Government of the District of Columbia

Department of Transportation

DDOT Functional Statement

DDOT's organizational structure consists of the Office of the Director and 5 administrations: Infrastructure Project Management Administration, Maintenance Operations Administration, Transportation Planning Administration, Traffic Safety Administration, and Talent and Business Services Administration.

Office of the Director

The Office of the Director is responsible for the oversight and management of the entire agency and includes the following:

Chief of Staff

The Chief of Staff assists in executing DDOT's mission by identifying, analyzing, and coordinating the implementation of a variety of major executive policy issues and/or decisions. Additionally, the Chief of Staff provides support to the Office of the Director by managing day-to-day operations which includes oversight of front-office staff.

General Counsel

The Office of the General Counsel drafts, reviews, and negotiates all legal documents associated with the acquisition, disposition, and maintenance of DDOT Transportation Improvement Projects, provides legal services for the Agency on acquisitions and disposals, reviews and negotiations project labor agreements, prepares the agency for Contract Appeals Board hearings, reviews interagency agreements, advises on agency-issued grants, reviews and drafts legislation, regulations and administrative issuances to ensure conformity with existing laws, provides advice and training regarding ethics and government accountability, supports personnel disciplinary matters and defends appealed matters, liaises with union leaders on collective bargaining agreements, represents the agency in administrative hearings, including notices of infraction, discrimination cases, and unfair labor practices, supports the Office of Risk Management in tort claims and the Attorney General in civil litigation, pursues recompense for damage to DDOT property, and reviews and processes requests for public documents held by the agency, all under the oversight of the Mayor's Office of Legal Counsel.

Equity & Inclusion Division

- The Equity & Inclusion Division is dedicated to incorporating best practices and administering compliance programs and policies that promote equity, diversity, accessibility, and inclusion across all aspects of DDOT's operations. The **Equity Branch** is committed to advancing transportation equity through a range of initiatives, including Diversity, Equity, and Inclusion (DEI) trainings and events. It oversees the implementation of Title I & Title II of the Americans with Disabilities Act (ADA) and ensures compliance with the agency's equity statement.

Responsibilities include administering the reasonable accommodation process for all DDOT employees, reviewing transportation plans for ADA compliance, developing and refining policies and procedures, and enhancing the agency's Equity Assessment Tool.

- The **Civil Rights Branch** focuses on compliance with the Civil Rights Act of 1964, specifically Titles VI and VII, this branch manages affirmative action programs and implements the Language Access Program. Additionally, it oversees the Disadvantaged Business Enterprise (DBE) and Small Business Enterprise (SBE) programs, the On-the-Job Training Program for construction workers, and Supportive Services aimed at fostering an inclusive work environment.
- The **Compliance and Business Reporting Branch** is responsible for Davis-Bacon, which analyzes contracts and interviews project managers to determine total construction commitments for project implementation and modifications. It also develops and implements comprehensive labor law enforcement programs tailored to meet the needs of the Department and conducts project investigations of job sites to monitor contractor compliance with wage and hour provisions.

External Affairs Division

External Affairs is responsible for managing DDOT communications, policy and legislative agenda, and community engagement.

- The **Community Engagement Branch** is responsible for assessing and coordinating an agency resolution to community, council, and Advisory Neighborhood Commissioner concerns; supporting a coordinated public engagement plan on the status of DDOT projects and service requests; and identifying strategic and routine actions for DDOT to take to enhance community involvement for the District's Transportation infrastructure projects and program initiatives.
- The **Customer Service and Clearinghouse Branch** implements the Mayor's customer service standards so that customers can access and receive DDOT services in a satisfactory, professional, responsible, and timely manner. It includes the Call Center, which answers calls directly from the public or transferred from the District's 311 system, and the Clearinghouse, which manages all written correspondence from the public.
- The **Policy and Legislative Affairs Branch** manages the development and analysis of transportation policy at the local, regional, and federal levels and the legislative and government affairs strategy for the District's transportation agenda.
- The **Public Information Branch** manages media relations, crisis communications, public affairs, strategic planning and counsel, publications, public and stakeholder outreach, special events, and employee communications for the agency.

Innovation and Performance Division

The Innovation and Performance Division (IPD) drives technological integration across agencies, optimizing business processes and outcomes through advanced data analytics. IPD pioneers the adoption of emerging technologies to propel agencies towards the future, while spearheading strategic asset planning initiatives to sustain agency assets.

- The **Analytics, Asset, and Performance Management Branch (AAPM)** provides high-quality advanced data analytics to support all team's informed decision making, create data visualization for internal management and public communication, track asset conditions and develop strategic plans, and lead the agency's performance tracking and reporting to the Mayor's office and the USDOT.
- The **Fleet Management Branch** has oversight of the agency's vehicle and equipment procurement and inventory process. Fleet will lead the transition to all electric vehicles with the related charging infrastructure.
- The **Innovation Branch** lead the regulation and operation of Connected and Autonomous Vehicles, Personal Delivery Devices, Drone program, DDOT Research Program, DDOT library and other emerging transportation technologies and lead the agency's pilot vetting program to include the Innovation Committee.
- The **Strategic Asset Planning Branch (SAP)** develops and implements an agency wide strategic asset management plan that will capture all DDOT's assets, establish management/inspection cycles and inform budgets formulations.

Infrastructure Project Management Administration (IPMA)

The Infrastructure Project Management Administration (IPMA) is responsible for the feasibility, planning, environmental, design, construction, and construction inspection of roadways, bridges, culverts, trails, structures, and other transportation infrastructure in the District of Columbia. The work is managed by the **Design and Construction Management (D&CM) Division** and the **Citywide Engineering & Special Projects Division (CESP) Division**, which includes the transportation portion of the Anacostia Waterfront Initiative (AWI), a 30-year program focused on projects that transform the Anacostia River corridor.

