QUALITATIVE DESCRIPTION OR SUMMARY STATEMENT

Pursuant to section 208(a)(9) of the D.C. FOIA, provide in the space below or as an attachment, “[a] qualitative description or summary statement, and conclusions drawn from the data regarding compliance [with the provisions of the Act].”

During COVID-19 Office of the State Superintendent continued to process FOIA requests within the statutory timeframes. We have continued to improve turnaround time for each FOIA request. While we still assert that the statutory time frames outlined under the FOIA statute are unfeasible; COVID-19 regulations have provided the agencies additional time to conduct thorough searches for records and process FOIA requests.

GOVERNMENT OF THE DISTRICT OF COLUMBIA
Executive Office of Mayor Muriel Bowser

Office of the City Administrator

January 15, 2021

Fiscal Year (FY) 2020 was an unprecedented year for all DC residents, businesses and the District Government. In March 2020—the second quarter of the fiscal year—Mayor Bowser declared a public health emergency and District government quickly pivoted to respond to the COVID-19 global health pandemic. To align with recommended social distancing and public safety guidelines, in just one day, over 60 percent of District government employees transitioned to a telework posture. In addition, many District agencies limited or temporarily ceased most in-person activities and services.

The global health emergency required the District to significantly reallocate financial and personnel resources to respond to the pandemic. With the change in operations and a substantial decrease in revenues, the District's response required all agencies to determine how to best provide services to District residents, visitors and employees, while maintaining the necessary protocols to help slow the spread of COVID-19.

As such, the global health pandemic greatly impacted some agencies' abilities to meet their FY20 key performance indicators (KPIs) and strategic initiatives established prior to its onset as agencies shifted resources to respond to COVID-19. Therefore, outcomes for KPIs and strategic initiatives reflect a shift in District priorities and efforts during this crisis. While we continue to believe strongly in performance tracking to improve District services, the data for FY20 is not fully indicative of agencies' performance and should be reviewed factoring in the unprecedented challenges encountered in FY 2020.

Sincerely,

A handwritten signature in black ink that reads 'Kevin Donahue'.

Office of the State Superintendent of Education FY2020

Agency Office of the State Superintendent of Education

Agency Code GDO

Fiscal Year 2020

Mission The mission of the Office of the State Superintendent of Education (OSSE) is to remove barriers and create pathways so District residents receive an excellent education and are prepared to achieve success in college, careers, and life.

Summary of Services The Office of the State Superintendent of Education serves as the District of Columbia's State Education Agency (SEA). In this role, OSSE manages and distributes federal funding to education providers and exercises oversight responsibility over federal education programs and related grants administered in the District to ensure quality and compliance. OSSE also serves as the standard-bearer in education for the District of Columbia. OSSE develops state-level education policies and standards aligned with school, college, and workforce readiness expectations. OSSE further ensures that the District collects and reports accurate and reliable data. OSSE provides technical support to increase effectiveness among education providers, thereby improving outcomes for all students. OSSE also leads the Special Education Transportation (Agency Code GOO), Non-public Tuition (Agency Code GN0), and administers the District of Columbia Public Charter Schools Payments.

