RESPONSE:

OFFICE THE EXECUTIVE DIRECTOR:

BRIEF DESCRIPTION OF DUTIES: The Executive Director serves as the DC Board of Elections' primary management official in directing program operations and support activities. The Office of the Executive Director provides high level leadership and guidance and direction to subordinate divisions in the areas of voter registration and services, administration, IT, outreach, and training. Duties of the Executive Director include:

- Developing and directing the organizational machinery and procedures necessary to ensure the effective and efficient administration and execution of the election statutes of the District of Columbia;
- Reviewing all agency programs, plans and operations for adequacy and conformance with the policies of the Board;
- Assisting the Board and the General Counsel in the review of legislative proposals and development of agency regulations affecting agency operations in the delivery of election services; and
- Serving as the primary point of contact for the agency.

OFFICE OF THE GENERAL COUNSEL:

BRIEF DESCRIPTION OF DUTIES: The Office of the General Counsel represents the DC Board of Elections in all judicial and administrative proceedings relating to elections, voter registration, and campaign finance; proposes and drafts regulations consistent with legislation; researches, reviews, analyzes, and interprets pertinent court decisions, District and federal laws, rules, regulations, and other legal resources; ensures agency compliance with all relevant District and federal laws, including reporting requirements; discusses with public officials, candidates, attorneys, members of the public, and other interested parties legal questions involving the application of election laws, and gives guidance where appropriate; responds to Freedom of Information Act requests; and reviews all agency publications to ensure legal accuracy.

WAREHOUSE OPERATIONS AND LOGISTICAL DIVISION:

BRIEF DESCRIPTION OF DUTIES: The Warehouse Operations & Logistical Division is responsible for the maintenance of equipment and voting systems; the programming, coding, and testing of voting systems; conducting inventory of election materials for all polling sites; procuring polling place supplies and election equipment for property disposal efforts; ballot distribution and security; managing the agency's facilities and telecommunication needs; identifying and conducting site surveys to ensure adequacy, accessibility, and availability of polling sites; for coordinating Intra-District agency support; packing and assembling election materials for distribution to polling places; processing mail sent to and from BOE; providing voter outreach event logistics; and operating and collecting ballots from drop boxes.

RESTORE THE VOTE DIVISION:

BRIEF DESCRIPTION OF DUTIES: The Restore the Vote Division provides voter registration and outreach services to incarcerated District residents at Federal Bureau of Prison facilities and the Department of Corrections. This division will support the Restore the Vote initiative, which gives the right to vote back to approximately 4,500 DC residents who are currently incarcerated for a felony conviction. The Division ensures compliance with the Restore the Vote Legislation.

VOTER EDUCATION AND OUTREACH DIVISION:

BRIEF DESCRIPTION OF DUTIES: The Voter Education and Outreach Division (VEOD) serves as the centralized resource for public information about the DC Board of Elections to the community through the news media, social media, agency website, and public events. The VEOD is responsible for conducting a variety of engagement opportunities for the public, to include education on voter's rights and responsibilities, voting equipment

demonstrations, voter registration drives, and the recruitment of poll workers and ward coordinators. The goal of this office is to provide the most accurate and timely information to the public and to ensure that all eligible voters in the District are provided with accurate information and access to the Board's services with respect to outreach activities.

COMMUNICATIONS DIVISION

BRIEF DESCRIPTION OF DUTIES: The Communications Division is responsible for overseeing multi-faceted, comprehensive, internal and external communications strategies to execute the DC Board of Elections' mission and goals through various means, including but not limited to: online and print channels, media relations, social media, the DC Board of Elections website, and public events. Additionally, this division is responsible for reputational management, branding, and facilitating interviews, briefings, or press conferences for members of the media, as well as coordinating and managing the creation and development of collateral materials that include writing, editing, logistical planning with graphic design and print vendors, productions, and disseminations. Works with the media in a proactive manner to identify news opportunities and ensure positive news stories about the DC Board of Elections.

ELECTION WORKER RECRUITMENT AND TRAINING DIVISION

BRIEF DESCRIPTION OF DUTIES: The Election Worker Recruitment and Training Division (Election Worker Division) recruits DC residents from all eight wards within the District of Columbia who will work during Early Voting and on Election Day. The Division identifies election workers on a continuing basis by recruiting workers at community events held throughout DC year round. The goal and mission is to adequately staff Vote Centers by recruiting, training, and deploying thousands of election workers for both Primary and General Elections.

Another responsibility of the Election Worker Division is to effectively operate the agency's call center that is staffed with a seasonal workforce that begins operating a minimum of three months in advance of an election. Call center operators are responsible for contacting and scheduling over 3,000 election workers for a mandatory four-hour training class. The division identifies and trains instructors to conduct ten to twelve weeks of training for over 200 classes held Monday-Saturday prior to every election. The Election Worker Division ensures each election worker receives detailed hands-on instruction and training tailored to one of the four different roles that must be performed in each Vote Center on Election Day. The division also prepares a polling place operations manual that is given to each election worker.

During non-election years, the Division makes adjustments to the election process based upon lessons learned, survey feedback, and evaluations of election workers. The Election Worker Division conducts continuing election worker training for Precinct Captains, Special Ballot Clerks and Check-in Clerks. As part of the

continuous improvement process, the Division implements new developments and best practices identified in the election community. They are also charged with maintaining ongoing communication with election workers to ensure their continued commitment to and interest with supporting the election process.

INFORMATION TECHNOLOGY DIVISION

BRIEF DESCRIPTION OF DUTIES: The Information Technology Division (IT Division) provides both strategic IT vision and cost-effective technology solutions for accomplishing BOE's mission of enfranchising eligible residents, conducting elections, and assuring the integrity of the electoral process.

The IT Division is responsible for continued development and maintenance of technology policies, network management, software upgrades, and website enhancements. It is the responsibility of this division to enhance the level of training necessary to maintain the highest level of competency. Further, the division works to ensure that IT staff is properly trained to achieve the optimal level of competency in managing the current and evolving business technology and election technological initiatives.

In addition, the IT division oversees mobile and online technology and provides accurate information to BOE stakeholders. The IT division continuously monitors and improves the D.C. Board of Elections' security posture by maintaining up-to-date security solutions for all information systems, and collaborating with OCTO's Security Division and federal partners to remain abreast of Advanced Persistent Threats and other critical infrastructure possible vulnerabilities.

DATA SERVICES DIVISION

BRIEF DESCRIPTION OF DUTIES: The Data Services Division qualifies voter registration applications received from multiple sources to determine if applicants are eligible to register and vote. As part of list maintenance of the voter registration roll, the D.C. Board of Elections conducts biennial voter maintenance and sends address confirmation cards to voters who do not vote in general elections. The division processes correspondence received and acts accordingly to update the voter roll. In addition to regular voter maintenance, this division processes voter ID cards, coordinates with the Electronic Registration Information Center (ERIC) mailings and provides notices to other jurisdictions. The division also processes vote by mail for military and overseas voters by processing absentee request and voting transactions, including data entry for ballot mailing/tracking. It determines voter registration status for processing ballot measure petitions, special/challenged ballots, and candidate challenges. Maintains and manages voter history, master street index, creates elections and assigns appropriate ballot styles, the poll workers and voter roll database and responds to data requests and produces multiple reports required by the agency.

