue, SE -- (3) Speed Humps with signs and markings
- 12. 1400-1500 blk of Ridge Place, SE -- (3) Speed Humps with signs and markings
- 13. 1400-1500 blk of W Street, SE -- (3) Speed Humps with signs and markings
- IV. Alternative Transportation
- 98. What actions did DDOT take to improve the quality and efficiency of DC Circulator service in FY 2019 and what actions does DDOT plan to take in FY 2020?

In FY 2019, DDOT undertook multiple initiatives to improve the quality and efficiency of DC Circulator service. The program expanded the number of dedicated DC Circulator staff to enhance oversight of system service, maintenance, and technology investments. The Transit Delivery Division also added staff positions focusing on contracting and financial support. Additionally, the program initiated a Program Management Consultant (PMC) contract, providing dedicated, on-site oversight of Circulator's operations and maintenance contractor's service and maintenance activities, and expanded invoice and financial analysis capabilities. DDOT also initiated a Support Services contract, which provides support for short-term planning, technology strategy and oversight, electric bus pilot and procurement, federal compliance, and other program needs.

Under the PMC contract, DDOT has undertaken two fleet maintenance audits, benchmarking the contractor's performance and completing preventive maintenance on system vehicles and identifying areas for improvement. With the help of the Support Services contract, the program also advanced work on the new battery-electric vehicle procurement, including market research, focus groups conducted with

system operators and mechanics, and selection of a contract method. This procurement is advancing in collaboration with the Office of Contracting and Procurement.

DDOT is also working with the Department of General Services (DGS) to enhance operations and maintenance facilities. Work has begun on interior improvements to the primary operations and maintenance facility, located at 17th Street NE. Spring 2020 will see additional exterior work to repave the parking area and better define yard circulation. DDOT worked throughout FY 2019 with DGS to identify potential sites for a permanent garage facility to house all operations and maintenance activities.

DDOT continues to advance future-looking actions to improve DC Circulator service. During the summer months of 2019, Circulator offered a National Zoo shuttle connection from the Woodley Park Metro to the Smithsonian National Zoo. This service was also offered during weekend evenings for the holiday season ZooLights event. DDOT is working with the operations and maintenance contractor to refine the service schedule in spring 2020, as well as fund an equitable pay adjustment for vehicle operators. Finally, DDOT has initiated the Transit Development Plan 2020 Update, which will focus on evaluating existing service, including 2019 service changes, and will conduct an alternatives analysis for routing of a future Ward 7 route.

- 99. What actions did DDOT take in FY 2019 to increase the sustainability of the Circulator fleet?
 - How many circulator buses will reach end-of-life in FY 2020 and FY 2021?
 - Will these buses be replaced in FY 2020 and FY 2021, and if so, what fuel will the replacement buses run on?

DDOT is currently undertaking multiple actions to improve the sustainability of the DC Circulator fleet and overall program. Specifically, DDOT is working to advance contracting for consultant services for the DC Circulator Sustainability Plan, which will fulfill DC Circulator's portion of the comprehensive clean vehicle transition plan required of DDOT by section 503 of the Clean Energy DC Omnibus Amendment Act of 2018. The agency assigned federal Congestion Mitigation and Air Quality (CMAQ) funding to aid in the development of this plan. In addition, the program applied to the Federal Transit Administration's Low or No Emission Vehicle Program, an application which resulted in an award of \$2.6 million for a future vehicle procurement. The program also continues to work with the Department of Energy and Environment to advance a memorandum of understanding which would allow DC Circulator to utilize \$4.9 million in Volkswagen Clean Air Act Civil Settlement funds for a future vehicle procurement.

DC Circulator's 14 Van Hool vehicles, introduced to the fleet in 2009, will reach the end of their useful life in FY 2021. During FY 2019, the program initiated a "mini-overhaul" campaign, focusing on engine, transmission, and suspension repair, along with an interior and exterior refresh. The mini-overhaul has completed work on one vehicle, and the remainder of the vehicles will be completed throughout FY 2020. DDOT is currently in the process of procuring an additional 14 vehicles, to be delivered in FY20-FY21. These vehicles will have battery-electric propulsion, similar to the current fleet of 14 battery-electric vehicles. With the delivery of these fleet expansion vehicles, the Circulator fleet will number 86 vehicles. DDOT plans to initiate a second battery-electric vehicle procurement, numbering 17 buses, following the current procurement, which will be a fleet replacement procurement, and allow DDOT to retire the 14 Van Hool vehicles dating to 2009. In order to house and charge the 14 new battery-electric vehicles, DDOT is working to expand the parking area of the South Capitol Street facility into DDOT-owned land, which will provide space for additional parking and charging infrastructure. DDOT is continuing its collaboration with the Department of General Services to acquire land which will host a new consolidated DC Circulator operations and maintenance facility. This facility will have space to house at least 100

vehicles. Once this facility is operational, DDOT will be able to add the 17 replacement and expansion battery-electric vehicles to the Circulator fleet. The entire fleet will then number 89 vehicles.

- 100. Please describe the status of the following requirements or programs under the contract signed with RATP-DEV to operate the Circulator:
 - The contract gives DDOT the ability to conduct mystery rider evaluations up to three times per year. Has DDOT performed any of these evaluations? If so, please provide the results.
 - The contract requires RATP-DEV to document customer complaints and make them available to DDOT? Does DDOT receive these complaints from RATP-DEV? If so, please provide the nature of the top three customer complaints RATP-DEV has received.
 - The contract mandates RATP-DEV make its General Manager available for weekly meetings with DDOT. Have these meetings been occurring? If so, please provide the date and location of the last three month's meetings.
 - The contract requires that RATP-DEV maintain at least a 6:1 ratio of buses to technicians. What is the current ratio of buses to technicians?

DDOT recently completed a customer satisfaction survey across the entire DC Circulator system. The report is in draft and will be available December 20, 2019. DDOT did not conduct a mystery rider evaluation in FY 2019, but now employs two full-time service monitors through its PMC contract, who ride the system and document issues daily, similar to a mystery rider evaluation.

DDOT receives customer complaints directly through the DC Circulator website and social media accounts. DDOT staff work with RATP Dev to investigate and resolve customer complaints. In FY 2019, the top three categories for customer complaints were On-Time Performance (895 complaints), Operator Conduct (297 complaints), and Failure to Service Stop (180 complaints).

DDOT holds regular weekly meetings with RATP Dev's Circulator General Manager and other staff, generally on Thursday mornings, alternating between DDOT headquarters and the 17th Street garage facility. Below are the dates and locations of the meetings for the months of September, October, and November of 2019.

- September 5, DDOT headquarters
- September 19, DDOT headquarters
- September 26, 17th Street facility
- October 4, 17th Street facility
- October 10, DDOT headquarters
- October 17, 17th Street facility
- October 23, 17th Street facility
- November 1, 17th Street facility
- November 7, DDOT headquarters
- November 14, DDOT headquarters
- November 22, 17th Street facility
- November 28, DDOT headquarters

According to RATP Dev's latest staffing report, dated December 13, 2019, there are currently 11 technicians employed, meaning the buses to technicians ratio is 72:11, or 6.5:1.

What is the status of the implementation of the updated Circulator Transit Development Plan?

In FY 2019, there were only three elements of the 2017 TDP Update still unimplemented: the change in direction of D Street SE at Eastern Market, bus stop consolidation on the Georgetown – Union Station route, and the extension of the Dupont Circle – Rosslyn route to U Street. DDOT attended a series of community meetings with the ANC 6B Transportation Committee, concerning the proposed change of direction on D Street SE, which DDOT detailed in a notice of intent (NOI). In a letter commenting on the NOI, the ANC opposed DDOT's proposal to change the direction and reroute the eastern terminus of the Eastern Market – L'Enfant Plaza route. DDOT gave great weight to the ANC's determination and has chosen not to pursue the change of direction at this time. DDOT plans to perform further analysis for bus stop consolidation on the Georgetown – Union Station route in the spring of 2020, which will be coordinated with the current K Street Transitway project. Any bus stop consolidations will be subject to public outreach and a public hearing prior to implementation. The extension of the Dupont Circle – Rosslyn route to U Street will require additional vehicles, which DDOT is in the process of procuring.

DDOT updates the DC Circulator Transit Development Plan every three years. The 2020 TDP Update kicked off in November 2019, and is planned to conclude no later than December 2020. The 2020 TDP Update will provide final guidance as to vehicle requirement and routing for the route extension to U Street. The plan will primarily focus on an overall system evaluation, and will encompass a public outreach process analyzing multiple options for a new Ward 7 route. Any recommended system changes would then be subject to a public hearing before implementation.

- 102. What is the status of securing a permanent garage for our Circulator fleet?
 - To the extent that it is not confidential, please list all locations the agency is currently considering for such a purpose, including the anticipated cost of obtaining each location and the estimated cost of construction of a new maintenance facility at each identified location.

This summer, DGS executed a Letter of Intent with the owners of 1201 Claybrick Road, Capital Heights, Maryland property for the purchase of 11.2 acres. DGS is currently negotiating a purchase and sale agreement which should be executed by January 31. The new facility will support an improved system condition. All three of the existing DC Circulator maintenance facilities are sub-optimal, and construction of a new facility will replace them with a modern asset. This will reduce costs, obviating the need to maintain outdated and inadequate facilities, and allowing DDOT an opportunity to develop and implement a lifecycle management plan for the facility. The new facility will be built to include adequate space for bus storage and provide all necessary equipment to properly maintain the Circulator fleet. The new facility will support enhanced access and mobility in the District, as more vehicle storage space will allow the system to acquire additional vehicles and expand service.

The total cost of the project, including site acquisition, labor, design, construction, and equipment is \$117,627,019. The project is estimated to be completed in FY23 – FY24. The project will be funded with federal and local funds.

- 103. Where has DDOT currently implemented Transit signal priority?
 - Where does DDOT plan to implement Transit Signal Priority in the future?

Transit Signal Priority ("TSP") and/or Queue Jump is currently operational at 185 traffic signals along the Metrobus priority corridors in the District including 16th Street N.W., Georgia Ave N.W., Wisconsin Avenue N.W., and downtown.

- 177 of 185 intersections provide TSP only
- 6 of 185 intersections provide Queue Jumps only
- 2 of 185 intersections provide TSP and Queue Jumps

DDOT will continue to work with WMATA to efficiently maintain and operate the existing system— one of the largest in the country today. In addition, DDOT will closely work with WMATA to implement other signal priority features including but not limited to Queue Jump, and passive signal priority such as modifications to traffic signal timing and phasing – some of the effective strategies to reduce bus delays at signalized intersections.

Here is a summary of DDOT's continued effort on signal priority activities in 2019:

- In 2019, DDOT added two new Queue Jump signals at Florida Ave/12th St, N.E. and Florida Ave/13th St, N.E. intersections. A working group between DDOT and WMATA has been convened to plan, design, and implement Queue Jumps at additional locations. The working group is presently looking at intersections where the buses experience long delays and if the existing geometrics and traffic conditions would be able to accommodate Queue Jump feature. Based on this evaluation, DDOT and WMATA will work together to select up to 5 locations for Queue Jump installation in 2020.
- In 2019, DDOT took the following actions to maximize the benefit of the existing TSP system:

 1) expanding the TSP operation from peak hour only to all-day operation along the 16th St, N.W. and Georgia Avenue corridors;
 - 2) reducing the bus lateness threshold for the three radial routes from 3 minutes to 30 seconds to initiate more TSP calls;
 - 3) conducting a system-wide health check and troubleshooting all 185 TSP/QJ locations in the field; and
 - 4) proactively monitoring, analyzing and managing the TSP operational data. DDOT is also working with WMATA to execute an MOA in 2020. The purpose of this MOA is to set forth the responsibilities of the two agencies in order to continuously support the TSP/Queue Jump system over the next 10 years.
- In 2019, WMATA and DDOT worked together on the third round of the TSP system performance evaluation. Following the changes in the TSP system parameters, two months' worth of new data was collected in the field which indicated further reduction in travel times and improved bus reliability. While the report is not yet finalized, the results indicate up to 12% savings in bus travel times outside the downtown area.
- Please explain the status of the bus-only lanes DDOT has piloted in FY 2019.
 - Has DDOT decided to make these lanes permanent?
 - By what percentage did these lanes increase bus travel times?
 - Is DDOT looking to implement more bus-only lanes throughout the District? If so, where?
 - Has DDOT decided to make these lanes permanent?

DDOT piloted rush-hour bus-only lanes on H and I Streets NW in downtown in FY 2019 from June 3 to September 29, 2019. The bus lanes extend from 14th to 18th Street NW on H Street and from 13th to 20th Street NW on I Street. DDOT decided to make these lanes permanent and extend the hours of operation to 7:00 AM – 7:00 PM, which went into effect on November 14, 2019.

• By what percentage did these lanes increase bus travel times?

Overall, the bus lanes on H and I Streets NW have improved bus travel times. Research from peer cities indicates that the performance of new bus lanes can improve over time as drivers adjust to the new conditions. The initial analysis of H and I Street NW bus lanes mirrors this trend. Following the installation of the lanes in June 2019, average peak period times across the corridor decreased on both streets since July 2019 in comparison to monthly 2018 times.

All findings presented below are for September 2018 (before the bus lanes) versus September 2019 (after the bus lanes), averaged over all routes travelling on the corridor. September data was selected as it represents more typical travel patterns compared to the summer months.

- o H Street NW: Average times along the corridor decreased 6.0% in the AM peak and 1.0% in the PM peak.
- o I Street NW: Average times along the corridor decreased 12.5% in the AM peak and 9.0% in the PM peak.

DDOT is continuing to monitor the performance of the bus lanes and will be updating the design plans in FY 2020 to further improve bus operations, particularly in areas with high right turn volumes.

• Is DDOT looking to implement more bus-only lanes throughout the District? If so, where?

In FY 2020 DDOT will be implementing bus-only lanes on 14th Street NW between Euclid and Newton Streets, which, like all bus lanes in the District, will also allow bicycles. DDOT will also begin construction on bus-only lanes on 16th Street NW between Arkansas Avenue and H Street NW in FY 2020. In addition, as part of the Pennsylvania Avenue SE protected bike lane study (2nd Street to Barney Circle), DDOT is exploring peak-hour peak-direction bus-only lanes and other bus priority treatments for the corridor.

In FY 2020 DDOT will be developing a Bus Priority Plan (contract award anticipated in January 2020), which will identify a pipeline of bus priority corridor projects (bus-only lanes) to deliver in the next six years. DDOT has initiated a Bus Priority Program, which aims to efficiently delivery projects to improve bus travel speeds and reliability.

- 105. How many of the bus stops located in the District comply with the Americans with Disabilities Act (ADA)? Please include:
 - The number of bus stops that were brought into compliance with the ADA in FY 2018 and FY 2019, and the locations of those bus stops.
 - The bus stops that the agency will make compliant with the ADA in FY 2020, and the locations of those bus stops.

In FY 2018, DDOT completed 14 bus stop improvements. In addition, DDOT developed a multi-year plan to make all District bus stops accessible. The plan will aim to mitigate ADA issues including sidewalk condition, landing area width, and other path of travel obstructions.

Of the 229 bus stops identified in the first phase of the development of the multi-year plan, the project team has completed assessments of 118 locations and submitted design plans for improvements at 66 of the locations, including the following:

- · Adjust Bus Stop Location and/or Length of Bus Zone;
- Install ADA Curb Ramps (individual, not by location);
- · Install New Roadway Pad; Install Front Landing Pad; Install Rear Landing Pad; Remove/Relocate Obstruction; Install or Repair Sidewalk;

In FY 2019, DDOT was able to add a task order to our newly awarded sidewalk construction contract for ADA bus stop improvements to expedite the delivery of these improvements. During this time we were able to complete 44 bus stops. DDOT is working to improve both our internal and external reporting by using GIS to show our work plan and the status of work. DDOT is working to complete the priority list and then will continue to develop a new priority list to ensure the ADA compliance of the over 3,000 bus stops in the District.

Currently, there are 117 bus stops within the Sidewalk Improvement Plan on PaveDC for FY 2020. All sidewalk improvement work will provide repairs/improvements for accessibility to the bus stops within the project limits, if necessary. At this time, this count does include bus stops been improved by capital improvement projects.

- 106. What is the status of the Streetcar project? Please include:
 - A spending plan and schedule for obligating funds for the 8-mile system.
 - The status of the Environmental Assessment for the Union Station to Georgetown line.
 - The status of the Environmental Assessment for the Benning Road extension.
 - To what extent will the streetcar operate in its own dedicated lane for both extensions.
 - The methods being considered by the agency to collect fares once revenue operations commence, and a timeline for the implementation of fare-capture.
 - Any operational and financial constraints on DDOT's ability to run and maintain the Streetcar.
- A spending plan and schedule for obligating funds for the 8-mile system. DDOT is actively advancing eastern (Benning) extension, which is part of the proposed eight-mile system. Please see Appendix Q106 for the FY 2020 Spend Plan for Streetcar Systems Planning, Benning Extension, and USGT Extension. The FY 2020 CIP Spend Plan funds the PMC, continues design for the Benning Extension, and completes traffic analysis related to USGT.
- A spending plan and schedule for obligating funds for the 22-mile system. DDOT is actively advancing the eastern (Benning) extension and completing traffic analysis for the western (USGT) extension. There are no active plans to advance the remainder of the 22-mile system.
- The status of the Environmental Assessment for the Union Station to Georgetown line. DDOT does not see a feasible path towards implementation of this project in the short term, due to funding priorities and storage and maintenance needs discovered during the NEPA analysis. As such DDOT has decided to stop additional analysis on the USGT EA. DDOT will not seek federal funding for design or construction of the USGT Improvement Project for the foreseeable future.

Although DDOT will not build the USGT Improvement Project in the near term, the agency will continue to pursuit other projects that improve the corridor, including the K Street Transitway, H Street Bridge reconstruction, reconstruction of New Jersey Avenue, and bus operational improvements. DDOT is currently focusing on designing the K Street Transitway, to improve speed and reliability for east/west buses through downtown. The K Street Transitway shares some goals with the USGT project and offers a

more feasible path for implementation. Much of the analysis included in the draft USGT EA will further the designs and operations of K Street project.

In 2019, DDOT solicited consultant support to update a traffic model for the USGT corridor, which would be needed to address the federal lead agency comments. The contract was awarded in November 2019, with expected completion in FY 2020. Due to the shared goals between USGT and the Transitway, as well as the potential to convert the Transitway to streetcar in the future, DDOT will complete this traffic analysis in FY 2020.

• To what extent will the streetcar operate in its own dedicated lane for both extensions. As noted above, DDOT is not advancing the EA for the USGT extension. However, the EA includes build alternatives that range from 25 to 90 percent of the alignment in dedicated streetcar lanes, and all alternatives include the dedicated K Street Transitway on K Street NW between 10th and 21th Streets NW. As DDOT pursues the K Street Transitway (under a separate project) from 12th to 21th Streets NW, DDOT will design two miles of dedicated transit lanes (one mile in each direction) that will not preclude future conversion to streetcar.

The Benning Extension will operate with traffic in one of the current lanes of Benning Road in each direction of travel. Sharing a travel lane enables DDOT to provide the proposed improvements (roadway, bridge, streetcar, bus, bicycle, and pedestrian) within the existing Benning Road right-of-way. During the alternatives development process, exclusive streetcar lane concepts were explored but ultimately were not carried forward because the elimination of a travel lane would result in new impacts, such as delays and longer travel times to bus operations due to the forecasted volume of vehicles.

• The methods being considered by the agency to collect fares once revenue operations commence, and a timeline for the implementation of fare-capture.

Prior to the completion of Benning Extension construction (anticipated in 2025/26), DDOT will conduct a new analysis on streetcar fare payment collection and fare policy enforcement in coordination with regional partners in the fare payment collection and management process based on previous studies. Details of fare collection and fare revenue management will be announced if DDOT makes a change in streetcar fare policy. Based on the recommendation of the new fare collection, policy enforcement and revenue management analysis, DDOT would develop the timeline and fare collection methods closer to the start of the streetcar revenue service in Benning Extension.

• Any operational and financial constraints on DDOT's ability to run and maintain the Streetcar.