Citywide Engineering & Special Projects Division (CESP)

The Citywide Engineering & Special Projects Division consists of seven (7) subdivisions that prepare planning, environmental, design, construct, and inspect transportation infrastructure projects located within the Anacostia River Watershed as well as provide Citywide critical functions for DDOT:

- **Bridge and Structures** is responsible for the inspection and maintenance of the District's over 235 bridge assets and ancillary structures, including compliance with federal standards and reporting requirements.
- **Citywide & Mega Construction Oversight** is responsible for oversight during construction of unique or large capital projects citywide.
- **Citywide Engineering Resources** is responsible for coordination with third party developers for the design and construction of projects that include public space or property to be dedicated as public space and supporting with financial and procurement actions.
- **Hydraulics, Stormwater & Green Infrastructure** designs and constructs the District's transportation infrastructure to meet new initiatives, environmental objectives, and regulations (e.g. EPA Municipal Separated Storm Sewer System [MS4] Permit) by ensuring that DDOT, third party developer, and retrofit projects minimize stormwater runoff, meeting regulations and permit requirements.
- **Mega/Special Projects** leads the effort to implement improvements to the transportation infrastructure network to promote safe, efficient, multi-modal travel throughout the Anacostia Waterfront area.
- **Real Estate** ensures that all applicable Federal and local laws are followed in acquiring property and coordinating with railroad entities for transportation infrastructure projects.
- **Utility and DC Power Line Undergrounding (DC PLUG)** manages the Utility coordination functions for DDOT. This work includes managing DDOT's involvement in the DC PLUG project, a public-private partnership between the District and Pepco that is implementing undergrounding of overhead feeders in Wards 3, 4, 5, 7, and 8.

Design and Construction Management Division (D&CM)

The Design and Construction Management Division consists of five (5) subdivisions - four (4) teams organized by Ward that are focused on the planning, design, and construction of infrastructure projects across their respective Wards and one (1) focused on Materials quality assurance/quality control (QA/QC):

- **Team 1** manages the transportation infrastructure and related projects in Wards 1 and 2.
- **Team 2** manages the transportation infrastructure and related projects in Wards 3 and 4.
- **Team 3** manages the transportation infrastructure and related projects in Wards 5 and 6.
- **Team 4** manages the transportation infrastructure and related projects in Wards 7 and 8.
- **Materials QA/QC** is responsible for citywide testing and evaluation of equipment, materials, and systems for the District's infrastructure projects.

Maintenance Operations Administration (MOA)

The Maintenance Operations Administration is responsible for maintaining the District's infrastructure assets. The **Program Support Branch**, under the Office of the Chief Maintenance Officer, provides budget, procurement and contract oversight, guidance and expertise for all Maintenance Operations Administration divisions.

The Deputy Chief Maintenance Officer oversees the following:

- **Public Space Inspections Branch** provides inspections of District assets as well as work zones in public space and the excavation and restoration of the public right of way.
- **Streetlight Branch** upgrades, maintains, and restores all of the District's 75,000 streetlights and specialty lights and includes **Citywide Inspections Team**.

Pavement Maintenance Division

The Pavement Maintenance Division maintains and repairs streets, sidewalks, alleys, and tunnels for the District's network through the following four Branches:

- **Bus, Bike & Trail Branch**
- **Maintenance Inspections Branch**
- **Roadway Management Branch including the Tunnels Team**
- **Roadway Services Branch**

Sign Maintenance Division

The Sign Maintenance Division maintains existing signage infrastructure, curbside signs, designates new curbside designs via signage and responds to 311 customer service requests. They are responsible for sign fabrication, special events signage, and flag installation.

- Sign Fabrication and Installation Branch
- Parking Services Branch

Urban Forestry Division

The Urban Forestry Division provides oversight, maintenance, and care for all street trees within the District's right-of-way and District-maintained properties. The Division delivers and coordinates comprehensive development plan review and applications that impact the public space and overall tree canopy. It also organizes and delivers outreach and education services, to inform the public on the importance of urban forests.

- **The Tree Management Branch** provides intensive management of the District's public trees including inspections, installations, routine maintenance, and removals, addresses public service requests, and reviews permits Special and Heritage Tree permit applications.
- **The Tree Services Branch** focuses on rapid deployment and delivery of tree services in response to storms and safety improvements and provides limited vegetation management of the off-road bike trail network.

Talent and Business Services Administration (TBSA)

The Talent and Business Services Administration is responsible for a wide range of functions and responsibilities for DDOT. This includes human resources; strategic budget formulation, planning and allocation; information technology; safety and security; facilities and support services; audit liaison; and oversight of procurement and contract administration. It supports the transformation of administrative activities from transactional processing to strategically focused resources that directly support the agency's mission and achievement of its performance objectives. It is comprised of five Divisions and liaises with two independent agencies: Office of Contracting and Procurement and Office of the Chief Financial Officer.

Facilities and Support Services Division

The Facilities and Support Services Division (FSSD) provides support to the agency's operations and performs facility management of DDOT's office space, warehouse, materials testing lab, and maintenance yards. The Division also serves as primary liaison between Department of Energy and Environment (DOEE), Department of General Services (DGS), Protective Services Division (PSD) and the U.S. Environmental Protection Agency (EPA) ensuring DDOT facilities meet environmental standards and green infrastructure assets are maintained. Additionally, the division oversees building access and security management.

- The **Space Management and Business Support Branch** provides interior space planning and design, land acquisition, development, construction management, and move management. The Branch also provides centralized support for the procurement, distribution and inventory management of uniforms, supplies and equipment. Additionally, the branch serves as the primary liaison to DGS and PSD for building access and maintaining security.
- The **Warehouse and Facilities Operations Branch** serves as the central location for the purchase, receipt, storage, issuance, and inventory management of bulk materials, supplies, and equipment. The Branch is responsible for repair and maintenance of DDOT facilities.

Human Resources Division

The Human Resources Division (HRD) is the central hub for managing the agency's comprehensive human capital initiatives. In partnership with the District Department of Human Resources (DCHR), the division oversees a broad spectrum of employee-focused areas and provides expert guidance and interpretation of personnel policies and administrative procedures, ensuring alignment with operational goals. HRD is structured into five key branches, each dedicated to supporting the agency's mission through strategic human resource management.