MAIL BALLOT PROCESSING DIVISION

BRIEF DESCRIPTION OF DUTIES: The Mail Ballot Processing Division is designed to oversee and ensure the accurate and efficient processing of the election ballots. Through ensuring compliance with election laws and regulations and maintaining the integrity of the election process by managing every aspect of the mail ballot process, including list maintenance, signature verification, and the public viewing processes.

VOTER SERVICES DIVISION

BRIEF DESCRIPTION OF DUTIES: The Voter Services Division is responsible for management and maintenance of the District's voter registry, including all aspects of voter qualification and document management. Also, develops and maintains the National Voter Registration Act (NVRA) manuals to assist with training. Responsible for various election-related functions such as ballot requests, post random audits, and recounts. This division also hosts brown bag training for candidates, processes all initiative, referendum and recall petitions to determine sufficiency, and oversees challenges associated with any petition filing.

The Voter Services Division is the first point of contact for most residents entering in the election process either by registering as a first-time voter, seeking ballot access, or filing ballot measures for presentation before the voters. This unit is a key source for voter information.

c. Please provide a narrative explanation of any changes to the organizational chart made during the previous year.

RESPONSE: In FY 2023, BOE reviewed the current agency structure and organization operation. This review involved a high-level critical assessment of agency needs related to staffing the essential functions of the agency in order to meet the core mission of the agency with respect to voter demands and ensure election integrity.

BOE was granted an increase in its personnel ceiling from 60 to 64 FTEs to meet the need of the multilingual population and to implement a process to ensure the integrity of the vote-by-mail ballot process. In FY 2024, BOE received local funding to support 64 FTEs which included a multilingual Public Affairs Specialist (CS-11) to support the implementation of the Local Resident Voting Rights Amendment Act of 2022, and the Vote by Mail Ballot Processing Center (MS-13, CS-11, CS-9).

BOE was also able to hire a Director of Communications and revamped the Communications Division to take it to the next level. The Executive Director will

continue to review the agency's organizational structure to optimize performance and maximize resources.

2. Please provide a current Schedule A for the agency which identifies each position by program and activity, with the employee's title/position, salary, fringe benefits, residency status, and length of time with the agency. Please note the date that the information was collected. The Schedule A should also indicate if the position is continuing/term/temporary/contract or if it is vacant or frozen. Please separate salary and fringe and indicate whether the position must be filled to comply with federal or local law.

10. Please provide a copy of required Small Business Enterprise (SBE) Report for FY23.

RESPONSE: Below you will find a screen shot from the District Enterprise System's ("DES") agency compliance module that shows the FY23 BOE's SBE goal. The report appears to be incomplete. All the FY 23 special exceptions have not been processed. We have consistently met our goal and have been in compliance on expendable budgeting spending with certified SBEs for well over twenty years. In most instances, the SBE businesses awarded contracts provided commodities that the BOE could utilize while preparing for an election — primarily office and precinct supplies, printing services, and advertisements. However, there are unique, custom/specific election goods and services that cannot be set-aside for SBEs. BOE will use certified SBEs whenever possible.

- 11. Please provide the following information regarding capital projects:
 - a. A list of all capital projects in the financial plan.
 - b. For FY21, FY22, FY23, and Q1 of FY24 an update on all capital projects under the agency's purview, including a status report on each project, the timeframe for project completion, the amount budgeted, actual dollars spent, and any remaining balances, to date.
 - c. An update on all capital projects planned for FY24, FY25, FY26, FY27, and FY28.
 - d. A description of whether the capital projects begun, in progress, or concluded in FY21, FY22, FY23, or Q1 of FY24, had an impact on the operating budget of the agency. If so, please provide an accounting of such impact.

RESPONSE: OCP/IT restructured the voter registration and election management database contract in FY 22 after deployment was achieved and entered into a new support maintenance agreement. The new contract base period runs from October 1, 2022 through September 30, 2023 for the total price of \$352,300; Option Period One (1) total price - \$382,580; Option Period Two (2) total price - \$426,283; Option Period Three (3) total price - \$462,904; and Option Year Four (4) total price - \$515,250. To date, BOE has spent approximately \$2 million on the new voter registration system. The remaining balance is approximately \$942,000.00.

12. Please list all lawsuits pending and resolved, that name the agency as a party, during FY23 and Q1 of FY24. Identify the case name and number, claim and status.

RESPONSE:

Open Cases

Case/Party Names: Public Interest Legal Foundation, Inc. ("PILF"), v. Monica

Holman Evans

Docket No.: US Dist. Ct. for DC No. 21-CA-3180

Claim: The suit alleges that the Board is out of compliance with the National Voter Registration Act's public records provision. The Board denied PILF's request for certain records due to the requested records not being subject to public disclosure.

Current status: Stayed pending settlement negotiations

Case/Party Names: Stacia Hall, et al., v. D.C. Board of Elections

Docket No.: US Dist. Ct. for DC No. 23-CV-1261

Claim: This is a challenge to the Local Resident Voting Rights Act. It was initially filed in D.C. Superior Court (Case No. 23 CAB 1544) but was removed to federal court by the Office of Attorney General ("OAG") who represents the Board in the matter.

- 13. Please describe the agency's procedure for handling allegations of workplace harassment during FY23 and Q1 of FY24. Indicate the following:
 - a. Date of offense:
 - b. Whether the parties report to the same supervisor;
 - c. The findings of substantiation or non-substantiation;
 - d. What official action was taken; and
 - e. Identify the deciding official in each case.

RESPONSE: The BOE did not have any reports or allegations of workplace harassment. The BOE works to foster a healthy and collaborative work environment where all of our employees can thrive. In the event an allegation is made, the BOE adheres to DCHR Issuance I-2019-8 Maintaining A Healthy Workplace: Anti-Bullying Policy and Chapter 16 of the D.C. District Personnel Manual.

- 14. Please describe the agency's handling of sexual harassment claims received during FY23 and Q1 of FY24. Indicate the following:
 - a. Date of offense;
 - b. Whether the parties report to the same supervisor;
 - c. The findings of substantiation or non-substantiation;
 - d. What official action was taken;
 - e. Identify the investigating official or Sexual Harassment Officer (SHO) for each claim; and
 - f. The date the report was forwarded to the Mayor's Office of Legal Counsel.

RESPONSE: The BOE did not receive any reports of sexual harassment. The BOE is dedicated to providing a secure workplace free from harassment, abuse, and intimidation for all our employees. In the event a claim is filed, the BOE adheres to the Mayor's Order 2023-131 dated October 31, 2023, and Chapters 16 and 18 of the DC District Personnel Manual.

15. Please list and describe all investigations, audits, studies, or reports by other entities regarding the work of the agency or conduct of agency employees during FY23 and Q1 of FY24.

RESPONSE: None.

RESPONSE: Not Applicable.

17. Please provide a list of all studies, research papers, reports, and analyses that the agency prepared or contracted for during FY23 and Q1 of FY24. Please state the status and

purpose of each. Please submit a hard copy to the Committee if the study, research paper, report, or analysis is complete.

RESPONSE: Not Applicable.

18. Please provide a copy of the agency's FY23 performance plan. Please explain which performance plan objectives are completed in FY23 and whether they were completed on time and within budget. If they were not, please provide an explanation.