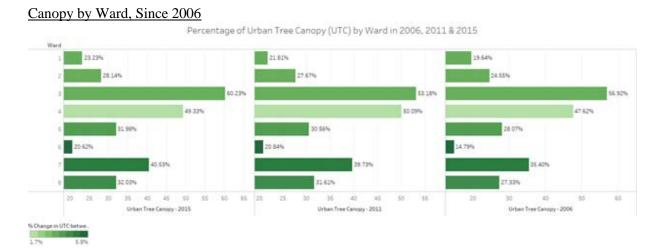

DDOT experiences operational challenges related to the building maintenance and repair services with DGS. We continue to work closely with DGS to mitigate these issues. The Streetcar contractor has identified the lack of availability of some key spare parts as an on-going issue. Several parts suppliers are located in Europe, while some American suppliers are no longer in streetcar/Light Rail Transit business. This inability to obtain parts impacts the contractor's capacity to complete necessary maintenance and repairs in a timely manner. Given that there is already a limited capacity to procure needed parts for either streetcar fleet, especially the older fleet, parts availability will continue to be limited in the future. Although there may be some capacity to work with other transit agencies, which use the similar type of streetcars to operate a "parts sharing" arrangement, this is likely only a temporary solution.

In FY 2019, DDOT began initial preparation for the new streetcar procurement, which included an industry day held in May 2019 and steps toward drafting the specifications for the new vehicles.

V. Tree Canopy

107. DDOT conducts land cover assessments in roughly 5-year intervals. When is the next one scheduled to occur? Please provide graphs indicating the District's urban tree canopy coverage by ward beginning in 2006 and including every year this assessment was done since then.

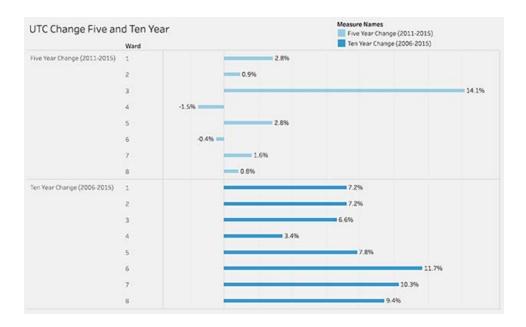

DDOT's most recent study was completed in 2016, and assessed land cover characteristics across the entire District between 2011 - 2015. The next assessment will examine these same characteristics for the period 2015 - 2020. Based on availability of data required to complete this assessment and time required to perform the analysis, DDOT estimates this next assessment will be completed in 2021.

107. Please provide any estimates of the District's total tree canopy coverage each year for the past 4 years.

The last assessment of urban tree canopy (UTC) analyzed the change from 2011 - 2015, which found that DC had increased coverage from 37.1 to 38 percent. In the time since this most recent assessment was completed, DDOT has installed nearly 30,000 new trees. Based on a combination of the historic trend of UTC increase summarized below, and the aggressive approach to tree planting, DDOT estimates that the current UTC has at a minimum remained steady, or grown incrementally.

It is important to understand that these results are an exercise in remote sensing, and while DDOT has complete confidence in the results, any consumer of this information should be aware that such assessments are biased toward loss. Loss of UTC is easy to observe and quantify. UTC gain, however, accrues in very small increments; therefore, quantifying all areas of gain is a complicated exercise. Often times, the growth of small trees can be difficult to capture, yet the growth of their canopies continues nonetheless. These realities suggest that if this data errs, or is incomplete in any way, it is in the direction of under-reporting existing canopy. This background is useful in interpreting results that show gain in all but two wards over the past 5-year period, compared to UTC gain in every ward when viewed over the ten year horizon. The table below compares the 5 and 10 year periods, as well.

109. How many trees are in the District's public space? Did this number increase or decrease in FY 2019?

As of December 19, 2019, 164,878 trees exist in the District's public space. These trees are detailed in DDOT's <u>Public Tree Database</u>. This represents an increase of 7,038 additional trees, or nearly 5 percent over the prior year.

How many empty tree boxes currently exist, and how many does the Urban Forestry Administration anticipate filling in FY 2020?

As of December 19, 2019, 6,831 open public tree spaces exist. DDOT anticipates planting more than 4,000 additional trees in FY 2020, which will result in further reduction of open tree spaces. Based on DDOT's current and projected public tree planting efforts, the Urban Forestry Division anticipates achieving full stocking levels by the end of FY 2021.

111. What was the survival rate of newly planted trees in FY 2016, FY 2017, FY 2018, and FY 2019?

| Fiscal Year | Survival Rate* |
|-------------|----------------|
| 2016 | 92.93% |
| 2017 | 93.81% |
| 2018 | 88.73% |
| 2019 | 90.72% |

^{*}Results compare number of trees planted with the number which required warranty replacement.

112. Is UFA currently responsible for watering trees in the downtown area?

• Has DDOT considered installing or mandating tree box irrigation in order to improve efficiency of watering trees?

DDOT waters newly installed trees twice per month throughout the growing season. This applies to all street trees citywide, including those installed downtown.

Irrigation in the public space is a costly and maintenance-intensive proposition. Furthermore, trees that receive sufficient water to establish properly, through a combination of natural rainfall and DDOT-delivered irrigation, develop root systems sufficient to absorb the necessary levels of water from the soil. This natural development renders a built irrigation network obsolete.

VI. Additional Questions

- 113. Please provide the results of the CurbFlow pilot DDOT conducted in FY 2019.
 - What lessons did DDOT learn from the pilot and how does DDOT plan to use these lessons going forward?

In the summer of 2019, DDOT entered into a research agreement with curbFlow, a mobility startup company, to do the first on-street pilot of a partial version of curbFlow's curbside management system. curbFlow's research project in the District began August 1, 2019 and removed metered parking spaces to create loading zones for commercial activities at nine locations, generally near fast-casual restaurants. The three-month pilot ended October 31, 2019 and in most cases parking spaces were restored to their former uses. In a few situations, Pick-Up Drop-Off (PUDO) or loading zones replaced the zones used by curbFlow during the pilot. The program was free for both individuals or companies using the spaces and the District. As part of the pilot, curbFlow collected extensive data about the use of the space to help inform DDOT's curbside planning.

The curbFlow zones were used by both commercial vehicles and private vehicles operating in a commercial capacity such as picking up for an online food delivery service or other online delivery platform. Ride-hailing companies, passenger vehicles, and taxis were not eligible to register or officially use the zones, but in practice were not prevented from entering the zones and were included in the data collection. Commercial operators were asked to register for the program through curbFlow. Ambassadors from curbFlow staffed each zone, gathered data and provided information about the program. Later in the pilot, the company also tested an advance reservation feature.

DDOT agreed to temporarily accommodate the curbFlow curbside management platform to:

- Gather relevant data on curbside activity for future advancements;
- Evaluate opportunities for DDOT to reduce congestion, improve curb productivity & utilization, improve driver and pedestrian safety, and improve equity; and
- Identify and communicate to DDOT and other stakeholders lessons learned, methods, and technology that can be applied more broadly.

In the evaluation, DDOT and curbFlow used the "SUPE" matrix used to guide the data collection and evaluation:

- <u>Safety</u> number and extent of unsafe acts, including double parking, illegal traffic maneuvers, and accidents & incidents;
- Utilization percent of time the curb is in use, by segment and operator;
- <u>Productivity</u> number of curbside "transactions" including people, parcels, etc; and

• Equity – percentage of time curb is used by segment and operator.

CurbFlow reported that more than 6,350 drivers registered for the system, and that more than 15,000 vehicles from more than 900 fleets (unique companies) used the zones. More than 1,000 advance reservations were made and met. Between August 1 and October 30, curbFlow's study found that the number of vehicles double-parked in the zones dropped 64 percent, including in areas where vehicles had previously blocked bike lanes and crosswalks.

CurbFlow reported 350 eligible uses per day from registered drivers. On-demand delivery (e.g., online food delivery services), freight and parcel deliveries, lasted an average of 7-11 minutes, while pick-up/drop-off activity from taxis and ride-hail vehicles lasted less than two and a half minutes on average. On-demand deliveries were the most frequent users of the curbFlow zones, followed by freight and parcel deliveries. The types of uses and their durations were likely influenced by the locations selected for the pilots. CurbFlow reported that operators using the zones were varied and that different user types peaked at different times in the day, with no single operator segment accounting for more than 33 percent of overall usage.

The pilot reinforced that there is need for a range of commercial operators to access the curbside and that when options are provided to safely, legally, and easily access the curbside, many operators will choose to use those spaces. However, as this pilot did not have a fee associated with use, and was actively managed by on-site staff, questions remain about how this program would work if fully deployed as a paid, automated system. DDOT is monitoring curbFlow pilots now occurring in other cities to see how other elements of the program work as the company brings more of its approach online.

The data provided by curbFlow's work will continue to inform DDOT's evolving curbside program, particularly the PUDO and commercial loading zone programs.

More broadly, this pilot and others have led DDOT to institute a formalized process for identifying and evaluating pilot proposals. DDOT has launched a new application process for researchers and innovators seeking to conduct research on District streets, with the intention of continuing to pursue cutting-edge technologies and approaches that improve transportation in the District.

Proposals for pilots, tests, or demonstrations of new technologies and approaches to help DDOT deliver on its mission can be submitted via the intake application available here.

AASHTO Bridge Management (BrM)

BrM is bridge management system software available through AASHTO that can aid managers in the development of bridge preservation (maintenance, repair and rehabilitation), improvement and replacement projects and programs that result in maximum benefits to DDOT and the overall condition of a bridge population at given budgets utilizing quantitative bridge element level condition data, deterioration and cost models, and agency policies.

Compendium

The web-based SharePoint DDOT Compendium is an online reference that provides comprehensive information about all of DDOT's policies, procedures, and services. The Compendium contains a variety of materials - ranging from regulations, to federal legislation, to transportation studies, to FAQs. It is organized alphabetically, by subject, and contains summary pages that provide links to all related documents and references.

According to the District Department of Transportation Policy Compendium Act of 2012 (District Law 19-168):

- "On or before September 30, 2013, the District Department of Transportation shall prepare a policy compendium listing all of the agency's policies and procedures that affect the management of the transportation network and public space...,"
- "The District Department of Transportation shall make the policy compendium available online...,"

The Compendium complements the innovative online resources already provided by DDOT and the District government, such as DDOT's website (www.ddot.dc.gov) for current department news and projects, DDOT's Transportation Online Permitting System (TOPS) for processing public space applications and permits, and 311 Online for accessing city service requests.

Cyclomedia Globespotter

This is a hosted, web-based/GIS centric solution used to view panoramic street level imagery collected for the District Government. The system produces Cycloramas (digital, spherical, 360° panoramic images).

- O High resolution imagery
- O Well defined internal image geometry
- O Accurate georeference (10 cm) and orientation (0,1°)
- O Complete Metadata
- O All Roads and Alleys were collected
- O Delivery through web hosting or local installation
- O Integrated with ArcGIS and AGO
- O Data Collection Toolbar
- Measuring tool
- System Age: 5 years
- Last Upgrade: 2019
- Data Available to Public: No
- URL https://globespotter.cyclomedia.com/

Fleet Management

DDOT's Fleet Management system enables people to accomplish a series of specific tasks in the management of any or all aspects relating to a company's fleet of vehicles. These specific tasks encompass all operations from vehicle acquisition to disposal. System allows functions such as driver and vehicle profiling, vehicle key supervision, vehicle efficiency, etc.

Fleet management includes commercial motor vehicles such as cars and equipment. Fleet (vehicle/equipment) management includes a information management for range of functions, such as fleet inventory, vehicle maintenance, repairs, trip information, infraction, driver management, vehicle trip/key compliance via Traka.

Fleet Management is a function which allows DDOT's transportation business to remove or minimize the risks associated with vehicle investment, improve efficiency and productivity, reduce overall transportation and staff costs, and ensure compliance with official procedures (duty of care).

HPMS Assistant

This is the application DDOT uses to manage our data reporting requirements to the US Department of Transportation. The Highway Performance Monitoring System (HPMS) Assistant is a web-based application used by IPMD for managing roadway condition data into the mandated FHWA 2010+ format. It generates accurate reports for annual FHWA submittal.

Park DC App

The parkDC mobile app provides real-time parking availability and rate information in the District's Penn Quarter and Chinatown neighborhoods. The app aims to reduce the time needed to find parking, improve turnover of high-demand spaces, provide better parking information, and reduce congestion.

Developed by DDOT, the parkDC app provides parking availability and rate information for on-street parking in the Penn Quarter-Chinatown area, which is bordered by E Street and H Street, NW, between 3rd Street and 11th Street. This is the study zone for DDOT's demand-based pricing pilot program that uses meter rate adjustments to improve parking availability.

The parkDC app shows on-street parking availability using green, orange and red lines, which indicate low, medium or high numbers of spaces. Hourly prices are provided for each block. The parkDC app also provides location, daily rates and hours of operation for parking garages.

Protrack+

This web-based GIS centric application captures the geographic extent of all roadway projects. In addition, the system will be used to monitor protected streets, and begin cost sharing initiatives with other roadway stakeholders. ProTrack+ assists with the overall management of DDOT projects through the entire project life cycle, including but not excluding funding obligation, contract award, solicitation and project close out. This system will also serve as a central repository for all project related information.

QAQC

The Automated management application serves for tracking and managing day to day field, laboratory and plant material testing examples (asphalt, concrete, soils and other construction materials) as related

to upcoming/ongoing construction and maintenance of DDOT's infrastructure projects. In addition, the system functions to process construction materials submittals and provide the critical function of generating final reports and provide IPMD teams access to reports for review and implementation/action. In conclusion the automated system provides a catalogue/ historic information of all testing of materials as related to DDOT's roadway construction projects.

RideDC

The RideDC Portal Dashboard was conceptualized to provide DC retail establishments and organiztions with a web-based tool that would allow users to easily create their own "custom" dashboard to display a dynamic map of transit options near their establishment. The RideDC Portal Dashboard provides near real-time information about multi-modal transportation options and locations on the map. The portal displays:

- Metro Bus / DC Circulator schedules and Nextbus updates
- Metrorail arrival predictions
- Capital Bikeshare bike and open dock availability
- Caresharing location and car availability

The custom dashboard are expected to be display on a monitor near the exit of the retail establishment or somewhere easily accessible to visitors of the establishments, offering the clients near real-time transportation options for their next destination.

RideDC Trip Planner

The rideDC Trip Planner is a mobile application designed to help residents and visitors navigate around the District. An updated version of the trip planner, which was released in July 2016, features real-time rail and bus arrivals, as well as current bus locations. The application is map centric and contains a trip planner feature that allows users to chart a course between two destinations using a variety of transit options, including Metrorail, Metrobus and Capital Bikeshare. Transit options are also available in a table format that features route destination information and arrival times for all modes except Capital Bikeshare.

Roads and Highways

Roads and Highways is a new GIS centerline inventory and maintenance tool at DDOT. The tool allows DDOT to update the linear referencing system (LRS) through standard GIS software (ArcGIS) and maintain the attributes and characteristics of the centerline via a secured Web application. The resulting data are shared via public-facing Web services.

RWIS

Roadway Weather Information Systems (RWIS) are technology tolls that monitor weather and roadway condition information to assist with transportation system management. Many states utilize RWIS for assisting with roadway maintenance decisions, particularly in cold weather climates, and providing weather information to travelers. Currently DDOT has sites in various locations throughout the District

with more to be added in the near future. RWIS stations assist DDOT by measuring the air temperature, wind speed, visibility, precipitation, frost depth and other climatic data.

TOPS

This web-based application is the District Department of Transportation's Online Permitting System (TOPS) that allows you to apply for a Public Space Occupancy, Construction, Excavation or Annual Rental Permit required for use of public space within the District of Columbia. You can be a home owner, tenant, or business needing to occupy metered or unmetered curbside parking, sidewalk, alley or travel lane areas for your activity or construction related work. Once registered, the system makes it easy for you to log into your account any time to apply for a permit, edit your application, upload plans electronically, or check the status of your application. TOPS even allows you to pay for the permit online and then print your permit and reserved parking or emergency not parking signs at any of the DDOT kiosks. The DDOT kiosks are conveniently located at the local 2nd, 3rd, 4th, 5th, 6th, 7th Metropolitan Police Department District offices and our DDOT Public Space Permit Office at 1100 4th Street SW.

District Department of Transportation FY2019

Agency District Department of Transportation Agency Code KA0 Fiscal Year 2019

Mission The District Department of Transportation's (DDOT) mission is to enhance the quality of life for District residents and visitors by ensuring that people and goods move safely with minimal adverse impact on residents and the environment.

Summary of Services

DDOT executes its mission through the work of several divisions. - The Office of the Director is responsible for legal affairs; civil rights matters; compliance with the Americans with Disabilities Act of 1990; senior and elderly affairs; and policy and legislative affairs. - The Project Delivery Administration is responsible for design and engineering and related support; street and bridge construction project management and related material inspection and testing; project materials specification review; construction project review and coordination; construction contract execution; intermodal planning; state transportation environmental compliance; project identification and development; DC Circulator bus service; DC Streetcar service; freight and passenger rail; and mass transit policy, including WMATA matters. - The Operations Administration is responsible for tree planting and maintenance; tree inventory management; public space permits and records; investigations and inspections relating to public space regulations; asset management; bridge and street maintenance; streetlight management; traffic operations and safety; transportation systems management; traffic sign fabrication and installation; parking, carsharing, tour bus, and motor carrier regulation, permitting, and operations; and advertisements on parking meters, including the back of receipts printed out by multi-space parking meters. -The Administrative Administration is responsible for human resources; workforce development; budget and financial services; financial planning and management; and contracting and procurement -The Performance Administration is responsible for coordinating and managing transportation system data; customer service; coordinating and managing the agency's fleet, warehouses; and other technology and information services.

2019 Accomplishments

| Accomplishment | Impact on Agency | Impact on Residents |
|---|------------------------|---|
| DDOT launched the next phase of the curbside pickup-dropoff (PUDO) program focusing on commercial activity. DDOT has partnered with curbFlow, a mobility company that coordinates commercial operator pickup & drop-off activity to available curb space in real time. As part of the project, curbFlow will research and analyze the demand at nine locations throughout the District where commercial loading and PUDO activities for delivery services often leads to double parking and other dangerous behavior. | | |
| DDOT launched a dedicated bus lane pilot on H and I Streets between Pennsylvania Ave and 13th Street NW. The pilot was deemed successful and became permanent. | | Increased bus travel speeds and bus travel reliability. |
| DDOT will complete a record 90 miles of paving this year. That compares to 55 miles last year and more than DDOT has ever done. | | Better roads for residents. |