2020 Accomplishments

Accomplishment	Impact on Agency	Impact on Residents
Completed phase one of a multi-year process to overhaul and optimize agency data infrastructure	<p>This year OSSE completed an inventory of data assets and launched an application that empowers data stewards across the agency to define critical assets and serve as a hub for users to learn about the data points they use in FY20. This work represented the beginning of a multi-year effort to transform how our data is stored, accessed, and used. While this effort is deeply behind the scenes, it is critically important to the efficient functioning of the agency, continued success of our programs, and ongoing improvements for students, parents, families, and stakeholders.</p> <p>Each year, OSSE collects more than 108 million data points, completes more than 700 pages of required reporting to Council, submits 200 plus reports to the U.S. Department of Education, fulfills hundreds of data requests, and executes nearly 100 external data sharing agreements. These impressive efforts are hampered by data management practices that have not kept pace with the agency's growth and which introduce the potential for errors and burden staff. This work will continue through the next several fiscal years and ultimately result in more modern, user-friendly, and efficient services.</p>	<p>Phase one of this multi-year effort established a critical foundation for strengthening and streamlining OSSE's data infrastructure. This effort laid important groundwork for the successful launch of the Research Practice Partnership, which relies on access to quality timely data from OSSE to provide residents, policymakers, and advocates with actionable research about how to strengthen our public schools.</p> <p>In addition to the Research Practice Partnership, this initiative has already begun to improve agency operations which, in turn, benefit District residents by ensuring that OSSE can fulfill data requests in a timely and accurate manner, conduct more efficient data analysis that contributes to ongoing improvements in student achievement, and provide transparent and timely access to information for stakeholders.</p>
Developed and received approval on a new Perkins State Plan to strengthen career and technical education across the city	<p>The process of updating DC's Perkins State Plan was an intensive process that occurred over the course of many months.</p> <p>In addition to meeting the requirements outlined by the U.S. Department of Education (USED), OSSE staff in the Division of Postsecondary and Career Education (PCE) cultivated relationships with leaders of some of the most in-demand industries in our region to ensure that students in CTE programs have access to the learning, training, and skill development that will position them for jobs post-completion.</p> <p>OSSE staff also embraced the agency's commitment to improving access to information for stakeholders by developing and executing on a robust public engagement process. Drafted in close collaboration with teachers and industry partners and informed by best practices from around the nation, the plan received public input throughout its development and was open for a months-long public comment period.</p>	<p>The submission and approval of a new Perkins Career and Technical Education (CTE) state plan for DC positively impacted District residents by providing a roadmap for the Office of the State Superintendent of Education to use in expanding access to high-quality CTE opportunities for learners throughout the city.</p> <p>The plan provides a framework for increasing engagement and achievement for students participating in CTE programs and prepares them to earn jobs in high-skilled, high-wage, and in-demand industries. In particular, the state plan transforms the student experience for participants in the District's forty-two CTE programs of study through updates to and strengthening of the required standards for 107 courses, increases to the availability and impact of work-based learning, and improved teacher education and development opportunities. In contrast to the previous state plan, the newest version intentionally fosters meaningful partnerships between the classroom and organizations in business and industry to enhance academic offerings and provide strong and meaningful opportunities for hands-on learning in the field. Moreover, the plan also aims to increase academic outcomes for CTE concentrators by setting goals around English and language arts (ELA) and math proficiency, as well as course completion. Finally, the plan intends to increase equity by establishing citywide Advanced Technical Centers that give more students access to CTE programs.</p>
Created a three-year roadmap to improve outcomes for students with disabilities	<p>Internally, this focus on students with disabilities has united staff from every one of our divisions; knowing the sheer scope of the work to be done, OSSE brought together a working group to conduct the landscape analysis and subsequent engagement. The many perspectives and areas of expertise possessed by this group were invaluable in ensuring that the full power and attention of the agency is being brought to bear on this issue.</p> <p>In particular, the many members of the Students with Disabilities Working Group each contributed to a landscape and data analysis that unpacked the root causes of the lingering disparities between SWDs and their peers, sought to identify best practices from large urban districts and states across the nation, and accurately stated the scope of these differences in the city during this initial research and outreach phase. The unified attention has reoriented many parts of the agency and made it possible to make progress. We will continue to build on this new level of cross-divisional collaboration as we begin to implement our roadmap in FY21.</p>	<p>As part of an agency-wide focus on improving outcomes for students with disabilities, OSSE conducted interviews, analyzed internal and external data sets, and performed research as part of an extensive landscape analysis aimed at better understanding the present realities of special education in the District. In full, the landscape analysis presents the most complete assessment of DC special education scope, scale, and challenges ever developed and includes key demographic findings, entry and exit data, best practices from other states and large urban districts, and initial recommendations for action.</p> <p>Following the stakeholder analysis, OSSE shared and unpacked these findings through engagement with educators, school staff, families, advocates, and partners at DCPS and PCSB to amplify public voice, forge key relationships, and create a shared understanding of the issues across the DC education sector. This effort culminated in the development a three-year roadmap for improving outcomes for students with disabilities, which focused on the following priorities:</p> <ul style="list-style-type: none"> • Setting clear and high expectations, • Strengthening staff and leadership capacity, • Promoting appropriate identification and placement, • Expanding access to actionable information and data, • Enabling schoolwide systems of support, and • Addressing recovery needs. <p>To date, this work has provided much-needed clarity and level-setting across the education landscape and empowers OSSE, peer agencies, and stakeholders to embark on the work of advancing outcomes for students with disabilities (SWDs) armed with the knowledge and planning required for success. Moving forward, this work will continue to yield great impact for District residents, particularly given the number of students with disabilities across the city (18% of students).</p>

