Explanation of Budget Changes:

1. ARPA Funding: ARPA Funding is for various projects to support Energy Programs and Green Infrastructure. These funds are budgeted in Federal Payments and Local (ARPA Local Revenue Replacement)

2. Budget Amount change reflects new grant awards in FY22 including grants from HUD, Safe Drinking Water, and awards from EPA

4. Reflects planned spending for VW Funds, unspent funds in FY22 will carryover to FY2023

5. Revised FY22 budget reflects annual write down of budget to match available sources

Intra-Districts							
Agency Name: Department of Energy and Environment (KG0)							
							Account Code Where This is Funded in Agen
A	Amount Spent	Sending Agency (Buyer)		Service	Funding Source	Activity	CSG
	\$ 30,662	Office of the State Superintendent of Education (GD0)		The purpose of this MOU is for OSSE to provide Healthy Schools Act funds to DOEE, to administer a grant to address food packaging waste and disposable food service ware and support reductions in food waste for District schools. The Parties intend to call the subgrant program "Ditch the Disposables."	0700	2080	1070
	\$ 295,114	Department of Motor Vehicle (KV0)		Performance tracking and quality assurance audits on the District's Enhanced Motor Vehicle Inspection and Maintenance ("I/M") Program inspection station operated by DMV.	0740	3080	1070
	\$ 19,757	Department of Employment Services (CF0)		DOEE and DOES partner to implement Solar Works DC, the District's Low Income, year-round Solar Photovoltaic (PV) System Installation and Job Training Program, which launched in May 2017. Funding from DOES via an annual MOU is intended to fund administration costs (salary and fringe for the program administrator), and remedial support and wraparound services to program trainees (financial literacy, job readiness, etc.) to remove existing barriers for long-term success.	0700	8020/1090	1070
	\$ 195,449	Department of Employment Services (CF0)		Part of Summer Youth Program. Develop and implement the DDOE Green Zone Employment Program (GZEP) for the District's Youth enrolled in the SYEP program.	0700	8020	1070
	\$ 650,000	Department of Transportation (KA0)		A MOU agreement between DOEE and DDOT to plant trees at a top rate of up to 2,700 trees per fiscal year on private properties and public spaces throughout the District of Columbia. The District seeks to reduce stormwater runoff, minimize the extent of impervious surfaces, mitigate heat island effects, and restore wildlife habitat. The parties shall share these goals and the planting of aforementioned trees help facilitate this intuitive.	0700	2080	1070
Total	\$ 1,190,982

Project Number	Project Name	Owner Agency Code	Approved Budget	LTD Expenditures	Encumbrances	Pre-Encumbrances	Available Balances	Scope of Work	Current Project Phase	Project Status	Project Concerns	Project Updates	Original Planned Substantial Completion Date	Updated Substantial Completion Date
BAG04C	WATERWAY RESTORATION	KG0	\$ 4,872,000	\$ 3,841,105	\$ 601,534		\$ 429,361	As prioritized in the Sec. 6 (b) of the Anacostia River Clean Up and Protection Act of 2009, DOEE will utilize dedicated funds for capital Stormwater Retrofit projects. Specifically, these funds will be utilized for the Stormwater Retrofit projects on DC Public Schools and Department of Parks and Recreation properties through DOEE's RiverSmart Schools program and Triangle Park Stormwater Retrofit project. These funds will be used on District lands throughout the District.	Other	On Time	None	This program continues each year, where DOEE's WPD administers the program.	N/A - this program continues every year	N/A
CHB01C	CHESAPEAKE BAY IMPLEMENTATION - CAPITAL	KG0	\$ 3,811,722	\$ 3,515,839	\$ 260,724		\$ 35,159	Each fiscal year, the District receives Chesapeake Bay federal grant funding from the Environmental Protection Agency (EPA), authorized under Section 117(b) of the federal Clean Water Act, to reduce pollution to the Chesapeake Bay. A portion of these funds is used for capital purposes to construct on-the-ground pollution control practices to control pollution runoff such as green infrastructure, wetland creation, and stream restoration. Based on historic annual grant awards, DOEE requests \$350,000 of additional capital budget authority for capital Project Number ENV01C in FY 2019. In collaboration with sister agencies, these capital funds will be used to execute projects that improve the District waterways and the Chesapeake Bay. Specific capital projects must be proposed during a formal request/evaluation period and approved by the EPA.	Other	On Time	None	This program continues each year, where DOEE's WPD administers the program.	N/A - this program continues every year	N/A
CWC01C	CLEAN WATER CONSTRUCTION MANAGEMENT	KG0	\$ 45,544,321	\$ 27,462,762	\$ 1,797,343		\$ 16,284,216	This project provides funding from the U.S. Environmental Protection Agency to the District for the construction of wastewater treatment facilities and associated infrastructure, green projects, nonpoint source projects and program administration.	Other	On Time	None	This program continues each year, where DOEE's WPD administers the CWC program.	N/A - this program continues every year	N/A
ENV01C	NONPOINT SOURCE EPA - CAPITAL	KG0	\$ 3,305,178	\$ 2,484,180			\$ 820,998	Each fiscal year, the District receives Non-Point Source federal grant funding from the Environmental Protection Agency (EPA), authorized under Section 319(b) of the federal Clean Water Act, to reduce nonpoint source pollution to District waterways. A portion of these funds is used for capital purposes to construct on-the-ground practices to control pollution runoff such as green infrastructure, wetland creation, and stream restoration. Based on historic annual grant awards, DOEE requests \$300,000 of additional capital budget authority for capital Project Number ENV01C in FY 2019. In collaboration with sister agencies, these capital funds will be used to execute projects that improve the District's rivers and tributaries. Specific capital projects must be proposed during a formal request/evaluation period and approved by the EPA.	Other	On Time	None	This program continues each year, where DOEE's WPD administers the program.	N/A - this program continues every year	N/A
HMRHMC	HAZARDOUS MATERIAL REMEDIATION - DOEE	KG0	\$ 115,811,967	\$ 54,585,894	\$ 8,010,173		\$ 53,215,900	The Anacostia estuary has several major clean-up sites located along its banks. Funding is needed to characterize the sediments in the entire estuary area of the Anacostia and develop a cleanup remedy. The sediments are an on-going source of contaminants and need to be addressed before the Anacostia River can be returned to a "fishable and swimmable" river. Testing needs to be conducted on the Anacostia River sediment and water toxins (when present) to determine proper clean-up methods and potentially isolate the source of contamination from the clean-up sites. Park sites along the Anacostia River also needs to be sampled and remediated to prevent recontamination of the Anacostia River, specifically Poplar Point and Kenilworth Park.	Other	On Time	No Project concerns at this time.	The Interim Record of Decision for the Anacostia River Sediment Project has been issued. DOEE continues work on completing the remedial investigation at Poplar Point. Approximately 75% of the fieldwork has been conducted at the site. DOEE is prepared to implement the National Park Service Proposed Plan for Kenilworth Park North once the plan is finalized. The Plan is currently out for public comment which is a significant milestone for this project. DOEE is conducting run-off sampling at the Benning Road Trash Transfer Station for potential contamination of the Anacostia River.	The Record of Decision for the Anacostia River Sediment Project was completed on time (9/30/2020). Other project are on track with their proposed timelines.	Projects are on multiple timelines depending on their scope. At this time all projects are on track with their current timelines.
IFM20C	DC INTEGRATED FLOOD MODELING	KG0	\$ 5,777,000	\$ 178,907	\$ 621,092		\$ 4,977,001	This project for developing the first-ever integrated urban flood model for the District to identify gaps that can be targeted by the District's Resilience Strategy and better realize the goals of Climate Ready DC. The expected impact of the enhancement would enable the District government to more effectively plan for and respond to flooding events, both those currently projected and those expected under climate change. This will enable more effective resource allocation by District government, improve the quality and efficiency of city services provided to District residents, provide a higher level of service to developers and property and business owners to mitigate increasing flood risks, and build community resilience.	Procurement	On Time	No concerns	Proposals received 11/24/20	2025	2025
KINGIC	KINGMAN ISLAND EDUCATION CENTER	KG0	\$ 4,700,000	\$ 381,930	\$ 1,818,070		\$ 2,500,000	The project lays out educational and recreational improvements at Kingman & Heritage Islands that include several outdoor classrooms, bathrooms, and accessible routes and pathways. The project will enhance this unique natural resource for greater use by District residents and facilitate the already successful school and volunteer programs carried out on the islands. The first phase of the project will include construction of pathways, three outdoor classrooms, and a Kingman Island Ranger Station. The second phase will include construction of more pathways, a canopy walk and viewing tower, a resting area, and two outdoor classrooms.	Design	On Time	None	Under contract on 11/17/2020. Kickoff meeting held. Underway with designs and permitting.	11/17/2025	11/17/2025
SAWRNC	STREAM AND WETLAND RESTORATION	KG0	\$ 2,500,000	\$ 458,019	\$ 900,000		\$ 1,141,981	DOEE requests \$2 million in GO bonds for Stream and Wetland Restoration Project focused on the Oxon Run stream restoration as well as interior and fringe wetland creation in the Anacostia River. This enhancement will fund the Designs and Environmental Assessment for both projects. These funds could be put in existing capital budget project entitled "Waterway Restoration." Environmental Assessments cost in a range from \$150,000 to \$250,000 and given the length of Oxon Run stream and area covered by the wetland work each should cost roughly \$250,000. Additionally, stream design project recently contracted by DOEE cost between \$200-400,000 but given the length of Oxon Run and the complexity of the design process (which could include moving sewerlines) the design for Oxon Run will cost an estimated \$750,000. Similarly the design work for wetland creation along the Anacostia River should cost \$750,000. Design work will include stream and permitting which is both time consuming and costly as DOEE will have to obtain all local permits as well as work with the National Park Service, US Army Corps of Engineers, and Federal Emergency Management Agency obtain all federal project permits. Should project costs exceed \$2 million DOEE can use this local money as a match so that federal funds from one of our EPA grants could be used for this project as well.	Other	On Time	None	This program continues each year, where DOEE's RRD administers the program.	N/A - this program continues every year	N/A

