

AN ACT

---

IN THE COUNCIL OF THE DISTRICT OF COLUMBIA

---

To declare the existence of an emergency with respect to the District of Columbia Public Records Management Act of 1985 to clarify that communications created or received electronically in the course of official business are subject to existing record-retention obligations.

RESOLVED, BY THE COUNCIL OF THE DISTRICT OF COLUMBIA, That this resolution may be cited as the “Transparent Government Communications Emergency Declaration Resolution of 2023”.

Sec. 2. (a) This measure closes a gap in the law. The District does not currently have a consistent, government-wide policy regarding electronic communications.

(b) On March 7, 2023, the Council unanimously passed B25-0166 - Fidelity in Access to Government Communications Clarification Temporary Amendment Act of 2023, effective June 14, 2023 (D.C. Law 25-0020; 70 DCR 8843) (“temporary act”). The temporary act will expire on January 25, 2024.

(c) The temporary act was passed after a concerning report regarding the Executive’s use of WhatsApp Messenger was published online. Among many features available within the application is the ability to auto-delete messages after a set period of time.

(d) Emergency legislation is therefore necessary to ensure that existing record retention guidelines continue to apply to a wide variety of electronic communications and to ensure public access to information is not diminished or compromised.

Sec. 3. The Council of the District of Columbia determines that the circumstances enumerated in section 2 constitute emergency circumstances making it necessary that the Transparent Government Communications Emergency Amendment Act of 2023 be adopted after a single reading.

Sec. 4. This resolution shall take effect immediately.
