1/13/2025	Internal	\$8,800.00	This was a re-allocation removing funds from the p-card for requisitioning - Capitol Hill Montessori
1/15/2025	In Progress	\$452,957.74	This is a Medicaid reprogramming designed to accomplish three goals: 1) Moving funds from Parent Account spending to specific Account spending, per a request from Accounting. 2) Aligning funds from their originally budgeted needs from Nov. 2023 to their present-day needs, including payments to educators and badge creation for employee services. 3) Moving funds from Supplies and Professional Services to Contractual Services, per another request from Accounting.

1 INTRODUCTION

This document presents the Fiscal Year 2025 Performance Plan for the District of Columbia Public Schools.

This Performance Plan is the first of two agency performance documents published each year. The Performance Plan is published twice annually – preliminarily in March when the Mayor’s budget proposal is delivered, and again at the start of the fiscal year when budget decisions have been finalized. A companion document, the Performance Accountability Report (PAR), is published annually in January following the end of the fiscal year. Each PAR assesses agency performance relative to its annual Performance Plan.

Performance Plan Structure: Performance plans are comprised of agency Objectives, Administrative Structures (such as Divisions, Administrations, and Offices), Activities, Projects and related performance measures. The following describes these plan components, and the types of performance measures agencies use to assess their performance.

Objectives: Objectives are statements of the desired benefits that are expected from the performance of an agency’s mission. They describe the goals of the agency.

Administrative Structures: Administrative Structures represent the organizational units of an agency, such as Departments, Divisions, or Offices.

Activities: Activities represent the programs and services an agency provides. They reflect what an agency does on a regular basis (e.g., processing permits).

Projects: Projects are planned efforts that end once a particular outcome or goal is achieved.

Measures: Performance Measures may be associated with any plan component, or with the agency overall. Performance Measures can answer broad questions about an agency’s overall performance or the performance of an organizational unit, a program or service, or the implementation of a major project. Measures can answer questions like “How much did we do?”, “How well did we do it?”, “How quickly did we do it?”, and “Is anyone better off?” as described in the table below. Measures are printed throughout the Performance Plan, as they may be measuring an objective, an administrative structure, an activity, or be related to the agency performance as a whole.

Measure Type	Measure Description	Example
Quantity	Quantity measures assess the volume of work an agency performs. These measures can describe the inputs (e.g., requests or cases) that an agency receives or the work that an agency completes (e.g., licenses issued or cases closed). Quantity measures often start with the phrase “Number of...”.	“Number of public art projects completed”
Quality	Quality measures assess how well an agency’s work meets standards, specifications, resident needs, or resident expectations. These measures can directly describe the quality of decisions or products or they can assess resident feelings, like satisfaction.	“Percent of citations issued that were appealed”

(continued)

Measure Type	Measure Description	Example
Efficiency	Efficiency measures assess the resources an agency used to perform its work and the speed with which that work was performed. Efficiency measures can assess the unit cost to deliver a product or service, but typically these measures assess describe completion rates, processing times, and backlog.	"Percent of claims processed within 10 business days"
Outcome	Outcome measures assess the results or impact of an agency's work. These measures describe the intended ultimate benefits associated with a program or service.	"Percent of families returning to homelessness within 6-12 months"
Context	Context measures describe the circumstances or environment that the agency operates in. These measures are typically outside of the agency's direct control.	"Recidivism rate for 18-24 year-olds"
District-wide Indicators	District-wide indicators describe demographic, economic, and environmental trends in the District of Columbia that are relevant to the agency's work, but are not in the control of a single agency.	"Area median income"

Agencies set targets for most performance measures before the start of the fiscal year. Targets may represent goals, requirements, or national standards for a performance measure. Agencies strive to achieve targets each year, and agencies provide explanations for targets that are not met at the end of the fiscal year in the subsequent Performance Accountability Report. Not all measures are associated with a target. For example, newly added measures do not require targets for the first year, as agencies determine a data-informed benchmark. Additionally, change in some quantity or context measures and District-wide indicators may not indicate better or worse performance, but are "neutral" measures of demand or input, or are outside of the agency's direct control. In some cases the relative improvement of a measure over a prior period is a more meaningful indicator than meeting or exceeding a particular numerical goal, so a target is not set.

6 PROJECTS

6.1 PILOT PATHWAY EXPLORERS PROGRAM

Proposed Completion Date: September 30, 2029

During FY25, we will design and pilot a plan that supports all 6th grade students on a pathway to Algebra 1. Participating schools will receive both program resources and coaching, in addition to closely monitoring student data.

6.2 HIGH QUALITY INSTRUCTIONAL MATERIALS (HQIM) IN K-5 LITERACY CLASSROOMS

Proposed Completion Date: September 30, 2029

During FY25, we will convene a Curriculum Steering Committee to support deciding on a pathway to implementing high quality instructional materials (HQIM) in grades K-5 literacy classrooms. The committee will articulate a vision for our literacy curriculum, conduct a curriculum review, and decide on an implementation plan. This will support DCPS with meeting OSSE's FY26 requirements for implementing HQIM in Elementary literacy classrooms.

6.3 DC READING CLINIC (DCRC) SECONDARY EXPANSION PILOT

Proposed Completion Date: September 30, 2025

During FY25, we launch the DC Reading Clinic (DCRC) Secondary Expansion Pilot into 4 DCPS Middle Schools. Through this pilot, DCRC will support a strategy for developing knowledge of The Science of Reading and implementing Structured Literacy-aligned intervention with our secondary educators.

