The work under this grant will also set goals for the District to continue its education and outreach activities in its WIP as well as support Bay coordination efforts.
1,739,942.37	1,739,942.37	4.08	4.08	Steve Saari	Associate Director, Watershed Protection Division	This grant funds DOEE to support the urban nonpoint source component of the District's Watershed Implementation Plan (WIP) by providing technical services to review plans for BMP installation and use voluntary means to install BMPs on both public and private lands. The work under this grant will also set goals for the District to continue its education and outreach activities in its WIP as well as support Bay coordination efforts.
725,000.00	725,000.00	0.00	0.00	Meredith Upchurch	Associate Director	This agreement funds DOEE to implement a Chesapeake Bay Regulatory and Accountability (CBRAP) grant program. The funding under this program will support the District's Chesapeake Bay coordination to enhance DOEE's stormwater and erosion/sediment control inspection activities and help implement new stormwater regulations. This funding will also support the development of an illicit discharge detection program and support a new pollution prevention program targeting government facilities.
180,000.00	180,000.00	0.00	0.00	Meredith Upchurch	Associate Director

506,322.00	506,322.00	0.00	0.00	Kelly Crawford	Associate Director	This agreement will provide assistance to the District of Columbia, Department of Energy and the Environment, in its efforts to reduce diesel emissions and exposure throughout the District of Columbia. The replacement and retrofitting of one genset engine and up to 82 other vehicles will reduce the emissions of diesel particulate matter and other pollutants such as nitrogen oxides.
48,339.84	48,339.84	0.40	0.40	Amber Sturdivant	Associate Director	This agreement is to an eligible state agency to implement a program of voluntary testing for lead in drinking water at local schools and child care centers. Specifically, the recipient will provide funds to sample for lead in schools and child care facilities, and make available the results to the public.
169,500.00	169,500.00	0.00	0.00	Kelly Crawford	Associate Director	This agreement provides funding to the District of Columbia Department of Energy and Environment to enhance its technical capabilities and capacity to use and support the Exchange Network (EN). EN is an internet and standards-based, secure information network, that facilitates the electronic collection, exchange, and integration of the full range of data that informs the business of environmental protection. The EN and this project will ultimately streamline and modernize environmental management processes and data collection and reporting. This in turn will improve the efficiency, effectiveness, and ease of exchanging environmental information within organizations, with the regulated community, the public or between co-regulators which is key to successful environmental program management. Specifically, the project's work seeks to support the procurement of a new environmental database, successfully implement and begin management of the environmental database, and migrate digital historical data.

952,473.27	952,473.27	0.00	0.00	Collin Burrell	Deputy Director	DC WIIN 2105 Grant. The agreement assists the District of Columbia Department of Energy and Environment to develop and implement improvement investments through projects that will reduce lead exposure in drinking water by removing potential sources of lead in hundreds of schools and childcare facilities. The beneficiaries of these projects are the children of the District of Columbia. Subrecipients include the District of Columbia Public Charter School Board and the Department of General Services. The subrecipients will aid the Department of Energy and Environment with the replacement of 780 faucets in 730 schools and childcare facilities.
12,500.00	12,500.00	0.00	0.00	Bryan King	Associate Director	Participate in Regional Conservation Program to assess habitat in regard to District of Columbia species of greatest conservation need.
5,000.00	5,000.00	0.00	0.00	Bryan King	Associate Director	Project Abstract The DC Department of Energy & Environment (DOEE) is proposing to restore submerged aquatic vegetation (SAV) beds at an existing restoration site in Oxon Cove, a sub-estuary of the Potomac River, and two new sites in the Anacostia River, in Washington, DC. Building off of recent success with SAV restoration in both waterbodies, DOEE will install several SAV restoration plot "exclosures" planted with seedlings and seeds of Vallisneria americana (wild celery), a native SAV species. The objective is to create healthy beds of SAV within these exclosures which will in turn lead to dispersal of SAV in areas adjacent to the plots. Exclosures are fabricated, installed and maintained by DOEE staff. These exclosures are designed to reduce predation by waterfowl and fish, and maximize growth of native SAV species. DOEE Biologists will use a boat to annually monitor the SAV growth within the exclosures and within the restoration perimeter by ground-truthing SAV cover density at the peak of the growing season. DOEE biologists will also monitor fish species diversity to determine if there are community changes related to SAV presence and absence.
545,324.81	545,324.81	0.20	0.20	Jonathan Champion	Associate Director	To provide the District of Columbia with on-site construction management and oversight services to fully support the District's endeavor to accomplish construction and/or improvement of drinking water facilities as authorized under the Safe Drinking Water Act. Personnel costs for Water Quality Division staff that administer the grant, and nonpersonnel costs associated with US Army Corps of Engineers support services.
100,000.00	100,000.00	0.00	0.00	Cecilia Lane	Environmental Protection Specialist	PROJECT TITLE Applying Soil Amendment Techniques and Subsoiling on Compacted Urban Land (DC). PROJECT DESCRIPTION Implement and monitor the efficacy of a variety of subsoiling and soil amendment techniques on open lands in the District of Columbia. Project will aim to reduce compaction, restore hydraulic functionality, and improve soil health for the purposes of reducing stormwater runoff and pollutants generated from compacted and public lands in the District of Columbia.
472,092.28	472,092.28	1.77	1.77	Dave Epley	Associate Director for Data & Benchmarking Division	District of Columbia's State Energy Plan Award
114,920.58	114,920.58	0.60	0.60	Keith Keemer	Environmental Protection Specialist	The goal of this program is to provide radon risk reduction through activities that will result in increased radon testing, mitigation and radon resistant new construction. The recipient will implement a state/tribal program of radon related projects in homes, schools, or other buildings, including 1) Public Information, outreach, education; 2) Programs to control radon in existing and new structures; and 3) Demonstration of radon mitigation methods and technologies.