2019 Key Performance Indicators

2019 Operations

| Operations Header | Operations Title | Operations Description | Type of Operations |
|---|--------------------------------------|---|-----------------------|
| 1 - Maintain and Activities) | improve the core | transportation infrastructure to enhance the quality of transportation and reduce traffic con | gestion. (6 |
| CITYWIDE PROGRAM SUPPORT | Parking Regulation | Preservation and maintenance of parking meters and management of on-street parking regulations. | Daily Service |
| PREVENTIVE & ROUTINE ROADWAY MAINTENANCE | Roadway Preservation | Resurfacing and sealing large areas of the roadway and repairs to streets such as crack sealing, patching, deep patching and filling potholes. | Daily Service |
| PREVENTIVE & ROUTINE ROADWAY MAINTENANCE | Alley Preservation | Sealing, patching, repairing and resurfacing alleys. | Daily Service |
| PREVENTIVE & ROUTINE ROADWAY MAINTENANCE | Bridge Preservation | Preservation and maintenance of bridge assets. | Daily Service |
| PREVENTIVE & ROUTINE ROADWAY MAINTENANCE | Sidewalk Preservation | Preservation and maintenance of curbs and sidewalks. | Daily Service |
| STREET & BRIDGE MAINTENANCE | Core Infrastructure Management | Combined management of the multiple types core infrastructure assets including shared materials. | Daily Service |
| 2 - Enhance safe | ty and reduce tra | ffic related deaths and injuries for all travelers of the transportation system. (7 Activities) | |
| POLICY DEVELOPMENT | Vision Zero | Oversight and coordination of District-wide Vision Zero Action Plan strategies to reach zero fatalities and serious injuries to travelers of DC's transportation system, through more effective use of data, education, enforcement, and engineering. | Daily Service |

| Operations Header | Operations Title | Operations Description | Type of Operations |
|--|--|--|-----------------------|
| TRAFFIC SERVICES FIELD OPERATIONS | Street Signs and Markings | Maintenance of citywide street signs and markings. | Daily Service |
| INTELLIGENT TRANSPORTATION SYSTEMS | Traffic Management and Calming | $\label{thm:maintenance} Maintenance of the city-wide traffic signal optimization program and management of the flow of traffic within the Right of Way.$ | Daily Service |
| CITYWIDE PROGRAM SUPPORT | Traffic Signals and Infrastructure | Maintenance of traffic signal assets. | Daily Service |
| CITYWIDE PROGRAM SUPPORT | Street Light Management | Maintenance of street and alley lights and poles. | Daily Service |
| PUBLIC SPACE MANAGEMENT | Public Space Regulation | Issuance, inspection, and review of public space permits and construction zones. | Daily Service |
| CITYWIDE PROGRAM SUPPORT | Safety and System Efficiency | Management and coordination of the multiple teams working to improve safety and reduce traffic congestion. | Daily Service |
| 3 - Improve mobi | ility and accessibi | ity for non-car transportation to expand transportation choices. (6 Activities) | |
| CIRCULATOR | DC Circulator | Operation and maintenance of daily Circulator bus system, which delivers affordable, comfortable, and efficient bus service to the District's neighborhoods and main attractions. | Daily Service |
| STREET CAR | DC Streetcar | Operation and maintenance of the DC Streetcar system, which is intended to make travel within the District easier for residents, workers and visitors, and complement the existing transit options. | Daily Service |
| PLANNING | Capital Bikeshare | Oversight of the bike rental program for citizens and visitors. | Daily Service |
| CITYWIDE PROGRAM SUPPORT | Travel Demand Management | Travel demand management program, goDCgo, encourages District residents, employees, and visitors to reduce reliance on single-occupancy vehicles for travel. | Daily Service |
| MASS TRANSIT | Greater DC Transit | Management of the agreements and programs affecting transit in the Greater DC area. | Daily Service |
| PLANNING | Active Transportation | Management of the planning, maintenance, and safety of trails, bike paths, and other non-car paths. | Daily Service |
| 4 - Improve the li | vability and susta | inability of transportation routes for local communities. (6 Activities) | |
| GREEN PARTNERSHIP & STEWARDSHIP MGT | Green Infrastructure Maintenance and Environmental Programs | Maintenance and construction related to green infrastructure sites in the right of way, alleys, and public spaces. Green Infrastructure is the living network that connects landscape areas, natural areas, and waterways and n urban areas it captures rainfall; cools buildings and pavement; and creates natural pathways for wildlife. | Daily Service |
| GREEN PARTNERSHIP & STEWARDSHIP MGT | Urban Forest Preservation | Maintenance, improvement, and preservation of the city tree canopy which consists of over 150,000 street trees as well as all trees on District public land. | Daily Service |
| GREEN PARTNERSHIP & STEWARDSHIP MGT | Streetscapes Program | Improvement of various streetscapes throughout the District including the road, sidewalks, street furniture, trees, and open spaces that combine to form the street's character. | Daily Service |
| PROJECT DEVELOPMENT & MANAGEMENT | DC Water Megaproject | Ongoing permitting support for DC Water Megaprojects. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | Business Improvement Project | Management of the Business Improvement District (BID) Capital Reimbursement Project, which supports the Mayor in paying or reimbursing a BID corporation or DC Surface Transit Inc. for reasonably incurred expenses in maintaining or improving public space with signage and sidewalk repairs. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | Economic Development | Management of Federal projects that support local Economic Development. | Daily Service |
| 5 - Invest in long- | term capital proje | ects for the future of the transportation system. (13 Activities) | |
| GREEN PARTNERSHIP & STEWARDSHIP MGT | Powerline Undergrounding Engineering (DC PLUG) | Implement the Power Line Undergrounding Engineering (DC PLUG) to bring overhead electrical feeders affected by outages underground. This is a partnership between DDOT constructing the underground facilities and Pepco installing the underground electric distribution system. | Key Project |
| PLANNING | Frederick Douglass | Improve low condition ratings of the Southwest Freeway Bridge over South Capitol Street through bridge rehabilitation. | Key Project |

| Operations Header | Operations Title | Operations Description | Type of Operation |
|--|--|--|----------------------|
| PROJECT DEVELOPMENT & MANAGEMENT | South Capitol Street Corridor | Management of the South Capitol Street Corridor project to replace the Frederick Douglass Memorial Bridge and transform related sections of urban freeway into a beautiful scenic boulevard that increases pedestrian and vehicular safety, improves multimodal transportation options, increases community accessibility, and supports economic development on both sides of the Anacostia River. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | H Street Bridge | Management of the H Street Bridge preservation and repairs. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | 11th Street Bridge | Replacement of the two existing 11th Street bridges with three new bridges and improvements of the related interchanges. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | Parkside Bridge | Construction of the Parkside Pedestrian Bridge to better connect communities to one another, to the Minnesota Avenue Metro Station, and to the Anacostia River. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | Virginia Avenue Tunnel | Replacement of the Virginia Avenue Tunnel in southeast Washington, D.C., for freight between key ports, manufacturing centers, and consumer markets. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | I-295 Malcolm X Interchange | Rehabilitation of the I-295/Malcolm X Avenue Interchange Improvement Project. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | Arlington Memorial Bridge | Structural repairs to the Arlington Memorial Bridge, concrete sidewalk repairs, drainage improvements, asphalt overlay, and other miscellaneous work. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | Barry Farm | Assistance in the redevelopment of the Barry Farm area. | Key Project |
| PROJECT DEVELOPMENT & MANAGEMENT | Highway Trust Fund | Management of the Highway Trust Fun for the Federal-Aid Highway Program (FAHP). | Daily Service |
| PROJECT DEVELOPMENT & MANAGEMENT | Major Rehabilitation and Reconstruction | Management of the numerous ongoing long-term capital projects within the District. | Daily Service |
| PLANNING | Planning and Sustainability | Development of transportation policies from a broad perspective including preparation of strategic goals and plans for the entire city, while also focusing on specific neighborhood needs, as well as partnering with neighboring jurisdictions. | Daily Service |
| 6 - Create and m | aintain a highly ef | ficient, transparent and responsive District government. (13 Activities) | |
| CUSTOMER SERVICE | Customer Service Clearinghouse | Centralized team of a call center and writer/editors to communicate with and learn from the public. | Daily Service |
| PERFORMANCE MANAGEMENT | Performance Management | Empowerment of the agency to make coordinated, consistent, and continuously improving data-driven decisions through data analysis, support, and coordination. | Daily Service |
| INFORMATION TECHNOLOGY | Information Technology | Ongoing software improvements and development to enhance operations including in-house programming to design DDOT-specific software. | Daily Service |
| CUSTOMER SERVICE | Community Engagement | $\label{eq:decomposition} DDOT's field team that engages with the public, ANC, and other external stakeholders to ensure quality service and responsiveness.$ | Daily Service |
| FLEET MANAGEMENT | Fleet Services and Operations | Maintenance of the DDOT fleet for both vehicles and equipment. | Daily Service |
| PERSONNEL | Training | Robust training program through brown bag lunches, annual Operations training summit, ongoing professional development, and in-house training programs. | Daily Service |
| risk Management | Risk Management | Coordination and implementation of emergency preparedness functions as well as planning, organizing, leading, and controlling agency resources for programs to prevent and/or minimize the adverse effects of accidental (unintentional) personnel, property, liability and budgetary losses within the department. | Daily Service |
| ADMIN SUPPORT | Human Resources | Management of the human resources functions such as hiring, retention, individual performance plans, and recruiting. | Daily Service |
| BUDGET OPERATIONS | Resource Management | Assistance with building the operating and capital budgets and reallocating resources over time. | Daily Service |
| | Facility | Management of the several facilities and sites that DDOT occupies. | Daily Service |
| PROPERTY MANAGEMENT | Management | | |
| | Civil Rights | Administration of the compliance programs and policies related to Civil Rights for transportation such as equal access, equal employment, and language access. | Daily Service |

| Operations Header | Operations Title | Operations Description | Type of Operations |
|--|--|---|--------------------|
| Research, Development & Technology Transfer Program | Research, Development & Technology Transfer Program | Facilitates and promotes research activities that introduce new practices to DDOT and improve the knowledge, expertise, and performance of DDOT staff. The program oversees the DDOT Library, funds research projects, conducts scans of best practices, promotes DDOT research nationally, and joins with others to find solutions to transportation problems. | Daily Service |

2019 Strategic Initiatives

| Strategic Initiative Title | Strategic Initiative Description | Completion to Date | Status Update | Explanation for Incomplete Initiative |
|---|---|-----------------------|---|--|
| Customer Ser | rvice Clearinghouse (1 Strategic Initiative) | | | |
| Implement Computer Telephone Integration | In FY19, DDOT will empower customer care staff to manage customer inquiries more efficiently through the implementation of InGenius Computer Telephony Integration (CTI). The objectives include smarter data tracking and better metrics for the call center as this is a call center management tool. | Complete | CTI Integration was completed. | |
| DC Circulator | (2 Strategic initiatives) | | | |
| 17th Street Bus Facility | In FY19, DDOT will implement improvements to the 17th St bus operations and maintenance facility. Work is scheduled to being in the spring of 2019. | 0-24% | The reduction in scope has resulted in less time required for the buses to be stored off of the site. DGS and DDOT have confirmed a temporary (72-hour) storage location. DGS is working with the landlord to complete the final plans, while the landlord remediates any environmental issues on the site. | The major delay was thinability to confirm a swing site for the buses while the improvement were occurring on the site. There was also concern about fueling and deadhead time as an added expense for the contractor. |
| Direct Management of DC Circulator Services | Effective October 1, 2018, DDOT will have transitioned full management and oversight of DC Circulator service from WMATA to DDOT. This is a culmination of DDOT's efforts to improve service delivery and quality. | Complete | Complete | |
| DC Streetcar | (1 Strategic Initiative) | | | |
| Transit Asset Management Plan | In FY 19, DDOT will implement the new transit asset management plan process for compliance with the MAP-21 State of Good Repair. DDOT will be among the first group in the United States to implement this program. | Complete | Complete | |
| Information 1 | Fechnology (2 Strategic initiatives) | | | |
| Map of Speed Limits and Parking Zones | In FY19, DDOT's GIS team will use the DDOT sign inventory to derive two highly sought after datasets: parking zones and speed limits. Both datasets will be made available for use in DDOT's own transportation planning efforts and also to the general public via DC Gov's Open Data Portal. | Complete | Initial draft of linear GIS speed limits data has been completed on 1/3/2019. Will continue to refine. | |
| ProTrack+ Enhancements and Expansion | In FY19, DDOT's project and contract management tool, ProTrack+, will undergo significant improvements. This will assist DDOT in better managing Project Administration, Personnel Actions, and Cooperative Agreements. | Complete | A few modules are in pilot phase. We will continue to work with our stakeholders to provide additional project related tools. | |
| Planning and | Sustainability (5 Strategic initiatives) | | | |
| Lifespan for Temporary Traffic Calming Devices Protocol | In FY19, DDOT will develop an internal policy for the conversion of temporary traffic calming devices to permanent installations, including considerations related to funding, service procurement, and ongoing maintenance. | 0-24% | Priorities changed mid year and focus on Open Streets. | Priorities changed mid year and focus on Oper Streets. |
| Standardize Plan Reviews for Capital Project Designs | In FY19, DDOT will develop and implement a standard operating procedure for the Project Delivery Administration design review of all long-term capital project designs. | Complete | Complete | |
| Complete two Livability Studies | In FY19, DDOT will complete two Livability Studies with a final project of a Livability Study report. This will also include an implementation monitoring system to track progress on study recommendations. | 0-24% | Priorities changed mid-year and focus on Open Streets. | Priorities changed mid- year and focus on Oper Streets. |
| Public Realm Design Manual Update | In FY19, DDOT will complete the update to the Public Realm Design Manual to include new Design and Engineering Manual (DEM) standards, correct regulation references, and other overall updates. | Complete | Complete | |

| | | I | I. | ı |
|---|---|-----------------------|---|--|
| Strategic Initiative Title | Strategic Initiative Description | Completion to Date | Status Update | Explanation for Incomplete Initiative |
| Develop Bollard Policy and Design Guide | In FY19, DDOT will complete the bollard design guide with standards for the implementation and design of bollards in public space. (Bollard: posts installed to control road traffic and posts designed to prevent ram raiding and car ramming attacks.) | 0-24% | Priorities changed mid-year and focus on Open Streets. | Priorities changed mid- year and focus on Open Streets. |
| Resource Ma | nagement (1 Strategic Initiative) | | | |
| Federal Project Financial Management Improvements | In FY 19, DDOT will implement recommendations from two initiatives to reduce the time frame from federal obligation to first expenditure and to close out federal projects in a timely manner to meet FHWA performance metrics. | Complete | Complete | |
| Sidewalk Pre | servation (1 Strategic Initiative) | | | |
| Sidewalk Repair Plan | In FY19, DDOT will create a sidewalk repair plan that uses data and budget information to determine which sidewalks will be repaired for the year and tracking through completion. This will include an SOP and data automation to ensure replication of the planning process in future years. | Complete | Complete | |
| Street Light N | Management (1 Strategic Initiative) | | | |
| Enhanced Inspections and Data Program | In FY19, the Streetlight team will create an enhanced inspection program that will include utilizing Cityworks (work order management software) for field inspections as well as better use of data to inform work. This will include revised SOPs, the creation of a new Cityworks field inspection form, and deeper data analysis and visualizations. | Complete | Complete | |
| Travel Demar | nd Management (1 Strategic Initiative) | | | |
| Transportation Demand Management Plan for Schools | In FY19, DDOT will hire a transportation planning firm to develop a Transportation Demand Management (TDM) strategic plan for schools. The aim is to decrease single-occupant vehicle (SOV) trips to and from schools initiated by parents, teachers, support staff, and students; increase the mode split for walking, biking, taking transit, and carpooling; and foster a culture of using sustainable transportation options. | 50-74% | DDOT partners with DME for additional surveying to better understand student attendance. The initiative is expected to be completed in February 2020. | DDOT partners with DME for additional surveying to better understand student attendance. The initiative is expected to be completed in February 2020. |
| Urban Forest | Preservation (1 Strategic Initiative) | | | |
| Urban Wood Reuse Program | In FY19, the Forestry program will expand the urban wood reuse program for classrooms and local partners and will explore options such as benches for public spaces. | Complete | N/A | |
| Vision Zero (| 1 Strategic Initiative) | | | |
| Vision Zero Working Group | In FY19, the Deputy Mayor for Public Safety and Justice, with support from DDOT, will periodically convene a cabinet level group to track progress and accelerate the implementation of the Vision Zero action plan. | Complete | N/A | |

| Available Funds as | Description |
|--------------------|--|
| of Nov. 30, 2019 | |
| \$12,351,091 | This project is for the replacement cost for fleet, primarily light vehicles used by DDOT inspectors, field staff and engineers for work throughout the city who work on service related issues, public space permits and large DDOT construction projects. |
| \$19,234 | This project is for the replacement cost for fleet, primarily light and heavy vehicles used by DDOT for work throughout the city |
| \$3,769,689 | Through this project, DDOT is replacing approx. 5,000 of the old coin-only single-space meters with fully networked smart meters that allow for payment via coins, credit, debit cards, and by phone. Additionally, this project will be used for the purchase of single-space as well as multi-space smart meters, meter sensors, and a |
| \$2,082,192 | This project will provide funding for the upgrade of various multi- circuit streetlights throughout the District of Columbia. As of FY2013, new LED lights were installed in every new streetlight upgrade requests. Currently exercising option year 1. On 9/5/2014, contractor has sent out the letter confirming that they received all |
| \$14,036,708 | This subproject provides a five-year contract for the preservation of electrical system assets for the Districts major streets and freeways, including maintenance of manholes, conduit and cable, streetlight poles, foundations and lighting fixtures. Also includes Welcome to Washington Signs and navigational lights. This |
| \$3,664,706 | Improve safety for bicyclists and pedestrians through infrastructure improvments, public education and outreach, and improved enforcement. |
| \$925,276 | Design a piece of the Met Branch Trail between Brookland and Ft. Totten. |
| \$4,872,540 | This project is for the necessary protective buy/ROW acquisition for the construction of a new South Capitol Street (Frederick Douglass Memorial) Bridge. |

| \$1,048,966 Riverwalk Trail FRP Pedestrian & Bicycle Bridges project involves |
|---|
| the construction of two pedestrian/bicycle bridges over CSX |
| railroad, one on each (east and west) side of the Anacostia River. |
| The west side bridge provides the missing link along the |
| completed west side trail between Diamond Teague park and east |

\$15,834,133 This project uses both local District of Columbia and FHWA funds for the design/build of a new South Capitol St. (Frederick Douglass Memorial) Bridge.

\$809,094 The Kenilworth Trail of the Anacostia Riverwalk comprises of a total of about 4 miles of trails starting north of the Benning road bridge on the east side of the Anacostia River and meanders along the river and the neighborhoods into Maryland. The District portion of the project ends at the district border with the state of

\$508,743 AWI Program Management

\$86,225 Design scope of services for the proposed Anacostia Riverwalk Arboretum North Trail and Anacostia Bridge to the Arboretum.

- \$7,323,047 Project funds will be used to improve bus service, support the implementation of unfunded recommendations in WMATA Bus Line Studies and WMATA Service Evaluations and other investments determined by the Mayor to enhance bus transit operational efficiency and customer service within the District of
 - \$399,868 The Business Improvement District (BID) Capital Reimbursement Project will be used to support the work occurring under the Public Space Maintenance Contracting Authorization Amendment Act of 2014, which allows the Mayor to pay or reimburse to a BID corporation or DC Surface Transit Inc. for reasonably incurred
- \$14,496,810 The H Street Bridge spans over the Amtrak corridor near Union Station in the downtown area of the District of Columbia. The bridge carries three lanes of H Street traffic in each direction over 1st Street and 2nd Street NE and over the Union Station rail yard (which includes both Amtrak and WMATA tracks)
- \$5,556,407 The Park side pedestrian Bridge Spans across the DC-295 Freeway and CSXT and WMATA railroad tracks at the Minnesota Metro Station. The project is to built with local funds and a contribution (up to \$3 million) from an adjacent developer

| \$3,650,232 This project is to provide for the restoration and rehabilitation of distressed sidewalks, curbs and gutters, minor drainage improvements, and temporary paving of new streets that are not eligible for federal aid highway funding. The way the work will be accomplished will be by re-engineering the contracts into \$4,647,373 Under this funding account, DDOT will inspect, design, and rehabilitate or reconstruct Culverts thoroughout the District. \$4,762,576 Citywide Sidewalk Repair/Replace and upgrading of wheelchair ramps, bus stops and overall accessibility \$1,068,460 1. This project provides repair, replacement and upgrading of safety appurtenances on and off the Federal-Aid Highway System (NHS) that have been damaged by errant vehicles and replacement of units that do not meet the requirements of NCHRP (National Cooperative Highway Research Program) Report 350 \$306,459 The District Department of Transportation (DDOT) annually implements a skid testing sub?program under the Highway Safety Improvement Program (HSIP). Under this sub-program, consultants conduct pavement skid resistance testing at thirty (30) wet? pavement, high crash locations as identified by the DDOT \$174,647 Traffic Data Center at Howard University - traffic data and analysis services via Howard University. \$2,799,787 Purchase of bikeshare stations for buildout of the capital bikeshare system. | |

| |
| The project purpose is to replace three existing Pedestrian Bridges over Kenilworth Ave at Lane Pl(Bridge#0066), Nash St(Bridge#0067)and Douglas St(Bridge#0068) to improve pedestrian safety and mobility across DC-295 (Kenilworth Ave |
| Freeway) including its service roads, update bridge ramps to the |
| DDOT is currently planning to reconstruct Benning Road betwee Oklahoma Avenue and Minnesota Avenue and the section of Minnesota Avenue between Benning Road and the Minnesota Avenue Metro Station. This project will also include addition of a streetcar line. This project will conduct a NEPA document for the |
| Conduct environmental assessments. Prepare concept designs design plans and specifications and construct documents for bridge replacement/rehab |
| Replacement and reconfiguration of the existing deteriorating bridges and ramps at the Anacostia River crossing near 11th Street SE, connecting Anacostia Freeway and the Southeast Freeway. New freeway ramps east of the river will connect both directions of the Anacostia Freeway with eight freeway lanes |
| To replace existing structures with new structures and provide direct access from I-295 to Downtown DC (via I-395). |
| This is a performance-based contract that enables sustained preventive maintenance, rehabilitation and preservation of all of tunnel assets in DDOT inventory System. The principal objective relative to public safety are: the maintenance of automated or natural exhaust system for the expulsion of harmful carbon |
| Replacement of 31st Bridge over the C&O canal and approaching roadways. |
| |