2020 Strategic Initiatives

Strategic Initiative Title	Strategic Initiative Description	Completion to Date	Status Update	Explanation for Incomplete Initiative
Administer DC Tuition Assistance Grant (DCTAG) and Mayor's Scholars Programs (1 Strategic Initiative)				
Improve access to information for families	Improve the accessibility and usability of key OSSE resources for families through a multi-strategy approach that strengthens family engagement practices and communications, establishes a shared vision and resources for family engagement across OSSE, focuses on three high-impact signature campaigns, and identifies metrics for assessing the impact of our family engagement efforts.	50-74%	Since the pandemic began, OSSE has continued improving access to information by focusing on two main areas: early childhood education and students with disabilities. In Q4, OSSE launched the inaugural Special Education Resource Hub to help families of SWDs understand policies, procedures, and rights for SY20-21. This work will continue when a new deputy communications director is hired.	
Adult Literacy (1 Strategic Initiative)				
Expand career and technical education	In collaboration with local and regional business, industry, and education partners, OSSE will develop a new Perkins Career and Technical Education (CTE) State Plan that outlines an ambitious and strategic roadmap for expanding access to high quality CTE across the District.	Complete	The DC CTE State Plan was signed by Mayor Bowser on April 7, 2020. The plan was submitted to the US Department of Education on the same day.	
Child Care Facilities (1 Strategic Initiative)				
Increase access to quality child care	Increase access to quality child care for District children and families by completing the three-year project to add 1,000 new infant and toddler slots across the city, providing a robust set of quality supports to help providers improve the quality of care and learning, and facilitating home visits for Head Start families.	Complete	As of Oct. 2020, the A2Q Child Care Expansion Grant has awarded the full \$8.1M, which will create 1,244 infant and toddler slots. In summer 2020, the balance of funds were deployed to A2Q grantees for emergency COVID relief. In addition, 14 family engagement specialists in the Quality Improvement Network (QIN) facilitated home visits for Early Head Start families participating in the QIN.	
Key Education Issues (1 Strategic Initiative)				
Strengthen the agency's data infrastructure	Improve and streamline OSSE's data infrastructure by completing an inventory of the current state, designing the new data system and processes, and beginning to work on their implementation.	50-74%	In FY20, OSSE's CJO, DAR, and Operations divisions developed and began to execute a comprehensive workplan. To start, an initial data asset inventory application was launched. While the initiative will be fully complete in FY24, it is on track to transform the way OSSE collects, secures, and reports on the District's education data.	Part of multi-year initiative.