- The **Employee Relations Branch** helps DDOT create and maintain positive relationships with its employees and labor unions by handling complaints, helping employees navigate changes, and resolving disputes and conflicts. This branch is also responsible for performance management including annual performance evaluations and plans.
- The **Learning and Development Branch** supports training initiatives and workforce development activities DDOT staff through the implementation of the Training Policy and management of Federal Highway Administration's training funds.
- The **Policy and Compliance Branch** ensures DDOT's compliance with and the consistent application of DCHR policies and local, state, and federal regulations including Suitability and Reasonable Suspicion. This branch is also responsible for the accurate administration and maintenance of employment-related data and timely accurate processing of payroll.
- The **Recruitment and Staffing Branch** provides strategic staffing and talent acquisition services to DDOT by attracting, hiring, and retaining a diverse, qualified, and high performing workforce. This branch is also responsible for position management and classification as well as the administration and processing of Details and Reassignments.

- The **Total Rewards Branch** administers compensation, benefits, and rewards programs and activities helping to attract, retain, and engage DDOT's workforce and drive employee performance. This branch is also responsible for the accurate administration and processing of medical and non-medical leave including Parental, PFL/FMLA/DCFMLA, and Worker's Compensation.

Information and Technology Division

The Information and Technology Division (ITD) provides leadership, guidance, and support services that improve the DDOT's mission, management, and internal controls by delivering timely IT solutions. ITD provides project and program support to DDOT divisions with a responsibility for the management and modernization of mission critical technical infrastructure and applications that support the services within the District of Columbia Government.

- The **Applications and Planning Management (APM) Branch** is responsible for developing, maintaining, and supporting the DDOT applications as well as ensuring IT training for DDOT staff. This branch follows Project Management Professional (PMP) standards to support new development and maintenance of enterprise solutions. The Applications Team provides development, integration, and maintenance support of deployed solutions to support DDOT. The APM Team is responsible for gathering requirements, presenting and documenting status, and providing IT training for DDOT projects.
- The **Geographic Information System (GIS) Branch** is responsible for carrying out the District Department of Transportation's responsibilities in designing, implementing, and operating a department-wide Geographic Information System (GIS) and Spatial Data Systems.
- The **Intelligent Transportation Systems (ITS) Branch** is responsible for maintaining the infrastructure that supports ITS technology. The branch ensures the operational functions of sensors, the Advanced Traffic Monitoring Systems (ATMS) which includes closed camera televisions (CCTV), and dynamic message signs (DMS).
- The **Tech Support and Network Security Branch** is responsible for ensuring the confidentiality, integrity, and availability of all DDOT systems. The branch is responsible for identifying technical needs (mobile devices, laptops, monitors, desktops, etc.), maintaining and monitoring the network and servers, and managing active directory and user accounts and accesses. The Branch is also responsible for the security of DDOT's IT infrastructure while working directly with OCTO. The branch ensures the stability and security of DDOT's technical infrastructure and telecommunication needs.

Resource Allocation Division

The Resource Allocation Division (RAD) is responsible for strategic resource management of federal aid, operating, and capital funds to ensure funds align with District and agency transportation priorities. RAD prepares, monitors, analyzes, and executes the department's annual budget, including operating, capital, special purpose, and intra-District funds, in a manner that facilitates fiscal integrity, transparency, and accountability while maximizing efficiency and effectiveness of District resources to meet performance objectives.

RAD also includes **State Resource Planning (SRP)**, which leads the Federal budget formulation on a state level, which is the foundation of the Statewide Transportation Improvement Program (STIP). SRP also coordinates the decision-making process and acts as the key advisor to the leadership on DDOT's competitive grant applications and Bipartisan Infrastructure Law investment strategy. Additionally, SRP manages two programs related to federal planning regulations. The State Planning and Research (SPR) Program, which strategically allocates federal funds across the department for baseline planning functions related to federal planning regulations and the Compliance Assessment Program (CAP), a yearly audit of Department projects conducted by Federal Highway Administration (FHWA).

Safety and Security Division

The Safety and Security Division (SSD) is responsible for ensuring personnel safety, physical security, and coordination of emergency preparedness and management functions for DDOT. From overseeing Occupational Safety and Health programs to conducting thorough inspections at DDOT facilities and worksites, the SSD is dedicated to identifying hazards and implementing effective mitigation measures that include educating employees on situational awareness and proper safety procedures.

SSD coordinates all of DDOT's emergency preparedness and emergency management functions while serving as subject matter experts for the District's emergency operational command during planned and unplanned all-hazard events. The office reviews transportation and facility security initiatives, develops emergency action plans. Serves as the FEMA Emergency Support Function (ESF1) lead representative for all transportation functions involved in a city-wide emergency evacuation, performs public outreach for evacuation coordination, and serves on all regional and District emergency transportation planning boards.

SSD is also responsible for DDOT Facility and Infrastructure Emergency Response Plans, the Building Emergency Response Teams (BERT), Emergency Liaison Officers (ELO), and leads the National Incident Management System Incident Command training program.

Traffic Safety Administration (TSA)

The Traffic Safety Administration (TSA) combines the existing Traffic Engineering and Safety Division (TESD), the Automated Traffic Enforcement (ATE) program, and Traffic Operations Division and will be led by a new Chief Traffic Safety Engineer. This new Administration allows DDOT to pull the continuum of safety interventions into one Administration – from multi-modal safety design and construction projects to automated enforcement of traffic rules using cameras to assisting school children to cross streets to attending crash sites to assist road users. The Divisions within the TSA will include:

Automated Traffic Enforcement (ATE) Division

The Automated Traffic Enforcement (ATE) Division is responsible for camera deployment, maintenance, and footage review for 477 enforcement cameras covering speed, red light, school bus, stop sign, bus lanes, and over-sized over-weight cameras.

The Division has Operations Branch which that is responsible for review of footage and ticket issuance.

The Multimodal Project Delivery Division

Designs and constructs small to medium scale multi-modal projects to improve pedestrian, bicycle, bus, and motorist safety/mobility and helps meet the transportation demands in the District in a sustainable manner. This Division provides traffic engineering, design, and construction of protected bike lanes, Tactical Hardening projects, bus priority routes, and intersections and small corridors. This team will construct all mid-scale projects, centralizing DDOT construction activities to be led by engineers within this team. The Division will have two branches:

- The Design & Coordination Branch
- The Construction Branch

The Multimodal Safety Engineering Division

Manages all safety aspects of the District ranging from intersections to corridors through three branches:

The **TSI Branch** manages traffic safety investigation (TSI) program where citizens request safety improvements at specific sites throughout the District. This team has ward based engineers which are familiar with the ward and safety concerns of the community. They deliver a range of improvements from signing and markings to traffic calming and handle 200 requests a quarter, 800 annually, via a prioritization model based on roadway characteristics, crash patterns, and race and social equity.