Attachment Q23

SWM05C	STORMWATER RETROFIT IMPLEMENTATION	KG0	\$ 31,901,763	\$ 22,155,783	\$ 1,079,042	\$ 84,039	\$ 8,582,900	This project will allow DOEE and sister agencies (DDOT,DGS, DWP, DC Water, DMPED and UDC) to fulfill responsibilities for the implementation of the District's National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) Permit issued by the Environmental Protection Agency (EPA). The District's responsibilities for compliance with the MS4 Permit include the procurement of engineering design and construction of green infrastructure such as green roofs, porous pavements, stormwater re-use systems, bioretention, impervious surface reduction, tree planting, and salaries of personnel involved in the development of these initiatives.	Other	On Time	None	This program continues each year, where DOEE's WQD administers the CWC program.	N/A - this program continues every year	N/A
	100925-KG0.AIRARC.AIR QUALITY TESTING EQUIPMENT		\$ 250,000	\$ 48,900	\$ 35,659		\$ 165,441	Purchase and installation of air quality monitoring equipment	Other		None			Late Summer 2023
	100931-KG0.HRU13C.HICKEY RUN RESTORATION		\$ 500,000.00	\$ 431,821.66	\$ 68,178.34		\$ -	Stream restoration	Design & Construction		None			
	100937-KG0.WETMIC.WETLAND & STREAM MITIGATION		\$ 1,170,000.00	\$ 80,011.19	\$ 91,483.81		\$ 998,505	This project is required to mitigate adverse impacts of development activity on streams and wetlands that are mandated by Federal and/or District regulations. The wetland mitigation projects include restoration, creation, or enhancement of wetlands for the purpose of compensating for unavoidable impacts to wetlands at another location.	Design & Construction		None