| \$161,925 | This project repairs, restores and replaces deteriorated, unsafe |
|-------------|--|
| | bridge structures, tunnels and elevated highways facilities on and off the federal aid highway system. The replacement or |
| | rehabilitation of deteriorated bridges are the Departments highest priority in the transportation capital improvements program. The |
| \$1,984 | This project repairs, restores and replaces deteriorated, unsafe bridge structures, tunnels and elevated highways facilities on and off the federal aid highway system. |
| \$939,083 | This program provides for the purchase of Street Repair Equipment and technology improvements essential to the (inhouse) restoration and rehabilitation of distressed streets and highway pavements through resurfacing improvements on local roads not eligi |
| \$276,218 | This project will provide the needed material to address all aspects of streets repair and maintenance thus extending the useful life of our crucial network of local roadways and alleys throughout the District. The material is designated for local streets |
| \$4,205,719 | This project will provide the needed supplies, materials and |
| | equipment to address all aspects of local streets and parking sign repair and maintenance, including the installation of new signage. Without adequate funding the Sign shop and its specialized employees will not be able to fulfill the mandate to continue |
| \$4,378,115 | This project funds in house DC Forces staff salaries, equipment and materials to apply preventive maintenance measures and activities citywide area bridges and truck scale maintenance |
| \$165,473 | Project should be titled Resurfacing, Repair and Maintenance of Local Streets & Bridges. This project funds DC forces salaries, equipment and supplies for In house DDOT crew to perform milling and paving/resurfacing of local streets. Includes funding portion of Underground Utility locating and marking. |
| | This project includes is sidewalk maintenance & repair work. This project should be titled Resurfacing, Repair and Maintenance of Local Sidewalks. Project funds DC forces salaries, equipment and supplies for In house DDOT crew performing installation repair and maintenance of brick and concrete repairs on local sidewalks, |
| \$5,182,548 | This project funds In-house force salaries, equipment and supplies for DC Forces to response to safety repairs & patching including preventive maintenance, patching and some resurfacing of local alleys. Includes the installation of speed humps, preventive maintenance crack seal of local streets, pothole repair & full depth |

| \$4,555,940 | Improve pedestrian and bicycle access on East Capitol Street between 42nd Street and Southern Avenue, Maryland Avenue NE between 2nd and 15th Streets |
|--------------|---|
| \$44,781 | Buzzard Point Street Reconstruction |
| \$18,550,894 | DDOT's Asset Management Divisions budget for Alley Rehabilitation that is used to support Alleypalooza Program and DDOT Labor. |
| \$12,835,591 | Plant Health services citywide to include tree pruning, removal, female ginkgo spaying, dutch elm disease control and other plant health services. |
| \$2,484,079 | Tree planting citywide in the right of way, mainly as street trees. Funding provides for 8,000+ new tree plantings annually. Season begins in October and runs through April each year. |
| \$601,917 | Identify, study and design elements of Intelligent Transportation System technology for implementation on District of Columbia highways and primary routes. |
| \$353,128 | Replace Traffic and Pedestrian Signal LED Modules at all signalized intersections on the National Highway System |
| | Install battery based, uninterruptible power supply for critical signalized intersections. This system would automatic transfer from electrical power to battery back-up power at the sign of power loss. This system would eliminate the need and the labor costs for mobilization of generators and use of TCO's and or MPD |
| \$514,165 | DDOT will build next-generation Advanced Transportation Management System for incident management, traffic operation and special event management. |

| ψο1,σσ1,σ1σ | This project will furia the purchase of chodiater bacco |
|-------------|--|
| | The project is the identification of a bus garage site for Circulator buses. It includes preliminary engineering, design, and ultimately construction of a new facility or rehabilitation of an existing facility for that purpose. |
| | This project is for the refurbishment of the District's Circulator buses. |
| \$144,114 | Ongoing central and local traffic controller software support. |
| | This plan is to develop an ITC project at this location to improve safety pf pedestrains, better traffic flow and enhance the landscape in the islands. Mill and resurface the roadway, install new lights, widen the new sidewalks with new ADA ramps for access. Build a new exit surface ramp for buses as well vehicular |
| | This project reconstructs streets and highways on the Federal aid highway system. Total roadway reconstruction is required when the highway pavement has reached the end of its useful life and can no longer be resurfaced. |
| | Capital Bikeshare is a bicycle sharing program that allows for point-to-point bike trips in the District. It currently features 214 stations with over 2000 bikes in all 8 Wards of the city. |
| | Increase walking and bicycling to school and associated safety through planning, engineering, education, and enforcement. |
| | Increase walking and bicycling to school and associated safety through planning, engineering, education, and enforcement. |

\$31,067,570 This project will fund the purchase of Circulator buses

| \$666,420 | The purpose of this project is to improve vehicular and pedestrian safety along Southern Ave SE corridor from S. Capitol St to 23rd St. The project design includes two phases. |
|-------------|---|
| | Phase 1: This project phase limits between S. Capitol St SE and |
| \$28,269 | To design and construct a permeable alley with stormwater planters. |
| \$5,444,320 | In partnership with a non-profit organization, DDOT is looking into using the old 11th street Bridge piers to support a new bridge superstructure, deck, land scape and other amenities. |
| \$1,495,447 | Funding to plan and implement streetscape improvements along Rhode Island Avenue in keeping with the Great Streets Plan |
| | Safety improvements on the Connecticut Avenue corridor between Macomb Street and Porter Street. Improvements include new streetlights, updated crossing signal for pedestrians, mid-bloc crosswalk. |
| \$2,827 | Traffic Safety and Streetscape improvements to Missouri/Kansas/Kennedy intersection. |
| \$66,798 | General Streetscape project to provide smaller capital improvements Districtwide. |
| \$7,435,560 | Description: The project will fund a bridge structure and green space over a sunken stretch of Connecticut Avenue north of Dupont Circle and south of Q Street NW. It will serve as not only a park, but as an outdoor venue for restaurants, farmers markets, movies, music, plays and other artistic and cultural events. □ |
| \$6,431,547 | Over the past ten years, a renewed interested in New York Avenue NE has begun to transform the area from one primarily associated with industrial uses into an area that people want to live, work and explore,. The existing condition of any transportation mode other than vehicles is inconsistent and |

\$59,375 This program is to design and construct Congressionally mandated demonstration projects required by the Surface Transportation and Uniform Relocation Assistance Act of 1987. (P.L. 100-17). This project was mandated by the U.S. Congress on behalf of Georgetown University. The project is under the \$58,090 This program is to design and construct Congressionally mandated demonstration projects required by the Surface Transportation and Uniform Relocation Assistance Act 1987 (P.L. 100-17). \$179,954 This project is to install green infrastructure (GI) in the Bloomingdale and LeDroit Park neighborhoods as medium term flood mitigation per the Mayor's Task Force report. The report calls for DDOT spending \$10M over 5 years. \$1,000,000 In 2007, DDOT initiated a process to plan and design a pedestrian and bicycle connection linking Garfield Park to the north with Canal Park and the Navy Yard neighborhood to the south as part of the District's larger efforts to promote revitalization of the Near Southeast and Anacostia Waterfront. This area has experienced \$2,200,000 This project will turn the 1200 block of Half Street Southeast into a year-round urban plaza, a "complete street," suited for pedestrians, cyclists, sidewalk cafes, and slow-traveling vehicles. \$1,672,915 11th Street Bridge \$238,700 This is the collection of alley condition assessment, to assist with the management and development of DDOT's rehabilitation program, but the data that populates the alley systems should be updated at least every 5 years. In-between the 5 years, there should be yearly updates taking place. \$30,000 This Local Capital Master project consolidates rehabilitation, reconstruction, and maintenance projects for the District's 350 linear miles of alley assets. This will include preventive maintenance activities such as pothole repair, asphalt deep patching, crack sealing, asphalt overlay, brick patching and

\$1,703,744 Local share for the Maryland Avenue streetscape project. For streetscape work bewteen 2nd St. to 14th Street NE.

| \$2,548,334 | Rehabilitation and widening of Aspen Street from 16th Street to Georgia Avenue adjacent to Walter Reed to provide continuous sidewalk and off-street bike trail. |
|--------------|---|
| | Streetscape and stormwater management on Connecticut Avenue from Quebec Street to Macomb Street, including improvements to pedestrian access along service lane and at Ordway. |
| | Phase II of the Cleveland Park Stormwater Management project will be executed |
| \$1,000,000 | Tenley Plaza will be designed |
| \$1,489,052 | Budget is for design of Van Ness Commercial Corridor and LID Project. The Van Ness Commercial Corridor and LID project is a collaborative effort between ANC 3F, the Van Ness Main Street, and the Office of Planning to develop a Commercial Action Strategy and Green Infrastructure Plan for the commercial |
| | This project is to design new sidewalks on Chestnut Street, NW from Western Avenue to Oregon Avenue which is half a mile long with 40 ft. wide roadway. Currently there is no sidewalk on either side of the street and this has been a problem for pedestrians in the neighborhood. The project will tie into existing sidewalk on the |
| \$10,036,170 | The project is for the acquisition of property and design of roadways and intersections within the Florida Avenue/ Virtual Circle. The Virtual Circle encompass the streets abutting the Wendy property lines; Florida Ave., from the 1st St., to 2nd St., NE; New York Ave., from the 1st St., NE to Florida Ave, NE and |
| \$444,400 | Design and construct streetscape improvements for the 1900 block of Vermont Avenue NW. The streetscape project includes specialty pavers to visually connect the African American Civil War Museum to the African American Civil War Memorial across Vermont Avenue NW, as well as a curb extension and |
| \$55,409,000 | Any project with the primary focus on the streetscape improvements which include safety and beautification efforts that support the mission of the District Department of Transportation; project could include but are not limited to the following areas: |

| | Funding for this project is used to support the 16th Street NW Bus Priority project that will provide dedicated bus lanes and related improvements on the corridor from Arkansas Ave. NW to H Street NW. The project includes stops improvements related to amenities, signing, striping, parking removal; and also intersection |
|-----------------|--|
| \$3,988,133 | The K Transitway will feature a two-way dedicated busway running in the center of K Street from 12th Street NW to 21st Street NW. The new design eliminates service lanes along K Street and places medians in the center of the roadway to protect the busway. The new medians will feature bus stops, lighting, |
| \$1,705,456 | This Master project includes all capital sub-projects that support bus infrastructure across the District as well as the infrastructure needs of the DC Circulator program. Projects could include, but are not limited, to the following areas: |
| \$1,269,450 | This Master Project envelopes any project that has a primary focus on the acquisition and/or substantial rehabilitation of equipment and IT hardware and software that supports the mission of the District Department of Transportation. Projects could include, but are not limited to, the following areas: |
| \$225,000 | DDOT needs to expand the building space at the current Farragut Site operations yard to ensure continuous operational effort for the District. |
| \$225,000 | The truck wash would allow the staff to wash all the trucks throughout the year to reduce the corrosive action of the salt on the frame and body or clean off the oil and grease that builds up during normal operations. The main use of the truck wash would be during the snow operations so that we can significantly |
| | Any project with the primary focus on the expansion or improvement of District Department of Transportation facilities to support the agency's mission. DDOT needs to make improvements to our facilities and sites to provide better work environment for staff and provide proper storage for |
| | Severe weather events, especially those between 2010 and 2012, challenged the District's electric system's resiliency and led to increased customer interruptions due to major events. A Mayor's Executive Order established a Task Force to evaluate options to improve resiliency during severe weather events. Task Force |
| \$4,187,624 | Severe weather events, especially those between 2010 and 2012, challenged the District's electric system's resiliency and led to increased customer interruptions due to major events. A Mayor's Executive Order established a Task Force to evaluate options to improve resiliency during severe weather events. Task Force |

| | This project envelopes any projects that have a primary focus of undergrounding electrical feeders most vulnerable to outages during storm conditions. DDOT will construction underground vaults and buried conduits to accommodate Pepco's feeder lines and transformers. The project This project envelopes any projects that support the highway trust fund activities, including, but not limited to: |
|-------------|---|
| | A.Providing funding for contract and direct labor costs associated with Highway Trust Fund projects that are not eligible |
| \$4,832,029 | The DCOP3 and DDOT agreed to initiate the DC Smart Lighting Project. DDOT has agreed to pay for the Financial and Technical Advisory services. |
| \$4,878,182 | This master project supports the rehabilitation, replacement, and expansion of the District's streetlight portfolio. This master project also provides supplemental funding to support streetlight work on federal aid-eligible streets, bridges, and tunnels funded through the Federal Highway Administration (FHWA) program. The |
| \$58,756 | The acceptance and dedication of public infrastructure improvements in the Barry Farm Neighborhood as part of the Barry Farm Redevelopment Project. The project contemplates the closure and demolition of existing infrastructure in the public right of way and design and construction of streets, alleys, sidewalks, |
| \$140,818 | Description: Developer agrees to contribute the Inspection Payment for inspections and technical support costs incurred by DDOT related to construction of future public infrastructure for the project including but not limited to: |
| | This project is necessary to allow DDOT to perform work based on payments from outside parties in support of conditional obligations and requirements. This project allows the agency to use the funds received for work, per the legislation authority more easily. |
| \$3,721,550 | This master project consolidates rehabilitation, reconstruction, and maintenance activities for the District's 1,494 miles of sidewalk assets. The scope of projects could include but are not limited to the following: a. Upgrading intersections and sidewalks for Americans with |
| \$807,866 | This Master Project supports the rehabilitation and reconstruction of concrete, asphalt, and brick infrastructure throughout the District, through the acquisition of material, including, but not limited to, asphalt, bricks, and concrete. Sub-projects ensure that DDOT has material and equipment necessary to improve the |

| <u> </u> | Funding for consultant aggistance to advance recommendations |
|--------------|--|
| <u></u> | Funding for consultant assistance to advance recommendations to the 30% design phase. Recommendations from Livability Studies are vetted by the community through a robust public outreach component. The recommendations address safety and quality of life issues for residents. |
| \$539,000 | Special events, such as festivals or long-distance races, often result in the closure of main thoroughfares across the District, including I-66, Rock Creek Parkway, and Potomac Parkway. As many residents know, these closures can affect the ability of residents to get from one part of the city to another. These delays |
| \$1,459,309 | Livability design projects develop safety, aesthetic, and condition improvements for District owned assets within a defined project areas. Improvements include but are not limited to the following assets: signage, signals, streetlights and intersection designs. |
| | This project is to provide safety improvements at major intersections of Alabama Avenue SE. These improvements would include revised roadway geometry to reduce vehicular speeds, simplify vehicular movement, and decrease crossing distance for pedestrians. |
| \$4,882,500 | The Arboretum Bridge and Trail is part of the larger Anacostia River Trail network, which includes a planned bridge across the Anacostia River between the existing trail on the east bank and the US National Arboretum on the west bank. This bridge is the next segment for buildout of the trail network. Requested funds |
| \$500,000 | The project will enable the District Department of Transportation (DDOT) to better deliver utility safety markings throughout the District. In doing so, the District will be able to extend the useful life of our underground assets. The project will allow DDOT to address requests from homeowners, excavators, developers, and |
| \$300,000 | Two-way bidirectional protected bike lane on either 6th Street NW or 9th Street NW between Florida Avenue NW and Pennsylvania Avenue NW. |
| | This project envelopes any projects that have a primary focus of improving safety and efficiency of the District's transportation system. By the year 2024, Washington, DC will reach zero fatalities and serious injuries to travelers of our transportation system. Projects under this Master |
| \$10,000,000 | The Streetcar Master project will provide another transit option for those traveling H Street-Benning Road NE and promote economic development along the corridor. This project will link the Benning Road Metrorail station to Union Station, and include, but is not limited to, the following elements: |

| \$1,692,703 | Any project that funds the on-going maintenance and care of |
|-------------|--|
| | street trees, trees within District right-of-way spaces, and trees |
| | within areas in Department of General Services's portfolio. The |
| | District Department of Transportation aims to ensure the health |
| | and longevity of its publicly owned trees through a comprehensive |
| \$2,500,000 | This Master project is to provide the necessary budget for a |
| | defined group of projects supporting the District's horizontal |
| | infrastructure assets. Individual |
| | projects, which are specific District assets, collectively provide and |
| | account for budget needs to continue to provide needed upgrades |
| | This Master project is to provide the necessary budget for a |
| | defined group of projects supporting the District's horizontal |
| | infrastructure assets. Individual |
| | projects, which are specific District assets, collectively provide and |
| \$6,447,500 | account for budget needs to continue to provide needed upgrades |
| | Intra-District between DDOE (Buyer) and DDOT (Seller) |

\$319,314

The purpose of this project is to provide engineering design services, as assigned, to support the department's program with study and design of hydraulic structures, stream bank protection, resolving flooding and roadway drainage problems. Typical servic

\$197,344

The Purpose of this project is to collect information on existing Culverts within the district bi-annually and establish database for followup of maintenance and capacity assessment. A new database update will be done in FY 2017.

\$180,909

- \$186,545 Asset Management for right of way vegetation and trees, to reduce safety issues related to dead, dying and diseased trees as well as treatment of plant health issues and vegetation management programs along the STP and NHS system.

 Contract awarded 12/17/
- \$3,820,907 This Master project is to provide the necessary budget for a defined group of sub-projects supporting the District's horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs to continue to provide needed upgrades to our system and is
 - \$640,773 A construction project to provide repair and preventive measures on bridges, culverts, walls and other highway structures.

| \$1,412,225 | Ongoing maintenance of traffic signals on the NHS routes |
|-------------|--|
| \$2,217,347 | Citywide Federal Aid Consultant Bridge Inspection |
| \$2,589,893 | To provide installation of new pavement markings and refurbishment on all STP and NHS routes throughout the District of Columbia. |
| \$3,371,550 | Pavement Restoration project for the National HIghway System Routes. |
| \$1,315,165 | This project will provide tunnel preventive maintenance activities, rehabilitate and upgrade District's tunnels assets to facilitate extension of their service life, minimize the need for major tunnel rehabilitation projects, and ensure the safety of the traveling public. Additionally, this project will provide the requisite tools and |
| \$3,161,923 | The Purpose of this project is to replace or maintain culvert structures as needed. |
| \$72,157 | Replacing and upgrading guardrail and impact attenuators throughout the roadway system. |
| \$18,541 | Through this project, DDOT is seeking to conduct a study of flood prone areas and identify needs to improve performance of drainage/hydraulic structures through rehabilitation and/or replacement. DDOT also wants to identify flood hazard mitigation measures against riverine and major storm flooding events within |
| \$1,808,151 | Development & Implementation of the Transportation Asset Management Plan for d. per the requirements established by MAP-21. |

| \$158,146 | Pavement Restoration including Milling, Paving, Sidewalk, curb & gutter upgrade |
|-------------|--|
| \$34,045 | This project provides transportation engineering and planning studies support to Traffic Signal Division within The Traffic Engineering Administration, Project Delivery Office of the District Department of Transportation (DDOT). The on-site support consultant will assist DDOT Signal Division personnel with the |
| \$50,386 | Repairing, replacing and upgrading safety appurtenances that have been damaged by errant vehicles and at locations where the current units do not meet the requirements of NCHRP (National Cooperative Highway Research Program) Report 350. Work also includes constructing guiderail and attenuators at new locations |
| \$134,896 | Work consists of performing designs of temporary shoring and structural supports, structural steel repairs and retrofits for deficient structures to keep them in service and ensure the safety of the traveling public. Work also includes respond to emergencies to assess the condition of damaged structures and |
| | Preventive Maintenance and Emergency repairs on Highway Structures |
| \$113,840 | The DDOT is the agency responsible for highway safety programs and highway preservation in the District. The agency annually collects roadway pavement condition information in order to: 1) monitor the health of the roadway network; 2) identify rehabilitation needs; 3) use data to assist in making programming |
| \$3,824,248 | Repairing, replacing and upgrading safety appurtenances that have been damaged by errant vehicles and at locations where the current units do not meet the requirements of NCHRP (National Cooperative Highway Research Program) Report 350. Work also includes constructing guiderail and attenuators at new locations |
| | Milling; resurfacing; repair/replace sidewalks, curbs and gutters; wheelchair ramps; and miscellaneous related work. This is envisioned as a 5-year project, with a base year and 4 option years for the construction contract, funded by annual obligations (including CE costs). |
| \$346,194 | Traffic Sign Inventory and Sign Management System is intended to effectively manage the traffic sign inventory in a manner that yields compliance with the FHWA ruling on minimum sign reflectivity standards, MUTCD standards and enables efficient use of budgetary dollars for sign maintenance work. This project will |

\$12,892,331 HWY STRUCTURES PREV MNT & REPAIRS

\$9,021,381 Maintain the District's ITS Traffic Signal Systems per standards mandated by the MUTCD, FHWA and ITE along all NHS and STP routes. The split of work is anticipated to be 44% on NH routes, 56% on STP. This project will have a base-year plus four option years contract. \$497,727 Provide engineering services for bridges and structures for design, geotec invstigation, constructability review, investigating behavior of structures, etc. \$520,746 The purpose of this project is to conduct inspection and make recommendation for the maintenance of the District Department of Transportation's culvert inventory. This is envisioned as a 5year long project with annual obligations and multiple consultant procurement's. \$992,775 This project is intended to establish and maintain a geodatabase of all current stormwater assets. It will include a performance evaluation program to monitor performance of BMP's and recommend need-base maintenance, improvements to design Standards and Specifications. The project will also provide \$993.426 This project is intended to reduce flooding experienced at the Cleveland Park metro station and surrounding area. The project will involve designing stormwater facilities that manage run off before it reaches the area prone to flooding. \$3,670,086 This IDIQ contract will execute routine citywide drainage rehabilitation and repair work. \$198,641 Provide software and server maintenance for the District of Columbia's computerized traffic signal system.