RESPONSE:

https://oca.dc.gov/sites/default/files/dc/sites/oca/publication/attachments/BOE23.pdf

See Attachments

All FY23 performance plan objectives were met and completed on time and within budget except for the ones indicated below:

BOE did not meet its target with respect to the target number of District of Columbia residents who are registered to vote each month (2,327/3,000).

BOE did not meet its target with respect to the target number of voters who registered or updated their voter registration information electronically through the Board's mobile registration application (10,243/15,000).

With respect to the aforementioned targets, they were not met despite BOE's vigorous voter registration outreach efforts and numerous means by which to register, including in-person (at the Board and at designated voter registration agencies), online, and by mail. In addition, some voters may choose to forego pre-voting registration in light of the Board's same day registration program. Going forward, the Board may adjust its voter registration targets or omit these particular indicators altogether.

BOE did not meet its target with respect to the target percentage of polling places that were operationally accessible. The Disability Rights DC (DRDC) unit at University Legal Services surveyed 87 vote centers during the General Election in November of 2022. Fifty-nine percent of those surveyed were found to be operationally accessible. Circumstances that impacted operational accessibility include insufficient staffing for curbside voting, malfunctioning of the ballot on demand printers which impacted curbside voting, lack of designated accessible parking and inadequate signage. Additionally, it was noted that some elevators were inaccessible, some locations did not have audio headsets on the ballot marking devices, and some heavy doors were not propped open. When requests were made to remedy these situations, vote center staff immediately took action, where possible, to correct these circumstances. To mitigate operational inaccessibility, the election worker training has been modified to emphasize accessibility and its importance. As such, each election worker will receive accessibility training.

BOE did not meet its target with respect to the target percentage of precincts that successfully electronically transmitted election results to Board headquarters on

election night (90%). We were unable to establish adequate connectivity to modem election night results from nine of our 90 Vote Centers. Therefore, election results had to be manually uploaded at our headquarters location. We are working to identify solutions to this issue ahead of the 2024 primary election.

Regarding our 2023 strategic initiative concerning the use of credit header data for list maintenance purposes, while we have not finalized this project, we have signed a contract with a credit reporting agency, and we are currently working on the required security plan to accompany the use of this data. Leveraging credit header data provided by a third-party data provided will allow us to identify voters who have a new address on file with the credit provider. We hope to use this data to identify voters who move within or outside of DC in a timelier and more efficient manner.

19. Please provide a copy of your agency's approved FY24 performance plan as submitted to the Office of the City Administrator, including approved goals, objectives, timelines, planned program and projects, anticipated FTE allocation and expenditure, and metric outcomes to be analyzed.

- 24. Please provide a list of any additional training or continuing education opportunities made available to agency employees. For each additional training or continuing education program, please provide the subject of the training, the names of the trainers, and the number of agency employees that were trained.

RESPONSE: BOE staff members have participated in virtual presentations/conferences from the Election Center and the National Association of State Election Directors (NASED). These conferences have offered reduced fees for attending their virtual events, making them even more accessible. Trainers are national election officials, Auburn University professors, as well as federal government officials with specialized experience in their fields.

Several members of the BOE staff have completed or are in the process of completing the coursework necessary to receive the Certified Elections/Registration Administrator (CERA) designation, the highest elections professional achievement. The CERA designation, which is offered through The Election Center's Professional Education

Program, is achieved through a multi-year course of study which entails completion of twelve core courses taught by the Master's in Public Administration faculty of Auburn University. The coursework includes topics such as ethics, voter registration, elections law, planning, communications, and voter participation, among others. The intent of the program is to professionalize the management of voter registration and elections administration in promoting and preserving public trust in the democratic process. (Please see the travel summary, Q4d).

BOE encourages and provides staff with opportunities to participate in DCHR's Center for Workforce Development program (PeopleSoft/Percipio), which provides training opportunities and skill development programs, software education, and general customer service awareness.

BOE invested in the human resources personnel and provided the opportunity to become a certified Public Sector HR Associate, an International Public Management Associate – HR, and a DCHR HR-Certified graduate, which contributes to and advances the BOE strategic direction.

Additionally, the BOE provided staff with opportunities to participate in hands-only CPR/AED/First Aid training and to become certified in CPR/AED/First Aid and in mental health first aid, which can provide emotional support and practical help to their colleagues as well as residents and constituents.

• Four Employees Trained

CPR/AED/FIRST AIDE HANDS-ONLY

Training provided by Fire and Emergency Services (FEMS) October 11, 2023

• 17 Employees Trained

MENTAL HEALTH FIRST AIDE AT WORK CERTIFIED Training provided by National Council for Mental Wellbeing October 25, 2023

- 13 Employees Trained
- 25. Does the agency conduct annual performance evaluations of all its employees? Who conducts such evaluations? What steps are taken to ensure that all agency employees are meeting individual job requirements?

RESPONSE: The agency conducts annual performance evaluations on most employees. Each supervisor is responsible for conducting performance evaluations for subordinate staff. Staff members are asked to complete self-evaluations. Self-evaluations are useful tools to engage in conversations about performance. To ensure employees are meeting individual job requirements, supervisors provide regular and ongoing feedback. As necessary, employee job responsibilities are adjusted and intervention occurs. When formal feedback is provided to an employee, it is placed into their personnel file.

26. Please include a chart of FY23 employee evaluation rating showing the employee's job title, duties/responsibilities, classification grade, salary, date of employment, and FY22 evaluation rating. Also identify if the employee has been separated from the agency during FY23 or Q1 of FY24.

I. AGENCY SPECIFIC QUESTIONS

31. What methods does the BOE use to solicit feedback on its policies and procedures from its key stakeholders and customers, such as political campaigns and voter education organizations?

RESPONSE: BOE solicits feedback in several ways. We post information on our website for public comment and the website has an "Ask the Director" feature. Interested individuals may submit questions or comments before the record closes after our monthly board meetings. There is a 30-day comment period for all rulemaking. We monitor comments and discussions on social media. We also have comment cards at all voting locations to give voters an opportunity to share their voting experiences.

32. Please provide the amount of any Help America Vote Act ("HAVA") funds expended in FY23 and FY24, to date, the purpose for the expenditures, and the BOE's projected use for any remaining funds.

RESPONSE: A request for this information has been sent to the CFO's office for a formal response.

33. Please describe the BOE's voter registration activities during FY23 and FY24, to date.

RESPONSE: In FY 23 and FY 24 to date, BOE has partnered with numerous high schools, community organizations, non-profit groups, and District agencies to engage seniors, students, adult-learners, people with disabilities, as well as hard-to-reach populations, such as unhoused or displaced individuals. In FY23, BOE participated in approximately 130 outreach events to engage and register eligible residents. From FY24 to date, BOE continues to participate in community events, meetings and educational workshops to educate and engage residents on voter registration and voting requirements, voting options, election-related dates and deadlines, and Early Voting and Election Day. BOE has proactively and strategically partnered with a variety of external partners and stakeholder groups to register voters and facilitate hands-on demonstrations on the voting equipment. Through these collaborative efforts, BOE has successfully participated in approximately 45 outreach events.

a. How, specifically, does the BOE focus its registration efforts on areas of the District or populations (*e.g.*, students, young people, or residents in Wards 7 and 8 that have low registration rates?