4	ADVANCED DIGITAL SYSTEMS INC	PO651839-V2	3/9/2022	1	The Department of Energy and Environment (DOEE) of the District of Columbia, hereby seeks to work with a vendor for our internal Pesticides Branch within the Toxic Substance Division for technology and services to design a simplified web-based online and offline wireless platform to facilitate paperless inspections forms. The system shall be capable of making inspection forms for DOEE Pesticide Branch enforcement activities such as Pesticide (USE) Inspections, Pesticide (Stop Sale, Use or Removal Orders, and Vacate Stop Sale, Structural Pest, WPS, Restricted Use Reporting, INV) investigations, Pest Control Operation (PCO) inspections, Worker Protection Standards (WPS) inspections, Fumigations, Chemigation, complaint reporting and immediate routing to branch staff with complainant feed-back, status tracking and enforcement data. The Department of Energy and Environment requires an offline, data replication service that provides the capabilities needed to import mission critical data sets from the current existing databases, csv files to pre-populate new inspections and work orders that are integral to user tasks. The proposed solution will also provide investment leverage by integrating to other mission critical data systems such as GIS for geo-spatial intelligence. 71	BIGBELLY SOLAR	PO666228	6/22/2022	1	The Department of Energy and Environment's Watershed Protection Division would like to use 2021 American Rescue Plan Act (ARPA) funding awarded to DOEE for the purchase of four (4) Bigbelly Solar Powered trash compactor kiosks for installation on Kingman/Heritage Islands. The purchase of these devices will greatly enhance waste management infrastructure on the island helping to reduce littering and trash in Kingman Lake and the Anacostia River. Bigbelly trash compactors are solar powered trash compacting kiosks that compact trash and recycling and through the use of their CLEAN software automatically communicate with staff responsible for maintenance when the compactors should be emptied. This allows for more efficient waste management practices. The compactors are also totally enclosed to prevent trash and recycling from overflowing and turning into litter. Trash collection via the Bigbelly Trash Compactors will be facilitated by Watershed Protection Division through a sub-grant awarded to Living Classrooms of the National Capital Region (which is a non-profit organization that currently manages many of environmental, educational and the general management/maintenance programs an initiative at Kingman Island. The District of Columbia's Office of Contracting and Procurement, on behalf of the Department of Energy & Environment is seeking a contractor to complete the designs and provide construction oversight for the project. The goal of the project is to restore the stream that flows through the project area, thereby restoring hydrology, preventing erosion, reducing stormwater pollution and creating and enhancing wildlife habitat for the park and the surrounding watershed. All work will take place in Fort Dupont Park and Anacostia Park in SE DC. (CHB17)	255,842.83	121,832.49	Period of Performance through September 30, 2022	Y	Steven Saari	N	Capital - Federal	CHB17
83	BIOHABITATS, INC.	PO646716-V4	6/28/2022	1	The DC Government's Office of Contracting and Procurement (OCP) on behalf of the Department of Energy and Environment (DOEE) via it's partnership with the National Park Service (NPS), is seeking a Design Build contractor to advance the design, construction, and restoration of 1,300ft of stream and stormwater outfall repair work at two tributaries of the Anacostia River along Park Drive in southeast D.C. The goal of this project is to stabilize and restore the eroded gullies so that the restored channel can slow and filter the stormwater that flows through them during rain events thus restoring natural hydrology, preventing erosion, reducing stormwater pollution and enhancing and creating wildlife habitat. This project will also repair, restore and replace the existing stormwater outfalls to ensure long-term stability of those structures. 125	Cloud and Gehshan Associates,	PO671378	9/14/2022	1	This grant has been awarded to the design consulting firm, Cloud Gehshan for the Green Stormwater Infrastructure (GSI) Signage Program. Through this grant, Cloud Gehshan and its partners will implement a comprehensive planning and design process for identification and interpretative signage, and produce designs and specifications, for the Districts green stormwater infrastructure (GSI). The grantee will conduct community and stakeholder engagement, test prototypes, and develop a users manual of signage for future fabrication and installation. This project helps the Department of Energy and Environment stand up a new GSI maintenance program and is essential for public education, awareness, identification, and maintenance, to build support for, and ensure the stewardship of, these public assets. Grant#: 2022-2206-WPD. Grant period through July 26, 2022, (10GIN)	98,000.00	9,321.00	Grant period through July 26, 2022	N	James (Jim) Woodworth	N	Local	10GIN

390	PACIFICO FORD INC	PO652998-V3	4/4/2022	1	The Department of Energy and Environment (DOEE) on behalf of the Environmental Crimes Unit (ECU) from the 6th District Metropolitan Police Department (MPD) is requesting the procurement of a new agency vehicle: A 2021 Ford F-150 Pick Up Truck. In 2016, DOEE began working with the Metropolitan Police Department's Environmental Crimes Unit (ECU) and the Department of Public Works (DPW) to implement an illegal dumping enforcement program known as "DumpBusters". DumpBusters is facilitated out of MPD's 6th District, which includes all of Ward 7 and the northern part of Ward 8. Adding an additional vehicle to DumpBusters fleet will increase their capacity to respond to residents complaints and enforce illegal dumping laws which would realign local resources to implement social programs, while at the same time engaging enforcement agencies like MPD and DPW in their implementation. Our goal is to ensure that the Environmental Crime Units and the DumpBusters program has all the resources that it needs to continue to make Washington D.C. one of the cleanest, safest and environmentally healthy and vibrant cities in the DC Metropolitan Area and the United States as a whole. 413	THE IMPACT GROUP LLC	PO654089	11/9/2021	1	Contract CW51970 - Option Year Four (OY4). The Office of Contracting and Procurement, on behalf of DOE, is seeking a contractor to obtain, deliver, and unload rain barrels. DOE is interested in two different size rain barrels: 1) round/round-like rain barrels and 2) slim/narrow rain barrels. The rain barrels will be installed at single family homes in the District of Columbia via the RiverSmart Homes program. The base period for this contract is one (1) year, with up to four (4) additional option years. DOE may need more than 900 rain barrels. As a result, DOE many seek to expand the scope of this procurement in the future. 451	Ward 8 Woods Conservancy	PO662105	4/1/2022	1	The Department of Energy & Environment has awarded one of its Restoring the District's Natural Areas grants (Park Maintenance Grants) to the Wards 8 Woods Conservancy organization. Through this grant, Ward 8 Woods will employ Ward 8 residents facing barriers to employment to remove over 100,000 pounds of trash, debris and non-native invasive species from over 500 trees in historically neglected Ward 8 Parks. The grantee's work will contribute to DOEE's commitment to reducing the effects of trash pollution on the District of Columbia's waterways and communities. Grant#: 2022-2201-WPD-W8W-01. Grant period through September 30, 2022 (1000L)	50,000.00	37,721.13	Grant period through September 30, 2022	Y	Steven Saari	N	Local	1000L

