VPB Connect Dials

0040/0414/AA0- charged to Mayor's Office on African Affairs (MOAA)

- purchase of retractable banner and stands for agency recognition to be used at Community engagement events.

- FLAGGED- This transaction was flagged in conjunction with INV72102 for the appearance of "split purchasing," which is prohibited. The purchasing agent executed multiple payments with this vendor for unrelated projects under the AA0 budget code which needed to be delivered and paid for prior to the end of FY21. The singular financial officer for this small business vendor forwards multiple invoices to the purchasing agency due to the high volume of programs under the Community Affairs Office who all utilize the AA0 budget code; MOAA being one of them. This decreases processing fees incurred by the vendor when micro purchases are made and ensured that outstanding solicitations and authorizations are secured at different times in accord with multiple projects that are solicited on a daily basis and "as needed," and with minimal lead time for the purchasing agent.

Additionally, print jobs by this vendor are often done simultaneously in order to save on production costs and decrease the price to the end user as the printer can fulfill multiple jobs while decreasing the amount of labor and reduce the number of invoices and send multiple invoices because they are not logistically able to keep pace with the amount of print jobs they are tasked with by the EOM who continues to work with small businesses in adherence to DLSDBE purchasing requirements.

0040/0411/AA0- charged to Mayor's Office on African Affairs (MOAA)

- purchase of outreach items.

- FLAGGED- This transaction was flagged in conjunction with INV72103 for the appearance of "split purchasing," which is prohibited. The purchasing agent executed multiple payments with this vendor for unrelated projects under the AA0 budget code which needed to be delivered and paid for prior to the end of FY21. The singular financial officer for this small business vendor forwards multiple invoices to the purchasing agency due to the high volume of programs under the Community Affairs Office who all utilize the AA0 budget code; MOAA being one of them. This decreases processing fees incurred by the vendor when micro purchases are made and ensured that outstanding solicitations and authorizations are secured at different times in accord with multiple projects that are solicited on a daily basis and "as needed," and with minimal lead time for the purchasing agent.

Additionally, print jobs by this vendor are often done simultaneously in order to save on production costs and decrease the price to the end user as the printer can fulfill multiple jobs while decreasing the amount of labor and reduce the number of invoices and send multiple invoices because they are not logistically able to keep pace with the amount of print jobs they are tasked with by the EOM who continues to work with small businesses in adherence to DLSDBE purchasing requirements.
