On Wednesday, October 11, 2023, at 11:00 AM, At-Large Councilmember Anita Bonds will hold a public roundtable. The purpose of this roundtable is to discuss Tipped Wage Reporting and Unemployment Insurance in the District of Columbia.

The objectives in discussing Tipped Wage Reporting are to evaluate the scheduled launch of the Tipped Wage Reporting System, as required by the Tipped Workers Fairness Amendment Act of 2018¹ (Act) and discover why the implementation of the Act has been delayed. Furthermore, to assess the prevalence of underpaid tipped workers, and the process for the imposition of fines on non-complying businesses.

The Tipped Workers Fairness Amendment Act of 2018, passed by the Council, requires the quarterly reporting of wages paid and tips received by tipped employees to the Department of Employment Services (DOES). The Act also mandates that employers of tipped workers utilize third-party payroll businesses to prepare payroll for the employer. Additionally, the third-party

payroll providers are also required to file quarterly wage reports. To expedite the filing of these required wage reports, DOES is to create an internet-based portal.

Moreover, the roundtable will consider the implementation of the Unemployment Insurance Program in the District of Columbia. Under the District government, DOES is authorized to administer the District's Unemployment Insurance Program, which falls under the jurisdiction of the Office of Unemployment Compensation (OUC). The Unemployment Insurance Program aids individuals who have lost their employment through no fault of their own by providing temporary financial assistance to qualified individuals who have met the District's eligibility requirements. The objective of discussing the administration of Unemployment Insurance is to review the performance and effectiveness of the program, identify areas of improvement, and learn more about the agency's program updates and remedial measures. Additionally, the roundtable will seek a deeper understanding of the status of fraudulent unemployment insurance claims, and the multitude of programmatic codes under the administration of the program.