3	ACCLAIM SYSTEMS INC	PO656906-V2	1/18/2022	1	The Department of Energy and Environment (DOEE) of the District of Columbia, hereby seeks to work with a vendor for our internal Pesticides Branch within the Toxic Substance Division for technology and services to revise, deploy, maintain, and operate a highly customizable Pesticides Product Registration, Pesticides Certification, Pesticides Licensing, Usage, Payment, Inspection and Enforcement. The system shall be capable of making Pesticides product, license, certification, usage, inspection and enforcement data available to internal staff, registrants, and all stakeholders within the District who enter, consume and share in a technologically compatible and regulatory compliant format. Period of Performance Date of Award through September 30, 2022	74,569.00	74,569.00	Period of Performance Date of Award through September 30, 2022	N (sole source)	Dr. Megan Wilkerson	N	O-Type	S0663
4	ADVANCED DIGITAL SYSTEMS INC	PO651839-V2	3/9/2022	1	The Department of Energy and Environment (DOEE) of the District of Columbia, hereby seeks to work with a vendor for our internal Pesticides Branch within the Toxic Substance Division for technology and services to design a simplified web-based online and offline wireless platform to facilitate paperless inspections forms. The system shall be capable of making inspection forms for DOEE Pesticide Branch enforcement activities such as Pesticide (USE) Inspections, Pesticide (Stop Sale, Use or Removal Orders, and Vacate Stop Sale, Structural Pest, WPS, Restricted Use Reporting, INV) investigations, Pest Control Operation (PCO) inspections, Worker Protection Standards (WPS) inspections, Fumigations, Chemigation, complaint reporting and immediate routing to branch staff with complainant feed-back, status tracking and enforcement data. The Department of Energy and Environment requires an offline, data replication service that provides the capabilities needed to import mission critical data sets from the current existing databases, csv files to pre-populate new inspections and work orders that are integral to user tasks. The proposed solution will also provide investment leverage by integrating to other mission critical data systems such as GIS for geo-spatial intelligence. 39	ALLIANCE FOR CHESAPEAKE BAY	PO656683	12/14/2021	1	DOEE's WQD is submitting a requisition for a grant with the Alliance of the Chesapeake Bay. This grant award is for 'Alliance of the Chesapeake Bay' to continue, build upon, and manage a volunteer-based bacteria monitoring program. The grant period will be from the date of the Directors signature on the Grant Award Notice through 09/30/2023. All invoices related to this PO must be submitted by September 30, 2022.	140,524.53	108,008.36	Grant Period through September 30, 2023	Y	Jonathan Champion	Y	O-Type	S6DOE
40	ALLIANCE FOR CHESAPEAKE BAY	PO656797	12/15/2021	1	This grant has been awarded to the Alliance for the Chesapeake Bay for the facilitation of a new green infrastructure maintenance program. The funding for this program is from the American Recovery and Protection Fund Coronavirus State Funds. Through this grant, the Alliance and its partners will provide routine and restorative maintenance for 375 green stormwater infrastructure (GSI) practices at DC Government owned properties in the District of Columbia. This program will also provide education, training and support for District residents and returning citizens and provide them with sustainable and meaningful employment in the green stormwater field. Grant# 2021-2124-WPD. Grant period through November 30, 2022. (1SSA2)	1,100,000.00	438,196.81	Grant Period through November 30, 2022	Y	Jim Woodworth	Y	Local	10GIN
41	ALLIANCE FOR CHESAPEAKE BAY	PO659370	2/2/2022	1	This grant is for the Riversmart Homes Rain Barrel Installation and Rebate Program. This grant, executed by the Alliance for the Chesapeake Bay, will coordinate the installation of rain barrels on private residential properties through the RiverSmart Homes program and administer rain barrel rebates for property owners who purchase and self-install rain barrels. Grant#: 2021-2126-WPD-1. Grant period through January 31, 2024. (54CBW)	195,000.00	134,227.18	Grant Period through January 31, 2024	Y	Savannah Acosta	Y	O-Type	54CBW
42	ALLIANCE FOR CHESAPEAKE BAY	PO660137	2/18/2022	1	This grant has been awarded to the Alliance for the Chesapeake Bay and is for the RiverSmart Homes Landscaping Installation and Rebate program. Through this grant, ACB and its subcontractors will install 800 green stormwater infrastructure landscaping practices on private properties in the District of Columbia, to include approximately 280 rain gardens, 520 BayScape gardens and 250 yard signs. This project helps the Department of Energy and Environment mitigate the harmful effects of nonpoint source pollution by reducing the amount of stormwater entering our waterways. Grant #: 2021-2126-WPD-ACB-2. Grant period through January 31, 2024. (SWGGEN)	700,000.00	699,869.97	Grant Period through January 31, 2024	Y	Arielle Conti	Y	O-Type	SWGGEN
43	ANACOSTIA RIVERKEEPER INC	PO652976-V2	4/14/2022	1	The Department of Energy & Environment is pleased to offer the Anacostia RiverKeeper a grant award for \$127,376. This award facilitates management, monitoring, and maintenance of six (6) trash traps in the Anacostia River watershed. Grant # RFA#2019-1921-PD-Grant#01. Grant goes through July 31, 2023. 71	BIGBELLY SOLAR	PO666228	6/22/2022	1	The Department of Energy and Environment's Watershed Protection Division would like to use 2021 American Rescue Plan Act (ARPA) funding awarded to DOEE for the purchase of four (4) Bigbelly Solar Powered trash compactor kiosks for installation on Kingman/Heritage Islands. The purchase of these devices will greatly enhance waste management infrastructure on the island helping to reduce littering and trash in Kingman Lake and the Anacostia River. Bigbelly trash compactors are solar powered trash compacting kiosks that compact trash and recycling and through the use of their CLEAN software automatically communicate with staff responsible for maintenance when the compactors should be emptied. This allows for more efficient waste management practices. The compactors are also totally enclosed to prevent trash and recycling from overflowing and turning into litter. Trash collection via the Bigbelly Trash Compactors will be facilitated by Watershed Protection Division through a sub-grant awarded to Living Classrooms of the National Capital Region (which is a non-profit organization that currently manages many of environmental, educational and the general management/maintenance programs an initiative at Kingman Island. 125	Cloud and Gehshan Associates,	PO671378	9/14/2022	1	This grant has been awarded to the design consulting firm, Cloud Gehshan for the Green Stormwater Infrastructure (GSI) Signage Program. Through this grant, Cloud Gehshan and its partners will implement a comprehensive planning and design process for identification and interpretative signage, and produce designs and specifications, for the Districts green stormwater infrastructure (GSI). The grantee will conduct community and stakeholder engagement, test prototypes, and develop a users manual of signage for future fabrication and installation. This project helps the Department of Energy and Environment stand up a new GSI maintenance program and is essential for public education, awareness, identification, and maintenance, to build support for, and ensure the stewardship of, these public assets. 204	EHT TRACERIES INC.	PO627318-V2	9/14/2022	1	The Office of Contracting and Procurement (OCP) on behalf of the Department of Energy & Environment (DOEE) is seeking a Contractor to perform a Phase IA and Phase IB Archeological Investigation at Pinehurst Branch in Rock Creek Park in the District of Columbia. The Investigation is necessary to fulfill Section 106 of the 1966 National Historic Preservation Act, as amended (54 U.S.C. 306108) and the 1979 Archeological Resources Protection Act, as amended. The Investigation is required prior to a stream restoration project that will occur in Pinehurst Branch Park and Rock Creek Park on land owned by the National Park Service. An Environmental Assessment (EA) is currently being performed under a separate contract and this Phase I work and associated tasks will support that EA for the proposed implementation of stream restoration and wetland restoration work on Pinehurst Branch. 328	LIVING CLASSROOMS OF THE	PO652979-V2	3/15/2022	1	The Department of Energy & Environment has awarded one of its Nature Near Schools Meaningful Watershed Educational Experiences grants to the Living Classrooms of the National Capital Region (LC-NCR) organization. Through this grant, Living Classrooms of the National Capital Region will provide programming to 200 5th grade students from 150 5th grade students from three Title I DC Public Schools. The program will be structured around eight (8) sessions (approximately once per month) that engage students in exploring the basic question How does our school impact the local ecosystem and what can we as 5th graders do about it? As one of the eight (8) sessions, all students will have the opportunity to take an educational boat trip on the Anacostia River to visit Kingman and Heritage Islands Conservation Area, where they will be able to see how actions in their schoolyards and neighborhoods are directly connected to the river and overall watershed. 390	PACIFICO FORD INC	PO652998-V3	4/4/2022	1	The Department of Energy and Environment (DOEE) on behalf of the Environmental Crimes Unit (ECU) from the 6th District Metropolitan Police Department (MPD) is requesting the procurement of a new agency vehicle: A 2021 Ford F-150 Pick Up Truck. In 2016, DOEE began working with the Metropolitan Police Department's Environmental Crimes Unit (ECU) and the Department of Public Works (DPW) to implement an illegal dumping enforcement program known as "DumpBusters". DumpBusters is facilitated out of MPD's 6th District, which includes all of Ward 7 and the northern part of Ward 8. Adding an additional vehicle to DumpBusters fleet will increase their capacity to respond to residents complaints and enforce illegal dumping laws which would realign local resources to implement social programs, while at the same time engaging enforcement agencies like MPD and DPW in their implementation. Our goal is to ensure that the Environmental Crime Units and the DumpBusters program has all the resources that it needs to continue to make Washington D.C. one of the cleanest, safest and environmentally healthy and vibrant cities in the DC Metropolitan Area and the United States as a whole. 408	TCG PROPERTY CARE INC	PO662357	7/8/2022	1	The Department of Energy & Environment has awarded one of its Restoring the District's Natural Area Grants to the TCG Property Cares company. Through this grant, TCG will use a gig worker 'pay-for-pickup' model to remove trash, debris and non-native invasive species from Ward 7's historically neglected parks, wooded areas, green spaces and other natural areas. Throughout the process, TCG will also focus on educating and training workers on invasive species removal and engage community members and residents with art-based environmental education events. The grantee's work will contribute to DOE's commitment to reducing the effects of trash pollution on the District's waterways and communities. Grant#: 2022-2201-WPD-TCG-02. FY22 EXPLANATION OF BUDGET VARIANCES AND SURPLUS (KGO)

