To address the national bus driver shortage and improve attendance among OSSE-DOT front-line staff, the School Year 2023-2024 attendance incentive was implemented. This program awarded a \$200 weekly bonus to employees who completed a full workweek without taking unscheduled leave. Employees who called out during a workweek were ineligible for the incentive that week but could reset eligibility the following week.

¹ For the purposes of this section, we define “time-frames for processing FOIA Requests” to include the days the ‘clock was paused’ for perfecting the request. As such, multiple FOIAs were processed within the 15-25 day response time, but are counted in questions 25 and 26 (past the 15-25 day response time).

QUALITATIVE DESCRIPTION OR SUMMARY STATEMENT

Pursuant to section 208(a)(9) of the D.C. FOIA, provide in the space below or as an attachment, “[a] qualitative description or summary statement, and conclusions drawn from the data regarding compliance [with the provisions of the Act].”

During this reporting period, OSSE received a similar number of FOIA requests to the number of FOIA requests OSSE received during FY23. OSSE continues to regularly and proactively publish information which must be made public on the agency website. OSSE is highly responsive to FOIA requesters and by in large has fulfilled or otherwise closed FOIA requests within 15 business days, even without subtracting days the ‘clock was paused’ for clarification (see footnote 1), and changing FOIA Officers. OSSE closed all requests that were pending at the end of FY23. The average number of days of unfilled requests have been pending decreased from 383 at the end of FY23 to 14.25 at the end of FY24. This is because we were able to close all backlogged requests during FY24 that were left over from the legacy FOIA management platform FOIAXpress. OSSE’s FOIA Officer held a training for agency staff in FY24. All fee waiver requests were granted in FY24.

1 INTRODUCTION

This document presents the Fiscal Year 2025 Performance Plan for the Office of the State Superintendent of Education.

This Performance Plan is the first of two agency performance documents published each year. The Performance Plan is published twice annually – preliminarily in March when the Mayor’s budget proposal is delivered, and again at the start of the fiscal year when budget decisions have been finalized. A companion document, the Performance Accountability Report (PAR), is published annually in January following the end of the fiscal year. Each PAR assesses agency performance relative to its annual Performance Plan.

Performance Plan Structure: Performance plans are comprised of agency Objectives, Administrative Structures (such as Divisions, Administrations, and Offices), Activities, Projects and related performance measures. The following describes these plan components, and the types of performance measures agencies use to assess their performance.

Objectives: Objectives are statements of the desired benefits that are expected from the performance of an agency’s mission. They describe the goals of the agency.

Administrative Structures: Administrative Structures represent the organizational units of an agency, such as Departments, Divisions, or Offices.

Activities: Activities represent the programs and services an agency provides. They reflect what an agency does on a regular basis (e.g., processing permits).

Projects: Projects are planned efforts that end once a particular outcome or goal is achieved.

Measures: Performance Measures may be associated with any plan component, or with the agency overall. Performance Measures can answer broad questions about an agency’s overall performance or the performance of an organizational unit, a program or service, or the implementation of a major project. Measures can answer questions like “How much did we do?”, “How well did we do it?”, “How quickly did we do it?”, and “Is anyone better off?” as described in the table below. Measures are printed throughout the Performance Plan, as they may be measuring an objective, an administrative structure, an activity, or be related to the agency performance as a whole.

Measure Type	Measure Description	Example
Quantity	Quantity measures assess the volume of work an agency performs. These measures can describe the inputs (e.g., requests or cases) that an agency receives or the work that an agency completes (e.g., licenses issued or cases closed). Quantity measures often start with the phrase “Number of...”.	“Number of public art projects completed”
Quality	Quality measures assess how well an agency’s work meets standards, specifications, resident needs, or resident expectations. These measures can directly describe the quality of decisions or products or they can assess resident feelings, like satisfaction.	“Percent of citations issued that were appealed”

(continued)

Measure Type	Measure Description	Example
Efficiency	Efficiency measures assess the resources an agency used to perform its work and the speed with which that work was performed. Efficiency measures can assess the unit cost to deliver a product or service, but typically these measures assess describe completion rates, processing times, and backlog.	"Percent of claims processed within 10 business days"
Outcome	Outcome measures assess the results or impact of an agency's work. These measures describe the intended ultimate benefits associated with a program or service.	"Percent of families returning to homelessness within 6-12 months"
Context	Context measures describe the circumstances or environment that the agency operates in. These measures are typically outside of the agency's direct control.	"Recidivism rate for 18-24 year-olds"
District-wide Indicators	District-wide indicators describe demographic, economic, and environmental trends in the District of Columbia that are relevant to the agency's work, but are not in the control of a single agency.	"Area median income"

Agencies set targets for most performance measures before the start of the fiscal year. Targets may represent goals, requirements, or national standards for a performance measure. Agencies strive to achieve targets each year, and agencies provide explanations for targets that are not met at the end of the fiscal year in the subsequent Performance Accountability Report. Not all measures are associated with a target. For example, newly added measures do not require targets for the first year, as agencies determine a data-informed benchmark. Additionally, change in some quantity or context measures and District-wide indicators may not indicate better or worse performance, but are "neutral" measures of demand or input, or are outside of the agency's direct control. In some cases the relative improvement of a measure over a prior period is a more meaningful indicator than meeting or exceeding a particular numerical goal, so a target is not set.