The **Corridor Safety Branch** proactively improves safety along High Injury Network (HIN) corridors through roadway safety audits (RSAs) and corridor quick delivery program. The Corridor Quick Delivery program focuses on both leading projects on segments of the HIN as well as designing interim treatments for major capital corridor projects. The team participates with and guides other DDOT teams (Neighborhood planning, Bus Priority, Long Range planning, and IPMA) on safety analysis, recommended countermeasures, and design best practices. The team contributes to ASAP by identifying, recommending, and designing safety treatments for post-fatal sites and the top 20 high hazard pedestrian and bicycle locations.

The **Safety Engineering Programs Branch** works closely with FHWA to administer the Highway Safety Improvement Program (HSIP) funding which supports many DDOT safety functions and improves safety at the District's highest crash intersections under the intersection safety improvement program (ISIP). They lead the Annual Safety Program (ASaP), manage the annual traffic data collection program, handle development review aligning new construction with safety

best practices, contribute to capital programs review, maintain, and develop new standards for quick build deployments, manage the crash data program and conducts reactive and proactive assessments in support of automated enforcement deployments.

Roadway Operations and Safety Division

Manages the day-to-day traffic operations for the District through three branches:

The Transportation Management Center Branch manages a 24/7 traffic management center (TMC) to gather and disseminate traffic and emergency information using a network of cameras and other devices; works with the Roadway Operations Patrol (ROP) that responds to traffic incidents, emergencies, and roadway activities; and the traffic control officer program to prevent congestion through traffic management and enforcement; coordinates with the Safety Technician (ST)/ School Crossing Guard (SCG) program to assist students and pedestrians to safely cross intersections throughout the District.

The Traffic Control Officer (TCO) Branch has the responsibility of maintaining adequate traffic flow throughout the city by directing vehicular and pedestrian traffic in selected areas, and in neighborhoods through the enforcement of traffic regulations. The enforcement of these parking and traffic regulations ensures driver and pedestrian safety; continuous flow of traffic during rush hours and emergencies; accessibility to commercial and business services; free flow and access of emergency vehicles; and improved quality of life for residents and visitors.

The Safety Technician (School Crossing Guard) Branch has the responsibility of assisting students and pedestrians to safely cross intersections throughout the District. The primary purpose of this position is to maintain control over vehicular traffic for the protection of children and other pedestrians being directed or escorted across streets safely.

The Traffic Signals and Engineering Division

The **Traffic Engineering Analysis Branch** provides District-wide support to analyze and review multi-modal traffic analysis on current and future state transportation concerns for multiple DDOT divisions; lead City-wide signal optimization in a five-year cycle; and review maintenance of traffic (MOT) plans and transportation management plans (TMP) for construction work zone traffic operations.

The **Signals and ITS Design Branch** provides District-wide support to review signal design project plans; design and construct new signals and upgrade existing signals; update signals to implement bus priority and bike lanes; and design, install and maintain communication infrastructure such as CCTV cameras, fire optic network, permanent count stations, and dynamic signs.

Signals and ITS Maintenance Branch provides District-wide support to inspect signal construction for projects led by multiple administrations in DDOT; maintain and improve the condition of the District's traffic signals, and/or other electrical systems; and lead underground utility marking for DDOT.

Transportation Planning Administration (TPA)

The Transportation Planning Administration is responsible for intermodal planning; state transportation environmental compliance; project identification and development; DC Circulator bus and DC Streetcar service; curbside management; freight and passenger rail; public space permitting and regulation and mass transit policy, including WMATA matters.

Capital Planning Division

The Capital Planning Division is responsible for delivering studies and concept plans for capital projects in the District. The team is tasked with building out a world-class, safe, equitable, multi-modal transportation network in the District. The Division has a matrix structure leveraging teams and subject matter expertise to best deliver projects through the following three branches:

- **The Active Transportation Branch (ATB)** plans, designs, and constructs world-class pedestrian and bicycling facilities across the District. The work of ATB falls into several program areas, including bike lane design and construction, safe routes to school and sidewalk construction, trails, and pedestrian & bicyclist access and safety.
- **The Mass Transit Branch (WMATA Oversight)** provides funding and policy recommendations in coordination with PLAD. It plans and coordinates services with WMATA, including managing the School Transit Subsidy Program.
- **The Project Planning Branch (PPB)** leads, plans, and provides technical assistance to significant capital and operational transportation projects and guide those projects through their lifecycle to ensure project goals are met, supporting DDOT's moveDC, Vision Zero Initiative, and Equity goals along with other District of Columbia objectives, policies, and strategies.

Curbside Management Division

The Curbside Management Division manages and regulates the District's curbside. The Division's mission is to create safe and reliable curbside access for people and goods. The Division manages metered parking (approximately 9,000 meters) and payment, residential parking, goods and passenger loading, on-street shared mobility, and digital payment and permitting for long-term curbside uses. Curbside Management uses technology and performance-based management to dynamically manage and price curbside space to increase flexibility and efficiently manage demand. They also have expertise in curbside policies to ensure the District's regulatory framework supports efficient curbside management.

- **The Curbside Programs Branch** oversees single and multi-space parking meters, collects curbside revenue via multiple platforms, oversees major contracts related to curbside asset management and payment, and manages digital parking permits such as visitor parking.
- **The Curbside Management Branch** oversees commercial loading zones, pick-up and drop-off zones, motorcoach and intercity bus loading and operations, mobile retail vending zones, development review, and diplomatic parking.