Fund	Budget	Actuals	Variance
100-Local	53,911,564.38	53,003,883.78	907,680.60
150-Federal Payments	29,463,848.85	29,463,848.85	0.00
200-Federal Grants	58,275,550.22	39,343,588.45	18,931,961.77
400-Privat Grants	3,374,345.47	157,564.44	3,216,781.03
600-Special Purpose Revenues	87,546,199.50	73,538,841.79	14,007,357.71
700-Intra District	1,192,981.79	1,190,981.79	2,000.00
Grand Total	233,764,490.21	196,698,709.10	37,065,781.11

- ❖ **Local Funds (0100):** Local surplus of \$907K reflects underspending in local funds in \$104,559 and underspending in CRIAC in the amount \$803,121. The savings are due to funds that were unspent by DC Water and returned to the Agency. The savings from CRIAC will carry forward to FY23.

- ❖ **Federal Grant Funds (0200):** Budget surplus of \$18.9M. In prior years, grants were written down to match actual expenditures as part of the year end closing process. For the FY22 closing process, the write down process was performed by OBP; however, the write down process for FY22 was not completed for grants. The change in the closing process for FY22 resulted in a larger than normal remaining federal grant budget balance. Nevertheless, most of the remaining grant budgets will carry over into FY 23 and beyond. The true remaining grant budget balance is approximately \$1M.

- ❖ **Private Grant Funds (400):** Budget surplus due to change in yearend closing process as stated above. Most of the remaining grant budgets will carry over into FY 23 and beyond.

- ❖ **Special Purpose Revenue (SPR) Fund (0600):** \$14M The majority of the surplus occurs in two SPR funds
 - **662- Renewable Energy Development Fund:** The Renewable Energy Development Fund (REDF) balance accrued for the following reasons: initial FY 2023 revenue estimate were revised down from roughly \$7 million to \$5.7 million, necessitating some belt tightening in FY 2022; several planned projects initially set to begin in FY 2022 were delayed or cancelled, including \$1 million in match funding for DDOT's electric bus charging depot, CEDC 2.0 Plan grant funding, grant funding for our energy assurance plan, and our MOU with DGS to install solar at the Takoma Aquatic Center. Finally, the departure of several key senior staff generated approximately \$500,000 in vacancy

savings. The Program is in the process of requesting budget authority for the use of the funds in FY23 to execute projects that were delayed or deferred in FY22.

- **670- Anacostia River Clean Up Fund:** Surplus of \$1.6 million is due to spending adjustments made to use grant funds in FY22. In prior years, a few of DOEE's multi-year federal grants, the program overmatched the grants with SPR funds and underspent federal grant money. In FY22, spending was adjusted our spending to correct that imbalance by spending down federal grant funding, which led to a one-time under-expenditure of these funds. The program has requested to move some of these savings to pay-go capital to help cover the high-costs of stream and wetland projects that will need funding in FY24.
- **6700-Sustainable Energy Trust Fund:** Most of the unspent balance (approx. \$4.3M) was due to underspending by the DCSEU in FY22 and DOEE vacancy savings because of slower than anticipated hiring of qualified personnel. In addition, the DCSEU experienced some significant challenges with the launch and full implementation of the Affordable Housing Retrofit Accelerator (AHRA) program that were directly attributable to the delays in completing robust ASHRAE Level II Energy Audits--and coordinating with buildings owners to select audit-recommended measures that must be installed to help improve the overall energy performance of their buildings. Most of the unspent FY22 funds allotted to the DCSEU Purchase Order (PO) were due underspending in the AHRA program. However, the DCSEU Contract is a multiyear Contract and there's no explicit requirement for the DCSEU to spend all the funds included in their PO in any given year. Pursuant to the DCSEU Contract, unspent funds allocated in one fiscal year may be added to the next fiscal year's PO, and DOEE is in the process of obtaining additional FY23 budget authority to add unspent FY22 funds to the DCSEU Contract to complete AHRA projects.
- **6800-Energy Assistance Trust Fund:** Actual expenditures differed from planned expenditures by approximately \$1 million due to strategic decision mid-year to reduce spending in certain areas to avoid incurring expenditures that would not be supported by actual revenue collected. Revenues in the fourth quarter increased but there wasn't sufficient time to begin procurement and execute work in the last months of the fiscal year. The FY23 budget will be increased to execute projects that were deferred in FY22.

