- I.5.6** The District will have restricted rights in data, including computer software and all accompanying documentation, manuals and instructional materials, listed or described in a license or agreement made a part of this contract, which the parties have agreed will be furnished with restricted rights, provided however, notwithstanding any contrary provision in any such license or agreement, such restricted rights shall include, as a minimum the right to:
- I.5.6.1** Use the computer software and all accompanying documentation and manuals or instructional materials with the computer for which or with which it was acquired, including use at any District installation to which the computer may be transferred by the District;
- I.5.6.2** Use the computer software and all accompanying documentation and manuals or instructional materials with a backup computer if the computer for which or with which it was acquired is inoperative;

GAGA-2015-C-0058 - Teacher Residency Partnership

I.5.6.3 Copy computer programs for safekeeping (archives) or backup purposes; and modify the computer software and all accompanying documentation and manuals or instructional materials, or combine it with other software, subject to the provision that the modified portions shall remain subject to these restrictions.

I.5.7 The restricted rights set forth in section I.5.6 are of no effect unless

- (i) the data is marked by the Contractor with the following legend:

RESTRICTED RIGHTS LEGEND

Use, duplication, or disclosure is subject to restrictions stated in **Contract No. GAGA-2015-C-0058** with **Urban Teachers**; and

- (ii) If the data is computer software, the related computer software documentation includes a prominent statement of the restrictions applicable to the computer software. The Contractor may not place any legend on the computer software indicating restrictions on the District's rights in such software unless the restrictions are set forth in a license or agreement made a part of the contract prior to the delivery date of the software. Failure of the Contractor to apply a restricted rights legend to such computer software shall relieve the District of liability with respect to such unmarked software.

I.5.8 In addition to the rights granted in Section I.5.6 above, the Contractor hereby grants to the District a nonexclusive, paid-up license throughout the world, of the same scope as restricted rights set forth in Section I.5.6 above, under any copyright owned by the Contractor, in any work of authorship prepared for or acquired by the District under this contract. Unless written approval of the CO is obtained, the Contractor shall not include in technical data or computer software prepared for or acquired by the District under this contract any works of authorship in which copyright is not owned by the Contractor without acquiring for the District any rights necessary to perfect a copyright license of the scope specified in the first sentence of this paragraph.

I.5.9 Whenever any data, including computer software, are to be obtained from a subcontractor under this contract, the Contractor shall use this clause, I.5, Rights in Data, in the subcontract, without alteration, and no other clause shall be used to enlarge or diminish the District's or the Contractor's rights in that subcontractor data or computer software which is required for the District.

I.5.10 For all computer software furnished to the District with the rights specified in Section I.5.5, the Contractor shall furnish to the District, a copy of the source code with such rights of the scope specified in Section I.5.5. For all computer software furnished to the District with the restricted rights specified in Section I.5.6, the District, if the Contractor, either directly or through a successor or affiliate shall cease to provide the maintenance or warranty services provided the District under this contract or any paid-up maintenance agreement, or if Contractor should be declared bankrupt or insolvent by a court of competent jurisdiction, shall have the right to obtain, for its own and sole use only, a single copy of the then current version of the source code supplied under this contract, and a single copy of the documentation associated therewith, upon payment to the person in control of the source code the reasonable cost of making each copy.

I.5.11 The Contractor shall indemnify and save and hold harmless the District, its officers, agents and employees acting within the scope of their official duties against any liability, including costs and expenses, (i) for violation of proprietary rights, copyrights, or rights of privacy, arising out of the publication, translation, reproduction, delivery, performance, use or disposition of any data furnished under this contract, or (ii) based upon any data furnished under this contract, or based upon libelous or other unlawful matter contained in such data.

I.5.12 Nothing contained in this clause shall imply a license to the District under any patent, or be construed as affecting the scope of any license or other right otherwise granted to the District under any patent.

GAGA-2015-C-0058 - Teacher Residency Partnership

I.5.13 Paragraphs I.5.6, I.5.7, I.5.8, I.5.11 and I.5.12 above are not applicable to material furnished to the Contractor by the District and incorporated in the work furnished under contract, provided that such incorporated material is identified by the Contractor at the time of delivery of such work.

The Contractor shall provide the CO with ten (10) days prior written notice in the event of non-payment of premium.

2. Automobile Liability Insurance. The Contractor shall provide automobile liability insurance to cover all owned, hired or non-owned motor vehicles used in conjunction with the performance of this contract. The policy shall provide a \$1,000,000 per occurrence combined single limit for bodily injury and property damage.
3. Workers' Compensation Insurance. The Contractor shall provide Workers' Compensation insurance in accordance with the statutory mandates of the District of Columbia or the jurisdiction in which the contract is performed.