2021 Initiatives

Strategic Initiatives

Strategic Initiative Title	Strategic Initiative Description	Proposed Completion Date	Is this Initiative focused on Wards 7 and/or 8?	Does this initiative support the Resilient DC Strategy?	Cluster	Add Initiative Update
Access to Programs (1 Strategic Initiative)						
Strong Start	Increase the number of families in Wards 7 and 8 who are receiving early intervention services by opening a new Strong Start office in Ward 7 and establishing a place where parents can meet with service coordinators and evaluate for eligibility determination as needed, organize Strong Start community playgroups for Ward 7 and 8, and attend workshops on different topics of interest.	09-01-2022	<input type="checkbox"/>	<input type="checkbox"/>	Deputy Mayor for Education	
Child Care Facilities (1 Strategic Initiative)						
Early Child Care	Increase access to quality child care for District children and families through continued financial support, guidance, and technical assistance to maintain the supply of high-quality seats.	09-01-2022	<input type="checkbox"/>	<input type="checkbox"/>	Deputy Mayor for Education	
Individuals with Disabilities Education Act (1 Strategic Initiative)						
Strengthen academic outcomes	Strengthen academic outcomes for students with disabilities by implementing year one of OSSE's special education roadmap and establishing a shared set of commitments with the education cluster agencies while enhancing internal coordination to sustain this work in the long run.	09-01-2022	<input type="checkbox"/>	<input type="checkbox"/>	Deputy Mayor for Education	
Key Education Issues (2 Strategic initiatives)						
COVID Re-Entry and Recovery	Support local education agencies (LEAs), schools, educators, and families in navigating distance learning by requiring continuous education plans from all LEAs, publishing them on OSSE's website, and providing guidance and resources to help address gaps.	09-01-2022	<input type="checkbox"/>	<input type="checkbox"/>	Deputy Mayor for Education	
Data Infrastructure	Continue improvements to OSSE's data infrastructure by building a foundation that supports the transformation from the current state to a seamless and user-friendly process that improves responsiveness to stakeholders, drives program, policy and practice improvements, and enables the agency to more fully realize its mission and goals.	09-01-2022	<input type="checkbox"/>	<input type="checkbox"/>	Deputy Mayor for Education	

2021 Initiative Updates

Strategic Initiative Title	Initiative Status Update	% Complete to date	Confidence in completion by end of fiscal year (9/30)?	Status of Impact	Supporting Data	Reporting Quarter
COVID Re-Entry and Recovery (1 Initiative Update)						
COVID Re-Entry and Recovery	OSSE has collected, reviewed, and published continuous education plans from every LEA. In addition, the agency has tailored resources and guidance available to stakeholders in response to gaps identified in the plans and is currently designing a grant program to disseminate \$155 million in federal recovery funds to LEAs.	25-49%	High	Incremental		Q1
Data Infrastructure (1 Initiative Update)						
Data Infrastructure	OSSE continues to work toward data infrastructure improvements during the pandemic. As of FY21 Q1, the agency has completed onboarding for approximately 66% of the staff. In addition, planning for the underlying architecture of the system has begun as well as the formation of project teams for the BPR activities within each division.	25-49%	Medium	Incremental		Q1
Early Child Care (1 Initiative Update)						
Early Child Care	OSSE continues to provide health & safety guidance and TA to child care providers. OSSE and DMPED successfully distributed \$5M in relief grants to 90%+ of providers. OSSE implemented Public Health Emergency rate to stabilize revenues for subsidy providers. In Q2-3 OSSE will distribute \$2.8M in additional CARES grants and is preparing for \$16.7M in additional federal relief funds.	25-49%	Medium	Demonstrable		Q1
Strengthen academic outcomes (1 Initiative Update)						
Strengthen academic outcomes	In partnership with DCPS and PCSB, OSSE established a set of shared commitments in October 2020. OSSE has since launched our year one priorities, which include finalizing revisions to the Chapter 30 regulations, overhauling our IDEA monitoring framework, developing new professional learning offerings for teachers and leaders, and determining the needs for a parent resource center.	0-24%	High	Demonstrable		Q1
Strong Start (1 Initiative Update)						
Strong Start	Unfortunately, this work has been significantly delayed by the public health emergency. While the Ward 7 Strong Start office was delivered to OSSE, it has not officially opened to the public due to OSSE's ongoing telework. Community playgroups are also on hold. Despite these obstacles, Strong Start continues to provide virtual family outreach and service delivery across all eight wards.	0-24%	Low	None		Q1