492,218.76	492,218.76	2.35	2.35	Amber Sturdivant	Associate Director	This agreement provides funding for the operation of the DC Department of Energy and Environment's continuing environmental programs while giving it greater flexibility to address its highest environmental priorities, improve environmental performance, achieve administrative savings and strengthen the partnership between the DC Department of Energy and Environment and EPA. This agreement funds statewide programs to: Protect and maintain the administration and enforcement of the lead-based paint accreditation program, training individuals, and establishing workplace standards in residential housing built before 1978. The work includes outputs and outcomes associated with managing continuing environmental programs which include the training of individuals engaged in lead-based paint abatements, accreditation of training providers, and certification of contractors will result in a reduction of exposure to lead resulting in improved public health. This agreement will enable the recipient to carry out authorized program to ensure that individuals engaged in lead-based paint activities are properly trained, that training programs are accredited, and that contractors engaged in such activities are certified to develop and/or carry out lead pre-renovation education programs. Direct beneficiaries of this program include the public, and especially children, as lead poisoning in children causes numerous health problems.
278,155.75	278,155.75	1.30	1.30	Brian Barone	Chief, Land Remediation and Development Branch	This project provides funding for the District of Columbia Department of Energy and Environment's response program that includes timely survey and inventory of brownfield sites, which are properties whose expansion, redevelopment or reuse may be complicated by the presence of hazardous substances. It also includes oversight and enforcement authorities to ensure that response actions protect human health and the environment; resources to provide meaningful public involvement; mechanisms for approval of cleanup plans, and verification of complete responses. The objective of this project is to assist in remediating and redeveloping brownfields sites throughout the District.
244,111.58	244,111.58	1.20	1.20	Fianna Phil	Chief	This agreement provides assistance to the State of the District of Columbia's underground storage tank (UST) program in leak detection, prevention and related enforcement. The objectives of this program include: 1) encouraging owners and operators to properly operate and maintain their Underground Storage Tanks; 2) ensuring owners and operators monitor Underground Storage Tanks in accordance with the regulations; and 3) developing the State program to operate in lieu of the Federal program. These objectives protect the environment by preventing petroleum and hazardous substance release.
2,419,677.99	2,419,677.99	1.60	1.60	Kelly Crawford	Associate Director	This grant will be used to replace diesel switcher locomotives at Union Station with cleaner alternatives, replace district owned diesel buses and trash trucks with cleaner alternatives, and fund the purchase of idling reduction technologies for private vehicles.
1,372,027.31	1,372,027.31	9.00	9.00	Nicoline Shulterbrandt		This agreement provides funding to the District of Columbia to carry out its program to maintain, protect, and improve the water quality of its rivers, lakes, streams, groundwater, and other waterbodies. The environmental benefits of this program include preventing degradation of unimpaired waterbodies and reducing the number of impaired waterbodies in the state. Activities include inspections, enforcement, water development of TMDLs, monitoring, wetland permitting review and water quality standards. Personnel costs for Water Quality Division and Inspection and Enforcement Division staff that conduct activities listed in the "purpose of grant" column. A small portion of grant funds are used for supplies and equipment maintenance to support grant activities.
100,000.00	100,000.00	0.00	0.00	Nicoline Shulterbrandt		This agreement is to fund the DC DOEE's Water Quality Management Planning program to improve impaired water and protect unimpaired waters across the state. This statewide program is designed to increase public awareness and understanding regarding the protection and improvement of water quality. The recipient will provide 40% of this award to regional or interstate watershed management planning agencies for the development and implementation of water quality management plans.