RESPONSE: BOE collaborates with community leaders, key stakeholders and other municipal partners. BOE routinely engages with hard-to-reach populations with low registration rates, such as unhoused or displaced individuals, non-traditional students and adult learners to provide voter registration services. In addition, BOE maintains strong partnerships with several D.C. Public Schools and D.C. Public Charter Schools to register all eligible students to vote. BOE proactively seeks engagement opportunities with community-based groups, faith-based organizations and residents in Wards 7 and 8 to facilitate voter registration drives. BOE continues to focus its voter registration efforts in underserved and underrepresented communities to increase voter awareness, voter registration and voter access.

In addition to the voter registration efforts that BOE initiated at the traditional DCPS and DCPCS, BOE also worked with the Department of Youth Rehabilitation Services (DYRS) to educate and register justice-involved youth. Examples of DYRS outreach activities attended by BOE included visits to the Youth Services Center, New Beginnings, and a DYRS community facility.

BOE also maintains a relationship with the Harriett Tubman Women's shelter in Ward 7 in an effort to make sure the residents are aware of their voting rights and afforded the opportunity to register and vote.

The following chart includes all of the outreach events BOE participated in FY 23 and FY 24 to date in Wards 7 and 8.

c. What measures is the BOE taking to increase voter registration at designated voter application distribution agencies? Has the BOE conducted a review of voter registration at these locations?

RESPONSE: The BOE hopes to increase voter registration at designated Voter Registration Agencies (VRAs) by meeting separately with each VRA to provide National Voter Registration Act (NVRA) training. Since every NVRA agency is unique and the primary services they offer maybe provided in-person, by mail, via email, or online, specifically tailoring their NVRA training to complement the primary services being offered by the agency should enhance the voter registration opportunities being offered by the agency and increase voter registration in general. VRAs that offer the opportunity to apply online for service, assistance, or to submit a recertification, or renewal will now be instructed on how to also allow the applicant to electronically submit a NVRA Preference Form and connect the applicant to the BOE's online voter registration form. The BOE is currently updating its annual training material to account for the different types of NVRA-covered transactions in various settings. These materials include training videos, training manuals and test taking questions. Annual training should begin in the month of February. The BOE communicates proactively with designated voter application distribution agencies (Voter Registration Agencies) to strengthen partnerships and assist with coordinating and facilitating voter education and outreach events to increase voter registration. Building strong, collaborative relationships with designated voter application distribution agencies (Voter Registration Agencies) has enabled the BOE to engage with diverse populations, expand outreach efforts, and increase awareness and access.

Each VRA must submit a monthly accounting of their voter registration activities to the BOE. If a VRA does not report, the BOE notifies them with an email reminder that their monthly reporting form has not been submitted. The BOE also randomly visits VRAs to observe their voter registration procedures.

The BOE is in the process of adopting proposed regulations that will reinforce its oversight responsibilities over VRAs and provide the BOE with some enforcement authority for VRAs that are not in compliance with their NVRA obligations.

Finally, in FY 2024 the BOE will be scheduling at least one mid-year audit with each VRA to review their voter preference forms which they are required to retain, by law, for 24 months.

d. How does the BOE measure the success of its Ward Outreach Coordinators?

RESPONSE: The BOE measures the success of the Ward Outreach Coordinators program based on the following factors:

- Number of Visits Scheduled
- Number of Absentee (Mail-in) Ballots Collected
- Number of Follow-up Visits or Telephone Calls Required

In addition to these factors, the BOE measures the success and ongoing effectiveness of the program by tracking the following:

- Number of Participating Nursing Homes/Rehabilitation Centers (new, repeat and referrals)
- Number of Residents Served (at each facility)
- Stakeholder Satisfaction (participating facility)
- Customer Satisfaction (registered voters at a facility)
- 34. Please provide voter registration data for all eligible voters, broken down by age and Ward.
 - a. What percentage of eligible voters in each age group and Ward are registered to vote?

35. How many eligible residents who are currently not registered to vote are there in the District? Please provide this data by age and Ward, if available.

RESPONSE: There are currently 16,134 eligible residents in the District of Columbia who were not registered to vote during this time.

- 36. Please list the top ten precincts by growth in the last five years.
 - a. In FY23 and FY24, to date, has the BOE identified areas for new precincts? If so, what was the BOE's rationale?

RESPONSE:

131	9,786
1	7,438
17	6,974
18	6,801
74	6,661

19	6,078
91	5,989
25	5,966
127	5,958

The Elections Modernization Amendment Act is now effective in the District of Columbia. Now that we utilize Vote Centers, instead of precinct-based voting, there is no need to identify specific areas for new voting precincts. DC voters may vote at any Vote Center. As a result of redistricting, BOE is in the process of determining the most effective way to designate precinct locations with respect to the ANC/SMD voting boundaries. This is a work in progress.

37. How does BOE measure the success of its voter registration programs?

RESPONSE: BOE monitors and measures the success of its voter registration programs with the following metrics:

- The number of outreach events attended to conduct voter registration
- The number of residents registered to vote at outreach events
- The number of partnerships established
- The number of residents trained to conduct voter registration drives
- 38. Please describe the recruitment efforts the Board of Elections has done for election workers for the upcoming 2024 election.

RESPONSE: Throughout FY23, the BOE actively recruited District residents to serve as Election Workers for the 2024 election year. The BOE partnered with several community organizations, businesses, churches, colleges and universities to engage diverse populations and encourage civic-minded individuals to step up to help their neighbors vote at the upcoming 2024 election. In FY23, BOE successfully recruited 533 potential Election Workers to fulfill various election worker positions for the upcoming 2024 election.

In recognition of National Poll Worker Recruitment Day (November 6, 2023), the Board of Elections partnered with entities in Ward 8 to reach and recruit District residents to serve as Election Workers for the upcoming 2024 election. At the recruitment event, BOE representatives provided information about the Election Worker Program, to include an overview of all Election Worker positions, eligibility requirements, Election Day assignments, training, and stipend.

On January 30, 2024, the BOE participated in Help America Vote Day, a day of action established by the U.S. Election Assistance Commission, to educate District residents about the agency's Election Worker program and encourage residents to become an Election Worker for the 2024 Primary and General Election. With a strategic and customized social media campaign, the BOE expects to reach a broader population to create a more diverse pool of election workers. For FY24 to date, 132 individuals have been recruited to serve as Election Workers for the 2024 election cycle.

39. How many DCPS and public charter students and DYRS youth were registered to vote in FY23 and FY24, to date? How, specifically, does the BOE work with the relevant agencies to ensure that these individuals are registered to vote?

RESPONSE: BOE routinely develops and disseminates correspondence to teachers, principals and administrators at DC Public Schools and DC Public Charter Schools to promote and offer voter education and registration services to students. In addition, BOE provides comprehensive information packets with Voter Registration Applications, Student Election Worker Applications and other resource materials. To maximize each high school visit, BOE provides promotional flyers or helpful tips in advance to ensure students bring the last four digits of their Social Security Number and Driver's License Number with them to the voter registration drive.

a. Please list any voter registration drives targeted at students. Please include the location of the registration drive and the number of students who registered as a result.

40. Please describe the BOE's efforts to recruit Student Election Workers in advance of the 2024 elections.

RESPONSE: BOE recruits high school students to serve as election workers as part of its voter education and outreach program. From FY 2023 to date, BOE has conducted approximately 40 voter registration drives at several DC Public Schools and DC Public Charter Schools to educate and engage students about the BOE's Student Election Worker program and provide information about the opportunity to receive community service hours and/or a stipend.