6.4 FOSTERING COMMUNICATION AND ENGAGEMENT

Proposed Completion Date: September 30, 2025

In alignment with our Capital Commitment, DCPS' Office of External Affairs will build upon its Parent University initiative with a hybrid of virtual and in-person (4) experiences to inform and empower parents to partner with the district on their child's education. Additionally, DCPS will streamline its digital footprint by auditing and consolidating Central Service digital platforms and accounts, to ensure ease of family communication and resource sharing.

6.5 STRATEGIC RECRUITMENT OF INSTRUCTIONAL TALENT

Proposed Completion Date: September 30, 2025

Our priority this year is to ensure we have the instructional talent (i.e., teachers, educational aides, related service providers) to meet the needs of our school communities. Through our strategic recruitment, marketing, and selection efforts, we will work to provide a deep pool of teacher talent that is racially representative of our student population. We will also strengthen our efforts around pipeline development, credentialing oversight, and retention as we know these are key components of a sustainable talent strategy.

6.6 MAINTAIN EFFECTIVE 9TH GRADE ACADEMIES

Proposed Completion Date: September 30, 2028

Effective Ninth Grade Academies in DCPS provide rich, responsive, and well-rounded educational experiences, as well as personalized instruction, solid connections to adults and clear expectations about school for students transitioning from 8th grade to succeed in 9th grade and beyond. The goal is for students to have meaningful

reasons to engage with school, experience energetic learning to work toward individual and shared goals for future studies and work to build a mutual support network by maintaining a high-quality learning environment. By the end of school year 24-25, at least 82% of 9GA students will be on track to promote or promoted.

6.7 6TH GRADE ACADEMY

Proposed Completion Date: September 30, 2025

In SY23-24, 6th Grade Academies increased the pass rate from 83% to 90% among 11 Academy schools. This year, there is a pass rate goal for both 6GA students and all 6th graders in DCPS. The goal: At least 92% of 6GA students will pass their core classes, and at least 90% of all 6th graders in DCPS will pass their core classes. Meeting this goal will mean more 6th grade students are promoted to 7th grade and on track to graduate from middle school and high school on time.

6.8 6TH GRADE ACADEMY: CHRONIC ABSENTEEISM

Proposed Completion Date: September 30, 2025

In SY23-24, 6th Grade Academies decreased chronic absenteeism from 41% to 31% among 11 Academy schools. For SY24-25, the goal is for at least 75% of 6GA students to have in-seat attendance over 90%, resulting in a chronic absenteeism of 25% or less.

6.9 SCHOOL YEAR 2024-2029 MODERNIZATIONS

Proposed Completion Date: September 30, 2025

DCPS has shifted our existing three-year model to four years to improve modernization planning and execution. This shift gives DGS & DCPS more time to sort out the scope, procurement, permitting, site surveying, and pre-design activities. During SY24-25, DCPS will complete modernizations for about 5 campuses, continue major renovations and additions and transition some schools into swing spaces before the start of the school year.

6.10 SMALL CAPITAL PROJECTS

Proposed Completion Date: June 30, 2025

During FY25, we will deliver about 100+ small capital projects across all DC Public schools. Small capital projects are (relatively) small renovation projects that solve a specific problem or make a targeted improvement to a building. They are typically completed within one-two fiscal years and are implemented at schools to meet the occupancy, safety, programmatic, or ADA needs of staff and students. Exceptions to the one fiscal year norm are full HVAC replacements, building additions, and elevators, which take approximately two fiscal years.

6.11 FY2025-2030 BIG BOX A/V EQUIPMENT UPGRADE

Proposed Completion Date: September 30, 2025

Upgrade the audio/visual technology in all 'big box' spaces at schools (e.g., auditoriums, gymnasiums, black boxes, multipurpose rooms, etc.) including displays, projectors, speakers, microphones, sound controllers, etc.

6.12 FY2025-2030 NETWORK INFRASTRUCTURE UPGRADE

Proposed Completion Date: April 30, 2025

All DC Public Schools receive a network infrastructure update every 5-7 years. For FY25, we will upgrade the network, Wi-Fi components and bandwidth in 15-20 DC Public Schools.

6.13 IMPLEMENT CONNECTED SCHOOLS MODEL

Proposed Completion Date: September 30, 2025

To better support students feeling connected to school, we will implement and expand the Connected Schools Model with a focus on Anacostia and Ballou feeder patterns. The Connect Schools model takes a whole child, whole school, whole community approach by creating schools spaces that support a student's academic development, but also a family's overall wellbeing through access to resources related to health, employment, housing, and more. DCPS will collaborate with school leaders in the Anacostia and Ballou feeder pattern on how to leverage local school budgets to fund the Connected School Manager role and core services for students and families.

Notes:

(a) Enrolled students include those scheduled to take CTE aligned courses in Terms 3 and 4.

(b) Average GPA only accounts for students in grades 10-12th who have completed an entire semester of courses. 9th grade students do not currently have GPAs as T2 has not concluded.

(c) DCPS was unable to provide the breakdown of summer versus school year.

(d) DCPS provided a distinct count of students who completed an industry-recognized credential or earned college credit through a dual enrollment opportunity. This includes the DCPS Private Dual Enrollment Program, OSSE Consortium, Advanced Technical Center, Early College Programs, and National Ed Equity Partnership.

(e) Concentrator and Participant totals are considered preliminary as DCPS awaits verified reports from OSSE.
