Resolution in support of the Work and Training Opportunity Center.

WHEREAS, a reallocation of local funds in the District of Columbia budget passed by the Congress has deprived the Work and Training Opportunity Center at 921 Pennsylvania Avenue, S. E., of \$2,000,000 depended upon by the Department of Public Welfare, the U. S. Bureau of the Budget and the U. S. Department of Health, Education and Welfare for maintenance of this pioneering manpower training effort for the neediest of our needy unemployed heads of households; and

WHEREAS, the proven success of this job-training and job-finding program in its first 25 months -- training and placing 834 heads of households in 116 different kinds of paying jobs with 236 different employers -- requires continuing support as the only resource of its kind for our city.

NOW, THEREFORE, BE IT RESOLVED by the District of Columbia Council that it:

PLEDGES full and continuing help to Mayor Walter E. Washington in his efforts to arrange immediate alternative administrative sources of funding for the balance of this fiscal year,

URGES the Secretary of Health, Education and Welfare, the Secretary of Labor and the Office of Economic Opportunity to consult promptly on the continuing role that we believe the Work and Training Opportunity Center should play within the framework of the District's Comprehensive Area Manpower Planning System,

ASKS these Federal officials and their local representatives to provide immediate interim funds to maintain the Work and Training Opportunity Center at its present 900-trainee level of operation until the pending legislative revisions of the Economic Opportunity Act and the Social Security Amendments of 1967 define new missions for this Work and Training Opportunity Center,

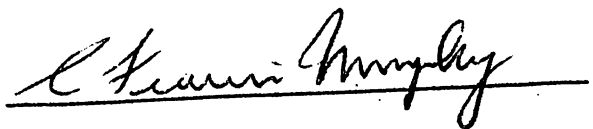

CONGRATULATES the staff of the Work and Training Opportunity Center on its successful innovations in open-ended long term work experience training at 102 different training sites in the city and the suburbs for heads of households unable to qualify for other programs, and

PLEDGES to the thousands of our citizens who have applied for training at this center that collectively and individually the Council and its members will help the Mayor bring forcefully to the attention of Federal officials the crucial success that this manpower effort has already had and why it

must be supported. This Center brings a fresh sense of real hope, immediate service and systematic long-term individual and family upgrading to the most disadvantaged of our neighborhoods. This sense of purposeful hope for our under-trained fellow citizens -- many long shut out from meaningful entry into the world of work -- is essential to our common strength in building a better city, at peace with itself, united in our mutual determination to eradicate old prejudices in a new climate of brotherhood, social justice, and insistence on the right of every family to economic independence based on work and training.

Acting Secretary

D. C. RESOLUTION NO. 67-17

Resolution setting forth desirable objectives and guidelines to be followed in the planning and execution of the National Training School site and in the execution of the approved plans for the Fort Lincoln Urban Renewal Project No. 1; and directing that these objectives and guidelines be immediately communicated to the Executive branch of the District of Columbia Government and all appropriate planning agencies.

WHEREAS, the Council and city administration have both recognized that there has long been widespread support for developing a balanced residential community on the National Training School site; and

WHEREAS, the Council, with the support of the Mayor has approved the plan for the Fort Lincoln Urban Renewal Project No. 1 as a first major step towards creating a new community within the city limits; and

WHEREAS, the Council recognizes and shares in the concerns expressed by many interested and well informed citizens at the public hearing, over the nature and extent of citizen participation in planning for the first project, and concern that a comprehensive plan be developed for construction of needed shops, schools and other public facilities to adequately serve the area;

NOW, THEREFORE, BE IT RESOLVED by the District of Columbia Council that:

Section 1. Establishment of objectives and guidelines.

The following objectives and guidelines are hereby adopted by the District of Columbia Council as reflecting its desires concerning the development and execution of the National Training School site and the execution of the

- 2 -

approved plans for the Fort Lincoln Urban Renewal

Area No. 1:

- (1) Planning for the entire area should be carried out in cooperation with citizen groups both from the immediate neighborhood and from the city at large. The Redevelopment Land Agency should contact immediately representative neighborhood groups to help prepare a detailed work program for citizen involvement and particularly for the participation of residents of the neighborhoods bordering the Training School site. The Redevelopment Land Agency should set aside funds for this purpose so that citizen participation can be adequately financed.
- (2) Construction of the 400 apartments for low and moderate income families, as planned for the first project in the Training School site, should be carried out under the direction of a nonprofit sponsor. The Redevelopment Land Agency should take steps to assure that the Board of Directors of the sponsoring group include representatives from the adjacent neighborhoods. This will insure meaningful neighborhood participation in the development decisions which will have to be made for the first stage project. The Redevelopment Land Agency should assure that when preliminary architectural plans for this area are prepared by the nonprofit sponsor, they are presented to neighborhood groups so that comments of the

- 3 -

residents can be considered before final plans are developed.

- (3) The Board of Education, working with the Department of General Administration, should accelerate the schedule for completion of the first permanent schools in the Training School site. The first schools should be completed by 1970 both to minimize the need for use of temporary school facilities and to provide needed classroom space to reduce overcrowding in nearby schools at the earliest possible date. In addition, the Mayor and Council should seek to include in future budgets capital expenditure funds to build schools on this site.
- (4) The benefits of urban renewal should not be limited to the Training School site but should also extend to surrounding neighborhoods. One way to extend these benefits might be to initiate a Federally-assisted code enforcement program in the surrounding area. This was proposed by neighborhood residents at the hearing on November 21, and Mayor Washington has agreed to implement this suggestion if there is genuine neighborhood support for it.
- (5) The various public agencies should give careful consideration in their planning for the total Fort Lincoln development to the question of what constitutes a truly balanced community and a viable and vital neighborhood. The economic, social and educational aspects of this question

- 4 -

should be studied thoroughly, and citizens should be deeply involved in these deliberations. The questions as to how many units of housing and for what income groups, what types of community facilities, the nature and extent of commercial development and similar concerns must be answered with the advice and assistance of the residents.

- (6) The Redevelopment Land Agency should study and report to the Council on the feasibility of disbursing the first public housing occupants in renewal project No. 1 throughout the rest of the Fort Lincoln Development as soon as the remainder of the planned housing is constructed. The purpose of this is to eliminate creation of a public housing ghetto in one corner of the development. If such disbursal cannot be effected other plans should be developed to achieve this desired end.

Section 2. Transmittal of objectives and guidelines.

These objectives and guidelines are to be transmitted immediately to the Mayor and Deputy Mayor, the National Capital Planning Commission, the Redevelopment Land Agency, the National Capital Housing Authority, the Board of Education and to all other agencies of the District of Columbia which are involved in the Fort Lincoln Project. This resolution should be transmitted as the Council's wishes, requesting that these public agencies take immediate steps to initiate the above suggestions. The Council expects full cooperation and assistance of these agencies both in moving ahead rapidly with this challenging and ambitious project and, at the same time, in

- 5 -

assuring full and immediate citizen involvement in
it.

Section 3. Effective Date. This resolution
shall become effective immediately upon its passage.

Adopted this 5th day of December,
1967.