\$688,993 The purpose of this project is to provide engineering services, as assigned, to support the

| \$175,169 | resolving flooding and roadway drainage problems. The project is envisioned for 5 years, to meet |
|-------------|---|
| \$93,032 | the District needs, with planned annual obligations and multiple work orders. |
| | This 5-legged, geometrically skewed intersection is complicated for vehicles and pedestrians. Because of its complex nature, the intersection operates at a LOS E-F and has a high crash rate. The intersection is located one block west of the Takoma Metro Station which generates high pedestrian traffic. It's also on a |
| \$21,669 | The District of Columbia Department of Transportation (DDOT) and the Federal Highway Administration (FHWA) will be preparing an Environmental Impact Statement (EIS) for the re-construction of the Virginia Avenue Tunnel (VAT). CSX Transportation, Inc. (CSXT) has requested the District Department of Transportation |
| \$4,536,599 | Installation of curb extension at intersections, milling and resurfacing, new granite and PCC curb repair replace PCC sidewalk, spot improvement to existing streetlight locations, pavement markings traffic signal improvement, drainage improvements and installation of new bike lane |
| \$582,361 | Repair extensive pier cracking, superstructure and substructure rehabilitation. |
| \$3,168,890 | Rehabilitation of the bridge sub/superstructures and approach roadway improvements. |
| | Repair/replace deteriorated structural members, correct drainage deficiencies, repair leaking deck joints, remove stay-in forms, remove efflorescence on arch soffits, retrofit pier footing with FRP jacket at waterline, install new street street lights, and other work. |
| \$812,947 | Constructing Klingle Valley Trail within the limits of the closed portion of Klingle Rd. NW from Cortland Place to Porter Street NW connecting east portion of Klingle Rd NW and the ramp to Beach Drive NW to the Rock Creek Trail and Klingle Creek Stream restoration from the head at the Tregaron property to the |

\$107,310 Support of the Distric't bridge program, scheduling preventative maintenance activities, purchase of AASHTO service units, payvement of annual pontis license fees, hosting of DDOT database by AASHTO consultant. \$271,582 Pedestrian safety and vehicular movement improvements to existing traffic circle at the intersection. \$1,953,948 This bridge is on DDOT's list of structurally deficient bridges with a sufficiency rating of 40.9%. The bridge is owned by the National Park Service and inspected/maintained by DDOT. The bridge is located within the Georgetown Historic District and the C&O Canal National Historical Park and is listed as one of the contributing \$4,782,405 Roadway improvement, installation of new sidewalk on west side, new curb and gutter, new bridge over Pinehurst Run. Will include Pepco undergrounding. \$930,033 Anacostia Freeway (Interstate 295) over Nicholson Street SE will eliminate/address bridges' structural deficiencies and increase the safety for the traveling public by replacing the bridges superstructures and deck. \$49,723 Rehabilitation of 16th Street Bridge over Piney Branch Parkway. NW, Bridge No. 0022, to include deck repair, utility replacement to preserve the integrity and extend the life of the masonry and reinforced concrete arch superstructure. Completion of the interior safety walkways, and railings \$34,290 Rehabilitate or Reconstruct Asphalt Overlay on Concrete Pavement, replace deteriorated catch basins, manholes, curb and ramps \$196,286 Reconstruction of the Southbound Kenilworth Avenue NE, is from East Capitol Street Ramp to CSX Rail Road Bridge overpass North of Nannie Helen Burroughs Avenue. \$115,759 The boundary of the Improvement of Pennsylvania Ave. and Minnesota Ave. Intersection is from Fairlawn Street.SE to 27th Street, SE. The infrastructure improvements of the location is part of interstate 295 connection of the National Highway System (NHS).

| \$10,903 | The project objective is to provide a new streetscape and to enhance vehicle and pedestrian access to Dupont Circle through Connecticut Avenue NW. The project plans to mill and overlay the pavement surface and reconstruct sidewalks, curbs and gutters. Additionally, the project may include installation of bulb-outs and |
|-------------|---|
| \$48,326 | Design safety improvements at the intersection of 22nd & "Eye" Streets NW, to include ADA ramps, crosswalk, ADA push-button controls. |
| \$176,055 | Traffic Safety and Streetscape improvements to Missouri/Kansas/Kennedy intersection. |
| \$1,354,632 | Southeast/Southwest Freeway Bridges Br#1103, 1104 and 1109 |
| \$44,650 | The C Street NE Traffic Calming project will slow traffic on the corridor by reducing at least one vehicle lane of traffic. |
| \$5,490 | This project will provide design implementations from the previous 16th St, NW transit study. |
| \$129,675 | Reconstruction of Kennedy St NW from Georgia Avenue to 16th St |
| \$790,468 | Pavement Reconstruction and safety improvements of Minnesota Avenue NE from 300 feet south of Benning Road to Sheriff Road which includes streetlight upgrades, new traffic signal installations, drainage improvements, and landscape/streetscape improvements. |
| \$81,347 | Roadway pavement rehabilitation project. |
| | |

| | The Transportation Signal Priority (TSP) design was added after the obligation. Also, DC Water non participating work design was not completed at the obligation time. The increase in project cost is related to DC Water work and Traffic Signal Priority work. |
|-------------|--|
| | Reconstruction of Monroe Street bridge by replacing the superstructure and part of piers down to crash walls |
| \$1,035,539 | Bridges 1016 (NB) and 1017(SB) are located on the Anacostia Freeway (Interstate 295) crossing South Capitol Street, S.E This construction work consists of the Rehabilitation of Anacostia Freeway (I-295) NB and SB Bridges over South Capitol Street (Bridge Nos. 1016 & 1017), as shown on the contract plans and |
| \$2,410,490 | The construction scope of work includes but is not limited to: rehab of bridge elements; replace of existing bearings; repair existing concrete bridge deck; and replace deck overlay; reconstruction of east and ramp C abutment backwall, reconstruct bridge and approace sidewalks. |
| \$2,185,100 | Penn Av Streetscape 17th St NW to Washington Circle |
| \$24,704 | Construction Management project for the I-695 Bridges form I-395 to I-295/DC-295. Team will assist with project closeout. |
| \$959,664 | This task is for design of the I-695 eastbound D4 ramp. It is one of the incomplete items from the 11th Street Corridor Project, and has been delayed to accommodate CSXT's Virginia Avenue Tunnel Project. |
| | The purpose of this project is to (1) provide increased mobility and accessibility by improving transit operations and options along Benning Road between the intersection of Benning Road and Oklahoma Avenue and the Benning Road Metrorail Station, (2) improve safety conditions and operations for both motorized and |
| \$2,151,174 | Safety improvements to the NJ corridor and portions of NY Ave |

\$25,770,190 Construction of I-295/Malcolm X Interchange Improvement which includes but not limited to construction of ramps, retaining walls, access roads, bridges, curb and gutters, bioretentions, landscape and other related work. \$318,749 EFL-2018(006) Arlington Memorial Bridge \$1,947,177 Federal for the Maryland Avenue streetscape project. For streetscape work bewteen 2nd St. to 14th Street NE. \$5,717,641 Reconstruction of Southbound Kenilworth Ave NE construction consists of roadway pavement, drainage, streetlight improvements, storm-water landscape and safety. \$14,966,275 Safety and Geometric Improvements of I-295 project consists of road way improvements at multiple interchanges between Eastern Avenue and Chesapeake Street that includes drainage improvement, roadway widening, ramp improvement, add auxiliary lane, sidewalk widening, traffic signal, traffic signs, street lighting, \$8,377,591 REHAB OF 16TH ST BR OV PINEY BRANCH (BR # 0022) \$782,930 Rehabilitation of New York Avenue NE Bridge over Anacostia River \$134,129 S St from 7th St to 4th St NW Revitalization \$999,178 DDOT identified the need for a comprehensive traffic study to investigate a modified interchange between Interstate 66, Rock

Creek Parkway, K St NW, 27th ST NW, and Virginia Avenue NW. The objective of the study is to understand the cause of the traffic congestion in the study area and explore the potential for capacity

\$1,521,576 The consultant will provide design and engineering services for the intersection. The consultant prepares plans, specifications, engineering estimates and PS&E packages. \$5,604 Design of Pennsylvania Avenue SE from 2nd to 9th Street to update CAD files, streetlight plans and hardware schedule, reconcile streetlight design with signal design plans, reconcile and update MOT plans, conduct signal plan review and update, revise specifications, update cost estimate, and submit final PS&E \$25,431,970 The scope of work includes but not limited to pavement reconstruction/resurfacing, curbs gutters, sidewalks and wheelchair ramps reconstruction, streetlights, traffic signal and drainage structures, upgrade. The scope also includes landscaping, lanes marking and signage according to current \$10.601,437 The scope of work includes but is not limited to pavement reconstruction/resurfacing, upgrading of curb&gutter, sidewalks, wheelchair ramps, streetlights, traffic signals, drainage, landscaping, bike lanes, lane markings & sinage, based on latest DDOT and AASHTO standards. \$9,115,611 The scope of work includes, but not limited to installing traffic calming features, road configuration, refuge median, ADA compliant ramps, widening sidewalk, bicycle lane, pavement markings, traffic signals, traffic signs, street lighting, drainage systems, landscaping, MOT, utility relocation and stormwater \$56.156 SharePoint form development to evaluate, analyze, and integrate multiple applications within DDOT. \$204,424 DDOT staff review of design and construction for all projects for work zone compliance including work zone audits. \$249,054 Obligation Package for Moveable Barrier System Operation and Maintenance Option Year Four (4)

| \$60.246 | Construction of DDOT Adaptive Signal Control System |
|-------------|---|
| Ψ00,240 | Construction of DDC1 Adaptive dignal Control dystem |
| \$193,784 | This project will provide traffic signal design support to the Traffic Signal Division within Transportation Operations Administration of the District Department of Transportation (DDOT). The consultant will design and prepare traffic signal engineering plans and associated cost estimates for all types of traffic signal projects to |
| \$2,010,655 | This this is the second round of City-wide Optimization for 1600 plus traffic signals in the system. This will be a new five-year project continuing between FY 2018 through FY 2023. |
| \$123,255 | The project is to provide Transportation planning/ engineering studies, Traffic signal warrant studies, Traffic safety and operational analysis, pedestrian and bicyclist needs, and geometric conditions analysis in order to support Traffic Signal Design Groups of the DDOT/TESD. |
| \$2,805,073 | The Citywide Traffic Signal Construction constructs new traffic signals and modifies existing traffic signals on STP and NHS routes to enhance vehicular, bicycle and pedestrian travel and safety in the city and to assure compliance with the Manual on Uniform Traffic Control Devices. |
| \$105,849 | The scope of work consists of upgrading streetlights of Thomas Circle Tunnel (Mass Ave. between 13th Street and 15th Street) in Washington DC with LED fixtures. In general, the work includes removal of existing fixtures, conduits, and cables; installation of new LED fixtures, conduits, cables, controls and emergency |
| \$1,291,296 | Streetlight Asset contract- 2nd Generation Revised .This 3-year lighting contract to maintain and rehabilitate the District's aging electrical system. |
| \$516,254 | This DDOT contract is to provide services for the evaluation of the recently implemented Transit Signal Priority (TSP) system in the District and the provision of system enhancement support through close coordination with WMATA. Primary objective for the system enhancement is to maximize TSP benefits for the bus traffic within |
| | The goal of this project is to develop a 3D repository for utility data to inform future design projects and to establish a procedure for collecting existing and installed underground utility data during construction operations in the right-of-way. |

- \$4,066,255 Phase I installation of Light Emitting Diode (LED) luminaires with networked outdoor lighting control system at various locations is a multi-year contract with one base year and four option years.
 - \$133,039 The purpose of the Asset Management Program Support & Oncall subsurface investigation is to provide support to AMD in pavement engineering and analysis, management, planning, pavement investigation and pavement design services.
 - \$637,491 Install fiber cables and communication hubs along DC freeways (I-295, I-395, I-695 and DC295); Integrate the existing devices along DC freeways for central monitoring and operations.
- \$6,877,451 This will be a new FY16 Federal Project. This project will be to develop a Private, Public, Partnership (P3) program for the StreetLights in the District of Columbia. This will include Technical, legal, and financial aspects of the project. This project will be split just like the SLAM project. 42% Local, 23% NHPP.
- \$2,700,000 This project will provide funding for the upgrade of various multicircuit streetlights throughout the District of Columbia. The scope of the services needed includes but is not limited to upgrading existing streetlights and installing new streetlights in the District of Columbia (streetlights refer to all roadway lighting.
 - \$94,662 Install 36 new CCTV cameras at critical locations in the District for traffic operations and incident management. Integrate the new cameras into the Advanced Transportation Management System (ATMS).

\$405,804 ITS General Support

- \$119,145 This is a five-year project to fund MATOC, a regional program intended to enhance situational awareness and response to transportation incidents whose impacts cross jurisdictional boundaries. It is jointly funded by DOTs from VA, MD, and DC.
- \$3,033,046 This is a five-year project to fund Traffic Management Center (TMC), Roadway Operations Patrol (ROP), ITS Support & Maintenance, and ITS Systems Development & Integration salaries.

| | The project includes replacing seven sign structure and rehabilitation of additional eight sign structures on the I-395 between Ohio Drive and D Street SW. |
|-------------|---|
| | |
| | DDOT is seeking consultant services to perform system design to upgrade and repair high-speed Weigh-In-Motion (WIM) systems at three sites located on New York Ave and I-295. The project scope includes evaluation of the current WIM systems, research on the latest technologies, site engineering, and development of |
| \$998,418 | Blair / Cedar / 4th St SW |
| | DDOT is implementing a skid testing sub-program under the Highway Safety Improvement Program (HSIP), within the Washington, DC area. DDOT has selected 30 wet-pavement high crash locations test method for skid resistance of paved surfaces. Theses locations, mostly intersections, will be identified as |
| \$33,336 | WIM Maintenance Contract - FY18 |
| \$1,930,157 | Perform traffic engineering design citywide. |

| \$732,997 The District Department of Transportation (DDOT) seeks a |
|--|
| contractor to design, furnish, fabricate erect, remove, repair, |
| replace and provide complete traffic sign systems maintenance in |
| accordance with the latest edition of the Manual on Uniform |
| Traffic Control Devices (MUTCD), Standard Highway Sign, and |

\$1,637,859 Every year, DDOT solicits services of the consultants to perform detailed safety analysis and determine most effective counter measures at top 50 to 60 high crash locations. The SOW includes (a) Data Collection; (b) Field Investigation and Safety Assessment; (c) Data Analysis; and (d) Developing

\$102,292 The primary goal of the Safety Data Center at Howard University is to conduct traffic studies, safety assessments and reviews, collect traffic data, integrate and store short-term and long-term traffic counts on a centralized database, analyze traffic data and crash data, maintain safety data center website, and conduct

| \$695,878 | The road safety audit (RSA) program performs a formal safety performance examination of an existing or future road or intersection by an independent and multi-disciplinary team and identifies opportunities for the proactive improvements related to the safety of all roadway users. the multi-disciplinary team would |
|-------------|--|
| \$330,041 | This is a five-year (FY19-FY23) project to fund hardware and data services to ensure reliable operations of the traffic management center (TMC). This includes hardware replacement, equipment purchases, software renewal, software replacement, and data service and application subscriptions. Obligation for each project |
| | This project will support he TESD, Project Delivery, by providing engineering services for: (1) conducting analysis of traffic signal systems, (2) preparing design plans for traffic control devices (traffic signals, HAWKS, RRFB, etc.), pavement markings, striping, signage, and (3) providing on-site support services for |
| \$2,300,200 | Consultants will provide engineering expertise and/or day-to-day support for tasks associated with the following disciplines: traffic safety, traffic operations, transportation engineering and planning, and engineering/roadway design. |
| \$680 | 2019 Work Zone Awareness Week is to increase public awareness of work zone safety in the transportation network. A press event will be held, with eligible costs including MemorialWall freight delivery; tent, stage, tables, chairs and lighting; monitoring rental; printing cost for posters and banners, social media/video |
| \$2,335,866 | Transitional shift travel tense utilizing Moveable Barrier System to additional travel lanes for peak rush hour traffic movement. This is expected to be a 5 year project with a 2-year base, plus 3 option years contract and annual obligations. |
| \$381,000 | DDOT staff review of design and construction for all projects for work zone compliance, including work zone audits. This is envisioned as a 5-year project, with annual obligations. |
| | Procurement and installation of LED signage and intelligent warning systems (flashing pedestrian signs, driver feedback, machines, etc.). Signs will be procured, installed, and maintained by Field Operations Branch. This is envisioned as a 5-year project with annual obligation and multiple procurements, and a 60/40 |
| \$1,085,000 | DDOT is going to implement fiber networks along major arterial corridors. The new fiber cables will connect to DDOT's Traffic Management Center(TMC) and the freeway fiber networks and serve as the backbone of data communication between the TMC DDOT will place the fiber cables and install communication |

| per. 25% of funding, up to \$2.5 Mil to provided by per and \$6 Mil to be provided by DMPED from DOT PILOT |
| ground up to 20-25 electrical feeders most vulnerable to s during storm conditions. DDOT will construct round vaults and buried conduit to accommodate Pepco's lines and transformers. |
| ble and document data on DDOT-controlled lands in the of Columbia and develop a geo-based land data map. e annual funding for surveys, title searches, appraisals and and acquisition and disposal activities prior to the oment of specific capital projects. |
| lanting to increase urban tree canopy and mitigate vater. |
| Bacon and other audit/compliance activities required for s that are eligible for FHWA funding. |
| g received to support DDOT's Civil Rights Programs from deral Highway Administration (FHWA) for 2014 |
| esearch and Technology Transfer Program coordinates the r's research activities, helping to deliver life cycle cost is and innovative solutions that improve the quality of life in trict. Guided by the Research Strategic Plan, which lays blueprint for the research program for the next five years |
| |

| Preparation of plans, specifications and estimates for necessary consultant services; develop and implement Title VI improvement plan in response to FHWA deficiency report, Title VI procedures, and automated systems. Continued maintenance and development of automated tracking systems for EEO and DBE Asset Inventory & ADA Compliance citywide 2016 |
|---|
| Drainage improvement, streetscape, streetlight modification, paving and stormwater management along the Connecticut |
| Vehicular and Pedestrian mobility and Safety improvements including roadway geometry, traffic operations, congestion, drainage, signal and streetlights. The limit of the project is from Whitney Young Bridge to Southern Avenue that span from ward 7 NE through ward 8 SE. |
| This contract will provide cost estimating support to the Department. The contract will be an indefinite quantities contract with specific assignments given as required by DDOT. There will be only one Purchase Order for the period of the contract. All assignments will be performed under this Purchase Order. |
| To support the mission of DDOT and its respective Administrations by facilitating and promoting innovative transportation research implementation, outreach and technology transfer activities. This FAP should be completed and closed by July 31, 2019. |
| Southeast Blvd & Barney Cir NEPA Study will convert the facilities into context-sensitive facilities that meet multi modal transportation needs and improve connections. |
| This project implements traffic and highway engineering improvement countermeasures identified in traffic engineering safety studies at identified high crash locations. |
| The purpose of this contract is to carry out geologic mapping and investigation to provide preliminary design for stabilization of rock slope failure along the section of Canal road, NW near Clark Place. |

| \$222,769 | This project supports the Research Program's activities, as described in the approved FY17 work program. Research projects were selected by leadership following the annual call for research projects. Non-project work includes staff time, administrative support, internships, and participation in collaborative research |

| | Funding received to support DDOT's Civil Rights Programs from the Federal Highway Administration (FHWA) for 2017 |
| \$47,584 | FY18 Education, Training, Development Plan |
| \$471,376 | Design task is in process. Final Design package anticipated to be ready in February 2018 |
| \$1,490,039 | QA/QC Citywide program. Ongoing program |
| \$10,298 | Pennsylvania Ave. East WHTFS |
| \$89,060 | This project will look into how tools or task from the Citywide TMP can be implemented into DDOT interfaces like Protrack Plus. |
| \$471,777 | Funds received to support DDOT's Civil Rights Programs from the Federal Highway Administration (FHWA) for FY2018. |
| \$112,034 | Metropolitan Planning Funds or PL funds are used to support activities undertaken by metropolitan planning organizations. In |