Internal: Unfinished 2020 Initiatives

Title	Description	Complete to Date	Status Update	Explanation	Anticipated Completion Date	Add Initiative Update
HIGHER EDUC FINANCIAL SVCS & PREP PRGMS (1 Strategic Initiative)						
Improve access to information for families	Improve the accessibility and usability of key OSSE resources for families through a multi-strategy approach that strengthens family engagement practices and communications, establishes a shared vision and resources for family engagement across OSSE, focuses on three high-impact signature campaigns, and identifies metrics for assessing the impact of our family engagement efforts.	50-74%	Since the pandemic began, OSSE has continued improving access to information by focusing on two main areas: early childhood education and students with disabilities. In Q4, OSSE launched the inaugural Special Education Resource Hub to help families of SWDs understand policies, procedures, and rights for SY20-21. This work will continue when a new deputy communications director is hired.			
OFFICE OF THE STATE SUPERINTENDENT (1 Strategic Initiative)						
Strengthen the agency's data infrastructure	Improve and streamline OSSE's data infrastructure by completing an inventory of the current state, designing the new data system and processes, and beginning to work on their implementation.	50-74%	In FY20, OSSE's CIO, DAR, and Operations divisions developed and began to execute a comprehensive workplan. To start, an initial data asset inventory application was launched. While the initiative will be fully complete in FY24, it is on track to transform the way OSSE collects, secures, and reports on the District's education data.	Part of multi-year initiative.	12-31-2024

Improve access to information for families		<input type="checkbox"/>	<input type="checkbox"/>	OSSE continues to improve access to information in two key areas during the pandemic: early childhood education and students with disabilities. We continue to share information about Strong Start and telehealth services. In Q1, OSSE worked with PAVE to inform families of the services available to students with disabilities and answered questions directly via an information session.	50-74%	Low	Incremental	As schools move toward recovery and reopening, OSSE continues to find ways to provide valuable information to families regarding their child's education. Our goal is to improve family engagement practices and create a shared vision for that work across the agency. We have hired a deputy comms director which brings additional capacity to the team that will help drive this work to the next level.		Q1

Council Oversight Hearing, FY20 Question 44 - English Language Learners

- Overview: Details of data file
- Counts by Age: Number of students who are EL by age
- Counts by Grade: Number of students who are EL by grade level
- Counts by SWD Status: Number of students who are EL by disability status
- Counts by ELL Classification: Number of students who are either active EL or monitored EL

- Prior year data used Enrollment Audit data, which represent a point in time, whereas the current counts reflect data from Data Validation, which reflect changes across the full school year.
- Age is calculated as of September 30 of the School year.
- For 2020-21 students with an EL status of Privisional EL , 'PEL', are considered as Active EL students.
- N<10 indicates that the number of students is fewer than 10, which is suppressed in line with OSSE's suppression policy. DS indicates that the data are suppressed because publishing the number would permit the calculation of suppressed data. For more information on OSSE's policies on data privacy and security, please visit: <https://osse.dc.gov/publication/osse-and-federal-privacy-laws>
- NA indicates that data are unavailable for reasons that include LEA is closed or its a new LEA. subgroup did not exist or LEA does not serve that particular grade.

Council Oversight Hearing, FY20 Question 45 - Students Who Are At-Risk

- Overview: Details of data file
- At-Risk Counts: Number of students who are considered At-Risk by category
- Prior year data used Enrollment Audit data, which represent a point in time, whereas the current counts reflect data from Data Validation, which reflect changes across the full school year.
- Age is calculated as of September 30 of the School year.
- For 2020-21 students with an EL status of Privisional EL , 'PEL', are considered as Active EL students.
- N<10 indicates that the number of students is fewer than 10, which is suppressed in line with OSSE's suppression policy. DS indicates that the data are suppressed because publishing the number would permit the calculation of suppressed data. For more information on OSSE's policies on data privacy and security, please visit: <https://osse.dc.gov/publication/osse-and-federal-privacy-laws>
- NA indicates that data are unavailable for reasons that include LEA is closed or its a new LEA. subgroup did not exist or LEA does not serve that particular grade.
- Students are count in each category in which they are found to eligible.
- These data reflect information from DHS, Child and Family Services, and The Community Partnership for the Prevention of Homelessness.