CONSTRUCTION MANAGEMENT (FY 15)	Federal	Federal	66.418	10/01/14 - 03/31/21	08/30/21	15EVCA	15	1,465,351.00	65,751.65	Jonathan Champion	Associate Director	To provide the District of Columbia with on-site construction management and oversight services to fully support the District's endeavor to accomplish construction and/or improvement of its waste facilities as authorized in the Appropriations Act of 1997.
FORT DUPONT WATERSHED RESTORATION GRANT	Private	Private	66.468	10/1/2015 - 09/30/21	12/30/21	16EVFD	16	532,217.00	385,935.80	Steve Saari	Associate Director, Watershed Protection Division	The Fort Dupont Watershed Restoration Project will be a sub-watershed wide project to catch and filter stormwater on private property and public space and to restore degraded streams and wetland areas.
PERFORMANCE PARTNERSHIP (PESTICIDE)	Federal	Federal	66.605	10/01/17 - 09/30/21	12/30/21	18EVPP	18	777,230.00	6,304.75	Megan Wilkerson	Chief, Pesticides Branch	This Pesticides Performance Partnership Grant (PPG) agreement provides funding for the operation of the DCDOEE Pesticides Program. This agreement funds District-wide programs to carry out enforcement of pesticides regulations as well as programs relative to certification and training for pesticide applicators and other related programs including worker protection, water quality and endangered species.
CDC CHILDHOOD LEAD POISONING	Federal	Federal	93.197	09/30/18 - 09/29/21	12/30/21	19EVCD	19	1,123,446.00	267.29	Lisa Gilmore	Branch Chief, Healthy Housing	Funding for this project will be used to reduce lead exposures and lead poisoning by providing robust surveillance to rapidly identify children when they are harmed by lead. By strengthening surveillance efforts and putting in data-sharing agreements, conducting analysis, mapping, and by building a statistical model to predict which specific addresses are most likely to be a source of lead hazards, the District will move away from using lead exposure to identify environmental risks. Through active surveillance, education, and outreach, in partnership with government, institutional, and community partners, this project will build broad community capacity and implement evidence-based interventions to reduce health disparities and health and social impact of lead poisoning in the District of Columbia.
AQUATIC RESOURCE EDUCATION PROGRAM	Federal	Federal	15.605	10/01/19 - 09/30/21	12/30/21	20EVAE	20	583,095.17	22,635.26	Jeff Seltzer	Deputy Director	Educate Students and other District residents about the biology, ecology, and conservation of the District's aquatic resources and encourage the safe and ethical use of fishery resources

FEMA- CTP/CAP	Federal	Federal	97.045	10/01/17 - 09/28/20	12/30/20	CTPFEM	20	120,000.00	15,981.94	Josh Schnitzlein	Environmental Protection Specialist	The objective of the Community Outreach and Mitigation Strategies (COMS) activity documented in this Statement of Work (SOW) is to recognize and enhance activities undertaken by Cooperating Technical Partners (CTPs) that create an environment where communities: 1. Understand their flood risk and the importance of addressing that risk; 2. Are more willing to engage with the Mapping Partner and the Federal Emergency Management Agency (FEMA) to analyze their risks; 3. Are better primed to take action to reduce their risk, based on that analysis. Tasks completed under this COMS SOW will be completed by the following CTPs:
