The Grantee shall maintain a written record of each encounter with each individual requesting housing counseling, including client intake data, program applications, action plans, referrals and follow-up. The record shall fully describe the nature of the request for housing counseling. As a part of the provision of these service, the Grantee shall conduct a complete needs assessment of each individual based on (a) the initial request for housing counseling; (b)the Grantee's additional knowledge of the individual and (c) overall housing conditions in the Grantee's target area. The needs assessment shall be written and it shall be maintained within the Grantee's record of counseling provided.

The Grantee shall develop and implement a strategy for follow up and conduct a final assessment of the impact of the services provided. Specifically, the grantee shall conduct the following activities:

SECTION 3: PROGRAMMATIC REQUIREMENTS

3.1 Eligibility for Federal Funding

The services in this RFA will be conducted through grant agreements using Federal funds (Community Development Block Grant (CDBG) and, as available, some District Funds. The Department will provide a full informational briefing to the awarded grantee(s) about the grant funding source's ongoing administrative and programmatic requirements. Whether grants awarded under this RFA are funded locally or with federal funds, all grants will be managed to the higher standards and requirements whether Federal or District.

Federal regulations have established national objectives requiring all CDBG-funded activities beneficiaries to be at least 51% low- and moderate-income persons or households. The national objective is achieved through "limited clientele benefit"—that is, by verifying the incomes of each beneficiary of the services provided. The applicant must demonstrate that it has the capacity and the intention to verify the household incomes of beneficiaries to meet the national objective of providing benefits to 51% of low- and moderate-income persons.

Client income certification is also an important element of ongoing program activity for many DHCD housing programs. (See Section 3) Applicants should review in detail the federal income requirements for programs, activities, and grantee (sub-recipient) eligibility under the Community Development Block Grant program regulations at 24 CFR 570. 200-210,

Please Note: Specifications and programmatic requirements may change from time to time during the award period at the discretion of the Department.

The following describes seventeen services in the Housing Counseling Program. These constitute the services for which the Department is seeking Applicants to provide services to DC residents. Applicants should select at least one service for which they are applying; however, the Applicant may select more than one. The Department is not obligated by the Applicant's selection to make an award. Applicants are responsible to demonstrate their capacity in their application to provide the services for which they have applied. Capacity includes staffing patterns including qualifications and experience, other funding resources, case management systems and programmatic activities. Historical data can also be considered in demonstration of organizational capacity. Applicants should be aware of Legal Citations noted throughout this section as well as the references to the Code of Federal Regulations (CFR).

CATEGORY A: HOMEOWNERSHIP

Legal Citations Governing Program Area in Category A

Applicants to provide services in Category 1 should review in detail the following legal citations governing the District's homeownership programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for homeownership pursuant to the relevant citations.

- Home Purchase Assistance Program: DC Code 42-2601 and 14 DCMR, Chapter 25
- Employer-Assisted Housing Program: DC Code 42-2501 and 14 DCMR, Chapter 36
- Inclusionary Zoning: Legislation Pending, Bill 17-586, 17-618, 17-619

A1: HUD Housing Counseling
This activity is open to applicant organizations which are HUD approved employing one or more HUD certified counselor(s). Such counseling is often (but not exclusively) in the pursuit of homeownership or credit repair and improvement or to improve their housing condition.

Grantees of this service should be familiar with 24 CFR 5.100 and with 24 CFR 214.

Housing counseling is independent expert advice provided by a HUD certified housing counselor (24 CFR Part 214) customized to the needs of the client. It is aimed at addressing housing barriers and providing support to the client to achieve their housing goals. This counseling service must include: (1) intake (2) financial and housing affordability analysis (3) an action plan[2] and (4) follow-up counseling to implement the action plan and achieve its stated goals *(24 CFR 5.100).*

The action plan should identify the steps needed for the client to achieve his/her housing goals. These actionable steps include, but are not limited to, review of the client's credit report with explanations of its meaning and items that impact (or may improve) the credit score, creation of a budget and methodologies to track one's income and spending, debt reduction planning, and savings planning. Follow-up should track the client's progress toward the goals of the action plan. Other programs and services including group educational opportunities may complement the one-on-one counseling with a certified counselor. Counselors, therefore, may appropriately make referrals to programs and services as well as to group educational activities that support and implement the goals of the action plan.

Counseling organizations are required to maintain case files including items 1-4 above as stated in 24 CFR 5.100. It is critical that files with records and case notes be kept in such a way that if a client's counselor is no longer available, either temporarily or permanently, another certified counselor in the organization can understand based on the file the client's circumstances, action plan, progress and where the client is in achieving his/her housing goals.

Organizations providing this service should have working experience with credit counseling and repair, with consumer credit bureaus and consumer credit laws. Ideally, they should be familiar with creditor tactics, liens, judgments, repossessions, and other obstacles to credit improvement.

It is critical for the counseling organization to make efforts to keep the client engaged in the counseling process and such attempts and outreach should be documented in the case file.

In accordance with HUD requirements, counseling organizations may close files if a client does not respond to outreach efforts over 60 days. The last outreach attempt should document that the file will be closed as of a specific date if nothing further is heard from the client. If the client should return to client after the 60 days, a new file should be opened.

[2] Except for reverse mortgage counseling.

Post-purchase follow-up

a) Grantees must continue their counseling relationship with customers once they become homeowners. This follow-up should continue for a period of time after purchase to ensure the homeowner's housing stability.
b) Grantees may make use of post-purchase programs using either their own programming or making referrals to other Grantees who provide such programming (*e.g.* B1 General Home Management and B2 Foreclosure Counseling).
c) If problems arise, it will be the grantee's responsibility to address them quickly as time is of the essence, and to address them as efficiently as possible. Where the District's investment is involved, counseling should include ways to protect the DC investment.
d) When working with clients who have an HPAP deferment period ending, Grantees must provide dedicated counseling services to those borrowers. In particular, grantees will be asked to make an updated assessment of each borrower's financial status regarding the appropriateness of continued deferment.
e) Potential delinquency, or foreclosure prevention, counseling will be provided to any borrower who is experiencing difficulty.
f) If problems continue with these loan clients, this counseling will become a home preservation activity.

A2 8-Hour Homebuyer Education Class (HBE)

This activity is open to applicant organizations which are HUD approved counseling organizations employing one or more Hud certified counselors.

The Department seeks HUD Approved organizations to provide the 8-Hour Homebuyer Class. This is in support of the Department's many programs for which the 8-Hour Homebuyer Class is a requirement, and also for other DC residents who seek to take this class in preparation for homeownership and for their knowledge.

Organizations should take as a serious obligation to conduct this class with knowledge staff (HUD certified counselors). The class is conducted in a traditional in-person setting or in a virtual online setting.

Those who successfully attend and complete the class should be provided with a DHCD certification (in the format approved by the Department) indicating their completion of the class and dated appropriately. Monthly attendance and award of certificates should be reported to the Department monthly. The class should be presented frequently enough to meet programmatic needs of DHCD programs. Class dates should be provided to the Department for inclusion on the DHCD calendar. Presentations should be given by staff, not outside speakers. Grantees are welcome to collaborate in the conduct of these classes.

A3: Intake for DC Homebuyer Programs (HPAP/EAHP/NEAHP)

The Home Purchase Assistance Program (HPAP) is the primary DHCD program for first-time homebuyers. HPAP provides interest-free loans that include closing cost assistance to eligible applicants. Under this program, homebuyers may have the opportunity to purchase houses,

condominiums, or cooperative units in the District. DHCD has additional homeownership programs which are associated with HPAP, and which are targeted to specific populations or geographic areas or may meet specific home buyer needs.

The satellite programs are:

(1) The Employee Assisted Housing Program (EAHP) provides assistance to District of Columbia Government employees, who are first-time homebuyers in the District; and

(2) The Negotiated Employee Assistance Home Purchase Program (NEAHP) provides down payment and closing cost assistance to certain District of Columbia Government employees whose position is covered by specific union collective bargaining agreements.

Wherever the acronym "HPAP" is used, the same applies to the EAHP and NEAHP programs.

Prior to HPAP Application

Clients interested in HPAP assistance who have a pre-approval from a lender, should be assisted with making an application to the HPAP as expeditiously as possible. Those without a pre-approval letter from a lender are required to engage in HUD Housing Counseling (see A1 above) in order that they have the benefit of credit counseling and homeownership preparation. The action plan should include the actionable steps needed to ensure success as a homeowner and to achieve a pre-approval letter from a lender. Once a pre-approval letter has been obtained, the client with the Grantee's assistance should proceed to making their application to HPAP.

Application Process

For grantee organizations, this relationship management function includes working with first-time homebuyers throughout the homeownership application, preparation, purchase, and post-purchase process. Counseling will be focused on low- and moderate-income populations.

Once HUD credit counseling is completed the HPAP process includes:

(Optional) Applicant organizations may conduct pre-purchase seminars which include information and requirements of the HPAP programs. A DHCD Certification should be provided to attendees and recorded with DHCD.

Application Intake includes document collection of those documents needed. These should be collected in person or by means of a secure portal. Email is not considered a secure means for transmission of information which could be used for identity theft or other criminal activity. Drop-off at a staff office to an employee is acceptable.

Once the application package is complete, the organization submits to the appropriate HPAP administrator.

Homebuyer Education (8-hour class) (A DHCD Certification should be provided to 8-hour Homebuyer Education attendees and recorded with DHCD.)

Post-Purchase follow-up (Records of those follow-ups should be maintained by the organization. See Post-purchase in Service A1)

Organizations will be responsible for: (1) the application process, which includes delivery of completed applications to the HPAP Administrators; (2) completion of the application form itself and collection of all required supporting documentation, and (3) maintaining performance and reporting data, and databases as needed by the Department.

A4: Inclusionary Zoning Orientations

Introduction to IZ/ADU Programs:

The District's Inclusionary Zoning (IZ) Program requires a certain percentage of units in a new residential development, or a substantial rehabilitation that expands an existing building, be set aside as affordable units. The goals of this program are to increase the supply of affordable housing for low- and moderate-income households, to support the creation of mixed-income communities, to prevent rising home prices from driving out low- and moderate-income residents, and to leverage the expertise and capacity of the private market to develop affordable housing.

Affordable Dwelling Units (ADUs) are defined as for-sale and for-rent homes that are locally restricted for occupancy by households whose income falls within a certain range and are generally offered at a below-market rate. ADUs are generally produced in exchange for zoning relief, tax incentives, public financing, and/or the right to purchase or lease District-owned land. Specific ADU provisions, such as the affordability period, income limits, and resale restrictions, are set out in deeds, covenants, land disposition agreements, ADU administration plans and other originating documents.

ADU provisions have historically varied from project to project, as each is a result of a unique negotiation or project approval. However, ADU restrictions are becoming more standardized and more similar to standard IZ requirements.

Organization roles and responsibilities:
Provide mandatory IZ Orientation. The department's PowerPoint presentation must be utilized. Presentation and answers to participants' questions must conform to agency guidelines.

DHCD seeks organizations which will provide programmatic rental and homeownership counseling services in support of both of the above programs. Information about these

programs is available through DC Housing Search https://www.dchousingsearch.org , counselors will be required to utilize DC Housing Search, and train potential customers in how to search for affordable housing through DC Housing Search.

Grantees will be required to become familiar with the program requirements and procedures, as required by DHCD. In the last few fiscal years, the IZ program has produced approximately 400 new affordable units each year.

Orientation:
In particular, organizations are required to conduct IZ Orientations to help residents to be familiar with all programmatic requirements for the IZ program.

Organizations must conduct and coordinate this mandatory orientation session in a traditional and virtual classroom settings. They must provide interested applicants/residents with the relevant terms of the program, including next steps and other information as required by DHCD.
DHCD currently provides standard slides and certificate templates to use for this orientation and will provide training to grantees.

Completion of this orientation class is mandatory before an individual may register for the IZ program and individuals must renew registration every two (2) years to remain on the IZ registration list.

The class must be conducted at least monthly beginning within 30 days after the grantee's application is approved. Coordination of this class will include publishing upcoming class dates, accepting reservations via phone, email, or other method, allowing walk-ins if space is available, providing attendees with a certificate of completion (in a format approved by DHCD) upon completion of the class and providing at least monthly attendee data to DHCD. It will also include ensuring that attendees receive all required training materials, and shall be presented by grantee staff, not outside speakers.

Grantees must train program participants in the terms and specifics of the IZ and ADU Programs (training guidance will be provided by DHCD) and provide additional pre and post homebuyer education training.

Grantees must also provide data to DHCD on a regular basis as determined and requested by DHCD, including but not limited to the names and contact details for individuals who have received a DHCD certificate and the number of attendees at IZ orientations.

A5: Income Certifications for the IZ/ADU Units Programs

The agency seeks two organizations to provide income certifications for participants in the Inclusionary Zoning and Affordable Dwelling Units programs. Income certifications are expected to be conducted under a uniform process prescribed by DHCD and following HUD Part 5. DHCD has established requirements for approving Certifying Entities, including

specific IZ and ADU training.

Grantees are expected to become Certifying Entities pursuant to DHCD requirements. Grantee organizations will be required to ensure that program participants understand that income and occupancy restrictions apply to their IZ units and ADUs. Grantees will also be expected to complete income certifications for newly selected households and for renewing tenants. Grantees will be working closely with individuals, property management/leasing staff, sales agents and DHCD. DHCD will provide the necessary forms and procedures, but Grantees will collect the necessary paperwork from individuals and complete the income and household size verification process. Upon successful certifications, Grantees will notify DHCD and the sales/leasing staff.

Such restrictions may include but would not be limited to: (1) the specific affordability period, (2) conditions for, or prohibitions against, subleasing, and (3) resale restrictions. Ongoing outreach and assistance to occupants of IZ units and ADU is required in the areas of programmatic requirements and homeownership counseling.

A6: Income Certification for PADD Applicants

The Property Acquisition and Disposition Division (PADD) encourages vacant and/or abandoned property owners to rehabilitate and/or occupy their properties. PADD acquires vacant, abandoned, and deteriorated properties through negotiated friendly sale, eminent domain, donation, or tax sale foreclosure, when owners are unwilling or unable to maintain their properties. PADD also disposes of properties in inventory by selling them to individuals or developers to be rehabilitated into high-quality affordable and market-rate single-family and/ or multi-family for-sale or rental housing in District neighborhoods.

For DHCD, the activities of this Division create affordable homeownership and rental opportunities for low- and moderate-income households. Grantees must counsel these households as they qualify for and occupy these new homeownership and rental units. DHCD seeks one or more organizations which will provide counseling or training services for affordable units made available through PADD.

Because PADD units are not produced through a traditional homebuyer program, an intensive marketing and outreach effort to our target population will be required of grantees. Counseling services will also involve conducting income certifications and re-certifications for purposes of admission and continuing participation in this program. Income certifications are expected to be conducted under a uniform process prescribed by the Department. For PADD, grantees must ensure that program participants understand that income, or occupancy, restrictions apply to their unit. Such restrictions may include but would not be limited to: (1) the specific affordability period; (2) conditions for, or prohibitions against, subleasing; (3) potential rent increases; and (4) resale restrictions. The specific unit covenant

terms will be communicated to stakeholders by the Department, but grantees must facilitate communication with stakeholders.

A7: Public Services: General Coaching and Information

Public Services may be undertaken by Applicants which have not yet obtained HUD Approval and may not employ a HUD certified housing counselors. (HUD Approved organizations who are applying for A1 or A2 do not need to apply for this service, since they are able to provide these Public Service activities in connection with their other lines of services.

These activities are frequent but not exclusively in a group setting. These may be virtual or in-person, as long as an in-person option is provided. Grantees may utilize Homebuyer Clubs as an effective tool for keeping clients engaged in homebuyer preparation when a long-term period is needed for better positioning to be a first-time buyer.

They may include group trainings on understanding credit and credit reports and involve savings programs.

Public service staff are required to train clients to utilize available tools, such as DC Housing Search https://www.dchousingsearch.org to locate affordable housing for sale and for rent.

CATEGORY B: COUNSELING AND TRAINING FOR HOME PRESERVATION

B8: General Home Management (Post-Purchase Non-Delinquent)

Post-purchase counseling is essential for Homeowners who have purchased their homes, are not delinquent in their mortgage payments and would like to remain successful by creating a realistic financial plan to avoid financial pitfalls and protect and retain their homeownership. Post-purchase counseling is essential to understand local post-purchase behavior, especially low-moderate income homeowners, that can be supported by education and supportive programs to ensure recent homeowners understand what to do in the event of hardships. Organizations that provide post-purchase counseling sessions and education workshops will ensure their topics consist of the following:

1. Prepare a maintenance plan for major household systems and repair strategies.
2. Emergency preparedness plan to assist client in case of disaster.
3. Understand consequences of not paying taxes, HOA payments or community assessments.
4. Explain the benefits of establishing an emergency fund and retirement or tax-incentivized accounts.
5. Provide knowledge of home improvement financing options like HELOCs and give counsel on how to apply for additional financing to renovate property.

6. Access the client's understanding of the process of refinancing the home and incurring more debt.

This counseling activity may include, but not be limited to, appliance warranty disputes, contractor disputes, disputes with mortgagors, will and estate issues, including transfer-on-death deeds, etc. In this service, grantees must serve as advisor-educators and are prohibited from giving legal advice. Grantee activities should focus on low—and moderate-income populations.

B9: Foreclosure Counseling

Homeowners who are delinquent in loan payments (as well as those in danger of delinquency) need to know what options are available to them. Similarly, those in foreclosure need to know their options and resources that may assist them, especially if available legal services are available.

Organizations are required to provide foreclosure prevention counseling that helps homeowners at risk understand the foreclosure process in Washington, DC, determine their legal rights and identify options to avoid foreclosure.
Organizations will assist struggling homeowners with loss mitigation, communicate with mortgage servicers and provide services such as the following:

1. Provide advice and coaching to assist clients with creating a budget based on financial goals. Assess the current financial situation and develop short and long-term strategies to reduce expenses and debt to achieve client goals.
2. Explain loss mitigation. Explain the requirements of a loss mitigation package and evaluate the client's loss mitigation options for FHA and non-FHA loans.
3. Provide examples of mortgage default scams and ways to avoid being a victim.
4. Explain the consequences and costs associated with a foreclosure, short sale, or deed-in-lieu.
5. Explain the foreclosure timeline and devise a plan if the client is unable to stay in the home and assist the client in mortgage default recovery. Demonstrate the impact of a mortgage default.
6. Work with displaced residents seeking referrals for housing.

Grantees work with homeowners who are delinquent in their mortgage payments, or who are in foreclosure, or in post-foreclosure. These counseling services are also offered to owners of multi-family properties, and ownership associations. This counseling serves as a central element of DHCD's overall foreclosure prevention strategy.

It is critical to address the District's foreclosure crisis. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Grantees also work with the Department of Insurance Securities and Banking (DISB) to protect clients against scam operations that prey upon residents who are subject to foreclosure. Grantee organizations extract data for outreach and targeting efforts from the Office of the Recorder of Deeds, which provides a listing of all official foreclosures in the

District on a weekly basis. DHCD seeks one or more organizations that will provide foreclosure counseling services which include, but may not be limited to, all of the above-described foreclosure prevention activities.

For grantees, this counseling function means working with troubled homeowners, utilizing all foreclosure prevention or mitigation tools available, and if necessary, working with customers throughout their foreclosure or post-foreclosure process. Grantees must provide full assistance and advice to troubled homeowners. Grantees will be responsible for: (1) assessing the homeowner's circumstances, (2) educating the homeowner about the full implications of mortgage delinquency and foreclosure (3) exploring and providing options of action for the homeowner (4) providing tools or alternative support that may further assist the homeowner (5) developing and executing a best action plan for either saving the home or undertaking the best course for the homeowner, and (6) tracking the results of their counseling efforts. In addition, grantees will provide ongoing performance and reporting data and databases maintained.

Post-Foreclosure Counseling: It is critical that grantees continue their counseling relationship with customers, even if the home cannot be saved. Grantees must follow up with troubled homeowners for a period of time after any action plan has been executed. If the home has not been saved, counseling should be made available, and if necessary, referral to other needed services. If the home has been saved, counseling follow-up is also necessary to ensure that the ongoing action plan is being properly implemented. If more problems arise, it will be the grantee's responsibility to address them as quickly and as efficiently as possible.

With the passage of the Saving DC Homes from Foreclosure Emergency Amendment Act of 2010, troubled or delinquent District homeowners have the right to engage in mediation prior to foreclosure. As a result, DHCD requires grantees to provide counseling related to this mediation process.

Grantees must be familiar with the Law, its regulations, and the mediation process which has been implemented by the Mediation Administrator at the DC Department of Insurance, Securities, and Banking. Grantees must educate troubled homeowners in the decision factors related to mediation election, and, if necessary, prepare them for mediation. In some cases, counselors may be asked to accompany, or represent, troubled homeowners in the mediation process. Grantees must ensure that all customers who elect mediation complete and submit proper documentation in a timely manner. Grantees must ensure that the best interests of troubled borrowers are protected throughout the mediation process. Finally, DHCD expects grantees to follow-up after the mediation process is complete to ensure that any final mediation agreement is properly implemented.

B10: Eviction Counseling

Applicants who have HUD certified counselors or NeighborWorks America foreclosure certified counselors may offer this service. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Training should also include knowledge of laws and legal procedures governing eviction.

Eviction has long created housing instability for renters, and especially among low- and moderate-income households. For those at the lower end of the economic scale, eviction has caused not only housing instability but also employment insecurity and homelessness. Studies have shown that lack of access to legal representation has resulted in markedly different and detrimental outcomes as compared to renters who have legal representation. After legal representation, the next most effective range of services includes alternative dispute resolution (or mediation), knowledge and guidance in court navigation, and effective management of legal and tenant-landlord documents. In addition to housing instability, eviction also has credit impact for the tenant.

It is critical to provide those in danger of eviction with counseling to make informed decisions. This includes access whenever possible access to legal services. Also, appropriate training includes information about tenants' rights and obligations, the credit impact of eviction, use of payment plan agreements, understanding of court processes and procedures, and access to alternatives to court procedures. When tenancy is lost, counseling for housing alternatives is needed and a path forward to credit repair.

B11: Single-Family Residential Rehabilitation Program

The Single-Family Residential Rehabilitation Program (SFRRP) administers grants to District homeowners for roof repairs and for modifications to eliminate barriers to accessibility for persons with mobility or other physical impairments. Projects approved for SFRRP require a covenant on the property to protect the District's funding of the project.
DHCD seeks one or more organizations which will provide application intake services to SFRRP applicants throughout the grant process.

> **Mandatory Counselor Intake Training:** Grantees for this line of service are required to attend training with the SFRRP team in September to be introduced to updated aspects of the SFRRP for FY25. It is critical that the grantee have a solid understanding of the updated program and the requirements for applications. Therefore, the September training is mandatory for SFRRP intake counselors.
>
> **Application Period:** Applications for SFRRP will only be taken between October 1, 2024, and December 31, 2024. To be considered applications during this period must be complete. Lack of required documentation or information will not "hold a place" in the program if not provided before the December 31, 2024. The Department at its sole discretion reserves the right to close the program prior to the deadline if funding is depleted or no longer available.

Information Session for Applicants: The Department will provide Grantees with a PowerPoint presentation outlining the program and its requirements. Intake counselors are required to use this presentation with all potential applicants either in a group sessions (such as an Orientation) or in a one-on-one session with the potential applicant.

Grantee's and Counselor's Responsibilities: (1) use the Department PowerPoint presentation to present the program to potential applicants, answering questions from residents interested in the program; (2) complete the application document and collection of **all required** supporting documentation *(incomplete applications will not be accepted)*; (3) post-application and post-grant support; and (4) providing performance and reporting data as required.

45 Day Period: It is critical that no application be uploaded in the SFRRP portal unless it is complete with all required documents and intake form completed. If an incomplete application is uploaded in the portal, the SFRRP staff will notify the counselor and the applicant that the application cannot be accepted. The notification state that what is complete and state the **applicant has 45 days** to provide the requested information including documents. After 45 days if the application remains incomplete, the application will be closed as incomplete for funding.

Application Portal: Counselors will need to provide their name and contact information (e.g. email) when uploading in case SFRRP program staff need to follow up.

Legal Citations Governing Program Area for Category B:

Applicants to provide any service in Category B should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

- Lead Safe Washington 24 CFR, Part 35, 24 CFR, Part 85.37, Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992
- Single Family Rehabilitation 14 DCMR, Chapter 28 First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
- Saving DC Homes from Foreclosure Emergency Amendment Act of 2010 (DC Act 18-635; 57 DCR 12404)

B12: Legal Services for Homeowners and/or Coop & Condo Associations

The Department seeks organizations to provide legal services to provide one or both of the services noted below. Grantees will conduct outreach to low- and moderate-income populations in need of these services.

- Legal Services to Seniors
  Seniors who are homeowners can be assisted by the Applicant to have legal services to assist Seniors to avoid housing instability or the loss of ownership of their home. In addition to their own attorney staff, Applicants may seek *pro bono* services from other members of the Bar.

- Legal Services to Coop-Condo Associations
  Legal services may be provided to Cooperatives and/or Condominiums ("Associations") to ensure housing stability. If Associations have problems in areas of legal entity status, required legal or financial filings, compliance issues, risk management concerns, board and member training, best legal practices, and collection of association fees (to name of few), such issues may threaten the member's housing stability, and the owners' (or members') investment in their properties. Selected applicants will provide legal services to Associations in low- and moderate-income census blocks to mitigate these concerns, to preserve housing stability of owners and to ensure well-functioning Associations and Boards.

B13: Technical Assistance for Coop and Condo Associations

The Department seeks one or more organizations to provide technical assistance to Associations. The situation many Associations may face is a need for training in best practices of Association management. Training in best practices and frequently encountered problem situations may be offered by the grantee not only to the Association Board but also to the owners in the Association. Association boards and their member owners frequently face issues of association fees not being paid, lack of income to fund reserves, special projects that would require a special assessment, and decisions of taking court action or being the defendant in a court action. These are just a few of the legal issues which may arise for the Association, in addition to the more routine matters of by-laws and required legal documents for the operation of the Association.

B14: Technical Assistance for Landlords of Small Rental Properties

Landlords of small rental properties face enormous challenges. They frequently lack the staff and the resources of large multi-family properties to deal with the many details of operations and asset management. Small unit properties cannot readily absorb mistakes or challenges.

In a ten-unit property, one vacancy is a 10% vacancy rate, while one unit in a 100-unit property is 1% vacancy rate. Yet, small unit properties are often the affordable renter properties. To preserve this housing stock as an affordable option, DHCD seeks grantees to provide Technical Support to Owners of Small Unit Properties (of 30 units or less).

Services can be provided through group training as well as through one-on-one counseling. Like many small business owners, owners can often benefit from a better understanding of accounting practices and financial statements (balance sheet, income statement, cash flow report). Knowledge of financing options is another common to many business owners. Topics such as these are particularly suitable to the needs of owners.

1. **Property Management Software**: Landlords often need help selecting and implementing property management software to track rent payments, maintenance requests, tenant information, and other critical operational data.

2. **Legal Compliance**: Guidance on navigating complex local, state, and federal housing laws and regulations related to fair housing, security deposits, evictions, and other landlord-tenant issues.

3. **Financial Management**: Guidance with accounting, tax preparation, and financial planning specific to rental property ownership and operations.

4. **Maintenance and Repairs**: Access to vetted contractors, tradespeople, and service providers to handle property maintenance, repairs, and upgrades in a timely and cost-effective manner.

5. **Tenant Screening and Selection**: Guidance and best practices with tenant screening processes, background checks, and selecting responsible renters to minimize vacancies and evictions.

6. **Marketing and Leasing**: Help with listing vacant units, advertising, showing properties, and executing leases to keep units occupied.

7. **Emergency Response**: Guidance on developing emergency plans and protocols to address unexpected events like natural disasters, property damage, or tenant issues.

8. **Asset Management Issues**: The ratios and metrics of asset management for multi-family properties provide a helpful guide to best practices. For example: Many landlords are unaware of the effect that certain metrics have in their properties. Slow "Make-Ready" times, refers to the length of time it takes to prepare an apartment to be shown to prospective tenants. Similarly, "turn time" refers to the times it takes to find a renter and receive the first month's rent. Slow turn times are also a drain on resources. When there are slow "make ready" and slow "turn times" the combined effect can be detrimental for the property's future. High turn-over rates among renters is another draw on the income. Other issues and topics include: What to do when you have a tenant who is not paying rent? What are the alternatives to eviction? How do the Court work? Are there pre-eviction resources? What legal services are available to the owner?

CATEGORY C: TENANTS AND TENANT GROUPS: SERVICES RELATIVE TO Tenants Opportunity to Purchase Act, Rental Conversion and Sale Division, and Rental Accommodations Division

The DC Tenants Opportunity to Purchase Act (TOPA) seeks to protect tenants and tenant groups from displacement due to sale of the property. The law allows tenants to purchase their apartment building. Tenants have the choice of maintaining the apartments for rent or converting to cooperatives or condominiums. DHCD seeks to preserve affordable housing in the District and limit displacement of low- and moderate-income households. For groups that choose coop or condo conversion, this provides a path to homeownership.

DHCD provides both financial assistance and technical assistance, as well as specialized organizational and development services, for tenant groups who are pursuing the purchase of their apartment buildings. Through DHCD's Development Finance Division, organized tenant associations may be provided with seed money, earnest money deposits, and acquisition and/or rehabilitation assistance. After acquisition and rehabilitation, DHCD also provides ongoing Board training and property management support to the newly formed cooperative or condominium Boards.

C15: TOPA: Pre-purchase Training

DHCD seeks one or more organizations which will provide pre-acquisition organizational and developmental counseling and training to tenant groups or tenant associations in support of their intent to purchase their building. These tenant groups must be preliminarily qualified as eligible for DHCD's Tenant Purchase Technical Assistance program. Grantees must provide the following services to tenant groups:

a) establishment of a tenant association.
b) selection and appropriate training of Board members.
c) training of captains (court, building and floor).
d) training in roles and functions of committee members; (5) training tenant groups in detail about the building purchase process.
e) training tenant associations in property management techniques.
f) provide training to the tenant association on each type of ownership; and conducting surveys of tenant associations to determine the appropriate form of ownership for their building (cooperative or condominium).

It is critical that Grantees in this service maintain an outreach to educate and inform low- and moderate-income tenants about their rights and opportunities provided by TOPA. Grantees are encouraged to make this a central aspects of their marketing plan, and to create

opportunities as well as avail themselves of opportunities to participate in educational outlets to reach tenants. Collaboration with other Grantees in this or similar service lines is encouraged. Grantees should participate in DHCD when and as those opportunities for outreach are available.

While training the tenant association, the grantee must be able to prepare and submit appropriate documentation required in the purchase process, including but not limited to tenant profiles and feasibility analyses, response to Notice of Sale of Building, preliminary development, acquisition, and rehabilitation plans, and operational plans.

The grantees must have skill and experience in negotiating the lease or purchase of the building. In addition, grantees must assist tenant groups in procurement related to the development, purchase, and rehabilitation process, including but not limited to attorneys, architects, engineers, financial and developmental consultants, private developers, appraisers, and property managers.

C16: TOPA: Post-Purchase Training

DHCD seeks one or more organizations which will provide ongoing post-acquisition counseling services which include property management and Board training for properties which have been purchased and/or rehabilitated with financial assistance from the DHCD Development Finance Division's First Right Purchase program. Generally, these are multi-family properties that have been purchased through limited equity cooperative agreements or condominium purchases. Therefore, non-profit Board training and development skill and/or experience, as well as multi-family property management skills are critical to providing effective counseling services. Services to be provided under this activity may include, but are not limited to:

a) establishing standards of evaluation for each participant's financial status and leadership capacity.
b) conducting annual management reviews of all Boards, oversee election and
c) training of new Board members.
d) assisting in the establishment of appropriate arrangements with required service providers such as exterminators, garbage collectors, landscapers, etc.
e) assisting in capital management planning and a stabilization plan for rehabilitation and/or refinancing.
f) tracking property vacancies and reviewing new applications for membership.
g) establishing and reviewing membership guidelines.
h) technical assistance in accounting, budgeting, and the preparation of financial statements for long-term financial viability.
i) providing Board of Directors with training as appropriate; and

j) other required management and support duties. Grantees will assist the condominium or cooperative in developing a budget for the overall management and carrying costs of the property.

Grantees will assist the Board and membership in all aspects of management, such as completion of the audit, Fair Housing issues, required individual, property, and Board insurance, taxes, the role of Board officers, evaluation of monthly financial performance, training on lender compliance, i.e. loan payments, income requirements. DHCD will likely negotiate assignment of specific properties to grantees for this service.

Legal Citations Governing Program Area in Category C:

Applicants to provide any service in Category C should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
Tenant Purchase Technical Assistance Program DC Code 42-3404.02
Rental Housing Conversion and Sale Act of 1980, as amended (DC Code 42-3401.01 et. seq.) (Also known as the Tenant Opportunity to Purchase Act or "TOPA")

C17: Services for Tenants and Tenant Organizations
(in partnership with Housing Regulation Administration, Rental Accommodation Division, Rental Conversion and Sale Division).

Activities under this service will supplement and enhance the services provided by DHCD's Housing Regulation Administration (HRA), which includes the Rental Accommodations Division (RAD) and the Rental Conversion and Sale Division (CASD).

RAD administers the Rental Housing Act of 1985 (D.C. Official Code § 42-3501.01 et seq.) which regulates residential rental housing registration and the rent stabilization program (commonly known as rent control). RAD oversees rent adjustment procedures, processes notices to vacate, reviews tenant petitions prior to adjudication by the Office of Administrative Hearings and adjudicates most types of landlord petitions. RAD also proposes rules and regulations for administration of the Rental Housing Act for review and publication by the Rental Housing Commission.

CASD administers the Rental Housing Conversion and Sale Act of 1980 (D.C. Official Code § 42- 3401.01 et seq.) which regulates the sale or transfer of ownership interests under the

Tenant Opportunity to Purchase Act of 1980 (TOPA) (D.C. Official Code § 42-3401.01 et seq.), the conversion of use of rental housing to condominium or cooperative ownership and residential condominium formation and registration under the Condominium Act of 1976 (D.C. Official Code § 42-1901.01 et seq.). Further, CASD administers a Housing Assistance Payment program (HAP), under which tenants may be eligible for rent assistance if they are displaced due to the conversion of use of their apartment building to condominium or cooperative ownership.

CASD also proposes rules and regulations for administration of the Rental Housing Conversion and Sale Act of 1980.

DHCD seeks one or more organizations which will support RAD and CASD operations by providing counseling and tenant education services to tenants and tenant groups. Grantees must provide counseling and training assistance to tenants and tenant organizations regarding the District's rental housing laws and tenant and landlord rights and responsibilities.

For CASD, grantee organizations must provide counseling and training concerning: (1) tenants' TOPA rights when a landlord intends to sell, demolish, or discontinue rental housing use; (2) transfers of rental housing ownership or economic interests; (3) assisting tenants or tenant organizations in exercising their right to purchase; (4) informing tenants or tenant organizations relating to partner-investors and assigning TOPA rights; (5) conversion of use from rental housing to condominium or cooperative ownership by tenant elections, or conversion in lieu of tenant elections; (6) the Housing Assistance Payment program and relocation assistance; (7) tenant organization formation, incorporation, and registration; (8) protections for elderly or disabled tenants; (9) coercive or retaliatory activities; (10) tenant rights when rental housing is in foreclosure; (11) notices of intent to convert use from rental housing to condominium or cooperative ownership; and (12) relocation counseling for displaced tenants.

For RAD, service providers must demonstrate the ability to counsel and train tenants and tenant organizations on rent control provisions including properties that are regulated by or exempted/excluded from rent stabilization under the Rental Housing Act:

1) petition- based and annual rent increases.
2) executing and filing tenant petitions.
3) responding to landlord petitions.
4) protections for elderly and disabled tenants.
5) RAD's conciliation services.
6) notices to vacate and eviction procedures.
7) disclosures to tenants.
8) changes and decreases in services and facilities.

9) learning about and securing enforcement of housing condition regulations.
10) security deposits.
11) understanding lease provisions.
12) rent increases if a property is not under rent control.
13) appealing decisions of the Rent Administrator or the Office of Administrative Hearings; and
14) relocation counseling for displaced tenants. Note: Advocacy on behalf of tenant groups, or tenant rights assignees– including, but not limited to, legal advice or advocacy on tenants or tenant organizations' behalf in negotiations with a property owner–is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators, and not as advocacy groups. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns, or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a grantee is to ensure that tenants understand all available options.

Direct Counseling to Tenants and Tenant Groups: tenant counseling services will be designed to educate tenants in privately-owned properties about their legal rights and opportunities. This service is to be provided to tenants and tenant groups which are not subject to foreclosure and have not selected to exercise their Opportunity to Purchase Rights and/or Right of First Refusal under TOPA. It also includes providing other services and tenant education, which may not fall into the categories of services outlined above, such as eviction counseling, relocation counseling, apartment search, or apartment management.

DHCD seeks one or more organizations with the capacity to bring a range of resources to prevent involuntary displacement and to provide opportunities for continued affordable rental housing. Grantees must provide counseling services to tenants and tenant groups which include, but are not limited to: (1) outreach to tenant groups upon notice of one-year potential for subsidy expiration; (2) technical assistance in negotiations between owners and HUD relative to the renewal of federal subsidy contracts; (3) counseling for tenants in buildings where the subsidy will be lost and the tenant(s) must move; (4) counseling for tenants who are behind in their rent on best-action options; and (5) appropriately referring tenants who are in landlord/tenant disputes to all available resources. Grantees must also conduct research using the many databases and research tools available to identify properties that have a critical need for counseling assistance, including but not limited to DCHousingsearch.org. Note: Advocacy on behalf of tenant groups or tenants' rights assignee –including, but not limited to, legal advice or advocacy on tenants or tenant organizations behalf in negotiations

with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators and not as tenant advocates. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a prospective grantee is to ensure that tenants understand all available options.

Additional Legal Citations Governing Programs in Category C.

Applicants to provide any service in this Category and should review in detail the legal citations governing DHCD's rental accommodation functions:
(1) the Rental Housing Act of 1985, D.C. Official Code § 42-3501 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapters 38-44.
(2) the Rental Housing Conversion and Sale Act of 1980, D.C. Official Code § 42-3401 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapter 47.
(3) the Condominium Act of 1976, D.C.

Official Code § 42-1901 et seq.; (4) D.C. Official Code § 42-1901 et seq.; (5) the First Right to Purchase Program, title 14 of the District of Columbia Municipal Regulation, chapter 2700; and (6) Housing Conditions, Title 14 of the District of Columbia Municipal Regulations, Chapters 1-15. Submission of an application relevant to these services presumes that the applicant intends to meet all requirements to provide counseling to tenants and tenant groups pursuant to these above referenced citations.

3.3 Geographic Distribution of Services

The Department's decision to select one or more grantees to provide services will be influenced by the potential geographical distribution of service among the qualified applications received. Applicants can designate their proposed service areas in the District based on their by-laws, Board policies, etc. However, the Department reserves the right to designate any service areas it deems appropriate or necessary in making awards and negotiating grant terms. In reviewing the applicant pool, the Department's priority will be to ensure that excellent affordable housing counseling and training services are provided to all low- and moderate-income citizens of the District of Columbia. The Department will seek to bring parity in the quality of all housing services provided for all areas of the District through the award and ongoing management of these grants.

3.4 Marketing and Outreach

Marketing Plan to be submitted: Marketing and outreach are critical aspects of the grant's work. Grantees' efforts ensure these programs and services' success and desired impact. No Grantee or service is exempt from this requirement. Applicants must submit a detailed marketing and outreach plan for the services they are applying for. The plan should be detailed and not assume an understanding that has not been stated. Marketing should be included in the proposed budget and work plan.

DHCD will review and approve the marketing plan. In accordance with agency policy, marketing activities should highlight partnerships with and funding by DHCD.

Aspects of Marketing and Outreach to be considered:

- Continuous and consistent marketing and outreach are essential to achieving these services' objectives and maximizing public awareness of DHCD housing programs.
- Because of DHCD's diverse target population, grantees must utilize various marketing tools.
- Grantees are responsible for distributing DHCD program materials at community forums, public events, homeownership meetings, and fairs. Marketing and outreach may include but are not limited to, websites, email blasts, blogs, listservs, Twitter, Facebook, YouTube, Hope Hotline, flyers, door-to-door visits, community meetings, use of cable television (Channel 16), and public service announcements.

Coordinated with the Department: The grantee's marketing and outreach must be coordinated with DHCD. Grantees are expected to continually assess the success and impact of their marketing efforts to identify the most effective and efficient ways of reaching low– and moderate-income populations.

Participation in Department Marketing Activities: As required by DHCD, Grantees must participate in public activities and events related to housing opportunities. These may include but are not limited to tabling at events, participating in panel discussions, and providing speakers to groups, agencies, or organizations that request them.

DHCD Acknowledgement: Grantees must always acknowledge such housing assistance activities as Department of Housing and Community Development programs in any distributed print or electronic materials. DHCD must approve all such materials before distribution.

Use of DHCD Logo: All written or printed materials distributed or posted by Grantee that publicize the activities being funded by the D.C. Department of Housing and Community Development shall include information that the service, activity, or program is being supported and funded, partially or entirely, by the Department.

1. The written or printed materials must include the authorized DHCD logo.
2. Written or printed materials include, but are not limited to, newspaper, radio, and television announcements or advertisements. Websites, stationery, publicity materials, and written media communications, including newsletters, flyers, and brochures.
3. Grantees must abide by DHCD style guidelines when using the authorized DHCD logo.

4. The grantor may require that specific templates be used when promoting certain grant-funded programs. In those instances, DHCD will provide the templates and instructions to the Grantee.
5. The grantee must provide copies of all marketing materials, brochures, flyers, and other materials that publicize grant-funded activities to the Grantor via email at dhcd.occo@dc.gov
6. The grantee shall publicize as appropriate to its constituency through social media, print, and online postings, DHCD communications, and events related to Grant-supported activities.

Diversity and Language Access in Marketing: Grantees must demonstrate the capability to effectively serve and communicate with the District's various non-English speaking and special needs populations. This means that marketing and outreach materials must be made available in multiple languages and media based on the needs of those populations. The grantee must demonstrate its intent and capability to comply with the District's Language Access Law. In addition, grantees must demonstrate the availability of appropriate staffing to ensure compliance with the District's Language Access Law.

3.5 Focus Areas and Neighborhood Revitalization Strategy Areas (NRSA)

DHCD has identified specific areas of the District as "Focus Areas." These Areas represent areas where the District has invested in funding to create and preserve affordable housing. Focus Areas follow main routes through the District and their associated neighborhoods. In many cases, business owners are centered on these major routes, while resident services will be seen as more appropriate for those in the communities. Applicants must ensure services are delivered to low- and moderate-income households or areas as part of their program (Housing Services, Small Business Technical Assistance, Façade Improvement). This is a CDBG requirement.

- For Housing Counseling applicants, these Focus Areas should be used to plan outreach activities to inform residents of their services.
- For SBTA and Façade grantees, the Focus Areas define the geographical areas of the District in which they will provide services. In this latter case, the Focus Areas define not only their outreach area but also their service area.

NRSAs Targeting East of the River

The Department obtained the HUD designation for the Neighborhood Revitalization Strategy Area (NRSA) for the Focus Areas in Wards 7 and 8. DHCD has designated areas of Historic Anacostia in the city's Southeast and Far Northeast communities as Neighborhood Revitalization Strategy Areas (NRSAs). This designation will allow the city to target Community Development Block Grant (CDBG) funding that supports economic and community revitalization efforts. These include Martin Luther King Jr Avenue, Marion Barry Avenue, Minnesota Avenue, and Benning Road. However, all areas of Ward 7 and Ward 8 remain the focus of the grantee's work and outreach.

For communities outside of the NRSA areas, DHCD has designated Focus Areas throughout the District. Applicants are encouraged to partner with other community-based organizations. This collaboration can include cross-disciplinary collaboration. For example, a Façade grantee may partner with an SBTA grantee to provide business owners various services encompassing both disciplines. Housing service grantees may partner to promote or provide services one grantee offers, but another may not. The key to collaboration is an outlook of being partners, not competitors.

The following is a list of the Focus Areas and some of their associated neighborhoods. The outreach plans can include other nearby neighborhoods, mindful of the low-income requirements. Each applicant is asked to select one or more Focus Areas for their application. Please note that this is a minimum, and applicants may choose more than three. Applicants will be asked to provide reporting on outreach activities.

The following is a list of the Focus Areas outreach plans, mindful of the low and income requirements.

Instructions Show/Hide

As in the past, Performance Reporting is divided into three sections:

- **Workplan Metrics** (numbers only),
- **Accomplishment Narrative** (Text Boxes), and
- **Various uploads** (spreadsheets usually).

This data is extremely important. Reports can affect performance goals and funding. Your reports are used to report to the City Administrator, the Mayor (including DMPED) and to the District Council and its Committee on Housing. Where uploads are required, **use excel files or Word files.** This will allow your information to be uploaded into the database and reported to District leaders.

For **Workplan Metrics,** use only numbers or leave it blank. **Letters such as N/A are to be avoided.** This will make your report impossible to be uploaded in the DHCD database and will require your corrections. Only numbers zero (0) and above can be used. If a metric is left blank, it will be treated as a zero.

In the **Accomplishment Narrative**, text boxes are provided to provide statements of activities or the information requested. In the first Report, please answer Question 22 (Points of Contact) with all points of contact for the areas mentioned. Thereafter in subsequent months, if there are no changes, it is okay to say, "No Changes". The same is true for Question 21 (staffing). Please answer Question 23 (Success Stories), Question 24 (Good News), Question 25 (Other DC agencies and initiatives). Question 26 is important. Remember the RFA asked applicants to align outreach to the Focus Areas mentioned on pages 33 and 34 of the RFA. Mentioning specific Focus Areas in the narrative for Q26 is helpful.

The **Document Upload** section is where excel spreadsheets (usually, sometimes Word Documents) are uploaded. **PDFs cannot be uploaded into database.** [The District of Columbia is fortunate to have many DC Based Programs such as HPAP, IZ/ADU, PADD, SFRRP, TOPA, HRA/RAD related activities, as well as direct services to tenants and tenant groups, and services to Condo/Coop Associations. DHCD staff need monthly reporting in order to better do their work and respond to the needs of DC citizens. These reports are shared directly with the appropriate program manager.]

There three areas of your activities will be reported on a monthly basis to help us meet our HUD and DC Government requirements and the needs of DC residents.

Reporting for Fiscal Year 2025 will begin with Report # 1. The end of Government's fiscal year (9/30/2025) will conclude with Report # 10 and the close-out of FY25 Purchase Orders. The complete schedule is below for the monthly report.

Other Reporting: Beneficiary Data and Language Access

Other reports are also required. These include **Beneficiary Report** and **Language Access Report.** These two reports are required on a quarterly basis. These reports will not be answered within ZoomGrants. The Office of Program Monitoring will provide the spreadsheets to use for these quarterly reports. Please see your Grant Agreement for additional information about the monthly and quarterly reports. Please note, the Beneficiary Report corresponds to the sources and uses of your Grant Agreement. A separate Beneficiary Report is needed for each type of funding awarded: Public Service (PS), Non-Public Service (NPS) and NRSA Wards 7 & 8 PS and NPS.

These quarterly reports will be due:

Oct/Nov/Dec 2/24/2025

Jan/Feb/March 4/10/2025

April/May/June 7/10/2025

July/August/Sept 10/10/2025

Please note we cannot extend these deadlines since they are HUD's deadlines and not in our control. Please submit your report on schedule.

Please remember HUD views reporting and reimbursement requests as inseparable and therefore to be coordinated at the same time. Please avoid not filing on the deadline.

Exhibit I Mayor's Order 2023-131 Updated District Government Sexual Harassment Policy, Guidance and Procedures

Mayor's Order 2023-131

GOVERNMENT OF THE DISTRICT OF COLUMBIA
ADMINISTRATIVE ISSUANCE SYSTEM

Mayor's Order 2023-131
October 31, 2023
SUBJECT: Updated District Government Sexual Harassment Policy, Guidance, and Procedures

ORIGINATING AGENCY: Office of the Mayor

By virtue of the authority vested in me as Mayor of the District of Columbia by sections 422(2), (3), and (11) of the District of Columbia Home Rule Act of 1973, 87 Stat. 790; Pub. L No. 93-198, D.C. Official Code §§ 1-204.22(2), (3), and (11), it is hereby **ORDERED** that:

I. PURPOSES AND BACKGROUND

This Order incorporates provisions of, updates, and supersedes Mayor's Order 2017-313, dated December 18, 2017, regarding sexual harassment in District of Columbia ("District") Government workplaces.

In addition to providing procedural updates to the District's sexual harassment policy, this Order establishes and directs the Sexual Harassment Task Force to further examine the District's sexual harassment policies and provide recommendations to further the goal of a harassment-free workplace; establishes obligations of District Government employees; adds Mayor's direct reports to those required to be referred for outside investigation of sexual harassment; and bans all sexual and romantic relationships between supervisors and the employees in their chain of command.

This Order reaffirms that the District Government does not tolerate any form of inappropriate workplace conduct including sexual harassment, nor does it tolerate sexual harassment in non-employment interactions between District Government employees and the public. Sexual harassment is recognized as one of the most unjust, demeaning, and demoralizing examples of workplace misconduct.

This Order also requires that employees be trained on sexual harassment every year and provides additional specificity as to the qualifications and role of Sexual Harassment Officers.

Further, this Order directs agency compliance with the Sexual Harassment Data Collection and Reporting Act of 2022, D.C. Law 24-171, D.C. Official Code § 1-546.01, and clarifies, consistent with the Human Rights Enhancement Amendment Act of 2022, D.C. Law 24-172, D.C. Official Code § 2-1402.11(c-2), the definition of sexual harassment.

II. INDIVIDUALS AND ENTITIES COVERED

A. Prohibitions and Protections

1. This Order is intended broadly to prohibit sexual harassment in all interactions with District Government employees and officials and persons acting on behalf of the District Government, and to facilitate speedy investigation and non-monetary remedial action including warnings to stop offensive behavior, additional training, reassignments, and personnel and contract actions.

2. The District of Columbia prohibits workplace sexual harassment by all District Government employees and officials. The prohibition applies to harassment of other employees and officials and to harassment of third parties

and members of the public interacting with the District Government, such as vendors, contractors, grantees, customers, clients, and other persons visiting or working at District Government worksites or service sites inside and outside District Government agencies.

3. Likewise, contractors and grantees carrying out work on behalf of the District Government shall not sexually harass colleagues who carry out work on behalf of the District Government; District Government employees; or customers, clients, or beneficiaries of the services the contractors and grantees provide on behalf of the District Government; and those clients, customers, beneficiaries, employees, and colleagues may file complaints that trigger sexual harassment investigations and possibly remedies. Remedies may include requiring the contractor or grantee to use alternate personnel to provide services, and other remedies available under the contract or grant agreements up to and including contract or grant termination or non-renewal of the grant or contract.

4. In addition, sexual harassment by District Government clients, customers, or visitors against District Government employees, contractors, or grantees, or other clients, customers, or visitors, at District Government worksites or service sites, is prohibited and complaints made against District Government employees who sexually harass contractors, grantees, agency clients, customers or visitors, upon investigation, may result in discipline of the employee and accommodations of the contractor, grantee, customer or visitor, such as having another government official assigned to the matter.

5. In the course of their duties as members of District of Columbia boards and commissions, board and commission members are bound by the prohibitions, procedures, and deadlines set forth in this Order.

6. Not every procedure set forth in this Order applies to persons not working for the District Government.

B. Scope

1. Laws prohibiting sexual harassment apply throughout the District Government. The agencies listed below should either use the training, procedures, information, and processes provided in this Order, or their own, similar ones. To the extent District law requires centralized reporting, the reporting requirements in this Order apply to all agencies.

2. Those agencies include the Office of the Attorney General, the Office of the Chief Financial Officer, the Board of Elections, the Zoning Commission, the Public Service Commission, the Commission on Arts and Humanities, the Washington Convention and Sports Authority (Events DC), the Board of Education, the University of the District of Columbia, the DC Public Library, the DC State Athletics Commission, the Public Charter School Board and public charter schools, the Office of the People's Counsel, the District of Columbia Water and Sewer Authority (DC Water), the Green Finance Authority, the Health Benefit Exchange Authority, the Not-for-Profit Hospital Corporation, the Contract Appeals Board, the DC Retirement Board, the Office of Employee Appeals, the DC National Guard, the Criminal Justice Coordinating Council, the Office of Police Complaints, the Corrections Information Council, and the Uniform Law Commission.

3. This Order does not apply to the Council of the District of Columbia, Advisory Neighborhood Commissions, or the DC Courts, and agencies and offices subordinate to them.

III. SEXUAL HARASSMENT

A. Through the Human Rights Enhancement Amendment Act of 2022, D.C. Law 24-172, effective September 21, 2022; D.C. Official Code § 2-1402.11(c-2), the Council has, in the employment context, expanded the definition of "harassment" and "sexual harassment" under the D.C. Human Rights Act to provide that sexual harassment includes conduct of a sexual nature, "whether direct or indirect, verbal or nonverbal, that unreasonably alters an individual's terms, conditions, or privileges of employment or has the purpose or effect of creating an intimidating, hostile, or offensive work environment."

B. In addition, sexual harassment includes "sexual advances, requests for sexual favors, or other conduct of a sexual nature where submission to the conduct is made either explicitly or implicitly a term or condition of employment or where submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual's employment." This is sometimes referred to as quid pro quo sexual harassment.

C. In determining whether sexual harassment has taken place, the D.C. Human Rights Act states that "conduct need not be severe or pervasive to constitute harassment" and that "no specific number of incidents or specific level of egregiousness is required."

D. Examples of conduct that can contribute to or constitute sexual harassment or an intimidating, hostile, or offensive work environment include:

1. Sex acts;

2. Display of sexual organs;

3. Using sexually oriented or sexually degrading language describing an individual or their body, clothing, hair, accessories, or sexual experiences;

4. Sexually offensive comments or off-color language, jokes, or innuendo that a reasonable person would consider to be of a sexual nature, or belittling or demeaning to an individual or a group's sex, sexual orientation, or gender identity;

5. "Sexting" or seeking or sending pictures of intimate body parts;

6. Taking or displaying pictures of body parts meant to be covered up (such as "upskirting" pictures);

7. Displaying or disseminating sexually suggestive objects, books, screensavers, magazines, photographs, music, cartoons, or computer internet sites or references;

8. Unnecessary and inappropriate touching or physical contact, such as intentional and repeated brushing against a colleague's body, touching or brushing a colleague's hair or clothing, massages, groping, patting, pinching, or hugging, that a reasonable person would consider to be of a sexual nature;

9. Leering, ogling, or making sexually suggestive gestures or sounds, such as whistling or kissing noises;

10. Making inquiries about someone's private sex life or describing one's own sex life;

11. Workplace sexual comments, conduct, displays and suggestions between two willing parties in the presence of another that are inconsistent with professional workplace norms;

12. Any unwanted repeated contact, including, but not limited to in-person, or telephonic, for romantic or sexual purposes;

13. Giving a preference to someone who is engaged in a dating, romantic, or sexual relationship based on the relationship to the disadvantage of someone who is not engaged in a dating, romantic, or sexual relationship; and

14. Sexual assault, stalking, trapping someone such that they are not free to leave and a sexual encounter is expected or threatened, threats of bodily harm relating to sex or the refusal to have sex, or other crimes related to acts of sexual harassment.

E. Further, the District may treat some conduct of a sexual nature as misconduct, even when it does not rise to the level of unlawful sexual harassment actionable under the D.C. Human Rights Act. As an example, an employee who tends to greet people with a hug may have been warned that the conduct was offensive to some employees and then hugs an employee whom they have not seen in many months. The conduct may not rise to the level of "unreasonably altering the individual's terms, conditions, or privileges of employment," but it could constitute misconduct since they had been warned that some employees associate hugging with unwanted sexual contact that is offensive in the work environment.

IV. DATING, ROMANTIC, AND SEXUAL RELATIONSHIPS IN THE WORKPLACE

A. Prohibitions

1. Prohibitions on certain dating, romantic, or sexual relationships in the workplace exist to prevent real or perceived impropriety, favoritism, conflicts of interest due to power dynamics, control of an employee's assignments and performance reviews, as well as to advance fairness for all other employees, contractors, grantees, and clients. Even consensual dating, romantic, or sexual relationships can generate allegations of favoritism based on sexual relationships or sexual harassment by one of the parties or a third party. Relationships, or aspects of relationships, that may be perceived as consensual by one party may be considered coerced or harassing by the other party due to power dynamics, and relationships that start consensually may evolve into sexual harassment.

2. Subject to the conditions and implementation procedures discussed in this Order, it is now the policy of the District Government that a dating, romantic, or sexual relationship between a supervisor and any employee in the chain of command they supervise – whether supervision is direct or indirect, operational or situational – is prohibited. Note that chain of command in this definition may span agencies or divisions within an agency.

3. In addition, District Government employees shall not initiate a dating, romantic, or sexual relationship with trainees, recruits, or interns, regardless of the employee's assignment in relation to the trainee, recruit, or intern if the employee is in the same agency as the trainee, recruit, or intern.

4. Further, this Order prohibits dating, romantic, and sexual relationships when they are prohibited by applicable professional or ethical standards, such as lawyer-client, doctor-patient, or social worker-client.

5. District Government employees shall not participate personally and substantially in particular matters that affect or could affect the financial interests of someone with whom they are in a dating, romantic, or sexual relationship, whether that person is an employee, grantee, contractor, or client of the agency.

B. Designation of Person or Committee to Resolve Issues Surrounding Workplace Relationships; Existing Relationships

1, By November 17, 2023, District Government agency directors shall designate their own agency human resources agency/officers, another appropriate officer, or an office or committee to receive disclosures of relationships and resolve workplace issues arising from any prohibited dating, romantic, or sexual relationship on a case-by-case basis consistent with this Order; absent such a designation, disclosures shall be made to the Director.

2. By December 8, 2023, existing relationships that fall within the prohibitions of this Order must be disclosed to the designee identified in subsection IV.B.1. of this Order, in the manner specified by their agency or on a form to be created by DCHR, whereupon the situation will be evaluated and a resolution determined.

3. Resolution may involve giving the employees a defined but reasonable time to find a new position where the relationship is not implicated by this Order; shifting reporting structures to take the relationship out of a prohibited status; or establishment of recusal structures when the employees do not work in the same agency or division but they heretofore were in situational or operational chains of command.

4. To the extent adjustments are made in work sites or shifts, reporting structures, job duties or any other factor for one or both of the persons in the relationship, agencies shall endeavor to afford such options on a voluntary basis for all concerned, particularly if an employee not involved in a prohibited relationship is affected by any proposed accommodation of the relationship.

5. If no satisfactory resolution of the prohibited relationship can be reached, the persons in a dating, romantic, or sexual relationship may request a waiver of the provisions of this Order. Waiver requests shall be submitted to the Mayor and shall be accompanied by a recommendation from the agency or agency designee. Waiver requests may include any information relevant to the determination and shall be on a form to be created by the Department of Human Resources ("DCHR").

6. Agencies may make reasonable efforts to assist with a transfer or reassignment, without prejudicing either employee (or any other employee), but it is not the responsibility of the personnel authority or the agency to restructure their agency operations or find a new position for someone in the relationship. No agency is required to grant a request or application for a transfer.

7. Agencies may promulgate regulations or policies consistent with this Order to effect its implementation and to provide consistent treatment for employees facing this situation, though each relationship may pose unique issues. Agencies may also issue rules explaining in more detail for their agencies' employees and contractors how terms such as "dating," "chain of command" and "trainee" are to be interpreted considering their agency's operations. Agencies may prohibit dating, romantic, or sexual relationships with their own clients or clients of the agency or a subset of the agency, as the agency deems appropriate to prevent factual or perceived impropriety or favoritism. For instance, an agency with both social workers and non-licensed employees providing case work to agency clients could extend the ban on dating and sexual relationships with clients to their non-licensed employees, to hold them to the same professional standards as their licensed colleagues.

8. By December 12, 2023, agencies shall report the number of disclosed relationships to the Mayor's Office of Legal Counsel ("MOLC") and the contact information of the person handling requests for accommodation, for consideration by the Sexual Harassment Taskforce.

C. Disclosure of Relationships

1. In addition to the disclosures of existing relationships required by Section IV.B., if by promotion or agency reorganization or other circumstance, two employees in a dating, romantic, or sexual relationship would fall into a prohibited relationship status, their relationship must be disclosed as soon as the possibility of falling into prohibited status is realized by either person in the relationship.

2. If there is a reasonable likelihood that someone would raise a credible charge that there was or could be preferential treatment based on a dating, romantic, or sexual relationship that is not in a chain of command, then the employees involved in the dating, romantic, or sexual relationship must also report their relationship to the person or office designated pursuant to Section IV.B. Such reporting is necessary for consideration of whether additional safeguards are necessary and whether the prohibition on relationships based on situational supervision is implicated.

D. New Relationships

Generally, if two persons in a chain of command wish to begin a dating, romantic, or sexual relationship with each other, one party to the relationship should apply for a transfer or otherwise seek employment that eliminates the supervisory relationship before the relationship begins so that no prohibited relationship commences. For example, a supervisor may be transferred to another supervisory role so that they are not in the chain of command with the other person.

E. Conduct

1. District Government employees in a dating, romantic, or sexual relationship with another District Government employee, or client/customer of their agency, or grantee or contractor of their agency, shall conduct themselves in an appropriate manner while on duty and shall not engage in behavior that detracts from a professional work environment.

2. Any sexual activity at work sites or during an employee's working hours, regardless of location, is prohibited.

F. Violations

A violation of a provision of this Order regarding dating, romantic, or sexual relationships may not constitute sexual harassment as defined above, but an employee who engages in a prohibited relationship under Section IV.A. of this

Order or fails to disclose a relationship that is required to be disclosed shall be subject to appropriate personnel action, up to and including termination.

G. Legal Representation

If legal action is commenced against the District of Columbia and/or a supervisor who engaged in a dating, romantic, or sexual relationship with an employee, or a person engaged in a potentially-conflictual relationship, the existence of the sexual or romantic relationship will be a factor in the District of Columbia's decision to provide legal representation to the supervisor or the employee(s) engaged in a relationship.

V. PROCEDURES FOR STOPPING SEXUAL HARASSMENT; REPORTING AND INVESTIGATING SEXUAL HARASSMENT CLAIMS

A. Employee Obligations

1. District Government employees are bound by the principles set forth in the Code of Conduct at 6B DCMR §§ 1800.2–1800.4 and are expected to act at all times in a manner reflecting their roles as public servants. Depending on an employee's role in the District Government, the obligations regarding the prevention of sexual harassment may differ. "Employees" for the purpose of this Order include contractors engaged by the District Government performing work on behalf of the District similar to that as its employees, such as at District worksites.

2. All employees are obligated to:

a. Refrain from engaging in behavior that constitutes sexually harassing conduct;

b. Refrain from initiating or conducting a prohibited dating, romantic, or sexual relationship as described in Section IV.A. of this Order;

c. Disclose their own dating, romantic, or sexual relationships with other employees if required in Section IV.D. of this Order;

d. Affirm their agreement to comply with this Order;

e. Complete annual sexual harassment training;

f. Cooperate fully in any inquiry or investigation into an alleged violation of this Order; and

g. Refrain from any behavior that may call into question the impartial and harassment-free provision of services to constituents, agency clients or customers, contractors, or grantees.

3. Supervisors should take particular care to avoid conduct that could lead to allegations of sexual harassment, considering time, place, and situations of interactions with employees.

B. Employee Communication

1. To avail themselves of the procedures and protections of this Order, when a District Government employee finds conduct unwelcome, intimidating, or offensive, they may: (a) tell the person who is engaging in offensive or inappropriate sexual conduct to stop and that such conduct is unwelcome; or (b) ask the employee's supervisor, General Counsel, or Sexual Harassment Officer to advise the person that the conduct is offensive and unwelcome; or (c) proceed immediately to file a complaint of sexual harassment under this Order.

2. Employees and others engaged in intervention are encouraged to document all intervention efforts or requests to cease reported inappropriate sexual conduct, including conversations, texts, or email exchanges.

C. Reporting Allegations of Inappropriate Conduct of a Sexual Nature or Sexual Harassment

1. All District Government employees are encouraged to help ensure that District Government workplaces are free of sexual harassment. Employees who know of incidents of inappropriate conduct of a sexual nature, as well as behavior that may create an intimidating, hostile, or offensive work environment, or who are victims of inappropriate conduct of a sexual nature, should report the inappropriate conduct.

2. Employees may report to the Sexual Harassment Officer ("SHO") of their agency or any other agency, or the supervisor or manager of the employee engaging in inappropriate conduct, to their own supervisor, or to the agency General Counsel. Contractors, grantees, and customers of agencies may report allegations of inappropriate conduct of a sexual nature to the SHO of the relevant agency or any other agency, the relevant agency's General Counsel, the supervisor of the employee who engaged in the alleged inappropriate conduct, or their grant or contract administrator.

3. Allegations of sexual harassment against the Mayor, City Administrator, Mayor's Chief of Staff, Mayor's Senior Advisor, Director of the MOLC, any Deputy Mayor, or any official who directly reports to the Mayor, shall be referred to the Inspector General to determine if the allegation is credible, in which case it shall be referred for independent investigation. Such investigations shall be carried out by an entity outside the District Government and those reports shall be provided to MOLC (or the City Administrator if the allegation is against the Director of the MOLC) and the Inspector General.

D. Agency Responsibilities

1. Sexual Harassment Officers ("SHOs") and Investigations

a. Each Deputy Mayor's Office and each agency shall designate a primary SHO and an alternate SHO and shall update the designations, as needed, on an ongoing basis. Each agency shall provide the names of its SHOs to DCHR, and DCHR shall maintain a current District-wide list of agency SHOs. Further, pursuant to D.C. Official Code § 1-546.01(2), SHOs shall be registered with the Office of Human Rights ("OHR").

b. SHOs shall be trained and qualified to serve. To be qualified to serve as a SHO, individuals must have taken and continue to take annual training provided by DCHR and OHR. SHOs may but are not required to be an agency's Equal Employment Opportunity ("EEO") officer, or human resources manager; they must be competent in EEO laws and be designated by the agency to accept sexual harassment complaints and to review and investigate claims. SHOs need not be attorneys.

c. The primary and alternate SHOs for a smaller agency may be employees of another agency (i.e., the SHO of a larger agency may serve as the SHO for a smaller agency). An agency of any size may also obtain assistance from another agency's SHO in handling a particular investigation, including having another agency's SHO carry out an investigation, where there is a possibility of the appearance of a conflict of interest, or for administrative convenience. For the purposes of this Order, a smaller agency availing itself of this option will still be referred to as the "agency."

d. A person seeking to report a violation of this Order may file with any agency SHO, not solely the SHO at their agency or the agency at which the alleged sexual harassment occurred. Persons filing complaints, however, are not entitled to have the investigation conducted by the person of their choosing.

e. If a complaint is reported to someone other than the SHO, the person receiving the complaint must notify the agency SHO, unless giving notice would raise conflict of interest concerns, in which case the person must notify the agency General Counsel.

f. Unless the complaint is against the agency General Counsel, the SHO shall immediately notify the agency's General Counsel of the complaint, and the General Counsel shall thereafter notify the Mayor's Office of Legal Counsel ("MOLC"). The SHO may consult with the agency's General Counsel, or the General Counsel's designee, for legal guidance on conducting the investigation and shall notify the General Counsel of any issue that may require higher-level support. If the complaint is against the General Counsel, the SHO shall notify the MOLC directly.

g. SHOs should review DCHR's SHO training materials before initiating an investigation. DCHR has training materials on duties to inform the bargaining unit, the right to union representation during investigatory questioning, assessing credibility, unconscious bias, conducting interviews, gathering evidence, protecting confidentiality, preservation of evidence, when to stop an investigation and refer a matter for criminal investigation and more.

h. The primary function of a SHO is to accept complaints alleging violations of this Order and to gather, investigate and review the factual basis of the claim(s). SHOs may corroborate or refute factual allegations; SHOs may provide impressions and evidence regarding the credibility of witnesses. They weigh such evidence and may take into account their impressions of the credibility of witnesses. Ultimately, SHOs make and submit to the appropriate agency Director recommended determinations of whether the allegations are substantiated or are not substantiated. They are not to make legal conclusions about whether sexual harassment occurred.

i. Investigations of allegations of inappropriate conduct of a sexual nature shall be conducted, and the associated investigation report completed, as soon as practicable, within sixty (60) days after the filing of the report of the alleged sexual harassment, absent unusual circumstances.

j. The investigative report shall include a description of the allegations, a description of the SHO's investigation, a description of the evidence adduced by the SHO, and the SHO's recommended determination as to whether the allegations were substantiated. The SHO shall transmit the report to the Director or agency Director's designee and General Counsel of the agency where the alleged harasser is employed.

2. Interim Remedial Actions

a. Pending the completion of the SHO investigation and report, the issuance of the agency report, and the imposition of any disciplinary action, and to protect the rights of the alleged victim as well as the alleged harasser, the agency may take temporary personnel actions that do not result in any adverse employment action to either party.

b. When an agency becomes aware of an allegation of misconduct of a sexual nature, the agency shall notify the alleged harasser of the reported behavior and may demand that the alleged behavior cease immediately and not be repeated.

c. The agency shall take such other remedial steps as it deems appropriate to mitigate the possibility of the alleged harassing conduct continuing.

d. Interim remedial actions are administrative rather than disciplinary and may include, but are not limited to, transfers, reassignment of duty station, changed shifts, duties or reporting requirements, mandatory administrative leave with pay, or other appropriate measures that do not result in reduction of pay, demotion in title or responsibility, or other loss of employee benefits. In general, the agency should avoid moving the alleged victim or changing the alleged victim's shift, or taking similar action affecting the alleged victim, unless the alleged victim requests the action; if the agency takes such an action absent a request from the alleged victim, the agency should make clear to the alleged victim that the action is being taken in pursuit of an effective and prompt stop to any alleged harassment, and not in retaliation for reporting the alleged harassment.

e. Personnel authorities are encouraged to find alternative, reasonably comparable placement during the pendency of an investigation for the accuser or accused in lieu of administrative leave with pay, where possible and if consistent with any collective bargaining agreements.

3. Post-SHO Investigation Agency Actions

a. The agency Director or agency Director's designee may reject a SHO report and return it to the SHO for further investigation, information, documentation, or analysis if the agency Director or designee

considers the report to be incomplete, inadequate, or otherwise unacceptable.

b. If the report is not rejected, the agency Director, or the agency Director's designee, within fourteen (14) days of receiving the SHO's report, shall issue an agency report that accepts, modifies, or rejects the SHO's findings and substantiation recommendations, describes the rationale for any such modifications or rejections, and makes conclusions as to whether the substantiated allegations constitute a violation of this Order. The SHO report shall be included as an attachment to the agency Director or designee's report. The agency Director or designee shall consult with the agency's General Counsel during the preparation of the report regarding relevant legal standards or other legal issues.

c. If the report determines that a violation of this Order has occurred, the report shall be submitted to the agency's human resource officer for appropriate disciplinary action, up to and including termination. The agency shall require that any employee found to have violated this Order whose employment is not terminated must attend mandatory sexual harassment training within sixty (60) days after the issuance of the agency report.

d. The agency must provide the employee and the alleged harasser with a summary written notification of its findings and conclusions (final agency decision) after the sixty (60) day period and shall convey the same to MOLC within five (5) days after it is issued. The notice shall include a description of each allegation and the agency's determination as to whether the allegations were substantiated or were unsubstantiated. Such notice shall not include summaries of witness interviews, credibility determinations, or legal analysis; the notice is a simple recitation of the allegations and the determination as to whether the allegations were substantiated or were unsubstantiated.

e. Any conclusion in the SHO or Director's report that a violation of this Order occurred does not constitute a final legal conclusion that sexual harassment under the D.C. Human Rights Act or federal law occurred. Conversely, a finding that was not substantiated is not a legal conclusion that no violation of the D.C. Human Rights Act or federal law occurred.

f. Consistent with norms regarding the privacy of personnel actions, the complaining party shall not be informed of any disciplinary actions against the alleged harasser.

g. Regardless of whether a complaint has been substantiated, relevant staff, including the General Counsel, are authorized to work together to advise the Director or deciding official as to whether to recommend or implement personnel actions or management procedures to reduce the possibility of reoccurrence of any inappropriate behavior or behavior that poses risks for the District. Any meetings among the General Counsel, human resources staff, and agency management shall endeavor to preserve the confidentiality of the complaint generating the meeting or consultation to the greatest extent possible.

4. Communicating the Order: Orientation, Pledges, Training, and Notifications

a. The personnel authority shall circulate this Order to all new hires during their orientation, shall give each new hire time to read a summary of the Order during orientation, and shall obtain a signed verification that the new employee has read the summary and pledges not to engage in sexual harassment or any other conduct that violates the rules prohibiting sexually harassing behavior, certain dating, romantic, or sexual relationships, and requiring disclosure of certain relationships. Agencies with supplemental orders relating to sexual harassment shall provide those orders, too, to onboarding employees.

b. When individual contractors are working inside an agency in a manner akin to a District Government employee, the agency or the supervising contractor shall obtain signatures from individuals during onboarding orientations affirming their agreement to abide by this Order.

c. New employees shall take a course on sexual harassment as part of the on-boarding process and in no event more than fourteen (14) days after being on-boarded. Agencies shall by December 11, 2023

circulate this Order to all current employees.

d. Agencies shall follow up to provide delivery to difficult-to-reach employees, including employees on leave and work-related travel. Agencies are responsible for confirming that each employee has received this Order by email, verification through Peoplesoft, or return of a signed copy.

e. By December 11, 2023, each agency shall email the names of the agency's primary and alternate SHOs to all its employees and shall send reminders or updates of who the agency's SHOs are at least annually to agency employees.

f. Each agency shall prominently post notices in conspicuous locations accessible and used by a substantial number of agency employees, identifying the agency SHO and Alternate SHO, how to report sexual harassment, and that sexual harassment investigations are to be kept confidential to the greatest possible extent consistent with their investigation and resolution. Agencies shall post the notices no later than thirty (30) days after receipt of the template notice from the Office of Human Rights required by Section V.K. of this Order.

g. Agencies shall take a digital photograph of each posting and transmit it to the SHO program coordinator at DCHR with a description of the location at the time of each posting.

h. Individuals and entities entering into contract or grant agreements with the District Government must affirm that they will abide by the D.C. Human Rights Act including its prohibitions on sexual harassment, consistent with 4 DCMR § 1100 et seq.

i. District agencies drafting contracts and grants shall require such affirmations as part of the contract or grant agreement.

E. Employee Responsibility to Participate in Agency Investigations

1. District Government employees are required to cooperate fully in a SHO or independent investigation of a workplace sexual harassment complaint.

2. If an employee who alleges sexual harassment or is believed to have been the victim of sexual harassment declines to assist and/or participate in the investigation of the allegation, or requests the agency not conduct an investigation, the agency may on its own initiative investigate or refer the matter for investigation.

3. Employees who were not themselves victimized, who, after a direct request by the SHO or other investigator, decline to participate in a sexual harassment investigation, may be subject to disciplinary action.

4. Any consideration of whether to recommend disciplinary action for failure to cooperate in an investigation on the part of an alleged victim requires heightened sensitivity on the part of the agency and should be conducted in consultation with the agency's General Counsel and MOLC.

F. Discipline for Making False Statements or Representations

1. Making materially false statements, and misrepresentation, falsification or concealment of material facts or records in an investigation of allegations of sexual harassment is conduct warranting disciplinary action, up to and including termination.

2. Consideration of whether to recommend disciplinary action against an employee who is also the alleged victim of sexual harassment requires heightened sensitivity on the part of the agency and should be conducted in consultation with the agency's General Counsel and MOLC.

G. Discipline after a Finding of Sexual Misconduct or Harassment

The agency shall recommend appropriate disciplinary action, such as described in Section 1607.2(k) of the District Personnel Manual, 6B DCMR § 1607.2(k), up to and including termination of any employee found to have engaged

in sexual misconduct or sexual harassment as defined in Section III of this Order.

H. Rights of the Alleged Harasser

Persons accused of sexual harassment deserve the full protections afforded to them under the law in administrative matters, including, but not limited to, the right to respond to allegations of sexual harassment; to counsel and representation, including a union representative or other representative of their choosing, and including the presumption of innocence, unless and until there is a finding of harassment after an investigation by the agency or where appropriate, OHR. The right to counsel does not include the right to have counsel paid for by the government.

I. DCHR Responsibilities

1. DCHR shall quarterly reach out to all designated primary and alternate SHOs to confirm that they continue to serve in those roles. If DCHR is unable to reach a designated SHO or to confirm that the individual still serves as the agency's primary or alternate SHO, DCHR shall work with the agency to identify a new primary or alternate SHO for the agency. DCHR shall post a list of agency SHOs on its website and update it as necessary.

2. DCHR shall develop reporting forms for disclosure of dating, romantic, and sexual relationships and for applications for waivers of the prohibition on relationships in the chain of command.

3. DCHR shall work with agencies to verify that all employees have completed the annual training on sexual harassment required by Section V.A.1.e. of this Order.

4. DCHR, working with the Office of the Chief Technology Officer, shall create a means through Peoplesoft for employees to acknowledge their receipt of the Order and agreement to comply with its provisions.

5. DCHR, in consultation with OHR, shall review, update, and provide training materials for agency SHOs, including training on investigative techniques.

6. DCHR shall establish qualification standards for SHOs and verify each SHO's qualification to serve as a SHO.

7. DCHR, in consultation with OHR and the Sexual Harassment Task Force, shall create and disseminate training and collateral materials on this Order, the sexual harassment provisions of the D.C. Human Rights Act, and other sexual harassment law and policy, to all agencies under the direct authority of the Mayor and to such independent agencies as may request access to DCHR materials. The training and collateral materials should be tailored to employees in various roles, such as senior officials, managers, attorneys, human resources personnel, and new or existing employees, and should take into account that many District Government employees work primarily in the community and may not have regular access to computer-based training modules.

J. Office of Human Rights (OHR)

1. OHR shall develop training for EEO officers on the standards of the D.C. Human Rights Act, including the changes made by the Human Rights Enhancement Amendment Act of 2022.

2. OHR shall provide consultative services to DCHR and the Sexual Harassment Task Force in creating and disseminating training and collateral materials on this Order, the sexual harassment provisions of the D.C. Human Rights Act, and other sexual harassment law and policy, to all agencies.

3. OHR shall provide a template notice to agencies for agencies to post where the agencies can fill in the name of their SHO and alternate SHO and providing basic information on the prohibition against sexual harassment, how to report, and confidentiality, pursuant to Section V.E.4.d. of this Order.

VI. PROHIBITION AGAINST RETALIATION

A. Retaliation Prohibited

Retaliating against a District Government employee for reporting or filing a claim of sexual harassment, assisting another person in reporting or asserting a claim of sexual harassment, opposing sexual harassment, acting as a witness in a sexual harassment investigation, refusing to follow orders that would result in sexual harassment, intervening to protect others from sexual harassment or advances, or challenging an allegation of sexual harassment, is strictly prohibited. Employees shall not be penalized as a result of their assertion of their rights under the D.C. Human Rights Act or providing truthful information in connection with an investigation (whether on behalf of a complainant or a respondent). Retaliatory behavior may include, but is not limited to, unwarranted reprimands, unfairly downgrading personnel evaluations, transfers to less desirable positions, verbal, or physical abuse, and altered and more inconvenient work schedules. Employees found to have engaged in retaliatory behavior shall be recommended for appropriate disciplinary action, up to and including termination.

B. Process for Alleging Retaliation

Claims of retaliation are generally beyond the scope of the investigatory authority of agency SHOs because SHOs may not be trained in assessing the legality or validity of managerial decisions such as evaluations and assignments and investigations into retaliation would be difficult to conduct in the rapid timeframe set forth in this Order. Employees who believe they have been retaliated against must file a complaint with an EEO Counselor within one hundred and eighty (180) days of the alleged retaliation and subsequently file a complaint with OHR within fifteen (15) days of receipt of the Exit Letter if the employee is not satisfied with the outcome of EEO counseling.

VII. LIMITS

Lodging a complaint regarding sexual harassment does not shield an employee from all discipline or discharge. Agencies may discipline or separate a complainant if the agency is motivated by non-retaliatory and non-discriminatory reasons that would otherwise result in such discipline or separation.

VIII. CONFIDENTIALITY

A. Protecting confidentiality is critical to encouraging victims of sexual harassment to come forth and share their stories. It encourages witness cooperation and protects the reputations of those involved. For those reasons, SHO investigations should be kept confidential.

B. Confidentiality is not absolute. SHOs must disclose information to the alleged harasser for the alleged harasser to have a full and fair opportunity to respond. SHOs may have to disclose information to witnesses to gather more information from them. SHOs must keep agency General Counsels updated for reporting purposes and for investigation support purposes. SHOs also may have to disclose criminal conduct or threats to law enforcement. SHOs should not make pledges of total confidentiality.

C. Investigative reports are confidential, highly private, and deliberative and shall not be released without a court order. Neither the complainant nor the alleged harasser shall be provided with a copy of the investigative report.

D. SHOs, the agency, and MOLC shall take all reasonable steps to ensure that no information contained in the complaint file is disseminated except in furtherance of the investigation; for entry into E-risk or another risk management system; to assist in resolution of the allegations; as necessary for execution of any consequences stemming from the investigation; when lawfully released; or when required by court order.

IX. TIMELY FILING AND STATUTE OF LIMITATIONS

Complaints of sexual harassment shall be reported as promptly as possible. Agencies should investigate alleged acts of sexual harassment beyond the legal statute of limitations, or deadlines otherwise provided by regulation or collective bargaining agreement, taking into consideration the sensitive nature of the alleged offense, the pressure the complainant may have felt not to report the conduct, when the victim became aware of behavior that was not immediately apparent, or a pattern of harassing behavior that developed over time. Some remedies or sanctions may be unavailable due to delays in filing, but even delayed investigations may yield information to the agency in its ongoing efforts to prevent and remediate sexual harassment or may add to the credibility of similar, future allegations should a pattern emerge of allegations against a particular person or practice.

X. RECORDS

A. Agencies shall maintain records of complaints and investigations conducted for three (3) years from the date of the complaint.

B. For each fiscal year, each agency shall track how many complaints of sexual harassment were made by the agency's employees; were made about its agency employees by customers/clients of the agency; grantees or contractors of the agency, and how many complaints were made of sexual harassment of the agency's employees by customers/clients, grantees or contractors, or members of the public during the agency's duties.

C. In addition to the number of complaints, agencies shall track how many matters were investigated; were resolved by mediation; were substantiated; were deemed unsubstantiated; resulted in administrative or disciplinary action against one or more individuals determined to have violated this Order or sexually harassed the complainant; have resulted in legal action; have resulted in a settlement (including the amount of any financial settlement); and how many are pending. Pursuant to the Sexual Harassment Data Collection Act, annual fiscal year data required to be produced under D.C. Official Code § 1-546.02 shall be transmitted to the Office of Human Rights on or before October 15 of each year.

D. Centralized reporting, however, should be ongoing, and agencies are directed to submit such interim, monthly, or quarterly reports as may be requested by DCHR, the MOLC, OHR, or the Sexual Harassment Task Force, and to enter incidents into E-Risk as directed.

E. Any warnings to an employee(s) to halt a particular type of behavior – whether generally or as to a particular employee(s) – shall be recorded and transmitted to the agency's human resource office and to the Mayor's Office of Legal Counsel. In the context of addressing complaints of sexual harassment, any other interventions made for an employee, customer/client, grantee or contractor shall also be recorded, whether or not they arose from an informal counseling session, a complaint of sexual harassment, a complaint regarding behavior in a dating, romantic, or sexual relationship, anonymous report, or any other means.

XI. CONCURRENT REMEDIES AND JURISDICTION

A. Non-Exclusivity of Remedies

This policy is intended to supplement or be an alternative to other processes that allow persons to complain of sexual harassment. The procedures established by this Order are separate and distinct from other options persons with grievances relating to sexual harassment may have, through the Office of Human Rights, the Equal Employment Opportunity Commission, any grievance procedure available under their collective bargaining agreement, ethics complaint and investigation processes administered by the Board of Ethics and Government Accountability, or any other statutory or regulatory complaint process. Filing a complaint under this Order does not stay or delay any filing deadlines in any other forum.

B. Filing a Formal Complaint with the Office of Human Rights

In addition to pursuing action within the agency, an alleged victim of sexual harassment, or a person acting on the victim's behalf with or without the victim's consent, may report a sexual harassment claim within one year of the alleged harassment or its discovery to OHR using its Intake Questionnaire Form. EEO counseling is not required prior to the filing of a complaint with OHR.

C. Filing a Complaint with the Equal Employment Opportunity Commission

Some complaints may fall within the jurisdiction of the federal Equal Employment Opportunity Commission.

D. Relationship and Remedies under Negotiated Grievance Claims

Filing a report or complaint under this policy does not satisfy the requirements for filing a negotiated grievance and obtaining remedies under a collective bargaining agreement, nor does the complaint under this Order delay the

time limits for initiating such a procedure. To pursue a negotiated grievance claim, the employee should file a grievance in accordance with the provisions of the applicable collective bargaining agreement.

E. Criminal Remedies and Referrals

1. Where there is an allegation of criminal misconduct, including for example, sexual assault, kidnapping, stalking, or a threat to do bodily harm, the agency may, after consulting its General Counsel, place the victim and/or the alleged harasser on administrative leave with pay pending final administrative resolution of the complaint or any criminal proceeding.

2. The complainant at his or her choice may report the alleged criminal violation to a law enforcement agency, including the Metropolitan Police Department ("MPD"). Where a criminal violation occurred, the agency shall recommend discipline of the perpetrator up to, and including, termination.

3. While it is generally the alleged victim's decision to report sexual harassment offenses for possible criminal prosecution, if during an investigation the agency uncovers evidence of ongoing crimes (such as sexual extortion of beneficiaries of government services) or criminal activity collateral to or extending beyond the reported allegations of sexual harassment, such as gun-related offenses, the agency shall notify law enforcement.

F. Crime Victim Hotline

The agency shall also remind complainants of sexual assault or other possible crimes of the existence of the DC Victim Hotline. The hotline, 1-844-443-5732, is available 24/7 by telephone, text, or online chat to seamlessly connect victims of crime to free resources to help them navigate the physical, financial, legal, and emotional repercussions of crime. Through the hotline, victims may be matched with an advocate who can help them decide whether to pursue a matter through the criminal justice process.

G. Courts of Law

This Mayor's Order is directed towards preventing and remedying sexual harassment in District Government operations and it does not preclude complainants from obtaining counsel and pursuing any remedies they may have in courts of law. The options discussed in this Order do not constitute legal advice; deadlines for filing, procedures, and substantive offenses or remedies may change over time.

XII. APPLICABILITY OF PERSONNEL RULES

Any proposed personnel action instituted under this Order is subject to the regulations set forth in the District of Columbia Personnel Manual at Title 6B of the District of Columbia Municipal Regulations.

XIII. SEXUAL HARASSMENT TASK FORCE

A. There is hereby established the Sexual Harassment Task Force as an internal task force comprised of representatives of the Office of Human Rights, the Mayor's Office of General Counsel, the Department of Human Resources, the Assistant City Administrator, and the Mayor's Office of Legal Counsel, as designated by the head of each office, and such other individuals as these members may invite to serve as additional members of the task force. The task force shall meet from time to time to develop and advise on trainings, make recommendations about needed policies, review draft regulations, and otherwise take action or recommend measures to fulfill the intent of this Order: including to reduce the incidence of sexual harassment, train employees on what to do when faced with inappropriate workplace conduct, including harassment, and provide additional, effective procedures for addressing inappropriate conduct of a sexual nature. The task force may invite experts and other individuals to participate in the meetings and deliberations of the task force.

B. The Sexual Harassment Task Force shall, no later than May 1, 2024, make recommendations in the following areas and shall provide such recommendations to the appropriate agencies with authority to carry out the

recommendations or make final decisions regarding them. The recommendations need not be in the form of a report and may remain deliberative discussion items until finalized and accepted:

1. Communications to District Government employees about the District's sexual harassment policies;

2. Updates to required trainings for SHOs and agency General Counsels;

3. Recommendations for building a workplace free from sexual harassment;

4. Any recommended adjustments to prohibitions and disclosures regarding dating, romantic, and sexual relationships; and

5. The performance and progress by the agencies named in this Order in completing the responsibilities assigned to them.

XIV. SUPERSESSION

This Order supersedes Mayor's Order 2017-313 and any other provision of a previous Mayor's Order or practice pursuant to that Mayor's Order, to the extent of any inconsistency.

XV. EFFECTIVE DATE: This Order shall become effective November 10, 2023.

GRANT AGREEMENT

BY AND BETWEEN
THE DISTRICT OF COLUMBIA
AND

MARSHALL HEIGHTS COMMUNITY DEVELOPMENT ORGANIZATION INC.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 17, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and Marshall Heights Community Dev. Organization, a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) MPNCL577TNL5] (hereinafter referred to as "Grantee") with its principal place of business at 3939 Benning Rd NE Washington DC 20019. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year ("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. As a condition precedent to disbursement of the Grant proceeds to Grantee for the sole and exclusive purposes described in Exhibit A (which includes the "Statement of Work" and the approved "Workplan", both attached hereto and made a part hereof), the Department requires that Grantee enter into this Agreement setting forth the terms and conditions of the Grant.

The term of this Agreement and the provisions herein may be extended to cover any additional time period during which the Grantee remains in control of Grant funds or other Grant assets.

Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[34] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[34] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[35]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[36] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

2. During the hours of operations, Grantee shall have live answered telephones for incoming calls. If the Grantee's phone system utilizes an auto-attendant function or voicemail, announced option to the caller must include an option to press a certain key (such as "0" for an Operator) to be connected to a staff person in real time who can answer and field questions, redirect a caller to a staff person who can address a caller's inquiries, or provide registration information. DHCD and other DC agencies such as the Office of the Attorney General may check Grantee's compliance with this requirement from time-to-time.

The Grantee shall not refuse in-person services to DC residents.

The HRC provides services to DC residents by appointment and walk-ins." The HRC is located in the Grantor's offices at 1909 Martin Luther King Jr Av SE. The HRC coordinator, in conjunction with the Associate Director for Community Services, will develop a schedule in consultation with Grant subrecipients for staffing the HRC on a rotating basis on weekdays.

RFA applicants were awarded additional points in their score by committing to "Extended Office Hours." The options included providing office hours until 7:00 pm at least one (1) day a week in their office location and/or until 7:00 pm at least two (2) days a month in the HRC.

GRANT AGREEMENT

BY AND BETWEEN
THE DISTRICT OF COLUMBIA
AND

MARSHALL HEIGHTS COMMUNITY DEVELOPMENT ORGANIZATION INC.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 17, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and Marshall Heights Community Dev. Organization, a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) MPNCL577TNL5] (hereinafter referred to as "Grantee") with its principal place of business at 3939 Benning Rd NE Washington DC 20019. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year ("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[34] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[34] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[35]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[36] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

GRANT AGREEMENT

BY AND BETWEEN
THE DISTRICT OF COLUMBIA
AND

UNIVERSITY LEGAL SERVICES INC.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 14, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and University Legals Servcies, a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) NUHRJ8ZMKLN8] (hereinafter referred to as "Grantee") with its principal place of business at 220 I St NE Ste 130 Washington DC 20002. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year

("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. As a condition precedent to disbursement of the Grant proceeds to Grantee for the sole and exclusive purposes described in Exhibit A (which includes the "Statement of Work" and the approved "Workplan", both attached hereto and made a part hereof), the Department requires that Grantee enter into this Agreement setting forth the terms and conditions of the Grant.

Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[46] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[46] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[47]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

[47] In responding to the RFA published June 21, 2024, applicants were given the opportunity to receive additional points in scoring for committing to exceed the CDBG minimum threshold to either a 75% minimum or a 90% minimum.

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[48] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

2. During the hours of operations, Grantee shall have live answered telephones for incoming calls. If the Grantee's phone system utilizes an auto-attendant function or voicemail, announced option to the caller must include an option to press a certain key (such as "0" for an Operator) to be connected to a staff person in real time who can answer and field questions, redirect a caller to a staff person who can address a caller's inquiries, or provide registration information. DHCD and other DC agencies such as the Office of the Attorney General may check Grantee's compliance with this requirement from time-to-time.

[48] DC Holidays include New Year's Day, Dr. Martin Luther King, Jr. Holiday, Washington's Birthday, DC Emancipation Day, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Indigenous Peoples' Day, Veterans' Day, Thanksgiving Day, Christmas Day.

E. Grantee may offer clients virtual appointments as well as virtual group informational or educational activities, but Grantee shall also provide clients an option for in-person services (including both in-person one on one appointments as well as some in-person group informational or educational activities.) Applicants to provide services in Category 1 should review in detail the following legal citations governing the District's homeownership programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for homeownership pursuant to the relevant citations.

- Home Purchase Assistance Program: DC Code 42-2601 and 14 DCMR, Chapter 25
- Employer-Assisted Housing Program: DC Code 42-2501 and 14 DCMR, Chapter 36
- Inclusionary Zoning: Legislation Pending, Bill 17-586, 17-618, 17-619

A1: HUD Housing Counseling
This activity is open to applicant organizations which are HUD approved employing one or more HUD certified counselor(s). Such counseling is often (but not exclusively) in the pursuit of homeownership or credit repair and improvement or to improve their housing condition.

Grantees of this service should be familiar with 24 CFR 5.100 and with 24 CFR 214.

Housing counseling is independent expert advice provided by a HUD certified housing counselor (24 CFR Part 214) customized to the needs of the client. It is aimed at addressing housing barriers and providing support to the client to achieve their housing goals. This counseling service must include: (1) intake (2) financial and housing affordability analysis (3) an action plan[2] and (4) follow-up counseling to implement the action plan and achieve its stated goals *(24 CFR 5.100).*

The action plan should identify the steps needed for the client to achieve his/her housing goals. These actionable steps include, but are not limited to, review of the client's credit report with explanations of its meaning and items that impact (or may improve) the credit score, creation of a budget and methodologies to track one's income and spending, debt reduction planning, and savings planning. Follow-up should track the client's progress toward the goals of the action plan. Other programs and services including group educational opportunities may complement the one-on-one counseling with a certified counselor. Counselors, therefore, may appropriately make referrals to programs and services as well as to group educational activities that support and implement the goals of the action plan.

Counseling organizations are required to maintain case files including items 1-4 above as stated in 24 CFR 5.100. It is critical that files with records and case notes be kept in such a way that if a client's counselor is no longer available, either temporarily or permanently, another certified counselor in the organization can understand based on the file the client's circumstances, action plan, progress and where the client is in achieving his/her housing goals.

Organizations providing this service should have working experience with credit counseling and repair, with consumer credit bureaus and consumer credit laws. Ideally, they should be familiar with creditor tactics, liens, judgments, repossessions, and other obstacles to credit improvement.

It is critical for the counseling organization to make efforts to keep the client engaged in the counseling process and such attempts and outreach should be documented in the case file.

In accordance with HUD requirements, counseling organizations may close files if a client does not respond to outreach efforts over 60 days. The last outreach attempt should document that the file will be closed as of a specific date if nothing further is heard from the client. If the client should return to client after the 60 days, a new file should be opened.

[2] Except for reverse mortgage counseling.

Post-purchase follow-up

a) Grantees must continue their counseling relationship with customers once they become homeowners. This follow-up should continue for a period of time after purchase to ensure the homeowner's housing stability.
b) Grantees may make use of post-purchase programs using either their own programming or making referrals to other Grantees who provide such programming (*e.g.* B1 General Home Management and B2 Foreclosure Counseling).
c) If problems arise, it will be the grantee's responsibility to address them quickly as time is of the essence, and to address them as efficiently as possible. Where the District's investment is involved, counseling should include ways to protect the DC investment.
d) When working with clients who have an HPAP deferment period ending, Grantees must provide dedicated counseling services to those borrowers. In particular, grantees will be asked to make an updated assessment of each borrower's financial status regarding the appropriateness of continued deferment.
e) Potential delinquency, or foreclosure prevention, counseling will be provided to any borrower who is experiencing difficulty.
f) If problems continue with these loan clients, this counseling will become a home preservation activity.

A2 8-Hour Homebuyer Education Class (HBE)

This activity is open to applicant organizations which are HUD approved counseling organizations employing one or more Hud certified counselors.

The Department seeks HUD Approved organizations to provide the 8-Hour Homebuyer Class. This is in support of the Department's many programs for which the 8-Hour Homebuyer Class is a requirement, and also for other DC residents who seek to take this class in preparation for homeownership and for their knowledge.

Organizations should take as a serious obligation to conduct this class with knowledge staff (HUD certified counselors). The class is conducted in a traditional in-person setting or in a virtual online setting.

Those who successfully attend and complete the class should be provided with a DHCD certification (in the format approved by the Department) indicating their completion of the class and dated appropriately. Monthly attendance and award of certificates should be reported to the Department monthly. The class should be presented frequently enough to meet programmatic needs of DHCD programs. Class dates should be provided to the Department for inclusion on the DHCD calendar. Presentations should be given by staff, not outside speakers. Grantees are welcome to collaborate in the conduct of these classes.

A3: Intake for DC Homebuyer Programs (HPAP/EAHP/NEAHP)

The Home Purchase Assistance Program (HPAP) is the primary DHCD program for first-time homebuyers. HPAP provides interest-free loans that include closing cost assistance to eligible applicants. Under this program, homebuyers may have the opportunity to purchase houses,

condominiums, or cooperative units in the District. DHCD has additional homeownership programs which are associated with HPAP, and which are targeted to specific populations or geographic areas or may meet specific home buyer needs.

The satellite programs are:

(1) The Employee Assisted Housing Program (EAHP) provides assistance to District of Columbia Government employees, who are first-time homebuyers in the District; and

(2) The Negotiated Employee Assistance Home Purchase Program (NEAHP) provides down payment and closing cost assistance to certain District of Columbia Government employees whose position is covered by specific union collective bargaining agreements.

Wherever the acronym "HPAP" is used, the same applies to the EAHP and NEAHP programs.

Prior to HPAP Application

Clients interested in HPAP assistance who have a pre-approval from a lender, should be assisted with making an application to the HPAP as expeditiously as possible. Those without a pre-approval letter from a lender are required to engage in HUD Housing Counseling (see A1 above) in order that they have the benefit of credit counseling and homeownership preparation. The action plan should include the actionable steps needed to ensure success as a homeowner and to achieve a pre-approval letter from a lender. Once a pre-approval letter has been obtained, the client with the Grantee's assistance should proceed to making their application to HPAP.

Application Process

For grantee organizations, this relationship management function includes working with first-time homebuyers throughout the homeownership application, preparation, purchase, and post-purchase process. Counseling will be focused on low- and moderate-income populations.

Once HUD credit counseling is completed the HPAP process includes:

(Optional) Applicant organizations may conduct pre-purchase seminars which include information and requirements of the HPAP programs. A DHCD Certification should be provided to attendees and recorded with DHCD.

Application Intake includes document collection of those documents needed. These should be collected in person or by means of a secure portal. Email is not considered a secure means for transmission of information which could be used for identity theft or other criminal activity. Drop-off at a staff office to an employee is acceptable.

Once the application package is complete, the organization submits to the appropriate HPAP administrator.

Homebuyer Education (8-hour class) (A DHCD Certification should be provided to 8-hour Homebuyer Education attendees and recorded with DHCD.)

Post-Purchase follow-up (Records of those follow-ups should be maintained by the organization. See Post-purchase in Service A1)

Organizations will be responsible for: (1) the application process, which includes delivery of completed applications to the HPAP Administrators; (2) completion of the application form itself and collection of all required supporting documentation, and (3) maintaining performance and reporting data, and databases as needed by the Department.

A4: Inclusionary Zoning Orientations

Introduction to IZ/ADU Programs:

The District's Inclusionary Zoning (IZ) Program requires a certain percentage of units in a new residential development, or a substantial rehabilitation that expands an existing building, be set aside as affordable units. The goals of this program are to increase the supply of affordable housing for low- and moderate-income households, to support the creation of mixed-income communities, to prevent rising home prices from driving out low- and moderate-income residents, and to leverage the expertise and capacity of the private market to develop affordable housing.

Affordable Dwelling Units (ADUs) are defined as for-sale and for-rent homes that are locally restricted for occupancy by households whose income falls within a certain range and are generally offered at a below-market rate. ADUs are generally produced in exchange for zoning relief, tax incentives, public financing, and/or the right to purchase or lease District-owned land. Specific ADU provisions, such as the affordability period, income limits, and resale restrictions, are set out in deeds, covenants, land disposition agreements, ADU administration plans and other originating documents.

ADU provisions have historically varied from project to project, as each is a result of a unique negotiation or project approval. However, ADU restrictions are becoming more standardized and more similar to standard IZ requirements.

Organization roles and responsibilities:
Provide mandatory IZ Orientation. The department's PowerPoint presentation must be utilized. Presentation and answers to participants' questions must conform to agency guidelines.

DHCD seeks organizations which will provide programmatic rental and homeownership counseling services in support of both of the above programs. Information about these

programs is available through DC Housing Search https://www.dchousingsearch.org , counselors will be required to utilize DC Housing Search, and train potential customers in how to search for affordable housing through DC Housing Search.

Grantees will be required to become familiar with the program requirements and procedures, as required by DHCD. In the last few fiscal years, the IZ program has produced approximately 400 new affordable units each year.

Orientation:
In particular, organizations are required to conduct IZ Orientations to help residents to be familiar with all programmatic requirements for the IZ program.

Organizations must conduct and coordinate this mandatory orientation session in a traditional and virtual classroom settings. They must provide interested applicants/residents with the relevant terms of the program, including next steps and other information as required by DHCD.
DHCD currently provides standard slides and certificate templates to use for this orientation and will provide training to grantees.

Completion of this orientation class is mandatory before an individual may register for the IZ program and individuals must renew registration every two (2) years to remain on the IZ registration list.

The class must be conducted at least monthly beginning within 30 days after the grantee's application is approved. Coordination of this class will include publishing upcoming class dates, accepting reservations via phone, email, or other method, allowing walk-ins if space is available, providing attendees with a certificate of completion (in a format approved by DHCD) upon completion of the class and providing at least monthly attendee data to DHCD. It will also include ensuring that attendees receive all required training materials, and shall be presented by grantee staff, not outside speakers.

Grantees must train program participants in the terms and specifics of the IZ and ADU Programs (training guidance will be provided by DHCD) and provide additional pre and post homebuyer education training.

Grantees must also provide data to DHCD on a regular basis as determined and requested by DHCD, including but not limited to the names and contact details for individuals who have received a DHCD certificate and the number of attendees at IZ orientations.

A5: Income Certifications for the IZ/ADU Units Programs

The agency seeks two organizations to provide income certifications for participants in the Inclusionary Zoning and Affordable Dwelling Units programs. Income certifications are expected to be conducted under a uniform process prescribed by DHCD and following HUD Part 5. DHCD has established requirements for approving Certifying Entities, including

specific IZ and ADU training.

Grantees are expected to become Certifying Entities pursuant to DHCD requirements. Grantee organizations will be required to ensure that program participants understand that income and occupancy restrictions apply to their IZ units and ADUs. Grantees will also be expected to complete income certifications for newly selected households and for renewing tenants. Grantees will be working closely with individuals, property management/leasing staff, sales agents and DHCD. DHCD will provide the necessary forms and procedures, but Grantees will collect the necessary paperwork from individuals and complete the income and household size verification process. Upon successful certifications, Grantees will notify DHCD and the sales/leasing staff.

Such restrictions may include but would not be limited to: (1) the specific affordability period, (2) conditions for, or prohibitions against, subleasing, and (3) resale restrictions. Ongoing outreach and assistance to occupants of IZ units and ADU is required in the areas of programmatic requirements and homeownership counseling.

A6: Income Certification for PADD Applicants

The Property Acquisition and Disposition Division (PADD) encourages vacant and/or abandoned property owners to rehabilitate and/or occupy their properties. PADD acquires vacant, abandoned, and deteriorated properties through negotiated friendly sale, eminent domain, donation, or tax sale foreclosure, when owners are unwilling or unable to maintain their properties. PADD also disposes of properties in inventory by selling them to individuals or developers to be rehabilitated into high-quality affordable and market-rate single-family and/ or multi-family for-sale or rental housing in District neighborhoods.

For DHCD, the activities of this Division create affordable homeownership and rental opportunities for low- and moderate-income households. Grantees must counsel these households as they qualify for and occupy these new homeownership and rental units. DHCD seeks one or more organizations which will provide counseling or training services for affordable units made available through PADD.

Because PADD units are not produced through a traditional homebuyer program, an intensive marketing and outreach effort to our target population will be required of grantees. Counseling services will also involve conducting income certifications and re-certifications for purposes of admission and continuing participation in this program. Income certifications are expected to be conducted under a uniform process prescribed by the Department. For PADD, grantees must ensure that program participants understand that income, or occupancy, restrictions apply to their unit. Such restrictions may include but would not be limited to: (1) the specific affordability period; (2) conditions for, or prohibitions against, subleasing; (3) potential rent increases; and (4) resale restrictions. The specific unit covenant

terms will be communicated to stakeholders by the Department, but grantees must facilitate communication with stakeholders.

A7: Public Services: General Coaching and Information

Public Services may be undertaken by Applicants which have not yet obtained HUD Approval and may not employ a HUD certified housing counselors. (HUD Approved organizations who are applying for A1 or A2 do not need to apply for this service, since they are able to provide these Public Service activities in connection with their other lines of services.

These activities are frequent but not exclusively in a group setting. These may be virtual or in-person, as long as an in-person option is provided. Grantees may utilize Homebuyer Clubs as an effective tool for keeping clients engaged in homebuyer preparation when a long-term period is needed for better positioning to be a first-time buyer.

They may include group trainings on understanding credit and credit reports and involve savings programs.

Public service staff are required to train clients to utilize available tools, such as DC Housing Search https://www.dchousingsearch.org to locate affordable housing for sale and for rent.

CATEGORY B: COUNSELING AND TRAINING FOR HOME PRESERVATION

B8: General Home Management (Post-Purchase Non-Delinquent)

Post-purchase counseling is essential for Homeowners who have purchased their homes, are not delinquent in their mortgage payments and would like to remain successful by creating a realistic financial plan to avoid financial pitfalls and protect and retain their homeownership. Post-purchase counseling is essential to understand local post-purchase behavior, especially low-moderate income homeowners, that can be supported by education and supportive programs to ensure recent homeowners understand what to do in the event of hardships. Organizations that provide post-purchase counseling sessions and education workshops will ensure their topics consist of the following:

1. Prepare a maintenance plan for major household systems and repair strategies.
2. Emergency preparedness plan to assist client in case of disaster.
3. Understand consequences of not paying taxes, HOA payments or community assessments.
4. Explain the benefits of establishing an emergency fund and retirement or tax-incentivized accounts.
5. Provide knowledge of home improvement financing options like HELOCs and give counsel on how to apply for additional financing to renovate property.

6. Access the client's understanding of the process of refinancing the home and incurring more debt.

This counseling activity may include, but not be limited to, appliance warranty disputes, contractor disputes, disputes with mortgagors, will and estate issues, including transfer-on-death deeds, etc. In this service, grantees must serve as advisor-educators and are prohibited from giving legal advice. Grantee activities should focus on low—and moderate-income populations.

B9: Foreclosure Counseling

Homeowners who are delinquent in loan payments (as well as those in danger of delinquency) need to know what options are available to them. Similarly, those in foreclosure need to know their options and resources that may assist them, especially if available legal services are available.

Organizations are required to provide foreclosure prevention counseling that helps homeowners at risk understand the foreclosure process in Washington, DC, determine their legal rights and identify options to avoid foreclosure.
Organizations will assist struggling homeowners with loss mitigation, communicate with mortgage servicers and provide services such as the following:

1. Provide advice and coaching to assist clients with creating a budget based on financial goals. Assess the current financial situation and develop short and long-term strategies to reduce expenses and debt to achieve client goals.
2. Explain loss mitigation. Explain the requirements of a loss mitigation package and evaluate the client's loss mitigation options for FHA and non-FHA loans.
3. Provide examples of mortgage default scams and ways to avoid being a victim.
4. Explain the consequences and costs associated with a foreclosure, short sale, or deed-in-lieu.
5. Explain the foreclosure timeline and devise a plan if the client is unable to stay in the home and assist the client in mortgage default recovery. Demonstrate the impact of a mortgage default.
6. Work with displaced residents seeking referrals for housing.

Grantees work with homeowners who are delinquent in their mortgage payments, or who are in foreclosure, or in post-foreclosure. These counseling services are also offered to owners of multi-family properties, and ownership associations. This counseling serves as a central element of DHCD's overall foreclosure prevention strategy.

It is critical to address the District's foreclosure crisis. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Grantees also work with the Department of Insurance Securities and Banking (DISB) to protect clients against scam operations that prey upon residents who are subject to foreclosure. Grantee organizations extract data for outreach and targeting efforts from the Office of the Recorder of Deeds, which provides a listing of all official foreclosures in the

District on a weekly basis. DHCD seeks one or more organizations that will provide foreclosure counseling services which include, but may not be limited to, all of the above-described foreclosure prevention activities.

For grantees, this counseling function means working with troubled homeowners, utilizing all foreclosure prevention or mitigation tools available, and if necessary, working with customers throughout their foreclosure or post-foreclosure process. Grantees must provide full assistance and advice to troubled homeowners. Grantees will be responsible for: (1) assessing the homeowner's circumstances, (2) educating the homeowner about the full implications of mortgage delinquency and foreclosure (3) exploring and providing options of action for the homeowner (4) providing tools or alternative support that may further assist the homeowner (5) developing and executing a best action plan for either saving the home or undertaking the best course for the homeowner, and (6) tracking the results of their counseling efforts. In addition, grantees will provide ongoing performance and reporting data and databases maintained.

Post-Foreclosure Counseling: It is critical that grantees continue their counseling relationship with customers, even if the home cannot be saved. Grantees must follow up with troubled homeowners for a period of time after any action plan has been executed. If the home has not been saved, counseling should be made available, and if necessary, referral to other needed services. If the home has been saved, counseling follow-up is also necessary to ensure that the ongoing action plan is being properly implemented. If more problems arise, it will be the grantee's responsibility to address them as quickly and as efficiently as possible.

With the passage of the Saving DC Homes from Foreclosure Emergency Amendment Act of 2010, troubled or delinquent District homeowners have the right to engage in mediation prior to foreclosure. As a result, DHCD requires grantees to provide counseling related to this mediation process.

Grantees must be familiar with the Law, its regulations, and the mediation process which has been implemented by the Mediation Administrator at the DC Department of Insurance, Securities, and Banking. Grantees must educate troubled homeowners in the decision factors related to mediation election, and, if necessary, prepare them for mediation. In some cases, counselors may be asked to accompany, or represent, troubled homeowners in the mediation process. Grantees must ensure that all customers who elect mediation complete and submit proper documentation in a timely manner. Grantees must ensure that the best interests of troubled borrowers are protected throughout the mediation process. Finally, DHCD expects grantees to follow-up after the mediation process is complete to ensure that any final mediation agreement is properly implemented.

B10: Eviction Counseling

Applicants who have HUD certified counselors or NeighborWorks America foreclosure certified counselors may offer this service. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Training should also include knowledge of laws and legal procedures governing eviction.

Eviction has long created housing instability for renters, and especially among low- and moderate-income households. For those at the lower end of the economic scale, eviction has caused not only housing instability but also employment insecurity and homelessness. Studies have shown that lack of access to legal representation has resulted in markedly different and detrimental outcomes as compared to renters who have legal representation. After legal representation, the next most effective range of services includes alternative dispute resolution (or mediation), knowledge and guidance in court navigation, and effective management of legal and tenant-landlord documents. In addition to housing instability, eviction also has credit impact for the tenant.

It is critical to provide those in danger of eviction with counseling to make informed decisions. This includes access whenever possible access to legal services. Also, appropriate training includes information about tenants' rights and obligations, the credit impact of eviction, use of payment plan agreements, understanding of court processes and procedures, and access to alternatives to court procedures. When tenancy is lost, counseling for housing alternatives is needed and a path forward to credit repair.

B11: Single-Family Residential Rehabilitation Program

The Single-Family Residential Rehabilitation Program (SFRRP) administers grants to District homeowners for roof repairs and for modifications to eliminate barriers to accessibility for persons with mobility or other physical impairments. Projects approved for SFRRP require a covenant on the property to protect the District's funding of the project.
DHCD seeks one or more organizations which will provide application intake services to SFRRP applicants throughout the grant process.

> **Mandatory Counselor Intake Training:** Grantees for this line of service are required to attend training with the SFRRP team in September to be introduced to updated aspects of the SFRRP for FY25. It is critical that the grantee have a solid understanding of the updated program and the requirements for applications. Therefore, the September training is mandatory for SFRRP intake counselors.
>
> **Application Period:** Applications for SFRRP will only be taken between October 1, 2024, and December 31, 2024. To be considered applications during this period must be complete. Lack of required documentation or information will not "hold a place" in the program if not provided before the December 31, 2024. The Department at its sole discretion reserves the right to close the program prior to the deadline if funding is depleted or no longer available.

Information Session for Applicants: The Department will provide Grantees with a PowerPoint presentation outlining the program and its requirements. Intake counselors are required to use this presentation with all potential applicants either in a group sessions (such as an Orientation) or in a one-on-one session with the potential applicant.

Grantee's and Counselor's Responsibilities: (1) use the Department PowerPoint presentation to present the program to potential applicants, answering questions from residents interested in the program; (2) complete the application document and collection of **all required** supporting documentation *(incomplete applications will not be accepted)*; (3) post-application and post-grant support; and (4) providing performance and reporting data as required.

45 Day Period: It is critical that no application be uploaded in the SFRRP portal unless it is complete with all required documents and intake form completed. If an incomplete application is uploaded in the portal, the SFRRP staff will notify the counselor and the applicant that the application cannot be accepted. The notification state that what is complete and state the **applicant has 45 days** to provide the requested information including documents. After 45 days if the application remains incomplete, the application will be closed as incomplete for funding.

Application Portal: Counselors will need to provide their name and contact information (e.g. email) when uploading in case SFRRP program staff need to follow up.

Legal Citations Governing Program Area for Category B:

Applicants to provide any service in Category B should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

- Lead Safe Washington 24 CFR, Part 35, 24 CFR, Part 85.37, Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992
- Single Family Rehabilitation 14 DCMR, Chapter 28 First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
- Saving DC Homes from Foreclosure Emergency Amendment Act of 2010 (DC Act 18-635; 57 DCR 12404)

B12: Legal Services for Homeowners and/or Coop & Condo Associations

The Department seeks organizations to provide legal services to provide one or both of the services noted below. Grantees will conduct outreach to low- and moderate-income populations in need of these services.

- Legal Services to Seniors
  Seniors who are homeowners can be assisted by the Applicant to have legal services to assist Seniors to avoid housing instability or the loss of ownership of their home. In addition to their own attorney staff, Applicants may seek *pro bono* services from other members of the Bar.

- Legal Services to Coop-Condo Associations
  Legal services may be provided to Cooperatives and/or Condominiums ("Associations") to ensure housing stability. If Associations have problems in areas of legal entity status, required legal or financial filings, compliance issues, risk management concerns, board and member training, best legal practices, and collection of association fees (to name of few), such issues may threaten the member's housing stability, and the owners' (or members') investment in their properties. Selected applicants will provide legal services to Associations in low- and moderate-income census blocks to mitigate these concerns, to preserve housing stability of owners and to ensure well-functioning Associations and Boards.

B13: Technical Assistance for Coop and Condo Associations

The Department seeks one or more organizations to provide technical assistance to Associations. The situation many Associations may face is a need for training in best practices of Association management. Training in best practices and frequently encountered problem situations may be offered by the grantee not only to the Association Board but also to the owners in the Association. Association boards and their member owners frequently face issues of association fees not being paid, lack of income to fund reserves, special projects that would require a special assessment, and decisions of taking court action or being the defendant in a court action. These are just a few of the legal issues which may arise for the Association, in addition to the more routine matters of by-laws and required legal documents for the operation of the Association.

B14: Technical Assistance for Landlords of Small Rental Properties

Landlords of small rental properties face enormous challenges. They frequently lack the staff and the resources of large multi-family properties to deal with the many details of operations and asset management. Small unit properties cannot readily absorb mistakes or challenges.

In a ten-unit property, one vacancy is a 10% vacancy rate, while one unit in a 100-unit property is 1% vacancy rate. Yet, small unit properties are often the affordable renter properties. To preserve this housing stock as an affordable option, DHCD seeks grantees to provide Technical Support to Owners of Small Unit Properties (of 30 units or less).

Services can be provided through group training as well as through one-on-one counseling. Like many small business owners, owners can often benefit from a better understanding of accounting practices and financial statements (balance sheet, income statement, cash flow report). Knowledge of financing options is another common to many business owners. Topics such as these are particularly suitable to the needs of owners.

1. **Property Management Software**: Landlords often need help selecting and implementing property management software to track rent payments, maintenance requests, tenant information, and other critical operational data.

2. **Legal Compliance**: Guidance on navigating complex local, state, and federal housing laws and regulations related to fair housing, security deposits, evictions, and other landlord-tenant issues.

3. **Financial Management**: Guidance with accounting, tax preparation, and financial planning specific to rental property ownership and operations.

4. **Maintenance and Repairs**: Access to vetted contractors, tradespeople, and service providers to handle property maintenance, repairs, and upgrades in a timely and cost-effective manner.

5. **Tenant Screening and Selection**: Guidance and best practices with tenant screening processes, background checks, and selecting responsible renters to minimize vacancies and evictions.

6. **Marketing and Leasing**: Help with listing vacant units, advertising, showing properties, and executing leases to keep units occupied.

7. **Emergency Response**: Guidance on developing emergency plans and protocols to address unexpected events like natural disasters, property damage, or tenant issues.

8. **Asset Management Issues**: The ratios and metrics of asset management for multi-family properties provide a helpful guide to best practices. For example: Many landlords are unaware of the effect that certain metrics have in their properties. Slow "Make-Ready" times, refers to the length of time it takes to prepare an apartment to be shown to prospective tenants. Similarly, "turn time" refers to the times it takes to find a renter and receive the first month's rent. Slow turn times are also a drain on resources. When there are slow "make ready" and slow "turn times" the combined effect can be detrimental for the property's future. High turn-over rates among renters is another draw on the income. Other issues and topics include: What to do when you have a tenant who is not paying rent? What are the alternatives to eviction? How do the Court work? Are there pre-eviction resources? What legal services are available to the owner?

CATEGORY C: TENANTS AND TENANT GROUPS: SERVICES RELATIVE TO Tenants Opportunity to Purchase Act, Rental Conversion and Sale Division, and Rental Accommodations Division

The DC Tenants Opportunity to Purchase Act (TOPA) seeks to protect tenants and tenant groups from displacement due to sale of the property. The law allows tenants to purchase their apartment building. Tenants have the choice of maintaining the apartments for rent or converting to cooperatives or condominiums. DHCD seeks to preserve affordable housing in the District and limit displacement of low- and moderate-income households. For groups that choose coop or condo conversion, this provides a path to homeownership.

DHCD provides both financial assistance and technical assistance, as well as specialized organizational and development services, for tenant groups who are pursuing the purchase of their apartment buildings. Through DHCD's Development Finance Division, organized tenant associations may be provided with seed money, earnest money deposits, and acquisition and/or rehabilitation assistance. After acquisition and rehabilitation, DHCD also provides ongoing Board training and property management support to the newly formed cooperative or condominium Boards.

C15: TOPA: Pre-purchase Training

DHCD seeks one or more organizations which will provide pre-acquisition organizational and developmental counseling and training to tenant groups or tenant associations in support of their intent to purchase their building. These tenant groups must be preliminarily qualified as eligible for DHCD's Tenant Purchase Technical Assistance program. Grantees must provide the following services to tenant groups:

a) establishment of a tenant association.
b) selection and appropriate training of Board members.
c) training of captains (court, building and floor).
d) training in roles and functions of committee members; (5) training tenant groups in detail about the building purchase process.
e) training tenant associations in property management techniques.
f) provide training to the tenant association on each type of ownership; and conducting surveys of tenant associations to determine the appropriate form of ownership for their building (cooperative or condominium).

It is critical that Grantees in this service maintain an outreach to educate and inform low- and moderate-income tenants about their rights and opportunities provided by TOPA. Grantees are encouraged to make this a central aspects of their marketing plan, and to create

opportunities as well as avail themselves of opportunities to participate in educational outlets to reach tenants. Collaboration with other Grantees in this or similar service lines is encouraged. Grantees should participate in DHCD when and as those opportunities for outreach are available.

While training the tenant association, the grantee must be able to prepare and submit appropriate documentation required in the purchase process, including but not limited to tenant profiles and feasibility analyses, response to Notice of Sale of Building, preliminary development, acquisition, and rehabilitation plans, and operational plans.

The grantees must have skill and experience in negotiating the lease or purchase of the building. In addition, grantees must assist tenant groups in procurement related to the development, purchase, and rehabilitation process, including but not limited to attorneys, architects, engineers, financial and developmental consultants, private developers, appraisers, and property managers.

C16: TOPA: Post-Purchase Training

DHCD seeks one or more organizations which will provide ongoing post-acquisition counseling services which include property management and Board training for properties which have been purchased and/or rehabilitated with financial assistance from the DHCD Development Finance Division's First Right Purchase program. Generally, these are multi-family properties that have been purchased through limited equity cooperative agreements or condominium purchases. Therefore, non-profit Board training and development skill and/or experience, as well as multi-family property management skills are critical to providing effective counseling services. Services to be provided under this activity may include, but are not limited to:

a) establishing standards of evaluation for each participant's financial status and leadership capacity.
b) conducting annual management reviews of all Boards, oversee election and
c) training of new Board members.
d) assisting in the establishment of appropriate arrangements with required service providers such as exterminators, garbage collectors, landscapers, etc.

Legal Citations Governing Program Area in Category C:

Applicants to provide any service in Category C should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
Tenant Purchase Technical Assistance Program DC Code 42-3404.02
Rental Housing Conversion and Sale Act of 1980, as amended (DC Code 42-3401.01 et. seq.) (Also known as the Tenant Opportunity to Purchase Act or "TOPA")

C17: Services for Tenants and Tenant Organizations
(in partnership with Housing Regulation Administration, Rental Accommodation Division, Rental Conversion and Sale Division).

Activities under this service will supplement and enhance the services provided by DHCD's Housing Regulation Administration (HRA), which includes the Rental Accommodations Division (RAD) and the Rental Conversion and Sale Division (CASD).

RAD administers the Rental Housing Act of 1985 (D.C. Official Code § 42-3501.01 et seq.) which regulates residential rental housing registration and the rent stabilization program (commonly known as rent control). RAD oversees rent adjustment procedures, processes notices to vacate, reviews tenant petitions prior to adjudication by the Office of Administrative Hearings and adjudicates most types of landlord petitions. RAD also proposes rules and regulations for administration of the Rental Housing Act for review and publication by the Rental Housing Commission.

CASD administers the Rental Housing Conversion and Sale Act of 1980 (D.C. Official Code § 42- 3401.01 et seq.) which regulates the sale or transfer of ownership interests under the

Tenant Opportunity to Purchase Act of 1980 (TOPA) (D.C. Official Code § 42-3401.01 et seq.), the conversion of use of rental housing to condominium or cooperative ownership and residential condominium formation and registration under the Condominium Act of 1976 (D.C. Official Code § 42-1901.01 et seq.). Further, CASD administers a Housing Assistance Payment program (HAP), under which tenants may be eligible for rent assistance if they are displaced due to the conversion of use of their apartment building to condominium or cooperative ownership.

CASD also proposes rules and regulations for administration of the Rental Housing Conversion and Sale Act of 1980.

DHCD seeks one or more organizations which will support RAD and CASD operations by providing counseling and tenant education services to tenants and tenant groups. Grantees must provide counseling and training assistance to tenants and tenant organizations regarding the District's rental housing laws and tenant and landlord rights and responsibilities.

For CASD, grantee organizations must provide counseling and training concerning: (1) tenants' TOPA rights when a landlord intends to sell, demolish, or discontinue rental housing use; (2) transfers of rental housing ownership or economic interests; (3) assisting tenants or tenant organizations in exercising their right to purchase; (4) informing tenants or tenant organizations relating to partner-investors and assigning TOPA rights; (5) conversion of use from rental housing to condominium or cooperative ownership by tenant elections, or conversion in lieu of tenant elections; (6) the Housing Assistance Payment program and relocation assistance; (7) tenant organization formation, incorporation, and registration; (8) protections for elderly or disabled tenants; (9) coercive or retaliatory activities; (10) tenant rights when rental housing is in foreclosure; (11) notices of intent to convert use from rental housing to condominium or cooperative ownership; and (12) relocation counseling for displaced tenants.

For RAD, service providers must demonstrate the ability to counsel and train tenants and tenant organizations on rent control provisions including properties that are regulated by or exempted/excluded from rent stabilization under the Rental Housing Act:

1) petition- based and annual rent increases.
2) executing and filing tenant petitions.
3) responding to landlord petitions.
4) protections for elderly and disabled tenants.
5) RAD's conciliation services.
6) notices to vacate and eviction procedures.
7) disclosures to tenants.
8) changes and decreases in services and facilities.

9) learning about and securing enforcement of housing condition regulations.
10) security deposits.
11) understanding lease provisions.
12) rent increases if a property is not under rent control.
13) appealing decisions of the Rent Administrator or the Office of Administrative Hearings; and
14) relocation counseling for displaced tenants. Note: Advocacy on behalf of tenant groups, or tenant rights assignees– including, but not limited to, legal advice or advocacy on tenants or tenant organizations' behalf in negotiations with a property owner–is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators, and not as advocacy groups. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns, or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a grantee is to ensure that tenants understand all available options.

Direct Counseling to Tenants and Tenant Groups: tenant counseling services will be designed to educate tenants in privately-owned properties about their legal rights and opportunities. This service is to be provided to tenants and tenant groups which are not subject to foreclosure and have not selected to exercise their Opportunity to Purchase Rights and/or Right of First Refusal under TOPA. It also includes providing other services and tenant education, which may not fall into the categories of services outlined above, such as eviction counseling, relocation counseling, apartment search, or apartment management.

DHCD seeks one or more organizations with the capacity to bring a range of resources to prevent involuntary displacement and to provide opportunities for continued affordable rental housing. Grantees must provide counseling services to tenants and tenant groups which include, but are not limited to: (1) outreach to tenant groups upon notice of one-year potential for subsidy expiration; (2) technical assistance in negotiations between owners and HUD relative to the renewal of federal subsidy contracts; (3) counseling for tenants in buildings where the subsidy will be lost and the tenant(s) must move; (4) counseling for tenants who are behind in their rent on best-action options; and (5) appropriately referring tenants who are in landlord/tenant disputes to all available resources. Grantees must also conduct research using the many databases and research tools available to identify properties that have a critical need for counseling assistance, including but not limited to DCHousingsearch.org. Note: Advocacy on behalf of tenant groups or tenants' rights assignee –including, but not limited to, legal advice or advocacy on tenants or tenant organizations behalf in negotiations

with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators and not as tenant advocates. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a prospective grantee is to ensure that tenants understand all available options.

Additional Legal Citations Governing Programs in Category C.

Applicants to provide any service in this Category and should review in detail the legal citations governing DHCD's rental accommodation functions:
(1) the Rental Housing Act of 1985, D.C. Official Code § 42-3501 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapters 38-44.
(2) the Rental Housing Conversion and Sale Act of 1980, D.C. Official Code § 42-3401 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapter 47.
(3) the Condominium Act of 1976, D.C.

Official Code § 42-1901 et seq.; (4) D.C. Official Code § 42-1901 et seq.; (5) the First Right to Purchase Program, title 14 of the District of Columbia Municipal Regulation, chapter 2700; and (6) Housing Conditions, Title 14 of the District of Columbia Municipal Regulations, Chapters 1-15. Submission of an application relevant to these services presumes that the applicant intends to meet all requirements to provide counseling to tenants and tenant groups pursuant to these above referenced citations.

3.3 Geographic Distribution of Services

The Department's decision to select one or more grantees to provide services will be influenced by the potential geographical distribution of service among the qualified applications received. Applicants can designate their proposed service areas in the District based on their by-laws, Board policies, etc. However, the Department reserves the right to designate any service areas it deems appropriate or necessary in making awards and negotiating grant terms. In reviewing the applicant pool, the Department's priority will be to ensure that excellent affordable housing counseling and training services are provided to all low- and moderate-income citizens of the District of Columbia. The Department will seek to bring parity in the quality of all housing services provided for all areas of the District through the award and ongoing management of these grants.

3.4 Marketing and Outreach

Marketing Plan to be submitted: Marketing and outreach are critical aspects of the grant's work. Grantees' efforts ensure these programs and services' success and desired impact. No Grantee or service is exempt from this requirement. Applicants must submit a detailed marketing and outreach plan for the services they are applying for. The plan should be detailed and not assume an understanding that has not been stated. Marketing should be included in the proposed budget and work plan.

DHCD will review and approve the marketing plan. In accordance with agency policy, marketing activities should highlight partnerships with and funding by DHCD.

Aspects of Marketing and Outreach to be considered:

- Continuous and consistent marketing and outreach are essential to achieving these services' objectives and maximizing public awareness of DHCD housing programs.
- Because of DHCD's diverse target population, grantees must utilize various marketing tools.
- Grantees are responsible for distributing DHCD program materials at community forums, public events, homeownership meetings, and fairs. Marketing and outreach may include but are not limited to, websites, email blasts, blogs, listservs, Twitter, Facebook, YouTube, Hope Hotline, flyers, door-to-door visits, community meetings, use of cable television (Channel 16), and public service announcements.

Coordinated with the Department: The grantee's marketing and outreach must be coordinated with DHCD. Grantees are expected to continually assess the success and impact of their marketing efforts to identify the most effective and efficient ways of reaching low– and moderate-income populations.

Participation in Department Marketing Activities: As required by DHCD, Grantees must participate in public activities and events related to housing opportunities. These may include but are not limited to tabling at events, participating in panel discussions, and providing speakers to groups, agencies, or organizations that request them.

DHCD Acknowledgement: Grantees must always acknowledge such housing assistance activities as Department of Housing and Community Development programs in any distributed print or electronic materials. DHCD must approve all such materials before distribution.

Use of DHCD Logo: All written or printed materials distributed or posted by Grantee that publicize the activities being funded by the D.C. Department of Housing and Community Development shall include information that the service, activity, or program is being supported and funded, partially or entirely, by the Department.

1. The written or printed materials must include the authorized DHCD logo.
2. Written or printed materials include, but are not limited to, newspaper, radio, and television announcements or advertisements. Websites, stationery, publicity materials, and written media communications, including newsletters, flyers, and brochures.
3. Grantees must abide by DHCD style guidelines when using the authorized DHCD logo.

4. The grantor may require that specific templates be used when promoting certain grant-funded programs. In those instances, DHCD will provide the templates and instructions to the Grantee.
5. The grantee must provide copies of all marketing materials, brochures, flyers, and other materials that publicize grant-funded activities to the Grantor via email at dhcd.occo@dc.gov
6. The grantee shall publicize as appropriate to its constituency through social media, print, and online postings, DHCD communications, and events related to Grant-supported activities.

Diversity and Language Access in Marketing: Grantees must demonstrate the capability to effectively serve and communicate with the District's various non-English speaking and special needs populations. This means that marketing and outreach materials must be made available in multiple languages and media based on the needs of those populations. The grantee must demonstrate its intent and capability to comply with the District's Language Access Law. In addition, grantees must demonstrate the availability of appropriate staffing to ensure compliance with the District's Language Access Law.

3.5 Focus Areas and Neighborhood Revitalization Strategy Areas (NRSA)

DHCD has identified specific areas of the District as "Focus Areas." These Areas represent areas where the District has invested in funding to create and preserve affordable housing. Focus Areas follow main routes through the District and their associated neighborhoods. In many cases, business owners are centered on these major routes, while resident services will be seen as more appropriate for those in the communities. Applicants must ensure services are delivered to low- and moderate-income households or areas as part of their program (Housing Services, Small Business Technical Assistance, Façade Improvement). This is a CDBG requirement.

- For Housing Counseling applicants, these Focus Areas should be used to plan outreach activities to inform residents of their services.
- For SBTA and Façade grantees, the Focus Areas define the geographical areas of the District in which they will provide services. In this latter case, the Focus Areas define not only their outreach area but also their service area.

NRSAs Targeting East of the River

The Department obtained the HUD designation for the Neighborhood Revitalization Strategy Area (NRSA) for the Focus Areas in Wards 7 and 8. DHCD has designated areas of Historic Anacostia in the city's Southeast and Far Northeast communities as Neighborhood Revitalization Strategy Areas (NRSAs). This designation will allow the city to target Community Development Block Grant (CDBG) funding that supports economic and community revitalization efforts. These include Martin Luther King Jr Avenue, Marion Barry Avenue, Minnesota Avenue, and Benning Road. However, all areas of Ward 7 and Ward 8 remain the focus of the grantee's work and outreach.

For communities outside of the NRSA areas, DHCD has designated Focus Areas throughout the District. Applicants are encouraged to partner with other community-based organizations. This collaboration can include cross-disciplinary collaboration. For example, a Façade grantee may partner with an SBTA grantee to provide business owners various services encompassing both disciplines. Housing service grantees may partner to promote or provide services one grantee offers, but another may not. The key to collaboration is an outlook of being partners, not competitors.

The following is a list of the Focus Areas and some of their associated neighborhoods. The outreach plans can include other nearby neighborhoods, mindful of the low-income requirements. Each applicant is asked to select one or more Focus Areas for their application. Please note that this is a minimum, and applicants may choose more than three. Applicants will be asked to provide reporting on outreach activities.

The following is a list of the Focus Areas outreach plans, mindful of the low and income requirements.

Focus Areas/Neighborhoods

Instructions Show/Hide

As in the past, Performance Reporting is divided into three sections:

- **Workplan Metrics** (numbers only),
- **Accomplishment Narrative** (Text Boxes), and
- **Various uploads** (spreadsheets usually).

This data is extremely important. Reports can affect performance goals and funding. Your reports are used to report to the City Administrator, the Mayor (including DMPED) and to the District Council and its Committee on Housing. Where uploads are required, **use excel files or Word files.** This will allow your information to be uploaded into the database and reported to District leaders.

For **Workplan Metrics,** use only numbers or leave it blank**. Letters such as N/A are to be avoided.** This will make your report impossible to be uploaded in the DHCD database and will require your corrections. Only numbers zero (0) and above can be used. If a metric is left blank, it will be treated as a zero.

In the **Accomplishment Narrative**, text boxes are provided to provide statements of activities or the information requested. In the first Report, please answer Question 22 (Points of Contact) with all points of contact for the areas mentioned. Thereafter in subsequent months, if there are no changes, it is okay to say, "No Changes". The same is true for Question 21 (staffing). Please answer Question 23 (Success Stories), Question 24 (Good News), Question 25 (Other DC agencies and initiatives). Question 26 is important. Remember the RFA asked applicants to align outreach to the Focus Areas mentioned on pages 33 and 34 of the RFA. Mentioning specific Focus Areas in the narrative for Q26 is helpful.

The **Document Upload** section is where excel spreadsheets (usually, sometimes Word Documents) are uploaded. **PDFs cannot be uploaded into database.** [The District of Columbia is fortunate to have many DC Based Programs such as HPAP, IZ/ADU, PADD, SFRRP, TOPA, HRA/RAD related activities, as well as direct services to tenants and tenant groups, and services to Condo/Coop Associations. DHCD staff need monthly reporting in order to better do their work and respond to the needs of DC citizens. These reports are shared directly with the appropriate program manager.]

There three areas of your activities will be reported on a monthly basis to help us meet our HUD and DC Government requirements and the needs of DC residents.

Reporting for Fiscal Year 2025 will begin with Report # 1. The end of Government's fiscal year (9/30/2025) will conclude with Report # 10 and the close-out of FY25 Purchase Orders. The complete schedule is below for the monthly report.

Other Reporting: Beneficiary Data and Language Access

Other reports are also required. These include **Beneficiary Report** and **Language Access Report.** These two reports are required on a quarterly basis. These reports will not be answered within ZoomGrants. The Office of Program Monitoring will provide the spreadsheets to use for these quarterly reports. Please see your Grant Agreement for additional information about the monthly and quarterly reports. Please note, the Beneficiary Report corresponds to the sources and uses of your Grant Agreement. A separate Beneficiary Report is needed for each type of funding awarded: Public Service (PS), Non-Public Service (NPS) and NRSA Wards 7 & 8 PS and NPS.

These quarterly reports will be due:

Oct/Nov/Dec 2/24/2025

Jan/Feb/March 4/10/2025

April/May/June 7/10/2025

July/August/Sept 10/10/2025

Exhibit I Mayor's Order 2023-131 Updated District Government Sexual Harassment Policy, Guidance and Procedures

Mayor's Order 2023-131

GOVERNMENT OF THE DISTRICT OF COLUMBIA
ADMINISTRATIVE ISSUANCE SYSTEM

Mayor's Order 2023-131
October 31, 2023
SUBJECT: Updated District Government Sexual Harassment Policy, Guidance, and Procedures

ORIGINATING AGENCY: Office of the Mayor

By virtue of the authority vested in me as Mayor of the District of Columbia by sections 422(2), (3), and (11) of the District of Columbia Home Rule Act of 1973, 87 Stat. 790; Pub. L No. 93-198, D.C. Official Code §§ 1-204.22(2), (3), and (11), it is hereby **ORDERED** that:

I. PURPOSES AND BACKGROUND

This Order incorporates provisions of, updates, and supersedes Mayor's Order 2017-313, dated December 18, 2017, regarding sexual harassment in District of Columbia ("District") Government workplaces.

In addition to providing procedural updates to the District's sexual harassment policy, this Order establishes and directs the Sexual Harassment Task Force to further examine the District's sexual harassment policies and provide recommendations to further the goal of a harassment-free workplace; establishes obligations of District Government employees; adds Mayor's direct reports to those required to be referred for outside investigation of sexual harassment; and bans all sexual and romantic relationships between supervisors and the employees in their chain of command.

This Order reaffirms that the District Government does not tolerate any form of inappropriate workplace conduct including sexual harassment, nor does it tolerate sexual harassment in non-employment interactions between District Government employees and the public. Sexual harassment is recognized as one of the most unjust, demeaning, and demoralizing examples of workplace misconduct.

This Order also requires that employees be trained on sexual harassment every year and provides additional specificity as to the qualifications and role of Sexual Harassment Officers.

Further, this Order directs agency compliance with the Sexual Harassment Data Collection and Reporting Act of 2022, D.C. Law 24-171, D.C. Official Code § 1-546.01, and clarifies, consistent with the Human Rights Enhancement Amendment Act of 2022, D.C. Law 24-172, D.C. Official Code § 2-1402.11(c-2), the definition of sexual harassment.

II. INDIVIDUALS AND ENTITIES COVERED

A. Prohibitions and Protections

1. This Order is intended broadly to prohibit sexual harassment in all interactions with District Government employees and officials and persons acting on behalf of the District Government, and to facilitate speedy investigation and non-monetary remedial action including warnings to stop offensive behavior, additional training, reassignments, and personnel and contract actions.

2. The District of Columbia prohibits workplace sexual harassment by all District Government employees and officials. The prohibition applies to harassment of other employees and officials and to harassment of third parties

and members of the public interacting with the District Government, such as vendors, contractors, grantees, customers, clients, and other persons visiting or working at District Government worksites or service sites inside and outside District Government agencies.

3. Likewise, contractors and grantees carrying out work on behalf of the District Government shall not sexually harass colleagues who carry out work on behalf of the District Government; District Government employees; or customers, clients, or beneficiaries of the services the contractors and grantees provide on behalf of the District Government; and those clients, customers, beneficiaries, employees, and colleagues may file complaints that trigger sexual harassment investigations and possibly remedies. Remedies may include requiring the contractor or grantee to use alternate personnel to provide services, and other remedies available under the contract or grant agreements up to and including contract or grant termination or non-renewal of the grant or contract.

4. In addition, sexual harassment by District Government clients, customers, or visitors against District Government employees, contractors, or grantees, or other clients, customers, or visitors, at District Government worksites or service sites, is prohibited and complaints made against District Government employees who sexually harass contractors, grantees, agency clients, customers or visitors, upon investigation, may result in discipline of the employee and accommodations of the contractor, grantee, customer or visitor, such as having another government official assigned to the matter.

5. In the course of their duties as members of District of Columbia boards and commissions, board and commission members are bound by the prohibitions, procedures, and deadlines set forth in this Order.

6. Not every procedure set forth in this Order applies to persons not working for the District Government.

B. Scope

1. Laws prohibiting sexual harassment apply throughout the District Government. The agencies listed below should either use the training, procedures, information, and processes provided in this Order, or their own, similar ones. To the extent District law requires centralized reporting, the reporting requirements in this Order apply to all agencies.

2. Those agencies include the Office of the Attorney General, the Office of the Chief Financial Officer, the Board of Elections, the Zoning Commission, the Public Service Commission, the Commission on Arts and Humanities, the Washington Convention and Sports Authority (Events DC), the Board of Education, the University of the District of Columbia, the DC Public Library, the DC State Athletics Commission, the Public Charter School Board and public charter schools, the Office of the People's Counsel, the District of Columbia Water and Sewer Authority (DC Water), the Green Finance Authority, the Health Benefit Exchange Authority, the Not-for-Profit Hospital Corporation, the Contract Appeals Board, the DC Retirement Board, the Office of Employee Appeals, the DC National Guard, the Criminal Justice Coordinating Council, the Office of Police Complaints, the Corrections Information Council, and the Uniform Law Commission.

3. This Order does not apply to the Council of the District of Columbia, Advisory Neighborhood Commissions, or the DC Courts, and agencies and offices subordinate to them.

III. SEXUAL HARASSMENT

A. Through the Human Rights Enhancement Amendment Act of 2022, D.C. Law 24-172, effective September 21, 2022; D.C. Official Code § 2-1402.11(c-2), the Council has, in the employment context, expanded the definition of "harassment" and "sexual harassment" under the D.C. Human Rights Act to provide that sexual harassment includes conduct of a sexual nature, "whether direct or indirect, verbal or nonverbal, that unreasonably alters an individual's terms, conditions, or privileges of employment or has the purpose or effect of creating an intimidating, hostile, or offensive work environment."

B. In addition, sexual harassment includes "sexual advances, requests for sexual favors, or other conduct of a sexual nature where submission to the conduct is made either explicitly or implicitly a term or condition of employment or where submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual's employment." This is sometimes referred to as quid pro quo sexual harassment.

C. In determining whether sexual harassment has taken place, the D.C. Human Rights Act states that "conduct need not be severe or pervasive to constitute harassment" and that "no specific number of incidents or specific level of egregiousness is required."

D. Examples of conduct that can contribute to or constitute sexual harassment or an intimidating, hostile, or offensive work environment include:

1. Sex acts;

2. Display of sexual organs;

3. Using sexually oriented or sexually degrading language describing an individual or their body, clothing, hair, accessories, or sexual experiences;

4. Sexually offensive comments or off-color language, jokes, or innuendo that a reasonable person would consider to be of a sexual nature, or belittling or demeaning to an individual or a group's sex, sexual orientation, or gender identity;

5. "Sexting" or seeking or sending pictures of intimate body parts;

6. Taking or displaying pictures of body parts meant to be covered up (such as "upskirting" pictures);

7. Displaying or disseminating sexually suggestive objects, books, screensavers, magazines, photographs, music, cartoons, or computer internet sites or references;

8. Unnecessary and inappropriate touching or physical contact, such as intentional and repeated brushing against a colleague's body, touching or brushing a colleague's hair or clothing, massages, groping, patting, pinching, or hugging, that a reasonable person would consider to be of a sexual nature;

9. Leering, ogling, or making sexually suggestive gestures or sounds, such as whistling or kissing noises;

10. Making inquiries about someone's private sex life or describing one's own sex life;

11. Workplace sexual comments, conduct, displays and suggestions between two willing parties in the presence of another that are inconsistent with professional workplace norms;

12. Any unwanted repeated contact, including, but not limited to in-person, or telephonic, for romantic or sexual purposes;

13. Giving a preference to someone who is engaged in a dating, romantic, or sexual relationship based on the relationship to the disadvantage of someone who is not engaged in a dating, romantic, or sexual relationship; and

14. Sexual assault, stalking, trapping someone such that they are not free to leave and a sexual encounter is expected or threatened, threats of bodily harm relating to sex or the refusal to have sex, or other crimes related to acts of sexual harassment.

E. Further, the District may treat some conduct of a sexual nature as misconduct, even when it does not rise to the level of unlawful sexual harassment actionable under the D.C. Human Rights Act. As an example, an employee who tends to greet people with a hug may have been warned that the conduct was offensive to some employees and then hugs an employee whom they have not seen in many months. The conduct may not rise to the level of "unreasonably altering the individual's terms, conditions, or privileges of employment," but it could constitute misconduct since they had been warned that some employees associate hugging with unwanted sexual contact that is offensive in the work environment.

IV. DATING, ROMANTIC, AND SEXUAL RELATIONSHIPS IN THE WORKPLACE

A. Prohibitions

1. Prohibitions on certain dating, romantic, or sexual relationships in the workplace exist to prevent real or perceived impropriety, favoritism, conflicts of interest due to power dynamics, control of an employee's assignments and performance reviews, as well as to advance fairness for all other employees, contractors, grantees, and clients. Even consensual dating, romantic, or sexual relationships can generate allegations of favoritism based on sexual relationships or sexual harassment by one of the parties or a third party. Relationships, or aspects of relationships, that may be perceived as consensual by one party may be considered coerced or harassing by the other party due to power dynamics, and relationships that start consensually may evolve into sexual harassment.

2. Subject to the conditions and implementation procedures discussed in this Order, it is now the policy of the District Government that a dating, romantic, or sexual relationship between a supervisor and any employee in the chain of command they supervise – whether supervision is direct or indirect, operational or situational – is prohibited. Note that chain of command in this definition may span agencies or divisions within an agency.

3. In addition, District Government employees shall not initiate a dating, romantic, or sexual relationship with trainees, recruits, or interns, regardless of the employee's assignment in relation to the trainee, recruit, or intern if the employee is in the same agency as the trainee, recruit, or intern.

4. Further, this Order prohibits dating, romantic, and sexual relationships when they are prohibited by applicable professional or ethical standards, such as lawyer-client, doctor-patient, or social worker-client.

5. District Government employees shall not participate personally and substantially in particular matters that affect or could affect the financial interests of someone with whom they are in a dating, romantic, or sexual relationship, whether that person is an employee, grantee, contractor, or client of the agency.

B. Designation of Person or Committee to Resolve Issues Surrounding Workplace Relationships; Existing Relationships

1, By November 17, 2023, District Government agency directors shall designate their own agency human resources agency/officers, another appropriate officer, or an office or committee to receive disclosures of relationships and resolve workplace issues arising from any prohibited dating, romantic, or sexual relationship on a case-by-case basis consistent with this Order; absent such a designation, disclosures shall be made to the Director.

2. By December 8, 2023, existing relationships that fall within the prohibitions of this Order must be disclosed to the designee identified in subsection IV.B.1. of this Order, in the manner specified by their agency or on a form to be created by DCHR, whereupon the situation will be evaluated and a resolution determined.

3. Resolution may involve giving the employees a defined but reasonable time to find a new position where the relationship is not implicated by this Order; shifting reporting structures to take the relationship out of a prohibited status; or establishment of recusal structures when the employees do not work in the same agency or division but they heretofore were in situational or operational chains of command.

4. To the extent adjustments are made in work sites or shifts, reporting structures, job duties or any other factor for one or both of the persons in the relationship, agencies shall endeavor to afford such options on a voluntary basis for all concerned, particularly if an employee not involved in a prohibited relationship is affected by any proposed accommodation of the relationship.

5. If no satisfactory resolution of the prohibited relationship can be reached, the persons in a dating, romantic, or sexual relationship may request a waiver of the provisions of this Order. Waiver requests shall be submitted to the Mayor and shall be accompanied by a recommendation from the agency or agency designee. Waiver requests may include any information relevant to the determination and shall be on a form to be created by the Department of Human Resources ("DCHR").

6. Agencies may make reasonable efforts to assist with a transfer or reassignment, without prejudicing either employee (or any other employee), but it is not the responsibility of the personnel authority or the agency to restructure their agency operations or find a new position for someone in the relationship. No agency is required to grant a request or application for a transfer.

7. Agencies may promulgate regulations or policies consistent with this Order to effect its implementation and to provide consistent treatment for employees facing this situation, though each relationship may pose unique issues. Agencies may also issue rules explaining in more detail for their agencies' employees and contractors how terms such as "dating," "chain of command" and "trainee" are to be interpreted considering their agency's operations. Agencies may prohibit dating, romantic, or sexual relationships with their own clients or clients of the agency or a subset of the agency, as the agency deems appropriate to prevent factual or perceived impropriety or favoritism. For instance, an agency with both social workers and non-licensed employees providing case work to agency clients could extend the ban on dating and sexual relationships with clients to their non-licensed employees, to hold them to the same professional standards as their licensed colleagues.

8. By December 12, 2023, agencies shall report the number of disclosed relationships to the Mayor's Office of Legal Counsel ("MOLC") and the contact information of the person handling requests for accommodation, for consideration by the Sexual Harassment Taskforce.

C. Disclosure of Relationships

1. In addition to the disclosures of existing relationships required by Section IV.B., if by promotion or agency reorganization or other circumstance, two employees in a dating, romantic, or sexual relationship would fall into a prohibited relationship status, their relationship must be disclosed as soon as the possibility of falling into prohibited status is realized by either person in the relationship.

2. If there is a reasonable likelihood that someone would raise a credible charge that there was or could be preferential treatment based on a dating, romantic, or sexual relationship that is not in a chain of command, then the employees involved in the dating, romantic, or sexual relationship must also report their relationship to the person or office designated pursuant to Section IV.B. Such reporting is necessary for consideration of whether additional safeguards are necessary and whether the prohibition on relationships based on situational supervision is implicated.

D. New Relationships

Generally, if two persons in a chain of command wish to begin a dating, romantic, or sexual relationship with each other, one party to the relationship should apply for a transfer or otherwise seek employment that eliminates the supervisory relationship before the relationship begins so that no prohibited relationship commences. For example, a supervisor may be transferred to another supervisory role so that they are not in the chain of command with the other person.

E. Conduct

1. District Government employees in a dating, romantic, or sexual relationship with another District Government employee, or client/customer of their agency, or grantee or contractor of their agency, shall conduct themselves in an appropriate manner while on duty and shall not engage in behavior that detracts from a professional work environment.

2. Any sexual activity at work sites or during an employee's working hours, regardless of location, is prohibited.

F. Violations

A violation of a provision of this Order regarding dating, romantic, or sexual relationships may not constitute sexual harassment as defined above, but an employee who engages in a prohibited relationship under Section IV.A. of this

Order or fails to disclose a relationship that is required to be disclosed shall be subject to appropriate personnel action, up to and including termination.

G. Legal Representation

If legal action is commenced against the District of Columbia and/or a supervisor who engaged in a dating, romantic, or sexual relationship with an employee, or a person engaged in a potentially-conflictual relationship, the existence of the sexual or romantic relationship will be a factor in the District of Columbia's decision to provide legal representation to the supervisor or the employee(s) engaged in a relationship.

V. PROCEDURES FOR STOPPING SEXUAL HARASSMENT; REPORTING AND INVESTIGATING SEXUAL HARASSMENT CLAIMS

A. Employee Obligations

1. District Government employees are bound by the principles set forth in the Code of Conduct at 6B DCMR §§ 1800.2–1800.4 and are expected to act at all times in a manner reflecting their roles as public servants. Depending on an employee's role in the District Government, the obligations regarding the prevention of sexual harassment may differ. "Employees" for the purpose of this Order include contractors engaged by the District Government performing work on behalf of the District similar to that as its employees, such as at District worksites.

2. All employees are obligated to:

a. Refrain from engaging in behavior that constitutes sexually harassing conduct;

b. Refrain from initiating or conducting a prohibited dating, romantic, or sexual relationship as described in Section IV.A. of this Order;

c. Disclose their own dating, romantic, or sexual relationships with other employees if required in Section IV.D. of this Order;

d. Affirm their agreement to comply with this Order;

e. Complete annual sexual harassment training;

f. Cooperate fully in any inquiry or investigation into an alleged violation of this Order; and

g. Refrain from any behavior that may call into question the impartial and harassment-free provision of services to constituents, agency clients or customers, contractors, or grantees.

3. Supervisors should take particular care to avoid conduct that could lead to allegations of sexual harassment, considering time, place, and situations of interactions with employees.

B. Employee Communication

1. To avail themselves of the procedures and protections of this Order, when a District Government employee finds conduct unwelcome, intimidating, or offensive, they may: (a) tell the person who is engaging in offensive or inappropriate sexual conduct to stop and that such conduct is unwelcome; or (b) ask the employee's supervisor, General Counsel, or Sexual Harassment Officer to advise the person that the conduct is offensive and unwelcome; or (c) proceed immediately to file a complaint of sexual harassment under this Order.

2. Employees and others engaged in intervention are encouraged to document all intervention efforts or requests to cease reported inappropriate sexual conduct, including conversations, texts, or email exchanges.

C. Reporting Allegations of Inappropriate Conduct of a Sexual Nature or Sexual Harassment

1. All District Government employees are encouraged to help ensure that District Government workplaces are free of sexual harassment. Employees who know of incidents of inappropriate conduct of a sexual nature, as well as behavior that may create an intimidating, hostile, or offensive work environment, or who are victims of inappropriate conduct of a sexual nature, should report the inappropriate conduct.

2. Employees may report to the Sexual Harassment Officer ("SHO") of their agency or any other agency, or the supervisor or manager of the employee engaging in inappropriate conduct, to their own supervisor, or to the agency General Counsel. Contractors, grantees, and customers of agencies may report allegations of inappropriate conduct of a sexual nature to the SHO of the relevant agency or any other agency, the relevant agency's General Counsel, the supervisor of the employee who engaged in the alleged inappropriate conduct, or their grant or contract administrator.

3. Allegations of sexual harassment against the Mayor, City Administrator, Mayor's Chief of Staff, Mayor's Senior Advisor, Director of the MOLC, any Deputy Mayor, or any official who directly reports to the Mayor, shall be referred to the Inspector General to determine if the allegation is credible, in which case it shall be referred for independent investigation. Such investigations shall be carried out by an entity outside the District Government and those reports shall be provided to MOLC (or the City Administrator if the allegation is against the Director of the MOLC) and the Inspector General.

D. Agency Responsibilities

1. Sexual Harassment Officers ("SHOs") and Investigations

a. Each Deputy Mayor's Office and each agency shall designate a primary SHO and an alternate SHO and shall update the designations, as needed, on an ongoing basis. Each agency shall provide the names of its SHOs to DCHR, and DCHR shall maintain a current District-wide list of agency SHOs. Further, pursuant to D.C. Official Code § 1-546.01(2), SHOs shall be registered with the Office of Human Rights ("OHR").

b. SHOs shall be trained and qualified to serve. To be qualified to serve as a SHO, individuals must have taken and continue to take annual training provided by DCHR and OHR. SHOs may but are not required to be an agency's Equal Employment Opportunity ("EEO") officer, or human resources manager; they must be competent in EEO laws and be designated by the agency to accept sexual harassment complaints and to review and investigate claims. SHOs need not be attorneys.

c. The primary and alternate SHOs for a smaller agency may be employees of another agency (i.e., the SHO of a larger agency may serve as the SHO for a smaller agency). An agency of any size may also obtain assistance from another agency's SHO in handling a particular investigation, including having another agency's SHO carry out an investigation, where there is a possibility of the appearance of a conflict of interest, or for administrative convenience. For the purposes of this Order, a smaller agency availing itself of this option will still be referred to as the "agency."

d. A person seeking to report a violation of this Order may file with any agency SHO, not solely the SHO at their agency or the agency at which the alleged sexual harassment occurred. Persons filing complaints, however, are not entitled to have the investigation conducted by the person of their choosing.

e. If a complaint is reported to someone other than the SHO, the person receiving the complaint must notify the agency SHO, unless giving notice would raise conflict of interest concerns, in which case the person must notify the agency General Counsel.

f. Unless the complaint is against the agency General Counsel, the SHO shall immediately notify the agency's General Counsel of the complaint, and the General Counsel shall thereafter notify the Mayor's Office of Legal Counsel ("MOLC"). The SHO may consult with the agency's General Counsel, or the General Counsel's designee, for legal guidance on conducting the investigation and shall notify the General Counsel of any issue that may require higher-level support. If the complaint is against the General Counsel, the SHO shall notify the MOLC directly.

g. SHOs should review DCHR's SHO training materials before initiating an investigation. DCHR has training materials on duties to inform the bargaining unit, the right to union representation during investigatory questioning, assessing credibility, unconscious bias, conducting interviews, gathering evidence, protecting confidentiality, preservation of evidence, when to stop an investigation and refer a matter for criminal investigation and more.

h. The primary function of a SHO is to accept complaints alleging violations of this Order and to gather, investigate and review the factual basis of the claim(s). SHOs may corroborate or refute factual allegations; SHOs may provide impressions and evidence regarding the credibility of witnesses. They weigh such evidence and may take into account their impressions of the credibility of witnesses. Ultimately, SHOs make and submit to the appropriate agency Director recommended determinations of whether the allegations are substantiated or are not substantiated. They are not to make legal conclusions about whether sexual harassment occurred.

i. Investigations of allegations of inappropriate conduct of a sexual nature shall be conducted, and the associated investigation report completed, as soon as practicable, within sixty (60) days after the filing of the report of the alleged sexual harassment, absent unusual circumstances.

j. The investigative report shall include a description of the allegations, a description of the SHO's investigation, a description of the evidence adduced by the SHO, and the SHO's recommended determination as to whether the allegations were substantiated. The SHO shall transmit the report to the Director or agency Director's designee and General Counsel of the agency where the alleged harasser is employed.

2. Interim Remedial Actions

a. Pending the completion of the SHO investigation and report, the issuance of the agency report, and the imposition of any disciplinary action, and to protect the rights of the alleged victim as well as the alleged harasser, the agency may take temporary personnel actions that do not result in any adverse employment action to either party.

b. When an agency becomes aware of an allegation of misconduct of a sexual nature, the agency shall notify the alleged harasser of the reported behavior and may demand that the alleged behavior cease immediately and not be repeated.

c. The agency shall take such other remedial steps as it deems appropriate to mitigate the possibility of the alleged harassing conduct continuing.

d. Interim remedial actions are administrative rather than disciplinary and may include, but are not limited to, transfers, reassignment of duty station, changed shifts, duties or reporting requirements, mandatory administrative leave with pay, or other appropriate measures that do not result in reduction of pay, demotion in title or responsibility, or other loss of employee benefits. In general, the agency should avoid moving the alleged victim or changing the alleged victim's shift, or taking similar action affecting the alleged victim, unless the alleged victim requests the action; if the agency takes such an action absent a request from the alleged victim, the agency should make clear to the alleged victim that the action is being taken in pursuit of an effective and prompt stop to any alleged harassment, and not in retaliation for reporting the alleged harassment.

e. Personnel authorities are encouraged to find alternative, reasonably comparable placement during the pendency of an investigation for the accuser or accused in lieu of administrative leave with pay, where possible and if consistent with any collective bargaining agreements.

3. Post-SHO Investigation Agency Actions

a. The agency Director or agency Director's designee may reject a SHO report and return it to the SHO for further investigation, information, documentation, or analysis if the agency Director or designee

considers the report to be incomplete, inadequate, or otherwise unacceptable.

b. If the report is not rejected, the agency Director, or the agency Director's designee, within fourteen (14) days of receiving the SHO's report, shall issue an agency report that accepts, modifies, or rejects the SHO's findings and substantiation recommendations, describes the rationale for any such modifications or rejections, and makes conclusions as to whether the substantiated allegations constitute a violation of this Order. The SHO report shall be included as an attachment to the agency Director or designee's report. The agency Director or designee shall consult with the agency's General Counsel during the preparation of the report regarding relevant legal standards or other legal issues.

c. If the report determines that a violation of this Order has occurred, the report shall be submitted to the agency's human resource officer for appropriate disciplinary action, up to and including termination. The agency shall require that any employee found to have violated this Order whose employment is not terminated must attend mandatory sexual harassment training within sixty (60) days after the issuance of the agency report.

d. The agency must provide the employee and the alleged harasser with a summary written notification of its findings and conclusions (final agency decision) after the sixty (60) day period and shall convey the same to MOLC within five (5) days after it is issued. The notice shall include a description of each allegation and the agency's determination as to whether the allegations were substantiated or were unsubstantiated. Such notice shall not include summaries of witness interviews, credibility determinations, or legal analysis; the notice is a simple recitation of the allegations and the determination as to whether the allegations were substantiated or were unsubstantiated.

e. Any conclusion in the SHO or Director's report that a violation of this Order occurred does not constitute a final legal conclusion that sexual harassment under the D.C. Human Rights Act or federal law occurred. Conversely, a finding that was not substantiated is not a legal conclusion that no violation of the D.C. Human Rights Act or federal law occurred.

f. Consistent with norms regarding the privacy of personnel actions, the complaining party shall not be informed of any disciplinary actions against the alleged harasser.

g. Regardless of whether a complaint has been substantiated, relevant staff, including the General Counsel, are authorized to work together to advise the Director or deciding official as to whether to recommend or implement personnel actions or management procedures to reduce the possibility of reoccurrence of any inappropriate behavior or behavior that poses risks for the District. Any meetings among the General Counsel, human resources staff, and agency management shall endeavor to preserve the confidentiality of the complaint generating the meeting or consultation to the greatest extent possible.

4. Communicating the Order: Orientation, Pledges, Training, and Notifications

a. The personnel authority shall circulate this Order to all new hires during their orientation, shall give each new hire time to read a summary of the Order during orientation, and shall obtain a signed verification that the new employee has read the summary and pledges not to engage in sexual harassment or any other conduct that violates the rules prohibiting sexually harassing behavior, certain dating, romantic, or sexual relationships, and requiring disclosure of certain relationships. Agencies with supplemental orders relating to sexual harassment shall provide those orders, too, to onboarding employees.

b. When individual contractors are working inside an agency in a manner akin to a District Government employee, the agency or the supervising contractor shall obtain signatures from individuals during onboarding orientations affirming their agreement to abide by this Order.

c. New employees shall take a course on sexual harassment as part of the on-boarding process and in no event more than fourteen (14) days after being on-boarded. Agencies shall by December 11, 2023

circulate this Order to all current employees.

d. Agencies shall follow up to provide delivery to difficult-to-reach employees, including employees on leave and work-related travel. Agencies are responsible for confirming that each employee has received this Order by email, verification through Peoplesoft, or return of a signed copy.

e. By December 11, 2023, each agency shall email the names of the agency's primary and alternate SHOs to all its employees and shall send reminders or updates of who the agency's SHOs are at least annually to agency employees.

f. Each agency shall prominently post notices in conspicuous locations accessible and used by a substantial number of agency employees, identifying the agency SHO and Alternate SHO, how to report sexual harassment, and that sexual harassment investigations are to be kept confidential to the greatest possible extent consistent with their investigation and resolution. Agencies shall post the notices no later than thirty (30) days after receipt of the template notice from the Office of Human Rights required by Section V.K. of this Order.

g. Agencies shall take a digital photograph of each posting and transmit it to the SHO program coordinator at DCHR with a description of the location at the time of each posting.

h. Individuals and entities entering into contract or grant agreements with the District Government must affirm that they will abide by the D.C. Human Rights Act including its prohibitions on sexual harassment, consistent with 4 DCMR § 1100 et seq.

i. District agencies drafting contracts and grants shall require such affirmations as part of the contract or grant agreement.

E. Employee Responsibility to Participate in Agency Investigations

1. District Government employees are required to cooperate fully in a SHO or independent investigation of a workplace sexual harassment complaint.

2. If an employee who alleges sexual harassment or is believed to have been the victim of sexual harassment declines to assist and/or participate in the investigation of the allegation, or requests the agency not conduct an investigation, the agency may on its own initiative investigate or refer the matter for investigation.

3. Employees who were not themselves victimized, who, after a direct request by the SHO or other investigator, decline to participate in a sexual harassment investigation, may be subject to disciplinary action.

4. Any consideration of whether to recommend disciplinary action for failure to cooperate in an investigation on the part of an alleged victim requires heightened sensitivity on the part of the agency and should be conducted in consultation with the agency's General Counsel and MOLC.

F. Discipline for Making False Statements or Representations

1. Making materially false statements, and misrepresentation, falsification or concealment of material facts or records in an investigation of allegations of sexual harassment is conduct warranting disciplinary action, up to and including termination.

2. Consideration of whether to recommend disciplinary action against an employee who is also the alleged victim of sexual harassment requires heightened sensitivity on the part of the agency and should be conducted in consultation with the agency's General Counsel and MOLC.

G. Discipline after a Finding of Sexual Misconduct or Harassment

The agency shall recommend appropriate disciplinary action, such as described in Section 1607.2(k) of the District Personnel Manual, 6B DCMR § 1607.2(k), up to and including termination of any employee found to have engaged

in sexual misconduct or sexual harassment as defined in Section III of this Order.

H. Rights of the Alleged Harasser

Persons accused of sexual harassment deserve the full protections afforded to them under the law in administrative matters, including, but not limited to, the right to respond to allegations of sexual harassment; to counsel and representation, including a union representative or other representative of their choosing, and including the presumption of innocence, unless and until there is a finding of harassment after an investigation by the agency or where appropriate, OHR. The right to counsel does not include the right to have counsel paid for by the government.

I. DCHR Responsibilities

1. DCHR shall quarterly reach out to all designated primary and alternate SHOs to confirm that they continue to serve in those roles. If DCHR is unable to reach a designated SHO or to confirm that the individual still serves as the agency's primary or alternate SHO, DCHR shall work with the agency to identify a new primary or alternate SHO for the agency. DCHR shall post a list of agency SHOs on its website and update it as necessary.

2. DCHR shall develop reporting forms for disclosure of dating, romantic, and sexual relationships and for applications for waivers of the prohibition on relationships in the chain of command.

3. DCHR shall work with agencies to verify that all employees have completed the annual training on sexual harassment required by Section V.A.1.e. of this Order.

4. DCHR, working with the Office of the Chief Technology Officer, shall create a means through Peoplesoft for employees to acknowledge their receipt of the Order and agreement to comply with its provisions.

5. DCHR, in consultation with OHR, shall review, update, and provide training materials for agency SHOs, including training on investigative techniques.

6. DCHR shall establish qualification standards for SHOs and verify each SHO's qualification to serve as a SHO.

7. DCHR, in consultation with OHR and the Sexual Harassment Task Force, shall create and disseminate training and collateral materials on this Order, the sexual harassment provisions of the D.C. Human Rights Act, and other sexual harassment law and policy, to all agencies under the direct authority of the Mayor and to such independent agencies as may request access to DCHR materials. The training and collateral materials should be tailored to employees in various roles, such as senior officials, managers, attorneys, human resources personnel, and new or existing employees, and should take into account that many District Government employees work primarily in the community and may not have regular access to computer-based training modules.

J. Office of Human Rights (OHR)

1. OHR shall develop training for EEO officers on the standards of the D.C. Human Rights Act, including the changes made by the Human Rights Enhancement Amendment Act of 2022.

2. OHR shall provide consultative services to DCHR and the Sexual Harassment Task Force in creating and disseminating training and collateral materials on this Order, the sexual harassment provisions of the D.C. Human Rights Act, and other sexual harassment law and policy, to all agencies.

3. OHR shall provide a template notice to agencies for agencies to post where the agencies can fill in the name of their SHO and alternate SHO and providing basic information on the prohibition against sexual harassment, how to report, and confidentiality, pursuant to Section V.E.4.d. of this Order.

VI. PROHIBITION AGAINST RETALIATION

A. Retaliation Prohibited

Retaliating against a District Government employee for reporting or filing a claim of sexual harassment, assisting another person in reporting or asserting a claim of sexual harassment, opposing sexual harassment, acting as a witness in a sexual harassment investigation, refusing to follow orders that would result in sexual harassment, intervening to protect others from sexual harassment or advances, or challenging an allegation of sexual harassment, is strictly prohibited. Employees shall not be penalized as a result of their assertion of their rights under the D.C. Human Rights Act or providing truthful information in connection with an investigation (whether on behalf of a complainant or a respondent). Retaliatory behavior may include, but is not limited to, unwarranted reprimands, unfairly downgrading personnel evaluations, transfers to less desirable positions, verbal, or physical abuse, and altered and more inconvenient work schedules. Employees found to have engaged in retaliatory behavior shall be recommended for appropriate disciplinary action, up to and including termination.

B. Process for Alleging Retaliation

Claims of retaliation are generally beyond the scope of the investigatory authority of agency SHOs because SHOs may not be trained in assessing the legality or validity of managerial decisions such as evaluations and assignments and investigations into retaliation would be difficult to conduct in the rapid timeframe set forth in this Order. Employees who believe they have been retaliated against must file a complaint with an EEO Counselor within one hundred and eighty (180) days of the alleged retaliation and subsequently file a complaint with OHR within fifteen (15) days of receipt of the Exit Letter if the employee is not satisfied with the outcome of EEO counseling.

VII. LIMITS

Lodging a complaint regarding sexual harassment does not shield an employee from all discipline or discharge. Agencies may discipline or separate a complainant if the agency is motivated by non-retaliatory and non-discriminatory reasons that would otherwise result in such discipline or separation.

VIII. CONFIDENTIALITY

A. Protecting confidentiality is critical to encouraging victims of sexual harassment to come forth and share their stories. It encourages witness cooperation and protects the reputations of those involved. For those reasons, SHO investigations should be kept confidential.

B. Confidentiality is not absolute. SHOs must disclose information to the alleged harasser for the alleged harasser to have a full and fair opportunity to respond. SHOs may have to disclose information to witnesses to gather more information from them. SHOs must keep agency General Counsels updated for reporting purposes and for investigation support purposes. SHOs also may have to disclose criminal conduct or threats to law enforcement. SHOs should not make pledges of total confidentiality.

C. Investigative reports are confidential, highly private, and deliberative and shall not be released without a court order. Neither the complainant nor the alleged harasser shall be provided with a copy of the investigative report.

D. SHOs, the agency, and MOLC shall take all reasonable steps to ensure that no information contained in the complaint file is disseminated except in furtherance of the investigation; for entry into E-risk or another risk management system; to assist in resolution of the allegations; as necessary for execution of any consequences stemming from the investigation; when lawfully released; or when required by court order.

IX. TIMELY FILING AND STATUTE OF LIMITATIONS

Complaints of sexual harassment shall be reported as promptly as possible. Agencies should investigate alleged acts of sexual harassment beyond the legal statute of limitations, or deadlines otherwise provided by regulation or collective bargaining agreement, taking into consideration the sensitive nature of the alleged offense, the pressure the complainant may have felt not to report the conduct, when the victim became aware of behavior that was not immediately apparent, or a pattern of harassing behavior that developed over time. Some remedies or sanctions may be unavailable due to delays in filing, but even delayed investigations may yield information to the agency in its ongoing efforts to prevent and remediate sexual harassment or may add to the credibility of similar, future allegations should a pattern emerge of allegations against a particular person or practice.

X. RECORDS

A. Agencies shall maintain records of complaints and investigations conducted for three (3) years from the date of the complaint.

B. For each fiscal year, each agency shall track how many complaints of sexual harassment were made by the agency's employees; were made about its agency employees by customers/clients of the agency; grantees or contractors of the agency, and how many complaints were made of sexual harassment of the agency's employees by customers/clients, grantees or contractors, or members of the public during the agency's duties.

C. In addition to the number of complaints, agencies shall track how many matters were investigated; were resolved by mediation; were substantiated; were deemed unsubstantiated; resulted in administrative or disciplinary action against one or more individuals determined to have violated this Order or sexually harassed the complainant; have resulted in legal action; have resulted in a settlement (including the amount of any financial settlement); and how many are pending. Pursuant to the Sexual Harassment Data Collection Act, annual fiscal year data required to be produced under D.C. Official Code § 1-546.02 shall be transmitted to the Office of Human Rights on or before October 15 of each year.

D. Centralized reporting, however, should be ongoing, and agencies are directed to submit such interim, monthly, or quarterly reports as may be requested by DCHR, the MOLC, OHR, or the Sexual Harassment Task Force, and to enter incidents into E-Risk as directed.

E. Any warnings to an employee(s) to halt a particular type of behavior – whether generally or as to a particular employee(s) – shall be recorded and transmitted to the agency's human resource office and to the Mayor's Office of Legal Counsel. In the context of addressing complaints of sexual harassment, any other interventions made for an employee, customer/client, grantee or contractor shall also be recorded, whether or not they arose from an informal counseling session, a complaint of sexual harassment, a complaint regarding behavior in a dating, romantic, or sexual relationship, anonymous report, or any other means.

XI. CONCURRENT REMEDIES AND JURISDICTION

A. Non-Exclusivity of Remedies

This policy is intended to supplement or be an alternative to other processes that allow persons to complain of sexual harassment. The procedures established by this Order are separate and distinct from other options persons with grievances relating to sexual harassment may have, through the Office of Human Rights, the Equal Employment Opportunity Commission, any grievance procedure available under their collective bargaining agreement, ethics complaint and investigation processes administered by the Board of Ethics and Government Accountability, or any other statutory or regulatory complaint process. Filing a complaint under this Order does not stay or delay any filing deadlines in any other forum.

B. Filing a Formal Complaint with the Office of Human Rights

In addition to pursuing action within the agency, an alleged victim of sexual harassment, or a person acting on the victim's behalf with or without the victim's consent, may report a sexual harassment claim within one year of the alleged harassment or its discovery to OHR using its Intake Questionnaire Form. EEO counseling is not required prior to the filing of a complaint with OHR.

C. Filing a Complaint with the Equal Employment Opportunity Commission

Some complaints may fall within the jurisdiction of the federal Equal Employment Opportunity Commission.

D. Relationship and Remedies under Negotiated Grievance Claims

Filing a report or complaint under this policy does not satisfy the requirements for filing a negotiated grievance and obtaining remedies under a collective bargaining agreement, nor does the complaint under this Order delay the

time limits for initiating such a procedure. To pursue a negotiated grievance claim, the employee should file a grievance in accordance with the provisions of the applicable collective bargaining agreement.

E. Criminal Remedies and Referrals

1. Where there is an allegation of criminal misconduct, including for example, sexual assault, kidnapping, stalking, or a threat to do bodily harm, the agency may, after consulting its General Counsel, place the victim and/or the alleged harasser on administrative leave with pay pending final administrative resolution of the complaint or any criminal proceeding.

2. The complainant at his or her choice may report the alleged criminal violation to a law enforcement agency, including the Metropolitan Police Department ("MPD"). Where a criminal violation occurred, the agency shall recommend discipline of the perpetrator up to, and including, termination.

3. While it is generally the alleged victim's decision to report sexual harassment offenses for possible criminal prosecution, if during an investigation the agency uncovers evidence of ongoing crimes (such as sexual extortion of beneficiaries of government services) or criminal activity collateral to or extending beyond the reported allegations of sexual harassment, such as gun-related offenses, the agency shall notify law enforcement.

F. Crime Victim Hotline

The agency shall also remind complainants of sexual assault or other possible crimes of the existence of the DC Victim Hotline. The hotline, 1-844-443-5732, is available 24/7 by telephone, text, or online chat to seamlessly connect victims of crime to free resources to help them navigate the physical, financial, legal, and emotional repercussions of crime. Through the hotline, victims may be matched with an advocate who can help them decide whether to pursue a matter through the criminal justice process.

G. Courts of Law

This Mayor's Order is directed towards preventing and remedying sexual harassment in District Government operations and it does not preclude complainants from obtaining counsel and pursuing any remedies they may have in courts of law. The options discussed in this Order do not constitute legal advice; deadlines for filing, procedures, and substantive offenses or remedies may change over time.

XII. APPLICABILITY OF PERSONNEL RULES

Any proposed personnel action instituted under this Order is subject to the regulations set forth in the District of Columbia Personnel Manual at Title 6B of the District of Columbia Municipal Regulations.

XIII. SEXUAL HARASSMENT TASK FORCE

A. There is hereby established the Sexual Harassment Task Force as an internal task force comprised of representatives of the Office of Human Rights, the Mayor's Office of General Counsel, the Department of Human Resources, the Assistant City Administrator, and the Mayor's Office of Legal Counsel, as designated by the head of each office, and such other individuals as these members may invite to serve as additional members of the task force. The task force shall meet from time to time to develop and advise on trainings, make recommendations about needed policies, review draft regulations, and otherwise take action or recommend measures to fulfill the intent of this Order: including to reduce the incidence of sexual harassment, train employees on what to do when faced with inappropriate workplace conduct, including harassment, and provide additional, effective procedures for addressing inappropriate conduct of a sexual nature. The task force may invite experts and other individuals to participate in the meetings and deliberations of the task force.

B. The Sexual Harassment Task Force shall, no later than May 1, 2024, make recommendations in the following areas and shall provide such recommendations to the appropriate agencies with authority to carry out the

recommendations or make final decisions regarding them. The recommendations need not be in the form of a report and may remain deliberative discussion items until finalized and accepted:

1. Communications to District Government employees about the District's sexual harassment policies;

2. Updates to required trainings for SHOs and agency General Counsels;

3. Recommendations for building a workplace free from sexual harassment;

4. Any recommended adjustments to prohibitions and disclosures regarding dating, romantic, and sexual relationships; and

5. The performance and progress by the agencies named in this Order in completing the responsibilities assigned to them.

XIV. SUPERSESSION

This Order supersedes Mayor's Order 2017-313 and any other provision of a previous Mayor's Order or practice pursuant to that Mayor's Order, to the extent of any inconsistency.

XV. EFFECTIVE DATE: This Order shall become effective November 10, 2023.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 14, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and University Legals Servcies, a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) NUHRJ8ZMKLN8] (hereinafter referred to as "Grantee") with its principal place of business at 220 I St NE Ste 130 Washington DC 20002. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year

("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. As a condition precedent to disbursement of the Grant proceeds to Grantee for the sole and exclusive purposes described in Exhibit A (which includes the "Statement of Work" and the approved "Workplan", both attached hereto and made a part hereof), the Department requires that Grantee enter into this Agreement setting forth the terms and conditions of the Grant.

Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[46] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[46] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[47]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

[47] In responding to the RFA published June 21, 2024, applicants were given the opportunity to receive additional points in scoring for committing to exceed the CDBG minimum threshold to either a 75% minimum or a 90% minimum.

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[48] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

The HRC provides services to DC residents by appointment and walk-ins." The HRC is located in the Grantor's offices at 1909 Martin Luther King Jr Av SE. The HRC coordinator, in conjunction with the Associate Director for Community Services, will develop a schedule in consultation with Grant subrecipients for staffing the HRC on a rotating basis on weekdays.

RFA applicants were awarded additional points in their score by committing to "Extended Office Hours." The options included providing office hours until 7:00 pm at least one (1) day a week in their office location and/or until 7:00 pm at least two (2) days a month in the HRC.

3.1 Eligibility for Federal Funding

The services in this RFA will be conducted through grant agreements using Federal funds (Community Development Block Grant (CDBG) and, as available, some District Funds. The Department will provide a full informational briefing to the awarded grantee(s) about the grant funding source's ongoing administrative and programmatic requirements. Whether grants awarded under this RFA are funded locally or with federal funds, all grants will be managed to the higher standards and requirements whether Federal or District.

Federal regulations have established national objectives requiring all CDBG-funded activities beneficiaries to be at least 51% low- and moderate-income persons or households. The national objective is achieved through "limited clientele benefit"—that is, by verifying the incomes of each beneficiary of the services provided. The applicant must demonstrate that it has the capacity and the intention to verify the household incomes of beneficiaries to meet the national objective of providing benefits to 51% of low- and moderate-income persons.

Client income certification is also an important element of ongoing program activity for many DHCD housing programs. (See Section 3) Applicants should review in detail the federal income requirements for programs, activities, and grantee (sub-recipient) eligibility under the Community Development Block Grant program regulations at 24 CFR 570. 200-210,

- Home Purchase Assistance Program: DC Code 42-2601 and 14 DCMR, Chapter 25

A1: HUD Housing Counseling
This activity is open to applicant organizations which are HUD approved employing one or more HUD certified counselor(s). Such counseling is often (but not exclusively) in the pursuit of homeownership or credit repair and improvement or to improve their housing condition.

Grantees of this service should be familiar with 24 CFR 5.100 and with 24 CFR 214.

Housing counseling is independent expert advice provided by a HUD certified housing counselor (24 CFR Part 214) customized to the needs of the client. It is aimed at addressing housing barriers and providing support to the client to achieve their housing goals. This counseling service must include: (1) intake (2) financial and housing affordability analysis (3) an action plan[2] and (4) follow-up counseling to implement the action plan and achieve its stated goals *(24 CFR 5.100).*

The action plan should identify the steps needed for the client to achieve his/her housing goals. These actionable steps include, but are not limited to, review of the client's credit report with explanations of its meaning and items that impact (or may improve) the credit score, creation of a budget and methodologies to track one's income and spending, debt reduction planning, and savings planning. Follow-up should track the client's progress toward the goals of the action plan. Other programs and services including group educational opportunities may complement the one-on-one counseling with a certified counselor. Counselors, therefore, may appropriately make referrals to programs and services as well as to group educational activities that support and implement the goals of the action plan.

Counseling organizations are required to maintain case files including items 1-4 above as stated in 24 CFR 5.100. It is critical that files with records and case notes be kept in such a way that if a client's counselor is no longer available, either temporarily or permanently, another certified counselor in the organization can understand based on the file the client's circumstances, action plan, progress and where the client is in achieving his/her housing goals.

Organizations providing this service should have working experience with credit counseling and repair, with consumer credit bureaus and consumer credit laws. Ideally, they should be familiar with creditor tactics, liens, judgments, repossessions, and other obstacles to credit improvement.

It is critical for the counseling organization to make efforts to keep the client engaged in the counseling process and such attempts and outreach should be documented in the case file.

In accordance with HUD requirements, counseling organizations may close files if a client does not respond to outreach efforts over 60 days. The last outreach attempt should document that the file will be closed as of a specific date if nothing further is heard from the client. If the client should return to client after the 60 days, a new file should be opened.

[2] Except for reverse mortgage counseling.

Post-purchase follow-up

a) Grantees must continue their counseling relationship with customers once they become homeowners. This follow-up should continue for a period of time after purchase to ensure the homeowner's housing stability.
b) Grantees may make use of post-purchase programs using either their own programming or making referrals to other Grantees who provide such programming (*e.g.* B1 General Home Management and B2 Foreclosure Counseling).
c) If problems arise, it will be the grantee's responsibility to address them quickly as time is of the essence, and to address them as efficiently as possible. Where the District's investment is involved, counseling should include ways to protect the DC investment.
d) When working with clients who have an HPAP deferment period ending, Grantees must provide dedicated counseling services to those borrowers. In particular, grantees will be asked to make an updated assessment of each borrower's financial status regarding the appropriateness of continued deferment.
e) Potential delinquency, or foreclosure prevention, counseling will be provided to any borrower who is experiencing difficulty.
f) If problems continue with these loan clients, this counseling will become a home preservation activity.

A2 8-Hour Homebuyer Education Class (HBE)

This activity is open to applicant organizations which are HUD approved counseling organizations employing one or more Hud certified counselors.

The Department seeks HUD Approved organizations to provide the 8-Hour Homebuyer Class. This is in support of the Department's many programs for which the 8-Hour Homebuyer Class is a requirement, and also for other DC residents who seek to take this class in preparation for homeownership and for their knowledge.

Organizations should take as a serious obligation to conduct this class with knowledge staff (HUD certified counselors). The class is conducted in a traditional in-person setting or in a virtual online setting.

Those who successfully attend and complete the class should be provided with a DHCD certification (in the format approved by the Department) indicating their completion of the class and dated appropriately. Monthly attendance and award of certificates should be reported to the Department monthly. The class should be presented frequently enough to meet programmatic needs of DHCD programs. Class dates should be provided to the Department for inclusion on the DHCD calendar. Presentations should be given by staff, not outside speakers. Grantees are welcome to collaborate in the conduct of these classes.

A3: Intake for DC Homebuyer Programs (HPAP/EAHP/NEAHP)

The Home Purchase Assistance Program (HPAP) is the primary DHCD program for first-time homebuyers. HPAP provides interest-free loans that include closing cost assistance to eligible applicants. Under this program, homebuyers may have the opportunity to purchase houses,

condominiums, or cooperative units in the District. DHCD has additional homeownership programs which are associated with HPAP, and which are targeted to specific populations or geographic areas or may meet specific home buyer needs.

The satellite programs are:

(1) The Employee Assisted Housing Program (EAHP) provides assistance to District of Columbia Government employees, who are first-time homebuyers in the District; and

(2) The Negotiated Employee Assistance Home Purchase Program (NEAHP) provides down payment and closing cost assistance to certain District of Columbia Government employees whose position is covered by specific union collective bargaining agreements.

Wherever the acronym "HPAP" is used, the same applies to the EAHP and NEAHP programs.

Prior to HPAP Application

Clients interested in HPAP assistance who have a pre-approval from a lender, should be assisted with making an application to the HPAP as expeditiously as possible. Those without a pre-approval letter from a lender are required to engage in HUD Housing Counseling (see A1 above) in order that they have the benefit of credit counseling and homeownership preparation. The action plan should include the actionable steps needed to ensure success as a homeowner and to achieve a pre-approval letter from a lender. Once a pre-approval letter has been obtained, the client with the Grantee's assistance should proceed to making their application to HPAP.

Application Process

For grantee organizations, this relationship management function includes working with first-time homebuyers throughout the homeownership application, preparation, purchase, and post-purchase process. Counseling will be focused on low- and moderate-income populations.

Once HUD credit counseling is completed the HPAP process includes:

(Optional) Applicant organizations may conduct pre-purchase seminars which include information and requirements of the HPAP programs. A DHCD Certification should be provided to attendees and recorded with DHCD.

Application Intake includes document collection of those documents needed. These should be collected in person or by means of a secure portal. Email is not considered a secure means for transmission of information which could be used for identity theft or other criminal activity. Drop-off at a staff office to an employee is acceptable.

Once the application package is complete, the organization submits to the appropriate HPAP administrator.

Homebuyer Education (8-hour class) (A DHCD Certification should be provided to 8-hour Homebuyer Education attendees and recorded with DHCD.)

Post-Purchase follow-up (Records of those follow-ups should be maintained by the organization. See Post-purchase in Service A1)

Organizations will be responsible for: (1) the application process, which includes delivery of completed applications to the HPAP Administrators; (2) completion of the application form itself and collection of all required supporting documentation, and (3) maintaining performance and reporting data, and databases as needed by the Department.

A4: Inclusionary Zoning Orientations

Introduction to IZ/ADU Programs:

The District's Inclusionary Zoning (IZ) Program requires a certain percentage of units in a new residential development, or a substantial rehabilitation that expands an existing building, be set aside as affordable units. The goals of this program are to increase the supply of affordable housing for low- and moderate-income households, to support the creation of mixed-income communities, to prevent rising home prices from driving out low- and moderate-income residents, and to leverage the expertise and capacity of the private market to develop affordable housing.

Affordable Dwelling Units (ADUs) are defined as for-sale and for-rent homes that are locally restricted for occupancy by households whose income falls within a certain range and are generally offered at a below-market rate. ADUs are generally produced in exchange for zoning relief, tax incentives, public financing, and/or the right to purchase or lease District-owned land. Specific ADU provisions, such as the affordability period, income limits, and resale restrictions, are set out in deeds, covenants, land disposition agreements, ADU administration plans and other originating documents.

ADU provisions have historically varied from project to project, as each is a result of a unique negotiation or project approval. However, ADU restrictions are becoming more standardized and more similar to standard IZ requirements.

Organization roles and responsibilities:
Provide mandatory IZ Orientation. The department's PowerPoint presentation must be utilized. Presentation and answers to participants' questions must conform to agency guidelines.

DHCD seeks organizations which will provide programmatic rental and homeownership counseling services in support of both of the above programs. Information about these

programs is available through DC Housing Search https://www.dchousingsearch.org , counselors will be required to utilize DC Housing Search, and train potential customers in how to search for affordable housing through DC Housing Search.

Grantees will be required to become familiar with the program requirements and procedures, as required by DHCD. In the last few fiscal years, the IZ program has produced approximately 400 new affordable units each year.

Orientation:
In particular, organizations are required to conduct IZ Orientations to help residents to be familiar with all programmatic requirements for the IZ program.

Organizations must conduct and coordinate this mandatory orientation session in a traditional and virtual classroom settings. They must provide interested applicants/residents with the relevant terms of the program, including next steps and other information as required by DHCD.
DHCD currently provides standard slides and certificate templates to use for this orientation and will provide training to grantees.

Completion of this orientation class is mandatory before an individual may register for the IZ program and individuals must renew registration every two (2) years to remain on the IZ registration list.

The class must be conducted at least monthly beginning within 30 days after the grantee's application is approved. Coordination of this class will include publishing upcoming class dates, accepting reservations via phone, email, or other method, allowing walk-ins if space is available, providing attendees with a certificate of completion (in a format approved by DHCD) upon completion of the class and providing at least monthly attendee data to DHCD. It will also include ensuring that attendees receive all required training materials, and shall be presented by grantee staff, not outside speakers.

Grantees must train program participants in the terms and specifics of the IZ and ADU Programs (training guidance will be provided by DHCD) and provide additional pre and post homebuyer education training.

Grantees must also provide data to DHCD on a regular basis as determined and requested by DHCD, including but not limited to the names and contact details for individuals who have received a DHCD certificate and the number of attendees at IZ orientations.

A5: Income Certifications for the IZ/ADU Units Programs

The agency seeks two organizations to provide income certifications for participants in the Inclusionary Zoning and Affordable Dwelling Units programs. Income certifications are expected to be conducted under a uniform process prescribed by DHCD and following HUD Part 5. DHCD has established requirements for approving Certifying Entities, including

specific IZ and ADU training.

Grantees are expected to become Certifying Entities pursuant to DHCD requirements. Grantee organizations will be required to ensure that program participants understand that income and occupancy restrictions apply to their IZ units and ADUs. Grantees will also be expected to complete income certifications for newly selected households and for renewing tenants. Grantees will be working closely with individuals, property management/leasing staff, sales agents and DHCD. DHCD will provide the necessary forms and procedures, but Grantees will collect the necessary paperwork from individuals and complete the income and household size verification process. Upon successful certifications, Grantees will notify DHCD and the sales/leasing staff.

Such restrictions may include but would not be limited to: (1) the specific affordability period, (2) conditions for, or prohibitions against, subleasing, and (3) resale restrictions. Ongoing outreach and assistance to occupants of IZ units and ADU is required in the areas of programmatic requirements and homeownership counseling.

A6: Income Certification for PADD Applicants

The Property Acquisition and Disposition Division (PADD) encourages vacant and/or abandoned property owners to rehabilitate and/or occupy their properties. PADD acquires vacant, abandoned, and deteriorated properties through negotiated friendly sale, eminent domain, donation, or tax sale foreclosure, when owners are unwilling or unable to maintain their properties. PADD also disposes of properties in inventory by selling them to individuals or developers to be rehabilitated into high-quality affordable and market-rate single-family and/ or multi-family for-sale or rental housing in District neighborhoods.

For DHCD, the activities of this Division create affordable homeownership and rental opportunities for low- and moderate-income households. Grantees must counsel these households as they qualify for and occupy these new homeownership and rental units. DHCD seeks one or more organizations which will provide counseling or training services for affordable units made available through PADD.

Because PADD units are not produced through a traditional homebuyer program, an intensive marketing and outreach effort to our target population will be required of grantees. Counseling services will also involve conducting income certifications and re-certifications for purposes of admission and continuing participation in this program. Income certifications are expected to be conducted under a uniform process prescribed by the Department. For PADD, grantees must ensure that program participants understand that income, or occupancy, restrictions apply to their unit. Such restrictions may include but would not be limited to: (1) the specific affordability period; (2) conditions for, or prohibitions against, subleasing; (3) potential rent increases; and (4) resale restrictions. The specific unit covenant

terms will be communicated to stakeholders by the Department, but grantees must facilitate communication with stakeholders.

A7: Public Services: General Coaching and Information

Public Services may be undertaken by Applicants which have not yet obtained HUD Approval and may not employ a HUD certified housing counselors. (HUD Approved organizations who are applying for A1 or A2 do not need to apply for this service, since they are able to provide these Public Service activities in connection with their other lines of services.

These activities are frequent but not exclusively in a group setting. These may be virtual or in-person, as long as an in-person option is provided. Grantees may utilize Homebuyer Clubs as an effective tool for keeping clients engaged in homebuyer preparation when a long-term period is needed for better positioning to be a first-time buyer.

They may include group trainings on understanding credit and credit reports and involve savings programs.

Public service staff are required to train clients to utilize available tools, such as DC Housing Search https://www.dchousingsearch.org to locate affordable housing for sale and for rent.

CATEGORY B: COUNSELING AND TRAINING FOR HOME PRESERVATION

B8: General Home Management (Post-Purchase Non-Delinquent)

Post-purchase counseling is essential for Homeowners who have purchased their homes, are not delinquent in their mortgage payments and would like to remain successful by creating a realistic financial plan to avoid financial pitfalls and protect and retain their homeownership. Post-purchase counseling is essential to understand local post-purchase behavior, especially low-moderate income homeowners, that can be supported by education and supportive programs to ensure recent homeowners understand what to do in the event of hardships. Organizations that provide post-purchase counseling sessions and education workshops will ensure their topics consist of the following:

1. Prepare a maintenance plan for major household systems and repair strategies.
2. Emergency preparedness plan to assist client in case of disaster.
3. Understand consequences of not paying taxes, HOA payments or community assessments.
4. Explain the benefits of establishing an emergency fund and retirement or tax-incentivized accounts.
5. Provide knowledge of home improvement financing options like HELOCs and give counsel on how to apply for additional financing to renovate property.

6. Access the client's understanding of the process of refinancing the home and incurring more debt.

This counseling activity may include, but not be limited to, appliance warranty disputes, contractor disputes, disputes with mortgagors, will and estate issues, including transfer-on-death deeds, etc. In this service, grantees must serve as advisor-educators and are prohibited from giving legal advice. Grantee activities should focus on low—and moderate-income populations.

B9: Foreclosure Counseling

Homeowners who are delinquent in loan payments (as well as those in danger of delinquency) need to know what options are available to them. Similarly, those in foreclosure need to know their options and resources that may assist them, especially if available legal services are available.

Organizations are required to provide foreclosure prevention counseling that helps homeowners at risk understand the foreclosure process in Washington, DC, determine their legal rights and identify options to avoid foreclosure.
Organizations will assist struggling homeowners with loss mitigation, communicate with mortgage servicers and provide services such as the following:

1. Provide advice and coaching to assist clients with creating a budget based on financial goals. Assess the current financial situation and develop short and long-term strategies to reduce expenses and debt to achieve client goals.
2. Explain loss mitigation. Explain the requirements of a loss mitigation package and evaluate the client's loss mitigation options for FHA and non-FHA loans.
3. Provide examples of mortgage default scams and ways to avoid being a victim.
4. Explain the consequences and costs associated with a foreclosure, short sale, or deed-in-lieu.
5. Explain the foreclosure timeline and devise a plan if the client is unable to stay in the home and assist the client in mortgage default recovery. Demonstrate the impact of a mortgage default.
6. Work with displaced residents seeking referrals for housing.

Grantees work with homeowners who are delinquent in their mortgage payments, or who are in foreclosure, or in post-foreclosure. These counseling services are also offered to owners of multi-family properties, and ownership associations. This counseling serves as a central element of DHCD's overall foreclosure prevention strategy.

It is critical to address the District's foreclosure crisis. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Grantees also work with the Department of Insurance Securities and Banking (DISB) to protect clients against scam operations that prey upon residents who are subject to foreclosure. Grantee organizations extract data for outreach and targeting efforts from the Office of the Recorder of Deeds, which provides a listing of all official foreclosures in the

District on a weekly basis. DHCD seeks one or more organizations that will provide foreclosure counseling services which include, but may not be limited to, all of the above-described foreclosure prevention activities.

For grantees, this counseling function means working with troubled homeowners, utilizing all foreclosure prevention or mitigation tools available, and if necessary, working with customers throughout their foreclosure or post-foreclosure process. Grantees must provide full assistance and advice to troubled homeowners. Grantees will be responsible for: (1) assessing the homeowner's circumstances, (2) educating the homeowner about the full implications of mortgage delinquency and foreclosure (3) exploring and providing options of action for the homeowner (4) providing tools or alternative support that may further assist the homeowner (5) developing and executing a best action plan for either saving the home or undertaking the best course for the homeowner, and (6) tracking the results of their counseling efforts. In addition, grantees will provide ongoing performance and reporting data and databases maintained.

Post-Foreclosure Counseling: It is critical that grantees continue their counseling relationship with customers, even if the home cannot be saved. Grantees must follow up with troubled homeowners for a period of time after any action plan has been executed. If the home has not been saved, counseling should be made available, and if necessary, referral to other needed services. If the home has been saved, counseling follow-up is also necessary to ensure that the ongoing action plan is being properly implemented. If more problems arise, it will be the grantee's responsibility to address them as quickly and as efficiently as possible.

With the passage of the Saving DC Homes from Foreclosure Emergency Amendment Act of 2010, troubled or delinquent District homeowners have the right to engage in mediation prior to foreclosure. As a result, DHCD requires grantees to provide counseling related to this mediation process.

Grantees must be familiar with the Law, its regulations, and the mediation process which has been implemented by the Mediation Administrator at the DC Department of Insurance, Securities, and Banking. Grantees must educate troubled homeowners in the decision factors related to mediation election, and, if necessary, prepare them for mediation. In some cases, counselors may be asked to accompany, or represent, troubled homeowners in the mediation process. Grantees must ensure that all customers who elect mediation complete and submit proper documentation in a timely manner. Grantees must ensure that the best interests of troubled borrowers are protected throughout the mediation process. Finally, DHCD expects grantees to follow-up after the mediation process is complete to ensure that any final mediation agreement is properly implemented.

B10: Eviction Counseling

Applicants who have HUD certified counselors or NeighborWorks America foreclosure certified counselors may offer this service. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Training should also include knowledge of laws and legal procedures governing eviction.

Eviction has long created housing instability for renters, and especially among low- and moderate-income households. For those at the lower end of the economic scale, eviction has caused not only housing instability but also employment insecurity and homelessness. Studies have shown that lack of access to legal representation has resulted in markedly different and detrimental outcomes as compared to renters who have legal representation. After legal representation, the next most effective range of services includes alternative dispute resolution (or mediation), knowledge and guidance in court navigation, and effective management of legal and tenant-landlord documents. In addition to housing instability, eviction also has credit impact for the tenant.

It is critical to provide those in danger of eviction with counseling to make informed decisions. This includes access whenever possible access to legal services. Also, appropriate training includes information about tenants' rights and obligations, the credit impact of eviction, use of payment plan agreements, understanding of court processes and procedures, and access to alternatives to court procedures. When tenancy is lost, counseling for housing alternatives is needed and a path forward to credit repair.

B11: Single-Family Residential Rehabilitation Program

The Single-Family Residential Rehabilitation Program (SFRRP) administers grants to District homeowners for roof repairs and for modifications to eliminate barriers to accessibility for persons with mobility or other physical impairments. Projects approved for SFRRP require a covenant on the property to protect the District's funding of the project.
DHCD seeks one or more organizations which will provide application intake services to SFRRP applicants throughout the grant process.

> **Mandatory Counselor Intake Training:** Grantees for this line of service are required to attend training with the SFRRP team in September to be introduced to updated aspects of the SFRRP for FY25. It is critical that the grantee have a solid understanding of the updated program and the requirements for applications. Therefore, the September training is mandatory for SFRRP intake counselors.
>
> **Application Period:** Applications for SFRRP will only be taken between October 1, 2024, and December 31, 2024. To be considered applications during this period must be complete. Lack of required documentation or information will not "hold a place" in the program if not provided before the December 31, 2024. The Department at its sole discretion reserves the right to close the program prior to the deadline if funding is depleted or no longer available.

Information Session for Applicants: The Department will provide Grantees with a PowerPoint presentation outlining the program and its requirements. Intake counselors are required to use this presentation with all potential applicants either in a group sessions (such as an Orientation) or in a one-on-one session with the potential applicant.

Grantee's and Counselor's Responsibilities: (1) use the Department PowerPoint presentation to present the program to potential applicants, answering questions from residents interested in the program; (2) complete the application document and collection of **all required** supporting documentation *(incomplete applications will not be accepted)*; (3) post-application and post-grant support; and (4) providing performance and reporting data as required.

45 Day Period: It is critical that no application be uploaded in the SFRRP portal unless it is complete with all required documents and intake form completed. If an incomplete application is uploaded in the portal, the SFRRP staff will notify the counselor and the applicant that the application cannot be accepted. The notification state that what is complete and state the **applicant has 45 days** to provide the requested information including documents. After 45 days if the application remains incomplete, the application will be closed as incomplete for funding.

Application Portal: Counselors will need to provide their name and contact information (e.g. email) when uploading in case SFRRP program staff need to follow up.

Legal Citations Governing Program Area for Category B:

Applicants to provide any service in Category B should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

- Lead Safe Washington 24 CFR, Part 35, 24 CFR, Part 85.37, Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992
- Single Family Rehabilitation 14 DCMR, Chapter 28 First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
- Saving DC Homes from Foreclosure Emergency Amendment Act of 2010 (DC Act 18-635; 57 DCR 12404)

B12: Legal Services for Homeowners and/or Coop & Condo Associations

The Department seeks organizations to provide legal services to provide one or both of the services noted below. Grantees will conduct outreach to low- and moderate-income populations in need of these services.

- Legal Services to Seniors
  Seniors who are homeowners can be assisted by the Applicant to have legal services to assist Seniors to avoid housing instability or the loss of ownership of their home. In addition to their own attorney staff, Applicants may seek *pro bono* services from other members of the Bar.

- Legal Services to Coop-Condo Associations
  Legal services may be provided to Cooperatives and/or Condominiums ("Associations") to ensure housing stability. If Associations have problems in areas of legal entity status, required legal or financial filings, compliance issues, risk management concerns, board and member training, best legal practices, and collection of association fees (to name of few), such issues may threaten the member's housing stability, and the owners' (or members') investment in their properties. Selected applicants will provide legal services to Associations in low- and moderate-income census blocks to mitigate these concerns, to preserve housing stability of owners and to ensure well-functioning Associations and Boards.

B13: Technical Assistance for Coop and Condo Associations

The Department seeks one or more organizations to provide technical assistance to Associations. The situation many Associations may face is a need for training in best practices of Association management. Training in best practices and frequently encountered problem situations may be offered by the grantee not only to the Association Board but also to the owners in the Association. Association boards and their member owners frequently face issues of association fees not being paid, lack of income to fund reserves, special projects that would require a special assessment, and decisions of taking court action or being the defendant in a court action. These are just a few of the legal issues which may arise for the Association, in addition to the more routine matters of by-laws and required legal documents for the operation of the Association.

B14: Technical Assistance for Landlords of Small Rental Properties

Landlords of small rental properties face enormous challenges. They frequently lack the staff and the resources of large multi-family properties to deal with the many details of operations and asset management. Small unit properties cannot readily absorb mistakes or challenges.

In a ten-unit property, one vacancy is a 10% vacancy rate, while one unit in a 100-unit property is 1% vacancy rate. Yet, small unit properties are often the affordable renter properties. To preserve this housing stock as an affordable option, DHCD seeks grantees to provide Technical Support to Owners of Small Unit Properties (of 30 units or less).

Services can be provided through group training as well as through one-on-one counseling. Like many small business owners, owners can often benefit from a better understanding of accounting practices and financial statements (balance sheet, income statement, cash flow report). Knowledge of financing options is another common to many business owners. Topics such as these are particularly suitable to the needs of owners.

1. **Property Management Software**: Landlords often need help selecting and implementing property management software to track rent payments, maintenance requests, tenant information, and other critical operational data.

2. **Legal Compliance**: Guidance on navigating complex local, state, and federal housing laws and regulations related to fair housing, security deposits, evictions, and other landlord-tenant issues.

3. **Financial Management**: Guidance with accounting, tax preparation, and financial planning specific to rental property ownership and operations.

4. **Maintenance and Repairs**: Access to vetted contractors, tradespeople, and service providers to handle property maintenance, repairs, and upgrades in a timely and cost-effective manner.

5. **Tenant Screening and Selection**: Guidance and best practices with tenant screening processes, background checks, and selecting responsible renters to minimize vacancies and evictions.

6. **Marketing and Leasing**: Help with listing vacant units, advertising, showing properties, and executing leases to keep units occupied.

7. **Emergency Response**: Guidance on developing emergency plans and protocols to address unexpected events like natural disasters, property damage, or tenant issues.

8. **Asset Management Issues**: The ratios and metrics of asset management for multi-family properties provide a helpful guide to best practices. For example: Many landlords are unaware of the effect that certain metrics have in their properties. Slow "Make-Ready" times, refers to the length of time it takes to prepare an apartment to be shown to prospective tenants. Similarly, "turn time" refers to the times it takes to find a renter and receive the first month's rent. Slow turn times are also a drain on resources. When there are slow "make ready" and slow "turn times" the combined effect can be detrimental for the property's future. High turn-over rates among renters is another draw on the income. Other issues and topics include: What to do when you have a tenant who is not paying rent? What are the alternatives to eviction? How do the Court work? Are there pre-eviction resources? What legal services are available to the owner?

CATEGORY C: TENANTS AND TENANT GROUPS: SERVICES RELATIVE TO Tenants Opportunity to Purchase Act, Rental Conversion and Sale Division, and Rental Accommodations Division

The DC Tenants Opportunity to Purchase Act (TOPA) seeks to protect tenants and tenant groups from displacement due to sale of the property. The law allows tenants to purchase their apartment building. Tenants have the choice of maintaining the apartments for rent or converting to cooperatives or condominiums. DHCD seeks to preserve affordable housing in the District and limit displacement of low- and moderate-income households. For groups that choose coop or condo conversion, this provides a path to homeownership.

DHCD provides both financial assistance and technical assistance, as well as specialized organizational and development services, for tenant groups who are pursuing the purchase of their apartment buildings. Through DHCD's Development Finance Division, organized tenant associations may be provided with seed money, earnest money deposits, and acquisition and/or rehabilitation assistance. After acquisition and rehabilitation, DHCD also provides ongoing Board training and property management support to the newly formed cooperative or condominium Boards.

C15: TOPA: Pre-purchase Training

DHCD seeks one or more organizations which will provide pre-acquisition organizational and developmental counseling and training to tenant groups or tenant associations in support of their intent to purchase their building. These tenant groups must be preliminarily qualified as eligible for DHCD's Tenant Purchase Technical Assistance program. Grantees must provide the following services to tenant groups:

a) establishment of a tenant association.
b) selection and appropriate training of Board members.
c) training of captains (court, building and floor).
d) training in roles and functions of committee members; (5) training tenant groups in detail about the building purchase process.
e) training tenant associations in property management techniques.
f) provide training to the tenant association on each type of ownership; and conducting surveys of tenant associations to determine the appropriate form of ownership for their building (cooperative or condominium).

It is critical that Grantees in this service maintain an outreach to educate and inform low- and moderate-income tenants about their rights and opportunities provided by TOPA. Grantees are encouraged to make this a central aspects of their marketing plan, and to create

opportunities as well as avail themselves of opportunities to participate in educational outlets to reach tenants. Collaboration with other Grantees in this or similar service lines is encouraged. Grantees should participate in DHCD when and as those opportunities for outreach are available.

While training the tenant association, the grantee must be able to prepare and submit appropriate documentation required in the purchase process, including but not limited to tenant profiles and feasibility analyses, response to Notice of Sale of Building, preliminary development, acquisition, and rehabilitation plans, and operational plans.

The grantees must have skill and experience in negotiating the lease or purchase of the building. In addition, grantees must assist tenant groups in procurement related to the development, purchase, and rehabilitation process, including but not limited to attorneys, architects, engineers, financial and developmental consultants, private developers, appraisers, and property managers.

C16: TOPA: Post-Purchase Training

DHCD seeks one or more organizations which will provide ongoing post-acquisition counseling services which include property management and Board training for properties which have been purchased and/or rehabilitated with financial assistance from the DHCD Development Finance Division's First Right Purchase program. Generally, these are multi-family properties that have been purchased through limited equity cooperative agreements or condominium purchases. Therefore, non-profit Board training and development skill and/or experience, as well as multi-family property management skills are critical to providing effective counseling services. Services to be provided under this activity may include, but are not limited to:

a) establishing standards of evaluation for each participant's financial status and leadership capacity.
b) conducting annual management reviews of all Boards, oversee election and
c) training of new Board members.
d) assisting in the establishment of appropriate arrangements with required service providers such as exterminators, garbage collectors, landscapers, etc.
e) assisting in capital management planning and a stabilization plan for rehabilitation and/or refinancing.
f) tracking property vacancies and reviewing new applications for membership.
g) establishing and reviewing membership guidelines.
h) technical assistance in accounting, budgeting, and the preparation of financial statements for long-term financial viability.
i) providing Board of Directors with training as appropriate; and

j) other required management and support duties. Grantees will assist the condominium or cooperative in developing a budget for the overall management and carrying costs of the property.

Grantees will assist the Board and membership in all aspects of management, such as completion of the audit, Fair Housing issues, required individual, property, and Board insurance, taxes, the role of Board officers, evaluation of monthly financial performance, training on lender compliance, i.e. loan payments, income requirements. DHCD will likely negotiate assignment of specific properties to grantees for this service.

Legal Citations Governing Program Area in Category C:

Applicants to provide any service in Category C should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
Tenant Purchase Technical Assistance Program DC Code 42-3404.02
Rental Housing Conversion and Sale Act of 1980, as amended (DC Code 42-3401.01 et. seq.) (Also known as the Tenant Opportunity to Purchase Act or "TOPA")

C17: Services for Tenants and Tenant Organizations
(in partnership with Housing Regulation Administration, Rental Accommodation Division, Rental Conversion and Sale Division).

Activities under this service will supplement and enhance the services provided by DHCD's Housing Regulation Administration (HRA), which includes the Rental Accommodations Division (RAD) and the Rental Conversion and Sale Division (CASD).

RAD administers the Rental Housing Act of 1985 (D.C. Official Code § 42-3501.01 et seq.) which regulates residential rental housing registration and the rent stabilization program (commonly known as rent control). RAD oversees rent adjustment procedures, processes notices to vacate, reviews tenant petitions prior to adjudication by the Office of Administrative Hearings and adjudicates most types of landlord petitions. RAD also proposes rules and regulations for administration of the Rental Housing Act for review and publication by the Rental Housing Commission.

CASD administers the Rental Housing Conversion and Sale Act of 1980 (D.C. Official Code § 42- 3401.01 et seq.) which regulates the sale or transfer of ownership interests under the

Tenant Opportunity to Purchase Act of 1980 (TOPA) (D.C. Official Code § 42-3401.01 et seq.), the conversion of use of rental housing to condominium or cooperative ownership and residential condominium formation and registration under the Condominium Act of 1976 (D.C. Official Code § 42-1901.01 et seq.). Further, CASD administers a Housing Assistance Payment program (HAP), under which tenants may be eligible for rent assistance if they are displaced due to the conversion of use of their apartment building to condominium or cooperative ownership.

CASD also proposes rules and regulations for administration of the Rental Housing Conversion and Sale Act of 1980.

DHCD seeks one or more organizations which will support RAD and CASD operations by providing counseling and tenant education services to tenants and tenant groups. Grantees must provide counseling and training assistance to tenants and tenant organizations regarding the District's rental housing laws and tenant and landlord rights and responsibilities.

For CASD, grantee organizations must provide counseling and training concerning: (1) tenants' TOPA rights when a landlord intends to sell, demolish, or discontinue rental housing use; (2) transfers of rental housing ownership or economic interests; (3) assisting tenants or tenant organizations in exercising their right to purchase; (4) informing tenants or tenant organizations relating to partner-investors and assigning TOPA rights; (5) conversion of use from rental housing to condominium or cooperative ownership by tenant elections, or conversion in lieu of tenant elections; (6) the Housing Assistance Payment program and relocation assistance; (7) tenant organization formation, incorporation, and registration; (8) protections for elderly or disabled tenants; (9) coercive or retaliatory activities; (10) tenant rights when rental housing is in foreclosure; (11) notices of intent to convert use from rental housing to condominium or cooperative ownership; and (12) relocation counseling for displaced tenants.

For RAD, service providers must demonstrate the ability to counsel and train tenants and tenant organizations on rent control provisions including properties that are regulated by or exempted/excluded from rent stabilization under the Rental Housing Act:

1) petition- based and annual rent increases.
2) executing and filing tenant petitions.
3) responding to landlord petitions.
4) protections for elderly and disabled tenants.
5) RAD's conciliation services.
6) notices to vacate and eviction procedures.
7) disclosures to tenants.
8) changes and decreases in services and facilities.

9) learning about and securing enforcement of housing condition regulations.
10) security deposits.
11) understanding lease provisions.
12) rent increases if a property is not under rent control.
13) appealing decisions of the Rent Administrator or the Office of Administrative Hearings; and
14) relocation counseling for displaced tenants. Note: Advocacy on behalf of tenant groups, or tenant rights assignees– including, but not limited to, legal advice or advocacy on tenants or tenant organizations' behalf in negotiations with a property owner–is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators, and not as advocacy groups. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns, or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a grantee is to ensure that tenants understand all available options.

Direct Counseling to Tenants and Tenant Groups: tenant counseling services will be designed to educate tenants in privately-owned properties about their legal rights and opportunities. This service is to be provided to tenants and tenant groups which are not subject to foreclosure and have not selected to exercise their Opportunity to Purchase Rights and/or Right of First Refusal under TOPA. It also includes providing other services and tenant education, which may not fall into the categories of services outlined above, such as eviction counseling, relocation counseling, apartment search, or apartment management.

DHCD seeks one or more organizations with the capacity to bring a range of resources to prevent involuntary displacement and to provide opportunities for continued affordable rental housing. Grantees must provide counseling services to tenants and tenant groups which include, but are not limited to: (1) outreach to tenant groups upon notice of one-year potential for subsidy expiration; (2) technical assistance in negotiations between owners and HUD relative to the renewal of federal subsidy contracts; (3) counseling for tenants in buildings where the subsidy will be lost and the tenant(s) must move; (4) counseling for tenants who are behind in their rent on best-action options; and (5) appropriately referring tenants who are in landlord/tenant disputes to all available resources. Grantees must also conduct research using the many databases and research tools available to identify properties that have a critical need for counseling assistance, including but not limited to DCHousingsearch.org. Note: Advocacy on behalf of tenant groups or tenants' rights assignee –including, but not limited to, legal advice or advocacy on tenants or tenant organizations behalf in negotiations

with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators and not as tenant advocates. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a prospective grantee is to ensure that tenants understand all available options.

Additional Legal Citations Governing Programs in Category C.

Applicants to provide any service in this Category and should review in detail the legal citations governing DHCD's rental accommodation functions:
(1) the Rental Housing Act of 1985, D.C. Official Code § 42-3501 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapters 38-44.
(2) the Rental Housing Conversion and Sale Act of 1980, D.C. Official Code § 42-3401 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapter 47.
(3) the Condominium Act of 1976, D.C.

Official Code § 42-1901 et seq.; (4) D.C. Official Code § 42-1901 et seq.; (5) the First Right to Purchase Program, title 14 of the District of Columbia Municipal Regulation, chapter 2700; and (6) Housing Conditions, Title 14 of the District of Columbia Municipal Regulations, Chapters 1-15. Submission of an application relevant to these services presumes that the applicant intends to meet all requirements to provide counseling to tenants and tenant groups pursuant to these above referenced citations.

3.3 Geographic Distribution of Services

The Department's decision to select one or more grantees to provide services will be influenced by the potential geographical distribution of service among the qualified applications received. Applicants can designate their proposed service areas in the District based on their by-laws, Board policies, etc. However, the Department reserves the right to designate any service areas it deems appropriate or necessary in making awards and negotiating grant terms. In reviewing the applicant pool, the Department's priority will be to ensure that excellent affordable housing counseling and training services are provided to all low- and moderate-income citizens of the District of Columbia. The Department will seek to bring parity in the quality of all housing services provided for all areas of the District through the award and ongoing management of these grants.

3.4 Marketing and Outreach

Marketing Plan to be submitted: Marketing and outreach are critical aspects of the grant's work. Grantees' efforts ensure these programs and services' success and desired impact. No Grantee or service is exempt from this requirement. Applicants must submit a detailed marketing and outreach plan for the services they are applying for. The plan should be detailed and not assume an understanding that has not been stated. Marketing should be included in the proposed budget and work plan.

DHCD will review and approve the marketing plan. In accordance with agency policy, marketing activities should highlight partnerships with and funding by DHCD.

Aspects of Marketing and Outreach to be considered:

- Continuous and consistent marketing and outreach are essential to achieving these services' objectives and maximizing public awareness of DHCD housing programs.
- Because of DHCD's diverse target population, grantees must utilize various marketing tools.
- Grantees are responsible for distributing DHCD program materials at community forums, public events, homeownership meetings, and fairs. Marketing and outreach may include but are not limited to, websites, email blasts, blogs, listservs, Twitter, Facebook, YouTube, Hope Hotline, flyers, door-to-door visits, community meetings, use of cable television (Channel 16), and public service announcements.

Coordinated with the Department: The grantee's marketing and outreach must be coordinated with DHCD. Grantees are expected to continually assess the success and impact of their marketing efforts to identify the most effective and efficient ways of reaching low– and moderate-income populations.

Participation in Department Marketing Activities: As required by DHCD, Grantees must participate in public activities and events related to housing opportunities. These may include but are not limited to tabling at events, participating in panel discussions, and providing speakers to groups, agencies, or organizations that request them.

DHCD Acknowledgement: Grantees must always acknowledge such housing assistance activities as Department of Housing and Community Development programs in any distributed print or electronic materials. DHCD must approve all such materials before distribution.

Use of DHCD Logo: All written or printed materials distributed or posted by Grantee that publicize the activities being funded by the D.C. Department of Housing and Community Development shall include information that the service, activity, or program is being supported and funded, partially or entirely, by the Department.

1. The written or printed materials must include the authorized DHCD logo.
2. Written or printed materials include, but are not limited to, newspaper, radio, and television announcements or advertisements. Websites, stationery, publicity materials, and written media communications, including newsletters, flyers, and brochures.
3. Grantees must abide by DHCD style guidelines when using the authorized DHCD logo.

4. The grantor may require that specific templates be used when promoting certain grant-funded programs. In those instances, DHCD will provide the templates and instructions to the Grantee.
5. The grantee must provide copies of all marketing materials, brochures, flyers, and other materials that publicize grant-funded activities to the Grantor via email at dhcd.occo@dc.gov
6. The grantee shall publicize as appropriate to its constituency through social media, print, and online postings, DHCD communications, and events related to Grant-supported activities.

Diversity and Language Access in Marketing: Grantees must demonstrate the capability to effectively serve and communicate with the District's various non-English speaking and special needs populations. This means that marketing and outreach materials must be made available in multiple languages and media based on the needs of those populations. The grantee must demonstrate its intent and capability to comply with the District's Language Access Law. In addition, grantees must demonstrate the availability of appropriate staffing to ensure compliance with the District's Language Access Law.

3.5 Focus Areas and Neighborhood Revitalization Strategy Areas (NRSA)

DHCD has identified specific areas of the District as "Focus Areas." These Areas represent areas where the District has invested in funding to create and preserve affordable housing. Focus Areas follow main routes through the District and their associated neighborhoods. In many cases, business owners are centered on these major routes, while resident services will be seen as more appropriate for those in the communities. Applicants must ensure services are delivered to low- and moderate-income households or areas as part of their program (Housing Services, Small Business Technical Assistance, Façade Improvement). This is a CDBG requirement.

- For Housing Counseling applicants, these Focus Areas should be used to plan outreach activities to inform residents of their services.
- For SBTA and Façade grantees, the Focus Areas define the geographical areas of the District in which they will provide services. In this latter case, the Focus Areas define not only their outreach area but also their service area.

NRSAs Targeting East of the River

The Department obtained the HUD designation for the Neighborhood Revitalization Strategy Area (NRSA) for the Focus Areas in Wards 7 and 8. DHCD has designated areas of Historic Anacostia in the city's Southeast and Far Northeast communities as Neighborhood Revitalization Strategy Areas (NRSAs). This designation will allow the city to target Community Development Block Grant (CDBG) funding that supports economic and community revitalization efforts. These include Martin Luther King Jr Avenue, Marion Barry Avenue, Minnesota Avenue, and Benning Road. However, all areas of Ward 7 and Ward 8 remain the focus of the grantee's work and outreach.

For communities outside of the NRSA areas, DHCD has designated Focus Areas throughout the District. Applicants are encouraged to partner with other community-based organizations. This collaboration can include cross-disciplinary collaboration. For example, a Façade grantee may partner with an SBTA grantee to provide business owners various services encompassing both disciplines. Housing service grantees may partner to promote or provide services one grantee offers, but another may not. The key to collaboration is an outlook of being partners, not competitors.

The following is a list of the Focus Areas and some of their associated neighborhoods. The outreach plans can include other nearby neighborhoods, mindful of the low-income requirements. Each applicant is asked to select one or more Focus Areas for their application. Please note that this is a minimum, and applicants may choose more than three. Applicants will be asked to provide reporting on outreach activities.

Instructions Show/Hide

As in the past, Performance Reporting is divided into three sections:

- **Workplan Metrics** (numbers only),
- **Accomplishment Narrative** (Text Boxes), and
- **Various uploads** (spreadsheets usually).

This data is extremely important. Reports can affect performance goals and funding. Your reports are used to report to the City Administrator, the Mayor (including DMPED) and to the District Council and its Committee on Housing. Where uploads are required, **use excel files or Word files.** This will allow your information to be uploaded into the database and reported to District leaders.

For **Workplan Metrics,** use only numbers or leave it blank**. Letters such as N/A are to be avoided.** This will make your report impossible to be uploaded in the DHCD database and will require your corrections. Only numbers zero (0) and above can be used. If a metric is left blank, it will be treated as a zero.

In the **Accomplishment Narrative**, text boxes are provided to provide statements of activities or the information requested. In the first Report, please answer Question 22 (Points of Contact) with all points of contact for the areas mentioned. Thereafter in subsequent months, if there are no changes, it is okay to say, "No Changes". The same is true for Question 21 (staffing). Please answer Question 23 (Success Stories), Question 24 (Good News), Question 25 (Other DC agencies and initiatives). Question 26 is important. Remember the RFA asked applicants to align outreach to the Focus Areas mentioned on pages 33 and 34 of the RFA. Mentioning specific Focus Areas in the narrative for Q26 is helpful.

The **Document Upload** section is where excel spreadsheets (usually, sometimes Word Documents) are uploaded. **PDFs cannot be uploaded into database.** [The District of Columbia is fortunate to have many DC Based Programs such as HPAP, IZ/ADU, PADD, SFRRP, TOPA, HRA/RAD related activities, as well as direct services to tenants and tenant groups, and services to Condo/Coop Associations. DHCD staff need monthly reporting in order to better do their work and respond to the needs of DC citizens. These reports are shared directly with the appropriate program manager.]

There three areas of your activities will be reported on a monthly basis to help us meet our HUD and DC Government requirements and the needs of DC residents.

Reporting for Fiscal Year 2025 will begin with Report # 1. The end of Government's fiscal year (9/30/2025) will conclude with Report # 10 and the close-out of FY25 Purchase Orders. The complete schedule is below for the monthly report.

Other Reporting: Beneficiary Data and Language Access

Other reports are also required. These include **Beneficiary Report** and **Language Access Report.** These two reports are required on a quarterly basis. These reports will not be answered within ZoomGrants. The Office of Program Monitoring will provide the spreadsheets to use for these quarterly reports. Please see your Grant Agreement for additional information about the monthly and quarterly reports. Please note, the Beneficiary Report corresponds to the sources and uses of your Grant Agreement. A separate Beneficiary Report is needed for each type of funding awarded: Public Service (PS), Non-Public Service (NPS) and NRSA Wards 7 & 8 PS and NPS.

These quarterly reports will be due:

Oct/Nov/Dec 2/24/2025

Jan/Feb/March 4/10/2025

April/May/June 7/10/2025

July/August/Sept 10/10/2025

Please note we cannot extend these deadlines since they are HUD's deadlines and not in our control. Please submit your report on schedule.

Please remember HUD views reporting and reimbursement requests as inseparable and therefore to be coordinated at the same time. Please avoid not filing on the deadline.

Exhibit I Mayor's Order 2023-131 Updated District Government Sexual Harassment Policy, Guidance and Procedures

Mayor's Order 2023-131

GOVERNMENT OF THE DISTRICT OF COLUMBIA
ADMINISTRATIVE ISSUANCE SYSTEM

Mayor's Order 2023-131
October 31, 2023
SUBJECT: Updated District Government Sexual Harassment Policy, Guidance, and Procedures

ORIGINATING AGENCY: Office of the Mayor

By virtue of the authority vested in me as Mayor of the District of Columbia by sections 422(2), (3), and (11) of the District of Columbia Home Rule Act of 1973, 87 Stat. 790; Pub. L No. 93-198, D.C. Official Code §§ 1-204.22(2), (3), and (11), it is hereby **ORDERED** that:

I. PURPOSES AND BACKGROUND

This Order incorporates provisions of, updates, and supersedes Mayor's Order 2017-313, dated December 18, 2017, regarding sexual harassment in District of Columbia ("District") Government workplaces.

In addition to providing procedural updates to the District's sexual harassment policy, this Order establishes and directs the Sexual Harassment Task Force to further examine the District's sexual harassment policies and provide recommendations to further the goal of a harassment-free workplace; establishes obligations of District Government employees; adds Mayor's direct reports to those required to be referred for outside investigation of sexual harassment; and bans all sexual and romantic relationships between supervisors and the employees in their chain of command.

This Order reaffirms that the District Government does not tolerate any form of inappropriate workplace conduct including sexual harassment, nor does it tolerate sexual harassment in non-employment interactions between District Government employees and the public. Sexual harassment is recognized as one of the most unjust, demeaning, and demoralizing examples of workplace misconduct.

This Order also requires that employees be trained on sexual harassment every year and provides additional specificity as to the qualifications and role of Sexual Harassment Officers.

Further, this Order directs agency compliance with the Sexual Harassment Data Collection and Reporting Act of 2022, D.C. Law 24-171, D.C. Official Code § 1-546.01, and clarifies, consistent with the Human Rights Enhancement Amendment Act of 2022, D.C. Law 24-172, D.C. Official Code § 2-1402.11(c-2), the definition of sexual harassment.

II. INDIVIDUALS AND ENTITIES COVERED

A. Prohibitions and Protections

1. This Order is intended broadly to prohibit sexual harassment in all interactions with District Government employees and officials and persons acting on behalf of the District Government, and to facilitate speedy investigation and non-monetary remedial action including warnings to stop offensive behavior, additional training, reassignments, and personnel and contract actions.

2. The District of Columbia prohibits workplace sexual harassment by all District Government employees and officials. The prohibition applies to harassment of other employees and officials and to harassment of third parties

and members of the public interacting with the District Government, such as vendors, contractors, grantees, customers, clients, and other persons visiting or working at District Government worksites or service sites inside and outside District Government agencies.

3. Likewise, contractors and grantees carrying out work on behalf of the District Government shall not sexually harass colleagues who carry out work on behalf of the District Government; District Government employees; or customers, clients, or beneficiaries of the services the contractors and grantees provide on behalf of the District Government; and those clients, customers, beneficiaries, employees, and colleagues may file complaints that trigger sexual harassment investigations and possibly remedies. Remedies may include requiring the contractor or grantee to use alternate personnel to provide services, and other remedies available under the contract or grant agreements up to and including contract or grant termination or non-renewal of the grant or contract.

4. In addition, sexual harassment by District Government clients, customers, or visitors against District Government employees, contractors, or grantees, or other clients, customers, or visitors, at District Government worksites or service sites, is prohibited and complaints made against District Government employees who sexually harass contractors, grantees, agency clients, customers or visitors, upon investigation, may result in discipline of the employee and accommodations of the contractor, grantee, customer or visitor, such as having another government official assigned to the matter.

5. In the course of their duties as members of District of Columbia boards and commissions, board and commission members are bound by the prohibitions, procedures, and deadlines set forth in this Order.

6. Not every procedure set forth in this Order applies to persons not working for the District Government.

B. Scope

1. Laws prohibiting sexual harassment apply throughout the District Government. The agencies listed below should either use the training, procedures, information, and processes provided in this Order, or their own, similar ones. To the extent District law requires centralized reporting, the reporting requirements in this Order apply to all agencies.

2. Those agencies include the Office of the Attorney General, the Office of the Chief Financial Officer, the Board of Elections, the Zoning Commission, the Public Service Commission, the Commission on Arts and Humanities, the Washington Convention and Sports Authority (Events DC), the Board of Education, the University of the District of Columbia, the DC Public Library, the DC State Athletics Commission, the Public Charter School Board and public charter schools, the Office of the People's Counsel, the District of Columbia Water and Sewer Authority (DC Water), the Green Finance Authority, the Health Benefit Exchange Authority, the Not-for-Profit Hospital Corporation, the Contract Appeals Board, the DC Retirement Board, the Office of Employee Appeals, the DC National Guard, the Criminal Justice Coordinating Council, the Office of Police Complaints, the Corrections Information Council, and the Uniform Law Commission.

3. This Order does not apply to the Council of the District of Columbia, Advisory Neighborhood Commissions, or the DC Courts, and agencies and offices subordinate to them.

III. SEXUAL HARASSMENT

A. Through the Human Rights Enhancement Amendment Act of 2022, D.C. Law 24-172, effective September 21, 2022; D.C. Official Code § 2-1402.11(c-2), the Council has, in the employment context, expanded the definition of "harassment" and "sexual harassment" under the D.C. Human Rights Act to provide that sexual harassment includes conduct of a sexual nature, "whether direct or indirect, verbal or nonverbal, that unreasonably alters an individual's terms, conditions, or privileges of employment or has the purpose or effect of creating an intimidating, hostile, or offensive work environment."

B. In addition, sexual harassment includes "sexual advances, requests for sexual favors, or other conduct of a sexual nature where submission to the conduct is made either explicitly or implicitly a term or condition of employment or where submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual's employment." This is sometimes referred to as quid pro quo sexual harassment.

C. In determining whether sexual harassment has taken place, the D.C. Human Rights Act states that "conduct need not be severe or pervasive to constitute harassment" and that "no specific number of incidents or specific level of egregiousness is required."

D. Examples of conduct that can contribute to or constitute sexual harassment or an intimidating, hostile, or offensive work environment include:

1. Sex acts;

2. Display of sexual organs;

3. Using sexually oriented or sexually degrading language describing an individual or their body, clothing, hair, accessories, or sexual experiences;

4. Sexually offensive comments or off-color language, jokes, or innuendo that a reasonable person would consider to be of a sexual nature, or belittling or demeaning to an individual or a group's sex, sexual orientation, or gender identity;

5. "Sexting" or seeking or sending pictures of intimate body parts;

6. Taking or displaying pictures of body parts meant to be covered up (such as "upskirting" pictures);

7. Displaying or disseminating sexually suggestive objects, books, screensavers, magazines, photographs, music, cartoons, or computer internet sites or references;

8. Unnecessary and inappropriate touching or physical contact, such as intentional and repeated brushing against a colleague's body, touching or brushing a colleague's hair or clothing, massages, groping, patting, pinching, or hugging, that a reasonable person would consider to be of a sexual nature;

9. Leering, ogling, or making sexually suggestive gestures or sounds, such as whistling or kissing noises;

10. Making inquiries about someone's private sex life or describing one's own sex life;

11. Workplace sexual comments, conduct, displays and suggestions between two willing parties in the presence of another that are inconsistent with professional workplace norms;

12. Any unwanted repeated contact, including, but not limited to in-person, or telephonic, for romantic or sexual purposes;

13. Giving a preference to someone who is engaged in a dating, romantic, or sexual relationship based on the relationship to the disadvantage of someone who is not engaged in a dating, romantic, or sexual relationship; and

14. Sexual assault, stalking, trapping someone such that they are not free to leave and a sexual encounter is expected or threatened, threats of bodily harm relating to sex or the refusal to have sex, or other crimes related to acts of sexual harassment.

E. Further, the District may treat some conduct of a sexual nature as misconduct, even when it does not rise to the level of unlawful sexual harassment actionable under the D.C. Human Rights Act. As an example, an employee who tends to greet people with a hug may have been warned that the conduct was offensive to some employees and then hugs an employee whom they have not seen in many months. The conduct may not rise to the level of "unreasonably altering the individual's terms, conditions, or privileges of employment," but it could constitute misconduct since they had been warned that some employees associate hugging with unwanted sexual contact that is offensive in the work environment.

IV. DATING, ROMANTIC, AND SEXUAL RELATIONSHIPS IN THE WORKPLACE

A. Prohibitions

1. Prohibitions on certain dating, romantic, or sexual relationships in the workplace exist to prevent real or perceived impropriety, favoritism, conflicts of interest due to power dynamics, control of an employee's assignments and performance reviews, as well as to advance fairness for all other employees, contractors, grantees, and clients. Even consensual dating, romantic, or sexual relationships can generate allegations of favoritism based on sexual relationships or sexual harassment by one of the parties or a third party. Relationships, or aspects of relationships, that may be perceived as consensual by one party may be considered coerced or harassing by the other party due to power dynamics, and relationships that start consensually may evolve into sexual harassment.

2. Subject to the conditions and implementation procedures discussed in this Order, it is now the policy of the District Government that a dating, romantic, or sexual relationship between a supervisor and any employee in the chain of command they supervise – whether supervision is direct or indirect, operational or situational – is prohibited. Note that chain of command in this definition may span agencies or divisions within an agency.

3. In addition, District Government employees shall not initiate a dating, romantic, or sexual relationship with trainees, recruits, or interns, regardless of the employee's assignment in relation to the trainee, recruit, or intern if the employee is in the same agency as the trainee, recruit, or intern.

4. Further, this Order prohibits dating, romantic, and sexual relationships when they are prohibited by applicable professional or ethical standards, such as lawyer-client, doctor-patient, or social worker-client.

5. District Government employees shall not participate personally and substantially in particular matters that affect or could affect the financial interests of someone with whom they are in a dating, romantic, or sexual relationship, whether that person is an employee, grantee, contractor, or client of the agency.

B. Designation of Person or Committee to Resolve Issues Surrounding Workplace Relationships; Existing Relationships

1, By November 17, 2023, District Government agency directors shall designate their own agency human resources agency/officers, another appropriate officer, or an office or committee to receive disclosures of relationships and resolve workplace issues arising from any prohibited dating, romantic, or sexual relationship on a case-by-case basis consistent with this Order; absent such a designation, disclosures shall be made to the Director.

2. By December 8, 2023, existing relationships that fall within the prohibitions of this Order must be disclosed to the designee identified in subsection IV.B.1. of this Order, in the manner specified by their agency or on a form to be created by DCHR, whereupon the situation will be evaluated and a resolution determined.

3. Resolution may involve giving the employees a defined but reasonable time to find a new position where the relationship is not implicated by this Order; shifting reporting structures to take the relationship out of a prohibited status; or establishment of recusal structures when the employees do not work in the same agency or division but they heretofore were in situational or operational chains of command.

4. To the extent adjustments are made in work sites or shifts, reporting structures, job duties or any other factor for one or both of the persons in the relationship, agencies shall endeavor to afford such options on a voluntary basis for all concerned, particularly if an employee not involved in a prohibited relationship is affected by any proposed accommodation of the relationship.

5. If no satisfactory resolution of the prohibited relationship can be reached, the persons in a dating, romantic, or sexual relationship may request a waiver of the provisions of this Order. Waiver requests shall be submitted to the Mayor and shall be accompanied by a recommendation from the agency or agency designee. Waiver requests may include any information relevant to the determination and shall be on a form to be created by the Department of Human Resources ("DCHR").

6. Agencies may make reasonable efforts to assist with a transfer or reassignment, without prejudicing either employee (or any other employee), but it is not the responsibility of the personnel authority or the agency to restructure their agency operations or find a new position for someone in the relationship. No agency is required to grant a request or application for a transfer.

7. Agencies may promulgate regulations or policies consistent with this Order to effect its implementation and to provide consistent treatment for employees facing this situation, though each relationship may pose unique issues. Agencies may also issue rules explaining in more detail for their agencies' employees and contractors how terms such as "dating," "chain of command" and "trainee" are to be interpreted considering their agency's operations. Agencies may prohibit dating, romantic, or sexual relationships with their own clients or clients of the agency or a subset of the agency, as the agency deems appropriate to prevent factual or perceived impropriety or favoritism. For instance, an agency with both social workers and non-licensed employees providing case work to agency clients could extend the ban on dating and sexual relationships with clients to their non-licensed employees, to hold them to the same professional standards as their licensed colleagues.

8. By December 12, 2023, agencies shall report the number of disclosed relationships to the Mayor's Office of Legal Counsel ("MOLC") and the contact information of the person handling requests for accommodation, for consideration by the Sexual Harassment Taskforce.

C. Disclosure of Relationships

1. In addition to the disclosures of existing relationships required by Section IV.B., if by promotion or agency reorganization or other circumstance, two employees in a dating, romantic, or sexual relationship would fall into a prohibited relationship status, their relationship must be disclosed as soon as the possibility of falling into prohibited status is realized by either person in the relationship.

2. If there is a reasonable likelihood that someone would raise a credible charge that there was or could be preferential treatment based on a dating, romantic, or sexual relationship that is not in a chain of command, then the employees involved in the dating, romantic, or sexual relationship must also report their relationship to the person or office designated pursuant to Section IV.B. Such reporting is necessary for consideration of whether additional safeguards are necessary and whether the prohibition on relationships based on situational supervision is implicated.

D. New Relationships

Generally, if two persons in a chain of command wish to begin a dating, romantic, or sexual relationship with each other, one party to the relationship should apply for a transfer or otherwise seek employment that eliminates the supervisory relationship before the relationship begins so that no prohibited relationship commences. For example, a supervisor may be transferred to another supervisory role so that they are not in the chain of command with the other person.

E. Conduct

1. District Government employees in a dating, romantic, or sexual relationship with another District Government employee, or client/customer of their agency, or grantee or contractor of their agency, shall conduct themselves in an appropriate manner while on duty and shall not engage in behavior that detracts from a professional work environment.

2. Any sexual activity at work sites or during an employee's working hours, regardless of location, is prohibited.

F. Violations

A violation of a provision of this Order regarding dating, romantic, or sexual relationships may not constitute sexual harassment as defined above, but an employee who engages in a prohibited relationship under Section IV.A. of this

Order or fails to disclose a relationship that is required to be disclosed shall be subject to appropriate personnel action, up to and including termination.

G. Legal Representation

If legal action is commenced against the District of Columbia and/or a supervisor who engaged in a dating, romantic, or sexual relationship with an employee, or a person engaged in a potentially-conflictual relationship, the existence of the sexual or romantic relationship will be a factor in the District of Columbia's decision to provide legal representation to the supervisor or the employee(s) engaged in a relationship.

V. PROCEDURES FOR STOPPING SEXUAL HARASSMENT; REPORTING AND INVESTIGATING SEXUAL HARASSMENT CLAIMS

A. Employee Obligations

1. District Government employees are bound by the principles set forth in the Code of Conduct at 6B DCMR §§ 1800.2–1800.4 and are expected to act at all times in a manner reflecting their roles as public servants. Depending on an employee's role in the District Government, the obligations regarding the prevention of sexual harassment may differ. "Employees" for the purpose of this Order include contractors engaged by the District Government performing work on behalf of the District similar to that as its employees, such as at District worksites.

2. All employees are obligated to:

a. Refrain from engaging in behavior that constitutes sexually harassing conduct;

b. Refrain from initiating or conducting a prohibited dating, romantic, or sexual relationship as described in Section IV.A. of this Order;

c. Disclose their own dating, romantic, or sexual relationships with other employees if required in Section IV.D. of this Order;

d. Affirm their agreement to comply with this Order;

e. Complete annual sexual harassment training;

f. Cooperate fully in any inquiry or investigation into an alleged violation of this Order; and

g. Refrain from any behavior that may call into question the impartial and harassment-free provision of services to constituents, agency clients or customers, contractors, or grantees.

3. Supervisors should take particular care to avoid conduct that could lead to allegations of sexual harassment, considering time, place, and situations of interactions with employees.

B. Employee Communication

1. To avail themselves of the procedures and protections of this Order, when a District Government employee finds conduct unwelcome, intimidating, or offensive, they may: (a) tell the person who is engaging in offensive or inappropriate sexual conduct to stop and that such conduct is unwelcome; or (b) ask the employee's supervisor, General Counsel, or Sexual Harassment Officer to advise the person that the conduct is offensive and unwelcome; or (c) proceed immediately to file a complaint of sexual harassment under this Order.

2. Employees and others engaged in intervention are encouraged to document all intervention efforts or requests to cease reported inappropriate sexual conduct, including conversations, texts, or email exchanges.

C. Reporting Allegations of Inappropriate Conduct of a Sexual Nature or Sexual Harassment

1. All District Government employees are encouraged to help ensure that District Government workplaces are free of sexual harassment. Employees who know of incidents of inappropriate conduct of a sexual nature, as well as behavior that may create an intimidating, hostile, or offensive work environment, or who are victims of inappropriate conduct of a sexual nature, should report the inappropriate conduct.

2. Employees may report to the Sexual Harassment Officer ("SHO") of their agency or any other agency, or the supervisor or manager of the employee engaging in inappropriate conduct, to their own supervisor, or to the agency General Counsel. Contractors, grantees, and customers of agencies may report allegations of inappropriate conduct of a sexual nature to the SHO of the relevant agency or any other agency, the relevant agency's General Counsel, the supervisor of the employee who engaged in the alleged inappropriate conduct, or their grant or contract administrator.

3. Allegations of sexual harassment against the Mayor, City Administrator, Mayor's Chief of Staff, Mayor's Senior Advisor, Director of the MOLC, any Deputy Mayor, or any official who directly reports to the Mayor, shall be referred to the Inspector General to determine if the allegation is credible, in which case it shall be referred for independent investigation. Such investigations shall be carried out by an entity outside the District Government and those reports shall be provided to MOLC (or the City Administrator if the allegation is against the Director of the MOLC) and the Inspector General.

D. Agency Responsibilities

1. Sexual Harassment Officers ("SHOs") and Investigations

a. Each Deputy Mayor's Office and each agency shall designate a primary SHO and an alternate SHO and shall update the designations, as needed, on an ongoing basis. Each agency shall provide the names of its SHOs to DCHR, and DCHR shall maintain a current District-wide list of agency SHOs. Further, pursuant to D.C. Official Code § 1-546.01(2), SHOs shall be registered with the Office of Human Rights ("OHR").

b. SHOs shall be trained and qualified to serve. To be qualified to serve as a SHO, individuals must have taken and continue to take annual training provided by DCHR and OHR. SHOs may but are not required to be an agency's Equal Employment Opportunity ("EEO") officer, or human resources manager; they must be competent in EEO laws and be designated by the agency to accept sexual harassment complaints and to review and investigate claims. SHOs need not be attorneys.

c. The primary and alternate SHOs for a smaller agency may be employees of another agency (i.e., the SHO of a larger agency may serve as the SHO for a smaller agency). An agency of any size may also obtain assistance from another agency's SHO in handling a particular investigation, including having another agency's SHO carry out an investigation, where there is a possibility of the appearance of a conflict of interest, or for administrative convenience. For the purposes of this Order, a smaller agency availing itself of this option will still be referred to as the "agency."

d. A person seeking to report a violation of this Order may file with any agency SHO, not solely the SHO at their agency or the agency at which the alleged sexual harassment occurred. Persons filing complaints, however, are not entitled to have the investigation conducted by the person of their choosing.

e. If a complaint is reported to someone other than the SHO, the person receiving the complaint must notify the agency SHO, unless giving notice would raise conflict of interest concerns, in which case the person must notify the agency General Counsel.

f. Unless the complaint is against the agency General Counsel, the SHO shall immediately notify the agency's General Counsel of the complaint, and the General Counsel shall thereafter notify the Mayor's Office of Legal Counsel ("MOLC"). The SHO may consult with the agency's General Counsel, or the General Counsel's designee, for legal guidance on conducting the investigation and shall notify the General Counsel of any issue that may require higher-level support. If the complaint is against the General Counsel, the SHO shall notify the MOLC directly.

g. SHOs should review DCHR's SHO training materials before initiating an investigation. DCHR has training materials on duties to inform the bargaining unit, the right to union representation during investigatory questioning, assessing credibility, unconscious bias, conducting interviews, gathering evidence, protecting confidentiality, preservation of evidence, when to stop an investigation and refer a matter for criminal investigation and more.

h. The primary function of a SHO is to accept complaints alleging violations of this Order and to gather, investigate and review the factual basis of the claim(s). SHOs may corroborate or refute factual allegations; SHOs may provide impressions and evidence regarding the credibility of witnesses. They weigh such evidence and may take into account their impressions of the credibility of witnesses. Ultimately, SHOs make and submit to the appropriate agency Director recommended determinations of whether the allegations are substantiated or are not substantiated. They are not to make legal conclusions about whether sexual harassment occurred.

i. Investigations of allegations of inappropriate conduct of a sexual nature shall be conducted, and the associated investigation report completed, as soon as practicable, within sixty (60) days after the filing of the report of the alleged sexual harassment, absent unusual circumstances.

j. The investigative report shall include a description of the allegations, a description of the SHO's investigation, a description of the evidence adduced by the SHO, and the SHO's recommended determination as to whether the allegations were substantiated. The SHO shall transmit the report to the Director or agency Director's designee and General Counsel of the agency where the alleged harasser is employed.

2. Interim Remedial Actions

a. Pending the completion of the SHO investigation and report, the issuance of the agency report, and the imposition of any disciplinary action, and to protect the rights of the alleged victim as well as the alleged harasser, the agency may take temporary personnel actions that do not result in any adverse employment action to either party.

b. When an agency becomes aware of an allegation of misconduct of a sexual nature, the agency shall notify the alleged harasser of the reported behavior and may demand that the alleged behavior cease immediately and not be repeated.

c. The agency shall take such other remedial steps as it deems appropriate to mitigate the possibility of the alleged harassing conduct continuing.

d. Interim remedial actions are administrative rather than disciplinary and may include, but are not limited to, transfers, reassignment of duty station, changed shifts, duties or reporting requirements, mandatory administrative leave with pay, or other appropriate measures that do not result in reduction of pay, demotion in title or responsibility, or other loss of employee benefits. In general, the agency should avoid moving the alleged victim or changing the alleged victim's shift, or taking similar action affecting the alleged victim, unless the alleged victim requests the action; if the agency takes such an action absent a request from the alleged victim, the agency should make clear to the alleged victim that the action is being taken in pursuit of an effective and prompt stop to any alleged harassment, and not in retaliation for reporting the alleged harassment.

e. Personnel authorities are encouraged to find alternative, reasonably comparable placement during the pendency of an investigation for the accuser or accused in lieu of administrative leave with pay, where possible and if consistent with any collective bargaining agreements.

3. Post-SHO Investigation Agency Actions

a. The agency Director or agency Director's designee may reject a SHO report and return it to the SHO for further investigation, information, documentation, or analysis if the agency Director or designee

considers the report to be incomplete, inadequate, or otherwise unacceptable.

b. If the report is not rejected, the agency Director, or the agency Director's designee, within fourteen (14) days of receiving the SHO's report, shall issue an agency report that accepts, modifies, or rejects the SHO's findings and substantiation recommendations, describes the rationale for any such modifications or rejections, and makes conclusions as to whether the substantiated allegations constitute a violation of this Order. The SHO report shall be included as an attachment to the agency Director or designee's report. The agency Director or designee shall consult with the agency's General Counsel during the preparation of the report regarding relevant legal standards or other legal issues.

c. If the report determines that a violation of this Order has occurred, the report shall be submitted to the agency's human resource officer for appropriate disciplinary action, up to and including termination. The agency shall require that any employee found to have violated this Order whose employment is not terminated must attend mandatory sexual harassment training within sixty (60) days after the issuance of the agency report.

d. The agency must provide the employee and the alleged harasser with a summary written notification of its findings and conclusions (final agency decision) after the sixty (60) day period and shall convey the same to MOLC within five (5) days after it is issued. The notice shall include a description of each allegation and the agency's determination as to whether the allegations were substantiated or were unsubstantiated. Such notice shall not include summaries of witness interviews, credibility determinations, or legal analysis; the notice is a simple recitation of the allegations and the determination as to whether the allegations were substantiated or were unsubstantiated.

e. Any conclusion in the SHO or Director's report that a violation of this Order occurred does not constitute a final legal conclusion that sexual harassment under the D.C. Human Rights Act or federal law occurred. Conversely, a finding that was not substantiated is not a legal conclusion that no violation of the D.C. Human Rights Act or federal law occurred.

f. Consistent with norms regarding the privacy of personnel actions, the complaining party shall not be informed of any disciplinary actions against the alleged harasser.

g. Regardless of whether a complaint has been substantiated, relevant staff, including the General Counsel, are authorized to work together to advise the Director or deciding official as to whether to recommend or implement personnel actions or management procedures to reduce the possibility of reoccurrence of any inappropriate behavior or behavior that poses risks for the District. Any meetings among the General Counsel, human resources staff, and agency management shall endeavor to preserve the confidentiality of the complaint generating the meeting or consultation to the greatest extent possible.

4. Communicating the Order: Orientation, Pledges, Training, and Notifications

a. The personnel authority shall circulate this Order to all new hires during their orientation, shall give each new hire time to read a summary of the Order during orientation, and shall obtain a signed verification that the new employee has read the summary and pledges not to engage in sexual harassment or any other conduct that violates the rules prohibiting sexually harassing behavior, certain dating, romantic, or sexual relationships, and requiring disclosure of certain relationships. Agencies with supplemental orders relating to sexual harassment shall provide those orders, too, to onboarding employees.

b. When individual contractors are working inside an agency in a manner akin to a District Government employee, the agency or the supervising contractor shall obtain signatures from individuals during onboarding orientations affirming their agreement to abide by this Order.

c. New employees shall take a course on sexual harassment as part of the on-boarding process and in no event more than fourteen (14) days after being on-boarded. Agencies shall by December 11, 2023

circulate this Order to all current employees.

d. Agencies shall follow up to provide delivery to difficult-to-reach employees, including employees on leave and work-related travel. Agencies are responsible for confirming that each employee has received this Order by email, verification through Peoplesoft, or return of a signed copy.

e. By December 11, 2023, each agency shall email the names of the agency's primary and alternate SHOs to all its employees and shall send reminders or updates of who the agency's SHOs are at least annually to agency employees.

f. Each agency shall prominently post notices in conspicuous locations accessible and used by a substantial number of agency employees, identifying the agency SHO and Alternate SHO, how to report sexual harassment, and that sexual harassment investigations are to be kept confidential to the greatest possible extent consistent with their investigation and resolution. Agencies shall post the notices no later than thirty (30) days after receipt of the template notice from the Office of Human Rights required by Section V.K. of this Order.

g. Agencies shall take a digital photograph of each posting and transmit it to the SHO program coordinator at DCHR with a description of the location at the time of each posting.

h. Individuals and entities entering into contract or grant agreements with the District Government must affirm that they will abide by the D.C. Human Rights Act including its prohibitions on sexual harassment, consistent with 4 DCMR § 1100 et seq.

i. District agencies drafting contracts and grants shall require such affirmations as part of the contract or grant agreement.

E. Employee Responsibility to Participate in Agency Investigations

1. District Government employees are required to cooperate fully in a SHO or independent investigation of a workplace sexual harassment complaint.

2. If an employee who alleges sexual harassment or is believed to have been the victim of sexual harassment declines to assist and/or participate in the investigation of the allegation, or requests the agency not conduct an investigation, the agency may on its own initiative investigate or refer the matter for investigation.

3. Employees who were not themselves victimized, who, after a direct request by the SHO or other investigator, decline to participate in a sexual harassment investigation, may be subject to disciplinary action.

4. Any consideration of whether to recommend disciplinary action for failure to cooperate in an investigation on the part of an alleged victim requires heightened sensitivity on the part of the agency and should be conducted in consultation with the agency's General Counsel and MOLC.

F. Discipline for Making False Statements or Representations

1. Making materially false statements, and misrepresentation, falsification or concealment of material facts or records in an investigation of allegations of sexual harassment is conduct warranting disciplinary action, up to and including termination.

2. Consideration of whether to recommend disciplinary action against an employee who is also the alleged victim of sexual harassment requires heightened sensitivity on the part of the agency and should be conducted in consultation with the agency's General Counsel and MOLC.

G. Discipline after a Finding of Sexual Misconduct or Harassment

The agency shall recommend appropriate disciplinary action, such as described in Section 1607.2(k) of the District Personnel Manual, 6B DCMR § 1607.2(k), up to and including termination of any employee found to have engaged

in sexual misconduct or sexual harassment as defined in Section III of this Order.

H. Rights of the Alleged Harasser

Persons accused of sexual harassment deserve the full protections afforded to them under the law in administrative matters, including, but not limited to, the right to respond to allegations of sexual harassment; to counsel and representation, including a union representative or other representative of their choosing, and including the presumption of innocence, unless and until there is a finding of harassment after an investigation by the agency or where appropriate, OHR. The right to counsel does not include the right to have counsel paid for by the government.

I. DCHR Responsibilities

1. DCHR shall quarterly reach out to all designated primary and alternate SHOs to confirm that they continue to serve in those roles. If DCHR is unable to reach a designated SHO or to confirm that the individual still serves as the agency's primary or alternate SHO, DCHR shall work with the agency to identify a new primary or alternate SHO for the agency. DCHR shall post a list of agency SHOs on its website and update it as necessary.

2. DCHR shall develop reporting forms for disclosure of dating, romantic, and sexual relationships and for applications for waivers of the prohibition on relationships in the chain of command.

3. DCHR shall work with agencies to verify that all employees have completed the annual training on sexual harassment required by Section V.A.1.e. of this Order.

4. DCHR, working with the Office of the Chief Technology Officer, shall create a means through Peoplesoft for employees to acknowledge their receipt of the Order and agreement to comply with its provisions.

5. DCHR, in consultation with OHR, shall review, update, and provide training materials for agency SHOs, including training on investigative techniques.

6. DCHR shall establish qualification standards for SHOs and verify each SHO's qualification to serve as a SHO.

7. DCHR, in consultation with OHR and the Sexual Harassment Task Force, shall create and disseminate training and collateral materials on this Order, the sexual harassment provisions of the D.C. Human Rights Act, and other sexual harassment law and policy, to all agencies under the direct authority of the Mayor and to such independent agencies as may request access to DCHR materials. The training and collateral materials should be tailored to employees in various roles, such as senior officials, managers, attorneys, human resources personnel, and new or existing employees, and should take into account that many District Government employees work primarily in the community and may not have regular access to computer-based training modules.

J. Office of Human Rights (OHR)

1. OHR shall develop training for EEO officers on the standards of the D.C. Human Rights Act, including the changes made by the Human Rights Enhancement Amendment Act of 2022.

2. OHR shall provide consultative services to DCHR and the Sexual Harassment Task Force in creating and disseminating training and collateral materials on this Order, the sexual harassment provisions of the D.C. Human Rights Act, and other sexual harassment law and policy, to all agencies.

3. OHR shall provide a template notice to agencies for agencies to post where the agencies can fill in the name of their SHO and alternate SHO and providing basic information on the prohibition against sexual harassment, how to report, and confidentiality, pursuant to Section V.E.4.d. of this Order.

VI. PROHIBITION AGAINST RETALIATION

A. Retaliation Prohibited

Retaliating against a District Government employee for reporting or filing a claim of sexual harassment, assisting another person in reporting or asserting a claim of sexual harassment, opposing sexual harassment, acting as a witness in a sexual harassment investigation, refusing to follow orders that would result in sexual harassment, intervening to protect others from sexual harassment or advances, or challenging an allegation of sexual harassment, is strictly prohibited. Employees shall not be penalized as a result of their assertion of their rights under the D.C. Human Rights Act or providing truthful information in connection with an investigation (whether on behalf of a complainant or a respondent). Retaliatory behavior may include, but is not limited to, unwarranted reprimands, unfairly downgrading personnel evaluations, transfers to less desirable positions, verbal, or physical abuse, and altered and more inconvenient work schedules. Employees found to have engaged in retaliatory behavior shall be recommended for appropriate disciplinary action, up to and including termination.

B. Process for Alleging Retaliation

Claims of retaliation are generally beyond the scope of the investigatory authority of agency SHOs because SHOs may not be trained in assessing the legality or validity of managerial decisions such as evaluations and assignments and investigations into retaliation would be difficult to conduct in the rapid timeframe set forth in this Order. Employees who believe they have been retaliated against must file a complaint with an EEO Counselor within one hundred and eighty (180) days of the alleged retaliation and subsequently file a complaint with OHR within fifteen (15) days of receipt of the Exit Letter if the employee is not satisfied with the outcome of EEO counseling.

VII. LIMITS

Lodging a complaint regarding sexual harassment does not shield an employee from all discipline or discharge. Agencies may discipline or separate a complainant if the agency is motivated by non-retaliatory and non-discriminatory reasons that would otherwise result in such discipline or separation.

VIII. CONFIDENTIALITY

A. Protecting confidentiality is critical to encouraging victims of sexual harassment to come forth and share their stories. It encourages witness cooperation and protects the reputations of those involved. For those reasons, SHO investigations should be kept confidential.

B. Confidentiality is not absolute. SHOs must disclose information to the alleged harasser for the alleged harasser to have a full and fair opportunity to respond. SHOs may have to disclose information to witnesses to gather more information from them. SHOs must keep agency General Counsels updated for reporting purposes and for investigation support purposes. SHOs also may have to disclose criminal conduct or threats to law enforcement. SHOs should not make pledges of total confidentiality.

C. Investigative reports are confidential, highly private, and deliberative and shall not be released without a court order. Neither the complainant nor the alleged harasser shall be provided with a copy of the investigative report.

D. SHOs, the agency, and MOLC shall take all reasonable steps to ensure that no information contained in the complaint file is disseminated except in furtherance of the investigation; for entry into E-risk or another risk management system; to assist in resolution of the allegations; as necessary for execution of any consequences stemming from the investigation; when lawfully released; or when required by court order.

IX. TIMELY FILING AND STATUTE OF LIMITATIONS

Complaints of sexual harassment shall be reported as promptly as possible. Agencies should investigate alleged acts of sexual harassment beyond the legal statute of limitations, or deadlines otherwise provided by regulation or collective bargaining agreement, taking into consideration the sensitive nature of the alleged offense, the pressure the complainant may have felt not to report the conduct, when the victim became aware of behavior that was not immediately apparent, or a pattern of harassing behavior that developed over time. Some remedies or sanctions may be unavailable due to delays in filing, but even delayed investigations may yield information to the agency in its ongoing efforts to prevent and remediate sexual harassment or may add to the credibility of similar, future allegations should a pattern emerge of allegations against a particular person or practice.

X. RECORDS

A. Agencies shall maintain records of complaints and investigations conducted for three (3) years from the date of the complaint.

B. For each fiscal year, each agency shall track how many complaints of sexual harassment were made by the agency's employees; were made about its agency employees by customers/clients of the agency; grantees or contractors of the agency, and how many complaints were made of sexual harassment of the agency's employees by customers/clients, grantees or contractors, or members of the public during the agency's duties.

C. In addition to the number of complaints, agencies shall track how many matters were investigated; were resolved by mediation; were substantiated; were deemed unsubstantiated; resulted in administrative or disciplinary action against one or more individuals determined to have violated this Order or sexually harassed the complainant; have resulted in legal action; have resulted in a settlement (including the amount of any financial settlement); and how many are pending. Pursuant to the Sexual Harassment Data Collection Act, annual fiscal year data required to be produced under D.C. Official Code § 1-546.02 shall be transmitted to the Office of Human Rights on or before October 15 of each year.

D. Centralized reporting, however, should be ongoing, and agencies are directed to submit such interim, monthly, or quarterly reports as may be requested by DCHR, the MOLC, OHR, or the Sexual Harassment Task Force, and to enter incidents into E-Risk as directed.

E. Any warnings to an employee(s) to halt a particular type of behavior – whether generally or as to a particular employee(s) – shall be recorded and transmitted to the agency's human resource office and to the Mayor's Office of Legal Counsel. In the context of addressing complaints of sexual harassment, any other interventions made for an employee, customer/client, grantee or contractor shall also be recorded, whether or not they arose from an informal counseling session, a complaint of sexual harassment, a complaint regarding behavior in a dating, romantic, or sexual relationship, anonymous report, or any other means.

XI. CONCURRENT REMEDIES AND JURISDICTION

A. Non-Exclusivity of Remedies

This policy is intended to supplement or be an alternative to other processes that allow persons to complain of sexual harassment. The procedures established by this Order are separate and distinct from other options persons with grievances relating to sexual harassment may have, through the Office of Human Rights, the Equal Employment Opportunity Commission, any grievance procedure available under their collective bargaining agreement, ethics complaint and investigation processes administered by the Board of Ethics and Government Accountability, or any other statutory or regulatory complaint process. Filing a complaint under this Order does not stay or delay any filing deadlines in any other forum.

B. Filing a Formal Complaint with the Office of Human Rights

In addition to pursuing action within the agency, an alleged victim of sexual harassment, or a person acting on the victim's behalf with or without the victim's consent, may report a sexual harassment claim within one year of the alleged harassment or its discovery to OHR using its Intake Questionnaire Form. EEO counseling is not required prior to the filing of a complaint with OHR.

C. Filing a Complaint with the Equal Employment Opportunity Commission

Some complaints may fall within the jurisdiction of the federal Equal Employment Opportunity Commission.

D. Relationship and Remedies under Negotiated Grievance Claims

Filing a report or complaint under this policy does not satisfy the requirements for filing a negotiated grievance and obtaining remedies under a collective bargaining agreement, nor does the complaint under this Order delay the

time limits for initiating such a procedure. To pursue a negotiated grievance claim, the employee should file a grievance in accordance with the provisions of the applicable collective bargaining agreement.

E. Criminal Remedies and Referrals

1. Where there is an allegation of criminal misconduct, including for example, sexual assault, kidnapping, stalking, or a threat to do bodily harm, the agency may, after consulting its General Counsel, place the victim and/or the alleged harasser on administrative leave with pay pending final administrative resolution of the complaint or any criminal proceeding.

2. The complainant at his or her choice may report the alleged criminal violation to a law enforcement agency, including the Metropolitan Police Department ("MPD"). Where a criminal violation occurred, the agency shall recommend discipline of the perpetrator up to, and including, termination.

3. While it is generally the alleged victim's decision to report sexual harassment offenses for possible criminal prosecution, if during an investigation the agency uncovers evidence of ongoing crimes (such as sexual extortion of beneficiaries of government services) or criminal activity collateral to or extending beyond the reported allegations of sexual harassment, such as gun-related offenses, the agency shall notify law enforcement.

F. Crime Victim Hotline

The agency shall also remind complainants of sexual assault or other possible crimes of the existence of the DC Victim Hotline. The hotline, 1-844-443-5732, is available 24/7 by telephone, text, or online chat to seamlessly connect victims of crime to free resources to help them navigate the physical, financial, legal, and emotional repercussions of crime. Through the hotline, victims may be matched with an advocate who can help them decide whether to pursue a matter through the criminal justice process.

G. Courts of Law

This Mayor's Order is directed towards preventing and remedying sexual harassment in District Government operations and it does not preclude complainants from obtaining counsel and pursuing any remedies they may have in courts of law. The options discussed in this Order do not constitute legal advice; deadlines for filing, procedures, and substantive offenses or remedies may change over time.

XII. APPLICABILITY OF PERSONNEL RULES

Any proposed personnel action instituted under this Order is subject to the regulations set forth in the District of Columbia Personnel Manual at Title 6B of the District of Columbia Municipal Regulations.

XIII. SEXUAL HARASSMENT TASK FORCE

A. There is hereby established the Sexual Harassment Task Force as an internal task force comprised of representatives of the Office of Human Rights, the Mayor's Office of General Counsel, the Department of Human Resources, the Assistant City Administrator, and the Mayor's Office of Legal Counsel, as designated by the head of each office, and such other individuals as these members may invite to serve as additional members of the task force. The task force shall meet from time to time to develop and advise on trainings, make recommendations about needed policies, review draft regulations, and otherwise take action or recommend measures to fulfill the intent of this Order: including to reduce the incidence of sexual harassment, train employees on what to do when faced with inappropriate workplace conduct, including harassment, and provide additional, effective procedures for addressing inappropriate conduct of a sexual nature. The task force may invite experts and other individuals to participate in the meetings and deliberations of the task force.

B. The Sexual Harassment Task Force shall, no later than May 1, 2024, make recommendations in the following areas and shall provide such recommendations to the appropriate agencies with authority to carry out the

recommendations or make final decisions regarding them. The recommendations need not be in the form of a report and may remain deliberative discussion items until finalized and accepted:

1. Communications to District Government employees about the District's sexual harassment policies;

2. Updates to required trainings for SHOs and agency General Counsels;

3. Recommendations for building a workplace free from sexual harassment;

4. Any recommended adjustments to prohibitions and disclosures regarding dating, romantic, and sexual relationships; and

5. The performance and progress by the agencies named in this Order in completing the responsibilities assigned to them.

XIV. SUPERSESSION

This Order supersedes Mayor's Order 2017-313 and any other provision of a previous Mayor's Order or practice pursuant to that Mayor's Order, to the extent of any inconsistency.

XV. EFFECTIVE DATE: This Order shall become effective November 10, 2023.

GRANT AGREEMENT

BY AND BETWEEN
THE DISTRICT OF COLUMBIA
AND

GREATER WASHINGTON URBAN LEAGUE, INC.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 24, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and Greater Washington Urban League, Inc., a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) J81NAZPM6R39] (hereinafter referred to as "Grantee") with its principal place of business at 2901 14th St NW Washington DC 20009. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year ("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. As a condition precedent to disbursement of the Grant proceeds to Grantee for the sole and exclusive purposes described in Exhibit A (which includes the "Statement of Work" and the approved "Workplan", both attached hereto and made a part hereof), the Department requires that Grantee enter into this Agreement setting forth the terms and conditions of the Grant.

NOW THEREFORE, in consideration of the mutual promises of the parties hereto and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[14] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[14] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[15]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

[15] In responding to the RFA published June 21, 2024, applicants were given the opportunity to receive additional points in scoring for committing to exceed the CDBG minimum threshold to either a 75% minimum or a 90% minimum.

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[16] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

2. During the hours of operations, Grantee shall have live answered telephones for incoming calls. If the Grantee's phone system utilizes an auto-attendant function or voicemail, announced option to the caller must include an option to press a certain key (such as "0" for an Operator) to be connected to a staff person in real time who can answer and field questions, redirect a caller to a staff person who can address a caller's inquiries, or provide registration information. DHCD and other DC agencies such as the Office of the Attorney General may check Grantee's compliance with this requirement from time-to-time.

[16] DC Holidays include New Year's Day, Dr. Martin Luther King, Jr. Holiday, Washington's Birthday, DC Emancipation Day, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Indigenous Peoples' Day, Veterans' Day, Thanksgiving Day, Christmas Day.

E. Grantee may offer clients virtual appointments as well as virtual group informational or educational activities, but Grantee shall also provide clients an option for in-person services (including both in-person one on one appointments as well as some in-person group informational or educational activities.) The Grantee shall not refuse in-person services to DC residents.

F. Housing Resource Center (HRC) and Late Night Hours: As required by the RFA, "Applicants selected for the award shall participate (in a regular rotation) in staffing onsite at the Department's Housing Resource Center (HRC). The HRC provides services to DC residents by appointment and walk-ins." The HRC is located in the Grantor's offices at 1909 Martin Luther King Jr Av SE. The HRC coordinator, in conjunction with the Associate Director for Community Services, will develop a schedule in consultation with Grant subrecipients for staffing the HRC on a rotating basis on weekdays.

RFA applicants were awarded additional points in their score by committing to "Extended Office Hours." The options included providing office hours until 7:00 pm at least one (1) day a week in their office location and/or until 7:00 pm at least two (2) days a month in the HRC.

In accordance with the Grantee's selection in their Application for grant award and funding, the Grantee has committed to serve Extended Office Hours No Commitment to Extended Office Hours in either location.

4. The Grantee shall not supplant funds or seek reimbursement for expenses that may be reimbursed by another grant (Federal, District, or private) either prior to or subsequent to reimbursement by the Grantor.

5. The Grantee must have the capacity for bookkeeping and accounting services required to track Grant expenses and create payment requests in keeping with Federal and District requirements, either on staff or by a third-party contractor.

2. A1: HUD Housing Counseling
This activity is open to applicant organizations which are HUD approved employing one or more HUD certified counselor(s). Such counseling is often (but not exclusively) in the pursuit of homeownership or credit repair and improvement or to improve their housing condition.

Grantees of this service should be familiar with 24 CFR 5.100 and with 24 CFR 214.

Housing counseling is independent expert advice provided by a HUD certified housing counselor (24 CFR Part 214) customized to the needs of the client. It is aimed at addressing housing barriers and providing support to the client to achieve their housing goals. This counseling service must include: (1) intake (2) financial and housing affordability analysis (3) an action plan[2] and (4) follow-up counseling to implement the action plan and achieve its stated goals *(24 CFR 5.100).*

The action plan should identify the steps needed for the client to achieve his/her housing goals. These actionable steps include, but are not limited to, review of the client's credit report with explanations of its meaning and items that impact (or may improve) the credit score, creation of a budget and methodologies to track one's income and spending, debt reduction planning, and savings planning. Follow-up should track the client's progress toward the goals of the action plan. Other programs and services including group educational opportunities may complement the one-on-one counseling with a certified counselor. Counselors, therefore, may appropriately make referrals to programs and services as well as to group educational activities that support and implement the goals of the action plan.

Counseling organizations are required to maintain case files including items 1-4 above as stated in 24 CFR 5.100. It is critical that files with records and case notes be kept in such a way that if a client's counselor is no longer available, either temporarily or permanently, another certified counselor in the organization can understand based on the file the client's circumstances, action plan, progress and where the client is in achieving his/her housing goals.

Organizations providing this service should have working experience with credit counseling and repair, with consumer credit bureaus and consumer credit laws. Ideally, they should be familiar with creditor tactics, liens, judgments, repossessions, and other obstacles to credit improvement.

It is critical for the counseling organization to make efforts to keep the client engaged in the counseling process and such attempts and outreach should be documented in the case file.

In accordance with HUD requirements, counseling organizations may close files if a client does not respond to outreach efforts over 60 days. The last outreach attempt should document that the file will be closed as of a specific date if nothing further is heard from the client. If the client should return to client after the 60 days, a new file should be opened.

[2] Except for reverse mortgage counseling.

Post-purchase follow-up

a) Grantees must continue their counseling relationship with customers once they become homeowners. This follow-up should continue for a period of time after purchase to ensure the homeowner's housing stability.
b) Grantees may make use of post-purchase programs using either their own programming or making referrals to other Grantees who provide such programming (*e.g.* B1 General Home Management and B2 Foreclosure Counseling).
c) If problems arise, it will be the grantee's responsibility to address them quickly as time is of the essence, and to address them as efficiently as possible. Where the District's investment is involved, counseling should include ways to protect the DC investment.
d) When working with clients who have an HPAP deferment period ending, Grantees must provide dedicated counseling services to those borrowers. In particular, grantees will be asked to make an updated assessment of each borrower's financial status regarding the appropriateness of continued deferment.
e) Potential delinquency, or foreclosure prevention, counseling will be provided to any borrower who is experiencing difficulty.
f) If problems continue with these loan clients, this counseling will become a home preservation activity.

A2 8-Hour Homebuyer Education Class (HBE)

This activity is open to applicant organizations which are HUD approved counseling organizations employing one or more Hud certified counselors.

The Department seeks HUD Approved organizations to provide the 8-Hour Homebuyer Class. This is in support of the Department's many programs for which the 8-Hour Homebuyer Class is a requirement, and also for other DC residents who seek to take this class in preparation for homeownership and for their knowledge.

Organizations should take as a serious obligation to conduct this class with knowledge staff (HUD certified counselors). The class is conducted in a traditional in-person setting or in a virtual online setting.

Those who successfully attend and complete the class should be provided with a DHCD certification (in the format approved by the Department) indicating their completion of the class and dated appropriately. Monthly attendance and award of certificates should be reported to the Department monthly. The class should be presented frequently enough to meet programmatic needs of DHCD programs. Class dates should be provided to the Department for inclusion on the DHCD calendar. Presentations should be given by staff, not outside speakers. Grantees are welcome to collaborate in the conduct of these classes.

A3: Intake for DC Homebuyer Programs (HPAP/EAHP/NEAHP)

The Home Purchase Assistance Program (HPAP) is the primary DHCD program for first-time homebuyers. HPAP provides interest-free loans that include closing cost assistance to eligible applicants. Under this program, homebuyers may have the opportunity to purchase houses,

condominiums, or cooperative units in the District. DHCD has additional homeownership programs which are associated with HPAP, and which are targeted to specific populations or geographic areas or may meet specific home buyer needs.

The satellite programs are:

(1) The Employee Assisted Housing Program (EAHP) provides assistance to District of Columbia Government employees, who are first-time homebuyers in the District; and

(2) The Negotiated Employee Assistance Home Purchase Program (NEAHP) provides down payment and closing cost assistance to certain District of Columbia Government employees whose position is covered by specific union collective bargaining agreements.

Wherever the acronym "HPAP" is used, the same applies to the EAHP and NEAHP programs.

Prior to HPAP Application

Clients interested in HPAP assistance who have a pre-approval from a lender, should be assisted with making an application to the HPAP as expeditiously as possible. Those without a pre-approval letter from a lender are required to engage in HUD Housing Counseling (see A1 above) in order that they have the benefit of credit counseling and homeownership preparation. The action plan should include the actionable steps needed to ensure success as a homeowner and to achieve a pre-approval letter from a lender. Once a pre-approval letter has been obtained, the client with the Grantee's assistance should proceed to making their application to HPAP.

Application Process

For grantee organizations, this relationship management function includes working with first-time homebuyers throughout the homeownership application, preparation, purchase, and post-purchase process. Counseling will be focused on low- and moderate-income populations.

Once HUD credit counseling is completed the HPAP process includes:

(Optional) Applicant organizations may conduct pre-purchase seminars which include information and requirements of the HPAP programs. A DHCD Certification should be provided to attendees and recorded with DHCD.

Application Intake includes document collection of those documents needed. These should be collected in person or by means of a secure portal. Email is not considered a secure means for transmission of information which could be used for identity theft or other criminal activity. Drop-off at a staff office to an employee is acceptable.

Once the application package is complete, the organization submits to the appropriate HPAP administrator.

Homebuyer Education (8-hour class) (A DHCD Certification should be provided to 8-hour Homebuyer Education attendees and recorded with DHCD.)

Post-Purchase follow-up (Records of those follow-ups should be maintained by the organization. See Post-purchase in Service A1)

Organizations will be responsible for: (1) the application process, which includes delivery of completed applications to the HPAP Administrators; (2) completion of the application form itself and collection of all required supporting documentation, and (3) maintaining performance and reporting data, and databases as needed by the Department.

A4: Inclusionary Zoning Orientations

Introduction to IZ/ADU Programs:

The District's Inclusionary Zoning (IZ) Program requires a certain percentage of units in a new residential development, or a substantial rehabilitation that expands an existing building, be set aside as affordable units. The goals of this program are to increase the supply of affordable housing for low- and moderate-income households, to support the creation of mixed-income communities, to prevent rising home prices from driving out low- and moderate-income residents, and to leverage the expertise and capacity of the private market to develop affordable housing.

Affordable Dwelling Units (ADUs) are defined as for-sale and for-rent homes that are locally restricted for occupancy by households whose income falls within a certain range and are generally offered at a below-market rate. ADUs are generally produced in exchange for zoning relief, tax incentives, public financing, and/or the right to purchase or lease District-owned land. Specific ADU provisions, such as the affordability period, income limits, and resale restrictions, are set out in deeds, covenants, land disposition agreements, ADU administration plans and other originating documents.

ADU provisions have historically varied from project to project, as each is a result of a unique negotiation or project approval. However, ADU restrictions are becoming more standardized and more similar to standard IZ requirements.

Organization roles and responsibilities:
Provide mandatory IZ Orientation. The department's PowerPoint presentation must be utilized. Presentation and answers to participants' questions must conform to agency guidelines.

DHCD seeks organizations which will provide programmatic rental and homeownership counseling services in support of both of the above programs. Information about these

programs is available through DC Housing Search https://www.dchousingsearch.org . counselors will be required to utilize DC Housing Search, and train potential customers in how to search for affordable housing through DC Housing Search.

Grantees will be required to become familiar with the program requirements and procedures, as required by DHCD. In the last few fiscal years, the IZ program has produced approximately 400 new affordable units each year.

Orientation:
In particular, organizations are required to conduct IZ Orientations to help residents to be familiar with all programmatic requirements for the IZ program.

Organizations must conduct and coordinate this mandatory orientation session in a traditional and virtual classroom settings. They must provide interested applicants/residents with the relevant terms of the program, including next steps and other information as required by DHCD.
DHCD currently provides standard slides and certificate templates to use for this orientation and will provide training to grantees.

Completion of this orientation class is mandatory before an individual may register for the IZ program and individuals must renew registration every two (2) years to remain on the IZ registration list.

The class must be conducted at least monthly beginning within 30 days after the grantee's application is approved. Coordination of this class will include publishing upcoming class dates, accepting reservations via phone, email, or other method, allowing walk-ins if space is available, providing attendees with a certificate of completion (in a format approved by DHCD) upon completion of the class and providing at least monthly attendee data to DHCD. It will also include ensuring that attendees receive all required training materials, and shall be presented by grantee staff, not outside speakers.

Grantees must train program participants in the terms and specifics of the IZ and ADU Programs (training guidance will be provided by DHCD) and provide additional pre and post homebuyer education training.

Grantees must also provide data to DHCD on a regular basis as determined and requested by DHCD, including but not limited to the names and contact details for individuals who have received a DHCD certificate and the number of attendees at IZ orientations.

A5: Income Certifications for the IZ/ADU Units Programs

The agency seeks two organizations to provide income certifications for participants in the Inclusionary Zoning and Affordable Dwelling Units programs. Income certifications are expected to be conducted under a uniform process prescribed by DHCD and following HUD Part 5. DHCD has established requirements for approving Certifying Entities, including

specific IZ and ADU training.

Grantees are expected to become Certifying Entities pursuant to DHCD requirements. Grantee organizations will be required to ensure that program participants understand that income and occupancy restrictions apply to their IZ units and ADUs. Grantees will also be expected to complete income certifications for newly selected households and for renewing tenants. Grantees will be working closely with individuals, property management/leasing staff, sales agents and DHCD. DHCD will provide the necessary forms and procedures, but Grantees will collect the necessary paperwork from individuals and complete the income and household size verification process. Upon successful certifications, Grantees will notify DHCD and the sales/leasing staff.

Such restrictions may include but would not be limited to: (1) the specific affordability period, (2) conditions for, or prohibitions against, subleasing, and (3) resale restrictions. Ongoing outreach and assistance to occupants of IZ units and ADU is required in the areas of programmatic requirements and homeownership counseling.

A6: Income Certification for PADD Applicants

The Property Acquisition and Disposition Division (PADD) encourages vacant and/or abandoned property owners to rehabilitate and/or occupy their properties. PADD acquires vacant, abandoned, and deteriorated properties through negotiated friendly sale, eminent domain, donation, or tax sale foreclosure, when owners are unwilling or unable to maintain their properties. PADD also disposes of properties in inventory by selling them to individuals or developers to be rehabilitated into high-quality affordable and market-rate single-family and/ or multi-family for-sale or rental housing in District neighborhoods.

For DHCD, the activities of this Division create affordable homeownership and rental opportunities for low- and moderate-income households. Grantees must counsel these households as they qualify for and occupy these new homeownership and rental units. DHCD seeks one or more organizations which will provide counseling or training services for affordable units made available through PADD.

Because PADD units are not produced through a traditional homebuyer program, an intensive marketing and outreach effort to our target population will be required of grantees. Counseling services will also involve conducting income certifications and re-certifications for purposes of admission and continuing participation in this program. Income certifications are expected to be conducted under a uniform process prescribed by the Department. For PADD, grantees must ensure that program participants understand that income, or occupancy, restrictions apply to their unit. Such restrictions may include but would not be limited to: (1) the specific affordability period; (2) conditions for, or prohibitions against, subleasing; (3) potential rent increases; and (4) resale restrictions. The specific unit covenant

terms will be communicated to stakeholders by the Department, but grantees must facilitate communication with stakeholders.

A7: Public Services: General Coaching and Information

Public Services may be undertaken by Applicants which have not yet obtained HUD Approval and may not employ a HUD certified housing counselors. (HUD Approved organizations who are applying for A1 or A2 do not need to apply for this service, since they are able to provide these Public Service activities in connection with their other lines of services.

These activities are frequent but not exclusively in a group setting. These may be virtual or in-person, as long as an in-person option is provided. Grantees may utilize Homebuyer Clubs as an effective tool for keeping clients engaged in homebuyer preparation when a long-term period is needed for better positioning to be a first-time buyer.

They may include group trainings on understanding credit and credit reports and involve savings programs.

Public service staff are required to train clients to utilize available tools, such as DC Housing Search https://www.dchousingsearch.org to locate affordable housing for sale and for rent.

CATEGORY B: COUNSELING AND TRAINING FOR HOME PRESERVATION

B8: General Home Management (Post-Purchase Non-Delinquent)

Post-purchase counseling is essential for Homeowners who have purchased their homes, are not delinquent in their mortgage payments and would like to remain successful by creating a realistic financial plan to avoid financial pitfalls and protect and retain their homeownership. Post-purchase counseling is essential to understand local post-purchase behavior, especially low-moderate income homeowners, that can be supported by education and supportive programs to ensure recent homeowners understand what to do in the event of hardships. Organizations that provide post-purchase counseling sessions and education workshops will ensure their topics consist of the following:

1. Prepare a maintenance plan for major household systems and repair strategies.
2. Emergency preparedness plan to assist client in case of disaster.
3. Understand consequences of not paying taxes, HOA payments or community assessments.
4. Explain the benefits of establishing an emergency fund and retirement or tax-incentivized accounts.
5. Provide knowledge of home improvement financing options like HELOCs and give counsel on how to apply for additional financing to renovate property.

6. Access the client's understanding of the process of refinancing the home and incurring more debt.

This counseling activity may include, but not be limited to, appliance warranty disputes, contractor disputes, disputes with mortgagors, will and estate issues, including transfer-on-death deeds, etc. In this service, grantees must serve as advisor-educators and are prohibited from giving legal advice. Grantee activities should focus on low–and moderate-income populations.

B9: Foreclosure Counseling

Homeowners who are delinquent in loan payments (as well as those in danger of delinquency) need to know what options are available to them. Similarly, those in foreclosure need to know their options and resources that may assist them, especially if available legal services are available.

Organizations are required to provide foreclosure prevention counseling that helps homeowners at risk understand the foreclosure process in Washington, DC, determine their legal rights and identify options to avoid foreclosure.
Organizations will assist struggling homeowners with loss mitigation, communicate with mortgage servicers and provide services such as the following:

1. Provide advice and coaching to assist clients with creating a budget based on financial goals. Assess the current financial situation and develop short and long-term strategies to reduce expenses and debt to achieve client goals.
2. Explain loss mitigation. Explain the requirements of a loss mitigation package and evaluate the client's loss mitigation options for FHA and non-FHA loans.
3. Provide examples of mortgage default scams and ways to avoid being a victim.
4. Explain the consequences and costs associated with a foreclosure, short sale, or deed-in-lieu.
5. Explain the foreclosure timeline and devise a plan if the client is unable to stay in the home and assist the client in mortgage default recovery. Demonstrate the impact of a mortgage default.
6. Work with displaced residents seeking referrals for housing.

Grantees work with homeowners who are delinquent in their mortgage payments, or who are in foreclosure, or in post-foreclosure. These counseling services are also offered to owners of multi-family properties, and ownership associations. This counseling serves as a central element of DHCD's overall foreclosure prevention strategy.

It is critical to address the District's foreclosure crisis. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Grantees also work with the Department of Insurance Securities and Banking (DISB) to protect clients against scam operations that prey upon residents who are subject to foreclosure. Grantee organizations extract data for outreach and targeting efforts from the Office of the Recorder of Deeds, which provides a listing of all official foreclosures in the

District on a weekly basis. DHCD seeks one or more organizations that will provide foreclosure counseling services which include, but may not be limited to, all of the above-described foreclosure prevention activities.

For grantees, this counseling function means working with troubled homeowners, utilizing all foreclosure prevention or mitigation tools available, and if necessary, working with customers throughout their foreclosure or post-foreclosure process. Grantees must provide full assistance and advice to troubled homeowners. Grantees will be responsible for: (1) assessing the homeowner's circumstances, (2) educating the homeowner about the full implications of mortgage delinquency and foreclosure (3) exploring and providing options of action for the homeowner (4) providing tools or alternative support that may further assist the homeowner (5) developing and executing a best action plan for either saving the home or undertaking the best course for the homeowner, and (6) tracking the results of their counseling efforts. In addition, grantees will provide ongoing performance and reporting data and databases maintained.

Post-Foreclosure Counseling: It is critical that grantees continue their counseling relationship with customers, even if the home cannot be saved. Grantees must follow up with troubled homeowners for a period of time after any action plan has been executed. If the home has not been saved, counseling should be made available, and if necessary, referral to other needed services. If the home has been saved, counseling follow-up is also necessary to ensure that the ongoing action plan is being properly implemented. If more problems arise, it will be the grantee's responsibility to address them as quickly and as efficiently as possible.

With the passage of the Saving DC Homes from Foreclosure Emergency Amendment Act of 2010, troubled or delinquent District homeowners have the right to engage in mediation prior to foreclosure. As a result, DHCD requires grantees to provide counseling related to this mediation process.

Grantees must be familiar with the Law, its regulations, and the mediation process which has been implemented by the Mediation Administrator at the DC Department of Insurance, Securities, and Banking. Grantees must educate troubled homeowners in the decision factors related to mediation election, and, if necessary, prepare them for mediation. In some cases, counselors may be asked to accompany, or represent, troubled homeowners in the mediation process. Grantees must ensure that all customers who elect mediation complete and submit proper documentation in a timely manner. Grantees must ensure that the best interests of troubled borrowers are protected throughout the mediation process. Finally, DHCD expects grantees to follow-up after the mediation process is complete to ensure that any final mediation agreement is properly implemented.

B10: Eviction Counseling

Applicants who have HUD certified counselors or NeighborWorks America foreclosure certified counselors may offer this service. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Training should also include knowledge of laws and legal procedures governing eviction.

Eviction has long created housing instability for renters, and especially among low- and moderate-income households. For those at the lower end of the economic scale, eviction has caused not only housing instability but also employment insecurity and homelessness. Studies have shown that lack of access to legal representation has resulted in markedly different and detrimental outcomes as compared to renters who have legal representation. After legal representation, the next most effective range of services includes alternative dispute resolution (or mediation), knowledge and guidance in court navigation, and effective management of legal and tenant-landlord documents. In addition to housing instability, eviction also has credit impact for the tenant.

It is critical to provide those in danger of eviction with counseling to make informed decisions. This includes access whenever possible access to legal services. Also, appropriate training includes information about tenants' rights and obligations, the credit impact of eviction, use of payment plan agreements, understanding of court processes and procedures, and access to alternatives to court procedures. When tenancy is lost, counseling for housing alternatives is needed and a path forward to credit repair.

B11: Single-Family Residential Rehabilitation Program

The Single-Family Residential Rehabilitation Program (SFRRP) administers grants to District homeowners for roof repairs and for modifications to eliminate barriers to accessibility for persons with mobility or other physical impairments. Projects approved for SFRRP require a covenant on the property to protect the District's funding of the project.
DHCD seeks one or more organizations which will provide application intake services to SFRRP applicants throughout the grant process.

> **Mandatory Counselor Intake Training:** Grantees for this line of service are required to attend training with the SFRRP team in September to be introduced to updated aspects of the SFRRP for FY25. It is critical that the grantee have a solid understanding of the updated program and the requirements for applications. Therefore, the September training is mandatory for SFRRP intake counselors.
>
> **Application Period:** Applications for SFRRP will only be taken between October 1, 2024, and December 31, 2024. To be considered applications during this period must be complete. Lack of required documentation or information will not "hold a place" in the program if not provided before the December 31, 2024. The Department at its sole discretion reserves the right to close the program prior to the deadline if funding is depleted or no longer available.

Information Session for Applicants: The Department will provide Grantees with a PowerPoint presentation outlining the program and its requirements. Intake counselors are required to use this presentation with all potential applicants either in a group sessions (such as an Orientation) or in a one-on-one session with the potential applicant.

Grantee's and Counselor's Responsibilities: (1) use the Department PowerPoint presentation to present the program to potential applicants, answering questions from residents interested in the program; (2) complete the application document and collection of **all required** supporting documentation *(incomplete applications will not be accepted)*; (3) post-application and post-grant support; and (4) providing performance and reporting data as required.

45 Day Period: It is critical that no application be uploaded in the SFRRP portal unless it is complete with all required documents and intake form completed. If an incomplete application is uploaded in the portal, the SFRRP staff will notify the counselor and the applicant that the application cannot be accepted. The notification state that what is complete and state the **applicant has 45 days** to provide the requested information including documents. After 45 days if the application remains incomplete, the application will be closed as incomplete for funding.

Application Portal: Counselors will need to provide their name and contact information (e.g. email) when uploading in case SFRRP program staff need to follow up.

Legal Citations Governing Program Area for Category B:

Applicants to provide any service in Category B should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

- Lead Safe Washington 24 CFR, Part 35, 24 CFR, Part 85.37, Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992
- Single Family Rehabilitation 14 DCMR, Chapter 28 First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
- Saving DC Homes from Foreclosure Emergency Amendment Act of 2010 (DC Act 18-635; 57 DCR 12404)

B12: Legal Services for Homeowners and/or Coop & Condo Associations

The Department seeks organizations to provide legal services to provide one or both of the services noted below. Grantees will conduct outreach to low- and moderate-income populations in need of these services.

- Legal Services to Seniors
  Seniors who are homeowners can be assisted by the Applicant to have legal services to assist Seniors to avoid housing instability or the loss of ownership of their home. In addition to their own attorney staff, Applicants may seek *pro bono* services from other members of the Bar.

- Legal Services to Coop-Condo Associations
  Legal services may be provided to Cooperatives and/or Condominiums ("Associations") to ensure housing stability. If Associations have problems in areas of legal entity status, required legal or financial filings, compliance issues, risk management concerns, board and member training, best legal practices, and collection of association fees (to name of few), such issues may threaten the member's housing stability, and the owners' (or members') investment in their properties. Selected applicants will provide legal services to Associations in low- and moderate-income census blocks to mitigate these concerns, to preserve housing stability of owners and to ensure well-functioning Associations and Boards.

B13: Technical Assistance for Coop and Condo Associations

The Department seeks one or more organizations to provide technical assistance to Associations. The situation many Associations may face is a need for training in best practices of Association management. Training in best practices and frequently encountered problem situations may be offered by the grantee not only to the Association Board but also to the owners in the Association. Association boards and their member owners frequently face issues of association fees not being paid, lack of income to fund reserves, special projects that would require a special assessment, and decisions of taking court action or being the defendant in a court action. These are just a few of the legal issues which may arise for the Association, in addition to the more routine matters of by-laws and required legal documents for the operation of the Association.

B14: Technical Assistance for Landlords of Small Rental Properties

Landlords of small rental properties face enormous challenges. They frequently lack the staff and the resources of large multi-family properties to deal with the many details of operations and asset management. Small unit properties cannot readily absorb mistakes or challenges.

In a ten-unit property, one vacancy is a 10% vacancy rate, while one unit in a 100-unit property is 1% vacancy rate. Yet, small unit properties are often the affordable renter properties. To preserve this housing stock as an affordable option, DHCD seeks grantees to provide Technical Support to Owners of Small Unit Properties (of 30 units or less).

Services can be provided through group training as well as through one-on-one counseling. Like many small business owners, owners can often benefit from a better understanding of accounting practices and financial statements (balance sheet, income statement, cash flow report). Knowledge of financing options is another common to many business owners. Topics such as these are particularly suitable to the needs of owners.

1. **Property Management Software:** Landlords often need help selecting and implementing property management software to track rent payments, maintenance requests, tenant information, and other critical operational data.

2. **Legal Compliance:** Guidance on navigating complex local, state, and federal housing laws and regulations related to fair housing, security deposits, evictions, and other landlord-tenant issues.

3. **Financial Management:** Guidance with accounting, tax preparation, and financial planning specific to rental property ownership and operations.

4. **Maintenance and Repairs:** Access to vetted contractors, tradespeople, and service providers to handle property maintenance, repairs, and upgrades in a timely and cost-effective manner.

5. **Tenant Screening and Selection:** Guidance and best practices with tenant screening processes, background checks, and selecting responsible renters to minimize vacancies and evictions.

6. **Marketing and Leasing:** Help with listing vacant units, advertising, showing properties, and executing leases to keep units occupied.

7. **Emergency Response:** Guidance on developing emergency plans and protocols to address unexpected events like natural disasters, property damage, or tenant issues.

8. **Asset Management Issues:** The ratios and metrics of asset management for multi-family properties provide a helpful guide to best practices. For example: Many landlords are unaware of the effect that certain metrics have in their properties. Slow "Make-Ready" times, refers to the length of time it takes to prepare an apartment to be shown to prospective tenants. Similarly, "turn time" refers to the times it takes to find a renter and receive the first month's rent. Slow turn times are also a drain on resources. When there are slow "make ready" and slow "turn times" the combined effect can be detrimental for the property's future. High turn-over rates among renters is another draw on the income. Other issues and topics include: What to do when you have a tenant who is not paying rent? What are the alternatives to eviction? How do the Court work? Are there pre-eviction resources? What legal services are available to the owner?

CATEGORY C: TENANTS AND TENANT GROUPS: SERVICES RELATIVE TO Tenants Opportunity to Purchase Act, Rental Conversion and Sale Division, and Rental Accommodations Division

The DC Tenants Opportunity to Purchase Act (TOPA) seeks to protect tenants and tenant groups from displacement due to sale of the property. The law allows tenants to purchase their apartment building. Tenants have the choice of maintaining the apartments for rent or converting to cooperatives or condominiums. DHCD seeks to preserve affordable housing in the District and limit displacement of low- and moderate-income households. For groups that choose coop or condo conversion, this provides a path to homeownership.

DHCD provides both financial assistance and technical assistance, as well as specialized organizational and development services, for tenant groups who are pursuing the purchase of their apartment buildings. Through DHCD's Development Finance Division, organized tenant associations may be provided with seed money, earnest money deposits, and acquisition and/or rehabilitation assistance. After acquisition and rehabilitation, DHCD also provides ongoing Board training and property management support to the newly formed cooperative or condominium Boards.

C15: TOPA: Pre-purchase Training

DHCD seeks one or more organizations which will provide pre-acquisition organizational and developmental counseling and training to tenant groups or tenant associations in support of their intent to purchase their building. These tenant groups must be preliminarily qualified as eligible for DHCD's Tenant Purchase Technical Assistance program. Grantees must provide the following services to tenant groups:

a) establishment of a tenant association.
b) selection and appropriate training of Board members.
c) training of captains (court, building and floor).
d) training in roles and functions of committee members; (5) training tenant groups in detail about the building purchase process.
e) training tenant associations in property management techniques.
f) provide training to the tenant association on each type of ownership; and conducting surveys of tenant associations to determine the appropriate form of ownership for their building (cooperative or condominium).

It is critical that Grantees in this service maintain an outreach to educate and inform low- and moderate-income tenants about their rights and opportunities provided by TOPA. Grantees are encouraged to make this a central aspects of their marketing plan, and to create

opportunities as well as avail themselves of opportunities to participate in educational outlets to reach tenants. Collaboration with other Grantees in this or similar service lines is encouraged. Grantees should participate in DHCD when and as those opportunities for outreach are available.

While training the tenant association, the grantee must be able to prepare and submit appropriate documentation required in the purchase process, including but not limited to tenant profiles and feasibility analyses, response to Notice of Sale of Building, preliminary development, acquisition, and rehabilitation plans, and operational plans.

The grantees must have skill and experience in negotiating the lease or purchase of the building. In addition, grantees must assist tenant groups in procurement related to the development, purchase, and rehabilitation process, including but not limited to attorneys, architects, engineers, financial and developmental consultants, private developers, appraisers, and property managers.

C16: TOPA: Post-Purchase Training

DHCD seeks one or more organizations which will provide ongoing post-acquisition counseling services which include property management and Board training for properties which have been purchased and/or rehabilitated with financial assistance from the DHCD Development Finance Division's First Right Purchase program. Generally, these are multi-family properties that have been purchased through limited equity cooperative agreements or condominium purchases. Therefore, non-profit Board training and development skill and/or experience, as well as multi-family property management skills are critical to providing effective counseling services. Services to be provided under this activity may include, but are not limited to:

a) establishing standards of evaluation for each participant's financial status and leadership capacity.
b) conducting annual management reviews of all Boards, oversee election and
c) training of new Board members.
d) assisting in the establishment of appropriate arrangements with required service providers such as exterminators, garbage collectors, landscapers, etc.
e) assisting in capital management planning and a stabilization plan for rehabilitation and/or refinancing.
f) tracking property vacancies and reviewing new applications for membership.
g) establishing and reviewing membership guidelines.
h) technical assistance in accounting, budgeting, and the preparation of financial statements for long-term financial viability.
i) providing Board of Directors with training as appropriate; and

j) other required management and support duties. Grantees will assist the condominium or cooperative in developing a budget for the overall management and carrying costs of the property.

Grantees will assist the Board and membership in all aspects of management, such as completion of the audit, Fair Housing issues, required individual, property, and Board insurance, taxes, the role of Board officers, evaluation of monthly financial performance, training on lender compliance, i.e. loan payments, income requirements. DHCD will likely negotiate assignment of specific properties to grantees for this service.

Legal Citations Governing Program Area in Category C:

Applicants to provide any service in Category C should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
Tenant Purchase Technical Assistance Program DC Code 42-3404.02
Rental Housing Conversion and Sale Act of 1980, as amended (DC Code 42-3401.01 et. seq.)
(Also known as the Tenant Opportunity to Purchase Act or "TOPA")

C17: Services for Tenants and Tenant Organizations
(in partnership with Housing Regulation Administration, Rental Accommodation Division, Rental Conversion and Sale Division).

Activities under this service will supplement and enhance the services provided by DHCD's Housing Regulation Administration (HRA), which includes the Rental Accommodations Division (RAD) and the Rental Conversion and Sale Division (CASD).

RAD administers the Rental Housing Act of 1985 (D.C. Official Code § 42-3501.01 et seq.) which regulates residential rental housing registration and the rent stabilization program (commonly known as rent control). RAD oversees rent adjustment procedures, processes notices to vacate, reviews tenant petitions prior to adjudication by the Office of Administrative Hearings and adjudicates most types of landlord petitions. RAD also proposes rules and regulations for administration of the Rental Housing Act for review and publication by the Rental Housing Commission.

CASD administers the Rental Housing Conversion and Sale Act of 1980 (D.C. Official Code § 42- 3401.01 et seq.) which regulates the sale or transfer of ownership interests under the

Tenant Opportunity to Purchase Act of 1980 (TOPA) (D.C. Official Code § 42-3401.01 et seq.), the conversion of use of rental housing to condominium or cooperative ownership and residential condominium formation and registration under the Condominium Act of 1976 (D.C. Official Code § 42-1901.01 et seq.). Further, CASD administers a Housing Assistance Payment program (HAP), under which tenants may be eligible for rent assistance if they are displaced due to the conversion of use of their apartment building to condominium or cooperative ownership.

CASD also proposes rules and regulations for administration of the Rental Housing Conversion and Sale Act of 1980.

DHCD seeks one or more organizations which will support RAD and CASD operations by providing counseling and tenant education services to tenants and tenant groups. Grantees must provide counseling and training assistance to tenants and tenant organizations regarding the District's rental housing laws and tenant and landlord rights and responsibilities.

For CASD, grantee organizations must provide counseling and training concerning: (1) tenants' TOPA rights when a landlord intends to sell, demolish, or discontinue rental housing use; (2) transfers of rental housing ownership or economic interests; (3) assisting tenants or tenant organizations in exercising their right to purchase; (4) informing tenants or tenant organizations relating to partner-investors and assigning TOPA rights; (5) conversion of use from rental housing to condominium or cooperative ownership by tenant elections, or conversion in lieu of tenant elections; (6) the Housing Assistance Payment program and relocation assistance; (7) tenant organization formation, incorporation, and registration; (8) protections for elderly or disabled tenants; (9) coercive or retaliatory activities; (10) tenant rights when rental housing is in foreclosure; (11) notices of intent to convert use from rental housing to condominium or cooperative ownership; and (12) relocation counseling for displaced tenants.

For RAD, service providers must demonstrate the ability to counsel and train tenants and tenant organizations on rent control provisions including properties that are regulated by or exempted/excluded from rent stabilization under the Rental Housing Act:

1) petition- based and annual rent increases.
2) executing and filing tenant petitions.
3) responding to landlord petitions.
4) protections for elderly and disabled tenants.
5) RAD's conciliation services.
6) notices to vacate and eviction procedures.
7) disclosures to tenants.
8) changes and decreases in services and facilities.

9) learning about and securing enforcement of housing condition regulations.
10) security deposits.
11) understanding lease provisions.
12) rent increases if a property is not under rent control.
13) appealing decisions of the Rent Administrator or the Office of Administrative Hearings; and
14) relocation counseling for displaced tenants. Note: Advocacy on behalf of tenant groups, or tenant rights assignees– including, but not limited to, legal advice or advocacy on tenants or tenant organizations' behalf in negotiations with a property owner–is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators, and not as advocacy groups. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns, or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a grantee is to ensure that tenants understand all available options.

Direct Counseling to Tenants and Tenant Groups: tenant counseling services will be designed to educate tenants in privately-owned properties about their legal rights and opportunities. This service is to be provided to tenants and tenant groups which are not subject to foreclosure and have not selected to exercise their Opportunity to Purchase Rights and/or Right of First Refusal under TOPA. It also includes providing other services and tenant education, which may not fall into the categories of services outlined above, such as eviction counseling, relocation counseling, apartment search, or apartment management.

DHCD seeks one or more organizations with the capacity to bring a range of resources to prevent involuntary displacement and to provide opportunities for continued affordable rental housing. Grantees must provide counseling services to tenants and tenant groups which include, but are not limited to: (1) outreach to tenant groups upon notice of one-year potential for subsidy expiration; (2) technical assistance in negotiations between owners and HUD relative to the renewal of federal subsidy contracts; (3) counseling for tenants in buildings where the subsidy will be lost and the tenant(s) must move; (4) counseling for tenants who are behind in their rent on best-action options; and (5) appropriately referring tenants who are in landlord/tenant disputes to all available resources. Grantees must also conduct research using the many databases and research tools available to identify properties that have a critical need for counseling assistance, including but not limited to DCHousingsearch.org. Note: Advocacy on behalf of tenant groups or tenants' rights assignee –including, but not limited to, legal advice or advocacy on tenants or tenant organizations behalf in negotiations

with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators and not as tenant advocates. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a prospective grantee is to ensure that tenants understand all available options.

Additional Legal Citations Governing Programs in Category C.

Applicants to provide any service in this Category and should review in detail the legal citations governing DHCD's rental accommodation functions:
(1) the Rental Housing Act of 1985, D.C. Official Code § 42-3501 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapters 38-44.
(2) the Rental Housing Conversion and Sale Act of 1980, D.C. Official Code § 42-3401 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapter 47.
(3) the Condominium Act of 1976, D.C.

Official Code § 42-1901 et seq.; (4) D.C. Official Code § 42-1901 et seq.; (5) the First Right to Purchase Program, title 14 of the District of Columbia Municipal Regulation, chapter 2700; and (6) Housing Conditions, Title 14 of the District of Columbia Municipal Regulations, Chapters 1 15. Submission of an application relevant to these services presumes that the applicant intends to meet all requirements to provide counseling to tenants and tenant groups pursuant to these above referenced citations.

3.3 Geographic Distribution of Services

The Department's decision to select one or more grantees to provide services will be influenced by the potential geographical distribution of service among the qualified applications received. Applicants can designate their proposed service areas in the District based on their by-laws, Board policies, etc. However, the Department reserves the right to designate any service areas it deems appropriate or necessary in making awards and negotiating grant terms. In reviewing the applicant pool, the Department's priority will be to ensure that excellent affordable housing counseling and training services are provided to all low- and moderate-income citizens of the District of Columbia. The Department will seek to bring parity in the quality of all housing services provided for all areas of the District through the award and ongoing management of these grants.

3.4 Marketing and Outreach

Marketing Plan to be submitted: Marketing and outreach are critical aspects of the grant's work. Grantees' efforts ensure these programs and services' success and desired impact. No Grantee or service is exempt from this requirement. Applicants must submit a detailed marketing and outreach plan for the services they are applying for. The plan should be detailed and not assume an understanding that has not been stated. Marketing should be included in the proposed budget and work plan.

DHCD will review and approve the marketing plan. In accordance with agency policy, marketing activities should highlight partnerships with and funding by DHCD.

Aspects of Marketing and Outreach to be considered:

- Continuous and consistent marketing and outreach are essential to achieving these services' objectives and maximizing public awareness of DHCD housing programs.
- Because of DHCD's diverse target population, grantees must utilize various marketing tools.
- Grantees are responsible for distributing DHCD program materials at community forums, public events, homeownership meetings, and fairs. Marketing and outreach may include but are not limited to, websites, email blasts, blogs, listservs, Twitter, Facebook, YouTube, Hope Hotline, flyers, door-to-door visits, community meetings, use of cable television (Channel 16), and public service announcements.

Coordinated with the Department: The grantee's marketing and outreach must be coordinated with DHCD. Grantees are expected to continually assess the success and impact of their marketing efforts to identify the most effective and efficient ways of reaching low- and moderate-income populations.

Participation in Department Marketing Activities: As required by DHCD, Grantees must participate in public activities and events related to housing opportunities. These may include but are not limited to tabling at events, participating in panel discussions, and providing speakers to groups, agencies, or organizations that request them.

DHCD Acknowledgement: Grantees must always acknowledge such housing assistance activities as Department of Housing and Community Development programs in any distributed print or electronic materials. DHCD must approve all such materials before distribution.

Use of DHCD Logo: All written or printed materials distributed or posted by Grantee that publicize the activities being funded by the D.C. Department of Housing and Community Development shall include information that the service, activity, or program is being supported and funded, partially or entirely, by the Department.

1. The written or printed materials must include the authorized DHCD logo.
2. Written or printed materials include, but are not limited to, newspaper, radio, and television announcements or advertisements. Websites, stationery, publicity materials, and written media communications, including newsletters, flyers, and brochures.
3. Grantees must abide by DHCD style guidelines when using the authorized DHCD logo.

4. The grantor may require that specific templates be used when promoting certain grant-funded programs. In those instances, DHCD will provide the templates and instructions to the Grantee.
5. The grantee must provide copies of all marketing materials, brochures, flyers, and other materials that publicize grant-funded activities to the Grantor via email at dhcd.occo@dc.gov
6. The grantee shall publicize as appropriate to its constituency through social media, print, and online postings, DHCD communications, and events related to Grant-supported activities.

Diversity and Language Access in Marketing: Grantees must demonstrate the capability to effectively serve and communicate with the District's various non-English speaking and special needs populations. This means that marketing and outreach materials must be made available in multiple languages and media based on the needs of those populations. The grantee must demonstrate its intent and capability to comply with the District's Language Access Law. In addition, grantees must demonstrate the availability of appropriate staffing to ensure compliance with the District's Language Access Law.

3.5 Focus Areas and Neighborhood Revitalization Strategy Areas (NRSA)

DHCD has identified specific areas of the District as "Focus Areas." These Areas represent areas where the District has invested in funding to create and preserve affordable housing. Focus Areas follow main routes through the District and their associated neighborhoods. In many cases, business owners are centered on these major routes, while resident services will be seen as more appropriate for those in the communities. Applicants must ensure services are delivered to low- and moderate-income households or areas as part of their program (Housing Services, Small Business Technical Assistance, Façade Improvement). This is a CDBG requirement.

- For Housing Counseling applicants, these Focus Areas should be used to plan outreach activities to inform residents of their services.
- For SBTA and Façade grantees, the Focus Areas define the geographical areas of the District in which they will provide services. In this latter case, the Focus Areas define not only their outreach area but also their service area.

NRSAs Targeting East of the River

The Department obtained the HUD designation for the Neighborhood Revitalization Strategy Area (NRSA) for the Focus Areas in Wards 7 and 8. DHCD has designated areas of Historic Anacostia in the city's Southeast and Far Northeast communities as Neighborhood Revitalization Strategy Areas (NRSAs). This designation will allow the city to target Community Development Block Grant (CDBG) funding that supports economic and community revitalization efforts. These include Martin Luther King Jr Avenue, Marion Barry Avenue, Minnesota Avenue, and Benning Road. However, all areas of Ward 7 and Ward 8 remain the focus of the grantee's work and outreach.

For communities outside of the NRSA areas, DHCD has designated Focus Areas throughout the District. Applicants are encouraged to partner with other community-based organizations. This collaboration can include cross-disciplinary collaboration. For example, a Façade grantee may partner with an SBTA grantee to provide business owners various services encompassing both disciplines. Housing service grantees may partner to promote or provide services one grantee offers, but another may not. The key to collaboration is an outlook of being partners, not competitors.

The following is a list of the Focus Areas and some of their associated neighborhoods. The outreach plans can include other nearby neighborhoods, mindful of the low-income requirements. Each applicant is asked to select one or more Focus Areas for their application. Please note that this is a minimum, and applicants may choose more than three. Applicants will be asked to provide reporting on outreach activities.

The following is a list of the Focus Areas outreach plans, mindful of the low and income requirements.

Focus Areas/Neighborhoods

- **16th St NW Corridor** near the intersection with Havard St NW (Columbia Heights) in Ward 1
- **Georgia Ave and New Hampshire Ave NW Corridor** (Petworth, Park View, Brightwood, Walter Reed, Takoma) in Ward 4

Instructions Show/Hide

As in the past, Performance Reporting is divided into three sections:

- **Workplan Metrics** (numbers only),
- **Accomplishment Narrative** (Text Boxes), and
- **Various uploads** (spreadsheets usually).

This data is extremely important. Reports can affect performance goals and funding. Your reports are used to report to the City Administrator, the Mayor (including DMPED) and to the District Council and its Committee on Housing. Where uploads are required, **use excel files or Word files.** This will allow your information to be uploaded into the database and reported to District leaders.

For **Workplan Metrics**, use only numbers or leave it blank. **Letters such as N/A are to be avoided.** This will make your report impossible to be uploaded in the DHCD database and will require your corrections. Only numbers zero (0) and above can be used. If a metric is left blank, it will be treated as a zero.

In the **Accomplishment Narrative**, text boxes are provided to provide statements of activities or the information requested. In the first Report, please answer Question 22 (Points of Contact) with all points of contact for the areas mentioned. Thereafter in subsequent months, if there are no changes, it is okay to say, "No Changes". The same is true for Question 21 (staffing). Please answer Question 23 (Success Stories), Question 24 (Good News), Question 25 (Other DC agencies and initiatives). Question 26 is important. Remember the RFA asked applicants to align outreach to the Focus Areas mentioned on pages 33 and 34 of the RFA. Mentioning specific Focus Areas in the narrative for Q26 is helpful.

The **Document Upload** section is where excel spreadsheets (usually, sometimes Word Documents) are uploaded. **PDFs cannot be uploaded into database.** [The District of Columbia is fortunate to have many DC Based Programs such as HPAP, IZ/ADU, PADD, SFRRP, TOPA, HRA/RAD related activities, as well as direct services to tenants and tenant groups, and services to Condo/Coop Associations. DHCD staff need monthly reporting in order to better do their work and respond to the needs of DC citizens. These reports are shared directly with the appropriate program manager.]

There three areas of your activities will be reported on a monthly basis to help us meet our HUD and DC Government requirements and the needs of DC residents.

Reporting for Fiscal Year 2026 will begin with Report # 1. The end of Government's fiscal year (9/30/2025) will conclude with Report # 10 and the close-out of FY25 Purchase Orders. The complete schedule is below for the monthly report.

Other Reporting: Beneficiary Data and Language Access

Other reports are also required. These include **Beneficiary Report** and **Language Access Report.** These two reports are required on a quarterly basis. These reports will not be answered within ZoomGrants. The Office of Program Monitoring will provide the spreadsheets to use for these quarterly reports. Please see your Grant Agreement for additional information about the monthly and quarterly reports. Please note, the Beneficiary Report corresponds to the sources and uses of your Grant Agreement. A separate Beneficiary Report is needed for each type of funding awarded: Public Service (PS), Non-Public Service (NPS) and NRSA Wards 7 & 8 PS and NPS.

These quarterly reports will be due:

Oct/Nov/Dec 2/24/2025

Jan/Feb/March 4/10/2025

April/May/June 7/10/2025

July/August/Sept 10/10/2025

Please note we cannot extend these deadlines since they are HUD's deadlines and not in our control. Please submit your report on schedule.

Please remember HUD views reporting and reimbursement requests as inseparable and therefore to be coordinated at the same time. Please avoid not filing on the deadline.

GRANT AGREEMENT

BY AND BETWEEN
THE DISTRICT OF COLUMBIA
AND

GREATER WASHINGTON URBAN LEAGUE, INC.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 24, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and Greater Washington Urban League, Inc., a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) J81NAZPM6R39] (hereinafter referred to as "Grantee") with its principal place of business at 2901 14th St NW Washington DC 20009. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year ("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. As a condition precedent to disbursement of the Grant proceeds to Grantee for the sole and exclusive purposes described in Exhibit A (which includes the "Statement of Work" and the approved "Workplan", both attached hereto and made a part hereof), the Department requires that Grantee enter into this Agreement setting forth the terms and conditions of the Grant.

NOW THEREFORE, in consideration of the mutual promises of the parties hereto and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

The above recitals are hereby incorporated by reference and made a part hereof.

Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[14] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[14] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[15]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

[15] In responding to the RFA published June 21, 2024, applicants were given the opportunity to receive additional points in scoring for committing to exceed the CDBG minimum threshold to either a 75% minimum or a 90% minimum.

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[16] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

2. During the hours of operations, Grantee shall have live answered telephones for incoming calls. If the Grantee's phone system utilizes an auto-attendant function or voicemail, announced option to the caller must include an option to press a certain key (such as "0" for an Operator) to be connected to a staff person in real time who can answer and field questions, redirect a caller to a staff person who can address a caller's inquiries, or provide registration information. DHCD and other DC agencies such as the Office of the Attorney General may check Grantee's compliance with this requirement from time-to-time.

[16] DC Holidays include New Year's Day, Dr. Martin Luther King, Jr. Holiday, Washington's Birthday, DC Emancipation Day, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Indigenous Peoples' Day, Veterans' Day, Thanksgiving Day, Christmas Day.

Grantee may offer clients virtual appointments as well as virtual group informational or educational activities, but Grantee shall also provide clients an option for in-person services (including both in-person one on one appointments as well as some in-person group informational or educational activities.) The Grantee shall not refuse in-person services to DC residents.

F. Housing Resource Center (HRC) and Late Night Hours: As required by the RFA, "Applicants selected for the award shall participate (in a regular rotation) in staffing onsite at the Department's Housing Resource Center (HRC). The HRC provides services to DC residents by appointment and walk-ins." The HRC is located in the Grantor's offices at 1909 Martin Luther King Jr Av SE. The HRC coordinator, in conjunction with the Associate Director for Community Services, will develop a schedule in consultation with Grant subrecipients for staffing the HRC on a rotating basis on weekdays.

RFA applicants were awarded additional points in their score by committing to "Extended Office Hours." The options included providing office hours until 7:00 pm at least one (1) day a week in their office location and/or until 7:00 pm at least two (2) days a month in the HRC.

In accordance with the Grantee's selection in their Application for grant award and funding, the Grantee has committed to serve Extended Office Hours No Commitment to Extended Office Hours in either location.

2. HUD flags subrecipient accounts when reporting is not provided by a deadline. Such a flag shall constitute a default. Multiple flags or failure to meet the conditions for HUD to remove a flag may result in suspension or termination in keeping with Section XII (C) of this Agreement.

The Grantor reserves the right to recover such losses by any legal remedy available.

A. Any amendments to the budget (change in the amounts specified in the individual cost categories set forth in Exhibit B). may be approved by the Grant Administrator, so long as the total amount of the budget is not exceeded.

Section VIII. Conditions Precedent to Grant Closing and Grant Disbursement

The Department will provide a full informational briefing to the awarded grantee(s) about the grant funding source's ongoing administrative and programmatic requirements. Whether grants awarded under this RFA are funded locally or with federal funds, all grants will be managed to the higher standards and requirements whether Federal or District.

Federal regulations have established national objectives requiring all CDBG-funded activities beneficiaries to be at least 51% low- and moderate-income persons or households. The national objective is achieved through "limited clientele benefit"—that is, by verifying the incomes of each beneficiary of the services provided. The applicant must demonstrate that it has the capacity and the intention to verify the household incomes of beneficiaries to meet the national objective of providing benefits to 51% of low- and moderate-income persons.

Client income certification is also an important element of ongoing program activity for many DHCD housing programs. (See Section 3) Applicants should review in detail the federal income requirements for programs, activities, and grantee (sub-recipient) eligibility under the Community Development Block Grant program regulations at 24 CFR 570. 200-210,

- Home Purchase Assistance Program: DC Code 42-2601 and 14 DCMR, Chapter 25

A1: HUD Housing Counseling
This activity is open to applicant organizations which are HUD approved employing one or more HUD certified counselor(s). Such counseling is often (but not exclusively) in the pursuit of homeownership or credit repair and improvement or to improve their housing condition.

Grantees of this service should be familiar with 24 CFR 5.100 and with 24 CFR 214.

Housing counseling is independent expert advice provided by a HUD certified housing counselor (24 CFR Part 214) customized to the needs of the client. It is aimed at addressing housing barriers and providing support to the client to achieve their housing goals. This counseling service must include: (1) intake (2) financial and housing affordability analysis (3) an action plan[2] and (4) follow-up counseling to implement the action plan and achieve its stated goals *(24 CFR 5.100).*

The action plan should identify the steps needed for the client to achieve his/her housing goals. These actionable steps include, but are not limited to, review of the client's credit report with explanations of its meaning and items that impact (or may improve) the credit score, creation of a budget and methodologies to track one's income and spending, debt reduction planning, and savings planning. Follow-up should track the client's progress toward the goals of the action plan. Other programs and services including group educational opportunities may complement the one-on-one counseling with a certified counselor. Counselors, therefore, may appropriately make referrals to programs and services as well as to group educational activities that support and implement the goals of the action plan.

Counseling organizations are required to maintain case files including items 1-4 above as stated in 24 CFR 5.100. It is critical that files with records and case notes be kept in such a way that if a client's counselor is no longer available, either temporarily or permanently, another certified counselor in the organization can understand based on the file the client's circumstances, action plan, progress and where the client is in achieving his/her housing goals.

Organizations providing this service should have working experience with credit counseling and repair, with consumer credit bureaus and consumer credit laws. Ideally, they should be familiar with creditor tactics, liens, judgments, repossessions, and other obstacles to credit improvement.

It is critical for the counseling organization to make efforts to keep the client engaged in the counseling process and such attempts and outreach should be documented in the case file.

In accordance with HUD requirements, counseling organizations may close files if a client does not respond to outreach efforts over 60 days. The last outreach attempt should document that the file will be closed as of a specific date if nothing further is heard from the client. If the client should return to client after the 60 days, a new file should be opened.

[2] Except for reverse mortgage counseling.

Post-purchase follow-up

a) Grantees must continue their counseling relationship with customers once they become homeowners. This follow-up should continue for a period of time after purchase to ensure the homeowner's housing stability.
b) Grantees may make use of post-purchase programs using either their own programming or making referrals to other Grantees who provide such programming (*e.g.* B1 General Home Management and B2 Foreclosure Counseling).
c) If problems arise, it will be the grantee's responsibility to address them quickly as time is of the essence, and to address them as efficiently as possible. Where the District's investment is involved, counseling should include ways to protect the DC investment.
d) When working with clients who have an HPAP deferment period ending, Grantees must provide dedicated counseling services to those borrowers. In particular, grantees will be asked to make an updated assessment of each borrower's financial status regarding the appropriateness of continued deferment.
e) Potential delinquency, or foreclosure prevention, counseling will be provided to any borrower who is experiencing difficulty.
f) If problems continue with these loan clients, this counseling will become a home preservation activity.

A2 8-Hour Homebuyer Education Class (HBE)

This activity is open to applicant organizations which are HUD approved counseling organizations employing one or more Hud certified counselors.

The Department seeks HUD Approved organizations to provide the 8-Hour Homebuyer Class. This is in support of the Department's many programs for which the 8-Hour Homebuyer Class is a requirement, and also for other DC residents who seek to take this class in preparation for homeownership and for their knowledge.

Organizations should take as a serious obligation to conduct this class with knowledge staff (HUD certified counselors). The class is conducted in a traditional in-person setting or in a virtual online setting.

Those who successfully attend and complete the class should be provided with a DHCD certification (in the format approved by the Department) indicating their completion of the class and dated appropriately. Monthly attendance and award of certificates should be reported to the Department monthly. The class should be presented frequently enough to meet programmatic needs of DHCD programs. Class dates should be provided to the Department for inclusion on the DHCD calendar. Presentations should be given by staff, not outside speakers. Grantees are welcome to collaborate in the conduct of these classes.

A3: Intake for DC Homebuyer Programs (HPAP/EAHP/NEAHP)

The Home Purchase Assistance Program (HPAP) is the primary DHCD program for first-time homebuyers. HPAP provides interest-free loans that include closing cost assistance to eligible applicants. Under this program, homebuyers may have the opportunity to purchase houses,

condominiums, or cooperative units in the District. DHCD has additional homeownership programs which are associated with HPAP, and which are targeted to specific populations or geographic areas or may meet specific home buyer needs.

The satellite programs are:

(1) The Employee Assisted Housing Program (EAHP) provides assistance to District of Columbia Government employees, who are first-time homebuyers in the District; and

(2) The Negotiated Employee Assistance Home Purchase Program (NEAHP) provides down payment and closing cost assistance to certain District of Columbia Government employees whose position is covered by specific union collective bargaining agreements.

Wherever the acronym "HPAP" is used, the same applies to the EAHP and NEAHP programs.

Prior to HPAP Application

Clients interested in HPAP assistance who have a pre-approval from a lender, should be assisted with making an application to the HPAP as expeditiously as possible. Those without a pre-approval letter from a lender are required to engage in HUD Housing Counseling (see A1 above) in order that they have the benefit of credit counseling and homeownership preparation. The action plan should include the actionable steps needed to ensure success as a homeowner and to achieve a pre-approval letter from a lender. Once a pre-approval letter has been obtained, the client with the Grantee's assistance should proceed to making their application to HPAP.

Application Process

For grantee organizations, this relationship management function includes working with first-time homebuyers throughout the homeownership application, preparation, purchase, and post-purchase process. Counseling will be focused on low- and moderate-income populations.

Once HUD credit counseling is completed the HPAP process includes:

(Optional) Applicant organizations may conduct pre-purchase seminars which include information and requirements of the HPAP programs. A DHCD Certification should be provided to attendees and recorded with DHCD.

Application Intake includes document collection of those documents needed. These should be collected in person or by means of a secure portal. Email is not considered a secure means for transmission of information which could be used for identity theft or other criminal activity. Drop-off at a staff office to an employee is acceptable.

Once the application package is complete, the organization submits to the appropriate HPAP administrator.

Homebuyer Education (8-hour class) (A DHCD Certification should be provided to 8-hour Homebuyer Education attendees and recorded with DHCD.)

Post-Purchase follow-up (Records of those follow-ups should be maintained by the organization. See Post-purchase in Service A1)

Organizations will be responsible for: (1) the application process, which includes delivery of completed applications to the HPAP Administrators; (2) completion of the application form itself and collection of all required supporting documentation, and (3) maintaining performance and reporting data, and databases as needed by the Department.

A4: Inclusionary Zoning Orientations

Introduction to IZ/ADU Programs:

The District's Inclusionary Zoning (IZ) Program requires a certain percentage of units in a new residential development, or a substantial rehabilitation that expands an existing building, be set aside as affordable units. The goals of this program are to increase the supply of affordable housing for low- and moderate-income households, to support the creation of mixed-income communities, to prevent rising home prices from driving out low- and moderate-income residents, and to leverage the expertise and capacity of the private market to develop affordable housing.

Affordable Dwelling Units (ADUs) are defined as for-sale and for-rent homes that are locally restricted for occupancy by households whose income falls within a certain range and are generally offered at a below-market rate. ADUs are generally produced in exchange for zoning relief, tax incentives, public financing, and/or the right to purchase or lease District-owned land. Specific ADU provisions, such as the affordability period, income limits, and resale restrictions, are set out in deeds, covenants, land disposition agreements, ADU administration plans and other originating documents.

ADU provisions have historically varied from project to project, as each is a result of a unique negotiation or project approval. However, ADU restrictions are becoming more standardized and more similar to standard IZ requirements.

Organization roles and responsibilities:
Provide mandatory IZ Orientation. The department's PowerPoint presentation must be utilized. Presentation and answers to participants' questions must conform to agency guidelines.

DHCD seeks organizations which will provide programmatic rental and homeownership counseling services in support of both of the above programs. Information about these

programs is available through DC Housing Search https://www.dchousingsearch.org . counselors will be required to utilize DC Housing Search, and train potential customers in how to search for affordable housing through DC Housing Search.

Grantees will be required to become familiar with the program requirements and procedures, as required by DHCD. In the last few fiscal years, the IZ program has produced approximately 400 new affordable units each year.

Orientation:
In particular, organizations are required to conduct IZ Orientations to help residents to be familiar with all programmatic requirements for the IZ program.

Organizations must conduct and coordinate this mandatory orientation session in a traditional and virtual classroom settings. They must provide interested applicants/residents with the relevant terms of the program, including next steps and other information as required by DHCD.
DHCD currently provides standard slides and certificate templates to use for this orientation and will provide training to grantees.

Completion of this orientation class is mandatory before an individual may register for the IZ program and individuals must renew registration every two (2) years to remain on the IZ registration list.

The class must be conducted at least monthly beginning within 30 days after the grantee's application is approved. Coordination of this class will include publishing upcoming class dates, accepting reservations via phone, email, or other method, allowing walk-ins if space is available, providing attendees with a certificate of completion (in a format approved by DHCD) upon completion of the class and providing at least monthly attendee data to DHCD. It will also include ensuring that attendees receive all required training materials, and shall be presented by grantee staff, not outside speakers.

Grantees must train program participants in the terms and specifics of the IZ and ADU Programs (training guidance will be provided by DHCD) and provide additional pre and post homebuyer education training.

Grantees must also provide data to DHCD on a regular basis as determined and requested by DHCD, including but not limited to the names and contact details for individuals who have received a DHCD certificate and the number of attendees at IZ orientations.

A5: Income Certifications for the IZ/ADU Units Programs

The agency seeks two organizations to provide income certifications for participants in the Inclusionary Zoning and Affordable Dwelling Units programs. Income certifications are expected to be conducted under a uniform process prescribed by DHCD and following HUD Part 5. DHCD has established requirements for approving Certifying Entities, including

specific IZ and ADU training.

Grantees are expected to become Certifying Entities pursuant to DHCD requirements. Grantee organizations will be required to ensure that program participants understand that income and occupancy restrictions apply to their IZ units and ADUs. Grantees will also be expected to complete income certifications for newly selected households and for renewing tenants. Grantees will be working closely with individuals, property management/leasing staff, sales agents and DHCD. DHCD will provide the necessary forms and procedures, but Grantees will collect the necessary paperwork from individuals and complete the income and household size verification process. Upon successful certifications, Grantees will notify DHCD and the sales/leasing staff.

Such restrictions may include but would not be limited to: (1) the specific affordability period, (2) conditions for, or prohibitions against, subleasing, and (3) resale restrictions. Ongoing outreach and assistance to occupants of IZ units and ADU is required in the areas of programmatic requirements and homeownership counseling.

A6: Income Certification for PADD Applicants

The Property Acquisition and Disposition Division (PADD) encourages vacant and/or abandoned property owners to rehabilitate and/or occupy their properties. PADD acquires vacant, abandoned, and deteriorated properties through negotiated friendly sale, eminent domain, donation, or tax sale foreclosure, when owners are unwilling or unable to maintain their properties. PADD also disposes of properties in inventory by selling them to individuals or developers to be rehabilitated into high-quality affordable and market-rate single-family and/ or multi-family for-sale or rental housing in District neighborhoods.

For DHCD, the activities of this Division create affordable homeownership and rental opportunities for low- and moderate-income households. Grantees must counsel these households as they qualify for and occupy these new homeownership and rental units. DHCD seeks one or more organizations which will provide counseling or training services for affordable units made available through PADD.

Because PADD units are not produced through a traditional homebuyer program, an intensive marketing and outreach effort to our target population will be required of grantees. Counseling services will also involve conducting income certifications and re-certifications for purposes of admission and continuing participation in this program. Income certifications are expected to be conducted under a uniform process prescribed by the Department. For PADD, grantees must ensure that program participants understand that income, or occupancy, restrictions apply to their unit. Such restrictions may include but would not be limited to: (1) the specific affordability period; (2) conditions for, or prohibitions against, subleasing; (3) potential rent increases; and (4) resale restrictions. The specific unit covenant

terms will be communicated to stakeholders by the Department, but grantees must facilitate communication with stakeholders.

A7: Public Services: General Coaching and Information

Public Services may be undertaken by Applicants which have not yet obtained HUD Approval and may not employ a HUD certified housing counselors. (HUD Approved organizations who are applying for A1 or A2 do not need to apply for this service, since they are able to provide these Public Service activities in connection with their other lines of services.

These activities are frequent but not exclusively in a group setting. These may be virtual or in-person, as long as an in-person option is provided. Grantees may utilize Homebuyer Clubs as an effective tool for keeping clients engaged in homebuyer preparation when a long-term period is needed for better positioning to be a first-time buyer.

They may include group trainings on understanding credit and credit reports and involve savings programs.

Public service staff are required to train clients to utilize available tools, such as DC Housing Search https://www.dchousingsearch.org to locate affordable housing for sale and for rent.

CATEGORY B: COUNSELING AND TRAINING FOR HOME PRESERVATION

B8: General Home Management (Post-Purchase Non-Delinquent)

Post-purchase counseling is essential for Homeowners who have purchased their homes, are not delinquent in their mortgage payments and would like to remain successful by creating a realistic financial plan to avoid financial pitfalls and protect and retain their homeownership. Post-purchase counseling is essential to understand local post-purchase behavior, especially low-moderate income homeowners, that can be supported by education and supportive programs to ensure recent homeowners understand what to do in the event of hardships. Organizations that provide post-purchase counseling sessions and education workshops will ensure their topics consist of the following:

1. Prepare a maintenance plan for major household systems and repair strategies.
2. Emergency preparedness plan to assist client in case of disaster.
3. Understand consequences of not paying taxes, HOA payments or community assessments.
4. Explain the benefits of establishing an emergency fund and retirement or tax-incentivized accounts.
5. Provide knowledge of home improvement financing options like HELOCs and give counsel on how to apply for additional financing to renovate property.

6. Access the client's understanding of the process of refinancing the home and incurring more debt.

This counseling activity may include, but not be limited to, appliance warranty disputes, contractor disputes, disputes with mortgagors, will and estate issues, including transfer-on-death deeds, etc. In this service, grantees must serve as advisor-educators and are prohibited from giving legal advice. Grantee activities should focus on low–and moderate-income populations.

B9: Foreclosure Counseling

Homeowners who are delinquent in loan payments (as well as those in danger of delinquency) need to know what options are available to them. Similarly, those in foreclosure need to know their options and resources that may assist them, especially if available legal services are available.

Organizations are required to provide foreclosure prevention counseling that helps homeowners at risk understand the foreclosure process in Washington, DC, determine their legal rights and identify options to avoid foreclosure.
Organizations will assist struggling homeowners with loss mitigation, communicate with mortgage servicers and provide services such as the following:

1. Provide advice and coaching to assist clients with creating a budget based on financial goals. Assess the current financial situation and develop short and long-term strategies to reduce expenses and debt to achieve client goals.
2. Explain loss mitigation. Explain the requirements of a loss mitigation package and evaluate the client's loss mitigation options for FHA and non-FHA loans.
3. Provide examples of mortgage default scams and ways to avoid being a victim.
4. Explain the consequences and costs associated with a foreclosure, short sale, or deed-in-lieu.
5. Explain the foreclosure timeline and devise a plan if the client is unable to stay in the home and assist the client in mortgage default recovery. Demonstrate the impact of a mortgage default.
6. Work with displaced residents seeking referrals for housing.

Grantees work with homeowners who are delinquent in their mortgage payments, or who are in foreclosure, or in post-foreclosure. These counseling services are also offered to owners of multi-family properties, and ownership associations. This counseling serves as a central element of DHCD's overall foreclosure prevention strategy.

It is critical to address the District's foreclosure crisis. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Grantees also work with the Department of Insurance Securities and Banking (DISB) to protect clients against scam operations that prey upon residents who are subject to foreclosure. Grantee organizations extract data for outreach and targeting efforts from the Office of the Recorder of Deeds, which provides a listing of all official foreclosures in the

District on a weekly basis. DHCD seeks one or more organizations that will provide foreclosure counseling services which include, but may not be limited to, all of the above-described foreclosure prevention activities.

For grantees, this counseling function means working with troubled homeowners, utilizing all foreclosure prevention or mitigation tools available, and if necessary, working with customers throughout their foreclosure or post-foreclosure process. Grantees must provide full assistance and advice to troubled homeowners. Grantees will be responsible for: (1) assessing the homeowner's circumstances, (2) educating the homeowner about the full implications of mortgage delinquency and foreclosure (3) exploring and providing options of action for the homeowner (4) providing tools or alternative support that may further assist the homeowner (5) developing and executing a best action plan for either saving the home or undertaking the best course for the homeowner, and (6) tracking the results of their counseling efforts. In addition, grantees will provide ongoing performance and reporting data and databases maintained.

Post-Foreclosure Counseling: It is critical that grantees continue their counseling relationship with customers, even if the home cannot be saved. Grantees must follow up with troubled homeowners for a period of time after any action plan has been executed. If the home has not been saved, counseling should be made available, and if necessary, referral to other needed services. If the home has been saved, counseling follow-up is also necessary to ensure that the ongoing action plan is being properly implemented. If more problems arise, it will be the grantee's responsibility to address them as quickly and as efficiently as possible.

With the passage of the Saving DC Homes from Foreclosure Emergency Amendment Act of 2010, troubled or delinquent District homeowners have the right to engage in mediation prior to foreclosure. As a result, DHCD requires grantees to provide counseling related to this mediation process.

Grantees must be familiar with the Law, its regulations, and the mediation process which has been implemented by the Mediation Administrator at the DC Department of Insurance, Securities, and Banking. Grantees must educate troubled homeowners in the decision factors related to mediation election, and, if necessary, prepare them for mediation. In some cases, counselors may be asked to accompany, or represent, troubled homeowners in the mediation process. Grantees must ensure that all customers who elect mediation complete and submit proper documentation in a timely manner. Grantees must ensure that the best interests of troubled borrowers are protected throughout the mediation process. Finally, DHCD expects grantees to follow-up after the mediation process is complete to ensure that any final mediation agreement is properly implemented.

B10: Eviction Counseling

Applicants who have HUD certified counselors or NeighborWorks America foreclosure certified counselors may offer this service. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Training should also include knowledge of laws and legal procedures governing eviction.

Eviction has long created housing instability for renters, and especially among low- and moderate-income households. For those at the lower end of the economic scale, eviction has caused not only housing instability but also employment insecurity and homelessness. Studies have shown that lack of access to legal representation has resulted in markedly different and detrimental outcomes as compared to renters who have legal representation. After legal representation, the next most effective range of services includes alternative dispute resolution (or mediation), knowledge and guidance in court navigation, and effective management of legal and tenant-landlord documents. In addition to housing instability, eviction also has credit impact for the tenant.

It is critical to provide those in danger of eviction with counseling to make informed decisions. This includes access whenever possible access to legal services. Also, appropriate training includes information about tenants' rights and obligations, the credit impact of eviction, use of payment plan agreements, understanding of court processes and procedures, and access to alternatives to court procedures. When tenancy is lost, counseling for housing alternatives is needed and a path forward to credit repair.

B11: Single-Family Residential Rehabilitation Program

The Single-Family Residential Rehabilitation Program (SFRRP) administers grants to District homeowners for roof repairs and for modifications to eliminate barriers to accessibility for persons with mobility or other physical impairments. Projects approved for SFRRP require a covenant on the property to protect the District's funding of the project.
DHCD seeks one or more organizations which will provide application intake services to SFRRP applicants throughout the grant process.

> **Mandatory Counselor Intake Training:** Grantees for this line of service are required to attend training with the SFRRP team in September to be introduced to updated aspects of the SFRRP for FY25. It is critical that the grantee have a solid understanding of the updated program and the requirements for applications. Therefore, the September training is mandatory for SFRRP intake counselors.
>
> **Application Period:** Applications for SFRRP will only be taken between October 1, 2024, and December 31, 2024. To be considered applications during this period must be complete. Lack of required documentation or information will not "hold a place" in the program if not provided before the December 31, 2024. The Department at its sole discretion reserves the right to close the program prior to the deadline if funding is depleted or no longer available.

Information Session for Applicants: The Department will provide Grantees with a PowerPoint presentation outlining the program and its requirements. Intake counselors are required to use this presentation with all potential applicants either in a group sessions (such as an Orientation) or in a one-on-one session with the potential applicant.

Grantee's and Counselor's Responsibilities: (1) use the Department PowerPoint presentation to present the program to potential applicants, answering questions from residents interested in the program; (2) complete the application document and collection of **all required** supporting documentation *(incomplete applications will not be accepted)*; (3) post-application and post-grant support; and (4) providing performance and reporting data as required.

45 Day Period: It is critical that no application be uploaded in the SFRRP portal unless it is complete with all required documents and intake form completed. If an incomplete application is uploaded in the portal, the SFRRP staff will notify the counselor and the applicant that the application cannot be accepted. The notification state that what is complete and state the **applicant has 45 days** to provide the requested information including documents. After 45 days if the application remains incomplete, the application will be closed as incomplete for funding.

Application Portal: Counselors will need to provide their name and contact information (e.g. email) when uploading in case SFRRP program staff need to follow up.

Legal Citations Governing Program Area for Category B:

Applicants to provide any service in Category B should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

- Lead Safe Washington 24 CFR, Part 35, 24 CFR, Part 85.37, Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992
- Single Family Rehabilitation 14 DCMR, Chapter 28 First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
- Saving DC Homes from Foreclosure Emergency Amendment Act of 2010 (DC Act 18-635; 57 DCR 12404)

B12: Legal Services for Homeowners and/or Coop & Condo Associations

The Department seeks organizations to provide legal services to provide one or both of the services noted below. Grantees will conduct outreach to low- and moderate-income populations in need of these services.

- Legal Services to Seniors
  Seniors who are homeowners can be assisted by the Applicant to have legal services to assist Seniors to avoid housing instability or the loss of ownership of their home. In addition to their own attorney staff, Applicants may seek *pro bono* services from other members of the Bar.

- Legal Services to Coop-Condo Associations
  Legal services may be provided to Cooperatives and/or Condominiums ("Associations") to ensure housing stability. If Associations have problems in areas of legal entity status, required legal or financial filings, compliance issues, risk management concerns, board and member training, best legal practices, and collection of association fees (to name of few), such issues may threaten the member's housing stability, and the owners' (or members') investment in their properties. Selected applicants will provide legal services to Associations in low- and moderate-income census blocks to mitigate these concerns, to preserve housing stability of owners and to ensure well-functioning Associations and Boards.

B13: Technical Assistance for Coop and Condo Associations

The Department seeks one or more organizations to provide technical assistance to Associations. The situation many Associations may face is a need for training in best practices of Association management. Training in best practices and frequently encountered problem situations may be offered by the grantee not only to the Association Board but also to the owners in the Association. Association boards and their member owners frequently face issues of association fees not being paid, lack of income to fund reserves, special projects that would require a special assessment, and decisions of taking court action or being the defendant in a court action. These are just a few of the legal issues which may arise for the Association, in addition to the more routine matters of by-laws and required legal documents for the operation of the Association.

B14: Technical Assistance for Landlords of Small Rental Properties

Landlords of small rental properties face enormous challenges. They frequently lack the staff and the resources of large multi-family properties to deal with the many details of operations and asset management. Small unit properties cannot readily absorb mistakes or challenges.

In a ten-unit property, one vacancy is a 10% vacancy rate, while one unit in a 100-unit property is 1% vacancy rate. Yet, small unit properties are often the affordable renter properties. To preserve this housing stock as an affordable option, DHCD seeks grantees to provide Technical Support to Owners of Small Unit Properties (of 30 units or less).

Services can be provided through group training as well as through one-on-one counseling. Like many small business owners, owners can often benefit from a better understanding of accounting practices and financial statements (balance sheet, income statement, cash flow report). Knowledge of financing options is another common to many business owners. Topics such as these are particularly suitable to the needs of owners.

1. **Property Management Software:** Landlords often need help selecting and implementing property management software to track rent payments, maintenance requests, tenant information, and other critical operational data.

2. **Legal Compliance:** Guidance on navigating complex local, state, and federal housing laws and regulations related to fair housing, security deposits, evictions, and other landlord-tenant issues.

3. **Financial Management:** Guidance with accounting, tax preparation, and financial planning specific to rental property ownership and operations.

4. **Maintenance and Repairs:** Access to vetted contractors, tradespeople, and service providers to handle property maintenance, repairs, and upgrades in a timely and cost-effective manner.

5. **Tenant Screening and Selection:** Guidance and best practices with tenant screening processes, background checks, and selecting responsible renters to minimize vacancies and evictions.

6. **Marketing and Leasing:** Help with listing vacant units, advertising, showing properties, and executing leases to keep units occupied.

7. **Emergency Response:** Guidance on developing emergency plans and protocols to address unexpected events like natural disasters, property damage, or tenant issues.

8. **Asset Management Issues:** The ratios and metrics of asset management for multi-family properties provide a helpful guide to best practices. For example: Many landlords are unaware of the effect that certain metrics have in their properties. Slow "Make-Ready" times, refers to the length of time it takes to prepare an apartment to be shown to prospective tenants. Similarly, "turn time" refers to the times it takes to find a renter and receive the first month's rent. Slow turn times are also a drain on resources. When there are slow "make ready" and slow "turn times" the combined effect can be detrimental for the property's future. High turn-over rates among renters is another draw on the income. Other issues and topics include: What to do when you have a tenant who is not paying rent? What are the alternatives to eviction? How do the Court work? Are there pre-eviction resources? What legal services are available to the owner?

CATEGORY C: TENANTS AND TENANT GROUPS: SERVICES RELATIVE TO Tenants Opportunity to Purchase Act, Rental Conversion and Sale Division, and Rental Accommodations Division

The DC Tenants Opportunity to Purchase Act (TOPA) seeks to protect tenants and tenant groups from displacement due to sale of the property. The law allows tenants to purchase their apartment building. Tenants have the choice of maintaining the apartments for rent or converting to cooperatives or condominiums. DHCD seeks to preserve affordable housing in the District and limit displacement of low- and moderate-income households. For groups that choose coop or condo conversion, this provides a path to homeownership.

DHCD provides both financial assistance and technical assistance, as well as specialized organizational and development services, for tenant groups who are pursuing the purchase of their apartment buildings. Through DHCD's Development Finance Division, organized tenant associations may be provided with seed money, earnest money deposits, and acquisition and/or rehabilitation assistance. After acquisition and rehabilitation, DHCD also provides ongoing Board training and property management support to the newly formed cooperative or condominium Boards.

C15: TOPA: Pre-purchase Training

DHCD seeks one or more organizations which will provide pre-acquisition organizational and developmental counseling and training to tenant groups or tenant associations in support of their intent to purchase their building. These tenant groups must be preliminarily qualified as eligible for DHCD's Tenant Purchase Technical Assistance program. Grantees must provide the following services to tenant groups:

a) establishment of a tenant association.
b) selection and appropriate training of Board members.
c) training of captains (court, building and floor).
d) training in roles and functions of committee members; (5) training tenant groups in detail about the building purchase process.
e) training tenant associations in property management techniques.
f) provide training to the tenant association on each type of ownership; and conducting surveys of tenant associations to determine the appropriate form of ownership for their building (cooperative or condominium).

It is critical that Grantees in this service maintain an outreach to educate and inform low- and moderate-income tenants about their rights and opportunities provided by TOPA. Grantees are encouraged to make this a central aspects of their marketing plan, and to create

opportunities as well as avail themselves of opportunities to participate in educational outlets to reach tenants. Collaboration with other Grantees in this or similar service lines is encouraged. Grantees should participate in DHCD when and as those opportunities for outreach are available.

While training the tenant association, the grantee must be able to prepare and submit appropriate documentation required in the purchase process, including but not limited to tenant profiles and feasibility analyses, response to Notice of Sale of Building, preliminary development, acquisition, and rehabilitation plans, and operational plans.

The grantees must have skill and experience in negotiating the lease or purchase of the building. In addition, grantees must assist tenant groups in procurement related to the development, purchase, and rehabilitation process, including but not limited to attorneys, architects, engineers, financial and developmental consultants, private developers, appraisers, and property managers.

C16: TOPA: Post-Purchase Training

DHCD seeks one or more organizations which will provide ongoing post-acquisition counseling services which include property management and Board training for properties which have been purchased and/or rehabilitated with financial assistance from the DHCD Development Finance Division's First Right Purchase program. Generally, these are multi-family properties that have been purchased through limited equity cooperative agreements or condominium purchases. Therefore, non-profit Board training and development skill and/or experience, as well as multi-family property management skills are critical to providing effective counseling services. Services to be provided under this activity may include, but are not limited to:

a) establishing standards of evaluation for each participant's financial status and leadership capacity.
b) conducting annual management reviews of all Boards, oversee election and
c) training of new Board members.
d) assisting in the establishment of appropriate arrangements with required service providers such as exterminators, garbage collectors, landscapers, etc.
e) assisting in capital management planning and a stabilization plan for rehabilitation and/or refinancing.
f) tracking property vacancies and reviewing new applications for membership.
g) establishing and reviewing membership guidelines.
h) technical assistance in accounting, budgeting, and the preparation of financial statements for long-term financial viability.
i) providing Board of Directors with training as appropriate; and

j) other required management and support duties. Grantees will assist the condominium or cooperative in developing a budget for the overall management and carrying costs of the property.

Grantees will assist the Board and membership in all aspects of management, such as completion of the audit, Fair Housing issues, required individual, property, and Board insurance, taxes, the role of Board officers, evaluation of monthly financial performance, training on lender compliance, i.e. loan payments, income requirements. DHCD will likely negotiate assignment of specific properties to grantees for this service.

Legal Citations Governing Program Area in Category C:

Applicants to provide any service in Category C should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
Tenant Purchase Technical Assistance Program DC Code 42-3404.02
Rental Housing Conversion and Sale Act of 1980, as amended (DC Code 42-3401.01 et. seq.)
(Also known as the Tenant Opportunity to Purchase Act or "TOPA")

C17: Services for Tenants and Tenant Organizations
(in partnership with Housing Regulation Administration, Rental Accommodation Division, Rental Conversion and Sale Division).

Activities under this service will supplement and enhance the services provided by DHCD's Housing Regulation Administration (HRA), which includes the Rental Accommodations Division (RAD) and the Rental Conversion and Sale Division (CASD).

RAD administers the Rental Housing Act of 1985 (D.C. Official Code § 42-3501.01 et seq.) which regulates residential rental housing registration and the rent stabilization program (commonly known as rent control). RAD oversees rent adjustment procedures, processes notices to vacate, reviews tenant petitions prior to adjudication by the Office of Administrative Hearings and adjudicates most types of landlord petitions. RAD also proposes rules and regulations for administration of the Rental Housing Act for review and publication by the Rental Housing Commission.

CASD administers the Rental Housing Conversion and Sale Act of 1980 (D.C. Official Code § 42- 3401.01 et seq.) which regulates the sale or transfer of ownership interests under the

Tenant Opportunity to Purchase Act of 1980 (TOPA) (D.C. Official Code § 42-3401.01 et seq.), the conversion of use of rental housing to condominium or cooperative ownership and residential condominium formation and registration under the Condominium Act of 1976 (D.C. Official Code § 42-1901.01 et seq.). Further, CASD administers a Housing Assistance Payment program (HAP), under which tenants may be eligible for rent assistance if they are displaced due to the conversion of use of their apartment building to condominium or cooperative ownership.

CASD also proposes rules and regulations for administration of the Rental Housing Conversion and Sale Act of 1980.

DHCD seeks one or more organizations which will support RAD and CASD operations by providing counseling and tenant education services to tenants and tenant groups. Grantees must provide counseling and training assistance to tenants and tenant organizations regarding the District's rental housing laws and tenant and landlord rights and responsibilities.

For CASD, grantee organizations must provide counseling and training concerning: (1) tenants' TOPA rights when a landlord intends to sell, demolish, or discontinue rental housing use; (2) transfers of rental housing ownership or economic interests; (3) assisting tenants or tenant organizations in exercising their right to purchase; (4) informing tenants or tenant organizations relating to partner-investors and assigning TOPA rights; (5) conversion of use from rental housing to condominium or cooperative ownership by tenant elections, or conversion in lieu of tenant elections; (6) the Housing Assistance Payment program and relocation assistance; (7) tenant organization formation, incorporation, and registration; (8) protections for elderly or disabled tenants; (9) coercive or retaliatory activities; (10) tenant rights when rental housing is in foreclosure; (11) notices of intent to convert use from rental housing to condominium or cooperative ownership; and (12) relocation counseling for displaced tenants.

For RAD, service providers must demonstrate the ability to counsel and train tenants and tenant organizations on rent control provisions including properties that are regulated by or exempted/excluded from rent stabilization under the Rental Housing Act:

1) petition- based and annual rent increases.
2) executing and filing tenant petitions.
3) responding to landlord petitions.
4) protections for elderly and disabled tenants.
5) RAD's conciliation services.
6) notices to vacate and eviction procedures.
7) disclosures to tenants.
8) changes and decreases in services and facilities.

9) learning about and securing enforcement of housing condition regulations.
10) security deposits.
11) understanding lease provisions.
12) rent increases if a property is not under rent control.
13) appealing decisions of the Rent Administrator or the Office of Administrative Hearings; and
14) relocation counseling for displaced tenants. Note: Advocacy on behalf of tenant groups, or tenant rights assignees– including, but not limited to, legal advice or advocacy on tenants or tenant organizations' behalf in negotiations with a property owner–is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators, and not as advocacy groups. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns, or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a grantee is to ensure that tenants understand all available options.

Direct Counseling to Tenants and Tenant Groups: tenant counseling services will be designed to educate tenants in privately-owned properties about their legal rights and opportunities. This service is to be provided to tenants and tenant groups which are not subject to foreclosure and have not selected to exercise their Opportunity to Purchase Rights and/or Right of First Refusal under TOPA. It also includes providing other services and tenant education, which may not fall into the categories of services outlined above, such as eviction counseling, relocation counseling, apartment search, or apartment management.

DHCD seeks one or more organizations with the capacity to bring a range of resources to prevent involuntary displacement and to provide opportunities for continued affordable rental housing. Grantees must provide counseling services to tenants and tenant groups which include, but are not limited to: (1) outreach to tenant groups upon notice of one-year potential for subsidy expiration; (2) technical assistance in negotiations between owners and HUD relative to the renewal of federal subsidy contracts; (3) counseling for tenants in buildings where the subsidy will be lost and the tenant(s) must move; (4) counseling for tenants who are behind in their rent on best-action options; and (5) appropriately referring tenants who are in landlord/tenant disputes to all available resources. Grantees must also conduct research using the many databases and research tools available to identify properties that have a critical need for counseling assistance, including but not limited to DCHousingsearch.org. Note: Advocacy on behalf of tenant groups or tenants' rights assignee –including, but not limited to, legal advice or advocacy on tenants or tenant organizations behalf in negotiations

with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators and not as tenant advocates. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a prospective grantee is to ensure that tenants understand all available options.

Additional Legal Citations Governing Programs in Category C.

Applicants to provide any service in this Category and should review in detail the legal citations governing DHCD's rental accommodation functions:
(1) the Rental Housing Act of 1985, D.C. Official Code § 42-3501 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapters 38-44.
(2) the Rental Housing Conversion and Sale Act of 1980, D.C. Official Code § 42-3401 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapter 47.
(3) the Condominium Act of 1976, D.C.

Submission of an application relevant to these services presumes that the applicant intends to meet all requirements to provide counseling to tenants and tenant groups pursuant to these above referenced citations.

3.3 Geographic Distribution of Services

The Department's decision to select one or more grantees to provide services will be influenced by the potential geographical distribution of service among the qualified applications received. Applicants can designate their proposed service areas in the District based on their by-laws, Board policies, etc. However, the Department reserves the right to designate any service areas it deems appropriate or necessary in making awards and negotiating grant terms. In reviewing the applicant pool, the Department's priority will be to ensure that excellent affordable housing counseling and training services are provided to all low- and moderate-income citizens of the District of Columbia. The Department will seek to bring parity in the quality of all housing services provided for all areas of the District through the award and ongoing management of these grants.

3.4 Marketing and Outreach

Marketing Plan to be submitted: Marketing and outreach are critical aspects of the grant's work. Grantees' efforts ensure these programs and services' success and desired impact. No Grantee or service is exempt from this requirement. Applicants must submit a detailed marketing and outreach plan for the services they are applying for. The plan should be detailed and not assume an understanding that has not been stated. Marketing should be included in the proposed budget and work plan.

DHCD will review and approve the marketing plan. In accordance with agency policy, marketing activities should highlight partnerships with and funding by DHCD.

Aspects of Marketing and Outreach to be considered:

- Continuous and consistent marketing and outreach are essential to achieving these services' objectives and maximizing public awareness of DHCD housing programs.
- Because of DHCD's diverse target population, grantees must utilize various marketing tools.
- Grantees are responsible for distributing DHCD program materials at community forums, public events, homeownership meetings, and fairs. Marketing and outreach may include but are not limited to, websites, email blasts, blogs, listservs, Twitter, Facebook, YouTube, Hope Hotline, flyers, door-to-door visits, community meetings, use of cable television (Channel 16), and public service announcements.

Coordinated with the Department: The grantee's marketing and outreach must be coordinated with DHCD. Grantees are expected to continually assess the success and impact of their marketing efforts to identify the most effective and efficient ways of reaching low- and moderate-income populations.

Participation in Department Marketing Activities: As required by DHCD, Grantees must participate in public activities and events related to housing opportunities. These may include but are not limited to tabling at events, participating in panel discussions, and providing speakers to groups, agencies, or organizations that request them.

DHCD Acknowledgement: Grantees must always acknowledge such housing assistance activities as Department of Housing and Community Development programs in any distributed print or electronic materials. DHCD must approve all such materials before distribution.

Use of DHCD Logo: All written or printed materials distributed or posted by Grantee that publicize the activities being funded by the D.C. Department of Housing and Community Development shall include information that the service, activity, or program is being supported and funded, partially or entirely, by the Department.

1. The written or printed materials must include the authorized DHCD logo.
2. Written or printed materials include, but are not limited to, newspaper, radio, and television announcements or advertisements. Websites, stationery, publicity materials, and written media communications, including newsletters, flyers, and brochures.
3. Grantees must abide by DHCD style guidelines when using the authorized DHCD logo.

4. The grantor may require that specific templates be used when promoting certain grant-funded programs. In those instances, DHCD will provide the templates and instructions to the Grantee.
5. The grantee must provide copies of all marketing materials, brochures, flyers, and other materials that publicize grant-funded activities to the Grantor via email at dhcd.occo@dc.gov
6. The grantee shall publicize as appropriate to its constituency through social media, print, and online postings, DHCD communications, and events related to Grant-supported activities.

Diversity and Language Access in Marketing: Grantees must demonstrate the capability to effectively serve and communicate with the District's various non-English speaking and special needs populations. This means that marketing and outreach materials must be made available in multiple languages and media based on the needs of those populations. The grantee must demonstrate its intent and capability to comply with the District's Language Access Law. In addition, grantees must demonstrate the availability of appropriate staffing to ensure compliance with the District's Language Access Law.

3.5 Focus Areas and Neighborhood Revitalization Strategy Areas (NRSA)

DHCD has identified specific areas of the District as "Focus Areas." These Areas represent areas where the District has invested in funding to create and preserve affordable housing. Focus Areas follow main routes through the District and their associated neighborhoods. In many cases, business owners are centered on these major routes, while resident services will be seen as more appropriate for those in the communities. Applicants must ensure services are delivered to low- and moderate-income households or areas as part of their program (Housing Services, Small Business Technical Assistance, Façade Improvement). This is a CDBG requirement.

- For Housing Counseling applicants, these Focus Areas should be used to plan outreach activities to inform residents of their services.
- For SBTA and Façade grantees, the Focus Areas define the geographical areas of the District in which they will provide services. In this latter case, the Focus Areas define not only their outreach area but also their service area.

NRSAs Targeting East of the River

The Department obtained the HUD designation for the Neighborhood Revitalization Strategy Area (NRSA) for the Focus Areas in Wards 7 and 8. DHCD has designated areas of Historic Anacostia in the city's Southeast and Far Northeast communities as Neighborhood Revitalization Strategy Areas (NRSAs). This designation will allow the city to target Community Development Block Grant (CDBG) funding that supports economic and community revitalization efforts. These include Martin Luther King Jr Avenue, Marion Barry Avenue, Minnesota Avenue, and Benning Road. However, all areas of Ward 7 and Ward 8 remain the focus of the grantee's work and outreach.

For communities outside of the NRSA areas, DHCD has designated Focus Areas throughout the District. Applicants are encouraged to partner with other community-based organizations. This collaboration can include cross-disciplinary collaboration. For example, a Façade grantee may partner with an SBTA grantee to provide business owners various services encompassing both disciplines. Housing service grantees may partner to promote or provide services one grantee offers, but another may not. The key to collaboration is an outlook of being partners, not competitors.

The following is a list of the Focus Areas and some of their associated neighborhoods. The outreach plans can include other nearby neighborhoods, mindful of the low-income requirements. Each applicant is asked to select one or more Focus Areas for their application. Please note that this is a minimum, and applicants may choose more than three. Applicants will be asked to provide reporting on outreach activities.

The following is a list of the Focus Areas outreach plans, mindful of the low and income requirements.

Instructions Show/Hide

As in the past, Performance Reporting is divided into three sections:

- **Workplan Metrics** (numbers only),
- **Accomplishment Narrative** (Text Boxes), and
- **Various uploads** (spreadsheets usually).

This data is extremely important. Reports can affect performance goals and funding. Your reports are used to report to the City Administrator, the Mayor (including DMPED) and to the District Council and its Committee on Housing. Where uploads are required, **use excel files or Word files.** This will allow your information to be uploaded into the database and reported to District leaders.

For **Workplan Metrics**, use only numbers or leave it blank. **Letters such as N/A are to be avoided.** This will make your report impossible to be uploaded in the DHCD database and will require your corrections. Only numbers zero (0) and above can be used. If a metric is left blank, it will be treated as a zero.

In the **Accomplishment Narrative**, text boxes are provided to provide statements of activities or the information requested. In the first Report, please answer Question 22 (Points of Contact) with all points of contact for the areas mentioned. Thereafter in subsequent months, if there are no changes, it is okay to say, "No Changes". The same is true for Question 21 (staffing). Please answer Question 23 (Success Stories), Question 24 (Good News), Question 25 (Other DC agencies and initiatives). Question 26 is important. Remember the RFA asked applicants to align outreach to the Focus Areas mentioned on pages 33 and 34 of the RFA. Mentioning specific Focus Areas in the narrative for Q26 is helpful.

The **Document Upload** section is where excel spreadsheets (usually, sometimes Word Documents) are uploaded. **PDFs cannot be uploaded into database.** [The District of Columbia is fortunate to have many DC Based Programs such as HPAP, IZ/ADU, PADD, SFRRP, TOPA, HRA/RAD related activities, as well as direct services to tenants and tenant groups, and services to Condo/Coop Associations. DHCD staff need monthly reporting in order to better do their work and respond to the needs of DC citizens. These reports are shared directly with the appropriate program manager.]

There three areas of your activities will be reported on a monthly basis to help us meet our HUD and DC Government requirements and the needs of DC residents.

Reporting for Fiscal Year 2026 will begin with Report # 1. The end of Government's fiscal year (9/30/2025) will conclude with Report # 10 and the close-out of FY25 Purchase Orders. The complete schedule is below for the monthly report.

Other Reporting: Beneficiary Data and Language Access

Other reports are also required. These include **Beneficiary Report** and **Language Access Report.** These two reports are required on a quarterly basis. These reports will not be answered within ZoomGrants. The Office of Program Monitoring will provide the spreadsheets to use for these quarterly reports. Please see your Grant Agreement for additional information about the monthly and quarterly reports. Please note, the Beneficiary Report corresponds to the sources and uses of your Grant Agreement. A separate Beneficiary Report is needed for each type of funding awarded: Public Service (PS), Non-Public Service (NPS) and NRSA Wards 7 & 8 PS and NPS.

These quarterly reports will be due:

Oct/Nov/Dec 2/24/2025

Jan/Feb/March 4/10/2025

April/May/June 7/10/2025

July/August/Sept 10/10/2025

Please note we cannot extend these deadlines since they are HUD's deadlines and not in our control. Please submit your report on schedule.

Please remember HUD views reporting and reimbursement requests as inseparable and therefore to be coordinated at the same time. Please avoid not filing on the deadline.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 13, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and Housing Counseling Services, Inc., a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) NA6MQB4FM3C1] (hereinafter referred to as "Grantee") with its principal place of business at 2410 17th St NW Ste 100 Washington DC 20009. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year ("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. As a condition precedent to disbursement of the Grant proceeds to Grantee for the sole and exclusive purposes described in Exhibit A (which includes the "Statement of Work" and the approved "Workplan", both attached hereto and made a part hereof), the Department requires that Grantee enter into this Agreement setting forth the terms and conditions of the Grant.

The term of this Agreement and the provisions herein may be extended to cover any additional time period during which the Grantee remains in control of Grant funds or other Grant assets.

Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[18] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[18] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[19]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[20] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

SECTION 3: PROGRAMMATIC REQUIREMENTS

3.1 Eligibility for Federal Funding

The services in this RFA will be conducted through grant agreements using Federal funds (Community Development Block Grant (CDBG) and, as available, some District Funds. The Department will provide a full informational briefing to the awarded grantee(s) about the grant funding source's ongoing administrative and programmatic requirements. Whether grants awarded under this RFA are funded locally or with federal funds, all grants will be managed to the higher standards and requirements whether Federal or District.

Federal regulations have established national objectives requiring all CDBG-funded activities beneficiaries to be at least 51% low- and moderate-income persons or households. The national objective is achieved through "limited clientele benefit"—that is, by verifying the incomes of each beneficiary of the services provided. The applicant must demonstrate that it has the capacity and the intention to verify the household incomes of beneficiaries to meet the national objective of providing benefits to 51% of low- and moderate-income persons.

Client income certification is also an important element of ongoing program activity for many DHCD housing programs. (See Section 3) Applicants should review in detail the federal income requirements for programs, activities, and grantee (sub-recipient) eligibility under the Community Development Block Grant program regulations at 24 CFR 570. 200-210,

A1: HUD Housing Counseling
This activity is open to applicant organizations which are HUD approved employing one or more HUD certified counselor(s). Such counseling is often (but not exclusively) in the pursuit of homeownership or credit repair and improvement or to improve their housing condition.

Grantees of this service should be familiar with 24 CFR 5.100 and with 24 CFR 214.

Housing counseling is independent expert advice provided by a HUD certified housing counselor (24 CFR Part 214) customized to the needs of the client. It is aimed at addressing housing barriers and providing support to the client to achieve their housing goals. This counseling service must include: (1) intake (2) financial and housing affordability analysis (3) an action plan[2] and (4) follow-up counseling to implement the action plan and achieve its stated goals *(24 CFR 5.100).*

The action plan should identify the steps needed for the client to achieve his/her housing goals. These actionable steps include, but are not limited to, review of the client's credit report with explanations of its meaning and items that impact (or may improve) the credit score, creation of a budget and methodologies to track one's income and spending, debt reduction planning, and savings planning. Follow-up should track the client's progress toward the goals of the action plan. Other programs and services including group educational opportunities may complement the one-on-one counseling with a certified counselor. Counselors, therefore, may appropriately make referrals to programs and services as well as to group educational activities that support and implement the goals of the action plan.

Counseling organizations are required to maintain case files including items 1-4 above as stated in 24 CFR 5.100. It is critical that files with records and case notes be kept in such a way that if a client's counselor is no longer available, either temporarily or permanently, another certified counselor in the organization can understand based on the file the client's circumstances, action plan, progress and where the client is in achieving his/her housing goals.

Organizations providing this service should have working experience with credit counseling and repair, with consumer credit bureaus and consumer credit laws. Ideally, they should be familiar with creditor tactics, liens, judgments, repossessions, and other obstacles to credit improvement.

It is critical for the counseling organization to make efforts to keep the client engaged in the counseling process and such attempts and outreach should be documented in the case file.

In accordance with HUD requirements, counseling organizations may close files if a client does not respond to outreach efforts over 60 days. The last outreach attempt should document that the file will be closed as of a specific date if nothing further is heard from the client. If the client should return to client after the 60 days, a new file should be opened.

[2] Except for reverse mortgage counseling.

Post-purchase follow-up

a) Grantees must continue their counseling relationship with customers once they become homeowners. This follow-up should continue for a period of time after purchase to ensure the homeowner's housing stability.
b) Grantees may make use of post-purchase programs using either their own programming or making referrals to other Grantees who provide such programming (*e.g.* B1 General Home Management and B2 Foreclosure Counseling).
c) If problems arise, it will be the grantee's responsibility to address them quickly as time is of the essence, and to address them as efficiently as possible. Where the District's investment is involved, counseling should include ways to protect the DC investment.
d) When working with clients who have an HPAP deferment period ending, Grantees must provide dedicated counseling services to those borrowers. In particular, grantees will be asked to make an updated assessment of each borrower's financial status regarding the appropriateness of continued deferment.
e) Potential delinquency, or foreclosure prevention, counseling will be provided to any borrower who is experiencing difficulty.
f) If problems continue with these loan clients, this counseling will become a home preservation activity.

A2 8-Hour Homebuyer Education Class (HBE)

This activity is open to applicant organizations which are HUD approved counseling organizations employing one or more Hud certified counselors.

The Department seeks HUD Approved organizations to provide the 8-Hour Homebuyer Class. This is in support of the Department's many programs for which the 8-Hour Homebuyer Class is a requirement, and also for other DC residents who seek to take this class in preparation for homeownership and for their knowledge.

Organizations should take as a serious obligation to conduct this class with knowledge staff (HUD certified counselors). The class is conducted in a traditional in-person setting or in a virtual online setting.

Those who successfully attend and complete the class should be provided with a DHCD certification (in the format approved by the Department) indicating their completion of the class and dated appropriately. Monthly attendance and award of certificates should be reported to the Department monthly. The class should be presented frequently enough to meet programmatic needs of DHCD programs. Class dates should be provided to the Department for inclusion on the DHCD calendar. Presentations should be given by staff, not outside speakers. Grantees are welcome to collaborate in the conduct of these classes.

A3: Intake for DC Homebuyer Programs (HPAP/EAHP/NEAHP)

The Home Purchase Assistance Program (HPAP) is the primary DHCD program for first-time homebuyers. HPAP provides interest-free loans that include closing cost assistance to eligible applicants. Under this program, homebuyers may have the opportunity to purchase houses,

condominiums, or cooperative units in the District. DHCD has additional homeownership programs which are associated with HPAP, and which are targeted to specific populations or geographic areas or may meet specific home buyer needs.

The satellite programs are:

(1) The Employee Assisted Housing Program (EAHP) provides assistance to District of Columbia Government employees, who are first-time homebuyers in the District; and

(2) The Negotiated Employee Assistance Home Purchase Program (NEAHP) provides down payment and closing cost assistance to certain District of Columbia Government employees whose position is covered by specific union collective bargaining agreements.

Wherever the acronym "HPAP" is used, the same applies to the EAHP and NEAHP programs.

Prior to HPAP Application

Clients interested in HPAP assistance who have a pre-approval from a lender, should be assisted with making an application to the HPAP as expeditiously as possible. Those without a pre-approval letter from a lender are required to engage in HUD Housing Counseling (see A1 above) in order that they have the benefit of credit counseling and homeownership preparation. The action plan should include the actionable steps needed to ensure success as a homeowner and to achieve a pre-approval letter from a lender. Once a pre-approval letter has been obtained, the client with the Grantee's assistance should proceed to making their application to HPAP.

Application Process

For grantee organizations, this relationship management function includes working with first-time homebuyers throughout the homeownership application, preparation, purchase, and post-purchase process. Counseling will be focused on low- and moderate-income populations.

Once HUD credit counseling is completed the HPAP process includes:

(Optional) Applicant organizations may conduct pre-purchase seminars which include information and requirements of the HPAP programs. A DHCD Certification should be provided to attendees and recorded with DHCD.

Application Intake includes document collection of those documents needed. These should be collected in person or by means of a secure portal. Email is not considered a secure means for transmission of information which could be used for identity theft or other criminal activity. Drop-off at a staff office to an employee is acceptable.

Once the application package is complete, the organization submits to the appropriate HPAP administrator.

Homebuyer Education (8-hour class) (A DHCD Certification should be provided to 8-hour Homebuyer Education attendees and recorded with DHCD.)

Post-Purchase follow-up (Records of those follow-ups should be maintained by the organization. See Post-purchase in Service A1)

Organizations will be responsible for: (1) the application process, which includes delivery of completed applications to the HPAP Administrators; (2) completion of the application form itself and collection of all required supporting documentation, and (3) maintaining performance and reporting data, and databases as needed by the Department.

A4: Inclusionary Zoning Orientations

Introduction to IZ/ADU Programs:

The District's Inclusionary Zoning (IZ) Program requires a certain percentage of units in a new residential development, or a substantial rehabilitation that expands an existing building, be set aside as affordable units. The goals of this program are to increase the supply of affordable housing for low- and moderate-income households, to support the creation of mixed-income communities, to prevent rising home prices from driving out low- and moderate-income residents, and to leverage the expertise and capacity of the private market to develop affordable housing.

Affordable Dwelling Units (ADUs) are defined as for-sale and for-rent homes that are locally restricted for occupancy by households whose income falls within a certain range and are generally offered at a below-market rate. ADUs are generally produced in exchange for zoning relief, tax incentives, public financing, and/or the right to purchase or lease District-owned land. Specific ADU provisions, such as the affordability period, income limits, and resale restrictions, are set out in deeds, covenants, land disposition agreements, ADU administration plans and other originating documents.

ADU provisions have historically varied from project to project, as each is a result of a unique negotiation or project approval. However, ADU restrictions are becoming more standardized and more similar to standard IZ requirements.

Organization roles and responsibilities:
Provide mandatory IZ Orientation. The department's PowerPoint presentation must be utilized. Presentation and answers to participants' questions must conform to agency guidelines.

DHCD seeks organizations which will provide programmatic rental and homeownership counseling services in support of both of the above programs. Information about these

programs is available through DC Housing Search https://www.dchousingsearch.org , counselors will be required to utilize DC Housing Search, and train potential customers in how to search for affordable housing through DC Housing Search.

Grantees will be required to become familiar with the program requirements and procedures, as required by DHCD. In the last few fiscal years, the IZ program has produced approximately 400 new affordable units each year.

Orientation:
In particular, organizations are required to conduct IZ Orientations to help residents to be familiar with all programmatic requirements for the IZ program.

Organizations must conduct and coordinate this mandatory orientation session in a traditional and virtual classroom settings. They must provide interested applicants/residents with the relevant terms of the program, including next steps and other information as required by DHCD.
DHCD currently provides standard slides and certificate templates to use for this orientation and will provide training to grantees.

Completion of this orientation class is mandatory before an individual may register for the IZ program and individuals must renew registration every two (2) years to remain on the IZ registration list.

The class must be conducted at least monthly beginning within 30 days after the grantee's application is approved. Coordination of this class will include publishing upcoming class dates, accepting reservations via phone, email, or other method, allowing walk-ins if space is available, providing attendees with a certificate of completion (in a format approved by DHCD) upon completion of the class and providing at least monthly attendee data to DHCD. It will also include ensuring that attendees receive all required training materials, and shall be presented by grantee staff, not outside speakers.

Grantees must train program participants in the terms and specifics of the IZ and ADU Programs (training guidance will be provided by DHCD) and provide additional pre and post homebuyer education training.

Grantees must also provide data to DHCD on a regular basis as determined and requested by DHCD, including but not limited to the names and contact details for individuals who have received a DHCD certificate and the number of attendees at IZ orientations.

A5: Income Certifications for the IZ/ADU Units Programs

The agency seeks two organizations to provide income certifications for participants in the Inclusionary Zoning and Affordable Dwelling Units programs. Income certifications are expected to be conducted under a uniform process prescribed by DHCD and following HUD Part 5. DHCD has established requirements for approving Certifying Entities, including

specific IZ and ADU training.

Grantees are expected to become Certifying Entities pursuant to DHCD requirements. Grantee organizations will be required to ensure that program participants understand that income and occupancy restrictions apply to their IZ units and ADUs. Grantees will also be expected to complete income certifications for newly selected households and for renewing tenants. Grantees will be working closely with individuals, property management/leasing staff, sales agents and DHCD. DHCD will provide the necessary forms and procedures, but Grantees will collect the necessary paperwork from individuals and complete the income and household size verification process. Upon successful certifications, Grantees will notify DHCD and the sales/leasing staff.

Such restrictions may include but would not be limited to: (1) the specific affordability period, (2) conditions for, or prohibitions against, subleasing, and (3) resale restrictions. Ongoing outreach and assistance to occupants of IZ units and ADU is required in the areas of programmatic requirements and homeownership counseling.

A6: Income Certification for PADD Applicants

The Property Acquisition and Disposition Division (PADD) encourages vacant and/or abandoned property owners to rehabilitate and/or occupy their properties. PADD acquires vacant, abandoned, and deteriorated properties through negotiated friendly sale, eminent domain, donation, or tax sale foreclosure, when owners are unwilling or unable to maintain their properties. PADD also disposes of properties in inventory by selling them to individuals or developers to be rehabilitated into high-quality affordable and market-rate single-family and/ or multi-family for-sale or rental housing in District neighborhoods.

For DHCD, the activities of this Division create affordable homeownership and rental opportunities for low- and moderate-income households. Grantees must counsel these households as they qualify for and occupy these new homeownership and rental units. DHCD seeks one or more organizations which will provide counseling or training services for affordable units made available through PADD.

Because PADD units are not produced through a traditional homebuyer program, an intensive marketing and outreach effort to our target population will be required of grantees. Counseling services will also involve conducting income certifications and re-certifications for purposes of admission and continuing participation in this program. Income certifications are expected to be conducted under a uniform process prescribed by the Department. For PADD, grantees must ensure that program participants understand that income, or occupancy, restrictions apply to their unit. Such restrictions may include but would not be limited to: (1) the specific affordability period; (2) conditions for, or prohibitions against, subleasing; (3) potential rent increases; and (4) resale restrictions. The specific unit covenant

terms will be communicated to stakeholders by the Department, but grantees must facilitate communication with stakeholders.

A7: Public Services: General Coaching and Information

Public Services may be undertaken by Applicants which have not yet obtained HUD Approval and may not employ a HUD certified housing counselors. (HUD Approved organizations who are applying for A1 or A2 do not need to apply for this service, since they are able to provide these Public Service activities in connection with their other lines of services.

These activities are frequent but not exclusively in a group setting. These may be virtual or in-person, as long as an in-person option is provided. Grantees may utilize Homebuyer Clubs as an effective tool for keeping clients engaged in homebuyer preparation when a long-term period is needed for better positioning to be a first-time buyer.

They may include group trainings on understanding credit and credit reports and involve savings programs.

Public service staff are required to train clients to utilize available tools, such as DC Housing Search https://www.dchousingsearch.org to locate affordable housing for sale and for rent.