Planning and Sustainability Division

The Planning and Sustainability Division (PSD) is committed to achieving an exceptional quality of life in the District of Columbia by encouraging sustainable travel practices, designing safer streets, and providing outstanding access to goods and services. PSD supports the DDOT Mission to equitably deliver a safe, sustainable, and reliable multimodal transportation network for all residents and visitors of the District of Columbia through a diverse portfolio of programs ranging from development review, public space activation, corridor studies, bike lane design and construction, micromobility, and environmental compliance. PSD comprises five branches:

- **The Environmental Program Branch (EPB)** provides oversight for the environmental review processes; supports DDOT staff with project delivery from project planning to construction and maintenance/operations; and coordinates sustainability initiatives from air quality planning to climate change efforts.
- **The Neighborhood Planning Branch (NPB)** promotes safety and mobility across neighborhoods in the District through a variety of efforts focused on high-quality multimodal transportation options, well-designed public space, and placemaking.
- **The Safe Routes to School and Sidewalks Branch** manages the Safe Routes to School program and the Sidewalk Gap program.
- **The Sustainable Transportation Programs (STP) Branch** manages programs that encourage and provide safe and sustainable transportation options to residents, employees, visitors, and commercial vehicles in the District of Columbia.

Public Space Regulation Division

The Public Space Regulation Division (PSRD) manages the occupancy of public space by private entities, including public utilities, through the issuance of public space permits; enforces District laws and regulations governing occupancy of public space; and serves as the main point of contact for all applicants and public inquiries regarding public space permits.

- The **Customer Relations Branch** manages internal and external communications, cash management, and the processing and roll out of special projects.
- The **Plan Review Branch** manages review of Public Space permit applications including maintenance of traffic and engineering reviews for Occupancy and Construction permits.
- The **Public Space Permits Branch** manages Public Space permit applications including Occupancy and Construction permits.

Transit Delivery Division

The Transit Delivery Division (TDD) is responsible for planning, operating, and maintaining safe, efficient, and affordable premium transit services to support and augment the District's diverse transportation systems, including the DC Circulator and Streetcar. TDD also provides funding, policy recommendations, and coordination of services with the Washington Metropolitan Area Transit Authority (WMATA).

- **The Streetcar and Sustainable Transit Branch** is responsible for managing the daily operations of the DC Streetcar system and overseeing the contract for the operation of the Streetcar system to ensure it provides safe and reliable service to the public. This Branch is also responsible for managing all environmental aspects of transit vehicles, facilities, and coordinating fleet transitions with WMATA to meet clean energy efforts.
- **The Transit Operations Branch** manages the daily operations of the DC Circulator and contract oversight, planning, and implementing system changes and upgrades to ensure safe and reliable bus service.
- **The Transit Safety Branch** provides safety oversight in concert with Federal Transit Administration regulations of DC Circulator and Streetcar systems.

DDPS Project Number	Project Title	Project Description	Cost Center (Parent Level 2)	Available Funds	Timeframe for Completion	Planned Remaining Spending
100480	KA0.GE0010.EQUIPMENT ACQUISITION - DDOT	This project is for the replacement cost for fleet, primarily light vehicles used by DDOT inspectors, field staff and engineers for work throughout the city who work on service related issues, public space permits and large DDOT construction projects.	OPERATIONS ADMINISTRATION	\$3,274,237	N/a; on-going project	\$3,274,237
100481	KA0.GE0020.EQUIPMENT ACQUISITION - DDOT	This project is for the replacement cost for fleet, primarily light and heavy vehicles used by DDOT for work throughout the city	OPERATIONS ADMINISTRATION	\$1,011	N/a; on-going project	\$1,011
100482	KA0.GE0050.PARKING METERS	Through this project, DDOT is replacing approx. 5,000 of the old coin-only single-space meters with fully networked smart meters that allow for payment via coins, credit, debit cards, and by phone. Additionally, this project will be used for the purchase of single-space as well as multi-space smart meters, meter sensors, and a parking meter management system advanced enough to allow real-time, dynamic pricing for meter patrons that will be accessed through online apps and the DDOT website. Justification: This project is necessary to provide for changing demand in parking meter operations, to replace broken parking meters, and to provide replacement meters.	OPERATIONS ADMINISTRATION	\$7,603,203	N/a; on-going project	\$7,603,203
100483	KA0.AD304C.STREETLIGHT MANAGEMENT	This subproject provides a five-year contract for the preservation of electrical system assets for the Districts major streets and freeways, including maintenance of manholes, conduit and cable, streetlight poles, foundations and lighting fixtures. Also includes Welcome to Washington Signs and navigational lights. This project renovates and replaces the Districts aging transportation electrical infrastructure that is not eligible for Federal Highway funding.	PROJECT DELIVERY ADMINISTRATION	\$1,000,455	N/a; on-going project	\$1,000,455
100484	KA0.AD306C.PEDESTRIAN & BICYCLE SAFETY ENHANCEMENTS	Improve safety for bicyclists and pedestrians through infrastructure improvements, public education and outreach, and improved enforcement.	PROJECT DELIVERY ADMINISTRATION	\$1,648,438	N/a; on-going project	\$1,648,438
100485	KA0.AF073A.MBT-2009@11)MT-F TOTTEN	The Metropolitan Branch Trail project will provide a 6.25-mile bicycle/pedestrian trail from Union Station north to the District Line along the railroad right-of-way. This trail will: connect at the District line with a route continuing into Silver Spring MD. This project is intended to serve both recreational users and commuters to meet Transportation Control: Measures (TCMs) and air quality objectives.	PROJECT DELIVERY ADMINISTRATION	\$81,988	2025	\$81,988
100486	KA0.AW000A.SOUTH CAPITOL STREET CORRIDOR	The proposed improvements to South Capitol Street are intended to realize the vision set forth in the L'Enfant Plan through downgrading South Capitol Street from an expressway to an urban boulevard and gateway to the District of Columbia's Monumental Core. A key feature of this project will be the construction of a new and architecturally significant Frederick Douglass Memorial/South Capitol Street Bridge. This structure will span the transformation of the South Capitol Street corridor and create a world class gateway between the east and west sides of the Anacostia River. Additional park lands will be created in the area adjacent to the new bridge to promote livable communities, expand recreational options, and reconnect the city to the Anacostia riverfront. Economic development opportunities will be created and improved connectivity for residents will be provided to federal installations and job centers, including enhanced access to the Department of Homeland Security, U.S. Navy Yard, Bolling Air Force Base, the Anacostia Annex, and Andrews Air Force Base in Maryland.	PROJECT DELIVERY ADMINISTRATION	\$11,515,386	N/a; master project	\$11,515,386
100487	KA0.AW011A.SOUTH CAPITAL STREET BRIDGE REPLACEMENT	This project is for the necessary protective buy/ROW acquisition for the construction of a new South Capitol Street (Frederick Douglass Memorial) Bridge. Project to remain open until all ROW issues are finalized. For the Jemal Buzzard Point Litigation, as of 2/7/23, the jury returned a verdict of \$54,258,571.43. DDOT received FHWA concurrence to initiate request to obligate \$2,448,595.48 to cover final balance of condemnation payout. Final payout including all associated interest charges paid on 8/25/2023.	PROJECT DELIVERY ADMINISTRATION	\$38,199	Project complete, but GARVEE debt service continues to be paid	\$38,199
100488	KA0.AW026A.STP-CM-888/306/FRP BRIDGES	Riverwalk Trail FRP Pedestrian & Bicycle Bridges project involves the construction of two pedestrian/bicycle bridges over CSX railroad, one on each (east and west) side of the Anacostia River. The west side bridge provides the missing link along the completed west side trail between Diamond Teague park and east capital bridge and the east side connects the Anacostia drive trail to the park side terrace trail. The east side bridge also includes trail work to connect the bridge to park side trail	PROJECT DELIVERY ADMINISTRATION	\$1,109,955	N/a; on-going project	\$1,109,955
100489	KA0.AW031C.S CAPITOL ST/FREDERICK DOUGLASS BRIDGE	This project uses both local District of Columbia and FHWA funds for the design/build of a new South Capitol St. (Frederick Douglass Memorial) Bridge and interchanges. Project also includes demolition of the existing bridge. Project achieved Substantial Completion on 5/12/23 and Final Completion on 8/9/23. The procurement documents have been submitted. TDD is working with Benita OCP/CO for this procurement, to support the review and finalization of the DC Circulator Battery Electric Bus Procurement package. Washington State Department of Transportation (WSDOT) sent Cooperative Agreement letter to DDOT OCP/CO (Benita Scott) move forward with the plan to utilize the WSDOT contract to negotiate the purchase of 17 new DC Circulator buses to replace aging vehicles in the current fleet. DDOT staff have consulted price trackers and option sheets provided by bus manufacturers via the Washington State agreement to build an estimate of bus design and cost. The current cost estimate is \$28 million, which is fully funded in the CIP (Project No. CIR14C) with \$2.6 million in Federal funding & 26.7 million in local funding. With a build time of 15-18 months, DDOT expects the vehicles to arrive in the second quarter of FY 2025.	PROJECT DELIVERY ADMINISTRATION	-\$143,209	Project cancelled (in close-out)	-\$143,209

100539	KA0.EDL17C.DUPONT CROWN PARK INFRASTRUCTURE	Description: The project will fund a bridge structure and green space over a sunken stretch of Connecticut Avenue north of Dupont Circle and south of Q Street NW. It will serve as not only a park, but as an outdoor venue for restaurants, farmers markets, movies, music, plays and other artistic and cultural events. Justification: Besides covering tunnel traffic with park space, this project would better connect the two sides of Connecticut Avenue, and add plenty of room to enjoy food from the eateries nearby. Further, since this would not be National Park Service (NPS) land, it would be possible to program this space with events much more flexibly than NPS regulations allow for the circle itself. This park could also become the new site of the Dupont Circle farmers' market.	PROJECT DELIVERY ADMINISTRATION	\$770,535	Project in design phase; construction within CIP	\$770,535
100540	KA0.EDL18C.NEW YORK AVENUE STREETSCAPES	The project purpose and scope of work propose a set of multimodal, safety and aesthetic improvements to make New York Avenue a functional, beautiful and consistent place for all transportation users, regardless of mode. 100545	KA0.GPC19C.GARFIELD PARK CONNECTOR	In 2007, DDOT initiated a process to plan and design a pedestrian and bicycle connection linking Garfield Park to the north with Canal Park and the Navy Yard neighborhood to the south as part of the District's larger efforts to promote revitalization of the Near Southeast and Anacostia Waterfront. This area has experienced tremendous growth since the initial plan was drafted in 2007, adding significant urgency to the need to optimize nonvehicular conveyance through the area to reduce traffic congestion and provide safe passage for pedestrians and bicyclists, as well as provide ADA accessibility. The project will fund updates to the June 17, 2008 Conceptual Design Report, design, and construction of the Garfield Park Connector.	PROJECT DELIVERY ADMINISTRATION	\$874,477	2026	\$874,477

100547	KA0.HTF00A.11TH STREET BRIDGE	This project serves as the debt service payment for the 11th Street Bridge GARVEE Bonds. The 11th Street Bridges design build project represents a significant step forward in DDOT's Anacostia Waterfront Initiative infrastructure endeavor. The project will improve mobility by providing separate freeway and local traffic connections to area roadways. The project provides multi-modal transportation options for cars, pedestrians, bicycles, and the future DC Streetcar; replaces existing structures that are both functionally deficient and structurally obsolete; provides an additional alternate evacuation route from our Nation's Capital; and supports the overall environmental mission of the Anacostia Waterfront Initiative. This project is the largest project ever completed by DDOT and is the first river bridge replacement in the District of Columbia in more than 40 years. Completing this project will improve travel for both local and regional traffic.	PROJECT DELIVERY ADMINISTRATION	\$11,771,319	GARVEE debt service payment	\$11,771,319

It will upgrade lights to improve safety for the residents and visitors, usually in response to District residents, ANCs, City Council and the Mayor's office, etc. This project will continue to upgrade an old infrastructure system and correct deficiencies found in the lighting system by conducting regular lighting surveys and lighting analysis to identify and remedy illumination issues in under lit or over lit areas. This may result in increase or decrease future wattage or may require complete re-design and re-spacing of lights. This also takes care of outage problems areas identified by the streetlight personnel or the streetlight maintenance contractor or as recorded by the District's maintenance management systems, Cityworks. 100613	KA0.LMM02C.BARRY FARM	The acceptance and dedication of public infrastructure improvements in the Barry Farm Neighborhood as part of the Barry Farm Redevelopment Project. The project contemplates the closure and demolition of existing infrastructure in the public right of way and design and construction of streets, alleys, sidewalks, curbs, conduits, duct banks, manholes, and related appurtenances in areas that are, or will be, in the public space. The Transportation Infrastructure and Public Space Impact Mitigation Amendment Act of 2014, effective July 23, 2014 (DC Law 20-128; DC Office Code 50-9231.02t)) gives DDOT the authority to enter into an agreement with a developer, property owner, utility company, the federal government or other governmental entity, or other person or entity for the payment for the costs of DDOT's review of a proposed project that affects the transportation infrastructure or public space in the District and provides for payment of the cost associated with the implementation of transportation infrastructure or public improvements or mitigation measures to address the project's impact on the transportation infrastructure. The Master Developer will among other responsibilities, oversee the design and construction of the roadway and utility infrastructure improvements to be constructed within areas that currently are, or will be, in public space. The public space infrastructure improvements associated with the project also include water and sewer facilities, electric facilities, and telephone and data facilities. The design and construction of DDOT Facilities will be done in accordance with DDOT Standards and Guidelines and other applicable agency standards. □ July 10, 2023 Barry Farm work is progressing slowly. Developer working on constructing Bio-retention ponds. As per my last Monday visit to the site (on July 3, 2023) I found some minor defects in the concrete work of Bio-retention ponds. 100764	KAO.OSS76A.2018(013) OVERHEAD FREEWAY SIGN MAINTENA	The District Department of Transportation (DDOT) seeks a contractor to design, furnish, fabricate erect, remove, repair , replace and provide complete traffic sign systems maintenance in accordance with the latest edition of the Manual on Uniform Traffic Control Devices (MUTCD), Standard Highway Sign, and DDOT Standard and Specifications, and retroreflectivity requirements, and approved shop drawings.	PROJECT DELIVERY ADMINISTRATION	\$3,313,779	N/a, on-going project	\$3,313,779
100765	KAO.OSS81A.2018(032) TRAFFIC DATA CENTER AT HOWARD	The primary goal of the Safety Data Center at Howard University is to conduct traffic studies, safety assessments and reviews, collect traffic data, integrate and store short-term and long-term traffic counts on a centralized database, analyze traffic data and crash data, maintain safety data center website, and conduct traffic safety and operational analyses to support DDOT's program goals and objectives.	PROJECT DELIVERY ADMINISTRATION	\$1,007,520	N/a, on-going project	\$1,007,520
100766	KAO.OSS82A.2018(033) ROAD SAFETY AUDIT PROGRAM	The road safety audit (RSA) program performs a formal safety performance examination of an existing or future road or intersection by an independent and multi-disciplinary team and identifies opportunities for the proactive improvements related to the safety of all roadway users. The multi-disciplinary team would generally include traffic and signal operations engineers, planners, FHWA, MPD, and WMATA. This is a five year project.	PROJECT DELIVERY ADMINISTRATION	\$216,896	N/a, on-going project	\$216,896
100767	KAO.OSS84A.2019(004) TMC HARDWARE AND DATA SERVICES	This is a five-year (FY19-FY23) project to fund hardware and data services to ensure reliable operations of the traffic management center (TMC). This includes hardware replacement, equipment purchases, software renewal, software replacement, and data service and application subscriptions. Obligation for each project year will be requested on a yearly basis.	OPERATIONS ADMINISTRATION	\$693,826	N/a, on-going project	\$693,826
100768	KAO.OSS85A.2019(005) TRAFFIC SIGNAL SYSTEM ANALYSIS	This project will provide traffic signal system analysis, design and on-site support services to Traffic Engineering and Signals (TESD) Division.	PROJECT DELIVERY ADMINISTRATION	\$2,674,235	N/a, on-going project	\$2,674,235
100769	KAO.OSS87A.TRAFFIC SAFETY ENGINEERING SUPPORT SERV	The consultants shall provide engineering expertise and/or day-to-day support for tasks associated with the following disciplines: traffic operations, transportation engineering and planning, and engineering/roadway design to the DDOT staff. This is envisioned to be a 5-year project, with multiple task orders and annual obligations.	PROJECT DELIVERY ADMINISTRATION	\$229,628	N/a, on-going project	\$229,628
100770	KAO.OSS89A.MOVEABLE BARRIER SYSTEM	Transitional shift travel lanes utilizing Moveable Barrier System to additional travel lanes for peak rush hour traffic movement. This is expected to be a 5 year project with a year basic, plus 4-option years contract and annual obligations.	OPERATIONS ADMINISTRATION	\$1,274,458	N/a, on-going project	\$1,274,458
100771	KAO.OSS90A.HSIP-2019(020) CONSTRUCTABILITY & WORK Z	DDOT staff review of design and construction for all projects for work zone compliance, including work zone audits. This is envisioned as a 5-year project, with annual obligations.	PROJECT DELIVERY ADMINISTRATION	\$1,758,891	N/a, on-going project	\$1,758,891
100772	KAO.OSS91A.LED SIGNAGE PROCUREMENT AND INSTALLATION	LED signage promote safety and Improve driver compliance with regulatory signs through improved conspicuity, and enhance visibility and recognition of regulatory and warning signs to drivers, and other road users.Procurement of LED signage, devices and specialized equipment will support our safety and vision zero programs.	PROJECT DELIVERY ADMINISTRATION	\$854,670	N/a, on-going project	\$854,670
100773	KAO.OSS92A.COMMUNICATION OF FIBER COMMUNICATION NETW	DDOT is going to implement fiber networks along major arterial corridors. The new fiber cables will connect to DDOT's Traffic Management Center (TMC) and the freeway fiber networks and serve as the backbone for data communication.	OPERATIONS ADMINISTRATION	\$208,061	N/a, on-going project	\$208,061
100774	KAO.OSS93A.2019(034) CRASH DATABASE	This project updates and maintains DDOT's traffic crash database and analysis system.	PROJECT DELIVERY ADMINISTRATION	\$224,361	N/a, on-going project	\$224,361
100775	KAO.OSS94A.ITS MAINTENANCE	Maintenance of DDOT's ITS systems and devices. This is envisioned as a 5-year project with a base-and-four option years contract.	OPERATIONS ADMINISTRATION	\$2,239,138	N/a, on-going project	\$2,239,138
100776	KAO.OSS96A.HSIP-2020(007) TRAFFIC SAFETY DESIGN	The District Department of Transportation (DDOT) desires to solicit assistance from Consultants for providing comprehensive data collection, analysis, and technical report writing services.	PROJECT DELIVERY ADMINISTRATION	\$268,632	N/a, on-going project	\$268,632
100777	KAO.OSS97A.TRAFFIC SIGNAL AND STREETLIGHT UTILITY L	This project will be to monitor, record, investigate, locate and mark the traffic signal, streetlight and communication infrastructure in the District of Columbia.	OPERATIONS ADMINISTRATION	\$982,675	N/a, on-going project	\$982,675
100778	KAO.OSS98A.2020(014) TMC CYBERSECURITY IMPROVEMENTS	This project is for enhancing cyber security of DDOT's Transportation Management Center (TMC) systems, including but not limited to the advanced traffic management system (ATMS), CCTV cameras, dynamic message signs (DMS), as well as all associated networks and auxiliary devices and software.	OPERATIONS ADMINISTRATION	\$178,827	N/a, on-going project	\$178,827
100779	KAO.OSS99A.NHFP-2020(024) WEIGH IN MOTION UPGRADE A	This project provides labor, materials, and equipment to construct upgrades and repairs to DC's three Weigh-in Motion (WIM) stations at (1) New York Ave EB/WB, (2) I-295 NB, and (3) I-295 SB.	OPERATIONS ADMINISTRATION	\$957,564	N/a, on-going project	\$957,564
100780	KAO.OSSA1A.2020(030) TRAFFIC SIGNAL SYSTEM MANAGEMEN	To provide ongoing software and server maintenance and support for the District of Columbia's computerized traffic signal system.	OPERATIONS ADMINISTRATION	\$404,220	N/a, on-going project	\$404,220
100781	KAO.OSSA2A.2020(035) TRAFFIC SIGNAL CONSTRUCTION CD	The purpose of the project is to improve safety and operations of all modes of transportation throughout the city at various intersections - both signalized and unsignalized. Requests for improved traffic control needs generate from multiple external entities including but not limited to the residents, road user, ANCs, Council, and Mayor's office. Traffic control enhancement needs are also generated through DDOT's internal traffic studies/evaluations e.g., ADA improvements, safe routes to school, bus operational improvement, fatal/high crash site visits, pedestrian/bike improvements etc.	PROJECT DELIVERY ADMINISTRATION	\$6,840,177	N/a, on-going project	\$6,840,177

100818	KAO.PM0R6A.2020(008) DC CIRCULATOR SUSTAINABILITY &	TDD is requesting funding to create a broad-ranging Circulator Sustainability Plan to guide the Division in purchasing electric vehicles beginning in 2020 and transitioning its fleet to 100% electric vehicles by 2045. The consultant shall provide planning and technical expertise, and assist TDD to analyze existing operational and facility conditions. They will identify challenges and opportunities of transitioning the Circulator fleet, create an action plan with options for a full fleet transition to include a timeline. The consultant is expected to analyze available and emerging BEB technology, analyze infrastructure needs for transition and conduct route and service analysis to determine how many electric vehicles must be purchased. The consultant will also conduct a feasibility analysis for the installation of a microgrid to supplement bus charging operations at TDD's new bus feasibility to ensure that operations can continue in the event of a power outage and provide a clean, independent source of power to charge the fleet. TDD requires that a consultant analyze opportunities where BEBs can be used as mobile backup power sources for resilience hubs or as emergency cooling/heating centers in the event of an emergency. The consultant will provide recommendations for piloting the BEBs for purposes mentioned previously. At the conclusion of their analysis, the consultant will provide a cost analysis, and short- and long-term recommendations for transitioning the fleet, microgrid installation and resilience pilot. The study will be completed in 12 months from when the consultant is hired.	PROJECT DELIVERY ADMINISTRATION	\$6,281	Project complete (in close-out)	\$6,281

101027	KAO.PMOY2A.SIDEWALK CONDITION ASSESSMENT LEVERAGING	This research project seeks to demonstrate the feasibility of mobile LIDAR data as a cost-effective means to support efficient inventory and condition assessment of sidewalks at DDOT. The objective of this research project is twofold: 1) to develop and validate an improved point cloud data processing method that can automatically map pedestrian infrastructures (e.g., sidewalk, curb ramp, etc.) using point cloud data, which will demonstrate its feasibility for network-level analysis (e.g., using Ward 7 as the pilot testing field; 2) if it proves feasible, to apply the developed, automated method to the city-wide mobile LIDAR dataset collected by CycloMedia and generate a complete pedestrian infrastructure map in the entire District. If successful, the outcome of the proposed method in this research project will layout a solid framework toward a sidewalk assessment management program that routinely and cost-effectively inspects, evaluates, and maintains pedestrian infrastructure in the entire District. 101104	EVALUATION OF DIFFERENT CURB EXTENSION TREATMENTS FOR PEDESTRIAN COMFORT AND SAFETY AT INTERSECTIONS	The District Department of Transportation (DDOT) has over the last few years installed several curb extension treatments on different intersections throughout the city. While DDOT has anecdotally heard that these treatments are appreciated by impacted communities, more evaluation is needed to determine the actual impacts on safety and comfort for pedestrians who cross at these locations. In this study, the research team will partner with DDOT staff to collect survey data and video data that will then be used to measure these impacts for pedestrians. Specifically, this project will focus on permanent curb extensions, tactical curb extensions, and painted mural curb extensions. Results will be compared to non-treated locations to help DDOT distill guidance about crossing treatments. 101303	AUTONOMOUS VEHICLE TESTBED PILOT DESIGN AND EVALUATION	This research project is a pilot of a "testbed" area to enable independent monitoring of autonomous vehicles (AVs) so DDOT can understand whether and how well they are able to handle the dynamic driving task in the District and their impacts on other system users. The research project will prove out the feasibility of the monitoring technologies and approaches at 3 locations and develop a deployment plan for the full testbed. It will also start the community engagement process around the notion of an AV testbed to ensure the community is a partner at the table in this effort, informing and participating in the testing and evaluation of AVs. Finally, it will build the data management structure that will enable broader use of this data by DDOT, academics, and other public agencies, as well as enabling public transparency around AV performance.