Some of these recruitment events offered an introduction of the voting equipment to potential high school candidates. With hands-on voting equipment demonstrations, students learned first-hand how voters may cast ballots and how ballots are counted in elections. Additionally, high school students will have an opportunity to participate in a simulated Vote Center experience, where they role-play specific Election Worker positions and learn the basic responsibilities for each position.

41. How does BOE measure the success of its youth voter registration programs?

RESPONSE: Measuring the success of BOE's youth voter registration programs is important to ensure the impact of the program. BOE tracks, monitors and measures the success of its youth voter registration programs using the following metrics:

- The number of students engaged or reached
- The number of students registered to vote
- The number of student engagement opportunities facilitated
- The number of students trained to conduct peer-to-peer voter registration drives
- 42. Please describe the BOE's work with incarcerated residents and returning citizens in FY23 and FY24, to date, including:
 - a. What outreach and education efforts has the BOE made to notify all District residents incarcerated in the Bureau of Prisons of their right to vote?

RESPONSE: Outreach efforts to DC residents incarcerated in the Bureau of Prisons (BOP) included the dissemination of educational and registration materials through mailings, electronic communications via the BOP TRULINCS system (message board and email), and in-person education and voter registration drives. Outreach efforts are also established via relationships with BOP personnel at the central office and institution level.

In FY23, BOE continued to develop its relationship with the BOP, cultivating a strong working relationship with a newly appointed BOP central office staff person, specifically assigned to work with BOE to facilitate registration and voting efforts. We expanded our outreach into the federal facilities in multiple ways. During FY23, BOE personnel visited three federal facilities and continued to create and send education and registration materials to the BOP for the DC residents. These materials articulated the rights of incarcerated and returning citizens and were electronically posted within the BOP on TRULINCS for access by DC residents. DC incarcerated residents were also able to communicate with BOE through a uniquely identified email address.

b. Describe the BOE's efforts to provide District residents in the custody of the BOP information about voter registration, voter guides, educational materials, and accessible alternate format ballots in advance of the 2024 elections. Please describe the type of outreach, venue or medium, date of outreach, intended audience, and approximate number of individuals reached.

RESPONSE: Voter education and registration materials were mailed to DC residents in the BOP. Materials were also sent to Reentry Affairs Coordinators in each facility for distribution to DC residents. Additionally, materials were made available electronically on the BOP TRULINKS system. All materials were intended for the education and enlightenment of the BOP staff and approximately 3.000 DC residents.

During the 2022 election, the voter guide was mailed to every registered, incarcerated DC resident within the BOP. This will occur for the upcoming 2024

elections as well. Further, BOE has been working with Disability Rights, DC, meeting quarterly with the BOP to explore the best ways to implement accessible alternate format ballots. At present, the BOP has limited options for allowing accessible equipment, but provides in-person assistance to incarcerated residents as needed.

c. How many incarcerated residents in Department of Corrections facilities registered to vote in FY23 and FY24, to date? In Bureau of Prisons facilities? In other states' correctional institutions?

RESPONSE: The number of DC residents registered to vote in the DOC, BOP, and other facilities in FY23 and 2024 to date is as follows (based on registration source code):

Facility Type	FY23	FY24 to date
DOC	171	101
ВОР	72	36
Other	15	3

d. How does the BOE plan to increase voter registration among these populations in advance of the 2024 elections?

RESPONSE: In addition to continuing the methods already described, BOE has plans for some specific populations. The BOE is testing a webinar session at the Secure Federal Female facility in Hazelton, WV. If successful, the BOE and BOP plan to expand it to the rest of federal correctional complex, as well as other facilities.

A recent MOU developed with the Corrections Information Council provides a dataset of all incarcerated DC residents in the BOP that were convicted in DC Superior Court. Leading up to the Primary Election, the BOE will do a targeted mass mailing intended for each DC resident in the BOP that is not yet registered. That mailing will include information on the upcoming elections, voter registration information, and postage-paid voter registration applications for incarcerated residents that need to register for the first time or update their registration information.

For incarcerated citizens in the Department of Corrections (DOC), BOE will continue in-person visits to the DOC for the purpose of education and registration. Information regarding voter registration and the upcoming elections will be placed in high traffic areas for access to incarcerated individuals. The DOC will be a vote center for the 2024 elections and BOE will train incarcerated residents to be election workers for both the primary and general elections.

For returning citizens, BOE will continue to perform outreach at the halfway houses located in the District of Columbia and Baltimore, MD (one BOP halfway house is located in Baltimore). Plans are being formulated such that BOE will have a scheduled presence at the READY Center on a monthly basis to engage with returning citizens. BOE will also continue its relationship with other agencies such as the Mayor's Office on Returning Citizen Affairs (MORCA) and Court Services and Offender Supervision Agency (CSOSA) in support of education and outreach to returning citizens.

Lastly, the BOE has worked with DCPS to add Restore the Vote Amendment Act information to the social studies curriculum to increase the overall knowledgebase that incarcerated residents can vote. DCPS hopes to pilot the new curriculum during the 2024-25 school year with full implementation during the 2025-26 school year.

43. Please describe the BOE's current relationship with the Electronic Registration Information Center ("ERIC").

RESPONSE: BOE currently maintains a membership with the Electronic Registration Information Center (ERIC) since 2014. In adherence to their membership agreement, the BOE actively collaborates with ERIC by sharing voter registration and motor vehicle licensee data every 60 days. This collaborative effort aims to enhance the accuracy of voter rolls. Notably, since June 2022, the BOE has consistently provided ERIC with both DMV and BOE voter registration records.

a. How has ERIC enabled the BOE to maintain accurate voter rolls?

RESPONSE: ERIC has been instrumental in improving the accuracy of voter rolls by facilitating data sharing, identifying discrepancies, and enabling targeted outreach efforts. This includes contacting eligible but unregistered individuals and informing them about the registration process. This collaborative approach enhances the overall integrity of the voter registration system and contributes to a more accurate representation of eligible voters. The following reports are obtained by request:

- **Deceased** This report compares our voter records to the Social Security Death Master list to identify people who may be deceased.
- **In State Duplicates** This report compares our voter records against each other to identify duplicate voter registrations.
- Eligible but Unregistered This report compares our motor vehicle records with our voter records to find people that have a DMV record but

do not have a corresponding voter record (i.e., people who are potentially eligible to register but have not yet).

b. How did the BOE use ERIC in FY23 and FY24, to date?

RESPONSE: The Board of Elections (BOE) utilized ERIC in FY23 and FY24 to date by employing the ERIC Deceased, Duplicates, In-State, and Cross State reports. These reports were instrumental in assisting with regular list maintenance and the Biennial Canvass process, helping the BOE identify and address issues such as deceased individuals, duplicate registrations, and discrepancies within the state and out of state.

c. How much did the BOE pay in dues to ERIC during that period?

RESPONSE: Annual membership dues of \$37,265 were paid for the period June 2023 to June 2024.

d. Does the BOE require additional information or collaboration from the District government or its agencies in order to maintain use of ERIC? If so, please describe.

RESPONSE: BOE requires collaboration with the District government, specifically with the DMV authority, in order to guarantee the timely submission of accurate files to ERIC.

- 44. Please describe the BOE's implementation of the Local Residents Voting Rights Act, B24-0300 ahead of the 2024 election.
 - a. Please describe the steps BOE has taken to implement the law.