| | This project will expand DDOT's enterprise project management tool, ProTrack+, by incorporating a funding obligation module. In this new module Project managers will be able to commit approved and available funding to their project(s). Incorporating this paper driven process into ProTrack+ will streamline the |
|-----------|---|
| \$681,996 | Provide major support for the District's transportation activities including regional safety, traffic and infrastructure. |
| \$197,627 | DBE Online Certification Application Prog |
| | The objective of the project is to design and install a Continuous Monitoring and Adaptive Control (CMAC) system at bioretention facilities to improve water quality and mitigate road-flooding on Jay Street NE in Ward 7. DOEE is working with Opti on this project. Opti is a company that provides solutions to optimize |
| \$80,804 | The objective of the project is the preservation of thirty-six Legionnaire sculptures in the Mail Hall of Washington Union Station. The tasks of the project are: •Clean the sculptures with a brush applied poultice •Repair and fill all voids, cracks, and losses •Re-carve or recast all missing sculptural elements •Aesthetically |
| \$116,792 | Maintain DDOT's environmental management system and update , as necessary, the DDOT Environmental Policy and Process manual. This project will also enable the review and processing of environmental documentation. |
| \$84,869 | Provide independent cost estimates for DDOT construction projects prior to IFB release. |
| \$332,140 | DDOT FY19 annually License Subscription for Aashtoware Trans*port Models: BAM/DSS/PES/LAS, CAS, Estimator, FieldManger and others |
| \$796,221 | Enterprise Protrak Application Development that requires consultant servicing developing applications in .Net software development including SharePoint Developer, DBRM and other IT related support services such as Network engineers, Business Analysts, Data Architect, System Analysts and all associated |

| | The DDOT Research, Development & Technology Transfer Program facilitated and promotes innovative transportation research, implementation, outreach, and technology transfer activities in order to improve the efficiency and effectiveness of DDOT's service delivery. To do this, the Research Program |
|-------------|--|
| \$129,818 | Provide support for the District's transportation planning activities including, regional safety, traffic and infrastructure. |
| \$4,599 | Clean Air Partners strives to improve public health and the environment by working with businesses, organizations and individuals throughout the region to raise awareness and reduce air pollution through voluntary actions. |
| \$125,671 | The purpose of DDOT's On-the-job Training Supportive Services program is to provide training opportunities for women, minorities and disadvantage person in order to increase their numbers in every job class in the highway construction industry. This is the OJT FAP obligated in FY 2018. |
| \$39,999 | The purpose of DDOT's DBE Supportive Services program is to support the federal program aiming to help small business entrepreneurs successfully compete for procurement contracts in the transportation construction industry. This includes the Business Assistance Program as well as the DBE Summit. This is |
| \$557,000 | This civil rights project supports all of the civil rights programs required of DDOT as a federal-aid recipient, including ADA, OJT, DBE - Certification and Contract Compliance, Title VI and Title VII, and Supportive Services. This is the FY10 of this series of annual civil rights projects. |
| \$1,250,001 | The purpose of this project is to update the 2014 multimodal long- range transportation plan for the District of Columbia, moveDC. |
| \$120,733 | To continue DDOT's employee education, training, and development program that offer training and educational experiences that build our staff technical competencies and provide certifications, in addition to the traditional training and development opportunities that focus on functional knowledge, |
| \$485,565 | Provide major support for the District's transportation planning activities including regional safety, traffic and infrastructure. |

| \$478,124 | Route planner tool for existing TOPS hauling permits needs to be uploaded and enhanced to better serve District roadways and mitigate impacts of oversized overweight vehicles. Existing here roadway information system needs to be updated; Hexagon SafeHaul app needs requires enhancements; maintenance |
|-------------|--|
| \$263,709 | DDOT is seeking a contractor to provide programmatic support for the Freight Program. These duties will include managing a signage survey, maintaining an electronic database of freight- related signs, coordinating to update, install or remove signs, evaluating signage request, recommending new standards for |
| \$218,796 | This project will fund a feasibility study to develop concepts for an improved on or off-road paved trail between Glover Road/Oregon Avenue and 16th Street NW along Military Road. The study will evaluate concept alignments that will allow construction |
| \$996,573 | Develop preliminary design and environmental clearance for improvements based on recently completed Tenleytown-AU Metrorail Station access improvements study. |
| \$262,550 | The objective of the project is this preservation of six Legionnaire sculptures in the front entrance of Washington Union Station as well as masonry cleaning and refurbishing of six interstitial pedestrian vestibules between the front entrance, Main Hall, and |
| \$194,900 | The objective of the project is the repair of existing steps connecting the trails and trail improvements and the convergence of the C and O Canal tow path and Capital Crescent Trail. |
| \$2,111,728 | The Transportation Online Permit System (TOPS) is the Department of Transportation's in-house developed software application and serves as the Department's customer and reviewer portal for the public and private users of public space. TOPS accepts permits on-line and associated documentation. |
| | This project supports the design, construction, operations planning, start-up, and program management of the DC Streetcar program. There are two streetcar projects in design-construction:(1) The Anacostia Initial Line Segment connects the Anacostia Me |
| \$101,595 | The Western Extension Streetcar Project will extend DC Streetcar approximately from Union Station to Georgetown. The project includes NEPA documentation and approvals related to the Union Station to Georgetown (USGT) Environmental Assessment; coordination with federal agencies to move the project into project |

| | The Benning Road Streetcar Project will extend DC Streetcar 1.9 miles east from Oklahoma Avenue to the Benning Road Metrorail Station, along Benning Road. The project includes design, civil engineering oversight, and project management. In out years, the project also includes final design, utility coordination, vehicle |
|--------------|--|
| \$142,225 | Design and prepare construction documents for roadway improvement, installation of new sidewalk on west side, new curb and gutter, streetlights, signage and pavement markings, drainage structures and system, LID facilities and a new bridge over Pinehurst Run. Improvements included under EA Alternative |
| \$471,759 | Roadway Resurfacing, Roadway Reconstruction, and Roadway Upgrading will be combined into this new project. Each contract will be developed by ward to perform resurfacing, reconstruction and upgrading within the same geographic area. It is believed that |
| \$1,385,692 | Total roadway reconstruction, upgrading catch basin, street lights, traffic signals, widening sidewalk (ADA compliance), new signals @ 9th & V St, Planting new trees,lane marking, LID and comply with new GIS manual.Contract SOW is expanded to include new GIS manual and upgraded to 2013 Gold Book, changing HPS |
| \$16,574 | Environmental Assessment of Broad Branch Road from Linnean Ave to Beach Drive. |
| \$10,215 | Multi Year Citywide pavement resurfacing/restoration, upgrading of sidewalk, curb and gutter, wheelchair ramps |
| \$178,667 | Ivy City is a neighborhood in Ward 5 that has few trees and limited green space, which contributes to its relatively poor air quality. This project will ☐ fund tree boxes, trees and sidewalk improvements in Ivy City. |
| \$13,320,411 | Revitalization of Martin Luther King Jr. Avenue, SE. Design from South Capitol Street to Milwaukee Place, Washington, DC |
| \$7,251,506 | Roadway Resurfacing, Roadway Reconstruction, and Roadway Upgrading will be combined into this new project. Each contract will be developed by ward to perform resurfacing, reconstruction |

and upgrading within the same geographic area. It is believed that combining all three elements into one contract will produce a

| \$11,789,858 | Roadway Resurfacing, Roadway Reconstruction, and Roadway Upgrading will be combined into this new project. Each contract will be developed by ward to perform resurfacing, reconstruction and upgrading within the same geographic area. It is believed that combining all three elements into one contract will produce a |
| \$1,349,052 | Under this funding DDOT will address Stormwater and groundwater problems |
| \$638, 9 21 | Design Review and Construction Field Verification Services for DC Water DC Clean River (DCCR) Project Scope: District of Columbia Water and Sewer Authority (DC Water) combined sewer overflow (CSO) Long Term Control Plan (LTCP), also known as the DC Clean Rivers (DCCR) Project. The project |

| \$449,079 | Design and construction of traffic signal infrastructure in support of developer funded signal works and mandated improvements |
|-------------|--|
| \$1,107 | Construction of a multi-use trail facility within the 0.7 mile barricaded portion of Klingle Road between Porter Street, NW, and Cortland Place, NW. |
| \$2,724,110 | Local funding for trail improvements |
| \$2,187,112 | Provides major support for the District's transportation planning activities including regional, safety, traffic and infrastructure. |
| \$23,435 | This is for the purchase and installation of 20 Capital Bikeshare stations and associated equipment citywide, including the purchase of 30 bicycles to replaces those that have been lost or stolen to date. The growth of Capital Bikeshare is an ongoing need, and we anticipate annual purchases for the forseeable |
| \$598,973 | The consultant will provide a preliminary engineering 30% design services of FL ave, 2nd St. to H St. NE and the Virtual Circle concept design and engineering services. Work consists of reconfiguration of FL/NY Ave. intersection, environmental study, upgrading traffic signals, provide wider buffered sidewalk, improve |
| \$86,393 | The purpose of this project is carry out final design to improve the overall condition & connectivity of the deteriorating Rock Creek Park multi-use trail system and design of a pedestrian bridge alongside of existing vehicular Beach Drive bridge, in order to enhance □ |
| \$4,130 | Recent efforts by both the City and private development have improved portions of the streetscape for New York Avenue. Public improvements to New York Avenue have focused on safety for pedestrians, bicycle and vehicular crossings at the intersections with Bladensburg Road and Mount Olivet/Brentwood Parkway. |
| \$35,899 | This project was submitted for obligation for design for \$1000,000 on 3/28/2016 but didn't have TIP number. We are waiting for TIP number.5/31/2016. We have send RFQ to three firms and expecting to receive on 9/1/2016. |

| \$1,643 | Feasibility and conceptual design - scope of services for the proposed Shepherd Branch Trail from the 33rd Street NE to South Capitol Street Trail at Firth Sterling . Project consists of approx. 3 miles section of trails. |
|-------------|--|
| \$10,561 | Provide marketing and outreach work for the Capital Bikeshare program: □ □ 1. Provide marketing expertise to support the growth of the program □ |
| \$135,877 | The Student Conservation Association proposes a summer program for the 2016 that will engage DC youth while completing trail projects in the District. SCA community crews comprised of local high school and college students will work on trail projects in Fort DuPont Park, Fort Stanton Park and Rock Creek Park. |
| \$267,729 | goDCgo, DDOT's transportation demand management (TDM) program, is responsible for promoting the use of all sustainable transportation modes in the city through a coordinated, multifaceted program. goDCgo's programming aims to reduce the number of drive-alone trips in Washington, encouraging |
| \$22,663 | This project will provide marketing expertise to support the growth of the program and advertise the service to residents, visitors, and employers. Services include implementing an online communications strategy, producing high-quality content about Capital Bikeshare, and developing and executing several |
| \$382,730 | This is a new contract, the base year starts in 2018 and 4 option years will follow thereafter. 1. Employer Services - Outreach for new DC Commuters |
| \$3,864 | Maintenance and restoration of existing recreational trails in Rock Creek Park and National Capital Parks - East. Construction of new recreational trail in Pope Branch Park. |
| \$17,687 | Provide support for the District's transportation planning activities including regional, safety, traffic and infrastructure. |
| \$2,237,800 | Construction of missing sidewalk segments for SRTS. This is a 3-year sidewalk construction project with annual obligation. |

| \$488,519 | Prepare comprehension plans for eight schools. Design safety |
|--------------|--|
| | improvements for 10 additional schools. This is a 1 year project with annual obligations for PS and NPS expenses. |
| | |
| \$15,998,657 | Scope of the project includes approximately 2.4 miles of pavement rehabilitation/widening and 1.2 miles of new trail connections; New construction of a pedestrian bridge, south of the Beach Drive NW zoo tunnel; Tree preservation; landscape plantings; Stream bank repair/stabilization; Stream bank |
| \$66,878 | Bicycle and Pedestrian Education |
| \$19,237 | This project is part of DDOT's Recreational Trails Grant Program. Grant funds will be used to maintain trails within the Kenilworth Aquatic Gardens National Park, and to remove debris, litter, and invasive species from the Anacostia River Trail. |
| \$93,300 | The purpose of the Commuter Connections Program is to reduce mobile source emission through the reduction in the number of VMT, and support of other Transportation Control Measures. This project provides funding for Commuter Connections Operation Center, Guaranteed Ride Home, Marketing, Monitoring and |
| \$26,765 | This Recreational Trails Program Grant will conduct maintenance on existing recreational trails in Pope Branch Park, Fort Davis, Fort Stanton, and Fort Mahan and Rock Creek Park. |
| \$488,606 | DDOT is exploring how to fill key gaps in connectivity in the bicycle network. This study will evaluate alternatives to improve bicycling from the existing in-road cycle track on 15th street from Pennsylvania Avenue to East Basin Drive past the Thomas Jefferson Memorial to the separated multi-use trail crossing the |
| \$221,847 | The South Capitol Street Trail improves bicycle and pedestrian access along South Capitol Street/Overlook Avenue. The limits of the project extend for about 3.8 miles from the Firth Sterling Street/South Capitol Street intersection, southward along South Capitol Street/Overlook Avenue to Laboratory Road, and |

| nspector General | 18-1-02KA | 4/3/2019 | District Department of Transportation: Contract Solicitation and Management Practices for Transportation Projects | DDOT can enhance competition by attracting more participants to the contract solicitation process | 1. Compare current practices against AASHTO and Federal Highway guidance on increasing and evaluating competition and develop a plan to increase competition. | DDOT concurs and has begun to implement best practices to increase competition |
| | | | | 2. DDOT can use data more effectively and develop formal cost | 2. Implement procedures to detect potential anticompetitive practices. | 2. DDOT concurs and will be using AASHTOWare to provide more complete evaluations of bids to identify such practices |
| | | | | | 3. Determine in writing why increasing the original contract ceiling value without competition and/or issuing a task order beyond the original contract term is in the best interest of the District. | 3. DDOT does not concur because there is express authority to issue a Task Order that extends beyond the term of the underling contract in certain circumstances |
| | | | | closeout procedures | 4. Maintain and analyze historical data pertaining to solicitations and contract awards to develop procurement plans that include strategies to improve competition. | 4. DDOT concurs and has begun to implement best practices to increase competition 5. DDOT concurs and has begun to implement best practices to improve project cost estimates |
| | | | | | 5. Implement AASHTO guidelines for Independent Government Estimate calculations and develop policies and procedures for documenting a supervisor's signoff and review. | |
| | | | | | 6. Develop and implement policies and procedures for conducting a line-by-line comparison of costs described in a bid to the Independent Government Estimates in evaluating urbalanced bids. | 6. DDOT does not concur because such line-by-line comparisons are not a reasonable expectation during the evaluation process |
| | | | | | 7. Implement procedures to assess the liability of the designer when processing change orders and maintain documentation as required by 27 DCMR § 2630. | 7. DDOT concurs and has begun to implement best practices to identify designer liabilities when reviewing change order requests |
| | | | | | 8. Approve and issue purchase orders prior to authorizing work or receiving invoices for payment or document the fund availability for exceptions. 9. Review purchase orders that are inactive for more than 1 year for potential closure and release of funds for better use. | 8. DDOT concurs and explained the mitigating circumstances regarding the sample issues identified 9. DDOT concurs and has already implemented a PO closeout SOP and takes steps to review inactive purchase orders for potential closure |
| | | | | | | |
| | | | | | 10. Implement a closeout procedure for federally-funded projects and monitor performance of the closeout (i.e., District and federal) process. | 10. DDOT concurs and has already implemented closeout SOPs for local and federal capital projects and monitors closeout progress monthly |

|--|------------------------------|------------------|--|
| Rustler Construction, Inc. v. District of Columbia | 17-AA-0092 (CAB D- 1385), | Court of Appeals | On or about September 30, 2019, DDOT paid a judgment ordered in the amount of \$216,297.46, which included principal and interest. In 2002, the District of Columbia Department of Public Works, on behalf of DDOT, issued contract number POKA-2002-B0023-SH in the amount of \$5,217,550 to Rustler for the reconstruction of a section of the roadway of Bladensburg Road, N.E., in Washington, D.C. Rustler requested an equitable adjustment and delay damages after the District made changes to the contract that allegedly increased Rustler's cost of performance and delayed contract completion. On July 3, 2019, the DC Court of Appeals issued an opinion affirming the decision of the CAB ordering the District to pay Rustler \$155,481.70, plus interest. |
| Saddler, Larry v. DC, et al | 2015 CA 006868 B | Superior | On 9/26/13 Plaintiff alleges that on 9/26/13 he tripped and fell over a construction sign on the north sidewalk of the 2100 block of Benning Road NE. Plaintiff seeks \$10M in damages. On August 7, 2017 DDOT approved \$10K in settlement authority. Case settled on 8/9/17 for \$250K (DDOT) and co-defendant \$2M. |
| Silver, Nathan v. DC | 2017 CA 00670 B | Superior | On 3/12/15, Plaintiff was traveling on the block of Foxhall Road, NW when his vehicle dipped/went into a pothole and causing Plaintiff to be ejected from his motorcycle. Plaintiff seeks \$100K+ in damages. On 10/24/18 DDOT approved \$160K in settlement authority. Case settled on 10/29/18 for \$125K. |
| Thomas, Ruby Queen v. DC | 2015 CA 00734 B | Superior | On 10/14/14 Plaintiff alleges she was walking on the sidewalk on the North side of the 800 block of D Street NE when she tripped and fell. Plaintiff seeks \$250K in damages. On 7/27/17 DDOT approved \$75K in settlement authority. |

| | | | Case settled on 8/1/17 for \$73K. |
|-------------------------------|------------|----------|--|
| Walen, Mary Lou v. USA, et al | 15 CV 1718 | District | 10/29/12 Plaintiff alleges she was struck by a loose tree limb while walking along the Klingle Bridge on the west side of Connecticut Avenue, NW. Plaintiff seeks \$5M in damages. |
| | | | Case settled on 10/22/19 for \$250K for DDOT and co-defendant \$500K. |

Current Project Updates

Final design to be completed in Feb 2019. WIll be advertised upon fund availability.

Preliminary design completed. TO for final design to be issued in 2-3 months. Protected bike lane study was separated and taken back by PSD. Funds have not been identified yet.

Final design to be completed in Feb 2019. ROW acquisition for curb cut closures continues and expected to be completed before June 2019.

Preliminary design to be completed in September 2019. Final design will continue until 2020. Construction funds have not been identified.

Currently under construction.

awaiting to recieve a change order request to adress utility conflicts

Awaiting to give GC NTP (expected NTP April 2019)

Distribution of Review Plans and Special Provisions scheduled in March 2019

Under Solicitation

Anticipated construction start April 30, 2019

Proposed Design fee negotiation in progress

Waiting the PS&E Package Submission

Currently under construction. 54% complete

Go through FedSelect for 30% design

Waiting for bids to open in mid February

65 % Design

90% design

Project is currently on hold pending DDOT director meeting with PGC director

100% Design

Consultant recieved notice to proceed to start the 30% Design

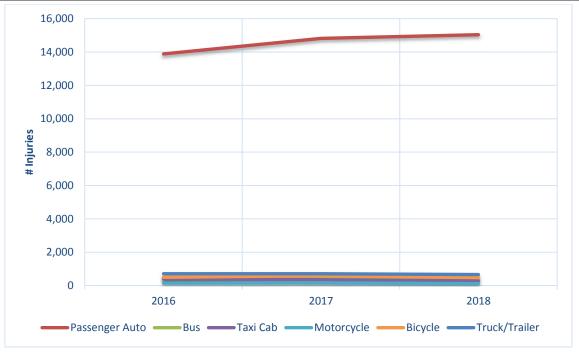

Figure 4.20: Three-year Trend of Injuries by Vehicle Type from 2016-2018

4.3.5 Crashes involving Pedestrians

Since a substantial number of residents and workers in the District (and immediate surrounding areas) either commute by public transportation or walk to work, it is necessary to understand the causes and severity of crashes involving pedestrians. Presented in Figures 4.21 through 4.23 are the summaries of crashes involving pedestrians from 2016 through 2018 classified by age and gender. From the figures, there has been an increase in the total number of pedestrian-related crashes in 2018 compared to the previous years. In addition, the distribution also shows that pedestrians in the age group of 21 to 30 years old were involved the most in vehicular crashes. Comparing reported crashes in 2017 to 2018, there was an increase for those involving male pedestrians. On the other hand, there was a decrease in crashes involving female pedestrians. Presented in Table 4.12 is a summary of injury codes reported by pedestrians in 2018 after being involved in a crash. Approximately 35% of the 1,281 pedestrians complained but did not sustain any visible or noticeable injuries. Lastly, Figure 4.24 shows the pedestrian-involved crashes at intersections in 2018.