Employer's Liability Insurance. The Contractor shall provide employer's liability insurance as follows: \$500,000 per accident for injury; \$500,000 per employee for disease; and \$500,000 for policy disease limit.

4. Umbrella or Excess Liability Insurance. The Contractor shall provide umbrella or excess liability (which is excess over employer's liability, general liability, and automobile liability) insurance as follows: \$5,000,000 per occurrence, including the District of Columbia as additional insured.
5. Professional Liability Insurance (Errors & Omissions). The Contractor shall provide Professional Liability Insurance (Errors and Omissions) to cover liability resulting from any error or omission in the performance of professional services under this Contract. The policy shall provide limits of \$1,000,000 per occurrence for each wrongful act and \$1,000,000 annual aggregate.

The Contractor shall maintain this insurance for five (5) years following the District's final acceptance of the work performed under this contract.

GAGA-2015-C-0058 - Teacher Residency Partnership

6. **Crime Insurance (3rd Party Indemnity).** The Contractor shall provide a 3rd Party Crime policy to cover the dishonest acts of Contractor's employees which result in a loss to the District. The policy shall provide a limit of \$1,000,000 per occurrence. This coverage shall be endorsed to name the District of Columbia as joint-loss payee, as their interests may appear.
 7. **Sexual/Physical Abuse & Molestation.** The Contractor shall provide evidence satisfactory to the Contracting Officer with respect to the services performed that it carries \$1,000,000 per occurrence limits; \$2,000,000 aggregate. The policy coverage shall include the District of Columbia as an additional insured. This insurance requirement will be considered met if the general liability insurance includes sexual abuse and molestation coverage for the required amounts.
- B. **DURATION.** The Contractor shall carry all required insurance until all contract work is accepted by the District, and shall carry the required General Liability; any required Professional Liability; and any required Employment Practices Liability insurance for five (5) years following final acceptance of the work performed under this contract.
- C. **LIABILITY.** These are the required minimum insurance requirements established by the District of Columbia. **HOWEVER, THE REQUIRED MINIMUM INSURANCE REQUIREMENTS PROVIDED ABOVE WILL NOT IN ANY WAY LIMIT THE CONTRACTOR'S LIABILITY UNDER THIS CONTRACT.**
- D. **CONTRACTOR'S PROPERTY.** Contractor and subcontractors are solely responsible for any loss or damage to their personal property, including but not limited to tools and equipment, scaffolding and temporary structures, rented machinery, or owned and leased equipment. A waiver of subrogation shall apply in favor of the District of Columbia.
- E. **MEASURE OF PAYMENT.** The District shall not make any separate measure or payment for the cost of insurance and bonds. The Contractor shall include all of the costs of insurance and bonds in the contract price.
- F. **NOTIFICATION.** The Contractor shall immediately provide the CO with written notice in the event that its insurance coverage has or will be substantially changed, canceled or not renewed, and provide an updated certificate of insurance to the CO.

I. Executive Summary

Originating Office: Office of the Chief Operating Officer	Number: 303
Subject: School Naming Policy Authority: 5-E DCMR 3510	Date: December 2017 Rescinds: None

A. Introduction

The District of Columbia Public Schools (DCPS) operates over 100 schools with the mission of ensuring that every school guarantees students reach their full potential through rigorous and joyful learning experiences provided in a nurturing environment. This mission requires us to deliver education in a school environment supportive of student learning and reflective of the community served. Schools are named after people, places, or services provided at that location. School names serve to identify the school community, establish a legacy, and develop a sense of pride in the traditions of DCPS.

B. Purpose

This directive delivers the rules and procedures for the naming and renaming of all DCPS school buildings. DCPS recognizes that students, parents, and other community members may wish to propose a name for a school or request a name change for an existing school. Therefore, this policy outlines the specific steps to initiate this process, the decision-making considerations, and the legal implications involved in the naming of schools. Pursuant to 5-E DCMR 3510.10, any person or organization may submit a proposed name or change of name of any school building to DCPS for consideration but DCPS shall not be required to submit any particular name or recommendation for change of name to the Mayor. This policy applies only to the naming or renaming of school buildings. To the extent practicable and applicable, any naming associated with individual spaces within in a school shall be considered on a case by case basis. Any questions with regards to this policy should be referred to dcps.policy@dc.gov.

C. Roadmap

This directive first explains the criteria for official school names and the authority for new school names. Then, it explains the procedures for naming new schools and existing schools. Finally, it addresses procedures for community engagement and authority for the approval of a new school name. This policy shall apply to all school buildings associated with DCPS.

II. Naming and Renaming Procedures

A. Official Naming Criteria

Each school has an official school name. All such naming designations shall be according to the criteria explained below.