RESPONSE: BOE has taken many steps to implement the Local Residents Voting Rights Act. The first step was to create a database solution that would house non-citizens in a way that we are able to distinguish them from citizens. We created a paper voter registration form for non-citizens and we have an online portal available for non-citizens to vote in local elections. We have also developed brochures and written materials to use with our outreach endeavors. We have also reached out to our partners to ensure they are aware of the new legislation.

We made an offer to hire a bilingual outreach specialist. However, we had to repost the position after the chosen candidate declined the offer.

Finally, we are engaging in targeted outreach efforts and have asked members of the public to provide feedback regarding our efforts.

b. Please describe any challenges BOE anticipates in implementing the law.

RESPONSE: The biggest challenge that BOE anticipates is monitoring the status of this legislation. There are several attempts to block the continuing implementation of this legislation. If this occurs, we may have to alter our practices within a short timeframe.

- 45. Please describe the BOE's efforts to increase polling place accessibility in FY23 and FY24, to date.
 - a. How many polls remain structurally or operationally inaccessible?

RESPONSE: Of the Vote Centers utilized during the 2022 Election period, only two still pose structural barriers: Union Temple Baptist Church and 15th Street Presbyterian Church. The inaccessibility arises from their elevators, which fail to meet the Americans with Disabilities Act ("ADA") standards for elevator cars.

Operational accessibility can only be determined during periods of voting, when BOE staff/election workers can identify and remedy potential issues.

b. How does the BOE plan to address accessibility issues that remain in advance of the 2024 elections?

RESPONSE: The BOE is committed to collaborating with both Union Temple Baptist Church and 15th Street Presbyterian Church to find a solution that brings these centers into compliance. This may involve relocating to areas within the churches that do not require the use of elevators on Election Day. Alternatively, the BOE may engage the Department of General Services ("DGS") to assess and address any remediation necessary to ensure elevator compliance. To maintain accessibility, BOE employees will conduct accessibility surveys of all potential Vote Centers prior to the 2024 Primary Election, regardless of their previous usage. This proactive approach will guarantee that the vote centers remain accessible. As part of our standard practice, we will work closely with DGS to ensure that the structural accessibility of Vote Centers is upheld. In the past, DGS has provided a dedicated team of facility managers, building managers, and engineers to rectify structural issues at Vote Centers. This includes implementing modifications such as installing automatic door openers, temporarily removing narrow doors, providing temporary ramps, and eliminating center poles that obstruct narrow doorways. Furthermore, we will ensure that election workers are well-informed about the guidelines outlined in the ADA. They will also receive training to promptly and effectively address any operational accessibility concerns that may arise.

46. Please describe the HAVA complaints or grievances that the agency received in FY23 and FY24, to date, broken down by source. For any complaints or grievances that were resolved in FY23 or FY24, to date, describe the resolution.

RESPONSE: There were no HAVA complaints or grievances filed against the agency in FY 23 or FY 24 to date.

47. Please provide an update on the eSign technology. Has service been restored? If not, what is the timeline for restoration?

RESPONSE: BOE's previous eSign vendor has discontinued operations. BOE is in the process of developing its own eSign platform. This platform should be launched in 2024.

- 48. What measures does the BOE plan to take in preparation for the 2024 elections to secure the District's election infrastructure and voting equipment against potential cyber-attacks?
 - a. How does the BOE utilize HSEMA and OCTO's expertise and resources, particularly regarding cybersecurity?

RESPONSE: The BOE consistently collaborates with experts from HSEMA and OCTO to grasp the threat landscape, discern threat actors, and recognize indicators of potential threats for safeguarding our systems. Additionally, the BOE has actively participated in the Cyber Hygiene program since the 2016 General Election.

b. How does the BOE partner with federal entities to protect the integrity of the District's elections?

RESPONSE: The BOE collaborates with the Department of Homeland Security/CISA to comprehend threat vectors and indicators, safeguarding our systems. Cybersecurity threat notifications from the Center for Internet Security (CIS) and the Multi-State Information Sharing and Analysis Center (MS-ISAC) are received by the BOE, which actively monitors nationwide systems and shares intelligence across all sectors of the United States Critical Infrastructure.

Additionally, the BOE receives Cyber Hygiene reports and cybersecurity notifications and updates from the Elections Infrastructure Information Sharing and Analysis Center (EI-ISAC) operated by the CIS. The EI-ISAC, which conducts election-related monitoring, engages directly with Secretaries of State and State Election Directors, providing complimentary security monitoring and forensic analyses.

The BOE has established contact points with key entities such as the Department of Homeland Security (DHS), the DC Homeland Security Emergency Management Agency (DC HSEMA), the Office of the Chief Technology Officer (OCTO), the Department of Justice (DOJ), and the FBI. This enables the BOE to coordinate responses efficiently to cyber threats and emergency incidents.

c. Has the BOE applied for federal grants for cybersecurity initiatives or assistance?

RESPONSE: BOE has not applied for any federal grants for cybersecurity initiatives or assistance.

d. What training, if any, are BOE staff given regarding cybersecurity?

RESPONSE: The BOE offers regular cybersecurity training that covers phishing, smishing, and vishing and other social engineering attacks. BOE personnel actively engages in election cybersecurity training drills organized by the Cybersecurity and Infrastructure Security Agency (CISA) of the Department of Homeland Security (DHS), the OCTO Fusion Center managed by DC OCTO, and additional tabletop exercises led by state and non-governmental organizations. These exercises simulate threat scenarios and are akin to train-the-trainer sessions, aiding in the identification of best practices and procedures for integration into office training.

49. Please describe the BOE's current planning for the 2024 primary and general elections, including its planning for early voting, mail-in voting, Vote Centers, ballot drop boxes, elections and voter registration technology, outreach to underrepresented populations like seniors and Ward 7 and 8 residents, and polling places. Describe any outstanding budget needs for the general election.

RESPONSE: During the 2024 Election Cycle, all registered DC voters will receive a mail-in ballot. Voters may vote by mail, in-person, or by depositing a ballot in a drop box. BOE will have 55 Mail Ballot Drop Boxes that will be placed throughout the city. We will also operate 25 Early Vote Centers and a total of 75 Election Day Vote Centers.

Our goal is to recruit and train between 2,000 and 2,500 election workers. We will deploy approximately 1,700 election workers to serve at Vote Centers. Election Worker training will begin on Tuesday, March 12, 2024.

We are continuing to register voters using our website portal. Citizens and non-citizens may register using the portal or they may register using a paper registration form. Registered voters are housed in Voter Focus, our voter registration database. BOE engaged in significant efforts to update the voter registry in 2023. In total, we removed 108,698 voters and moved another 92,772 to an inactive status.

BOE is committed to diversifying voter outreach and education among District residents. In preparation for the 2024 Primary and General Elections, BOE will build strategic partnerships, leverage existing community partnerships to strengthen education and outreach efforts, expand voter engagement opportunities with particular focus on residents and students in Ward 7 and 8 and multilingual communities across the District of Columbia.

Outstanding budget needs include the purchase of 100 additional ballot-on-demand printers. Additionally, BOE would like to increase pay to election workers. The climate

in the country has made it more difficult to recruit and retain enough high-quality election workers.