Attachment Q32

Title	Purpose	Status	Notes
Anacostia River Mussels Restoration Project	DOEE is currently working with the Anacostia Watershed Society to perform a multi-year study of restoring mussels to the Anacostia River and its tributaries. The Anacostia River and its tributaries formerly had a healthy population of native freshwater mussels that helped to filter water while also providing food for animals living on the river. Due to urbanization and poor water quality conditions the mussel populations plummeted. Recent efforts to restore the river and tributaries have created conditions where mussels can survive once again. This project aims to increase native freshwater mussel populations, expand education activities about the ecosystem services of mussels, improve water quality conditions, and develop native freshwater mussel restoration plan for the District. To date the project has reintroduced over 20,000 native freshwater mussels to the Anacostia River and educated over 200 District students on mussels and the project.	Completed in FY 2022. Draft report issued by grantee.	
Anacostia River Tributaries HF-183 study	Study to monitor Anacostia tributaries for human fecal source identification by testing for the HF-183 human genetic marker.	New. Quality Assurance Plan approved. Field work and analyses to be initiated.	
Bacteria forecasting model	Joint funding agreement with US Geological Service, to create a bacteria forecasting model, using water quality and ancillary data, for the Anacostia River.	Initiated in FY21 and ongoing. FY23 activities will collect water quality data from a new monitoring station at the Aquatic Resources Education Center (AREC), test a new in-situ monitoring device for bacteria, and continue developing a model to forecast bacteria levels.	
Behavior Change Research to Reduce Littering	DOEE's Trash Free Communities grant funds the Alice Ferguson Foundation (AFF) to implement a citywide anti-littering campaign. As part of the grant, AFF conducts behavioral observations semiannually in communities where the campaign has been deployed to assess impact and change in littering behavior. The grant has been active since FY16.	Complete. Final grant report issued.	
Bottle Ban Impact Report	In FY22, Council amended the Anacostia River Clean Up and Protection Fund to require DOEE produce a report to study the economic, social, and environmental impacts of a plastic bottle ban.	DOEE executed an MOU with UDC's CAUSES to fund a PhD candidate to research this area and produce the report. The project is currently underway and expect for it to be complete by end of FY23.	
CBP Supplemental Monitoring	Study to collect trace-metal and bacteria data at three non-tidal monitoring network sites in the District of Columbia. The data supplements the Chesapeake Bay Program's monitoring parameters. DOEE will use the data to calculate MS4 total maximum daily loads and use support determinations. Monthly and storm samples were collected and data generated as planned.	Ongoing	
Clean Rivers Impervious Area Charge (CRIAC) Relief Programs Annual Report	Provides a summary of the CRIAC Relief Programs participation, including details of participants and relief expenditures for each program and a summary of the non-lapsing fund balance.	FY 21 Report provided to Council in June 2022. FY22 report in development.	

DC Citizen Science Volunteer Water Quality Monitoring	The program recruits and equitably trains volunteers from all wards in the District to monitor bacteria in rivers and tributaries in the District. This project produces timely and accessible E. coli data to stakeholders who may choose to recreate in District waters.	Ongoing. Report of 2022 activities published.
Enterococcus PCR testing for rapid assessment of swimming risk in Potomac and Anacostia Rivers- a pilot study	Pilot study to determine if rapid test methods for fecal bacteria indicators are appropriate to gauge the risk of illness due to swimming in DC waters	New. Quality Assurance Plan approved. Field work and analyses to be initiated.
Fish Tissue Contamination Study	A study to determine the concentrations of contaminants in fish caught in District waters for consumption. The collection of fish samples was initiated. Subset of samples were sent to laboratory for analysis.	Ongoing. Data results not yet received. Study period extended due to delays related to COVID-19 in 2020. Completion expected spring 2023.
Fisheries Surveys	In accordance with US Fish and Wildlife Service Wildlife and Sport Fish Restoration program and National Oceanic and Atmospheric Administration guidelines DOEE comprehensively monitored the District's fisheries resources including but not exclusively, resident, migratory, and invasive species.	All field studies and monitoring have been completed for fiscal year 2022. Final reports for NOAA grant have been completed. USFWS annual report will be completed and submitted by 3/30/2023.
Fort Dupont Environmental Assessment	DOEE is performing an Environmental Assessment (EA) for the stream restoration of Fort Dupont, a tributary of the Anacostia. The goal of the EA will be to allow for DOEE and NPS to move forward with the restoration project upon completion of designs and upon approval of all local and federal permits.	Ongoing
Honey Bee Survey	In accordance with a USDA pollinator grant, DOEE is conducted a survey of registered beehives in an effort to identify and eliminate diseases and pests common to the apicultural community. Highly regarded as indicators of landscape level environmental fitness, DOEE participated in this nationwide effort to ensure comprehensive pollinator health.	The Honey bee and wasp surveys were completed for fiscal year 2022.
Hydrogeologic conditions and groundwater quality in the Anacostia River watershed	Joint funding agreement to monitor groundwater water quality in the Anacostia River watershed.	Ongoing
Infiltration Rate Study	Test the post-construction accuracy of DOEE's infiltration rate and drawdown time equation. The results will determine the confidence range of design parameters and calculations used to predict performance	Ongoing
Inorganic background study	Contract to quantify background concentrations of metals and inorganic parameters in surface water, groundwater, and soil.	Ongoing
Kennilworth Park Wetland Environmental Assessment	DOEE is performing an Environmental Assessment (EA) for wetland restoration in Kennilworth Park. The Kennilworth wetlands are located at the mouth of Watts Branch, a tributary of the Anacostia River. Given the scale of the project, the EA will take several years to complete. The goal of the EA will be to allow for DOEE and NPS to move forward with a wetland restoration project upon completion of designs and upon approval of all local and federal permits.	Ongoing

Kingman Lake Wetlands Environmental Assessment	DOEE is performing an Environmental Assessment (EA) for wetland restoration in Kingman Lake. The Kingman wetlands are located in Kingman Lake, part of the mainstem Anacostia River. Given the scale of the project, the EA will take several years to complete. The goal of the EA will be to allow for DOEE and NPS to move forward with a wetland restoration project upon completion of designs and upon approval of all local and federal permits.	Ongoing
Microbial source tracking study in Rock Creek	Contract to identify sources of microbial pollution (human and non-human) in Rock Creek.	Completed
Microbial source tracking study in the Anacostia River	Contract to identify sources of microbial pollution in the headwaters of the Anacostia River, with specific focus on the municipal separate stormwater sewer system.	Completed
Microplastics and Fish	District of Columbia Department of Energy and Environment (DOEE) and the Metropolitan Washington Council of Governments (MWCOCG) started research in 2021 to study the presence of microplastics in various fish species across multiple trophic levels in the Potomac and Anacostia Rivers, Washington, DC. This comprehensive study will examine presence of microplastics in various forage and predatory fish species, many of which are recreationally and commercially valuable in the region (e.g. snakehead, largemouth bass). The study will take place across multiple seasons and sampling points in both rivers. Lab analysis will look at presence and abundance of microplastics, as well microplastic type (e.g. fragments, fibers). A final report will be produced with all data collected.	Draft report issued.
Migratory Bird Surveys	In accordance with US Fish and Wildlife Service Wildlife and Sport Fish Restoration program guidelines DOEE comprehensively monitored the District's bird populations, including but not exclusively, resident species, migrants, water birds, and raptors.	All migratory bird surveys were completed for fiscal year 2022.
MS4 Stormwater Monitoring	Contract to collect wet weather discharge data for various parameters required by the District's MS4 Permit at nine sites in the MS4. The District's MS4 Permit was finalized in June 2018 and sampling is ongoing. Contract was fully prepared to collect samples as required by permit. Option Year 4 of the contract was exercised.	Ongoing
Nash Run and Watts Branch Strategic Investigation	During FY19 and through FY20 the DOEE Illicit Discharge and NPDES Branch is conducting a strategic investigation of the Nash Run and Watts Branch sewersheds in Southeast, DC. DOEE is assisted by Tetra Tech through the Anacostia River Sediment Project contract. DOEE and Tetra Tech are attempting to identify and eliminate illegal sanitary sewage connections and industrial pollutant sources. These sources of pollutants to the Anacostia River Tributaries continue to threaten water quality and the natural environment of these watersheds. DOEE intends to eliminate and/or reduce these pollutant sources through enforcement actions by DOEE and the Office of the Attorney General.	Ongoing