Council Oversight Hearing, FY20 Question 46 - Mobility

- Overview: Details of file
- Monthly Mobility by School: The cumulative rate of entries and exits at the school level, as of the last day of each month, for the 2019-20 school year
- Monthly Mobility by LEA: The cumulative rate of entries and exits at the LEA level, as of the last day of each month, for the 2019-20 school year
- Monthly Mobility by State: The cumulative rate of entries and exits District-wide, as of the last day of each month, for the 2019-20 school year

- Entries: The cumulative number of Stage 5 entries since the Enrollment Audit Count Day as of the end of each month/ Count of Students Enrolled on Enrollment Audit Count Day
- Exits: The cumulative number of transfers or exits since the Enrollment Audit Count Day as of the end of each month/ Count of Students Enrolled on Enrollment Audit Count Day
- More information on business rules is available in the 2020 DC School Report Card and STAR Framework Technical Guide.
- Mobility data are not reported after the month of February due to the COVID-19 global health crisis.
- In line with OSSE's suppression policy, secondary suppression is applied to all student groups when a complementary group has an n-size less than 10 or a complementary group is top or bottom suppressed to prevent the calculation of suppressed data. Secondarily suppressed data is noted with "DS". Because mobility rates of 0 or 100 do not reveal personally identifiable information, these values are not top- and bottom-coded. For more information on OSSE's policies on data privacy and security, please visit: <https://osse.dc.gov/publication/osse-and-federal-privacy-laws>

Council Oversight Hearing, FY20 Question 49 - Graduation

- Overview: Details of file
- Q49a: Dropout rates for ACGR 4-year cohorts
- Q49b: Postsecondary enrollment rates for ACGR 4-year cohorts

• Disengaged refers to students in the cohort who did not graduate, are not currently enrolled, and did not receive an IDEA Certificate or State Diploma.

• Data are suppressed in accordance with OSSE's Data Suppression Policy, requiring the blinding of all denominators less than 10. In addition to suppressing these values, data are also secondarily suppressed (denoted by DS). This is done when only one value is suppressed while the total is provided, allowing for the suppressed value to be mathematically calculated. In order to avoid this, the next smallest N-size value is secondarily suppressed. For more information on OSSE's policies on data privacy and security, please visit: <https://osse.dc.gov/publication/osse-and-federal-privacy-laws>

Council Oversight Hearing, FY20 Question 53 - Childcare

- 2020_Q53a: Capacity, enrollment, and utilization for FY19, FY20 and to date in FY21
- 2020_Q53c: Number and percentage of closed facilities in FY19, FY20 and to date in FY21
- 2020_Q53d: Amount paid to childcare providers in FY19, FY20 and to date in FY21.
- 2020_Q53e: List of all new licensed facilities in FY19, FY20 and to date in FY21.

- Capacity information is provided for all providers. OSSE only collects enrollment data for subsidy eligible children; therefore, we cannot provide total enrollment and utilization.
- The 2020_Q53d data tab contains a summary of all subsidy payments to childcare providers in FY19, FY20 and FY21 to date.
- FY21 YTD denotes year to date data for FY21 as of January 31st 2021. Subsidy enrollments for the month of January 2021 reflect preliminary data. Data were pulled on February 5th 2021
- Public pre-k data for public charter schools (PCS) is not included in the output file for FY 2020 and FY 2021 YTD because PCS capacity data was not provided to OSSE due to COVID-19 restrictions.
- Closed facilities include facilities that were closed temporarily for enforcement action or other reasons but may have reopened during the fiscal year.

- 2020_Q70a: High school completion information for students with disabilities for the 2018-19 and 2019-20 school years
- 2020_Q70b: Postsecondary enrollment and transition information for students with disabilities for the 2018-19 and 2019-20 school years

• Non-Public counts are a subset of the Total counts. Only students aged 14 or older on October 5, 2019 are included in these counts. Only students enrolled at the time of the Child Count are included in these counts. Students are counted at their Child Count/Audit school. Outcomes are calculated based on the student's status at the end of the school year. A student's end-of-school-year outcome may have occurred at a school other than the student's Child Count school.

• The universe of students who left during 2017-18 is consistent with EdFacts FS009 and IDEA APR Indicator 14. Students who enrolled at a diploma-granting high school in 2018-19 are removed. Students who enrolled at an adult LEA in 2018-19 were included in the third metric under "training programs." Students can be counted in each column F, G, and H.