During 2024, we will be deploying new equipment to process and tabulate mail ballots.

a. How will the BOE ensure mail-in ballots are accessible for people with disabilities who need accessible alternate format ballots during the 2024 elections? Will the BOE continue to use Omni ballot for the 2024 elections? If not, which alternate format balloting program will be provided by the BOE for the 2022 elections?

RESPONSE: The BOE will make use of the accessible remote ballot delivery function, including electronic ballot return, provided by Democracy Live's OmniBallot in the upcoming 2024 election cycle. In order to effectively promote the availability of OmniBallot, the BOE will collaborate with various District government agencies, disability advocacy organizations, community organizations, and other stakeholders. Our ADA Coordinator, Voter Education and Outreach, and Communications Divisions will play a key role in this partnership. The BOE is dedicated to enhancing our messaging strategy by incorporating feedback from stakeholders, with the ultimate aim of ensuring that voters are not only informed about the availability of OmniBallot, but also equipped with the knowledge to make the most of its features.

b. What outreach and education efforts has the BOE made to inform District voters about accessible alternate format mail-in balloting for the 2024 elections? Please describe the type of outreach, venue or medium, date of outreach, intended audience, and approximate number of individuals reached.

RESPONSE: The collaboration between the BOE and different government agencies within the District, disability advocacy organizations, community organizations, and other stakeholders will be crucial. The partnership will involve our ADA Coordinator, Voter Education and Outreach, as well as Communications Divisions, who will actively contribute to raising awareness about the Accessible Remote Ballot and its electronic ballot return feature.

50. Who is responsible for the training and orientation provided to new members of the Board?

RESPONSE: BOE senior leadership and the BOE human resources director provide training and orientation to new members of the Board.

51. Is there any new legislation you would recommend regarding the Board of Elections?

RESPONSE: BOE has talked to the Council regarding new legislation to address threats against election workers. BOE is awaiting emergency legislation to redefine precinct boundaries ahead of the June Primary Election.

52. Is there any federal legislation you are monitoring which may impact the DC Board of Elections?

RESPONSE: BOE is monitoring the American Confidence in Elections (ACE) legislation.

53. Do you foresee any new equipment needs for this election cycle?

RESPONSE: BOE will need to purchase an additional 100 ballot-on-demand printers for the 2024 Election Cycle.

- 54. We know the facility used for counting votes is supposed to be suitable for public viewing of the ballot counting process and compliant with all laws related to the maintenance of safe and adequate workplace conditions. Is the facility used for the public counting of votes sufficient for the needs of this election cycle?
 - a. If not, what is the plan for improvements to the warehouse location?

RESPONSE: BOE has been working very closely with the Department of General Services to secure adequate space ahead of the 2024 Election Cycle. BOE is currently in the final phase of securing new space that will accommodate our mail ballot counting process. The newly identified space is sufficient for the public counting of ballots. At this point, BOE should take possession of the new space no later than March 1, 2024.

b. Will these improvements be in place for the 2024 election cycle?

RESPONSE: The new location will have adequate space for individuals to view our public operations. The space has adequate lighting, ventilation, and potable water. The improved location will allow BOE staff and the public to have access that is compliant with health and safety laws.

55. Please provide a detailed description of BOE's work to prevent election fraud in the 2024 election.

RESPONSE: The agency conducted public hearings into allegations of double voting (*i.e.*, voting in DC and in another jurisdiction in the same election) in the 2020 General Election ("GE") and issued fines in matters where there was substantial evidence that double voting had occurred. These hearings put the public on notice that the Board takes election fraud seriously and that it will pursue enforcement action in instances where such fraud is demonstrated. With respect to the 2022 General Election, the Board will send notices warning of illegal voting laws to voters identified through the Electronic Registration Information Center ("ERIC") as having cast ballots in two jurisdictions.

The Board will publish information on prohibited election practices on its website, in its published Voter Guide, in materials in mail ballots sent to voters in each election, and in the "What Every Voter Needs to Know" poster that is posted in each vote center during voting. In addition, the BOE's Communications division will post messages about prohibited election practices on social media.

- 56. Please provide the following information related to election fraud in the District:
 - a. A list of all investigations and/or enforcement actions related to election fraud taken by the agency in FY23 and Q1 FY24. Please indicate the type of fraud (vote buying, multiple voting, submission of fraudulent ballots or registrations, destruction of ballots or registrations, alteration of votes, malfeasance by election officials, etc.), the date of the commencement of the action taken, the date of resolution of the matter, and the outcome.

RESPONSE: Below is a list by jurisdiction of the number of investigations of possible illegal voting that were initiated or are on-going in FY23 and Q1 FY24. All cases were based on evidence of possible double voting by a voter or possible ballot tampering by a third party other than the voter to whom a ballot was issued. All cases were based on ballots cast in the 2020 and 2022 General Elections. While no investigations were commenced until after the ERIC Voter Participation Project reports covering those elections were received in late 2021 and 2023 respectively, investigations into the 2020 General Election ERIC report cases were suspended during the 2022 election cycle and further work on the 2022 General Election cases will be suspended as all staff must be focused on the elections when the Board is in an election cycle.

As the Board can only take enforcement action pursuant to administrative procedures that by law require issuance of a written decision, the details regarding the cases in which the Board has taken enforcement action are set forth in opinions posted on the Board's website (*see https://www.dcboe.org/about_us/office-of-the-general-counsel/administrative-orders*). Those decisions are also being provided through the link referenced in the response to Q56b. below.

- 57. Please provide a detailed update on the BOE response to the October 2023 data breach by providing the following information:
 - a. a detailed description of the breach and any implications for the 2024 election;

RESPONSE: On October 5, 2023, BOE became aware that a malicious hacking group calling itself "RansomVC" claimed to have breached DataNet and accessed BOE's voter data and other information. There is no certainty that there was, in fact, a breach into the DataNet website or downloading of any voter information. In light of the allegation by the malicious actor, BOE has handled every step out of an abundance of caution, to both ensure the protection of its systems and notify voters of potential breaches.

Steps taken during BOE's investigation include:

- On October 5, 2023, BOE immediately initiated an internal assessment and began working with its data security and federal government partners to investigate the breach. These partners include, but are not limited to, MS-ISAC, the Federal Bureau of Investigation, and Homeland Security. BOE collaborated closely with the CIRT at MS-ISAC to assess and resolve the issue. BOE also received support and guidance from OCTO.
- The initial investigation found a breach of DataNet's web server. However, no internal BOE servers, networks, databases, or computers were directly compromised.
- Immediately, BOE directed DataNet to take down our website and replace it with a maintenance page, which DataNet did promptly.
- BOE conducted vulnerability scans on our database, server, and other IT networks.
- From October 5, 2023 until October 20, 2023, BOE held daily briefings with the Executive Office of the Mayor of the District of Columbia, OCTO, and MS-ISAC.
- On Friday, October 20, 2023, during a daily morning check-in call with DataNet, which had been conducting its own investigation of its own internal systems, BOE learned that:
- DataNet's breached database server contained a copy of the BOE's voter roll.
- DataNet confirmed that malicious actors *may* have had access to voter roll information. In DC, certain basic voter roll information (such as name, address (unless confidential), party affiliation, precinct number, and voting history) is already public. But the breached information *might* have included other personally identifiable information ("PII"), such as partial social security number, driver's license number, date of birth, phone number, and/or email address.
- DataNet could not confirm or pinpoint if or when this voter file might have been accessed, or how many voter records, if any, were accessed or exfiltrated
- Starting October 6, 2023, voters, the public, and the press were notified of a possible data breach via press and social media statements, with updates

provided on October 10, 2023; October 16, 2023; October 20, 2023; and December 27, 2023. In addition, BOE set up an email account where residents could ask questions, questions@dcboe.org, and established a webpage, www.dcboe.org/databreach, with relevant information that was regularly updated with new information.

b. a list of all vendors or contractors that are a party to any executed contract, MOU or Schedule of Work with the agency related to related to the provision of cybersecurity services to the agency;

RESPONSE: As part of our cybersecurity strategy, the BOE is actively engaged with the Multi-State Information Sharing and Analysis Center (MS-ISAC) and the Elections Infrastructure Information Sharing and Analysis Center (EI-ISAC) through a free membership. While these entities provides valuable cybersecurity threat notifications and shares intelligence with critical infrastructure sectors nationwide, it's important to note that our engagement with them is based on a membership model and does not involve executed contracts or financial arrangements.