Oxon Run Environmental Assessment	DOEE is performing an Environmental Assessment (EA) for the stream restoration of Oxon Run. Oxon Run is a stream that flows into the Potomac River. Given the scale of the project, the EA will take several years to complete. The goal of the EA will be to allow for DOEE and NPS to move forward with the restoration project upon completion of designs and upon approval of all local and federal permits.	Ongoing
PAH Testing in Pavement Sealants	With funding from the Chesapeake Bay Program's GIT Toxic Contaminants Work Group, DOEE is working to develop a standard testing protocol for determining concentrations of Polycyclic Aromatic Hydrocarbons (PAHs) in pavement sealant products. PAHs are a class of toxic contaminants that include several known or suspected carcinogens. The protocol will be used to publish a list of low-PAH (under 0.1% by weight) sealant products, assisting the District and other jurisdictions with enforcing a ban on high-PAH products. The protocol and list would be the first of its kind and has already gained national attention, particularly from states and cities interested in introducing PAH limitations into law.	Ongoing
Pinehurst Branch Environmental Assessment	DOEE is performing an Environmental Assessment (EA) for the stream restoration of Pinehurst Branch, a tributary of Rock Creek. The goal of the EA will be to allow for DOEE and NPS to move forward with the restoration project upon completion of designs and upon approval of all local and federal permits.	Ongoing
Post-Restoration Stream Monitoring	MWCOG conducts water quality monitoring and stream assessments for DOEE at several streams sites to assess conditions both before and after stream restoration. MWCOG monitors for a variety of parameters, including water quality (flow, temperature, dissolved oxygen, and pH), macroinvertebrates, fish, geomorphology, and vegetation.	Ongoing
Socioeconomic, institutional, technical, and environmental study	Contracted study that considers the socioeconomic, institutional, technical, and environmental impacts of adopting updated water quality standards. Included as an appendix in the TRSD described below	On-going. Received final draft of the socioeconomic, institutional, technical, and environmental analysis of impacts of adopting updated water quality standards. Included as an appendix in the TRSD described below. Further edits required due to ongoing triennial review updates
Stickfoot Branch Environmental Assessment	DOEE completed an Environmental Assessment (EA) for stream restoration work at Stickfoot Branch, a tributary of the Anacostia River. The EA was fully executed by the National Park Service with issuance of a Finding of No Significant Impact (FONSI) for the project. The FONSI allows for DOEE and NPS to move forward with the restoration project upon completion of designs and upon approval of all local and federal permits.	Completed in fiscal year 2021.
Stormwater In-Lieu Fee (ILF) Annual Report	Provides summary of payment into the Stormwater Management In-Lieu Fee Fund from projects that choose to meet stormwater regulatory compliance through payment.	FY20/FY21 Report Submitted to Council in April 2022 FY22 Report being prepared. Will be provided in mid-2023.

Stormwater Retention Credit (SRC) Annual Report	Provides summary of generation and use of stormwater retention credits to meet stormwater management regulatory requirements with off-site retention. Report includes retention credit volumes bought and sold, sale prices, geographic distribution, and sales through the SRC Price-Lock program.	FY20/FY21 Report Complete; will be posted to DOEE website in February 2023. Report format being updated to be live on a website with more current updates. The website will be live later in FY23.
Streamstats study	Joint funding agreement to create high resolution surface water statistical datasets for DC	In planning phase
Tetra Tech	To perform investigatory testing to identify the type and quantity of air pollutant emissions from National Engineering Products, Inc., a small chemical manufacturing facility located at 1950 Capitol Avenue NE, in the Ivy City neighborhood of Ward 5. Testing was performed in July and August 2022.	Analysis of the results of the testing are currently under joint review by Tetra Tech and DOEE.
Triennial Review Support Document (TRSD)	Contracted document that describes the supporting rationale and proposed changes to the District's water quality standards	On-going. Received final draft of the document that describes the supporting rationale and proposed changes to the District's water quality standards. Further edits required due to ongoing triennial review updates.
Use of Subsoiling to manage stormwater runoff	In FY22, DOEE will be issuing a grant to study the effectiveness of "subsoiling" (a form of low-disturbance tilling and aeration of the soil) at reducing stormwater runoff and associated pollutants of concern (primarily sediment and phosphorus) to improve water quality of local waterways and the Chesapeake Bay. If this approach is found to be effective DOEE will work to inform landowners on the benefits of this practice in the management of open lands in and around the District.	Ongoing
Wetland Program Plan	DOEE was awarded a US EPA Regional Wetland Program Development Grant in October 2020. The grant included developing a strategic 3- to 5-year Wetland Program Plan (WPP) to have a framework and direction for the next five years to strengthen and improve the District's Wetland Program. It includes a list of actions on potential for regulation updates, establishing a wetland monitoring and assessment program, and increasing the amount of wetlands that can be enhanced or restored. The grant also included developing a Wetland Monitoring Plan to create a methodical strategy to visit and assess District wetlands over a standard time period.	The Final Wetland Program Plan was submitted and approved by EPA December 2021 (FY22). The Wetland Monitoring Plan was completed and approved by EPA in FY22.
Wildlife Surveys	In accordance with US Fish and Wildlife Service Wildlife and Sport Fish Restoration program guidelines, DOEE comprehensively monitored the District's wildlife resources, most notably, mammals, amphibians, reptiles, and invertebrates.	All Wildlife surveys (mammal, amphibian, reptile, and invertebrates) were completed for fiscal year 2022.

Paint Stewardship	1	1	0	0
Pesticides	11	8	0	0
Rail Safety	0	N/A	N/A	N/A
Underground Storage Tanks	1	1	0	0

¹ This is the number of complaints received within DOEE program jurisdiction. It does not include complaints outside the DOEE program purview,

² DOEE resolves complaints with an explanation to the person who complained, referral of a complaint to another agency, compliance assistance to the entity responsible, or an enforcement action. In some cases, complaints are closed because no further action is possible (e.g., the complainant is anonymous and there is insufficient information to investigate the complaint). Complaints not resolved or closed remain open pending further investigation or enforcement action.

³ The number of Notices of Violation and Notices of Infraction in this table does not correspond directly to the numbers in Table 2, which includes all notices issued during the fiscal year, regardless of when the infraction occurred. Also, some notices were issued after the end of the fiscal year in which the complaints were received and would therefore not be included in Table 2.