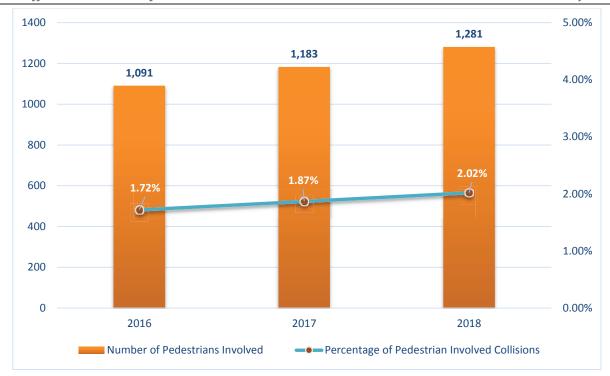

Figure 4.21: Three-year Trend of Crashes involving Pedestrians from 2016-2018

Figure 4.22: Three-year Trend of Crashes involving Pedestrians by Age from 2016-2018

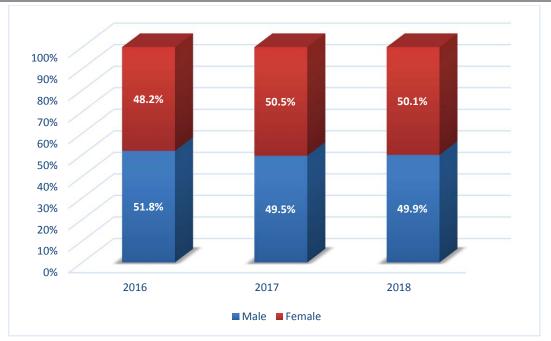

Figure 4.23: Three-year Trend of Crashes involving Pedestrians by Gender from 2016-2018

| Fatalities | 12 | | | |
| Non-Disabling | 434 | | | |
| No Injury | 204 | | | |
| Unknown | 66 | | | |
| Other | 15 | | | |
| Total | 1,281 | | | |

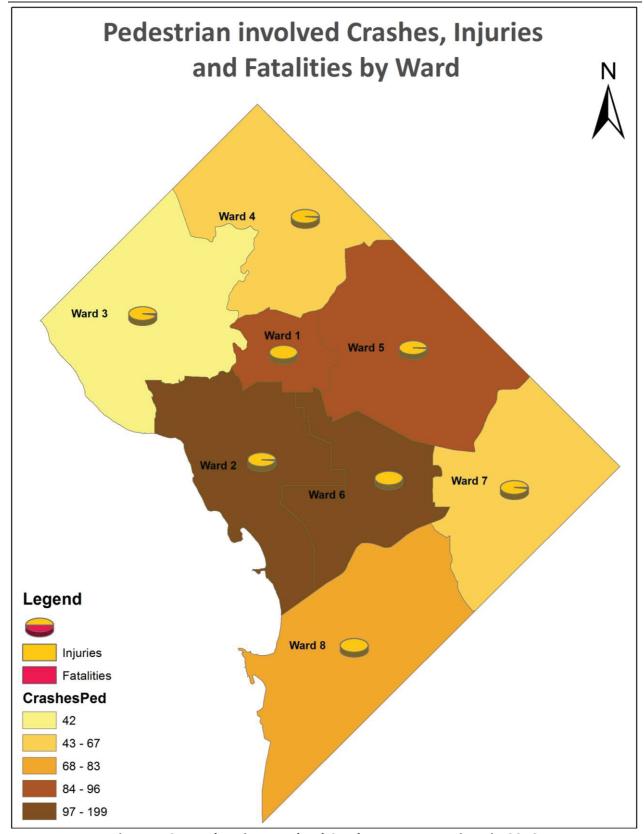

Figure 4.24: Pedestrian Involved Crashes at Intersections in 2018

4.3.6 Crashes involving Bicyclists

With the increasing use of bicycles in the District of Columbia, it is pertinent to determine crashes involving bicyclists. Figures 4.25 through 4.27 present the summaries of crashes involving bicyclists from 2016 through 2018 in terms of total crashes, by age and gender.

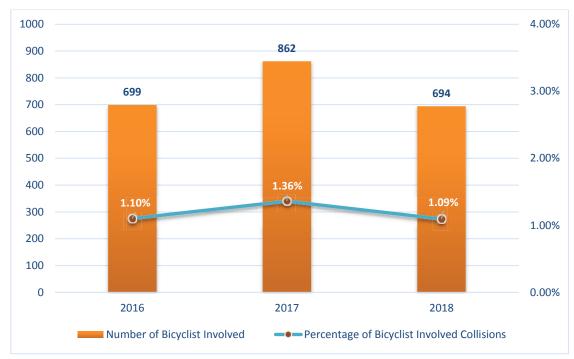

Figure 4.25: Three-year Trend of Crashes involving Bicyclists from 2016-2018

Figure 4.26: Three-year Trend of Crashes involving Bicyclists by Age from 2016-2018

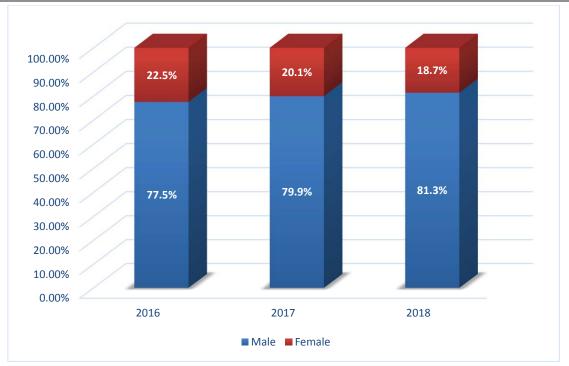

Figure 4.27: Three-year Trend of Crashes involving Bicyclists by Gender from 2016-2018

From the figures, there was a significant decrease in the total number of crashes involving bicyclists in 2018 compared to in 2017. In addition, the distribution shows that bicyclists in the age group of 21-30 were the most involved in crashes. Compared to the bicycle crashes reported in previous years, there is a consistent increase of male bicyclists involved in crashes while a consistent reduction in crashes involving female bicyclists. Figure 4.27 shows the GIS map for bicycle crashes by ward in 2018.

Presented in Table 4.13 is a summary of injury types reported by bicyclists in 2018 after being involved in a crash. The majority of the bicyclists or persons involved sustained non-disabling injuries.

Table 4.13: Bicycle Crashes by Injury Type in 2018

| Injury Code | Frequency | | |
|---------------------------|-----------|--|--|
| Complaint but not visible | 146 | | |
| Disabling | 39 | | |
| Fatalities | 4 | | |
| Non-Disabling | 303 | | |
| No Injury | 157 | | |
| Unknown | 41 | | |
| Other | 4 | | |
| Total | 694 | | |

2018 Site Visit Notes

| | ZOTO 2116 AI211 MOTES | Implementation | |
|---|---|-----------------|--|
| Issue | Recommendation | Timeline | Notes |
| 7th St NW (| 1. 7th St at Mt Vernon Pl/New York Ave NW; 2. 7th St at K St NW; and 3. 7th St at K St/Massac | husetts Ave NW) | |
| Vehicle paths and lane designations are unclear to drivers. Faded pavement markings | Install contrast pavement markings at the intersection of 7th Street NW and New York Avenue/Mt. Vernon Place NW to increase visibility. Install pavement markings to guide northbound left-turn traffic as well as eastbound and westbound traffic through the intersection | Short Term | Complete |
| Long crossing distance on west side of 7th St at New York Ave NW; lane shift and faded pavement markings cause driver confusion | Evaluate a pedestrian refuge island on the east leg of the intersection at 7th Street NW and Mount Vernon Place NW/New York Avenue NW. There may be an opportunity to shift the eastbound travel lanes in order to accommodate a 6-foot wide median. The refuge island will have a secondary benefit of guiding vehicles through the intersection from New York Avenue NW. | Long Term | Evaluate as part of Union Station-Georgetown Streetcar Project |
| | Restrict southbound left turns from 7th Street NW to K Street NW. This would limit turning movements at this intersection to right-in and right-out of K Street NW only. Install flexible posts to channelize vehicles turning into and out of K Street NW as well as along the centerline of 7th Street NW to reinforce restricted turning movements. Evaluate the feasibility of a mid-block signal to stop northbound traffic on 7th Street NW at K | Mid-Term | Volumes collected in 2019 for evaluation; evaluation to be completed and shared with affected ANCs in 2020. Implementation timeline TBD based on recommendations from analysis. |
| Northbound queues at New York Ave/Mt. Vernon PI NW block southbound left-turn at K St NW; drivers accept short gaps and frequently conflict with pedestrians crossing K St NW on east side of intersection | Street NW, allowing right-turning vehicles space to access the turn lane on 7th Street NW. This would be similar to other locations around the District where mid-block signals control access from parking lots and garages (e.g. parking lot adjacent to the DC Health Department building on H Street NE). | Mid-Term | Recommendation to be evaluated following completion of evaluation for right-in/right-out |
| | Install a concrete channelizing median to enforce the right-in, right-out configuration at K Street NW. This would need to be coordinated with any planned design elements included in the Union Station to Georgetown Streetcar Project. Alternatively, evaluate the conversion of K Street NW to a one-way street in the eastbound direction, allowing only right turns from 7th Street NW. This would eliminate conflicts at the intersection and has the potential to increase parking capacity with angled on-street parking | Long Term | Evaluate as part of Union Station-Georgetown Streetcar Project |
| Conflicts between right-turning vehicles and pedestrians; drivers block crosswalk waiting for gaps to turn right on red | Restrict right turns on red and consider a leading pedestrian interval (LPI) for the 7th Street NW crossing. An LPI would allow pedestrians to cross prior to westbound right turns beginning the turning maneuver and the right turn on red restriction would eliminate the challenge of shifting 3 lanes for vehicles continuing along Massachusetts Avenue NW via Mount Vernon Place NW. | Mid-Term | Completed as part of DDOT's yearly Signal Timing Optimization program. |
| Faded pavement markings and narrow southbound approach causes driver confusion and leads to potential for head-on crashes and merging within intersection | Restripe pavement markings for the travel lanes on 7th Street NW to provide a consistent 10-foot travel lane for all travel lanes. In addition, to reinforce the lane designations, arrow and "ONLY" pavement markings should be installed. | Short Term | Recommendation to be completed following evaluation of 7th/K right-in/right-out restriction and second northbound left-turn lane; evaluation to be completed in Spring 2019. Implementation timeline TBD based on recommendations from analysis. |
| Illegal left-turns on 7th St NW at K St/Massachusetts Ave NW | Replace the text "No Left Turn" blankout signs with graphical turn restriction signs to supplement the static signs and clearly communicate the peak period turn restriction | Short Term | Complete |
| | Consider placement of traffic control officers (TCOs) during the morning and afternoon peak periods at the study intersections | Short Term | Ongoing. Placement of TCOs dependent on availability and needs at other sites District-wide |
| Overall congestion, blocking the box, ped/vehicle conflicts | It is recommended that DDOT revisit the alternatives identified in the Mount Vernon Square District Project, completed in 2010, evaluate travel patterns using origin-destination data (e.g. StreetLight), and analyze changes in lane designations, operations, and even circulation. | Long Term | Evaluate as part of Union Station-Georgetown Streetcar Project. Potential for update to planning study |
| Potential for driver confusion over prohibited/allowed turns | Replace existing arrow signal displays with ball indications to be consistent with guidance in the Manual on Uniform Traffic Control Devices (MUTCD). Collect traffic volume data to evaluate adding a second northbound left-turn lane along 7th | Short Term | |
| Heavy northbound left-turn volume from 7th St to Mt Vernon PI NW; used by drivers as two northbound travel lanes; drivers from K St NW block northbound thru traffic trying to get into northbound left-turn lane | Street NW. In addition to traffic data at this intersection, it is recommended that traffic data be collected at the Massachusetts Avenue NW intersection. The two intersections should be evaluated to identify any other potential changes in lane assignments, such as the westbound approach of Massachusetts Avenue NW or the southbound approach of 7th Street NW at | Mid-Term | Volumes to be collected in February 2019 for evaluation, to be completed Spring 2019. Implementation timeline TBD based on recommendations from analysis. |
| Conflicts between cyclists and vehicles/peds (no sidewalk riding allowed) as bike lanes on 7th St end at N St NW | Massachusetts Avenue NW. Evaluate opportunities for a bicycle facility on 7th Street NW. This may result in a reduction in travel lanes and/or a loss of curbside parking | Mid-Term | No bike facility identified on 7th St NW thru Mt. Vernon Sq identified as part of moveDC. Adjacent north-south facilities planned for 5th & 6th Streets NW. DDOT will continue to consider bike connections on 7th St NW as part of overall bike network planning. |
| | 13th St NW & Kenyon St NW | | |

| Driver confusion over westbound lane usage; illegal parking due to street sweeping regulations; alternating use of westbound approach as 2 lanes depending on | у реготор | Short Term | Complete |
|---|--|--------------------------|--|
| turning/pedestrian conflicts | NW. Review street sweeping schedule with the Department of Public Works to allow for more consistent and simplified parking restrictions. Future pavement markings and lane usage should not preclude the installation of bicycle lanes on Kenyon Street NW. | Mid-Term | Draft signage developed to clarify parking restrictions/curbside management, to be mounted facing sidewalk; signage currently under review |
| Narrow crosswalk markings, faded markings | Widen all crosswalks to 15 feet in accordance with DDOT Design and Engineering Manual section 44.7. | Short Term | Complete |
| Flashing DONT WALK signal on southwest corner missing LED | Replace the missing LED on the flashing DONT WALK signal on the southeast corner | Short Term | Complete |
| Existing ramps are not ADA-compliant | Install detectable warning surfaces on the southeast and northeast corners Install a new pedestrian sidewalk ramp on the southwest corner of the intersection, which | Mid-Term Long Term | |
| Mis-aligned pedestrian signal head Sediment buildup due to drainage issue | does not currently have a curb ramp Rotate pedestrian signal head on southwest corner to align with crossing Remove sediment buildup on northwest corner. | Short Term Short Term | Complete |
| Conflicts between turning vehicles and pedestrians crossing 13th St NW | Implement a leading pedestrian interval for the southern crosswalk across 13th Street NW. This will improve pedestrian visibility for the conflict between westbound left turning vehicles and pedestrians, which caused four crashes between 2015 and 2017. | Short Term | Complete. Left-turn hardening and "No Turn on Red" restrictions also added. |
| Faded markings Conflicts between bicyclists and vehicles | Repaint faded stop bars on all approaches to the intersection. Install a bicycle box on Kenyon Street NW in order to aid bicyclists in crossing the intersection Evaluate signal progression along Kenyon Street NW to improve progression along the corridor | Short Term Mid-Term | Complete |
| Overall queueing/blocking the box | and reduce queuing within the intersection with 13th Street NW. Recognizing that there are several north-south corridors that intersect Kenyon Street NW, improved progression may be limited as these north-south links carry high traffic volumes into and out of the downtown | Mid-Term | Complete |
| | core. Blair Rd & Nicholson St NW | | |
| | Trim trees on the southwest corner of Nicholson Street NW and Blair Road NW to provide | Short Term | Complete |
| Limited sight distance for drivers on Nicholson St | adequate sight distance for eastbound left-turning vehicles. Install no-parking signs on Blair Road NW near the intersection with Nicholson Street NW. | Short Term | Complete |
| | Install a 25-mph speed limit sign south of Kansas Avenue for the southbound direction of Blair Road NW. This is consistent with the posted speed limit in the northbound direction. | Short Term | Complete |
| Speeding observed on Blair Rd NW, in both directions. Peak period parking | Install a 6-foot raised median to reduce vehicular speeds along Blair Road NW. A 6-foot median is wide enough to provide the minimum width of a pedestrian refuge island, should a pedestrian crossing be installed at a later time, and leaves adequate roadway width for an 11-foot curbside travel and parking lane and a 10-foot inside travel lane in each direction. | Long Term | To be evaluated as part of Met Branch Trail project |
| restriction and low parking occupancy contribute to off-peak speeding and potentia for high-speed weaving maneuvers | Collect traffic counts on Blair Road NW to determine whether both travel lanes are necessary during peak hours. If a capacity analysis of the roadway indicates that Blair Road NW can accommodate peak hour traffic in one lane, convert the curbside travel lane to a permanent on-street parking lane. As part of this project, install curb extensions at Nicholson Street NW to reinforce the function of the curbside lane as on-street parking only. Curb extensions would allow vehicles on Nicholson Street NW to pull forward into the outermost lane of Blair Road NW, improving sight distance. | Mid-Term | Evaluation underway, to be completed and shared with affected ANCs in 2020. Potential implementation TBD based on evaluation and community feedback. |
| | Consolidate the bus stops on Blair Road NW at Nicholson Street NW and Oglethorpe Street NW into a single stop at Oglethorpe Street NW. This is consistent with typical bus stop locations around the district with bidirectional route stops located at opposite sides of the street. This does not provide for pedestrian accommodations across Blair Road NW, but f reduces the incidence of stopped buses inhibiting traffic flow on Blair Road NW. Of note, e coordination with WMATA is required to evaluate and implement this recommendation. Evaluate a pedestrian crossing across Blair Road NW with curb cuts in the median to allow pedestrians to cross to the future Metropolitan Branch Trail. Consider zig-zag pavement | Mid-Term | Coordinate with WMATA on relocation of existing bus stop |
| | markings to alert drivers approaching Nicholson Street NW of the crosswalk across Blair Road NW. This crossing would need further monitoring in the future to determine whether a pedestrian signal is warranted. To better control vehicle speeds, a wider median could be installed (approximately 8-10 feet), creating an opportunity for median landscaping. | Long Term | To be evaluated as part of Met Branch Trail project |
| | Eastern Ave & Nash St NE | | |
| Limited sight distance for drivers on Nash St NE; vehicles parked on Eastern Ave up to intersection further restrict sight distance | Trim trees near Nash Street NE to provide for better visibility for left-turning vehicles. Install no parking signs to restrict vehicles from parking near the intersection. | Short Term Short Term | Complete Complete |

| | Narrow the cross section of Eastern Avenue NE be reduced at the intersection. A short-term solution could involve the installation of flexible posts (or flexiposts) at all four corners of the intersection. This treatment will also address the weaving that occurs around left-turning vehicles on Eastern Avenue NE and reinforce the limits of the parking lane. To reduce the number of flexiposts installed, downstream flexiposts could be an optional treatment. | Mid-Term | Evaluation underway, to be completed and shared with affect ANCs in 2020. Potential implementation TBD based on evaluation and community feedback. |
|--|--|------------|--|
| Speeding observed on Eastern Ave NE in both directions. Existing cross-section provides one travel lane in each direction and unrestricted parking. Due to low parking occupancy and parking lane striped as travel lane, drivers use curb lane as | Evaluate the most appropriate method to narrow Eastern Avenue NE through the use of raised medians and curb extensions. Due to the storm inlet on the southeast corner, the feasibility of curb extensions would have to be considered. | Long Term | To be evaluated following short-term implementation |
| travel lane. This also contributes to high-speed weaving maneuvers as drivers go around turning vehicles | along Eastern Avenue NE. Given the bus activity along Eastern Avenue NE and minimum lanewidth requirements for travel (11 feet) and parking lanes (8 feet), a 6-foot median is not feasible | | To be evaluated following short-term implementation Evaluation underway, to be completed and shared with affect ANCs in 2020. Potential implementation TBD based on evaluation and community feedback |
| Southbound and northbound left-turning vehicles turn onto side streets at high rates of speed | Construct a raised channelizing median on Nash Street NE if the short-term channelizing median is determined to be effective. The raised median would continue to reinforce appropriate travel speeds as vehicles enter Nash Street NE. The raised median would also offer increased protection of pedestrians crossing Nash Street NE. a. Alternatively, evaluate the conversion of Nash Street NE to one way eastbound. This would require existing northbound left turns to utilize 50th Street NE to the north or Meade Street NE to the south. By making this conversion, there would be an opportunity to reclaim a portion of the existing roadway to construct a sidewalk on the south side of Nash Street NE. | Long Term | To be evaluated following short-term implementation |
| No sidewalk provided on 5000 block of Nash St NE | | Mid-Term | To be explored board or coults of comments or continuous |
| No crossing across Eastern Ave NE provided; pedestrians observed running across | Install a pedestrian crossing of Eastern Avenue NE on the northern side of the intersection, perpendicular to the travel lanes, to provide the shortest crossing distance. | Mid-Term | To be evaluated based on results of cross-section evaluation determine appropriate treatment |
| treet | shorten the crossing distance for pedestrians. | Mid-Term | To be evaluated based on results of cross-section evaluation determine appropriate treatment |
| | Pennsylvania Ave & Fairlawn Ave SE | | |
| Weaving conflicts between DC-295 offramp and drivers on eastbound Pennsylvania Ave SE trying to turn onto Fairlawn Ave SE. Weaving conflict exacerbated by drivers on Fairlawn trying to merge into traffic on Pennsylvania Ave SE, including some observed attempting to enter DC-295 northbound on-ramp. | Install flexible delineator posts along eastbound Pennsylvania Avenue SE to minimize weaving conflicts and prevent vehicles from crossing all lanes of traffic. One option is to extend the delineator posts that already exist at the left-turn lanes for the DC-295 on-ramp the entire length of the turn-lane storage. The current placement of the posts allows vehicles to cross Pennsylvania Avenue SE from Fairlawn Avenue SE and enter the turn lanes. Extending the posts to the end of the turn lanes would eliminate this conflict that results in angle crashes. Of note, the placement of new delineator posts should include the replacement of the existing delineators with WHITE posts. The second option for the flexible delineator posts would address the weaving problem by only allowing vehicles on the DC-295 off-ramp access to Fairlawn Avenue SE. Furthermore, these vehicles exiting DC-295 as well as right turns from Fairlawn Avenue SE will be pushed further down Pennsylvania Avenue SE before they can merge. This allows vehicles already traveling on Pennsylvania Avenue SE the ability to maneuver into the left lanes on approach to Minnesota Avenue SE prior to new vehicles entering the traffic stream. This configuration of flexible posts would also prevent traffic originating from Fairlawn Avenue SE to enter the left-turn lanes onto DC-295. | Short Term | Complete |
| | Consider signal control for the DC-295 northbound off-ramp to eastbound Pennsylvania Avenue SE. This would eliminate weaving that occurs on Pennsylvania Avenue SE and would require traffic on Pennsylvania Avenue SE to stop. | Long Term | Requires coordination with IPMD improvements to DC-295, potential to include in long-term improvements to this interchange |
| Driveways located too close to intersection, drivers were observed driving over crosswalk and ramp to access gas station | Close the two driveway entrances nearest the intersection on the southwest (Sunoco) and southeast (Citgo) corners of the intersection. Closing entrances must take fuel delivery trucks into consideration. If this presents a challenge to closing driveways, moveable barriers may be considered to allow these vehicles to enter the gas station at scheduled times. | Long Term | Requires coordination with IPMD improvements to DC-295, potential to include in long-term improvements to this interchange |
| | | | |
| | Install pavement markings to guide left-turning vehicles through the intersection onto the DC-295 northbound ramp. | Short Term | Complete |