BOE has established important connections with key entities, including the Department of Homeland Security (DHS), the DC Homeland Security Emergency Management Agency (DC HSEMA), the Office of the Chief Technology Officer (OCTO), the Department of Justice (DOJ), and the FBI. These connections are crucial for coordinating responses to cybersecurity threats and emergency incidents. While these relationships are vital for collaborative efforts, they do not necessarily entail direct contractual engagements for cybersecurity services.

c. a copy of all contracts, MOUs or schedules of work, if any, listed in (b) above;

RESPONSE: Not Applicable

d. a detailed description of actions taken to minimize the impact of the data breach;

RESPONSE: To address the data breach, the following actions have been taken:

- Email notifications have been dispatched to all individuals with email addresses on record.
- Press releases containing necessary information have been distributed, adhering to guidelines.
- Notifications have been prominently displayed on the organization's website homepage.
- A call center has been established by the vendor and is currently operational, offering the public a platform to obtain additional information and seek clarification.
- BOE will be leveraging Web Application Scanning (WAS) from DHS, adding an additional layer of security designed to fortify our defenses against diverse

threats targeting web applications. In addition, weekly vulnerability scans will be conducted on all of BOE's public-facing web servers.

In addition to working with DHS and other Federal agencies, BOE has established a policy for OCTO's Security team to perform web application scans at each level of our public-facing website when code changes, patches, and other modifications have taken place on our web services to ensure that we have a safe environment. BOE will implement Data Lost Protection (DLP) policies to protect sensitive data on all internal endpoints.

58. What new policies and procedures are the agency considering in order to ensure that such a breach does not happen again?

RESPONSE: To enhance security and prevent future breaches, the following policies and procedures are being considered:

- BOE will collaborate with our vendor to secure restricted web portal access to the BOE network.
- BOE will continue to conduct regular audits of administrator and user lists, along with access permissions, on a scheduled basis.
- BOE will work with the vendor to limit structural and functional changes to the website to specific times of the month or quarter.
- BOE will implement scheduled security analysis sessions to proactively identify and address vulnerabilities with our partners.
- BOE will ensure its vendor is implementing a comprehensive logging mechanism to track details of website and application activities for monitoring and analysis.
- 59. Was Voter Focus, the new voter registration and election management database, affected by this breach?

RESPONSE: No.

60. Is voter list maintenance for FY2024 underway? Was the list maintenance affected or impacted by the October 2023 data breach?

RESPONSE: Not Applicable.

- 61. Please discuss the current status of the BOE website, including:
 - a. when BOE expects the website to be fully operational;

RESPONSE: The BOE website is expected to be restored to its full functionality within the next two weeks (as of 1/26/24). Subsequently, BOE plans to further improve and incorporate additional features based on suggestions.

b. what information/services are currently unavailable to voters because of the website maintenance; and,

RESPONSE: Voters have access to all information except for the email service, which encompasses three features on the site, including:

- Website feedback email.
- "Ask the Director" email, and
- "News feed link" email.

Once the email gateway on the new network is constructed and configured, these features will be activated and accessible.

c. how this will impact the 2024 election.

RESPONSE: There are no anticipated impacts on the 2024 elections as early voting features and other services have been developed and will be accessible prior to the elections.

62. Please provide a detailed update on BOE's preparation for the 2024 election, including a detailed timeline of preparation between now and the primary election, and between the primary election and the general election.

RESPONSE: Please refer to the answer to question 49. Detailed timelines are provided in the draft Primary and General Election calendars on BOE's website at https://dcboe.org/elections/2024-elections.

- 63. Please provide a detailed update on BOE's implementation of L24-0242, the Local Resident Voting Rights Amendment Act of 2022 by answering the following questions:
 - a. Will BOE implement the requirements of this act in time for the 2024 election?

RESPONSE: Yes.

b. Please include a detailed description of any funds already spent in support of implementing this act in FY24-to-date, including both personnel and non-personnel costs.

RESPONSE: BOE has expended (obligated) \$250,000 to create the database solution that will house non-citizen voters. These are the only funds already spent. However, BOE is about to send brochures and written materials to our printer in preparation for our media blitz and enhanced education/outreach efforts. We are interviewing candidates for our bilingual outreach position. Additionally, BOE is about to engage in efforts to reprogram Poll Pad devices for voter check-in at Vote Centers.

64. Please explain what the passage of H.R. 4396, the American Confidence in Elections: District of Columbia Citizen Voter Act, would mean for BOE's administration of the 2024 election by answering the following questions:

a. What would be the impact if this bill became law before the 2024 primary election?

RESPONSE: Non-citizens would not be able to vote in the 2024 primary election, regardless of whether they had registered to vote, and they would be removed from the voter registry if they had registered to vote. Such non-citizens could re-register upon obtaining citizenship status.

b. What would be the impact if this bill became law after the 2024 primary election, but before the 2024 general election?

RESPONSE: Non-citizens would not be able to vote in the 2024 general election, regardless of whether they had registered to vote, and they would be removed from the voter registry if they had registered to vote. Such non-citizens could reregister upon obtaining citizenship status.

c. What would be the impact if this bill became law after the 2024 general election?

RESPONSE: Non-citizens would not be able to vote in elections held after the 2024 general election, regardless of whether they had registered to vote, and they would be removed from the voter registry if they had registered to vote. Such non-citizens could re-register upon obtaining citizenship status.

If the question seeks to determine whether the results of elections in which non-citizens participated could be overturned upon the subsequent passage of legislation that prohibits them from voting, the pertinent provision of District law provides that the DC Court of Appeals shall only void an election upon the receipt of a petition for review and a subsequent finding "that there was any act or omission, including fraud, misconduct, or mistake serious enough to vitiate the election as a fair expression of the will of the registered qualified electors voting in the election." D.C. Official Code § 1-1001.11(b)(2)(B). If at the time of the election, non-citizens voting in an election are legally permitted to do so (which they would be in the absence of the passage of a law such as H.R. 4396 that prohibits them from doing so), then it is unlikely (although not impossible) that the court would find such act or omission that would warrant voiding the election based upon the non-citizens' participation.

d. If passed into law, would this bill prevent BOE from expending funds on equipment or goods that are associated with any provisions of L24-0242, even if the equipment has a legitimate, non-L24-0242 use in administering elections in the District?

RESPONSE: Funds have already been expended. It would prevent BOE from spending any additional funds.