⁴ The Air program performed increased community outreach in FY23 and increased awareness of complaint submissions through 311, especially for the Air program's engine idling community enforcement programs.

⁵ N/A means not applicable, and N/T means not tracked.

⁶ Due to COVID-19 concerns, the Shut the Front Door enforcement program was suspended in FY22.

⁷ DOEE received more food service ware tips in FY22 likely due to the large-scale outreach campaign conducted in the Spring of 2022 informing people about the new laws and how to submit tips to DOEE.

⁸ In FY22, the Mold program did not have regulations for enforcement.

⁹ For FY21, DOEE reported the total number of mold-related complaints and questions. In FY22, DOEE received a total of 572 mold-related complaints and questions. Of these, 87 were unique complaints within DOEE's jurisdiction.

Underground Storage Tanks (Leaking) ¹⁰	0	N/A	N/A	N/A
Water Pollution, Illegal Discharges	99	94	2	3
Wildlife Control	0	N/A	N/A	N/A
Wildlife Rehabilitation	0	N/A	N/A	N/A
TOTAL	1,061	1,042	3	60

TABLE 2. FY22 INSPECTIONS AND ENFORCMENT

	Initial physical inspections ¹¹	Initial physical inspections in which a violation found	Initial records inspections ¹²	Initial records inspections in which a violation found	Notices of Violation issued ¹³	Notices of Infraction issued ¹⁴	Other enforcement actions taken ¹⁵
Air - Major Sources	26	7	86	6	0	2	9
Air - Minor Sources	2	0	N/A	N/A	0	1	9
Air - Engine Idling	76	19	N/A	N/A	0	39	0
Air - Other (odor, dust)	174	42	N/A	N/A	0	11	6
Apiculture	28	1	228	0 ¹⁶	1	0	1 ¹⁷
Asbestos ¹⁸	150	12	247	0	0	2	0
Bag Law	461 ¹⁹	143	N/A	N/A	101	34	N/A
Coal Tar Ban	60 ²⁰	0	N/A	N/A	0	0	N/A
Electronic Waste	25	6	118	20	3	0	0

¹⁰ DOEE separates reporting for the Underground Storage Tank program, which ensures proper installation, operation, and removal of tanks, and the Leaking Underground Storage Tank program, which addresses cleanup of leaking tanks and surrounding areas.

¹¹ This is the total number of unique, first-time on-site physical inspections undertaken during the fiscal year. It includes both inspections made in response to complaints and proactive scheduled inspections.

¹² This is the number of unique, first-time reviews of a record that a regulated entity is required to submit to DOEE, such as an annual report or registration, if failure to submit a timely and complete record could give rise to an enforcement action. It does not include a DOEE review of records undertaken as part of a physical inspection or enforcement action.

¹³ This is the total number of Notices of Violation issued this fiscal year. The inspection may have occurred in a prior fiscal year.

¹⁴ This is the total number of Notices of Infraction issued this fiscal year. The inspection may have occurred in a prior fiscal year.

¹⁵ Other enforcement actions include administrative orders and directives; cease and desist orders; actions to suspend, modify, or revoke a permit; a cost recovery demand letter; filing a complaint or settlement of a judicial action; or referral of a case for criminal prosecution.

¹⁶ In previous years, the apiculture program reported violations from records inspections based on the number of applicants who did not apply for permits in the following year. The prior number is inaccurate because failure to apply for a hive permit is not necessary if there is no hive. A records inspection allows DOEE to determine if there was a violation in the record submitted, but not whether a hive owner applied as required.

¹⁷ DOEE referred one case to NPS Park Police for unregistered hives on NPS land.

¹⁸ One asbestos inspector position was vacant for most of FY22. It has been filled in FY23.

¹⁹ The bag law program fully resumed inspections in FY22, and the increase in physical inspections is a return to pre-covid numbers.

²⁰ This number is similar to the 53 coal tar inspections undertaken in FY21 which was inaccurately reported as 0 in the FY21 response.

	Initial physical inspections ¹¹	Initial physical inspections in which a violation found	Initial records inspections ¹²	Initial records inspections in which a violation found	Notices of Violation issued ¹³	Notices of Infraction issued ¹⁴	Other enforcement actions taken ¹⁵

Underground Storage Tanks (Leaking) ³³	4 ³⁴	0	276	2	0	0	27
Water Pollution, Illegal Discharges	390 ³⁵	72	N/A	N/A	30	3	2

²¹ Beginning in FY22, the benchmarking size threshold dropped to cover buildings >25,000 sq ft (previously 50,000 sq ft), which resulted in over 1,100 additional buildings required to submit benchmarking data.

²² In conjunction with the additional 1,100 buildings reporting (over half of which did not submit data by April 1), there was a major issue stemming from inaccurate Pepco data which resulted in over 300 buildings with incomplete data on initial inspections. Additionally, those smaller buildings reporting for the first time had multiple data issues because it was their first time reporting to DOEE. Finally, the new Building Energy Performance Standards (BEPS) program has tightened data quality requirements, and there are new data quality flags that identify buildings that may have previously not been flagged as non-compliant. This has resulted in more identified violations.

²³ The Energy Benchmarking program issued NOIs for FY22 violations in the beginning of FY23.

²⁴ Due to ongoing COVID-19 concerns, the Shut the Front Door program did not conduct enforcement in FY22.

²⁵ Most erosion and sediment control inspections are conducted as re-inspections of a permitted site. In FY22 the program conducted 3,248 reinspections.

²⁶ The self-inspection and self-reporting (SI/SR) program for stormwater maintenance facilities continued to grow through FY22, resulting in many more records inspections of SI/SR submittals.

²⁷ Physical inspection numbers increased to pre-pandemic levels in FY22.

²⁸ The Hazardous Waste program issued Notices of Violation in FY21 to facilities that had not submitted annual fees or self-certifications. These were not sent out in FY22.

²⁹ The Lead Paint program no longer issues Notices of Violation and goes straight to administrative orders.

³⁰ In addition to the inspections reported here, the program conducted 53 virtual inspections in FY22.

³¹ There were three in-person retailer inspections. Other inspections were conducted as records inspections through website review of products for sale.

³² This number reflects the number of product registrations that the Pesticides program receives.

³³ In addition to the inspections reported here, the program conducted 6 virtual inspections in FY22.

³⁴ In FY22, the LUST program had a shortage of LUST case managers resulting in fewer inspections.

³⁵ The increased inspection numbers compared to FY21 are due to an increase in well and soil boring inspections as the program continues to be developed and fully implemented. In addition, the program began conducting inspections at sites that have been

	Initial physical inspections ¹¹	Initial physical inspections in which a violation found	Initial records inspections ¹²	Initial records inspections in which a violation found	Notices of Violation issued ¹³	Notices of Infraction issued ¹⁴	Other enforcement actions taken ¹⁵