| Connicts between turning venicles and unitcutty for neavy/raige venicles | Adjust the median nose back for the left-turn movement onto the northbound DC-295 on-ramp to further aid large vehicles in navigating this tight turn radius. | Long Term | Requires coordinati potential to include interchange |
|--|---|-----------|--|
| | Construct a pedestrian crosswalk between the southwest and southeast corners. This crossing | | |
| No crosswalk provided to cross Pennsylvania Ave SE at this intersection. Closest | will give pedestrians a means of traveling across Pennsylvania Avenue SE and would benefit | | Requires coordinati |
| crossing is at Minnesota Ave SE. Fairlawn Ave SE provides connection into Anacosti | Metrobus customers. This crossing would require installation of a traffic signal to stop | Long Term | potential to include |
| Park | eastbound traffic on Pennsylvania Avenue SE and should be coordinated with the planning | | interchange or in pl |

efforts for the Shepherd Branch Trail

Conflicts between turning vehicles and difficulty for heavy/large vehicles

Requires coordination with IPMD improvements to DC-295, potential to include in long-term improvements to this interchange

Requires coordination with IPMD improvements to DC-295, potential to include in long-term improvements to this interchange or in planning for Shepherd Branch Trail

2019 Site Visit Notes

| | 2019 Site Visit Notes | | |
|--|---|-------------------------|--|
| Issue | Recommendation | Implementation Timeline | Notes |
| | 1st St & Florida Ave NW | | |
| Proximity of the westbound Metrobus stop on Florida Avenue NW to the intersection with 1st Street NW | Move existing Metrobus stop locations at least five (5) feet away from the stop bar per DDOT's Design and Engineering Manual. | Short Term | DDOT to coordinate with WMATA |
| Cyclist queueing in the northbound direction on 1st Street at Florida Avenue NW, leading to congestion and conflicts between bicycles and vehicles | Consider installation of a bike box on northbound 1st Street NW. | Short Term | |
| | Consider installation of skip markings through the Florida Avenue NW intersection to connect the shared bike facility east of Florida Avenue NW to the dedicated bike lane west of Florida Avenue NW. | Short Term | |
| Disconnected bike accommodations at both R Street and 1st Street NW intersections with Florida Avenue NW. | Evaluate the conversion of 1st Street between Florida Avenue and R Street NW to be one-way northbound for vehicular traffic but remain two-way for bicycle traffic. | Mid-Term | |
| | Evaluate feasibility of an on-street cycle track along 1st Street between New York Avenue NW and Rhode Island Avenue NW. | Long Term | |
| | Redirect northbound left turns from 1st Street onto Florida Avenue NW to westbound R Street NW north of the intersection. Redirect left turns from westbound Florida Avenue onto R Street NW to northbound 1st Street | Mid-Term | |
| | NW. | Mid-Term | |
| Concern with queuing/congestion and angle crashes at closely spaced intersections | Redirect eastbound left turns from Florida Avenue onto 1st Street NW to R Street NW, in | Mid-Term | |
| | Evaluate installation of a left-turn arrow for drivers travelling eastbound on Florida Avenue onto R Street NW. | Mid-Term | Completed. Signal timing also evaluated and updated as part of DDOT's yearly Signal Timing Optimization program. |
| | Evaluate installation of a left-turn arrow for drivers travelling westbound on Florida Avenue onto 1st Street NW. | Mid-Term | |
| | Assess vehicle speeds along the Florida Avenue NW corridor. | Mid-Term | |
| Speeding along Florida Avenue NW | Evaluate conversion of Florida Avenue NW from a four-lane to a three-lane cross section, where one travel lane is provided in either direction along with a left-turn lane at intersections. | Long Term | |
| Existing curb ramps do not meet ADA standards. No APS devices located at | Install accessible pedestrian signals (APS). | Mid-Term | |
| intersection(s). | Ensure all curb ramps and sidewalks are ADA-compliant. | Mid-Term | |
| No crosswalk provided to cross Florida Avenue NW on the south side of R Street NW, which connects to the bus stop and adjacent park. | Consider installation of a crosswalk, including ADA-compliant ramps and accessible pedestrian signals (APS), across the southeast leg of Florida Avenue NW at its intersection with R Street NW. | Mid-Term | |
| | 7th St & G St NW | | |
| No existing APS devices | Install accessible pedestrian signal push-buttons at all crosswalks. | Mid-Term | |
| Conflicts between pedestrians and turning vehicles | Install leading pedestrian intervals at all crosswalks. | Short Term | Completed. Signal timing also evaluated and updated as part of DDOT's yearly Signal Timing Optimization program. |
| | Install "No Turn on Red" for the eastbound approach of G Street NW. | Short Term | |
| Damaged flexposts and illegal parking adjacent to bike corral | Replace existing flexible posts around the bicycle corral with a raised curb/flexible post assembly ("Quick Curb"). Install such that the flexible posts extend across the width of the intersection (between crosswalks along 7th Street NW). | Short Term | Partially complete. Additional flexposts to be added. |
| | Install flexible post bump-outs/curb extensions at the following locations: - Northeast and southeast corners to align with bicycle corral - Northwest corner along G Street NW only to accommodate southbound bus stop along 7th Street NW - Southwest corner to accommodate the Portrait Gallery driveway, effectively reducing the turn radius and protecting pedestrians on the south leg crosswalk. Install concrete curb and sidewalk at flexible post curb extension locations listed in short-term recommendations. | Mid-Term | Complete |
| The approach widths, combined with the faded pavement markings and adjacent parking lanes, made the intersection feel very wide | - Extend the curb line of the east sidewalk of 7th Street NW such that the bicycle corral is entirely installed on sidewalk - Extend apron from the Portrait Gallery driveway such that it does not conflict with the relocated crosswalk on the south leg. Construct new curb to match the reduced radius of the flexible post installation. | Long Term | |

| | Reduce the effective width of G Street NW by reconfiguring the roadway to include one eastbound vehicular approach lane and one vehicular westbound receiving lane. - Maintain one bicycle lane in both directions along G Street NW - Assess the use of the remaining roadway width to accommodate parking or other public space needs - Note that reconfiguration of G Street NW may be dependent upon curb bump-outs at the study intersection. | Long Term | |
|---|---|------------|--|
| Illegal mid-block U-turns on 7th St NW | Install flexible posts along the centerline of 7th Street NW between G Street NW and H Street NW to prevent mid-block U-turns. | Short Term | |
| The commercial land use in the area generates frequent parking and pick-up/dropoff maneuvers | Pilot operations program for taxi, bus, and TNC traffic only along 7th Street NW between F Street NW and I Street NW for events at the Capital One Arena. Alternatively, evaluate the use of curbside space to facilitate passenger pick-up and drop-off activity. This would require coordination with the Metropolitan Police Department (MPD) to enforce through-traffic restriction and provide traffic control at either end. | Mid-Term | |
| A lack of dedicated bicycle facilities along 7th Street NW in the vicinity of the study intersection also creates less-safe conditions for bicyclists sharing the streets with vehicles. | Following review of the local bicycle network, install bicycle lanes along 7th Street NW adjacent to the curb in both directions. - A larger study is recommended to determine the consistency of bicycle lanes along 7th Street NW in the vicinity of G Street NW and parallel routes. - Evaluate required corridor capacity to determine lane designation, bicycle accommodations, and parking accommodations | Long Term | |
| Existing payament markings are faded and especially difficult to see on the concret | 7th St & M St NW e Install contrast pavement markings at the intersection to increase visibility, including high- | | |
| pavement | visibility crosswalks on all approaches. | Short Term | |
| | Coordinate with WMATA to move the northbound Metrobus sign to a position no closer than five (5) feet from the crosswalk, and restripe the Metrobus zone to at least 120 feet prior to the bus stop pole. | Short Term | |
| | Replace the existing northbound left-turn restriction sign supplemental "TRUCKS" plaques with "BUSES AND TRUCKS" plaques to match signage for the southbound right turn. | Short Term | |
| Existing signage deficiencies | Install "NO BUSES AND TRUCKS" signs on the west side of the intersection for the westbound approach of M Street NW. Buses and through-bound trucks with a capacity over 1 ½ tons are currently prohibited on the 600 block of M Street NW, implicitly restricting buses and trucks from entering M Street NW from the westbound approach. This signage will explicitly restrict those vehicles from entering the 700 block of M Street NW. | Short Term | |
| | Evaluate installation of curb bump-outs with flexible delineator posts on the northeast and southwest corners of the intersection. | Mid-Term | |
| | Evaluate left-turn calming measures on the north and south legs of 7th Street NW to slow left-turning vehicles from 7th Street to M Street NW. | Mid-Term | Complete. Left-turn hardening infrastructure added on both north and south legs of 7th St NW |
| | Evaluate prohibiting right turns on red for all approaches | Short Term | |
| Pedestrian conflicts arising from left-turning vehicles from M Street to 7th Street NW may be a safety issue | Evaluate implementing leading pedestrian intervals (LPI) in the traffic signal timing. | Short Term | Completed. Signal timing also evaluated and updated as part of DDOT's yearly Signal Timing Optimization program. |
| | Consider installation of a curb bump-out with a permanent curb extension on the southwest corner of the intersection. - A stormwater inlet on the northeast corner of the intersection prevents a permanent curb extension at that location without redesign of existing storm structures. Evaluate the feasibility of an open channel curb extension, similar to the one installed at 440 K Street NW. | Long Term | |
| High levels of pick-up/drop-off activity occurred at the southwest corner of the intersection due to the WMATA Metrorail station directly adjacent to the intersection | Consider installation of a designated pick-up/drop-off zone on the southwest corner of the intersection, directly adjacent to the WMATA Metrorail station. This curb space is currently signed for WMATA vehicles only; however, parked passenger vehicles were observed parking in this space during the site visit. | Mid-Term | |
| The limits of parking and loading zones were not clear in all locations, and curb use enforcement needs to be increased, particularly for the Metrobus zone on the southeast corner and for commercial vehicles blocking crosswalks | Work with DPW to Increase enforcement of the Metrobus zones, loading zones, and no parking zones. | Short Term | |
| Existing curh ramps are not ADA- compliant | Replace all sidewalk ramps to meet ADA requirements. | Mid-Term | |
| | | | |

| Existing carb ramps are not not. | Accessible pedestrian signals (APS) should also be installed on all approaches. | Mid-Term | |
|---|--|------------|----------|
| A lack of bicycle facilities along 7th Street NW in the vicinity of the intersection also leads to safety concerns for bicyclists sharing the streets with vehicles as they entermixed traffic from dedicated facilities north of N Street NW | with 7th Street NW: Mt Vernon Place/New York Avenue Street and N Street NW | Mid-Term | |
| | 14th St & Spring Rd NW | | |
| Poor pavement condition on the roadway and sidewalks. Existing crosswalks, curb | Perform pavement rehabilitation (e.g. mill and overlay) for the swollen pavement in the middle of the intersection. | Short Term | Complete |
| ramps, and traffic signals are not ADA-compliant. Poor pavement condition presents a hazard to bicyclists, as large humps are present in the middle of the | Repave the entire intersection and all approaches, ensuring that all slopes are ADA-compliant. $ \\$ | Mid-Term | Complete |
| intersection and the bike lanes | Ensure that all sidewalks in the vicinity of the intersection are level and flush with no tripping hazards. | Long Term | |
| Faded pavement markings, especially crosswalks and bike lanes | Refresh pavement markings at the intersection, including high-visibility crosswalks on all approaches. | Short Term | Complete |
| Pedestrian signal heads were misaligned on the northwest and southeast corners o the intersection, and accessible pedestrian signals (APS) were not present | Realign pedestrian signal heads on all approaches so that they are perpendicular and visible to pedestrians utilizing crosswalks. Additionally, ensure that all pedestrian signal head visors are appropriately positioned and tightened in place. | Short Term | Complete |
| the intersection, and decessible pedestrian signals (ALS) were not present | Install accessible pedestrian signals (APS) at the intersection. | Mid-Term | |
| | Evaluate time allocated for pedestrians to cross 14th Street NW and provide leading pedestrian intervals (LPI). | Short Term | |
| | Evaluate installation of curb bump-outs with flexible delineator posts on the northeast and southwest corners of the intersection. | Mid-Term | |
| Conflicts between pedestrians and turning vehicles. Leading pedestrian intervals (LPI) were not present at the intersection | Maintain the curb bump-outs with flexible delineator posts on the northeast and southwest corners of the intersection. Stormwater structures on all approaches prevent permanent curb extensions without adjustments to existing structure. | Long Term | |
| | Evaluate installation of left-turn calming assemblies on the northern leg of 14th Street NW and the eastern leg of Spring Road NW. | Mid-Term | |
| | Evaluate prohibiting right turns on red for all approaches to protect pedestrian crossings and reduce right-turn conflicts with crossing through traffic. | Short Term | |
| The southbound Metrobus stop may be too close to the intersection | Coordinate with WMATA to move the flag marking the southbound bus stop further from the pedestrian crosswalk across 14th Street NW (north side), approximately 5 to 10 feet. | Short Term | |
| Signal visibility | Trim the trees along the south side of the eastbound approach of Spring Road NW to ensure visibility of all traffic signals and signing on the right-hand side of the approach. | Short Term | |

| Spring Rd NW too narrow for two-way travel | Assess the feasibility and impact of restricting Spring Road NW to a one-way roadway in the westbound direction between New Hampshire Avenue and Spring Place NW where it current functions as a one-way roadway in the westbound direction to 16th Street NW. Concurrently, assess the feasibility and impact of restricting Quincy Street NW to a one-way roadway in the eastbound direction between 14th Street and Georgia Avenue NW. - Consider the following street cross sections for Spring Road NW and Quincy Street NW: two, 7-foot curbside parking lanes, one 5-foot bike lane, one 11-foot travel lane. - It is recommended that traffic data be collected at signalized intersections along the corrido and adjacent streets that may be impacted. This data can be used for supplemental analysis t evaluate the proposed changes and potential alternatives. - If speeding becomes a concern along Spring Road NW or Quincy Street NW with the conversion to a one-way street, consider collecting speed and volume data to evaluate potential traffic calming measures. - Consider permanent curb extensions at the intersection to narrow the width of Spring Road NW. - Alternatively, evaluate turning restrictions and/or on-street parking adjustments to facilitate two-way travel on the 1300 block of Spring Road NW. | r o Mid-Term | |
|--|---|-------------------------|--|
| Desire for marked crosswalk at 14th St & Quincy St NW | Evaluate installation of a crosswalk across 14th Street at Quincy Street NW. - Install curb ramp on west side of 14th Street NW north of the existing Capital Bikeshare station. This may require the existing street trashcan to be relocated. - Designate the curbside lane to the north of this crosswalk as a permanent loading zone. Stripe the lane to discourage parking use. - Install curb extension for ramp on west side of 14th Street NW to preclude vehicles from blocking the crosswalk. | Mid-Term | |
| | Vermont Ave & U St NW | | |
| Difficulty navigating the eastbound left-turn movement as both a driver and opposing pedestrian, noting that aggressive driving was a frequent observation | Stripe lane guidance ("puppy tracks") for left-turn maneuvers in the eastbound and westbour directions. | Short Term | Complete. Left-turn hardening infrastructure installed to slow left-turns east- and westbound on U St NW |
| | Evaluate installation of curb extension on the northeast corner using flexible delineator posts to shorten the crossing distance across Vermont Avenue NW. Evaluate curb extensions on Vermont Avenue NW to shorten the crossing distance across | Mid-Term | |
| | Vermont Avenue NW. Consider bus stop locations near the intersection and the location of storm structures Upgrade existing median refuges to meet minimum guidelines. Otherwise, remove to provide | Long Term Long Term | |
| | a continuously marked crosswalk Evaluate eastbound left-turn restrictions and/or protected-permissive phasing as potential opportunities to improve safety | Mid-Term | |
| Conflicts between pedestrians and turning vehicles. Leading pedestrian intervals (LPI) were not present at the intersection | Evaluate leading pedestrian intervals (LPI) for all crosswalks. | Short Term | Completed. Signal timing also evaluated and updated as part of DDOT's yearly Signal Timing Optimization program. |
| | Evaluate installation of "No Right Turn on Red" for all approaches to protect pedestrian crossings and reduce right-turn conflicts with crossing through traffic. Consider shortening the pedestrian crossing interval currently in place for crossing Vermont | Short Term | |
| | Avenue NW (north leg) in order to encourage pedestrians to cross in groups for enhanced visibility. This would provide green time at the end of the cycle for eastbound left and westbound right-turn movements to complete turning maneuvers without pedestrian conflicts. | Short Term | |
| | Evaluate installation of a lagging protected left-turn phase for eastbound left-turn traffic | Mid-Term | |
| | Install "Do Not Block Intersection" signs on all approaches. | Short Term | |
| Signal coordination between U Street NW/10th Street NW and U Street NW/Vermont Avenue NW is poor. Significant block-boxing observed. | Optimize progression along U Street NW between 10th Street and Vermont Avenue NW so that vehicles do not get stopped in the short block between the two intersections | Mid-Term | Completed. Signal timing also evaluated and updated as part of DDOT's yearly Signal Timing Optimization program. |
| Significant bike, pedestrian, and scooter activity Parking along the northern leg of Vermont Avenue NW impacts visibility for both drivers and cyclists | Evaluate road diet along Vermont Avenue NW and U Street NW Adjust parking along the southbound approach, so that it ends 25 feet in advance of the crosswalk across Vermont Avenue NW. | Long Term Short Term | |
| | | | |

| Damaged pedestrian signal | Repair pedestrian signal to cross the east leg of U Street NW on the southeast corner. | Short Term | Complete |
|---|--|--------------------|----------|
| Bus stop conflicts with intersection turning maneuvers, pedestrians, and cyclists | Evaluate moving the northbound bus stop to the far (north) side of the intersection in order to increase bicycle and turning safety Consider moving the eastbound bus stop to the location of the existing bus stop pad and revising the landscaping accordingly to comply with ADA regulations for entrance and egress. In its current configuration, the bus blocks an intersection and crosswalk, and cannot always fully pull to the curb | Mid-Term Long Term | |

Traffic Calming Petitions FY2019-2020

| RequestId | Problem Code | Address | Ward | Date Submit To | Date Time Closed | Status |
|-----------|----------------|---|--------|------------------|------------------|--------|