5 PROJECTS

5.1 HIGH-IMPACT TUTORING

Proposed Completion Date: June 30, 2025

OSSE will further embed high-quality, high-impact tutoring (HIT) into the DC education ecosystem in FY25 by awarding grant funds directly to local education agencies (LEAs) and by contracting with tutoring providers to deliver HIT services to students in schools. OSSE-funded HIT programs aim to reach 5% of DC students in FY25 and will target students who were disproportionately impacted by COVID and have historically been furthest from opportunity to help them overcome the effects of interrupted instruction and accelerate their learning.

5.2 COURSE DATA COLLECTION SYSTEM AND PROCEDURES

Proposed Completion Date: June 30, 2024

OSSE will continue to develop its course data collection system and procedures, requiring 100% of Local Education Agencies to report data via the Integrated Data System (IDS) platform and the Automated Data Transfer (ADT) server. Key insights regarding specialized courses, course credits, and professional learning will be shared out after implementation.

5.3 EXPANDING CAREER AND TECHNICAL EDUCATION (CTE) PROGRAMMING

Proposed Completion Date: June 30, 2025

OSSE will increase the accessibility of its Career and Technical Education (CTE) programming by working towards the expansion of the Advanced Technical Center (ATC) Penn Center location and opening of an additional ATC location in Ward 8. The expansion of the Penn Center location will include partnering with Children's National Hospital to open a Pediatric Urgent Care Center while also building out an additional 10,000 square feet of classroom space. This will allow OSSE to increase the maximum annual enrollment at the ATC from 300 students to up to 450 students while also adding one to two new career pathways to our existing nursing and cybersecurity pathways. The Ward 8 Center will have an enrollment capacity of 150 and will offer two to three healthcare career pathway options aligned to the needs of our core industry partners and the District's most in-demand healthcare occupations. By the 2025-26 school year, OSSE will institute a CTE teacher licensure policy requirement and will ensure that 100 percent of CTE state course standards will include employability skills, digital literacy, and workforce-aligned industry-recognized credentials (IRCs).

5.4 LITERACY INVESTMENTS

Proposed Completion Date: June 30, 2025

OSSE will continue to implement its literacy strategy, improving literacy instruction and access to High Quality Instructional Materials (HQIM). OSSE will require Local Education Agencies to adopt a science-based reading program for grades K-2, and work to develop and distribute relevant resources and host trainings relating to structured literacy and dyslexia.

Sheet Definitions	2024 DCTAG Part E: List of institutions DC TAG students attend and number of attendees
Caveats	The data presented here reflect DCTAG application, payment, and enrollment information as of 12/19/24. Ward-level data reflect the address students provided at the time of DC TAG application. Students who did not provide address information are reported as "unknown." Students may be assigned to a different ward across years, as they may report different addresses on different applications across years. Similarly, students may enroll in different institutions across years and may count at multiple institutions. The data presented here reflect the academic year rather than the fiscal year. Numbers may not align with prior year reporting because of students may unenroll or have become ineligible after the fact. Data for public release are suppressed in accordance with OSSE's Data Suppression Policy. Sheet Definitions	Sheet Q45a contains data on ACGR 4-year cohort disengagement rates by school, sector, and the state overall. Sheet Q45b contains data on ACGR 4-year cohort postsecondary enrollment rates by school, sector, and the state overall.
Data Elements	See codebook tab.
Caveats	• This is an updated version of analyses based on updated National Student Clearinghouse (NSC). The postsecondary enrollment rates for the classes of 2023 and 2024 (on Q45b tab) have been updated with the most recent National Student Clearinghouse (NSC) and the latest DC TAG data. o In addition to updating rates for the class of 2024, we updated the postsecondary enrollment rates for the class of 2023 in this version of the report to reflect updated NSC data that became available after the submission of final responses for OSSE's spring 2024 performance oversight hearings. o For the class of 2023, this metrics reflects all postsecondary enrollments that started before or on 12/31/2023. For the class of 2024, this metric reflects all postsecondary enrollments that started before or on 12/31/2024. • Disengaged refers to students in the cohort who did not graduate, are not currently enrolled, and did not receive an IDEA Certificate or State Diploma. • Missing spaces indicate the schools did not offer 12th grade in those years due to either school expansion, contraction, or closure. • College enrollment rates reported in this file reflect the percentage of students belonging to the 4-year ACGR cohort for SY2023/24 Accountability who enrolled in a postsecondary institution based on postsecondary enrollment data available to OSSE as of January 2025. The DC School Report Card reports different measures of postsecondary enrollment (postsecondary enrollment rates for 6 and 12-months within graduation date among graduates [regular High School diploma earners] of a given year). • Data are suppressed in accordance with OSSE's Data Suppression Policy. In instances when a percentage is top- or bottom-coded (e.g., 99.5% with a denominator of 150), OSSE suppressed the numerator (i.e., "Dually Suppressed" (DS)). Data that has been blinded in previous years will remain blinded to reflect historic suppression policies. Sheet Definitions	2023_Q92A: IEP High School Diploma, Certificate, and Other Outcomes by LEA and Non-Public Status 2024_Q92B: IEP Students Enrolled in College and Other Postsecondary Pathways by School
Caveats	(a) The methodology aligns with the universe of students who exited per federal reporting business rules (EdFacts FS009) . Only students aged 14 or older as of exit are included in these counts. Data are suppressed at n<10. The most recent available data are from SY21-22 and SY22-23 (as reported in January 2024). (b) The universe of students who exited is consistent with EdFacts FS009 and IDEA Annual Performance Report (APR) Indicator 14, lagged by one year. Students who enrolled at a diploma-granting high school after their exit year are removed. Students who enrolled at an adult LEA were included under “training programs.” Students can be counted in multiple types of outcomes. Data are suppressed at n<10.