1. All naming based on a specific individual must comply with the following requirements:
 - The individual must not be a living person;
 - The individual must have been deceased for at least two (2) years; and
 - Only the individual's given name as well as their surname may be used (e.g. "Paul Lawrence Dunbar High School" rather than "Dunbar High School").
2. In determining whether to name a school after an individual, DCPS will consider whether the person:
 - Has made a significant contribution to society, including contributions made to the local school community;
 - Will lend prestige and status to an institution of learning; and
 - Represents the DCPS mission, vision, and values.
3. Nominations for names shall include a brief written statement (no more than 250 words) containing information about the name or person, including, if applicable, biographic data and significant contributions, and a statement of why such a name should be selected, including how it will lend prestige and status and represent the DCPS mission, vision, and values. In addition, the nomination must state that all conditions outlined in Section II.A.1 above have been met.

The wishes of the next of kin shall be taken into consideration. DCPS shall make reasonable efforts to locate the next kin and consider the perspective of the family before approving any official school name of a person.

Each school may have a mascot and school colors associated with the school's name or identity. Any changes to a school's mascot or colors shall occur during an official school name change unless it has been deemed the school's current mascot or colors are discriminatory or pose a significant safety threat.

B. Naming New Schools Procedures

School naming must be in accordance with the requirements described in Section II.A and performed according to the process described below.

1. Recommendation Review

In the case of a newly acquired school, or re-opening of a school, nominations for the official name of a school must be submitted to DCPS. Any such nominations shall be in accordance with the requirements and format described in Section II.A. DCPS will review the recommendation and respond to the stakeholder within 60 days on whether the new name consideration will move forward.

2. Community Engagement and Fiscal Impact Statement

The Office of Family and Public Engagement (OFPE) will determine the community engagement process regarding the potential naming of a new school. To the extent practicable and applicable, this engagement shall follow the process described below in Section D. The Office of Chief Operating Officer (OCOO) shall submit an analysis of the costs and timeline for potential implementation of the new name. After reviewing this input and information, a recommendation shall be made to the Chancellor.

3. Chancellor's Decision

The Chancellor, or designee, shall review a new school name consideration and determine whether the new school name shall move forward. Notice of proposed action shall be published in the D.C. Register for a period of not more than thirty (30) days prior to final action to name the school building. The Mayor shall have the final decision on any new school name.

C. Renaming Existing Schools

The existing name of a school may be changed in accordance with the naming requirements described below.

1. Recommendation Review

In the case of a request to rename an existing school, nominations for the official name of a school must be submitted to DCPS. Any such nominations shall be in accordance with the requirements and format described in Section II.A. DCPS will review the recommendation and respond to the stakeholder within 60 days on whether the new name consideration will move forward.

2. Community Engagement and Fiscal Impact Statement

OFPE will determine the community engagement process regarding the potential naming of an existing school. To the extent practicable and applicable, this engagement shall follow the process described below in Section D. OCOO shall submit an analysis of the costs and timeline for potential implementation of the new name. After reviewing this input and information, a recommendation shall be made to the Chancellor.

3. Chancellor's Decision

The Chancellor, or designee, shall review the request for name change to an existing school and determine whether the renaming shall move forward. Notice of proposed action shall be published in the D.C. Register for a period of not more than thirty (30) days prior to final action to name the school building. The Mayor shall have the final decision on any name change to an existing school.

D. Community Engagement Process

Any new school name or renaming of a school shall include a community engagement process before the final action on an official school name designation is completed. DCPS shall notify parents, students, alumni, and the community of the request for a name change, or new school name, and undertake a process to seek input on and recommendations regarding the proposed name.

Community engagement may include:

- Direct communications with students, parents, and families (during in-person parent or staff meetings);
- School specific surveys;

- School specific petitions;
- Local School Advisory Team (LSAT) meetings;
- Advisory Neighborhood Commission Meetings; and
- Community Civic Association Meetings.

DCPS may administer a survey to invite input, reflections, comments, and nominations regarding the proposed name change. This survey will be open to all members of the DCPS community, including current and former students, and will be distributed, at a minimum, through the DCPS website, Office of Family and Public Engagement email list, and social media platforms.

Q40 Attachment_Literacy & Math Interventions

DCPS provides all students with rigorous instruction using a balanced approach to literacy and math development that aims to ensure access, engagement and mastery of grade-level content for all students through our rigorous, content-rich and research-based Tier I literacy and math curricula. This includes many opportunities for differentiation and support through small groups, scaffolds, accommodations, and modifications. Teachers have access to a variety of resources to support all students.

Data indicates that students throughout the district benefit from additional instruction that support them being on target for literacy success. The RTI process provides a structure for supporting students who would benefit from intervention. Most schools will need multiple resources to meet the literacy needs of all students. Please note that various additional interventions live within each school, at the discrepancy of school leadership; this list exclusively identifies interventions that are currently supported in some capacity by the Office of Teaching and Learning.