CATEGORY B: COUNSELING AND TRAINING FOR HOME PRESERVATION

B8: General Home Management (Post-Purchase Non-Delinquent)

Post-purchase counseling is essential for Homeowners who have purchased their homes, are not delinquent in their mortgage payments and would like to remain successful by creating a realistic financial plan to avoid financial pitfalls and protect and retain their homeownership. Post-purchase counseling is essential to understand local post-purchase behavior, especially low-moderate income homeowners, that can be supported by education and supportive programs to ensure recent homeowners understand what to do in the event of hardships. Organizations that provide post-purchase counseling sessions and education workshops will ensure their topics consist of the following:

1. Prepare a maintenance plan for major household systems and repair strategies.
2. Emergency preparedness plan to assist client in case of disaster.
3. Understand consequences of not paying taxes, HOA payments or community assessments.
4. Explain the benefits of establishing an emergency fund and retirement or tax-incentivized accounts.
5. Provide knowledge of home improvement financing options like HELOCs and give counsel on how to apply for additional financing to renovate property.

6. Access the client's understanding of the process of refinancing the home and incurring more debt.

This counseling activity may include, but not be limited to, appliance warranty disputes, contractor disputes, disputes with mortgagors, will and estate issues, including transfer-on-death deeds, etc. In this service, grantees must serve as advisor-educators and are prohibited from giving legal advice. Grantee activities should focus on low—and moderate-income populations.

B9: Foreclosure Counseling

Homeowners who are delinquent in loan payments (as well as those in danger of delinquency) need to know what options are available to them. Similarly, those in foreclosure need to know their options and resources that may assist them, especially if available legal services are available.

Organizations are required to provide foreclosure prevention counseling that helps homeowners at risk understand the foreclosure process in Washington, DC, determine their legal rights and identify options to avoid foreclosure.
Organizations will assist struggling homeowners with loss mitigation, communicate with mortgage servicers and provide services such as the following:

1. Provide advice and coaching to assist clients with creating a budget based on financial goals. Assess the current financial situation and develop short and long-term strategies to reduce expenses and debt to achieve client goals.
2. Explain loss mitigation. Explain the requirements of a loss mitigation package and evaluate the client's loss mitigation options for FHA and non-FHA loans.
3. Provide examples of mortgage default scams and ways to avoid being a victim.
4. Explain the consequences and costs associated with a foreclosure, short sale, or deed-in-lieu.
5. Explain the foreclosure timeline and devise a plan if the client is unable to stay in the home and assist the client in mortgage default recovery. Demonstrate the impact of a mortgage default.
6. Work with displaced residents seeking referrals for housing.

Grantees work with homeowners who are delinquent in their mortgage payments, or who are in foreclosure, or in post-foreclosure. These counseling services are also offered to owners of multi-family properties, and ownership associations. This counseling serves as a central element of DHCD's overall foreclosure prevention strategy.

It is critical to address the District's foreclosure crisis. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Grantees also work with the Department of Insurance Securities and Banking (DISB) to protect clients against scam operations that prey upon residents who are subject to foreclosure. Grantee organizations extract data for outreach and targeting efforts from the Office of the Recorder of Deeds, which provides a listing of all official foreclosures in the

District on a weekly basis. DHCD seeks one or more organizations that will provide foreclosure counseling services which include, but may not be limited to, all of the above-described foreclosure prevention activities.

For grantees, this counseling function means working with troubled homeowners, utilizing all foreclosure prevention or mitigation tools available, and if necessary, working with customers throughout their foreclosure or post-foreclosure process. Grantees must provide full assistance and advice to troubled homeowners. Grantees will be responsible for: (1) assessing the homeowner's circumstances, (2) educating the homeowner about the full implications of mortgage delinquency and foreclosure (3) exploring and providing options of action for the homeowner (4) providing tools or alternative support that may further assist the homeowner (5) developing and executing a best action plan for either saving the home or undertaking the best course for the homeowner, and (6) tracking the results of their counseling efforts. In addition, grantees will provide ongoing performance and reporting data and databases maintained.

Post-Foreclosure Counseling: It is critical that grantees continue their counseling relationship with customers, even if the home cannot be saved. Grantees must follow up with troubled homeowners for a period of time after any action plan has been executed. If the home has not been saved, counseling should be made available, and if necessary, referral to other needed services. If the home has been saved, counseling follow-up is also necessary to ensure that the ongoing action plan is being properly implemented. If more problems arise, it will be the grantee's responsibility to address them as quickly and as efficiently as possible.

With the passage of the Saving DC Homes from Foreclosure Emergency Amendment Act of 2010, troubled or delinquent District homeowners have the right to engage in mediation prior to foreclosure. As a result, DHCD requires grantees to provide counseling related to this mediation process.

Grantees must be familiar with the Law, its regulations, and the mediation process which has been implemented by the Mediation Administrator at the DC Department of Insurance, Securities, and Banking. Grantees must educate troubled homeowners in the decision factors related to mediation election, and, if necessary, prepare them for mediation. In some cases, counselors may be asked to accompany, or represent, troubled homeowners in the mediation process. Grantees must ensure that all customers who elect mediation complete and submit proper documentation in a timely manner. Grantees must ensure that the best interests of troubled borrowers are protected throughout the mediation process. Finally, DHCD expects grantees to follow-up after the mediation process is complete to ensure that any final mediation agreement is properly implemented.

B10: Eviction Counseling

Applicants who have HUD certified counselors or NeighborWorks America foreclosure certified counselors may offer this service. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Training should also include knowledge of laws and legal procedures governing eviction.

Eviction has long created housing instability for renters, and especially among low- and moderate-income households. For those at the lower end of the economic scale, eviction has caused not only housing instability but also employment insecurity and homelessness. Studies have shown that lack of access to legal representation has resulted in markedly different and detrimental outcomes as compared to renters who have legal representation. After legal representation, the next most effective range of services includes alternative dispute resolution (or mediation), knowledge and guidance in court navigation, and effective management of legal and tenant-landlord documents. In addition to housing instability, eviction also has credit impact for the tenant.

It is critical to provide those in danger of eviction with counseling to make informed decisions. This includes access whenever possible access to legal services. Also, appropriate training includes information about tenants' rights and obligations, the credit impact of eviction, use of payment plan agreements, understanding of court processes and procedures, and access to alternatives to court procedures. When tenancy is lost, counseling for housing alternatives is needed and a path forward to credit repair.

B11: Single-Family Residential Rehabilitation Program

The Single-Family Residential Rehabilitation Program (SFRRP) administers grants to District homeowners for roof repairs and for modifications to eliminate barriers to accessibility for persons with mobility or other physical impairments. Projects approved for SFRRP require a covenant on the property to protect the District's funding of the project.
DHCD seeks one or more organizations which will provide application intake services to SFRRP applicants throughout the grant process.

> **Mandatory Counselor Intake Training:** Grantees for this line of service are required to attend training with the SFRRP team in September to be introduced to updated aspects of the SFRRP for FY25. It is critical that the grantee have a solid understanding of the updated program and the requirements for applications. Therefore, the September training is mandatory for SFRRP intake counselors.
>
> **Application Period:** Applications for SFRRP will only be taken between October 1, 2024, and December 31, 2024. To be considered applications during this period must be complete. Lack of required documentation or information will not "hold a place" in the program if not provided before the December 31, 2024. The Department at its sole discretion reserves the right to close the program prior to the deadline if funding is depleted or no longer available.

Information Session for Applicants: The Department will provide Grantees with a PowerPoint presentation outlining the program and its requirements. Intake counselors are required to use this presentation with all potential applicants either in a group sessions (such as an Orientation) or in a one-on-one session with the potential applicant.

Grantee's and Counselor's Responsibilities: (1) use the Department PowerPoint presentation to present the program to potential applicants, answering questions from residents interested in the program; (2) complete the application document and collection of **all required** supporting documentation *(incomplete applications will not be accepted)*; (3) post-application and post-grant support; and (4) providing performance and reporting data as required.

45 Day Period: It is critical that no application be uploaded in the SFRRP portal unless it is complete with all required documents and intake form completed. If an incomplete application is uploaded in the portal, the SFRRP staff will notify the counselor and the applicant that the application cannot be accepted. The notification state that what is complete and state the **applicant has 45 days** to provide the requested information including documents. After 45 days if the application remains incomplete, the application will be closed as incomplete for funding.

Application Portal: Counselors will need to provide their name and contact information (e.g. email) when uploading in case SFRRP program staff need to follow up.

Legal Citations Governing Program Area for Category B:

Applicants to provide any service in Category B should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

- Lead Safe Washington 24 CFR, Part 35, 24 CFR, Part 85.37, Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992
- Single Family Rehabilitation 14 DCMR, Chapter 28 First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
- Saving DC Homes from Foreclosure Emergency Amendment Act of 2010 (DC Act 18-635; 57 DCR 12404)

B12: Legal Services for Homeowners and/or Coop & Condo Associations

The Department seeks organizations to provide legal services to provide one or both of the services noted below. Grantees will conduct outreach to low- and moderate-income populations in need of these services.

- Legal Services to Seniors
  Seniors who are homeowners can be assisted by the Applicant to have legal services to assist Seniors to avoid housing instability or the loss of ownership of their home. In addition to their own attorney staff, Applicants may seek *pro bono* services from other members of the Bar.

- Legal Services to Coop-Condo Associations
  Legal services may be provided to Cooperatives and/or Condominiums ("Associations") to ensure housing stability. If Associations have problems in areas of legal entity status, required legal or financial filings, compliance issues, risk management concerns, board and member training, best legal practices, and collection of association fees (to name of few), such issues may threaten the member's housing stability, and the owners' (or members') investment in their properties. Selected applicants will provide legal services to Associations in low- and moderate-income census blocks to mitigate these concerns, to preserve housing stability of owners and to ensure well-functioning Associations and Boards.

B13: Technical Assistance for Coop and Condo Associations

The Department seeks one or more organizations to provide technical assistance to Associations. The situation many Associations may face is a need for training in best practices of Association management. Training in best practices and frequently encountered problem situations may be offered by the grantee not only to the Association Board but also to the owners in the Association. Association boards and their member owners frequently face issues of association fees not being paid, lack of income to fund reserves, special projects that would require a special assessment, and decisions of taking court action or being the defendant in a court action. These are just a few of the legal issues which may arise for the Association, in addition to the more routine matters of by-laws and required legal documents for the operation of the Association.

B14: Technical Assistance for Landlords of Small Rental Properties

Landlords of small rental properties face enormous challenges. They frequently lack the staff and the resources of large multi-family properties to deal with the many details of operations and asset management. Small unit properties cannot readily absorb mistakes or challenges.

In a ten-unit property, one vacancy is a 10% vacancy rate, while one unit in a 100-unit property is 1% vacancy rate. Yet, small unit properties are often the affordable renter properties. To preserve this housing stock as an affordable option, DHCD seeks grantees to provide Technical Support to Owners of Small Unit Properties (of 30 units or less).

Services can be provided through group training as well as through one-on-one counseling. Like many small business owners, owners can often benefit from a better understanding of accounting practices and financial statements (balance sheet, income statement, cash flow report). Knowledge of financing options is another common to many business owners. Topics such as these are particularly suitable to the needs of owners.

1. **Property Management Software**: Landlords often need help selecting and implementing property management software to track rent payments, maintenance requests, tenant information, and other critical operational data.

2. **Legal Compliance**: Guidance on navigating complex local, state, and federal housing laws and regulations related to fair housing, security deposits, evictions, and other landlord-tenant issues.

3. **Financial Management**: Guidance with accounting, tax preparation, and financial planning specific to rental property ownership and operations.

4. **Maintenance and Repairs**: Access to vetted contractors, tradespeople, and service providers to handle property maintenance, repairs, and upgrades in a timely and cost-effective manner.

5. **Tenant Screening and Selection**: Guidance and best practices with tenant screening processes, background checks, and selecting responsible renters to minimize vacancies and evictions.

6. **Marketing and Leasing**: Help with listing vacant units, advertising, showing properties, and executing leases to keep units occupied.

7. **Emergency Response**: Guidance on developing emergency plans and protocols to address unexpected events like natural disasters, property damage, or tenant issues.

8. **Asset Management Issues**: The ratios and metrics of asset management for multi-family properties provide a helpful guide to best practices. For example: Many landlords are unaware of the effect that certain metrics have in their properties. Slow "Make-Ready" times, refers to the length of time it takes to prepare an apartment to be shown to prospective tenants. Similarly, "turn time" refers to the times it takes to find a renter and receive the first month's rent. Slow turn times are also a drain on resources. When there are slow "make ready" and slow "turn times" the combined effect can be detrimental for the property's future. High turn-over rates among renters is another draw on the income. Other issues and topics include: What to do when you have a tenant who is not paying rent? What are the alternatives to eviction? How do the Court work? Are there pre-eviction resources? What legal services are available to the owner?

CATEGORY C: TENANTS AND TENANT GROUPS: SERVICES RELATIVE TO Tenants Opportunity to Purchase Act, Rental Conversion and Sale Division, and Rental Accommodations Division

The DC Tenants Opportunity to Purchase Act (TOPA) seeks to protect tenants and tenant groups from displacement due to sale of the property. The law allows tenants to purchase their apartment building. Tenants have the choice of maintaining the apartments for rent or converting to cooperatives or condominiums. DHCD seeks to preserve affordable housing in the District and limit displacement of low- and moderate-income households. For groups that choose coop or condo conversion, this provides a path to homeownership.

DHCD provides both financial assistance and technical assistance, as well as specialized organizational and development services, for tenant groups who are pursuing the purchase of their apartment buildings. Through DHCD's Development Finance Division, organized tenant associations may be provided with seed money, earnest money deposits, and acquisition and/or rehabilitation assistance. After acquisition and rehabilitation, DHCD also provides ongoing Board training and property management support to the newly formed cooperative or condominium Boards.

C15: TOPA: Pre-purchase Training

DHCD seeks one or more organizations which will provide pre-acquisition organizational and developmental counseling and training to tenant groups or tenant associations in support of their intent to purchase their building. These tenant groups must be preliminarily qualified as eligible for DHCD's Tenant Purchase Technical Assistance program. Grantees must provide the following services to tenant groups:

a) establishment of a tenant association.
b) selection and appropriate training of Board members.
c) training of captains (court, building and floor).
d) training in roles and functions of committee members; (5) training tenant groups in detail about the building purchase process.
e) training tenant associations in property management techniques.
f) provide training to the tenant association on each type of ownership; and conducting surveys of tenant associations to determine the appropriate form of ownership for their building (cooperative or condominium).

It is critical that Grantees in this service maintain an outreach to educate and inform low- and moderate-income tenants about their rights and opportunities provided by TOPA. Grantees are encouraged to make this a central aspects of their marketing plan, and to create

opportunities as well as avail themselves of opportunities to participate in educational outlets to reach tenants. Collaboration with other Grantees in this or similar service lines is encouraged. Grantees should participate in DHCD when and as those opportunities for outreach are available.

While training the tenant association, the grantee must be able to prepare and submit appropriate documentation required in the purchase process, including but not limited to tenant profiles and feasibility analyses, response to Notice of Sale of Building, preliminary development, acquisition, and rehabilitation plans, and operational plans.

The grantees must have skill and experience in negotiating the lease or purchase of the building. In addition, grantees must assist tenant groups in procurement related to the development, purchase, and rehabilitation process, including but not limited to attorneys, architects, engineers, financial and developmental consultants, private developers, appraisers, and property managers.

C16: TOPA: Post-Purchase Training

DHCD seeks one or more organizations which will provide ongoing post-acquisition counseling services which include property management and Board training for properties which have been purchased and/or rehabilitated with financial assistance from the DHCD Development Finance Division's First Right Purchase program. Generally, these are multi-family properties that have been purchased through limited equity cooperative agreements or condominium purchases. Therefore, non-profit Board training and development skill and/or experience, as well as multi-family property management skills are critical to providing effective counseling services. Services to be provided under this activity may include, but are not limited to:

a) establishing standards of evaluation for each participant's financial status and leadership capacity.
b) conducting annual management reviews of all Boards, oversee election and
c) training of new Board members.
d) assisting in the establishment of appropriate arrangements with required service providers such as exterminators, garbage collectors, landscapers, etc.
e) assisting in capital management planning and a stabilization plan for rehabilitation and/or refinancing.
f) tracking property vacancies and reviewing new applications for membership.
g) establishing and reviewing membership guidelines.
h) technical assistance in accounting, budgeting, and the preparation of financial statements for long-term financial viability.
i) providing Board of Directors with training as appropriate; and

j) other required management and support duties. Grantees will assist the condominium or cooperative in developing a budget for the overall management and carrying costs of the property.

Grantees will assist the Board and membership in all aspects of management, such as completion of the audit, Fair Housing issues, required individual, property, and Board insurance, taxes, the role of Board officers, evaluation of monthly financial performance, training on lender compliance, i.e. loan payments, income requirements. DHCD will likely negotiate assignment of specific properties to grantees for this service.

Legal Citations Governing Program Area in Category C:

Applicants to provide any service in Category C should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
Tenant Purchase Technical Assistance Program DC Code 42-3404.02
Rental Housing Conversion and Sale Act of 1980, as amended (DC Code 42-3401.01 et. seq.) (Also known as the Tenant Opportunity to Purchase Act or "TOPA")

C17: Services for Tenants and Tenant Organizations
(in partnership with Housing Regulation Administration, Rental Accommodation Division, Rental Conversion and Sale Division).

Activities under this service will supplement and enhance the services provided by DHCD's Housing Regulation Administration (HRA), which includes the Rental Accommodations Division (RAD) and the Rental Conversion and Sale Division (CASD).

RAD administers the Rental Housing Act of 1985 (D.C. Official Code § 42-3501.01 et seq.) which regulates residential rental housing registration and the rent stabilization program (commonly known as rent control). RAD oversees rent adjustment procedures, processes notices to vacate, reviews tenant petitions prior to adjudication by the Office of Administrative Hearings and adjudicates most types of landlord petitions. RAD also proposes rules and regulations for administration of the Rental Housing Act for review and publication by the Rental Housing Commission.

CASD administers the Rental Housing Conversion and Sale Act of 1980 (D.C. Official Code § 42- 3401.01 et seq.) which regulates the sale or transfer of ownership interests under the

Tenant Opportunity to Purchase Act of 1980 (TOPA) (D.C. Official Code § 42-3401.01 et seq.), the conversion of use of rental housing to condominium or cooperative ownership and residential condominium formation and registration under the Condominium Act of 1976 (D.C. Official Code § 42-1901.01 et seq.). Further, CASD administers a Housing Assistance Payment program (HAP), under which tenants may be eligible for rent assistance if they are displaced due to the conversion of use of their apartment building to condominium or cooperative ownership.

CASD also proposes rules and regulations for administration of the Rental Housing Conversion and Sale Act of 1980.

DHCD seeks one or more organizations which will support RAD and CASD operations by providing counseling and tenant education services to tenants and tenant groups. Grantees must provide counseling and training assistance to tenants and tenant organizations regarding the District's rental housing laws and tenant and landlord rights and responsibilities.

For CASD, grantee organizations must provide counseling and training concerning: (1) tenants' TOPA rights when a landlord intends to sell, demolish, or discontinue rental housing use; (2) transfers of rental housing ownership or economic interests; (3) assisting tenants or tenant organizations in exercising their right to purchase; (4) informing tenants or tenant organizations relating to partner-investors and assigning TOPA rights; (5) conversion of use from rental housing to condominium or cooperative ownership by tenant elections, or conversion in lieu of tenant elections; (6) the Housing Assistance Payment program and relocation assistance; (7) tenant organization formation, incorporation, and registration; (8) protections for elderly or disabled tenants; (9) coercive or retaliatory activities; (10) tenant rights when rental housing is in foreclosure; (11) notices of intent to convert use from rental housing to condominium or cooperative ownership; and (12) relocation counseling for displaced tenants.

For RAD, service providers must demonstrate the ability to counsel and train tenants and tenant organizations on rent control provisions including properties that are regulated by or exempted/excluded from rent stabilization under the Rental Housing Act:

1) petition- based and annual rent increases.
2) executing and filing tenant petitions.
3) responding to landlord petitions.
4) protections for elderly and disabled tenants.
5) RAD's conciliation services.
6) notices to vacate and eviction procedures.
7) disclosures to tenants.
8) changes and decreases in services and facilities.

9) learning about and securing enforcement of housing condition regulations.
10) security deposits.
11) understanding lease provisions.
12) rent increases if a property is not under rent control.
13) appealing decisions of the Rent Administrator or the Office of Administrative Hearings; and
14) relocation counseling for displaced tenants. Note: Advocacy on behalf of tenant groups, or tenant rights assignees– including, but not limited to, legal advice or advocacy on tenants or tenant organizations' behalf in negotiations with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators, and not as advocacy groups. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns, or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a grantee is to ensure that tenants understand all available options.

Direct Counseling to Tenants and Tenant Groups: tenant counseling services will be designed to educate tenants in privately-owned properties about their legal rights and opportunities. This service is to be provided to tenants and tenant groups which are not subject to foreclosure and have not selected to exercise their Opportunity to Purchase Rights and/or Right of First Refusal under TOPA. It also includes providing other services and tenant education, which may not fall into the categories of services outlined above, such as eviction counseling, relocation counseling, apartment search, or apartment management.

DHCD seeks one or more organizations with the capacity to bring a range of resources to prevent involuntary displacement and to provide opportunities for continued affordable rental housing. Grantees must provide counseling services to tenants and tenant groups which include, but are not limited to: (1) outreach to tenant groups upon notice of one-year potential for subsidy expiration; (2) technical assistance in negotiations between owners and HUD relative to the renewal of federal subsidy contracts; (3) counseling for tenants in buildings where the subsidy will be lost and the tenant(s) must move; (4) counseling for tenants who are behind in their rent on best-action options; and (5) appropriately referring tenants who are in landlord/tenant disputes to all available resources. Grantees must also conduct research using the many databases and research tools available to identify properties that have a critical need for counseling assistance, including but not limited to DCHousingsearch.org. Note: Advocacy on behalf of tenant groups or tenants' rights assignee –including, but not limited to, legal advice or advocacy on tenants or tenant organizations behalf in negotiations

with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators and not as tenant advocates. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a prospective grantee is to ensure that tenants understand all available options.

Additional Legal Citations Governing Programs in Category C.

Applicants to provide any service in this Category and should review in detail the legal citations governing DHCD's rental accommodation functions:
(1) the Rental Housing Act of 1985, D.C. Official Code § 42-3501 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapters 38-44.
(2) the Rental Housing Conversion and Sale Act of 1980, D.C. Official Code § 42-3401 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapter 47.
(3) the Condominium Act of 1976, D.C.

Submission of an application relevant to these services presumes that the applicant intends to meet all requirements to provide counseling to tenants and tenant groups pursuant to these above referenced citations.

3.3 Geographic Distribution of Services

The Department's decision to select one or more grantees to provide services will be influenced by the potential geographical distribution of service among the qualified applications received. Applicants can designate their proposed service areas in the District based on their by-laws, Board policies, etc. However, the Department reserves the right to designate any service areas it deems appropriate or necessary in making awards and negotiating grant terms. In reviewing the applicant pool, the Department's priority will be to ensure that excellent affordable housing counseling and training services are provided to all low- and moderate-income citizens of the District of Columbia. The Department will seek to bring parity in the quality of all housing services provided for all areas of the District through the award and ongoing management of these grants.

3.4 Marketing and Outreach

Marketing Plan to be submitted: Marketing and outreach are critical aspects of the grant's work. Grantees' efforts ensure these programs and services' success and desired impact. No Grantee or service is exempt from this requirement. Applicants must submit a detailed marketing and outreach plan for the services they are applying for. The plan should be detailed and not assume an understanding that has not been stated. Marketing should be included in the proposed budget and work plan.

DHCD will review and approve the marketing plan. In accordance with agency policy, marketing activities should highlight partnerships with and funding by DHCD.

Aspects of Marketing and Outreach to be considered:

- Continuous and consistent marketing and outreach are essential to achieving these services' objectives and maximizing public awareness of DHCD housing programs.
- Because of DHCD's diverse target population, grantees must utilize various marketing tools.
- Grantees are responsible for distributing DHCD program materials at community forums, public events, homeownership meetings, and fairs. Marketing and outreach may include but are not limited to, websites, email blasts, blogs, listservs, Twitter, Facebook, YouTube, Hope Hotline, flyers, door-to-door visits, community meetings, use of cable television (Channel 16), and public service announcements.

Coordinated with the Department: The grantee's marketing and outreach must be coordinated with DHCD. Grantees are expected to continually assess the success and impact of their marketing efforts to identify the most effective and efficient ways of reaching low– and moderate-income populations.

Participation in Department Marketing Activities: As required by DHCD, Grantees must participate in public activities and events related to housing opportunities. These may include but are not limited to tabling at events, participating in panel discussions, and providing speakers to groups, agencies, or organizations that request them.

DHCD Acknowledgement: Grantees must always acknowledge such housing assistance activities as Department of Housing and Community Development programs in any distributed print or electronic materials. DHCD must approve all such materials before distribution.

Use of DHCD Logo: All written or printed materials distributed or posted by Grantee that publicize the activities being funded by the D.C. Department of Housing and Community Development shall include information that the service, activity, or program is being supported and funded, partially or entirely, by the Department.

1. The written or printed materials must include the authorized DHCD logo.
2. Written or printed materials include, but are not limited to, newspaper, radio, and television announcements or advertisements. Websites, stationery, publicity materials, and written media communications, including newsletters, flyers, and brochures.
3. Grantees must abide by DHCD style guidelines when using the authorized DHCD logo.

4. The grantor may require that specific templates be used when promoting certain grant-funded programs. In those instances, DHCD will provide the templates and instructions to the Grantee.
5. The grantee must provide copies of all marketing materials, brochures, flyers, and other materials that publicize grant-funded activities to the Grantor via email at dhcd.occo@dc.gov
6. The grantee shall publicize as appropriate to its constituency through social media, print, and online postings, DHCD communications, and events related to Grant-supported activities.

Diversity and Language Access in Marketing: Grantees must demonstrate the capability to effectively serve and communicate with the District's various non-English speaking and special needs populations. This means that marketing and outreach materials must be made available in multiple languages and media based on the needs of those populations. The grantee must demonstrate its intent and capability to comply with the District's Language Access Law. In addition, grantees must demonstrate the availability of appropriate staffing to ensure compliance with the District's Language Access Law.

3.5 Focus Areas and Neighborhood Revitalization Strategy Areas (NRSA)

DHCD has identified specific areas of the District as "Focus Areas." These Areas represent areas where the District has invested in funding to create and preserve affordable housing. Focus Areas follow main routes through the District and their associated neighborhoods. In many cases, business owners are centered on these major routes, while resident services will be seen as more appropriate for those in the communities. Applicants must ensure services are delivered to low- and moderate-income households or areas as part of their program (Housing Services, Small Business Technical Assistance, Façade Improvement). This is a CDBG requirement.

- For Housing Counseling applicants, these Focus Areas should be used to plan outreach activities to inform residents of their services.
- For SBTA and Façade grantees, the Focus Areas define the geographical areas of the District in which they will provide services. In this latter case, the Focus Areas define not only their outreach area but also their service area.

NRSAs Targeting East of the River

The Department obtained the HUD designation for the Neighborhood Revitalization Strategy Area (NRSA) for the Focus Areas in Wards 7 and 8. DHCD has designated areas of Historic Anacostia in the city's Southeast and Far Northeast communities as Neighborhood Revitalization Strategy Areas (NRSAs). This designation will allow the city to target Community Development Block Grant (CDBG) funding that supports economic and community revitalization efforts. These include Martin Luther King Jr Avenue, Marion Barry Avenue, Minnesota Avenue, and Benning Road. However, all areas of Ward 7 and Ward 8 remain the focus of the grantee's work and outreach.

For communities outside of the NRSA areas, DHCD has designated Focus Areas throughout the District. Applicants are encouraged to partner with other community-based organizations. This collaboration can include cross-disciplinary collaboration. For example, a Façade grantee may partner with an SBTA grantee to provide business owners various services encompassing both disciplines. Housing service grantees may partner to promote or provide services one grantee offers, but another may not. The key to collaboration is an outlook of being partners, not competitors.

The following is a list of the Focus Areas and some of their associated neighborhoods. The outreach plans can include other nearby neighborhoods, mindful of the low-income requirements. Each applicant is asked to select one or more Focus Areas for their application. Please note that this is a minimum, and applicants may choose more than three. Applicants will be asked to provide reporting on outreach activities.

The following is a list of the Focus Areas outreach plans, mindful of the low and income requirements.

Focus Areas/Neighborhoods

- **16th St NW Corridor** near the intersection with Havard St NW (Columbia Heights) in Ward 1
- **Georgia Ave and New Hampshire Ave NW Corridor** (Petworth, Park View, Brightwood, Walter Reed, Takoma) in Ward 4

- **M Street and South Capitol Streets SW Corridor** (Greenleaf and Waterfront) in Ward 6
- **Benning Road and Florida Ave NE Corridor** (NoMa/Ivy City/Trinidad) in Ward 5 and Ward 6

Instructions Show/Hide

As in the past, Performance Reporting is divided into three sections:

- **Workplan Metrics** (numbers only),
- **Accomplishment Narrative** (Text Boxes), and
- **Various uploads** (spreadsheets usually).

This data is extremely important. Reports can affect performance goals and funding. Your reports are used to report to the City Administrator, the Mayor (including DMPED) and to the District Council and its Committee on Housing. Where uploads are required, **use excel files or Word files.** This will allow your information to be uploaded into the database and reported to District leaders.

For **Workplan Metrics,** use only numbers or leave it blank. **Letters such as N/A are to be avoided.** This will make your report impossible to be uploaded in the DHCD database and will require your corrections. Only numbers zero (0) and above can be used. If a metric is left blank, it will be treated as a zero.

In the **Accomplishment Narrative,** text boxes are provided to provide statements of activities or the information requested. In the first Report, please answer Question 22 (Points of Contact) with all points of contact for the areas mentioned. Thereafter in subsequent months, if there are no changes, it is okay to say, "No Changes". The same is true for Question 21 (staffing). Please answer Question 23 (Success Stories), Question 24 (Good News), Question 25 (Other DC agencies and initiatives). Question 26 is important. Remember the RFA asked applicants to align outreach to the Focus Areas mentioned on pages 33 and 34 of the RFA. Mentioning specific Focus Areas in the narrative for Q26 is helpful.

The **Document Upload** section is where excel spreadsheets (usually, sometimes Word Documents) are uploaded. **PDFs cannot be uploaded into database.** [The District of Columbia is fortunate to have many DC Based Programs such as HPAP, IZ/ADU, PADD, SFRRP, TOPA, HRA/RAD related activities, as well as direct services to tenants and tenant groups, and services to Condo/Coop Associations. DHCD staff need monthly reporting in order to better do their work and respond to the needs of DC citizens. These reports are shared directly with the appropriate program manager.]

There three areas of your activities will be reported on a monthly basis to help us meet our HUD and DC Government requirements and the needs of DC residents.

Reporting for Fiscal Year 2025 will begin with Report # 1. The end of Government's fiscal year (9/30/2025) will conclude with Report # 10 and the close-out of FY25 Purchase Orders. The complete schedule is below for the monthly report.

Other Reporting: Beneficiary Data and Language Access

Other reports are also required. These include **Beneficiary Report** and **Language Access Report.** These two reports are required on a quarterly basis. These reports will not be answered within ZoomGrants. The Office of Program Monitoring will provide the spreadsheets to use for these quarterly reports. Please see your Grant Agreement for additional information about the monthly and quarterly reports. Please note, the Beneficiary Report corresponds to the sources and uses of your Grant Agreement. A separate Beneficiary Report is needed for each type of funding awarded: Public Service (PS), Non-Public Service (NPS) and NRSA Wards 7 & 8 PS and NPS.

These quarterly reports will be due:

Oct/Nov/Dec 2/24/2025

Jan/Feb/March 4/10/2025

April/May/June 7/10/2025

July/August/Sept 10/10/2025

Please note we cannot extend these deadlines since they are HUD's deadlines and not in our control. Please submit your report on schedule.

Please remember HUD views reporting and reimbursement requests as inseparable and therefore to be coordinated at the same time. Please avoid not filing on the deadline.

GRANT AGREEMENT

BY AND BETWEEN
THE DISTRICT OF COLUMBIA
AND

HOUSING COUNSELING SERVICES INC.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 13, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and Housing Counseling Services, Inc., a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) NA6MQB4FM3C1] (hereinafter referred to as "Grantee") with its principal place of business at 2410 17th St NW Ste 100 Washington DC 20009. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year ("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. As a condition precedent to disbursement of the Grant proceeds to Grantee for the sole and exclusive purposes described in Exhibit A (which includes the "Statement of Work" and the approved "Workplan", both attached hereto and made a part hereof), the Department requires that Grantee enter into this Agreement setting forth the terms and conditions of the Grant.

Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[18] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[18] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[19]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

[19] In responding to the RFA published June 21, 2024, applicants were given the opportunity to receive additional points in scoring for committing to exceed the CDBG minimum threshold to either a 75% minimum or a 90% minimum.

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[20] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

2. During the hours of operations, Grantee shall have live answered telephones for incoming calls. If the Grantee's phone system utilizes an auto-attendant function or voicemail, announced option to the caller must include an option to press a certain key (such as "0" for an Operator) to be connected to a staff person in real time who can answer and field questions, redirect a caller to a staff person who can address a caller's inquiries, or provide registration information. DHCD and other DC agencies such as the Office of the Attorney General may check Grantee's compliance with this requirement from time-to-time.

The HRC provides services to DC residents by appointment and walk-ins." The HRC is located in the Grantor's offices at 1909 Martin Luther King Jr Av SE. The HRC coordinator, in conjunction with the Associate Director for Community Services, will develop a schedule in consultation with Grant subrecipients for staffing the HRC on a rotating basis on weekdays.

Federal regulations have established national objectives requiring all CDBG-funded activities beneficiaries to be at least 51% low- and moderate-income persons or households. The applicant must demonstrate that it has the capacity and the intention to verify the household incomes of beneficiaries to meet the national objective of providing benefits to 51% of low- and moderate-income persons.

Client income certification is also an important element of ongoing program activity for many DHCD housing programs. A1: HUD Housing Counseling
This activity is open to applicant organizations which are HUD approved employing one or more HUD certified counselor(s). Such counseling is often (but not exclusively) in the pursuit of homeownership or credit repair and improvement or to improve their housing condition.

Grantees of this service should be familiar with 24 CFR 5.100 and with 24 CFR 214.

Housing counseling is independent expert advice provided by a HUD certified housing counselor (24 CFR Part 214) customized to the needs of the client. It is aimed at addressing housing barriers and providing support to the client to achieve their housing goals. This counseling service must include: (1) intake (2) financial and housing affordability analysis (3) an action plan[2] and (4) follow-up counseling to implement the action plan and achieve its stated goals *(24 CFR 5.100).*

The action plan should identify the steps needed for the client to achieve his/her housing goals. These actionable steps include, but are not limited to, review of the client's credit report with explanations of its meaning and items that impact (or may improve) the credit score, creation of a budget and methodologies to track one's income and spending, debt reduction planning, and savings planning. Follow-up should track the client's progress toward the goals of the action plan. Other programs and services including group educational opportunities may complement the one-on-one counseling with a certified counselor. Counselors, therefore, may appropriately make referrals to programs and services as well as to group educational activities that support and implement the goals of the action plan.

Counseling organizations are required to maintain case files including items 1-4 above as stated in 24 CFR 5.100. It is critical that files with records and case notes be kept in such a way that if a client's counselor is no longer available, either temporarily or permanently, another certified counselor in the organization can understand based on the file the client's circumstances, action plan, progress and where the client is in achieving his/her housing goals.

Organizations providing this service should have working experience with credit counseling and repair, with consumer credit bureaus and consumer credit laws. Ideally, they should be familiar with creditor tactics, liens, judgments, repossessions, and other obstacles to credit improvement.

It is critical for the counseling organization to make efforts to keep the client engaged in the counseling process and such attempts and outreach should be documented in the case file.

In accordance with HUD requirements, counseling organizations may close files if a client does not respond to outreach efforts over 60 days. The last outreach attempt should document that the file will be closed as of a specific date if nothing further is heard from the client. If the client should return to client after the 60 days, a new file should be opened.

[2] Except for reverse mortgage counseling.

Post-purchase follow-up

a) Grantees must continue their counseling relationship with customers once they become homeowners. This follow-up should continue for a period of time after purchase to ensure the homeowner's housing stability.
b) Grantees may make use of post-purchase programs using either their own programming or making referrals to other Grantees who provide such programming (*e.g.* B1 General Home Management and B2 Foreclosure Counseling).
c) If problems arise, it will be the grantee's responsibility to address them quickly as time is of the essence, and to address them as efficiently as possible. Where the District's investment is involved, counseling should include ways to protect the DC investment.
d) When working with clients who have an HPAP deferment period ending, Grantees must provide dedicated counseling services to those borrowers. In particular, grantees will be asked to make an updated assessment of each borrower's financial status regarding the appropriateness of continued deferment.
e) Potential delinquency, or foreclosure prevention, counseling will be provided to any borrower who is experiencing difficulty.
f) If problems continue with these loan clients, this counseling will become a home preservation activity.

A2 8-Hour Homebuyer Education Class (HBE)

This activity is open to applicant organizations which are HUD approved counseling organizations employing one or more Hud certified counselors.

The Department seeks HUD Approved organizations to provide the 8-Hour Homebuyer Class. This is in support of the Department's many programs for which the 8-Hour Homebuyer Class is a requirement, and also for other DC residents who seek to take this class in preparation for homeownership and for their knowledge.

Organizations should take as a serious obligation to conduct this class with knowledge staff (HUD certified counselors). The class is conducted in a traditional in-person setting or in a virtual online setting.

Those who successfully attend and complete the class should be provided with a DHCD certification (in the format approved by the Department) indicating their completion of the class and dated appropriately. Monthly attendance and award of certificates should be reported to the Department monthly. The class should be presented frequently enough to meet programmatic needs of DHCD programs. Class dates should be provided to the Department for inclusion on the DHCD calendar. Presentations should be given by staff, not outside speakers. Grantees are welcome to collaborate in the conduct of these classes.

A3: Intake for DC Homebuyer Programs (HPAP/EAHP/NEAHP)

The Home Purchase Assistance Program (HPAP) is the primary DHCD program for first-time homebuyers. HPAP provides interest-free loans that include closing cost assistance to eligible applicants. Under this program, homebuyers may have the opportunity to purchase houses,

condominiums, or cooperative units in the District. DHCD has additional homeownership programs which are associated with HPAP, and which are targeted to specific populations or geographic areas or may meet specific home buyer needs.

The satellite programs are:

(1) The Employee Assisted Housing Program (EAHP) provides assistance to District of Columbia Government employees, who are first-time homebuyers in the District; and

(2) The Negotiated Employee Assistance Home Purchase Program (NEAHP) provides down payment and closing cost assistance to certain District of Columbia Government employees whose position is covered by specific union collective bargaining agreements.

Wherever the acronym "HPAP" is used, the same applies to the EAHP and NEAHP programs.

Prior to HPAP Application

Clients interested in HPAP assistance who have a pre-approval from a lender, should be assisted with making an application to the HPAP as expeditiously as possible. Those without a pre-approval letter from a lender are required to engage in HUD Housing Counseling (see A1 above) in order that they have the benefit of credit counseling and homeownership preparation. The action plan should include the actionable steps needed to ensure success as a homeowner and to achieve a pre-approval letter from a lender. Once a pre-approval letter has been obtained, the client with the Grantee's assistance should proceed to making their application to HPAP.

Application Process

For grantee organizations, this relationship management function includes working with first-time homebuyers throughout the homeownership application, preparation, purchase, and post-purchase process. Counseling will be focused on low- and moderate-income populations.

Once HUD credit counseling is completed the HPAP process includes:

(Optional) Applicant organizations may conduct pre-purchase seminars which include information and requirements of the HPAP programs. A DHCD Certification should be provided to attendees and recorded with DHCD.

Application Intake includes document collection of those documents needed. These should be collected in person or by means of a secure portal. Email is not considered a secure means for transmission of information which could be used for identity theft or other criminal activity. Drop-off at a staff office to an employee is acceptable.

Once the application package is complete, the organization submits to the appropriate HPAP administrator.

Homebuyer Education (8-hour class) (A DHCD Certification should be provided to 8-hour Homebuyer Education attendees and recorded with DHCD.)

Post-Purchase follow-up (Records of those follow-ups should be maintained by the organization. See Post-purchase in Service A1)

Organizations will be responsible for: (1) the application process, which includes delivery of completed applications to the HPAP Administrators; (2) completion of the application form itself and collection of all required supporting documentation, and (3) maintaining performance and reporting data, and databases as needed by the Department.

A4: Inclusionary Zoning Orientations

Introduction to IZ/ADU Programs:

The District's Inclusionary Zoning (IZ) Program requires a certain percentage of units in a new residential development, or a substantial rehabilitation that expands an existing building, be set aside as affordable units. The goals of this program are to increase the supply of affordable housing for low- and moderate-income households, to support the creation of mixed-income communities, to prevent rising home prices from driving out low- and moderate-income residents, and to leverage the expertise and capacity of the private market to develop affordable housing.

Affordable Dwelling Units (ADUs) are defined as for-sale and for-rent homes that are locally restricted for occupancy by households whose income falls within a certain range and are generally offered at a below-market rate. ADUs are generally produced in exchange for zoning relief, tax incentives, public financing, and/or the right to purchase or lease District-owned land. Specific ADU provisions, such as the affordability period, income limits, and resale restrictions, are set out in deeds, covenants, land disposition agreements, ADU administration plans and other originating documents.

ADU provisions have historically varied from project to project, as each is a result of a unique negotiation or project approval. However, ADU restrictions are becoming more standardized and more similar to standard IZ requirements.

Organization roles and responsibilities:
Provide mandatory IZ Orientation. The department's PowerPoint presentation must be utilized. Presentation and answers to participants' questions must conform to agency guidelines.

DHCD seeks organizations which will provide programmatic rental and homeownership counseling services in support of both of the above programs. Information about these

programs is available through DC Housing Search https://www.dchousingsearch.org , counselors will be required to utilize DC Housing Search, and train potential customers in how to search for affordable housing through DC Housing Search.

Grantees will be required to become familiar with the program requirements and procedures, as required by DHCD. In the last few fiscal years, the IZ program has produced approximately 400 new affordable units each year.

Orientation:
In particular, organizations are required to conduct IZ Orientations to help residents to be familiar with all programmatic requirements for the IZ program.

Organizations must conduct and coordinate this mandatory orientation session in a traditional and virtual classroom settings. They must provide interested applicants/residents with the relevant terms of the program, including next steps and other information as required by DHCD.
DHCD currently provides standard slides and certificate templates to use for this orientation and will provide training to grantees.

Completion of this orientation class is mandatory before an individual may register for the IZ program and individuals must renew registration every two (2) years to remain on the IZ registration list.

The class must be conducted at least monthly beginning within 30 days after the grantee's application is approved. Coordination of this class will include publishing upcoming class dates, accepting reservations via phone, email, or other method, allowing walk-ins if space is available, providing attendees with a certificate of completion (in a format approved by DHCD) upon completion of the class and providing at least monthly attendee data to DHCD. It will also include ensuring that attendees receive all required training materials, and shall be presented by grantee staff, not outside speakers.

Grantees must train program participants in the terms and specifics of the IZ and ADU Programs (training guidance will be provided by DHCD) and provide additional pre and post homebuyer education training.

Grantees must also provide data to DHCD on a regular basis as determined and requested by DHCD, including but not limited to the names and contact details for individuals who have received a DHCD certificate and the number of attendees at IZ orientations.

A5: Income Certifications for the IZ/ADU Units Programs

The agency seeks two organizations to provide income certifications for participants in the Inclusionary Zoning and Affordable Dwelling Units programs. Income certifications are expected to be conducted under a uniform process prescribed by DHCD and following HUD Part 5. DHCD has established requirements for approving Certifying Entities, including

specific IZ and ADU training.

Grantees are expected to become Certifying Entities pursuant to DHCD requirements. Grantee organizations will be required to ensure that program participants understand that income and occupancy restrictions apply to their IZ units and ADUs. Grantees will also be expected to complete income certifications for newly selected households and for renewing tenants. Grantees will be working closely with individuals, property management/leasing staff, sales agents and DHCD. DHCD will provide the necessary forms and procedures, but Grantees will collect the necessary paperwork from individuals and complete the income and household size verification process. Upon successful certifications, Grantees will notify DHCD and the sales/leasing staff.

Such restrictions may include but would not be limited to: (1) the specific affordability period, (2) conditions for, or prohibitions against, subleasing, and (3) resale restrictions. Ongoing outreach and assistance to occupants of IZ units and ADU is required in the areas of programmatic requirements and homeownership counseling.

A6: Income Certification for PADD Applicants

The Property Acquisition and Disposition Division (PADD) encourages vacant and/or abandoned property owners to rehabilitate and/or occupy their properties. PADD acquires vacant, abandoned, and deteriorated properties through negotiated friendly sale, eminent domain, donation, or tax sale foreclosure, when owners are unwilling or unable to maintain their properties. PADD also disposes of properties in inventory by selling them to individuals or developers to be rehabilitated into high-quality affordable and market-rate single-family and/ or multi-family for-sale or rental housing in District neighborhoods.

For DHCD, the activities of this Division create affordable homeownership and rental opportunities for low- and moderate-income households. Grantees must counsel these households as they qualify for and occupy these new homeownership and rental units. DHCD seeks one or more organizations which will provide counseling or training services for affordable units made available through PADD.

Because PADD units are not produced through a traditional homebuyer program, an intensive marketing and outreach effort to our target population will be required of grantees. Counseling services will also involve conducting income certifications and re-certifications for purposes of admission and continuing participation in this program. Income certifications are expected to be conducted under a uniform process prescribed by the Department. For PADD, grantees must ensure that program participants understand that income, or occupancy, restrictions apply to their unit. Such restrictions may include but would not be limited to: (1) the specific affordability period; (2) conditions for, or prohibitions against, subleasing; (3) potential rent increases; and (4) resale restrictions. The specific unit covenant

terms will be communicated to stakeholders by the Department, but grantees must facilitate communication with stakeholders.

A7: Public Services: General Coaching and Information

Public Services may be undertaken by Applicants which have not yet obtained HUD Approval and may not employ a HUD certified housing counselors. (HUD Approved organizations who are applying for A1 or A2 do not need to apply for this service, since they are able to provide these Public Service activities in connection with their other lines of services.

These activities are frequent but not exclusively in a group setting. These may be virtual or in-person, as long as an in-person option is provided. Grantees may utilize Homebuyer Clubs as an effective tool for keeping clients engaged in homebuyer preparation when a long-term period is needed for better positioning to be a first-time buyer.

They may include group trainings on understanding credit and credit reports and involve savings programs.

Public service staff are required to train clients to utilize available tools, such as DC Housing Search https://www.dchousingsearch.org to locate affordable housing for sale and for rent.

CATEGORY B: COUNSELING AND TRAINING FOR HOME PRESERVATION

B8: General Home Management (Post-Purchase Non-Delinquent)

Post-purchase counseling is essential for Homeowners who have purchased their homes, are not delinquent in their mortgage payments and would like to remain successful by creating a realistic financial plan to avoid financial pitfalls and protect and retain their homeownership. Post-purchase counseling is essential to understand local post-purchase behavior, especially low-moderate income homeowners, that can be supported by education and supportive programs to ensure recent homeowners understand what to do in the event of hardships. Organizations that provide post-purchase counseling sessions and education workshops will ensure their topics consist of the following:

1. Prepare a maintenance plan for major household systems and repair strategies.
2. Emergency preparedness plan to assist client in case of disaster.
3. Understand consequences of not paying taxes, HOA payments or community assessments.
4. Explain the benefits of establishing an emergency fund and retirement or tax-incentivized accounts.
5. Provide knowledge of home improvement financing options like HELOCs and give counsel on how to apply for additional financing to renovate property.

6. Access the client's understanding of the process of refinancing the home and incurring more debt.

This counseling activity may include, but not be limited to, appliance warranty disputes, contractor disputes, disputes with mortgagors, will and estate issues, including transfer-on-death deeds, etc. In this service, grantees must serve as advisor-educators and are prohibited from giving legal advice. Grantee activities should focus on low—and moderate-income populations.

B9: Foreclosure Counseling

Homeowners who are delinquent in loan payments (as well as those in danger of delinquency) need to know what options are available to them. Similarly, those in foreclosure need to know their options and resources that may assist them, especially if available legal services are available.

Organizations are required to provide foreclosure prevention counseling that helps homeowners at risk understand the foreclosure process in Washington, DC, determine their legal rights and identify options to avoid foreclosure.
Organizations will assist struggling homeowners with loss mitigation, communicate with mortgage servicers and provide services such as the following:

1. Provide advice and coaching to assist clients with creating a budget based on financial goals. Assess the current financial situation and develop short and long-term strategies to reduce expenses and debt to achieve client goals.
2. Explain loss mitigation. Explain the requirements of a loss mitigation package and evaluate the client's loss mitigation options for FHA and non-FHA loans.
3. Provide examples of mortgage default scams and ways to avoid being a victim.
4. Explain the consequences and costs associated with a foreclosure, short sale, or deed-in-lieu.
5. Explain the foreclosure timeline and devise a plan if the client is unable to stay in the home and assist the client in mortgage default recovery. Demonstrate the impact of a mortgage default.
6. Work with displaced residents seeking referrals for housing.

Grantees work with homeowners who are delinquent in their mortgage payments, or who are in foreclosure, or in post-foreclosure. These counseling services are also offered to owners of multi-family properties, and ownership associations. This counseling serves as a central element of DHCD's overall foreclosure prevention strategy.

It is critical to address the District's foreclosure crisis. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Grantees also work with the Department of Insurance Securities and Banking (DISB) to protect clients against scam operations that prey upon residents who are subject to foreclosure. Grantee organizations extract data for outreach and targeting efforts from the Office of the Recorder of Deeds, which provides a listing of all official foreclosures in the

District on a weekly basis. DHCD seeks one or more organizations that will provide foreclosure counseling services which include, but may not be limited to, all of the above-described foreclosure prevention activities.

For grantees, this counseling function means working with troubled homeowners, utilizing all foreclosure prevention or mitigation tools available, and if necessary, working with customers throughout their foreclosure or post-foreclosure process. Grantees must provide full assistance and advice to troubled homeowners. Grantees will be responsible for: (1) assessing the homeowner's circumstances, (2) educating the homeowner about the full implications of mortgage delinquency and foreclosure (3) exploring and providing options of action for the homeowner (4) providing tools or alternative support that may further assist the homeowner (5) developing and executing a best action plan for either saving the home or undertaking the best course for the homeowner, and (6) tracking the results of their counseling efforts. In addition, grantees will provide ongoing performance and reporting data and databases maintained.

Post-Foreclosure Counseling: It is critical that grantees continue their counseling relationship with customers, even if the home cannot be saved. Grantees must follow up with troubled homeowners for a period of time after any action plan has been executed. If the home has not been saved, counseling should be made available, and if necessary, referral to other needed services. If the home has been saved, counseling follow-up is also necessary to ensure that the ongoing action plan is being properly implemented. If more problems arise, it will be the grantee's responsibility to address them as quickly and as efficiently as possible.

With the passage of the Saving DC Homes from Foreclosure Emergency Amendment Act of 2010, troubled or delinquent District homeowners have the right to engage in mediation prior to foreclosure. As a result, DHCD requires grantees to provide counseling related to this mediation process.

Grantees must be familiar with the Law, its regulations, and the mediation process which has been implemented by the Mediation Administrator at the DC Department of Insurance, Securities, and Banking. Grantees must educate troubled homeowners in the decision factors related to mediation election, and, if necessary, prepare them for mediation. In some cases, counselors may be asked to accompany, or represent, troubled homeowners in the mediation process. Grantees must ensure that all customers who elect mediation complete and submit proper documentation in a timely manner. Grantees must ensure that the best interests of troubled borrowers are protected throughout the mediation process. Finally, DHCD expects grantees to follow-up after the mediation process is complete to ensure that any final mediation agreement is properly implemented.

B10: Eviction Counseling

Applicants who have HUD certified counselors or NeighborWorks America foreclosure certified counselors may offer this service. Counselors are continually trained and provided with the most effective and up-to-date tools to use in their counseling efforts whether by HUD by NeighborWorks America or other recognized training providers. Training should also include knowledge of laws and legal procedures governing eviction.

Eviction has long created housing instability for renters, and especially among low- and moderate-income households. For those at the lower end of the economic scale, eviction has caused not only housing instability but also employment insecurity and homelessness. Studies have shown that lack of access to legal representation has resulted in markedly different and detrimental outcomes as compared to renters who have legal representation. After legal representation, the next most effective range of services includes alternative dispute resolution (or mediation), knowledge and guidance in court navigation, and effective management of legal and tenant-landlord documents. In addition to housing instability, eviction also has credit impact for the tenant.

It is critical to provide those in danger of eviction with counseling to make informed decisions. This includes access whenever possible access to legal services. Also, appropriate training includes information about tenants' rights and obligations, the credit impact of eviction, use of payment plan agreements, understanding of court processes and procedures, and access to alternatives to court procedures. When tenancy is lost, counseling for housing alternatives is needed and a path forward to credit repair.

B11: Single-Family Residential Rehabilitation Program

The Single-Family Residential Rehabilitation Program (SFRRP) administers grants to District homeowners for roof repairs and for modifications to eliminate barriers to accessibility for persons with mobility or other physical impairments. Projects approved for SFRRP require a covenant on the property to protect the District's funding of the project.
DHCD seeks one or more organizations which will provide application intake services to SFRRP applicants throughout the grant process.

> **Mandatory Counselor Intake Training:** Grantees for this line of service are required to attend training with the SFRRP team in September to be introduced to updated aspects of the SFRRP for FY25. It is critical that the grantee have a solid understanding of the updated program and the requirements for applications. Therefore, the September training is mandatory for SFRRP intake counselors.
>
> **Application Period:** Applications for SFRRP will only be taken between October 1, 2024, and December 31, 2024. To be considered applications during this period must be complete. Lack of required documentation or information will not "hold a place" in the program if not provided before the December 31, 2024. The Department at its sole discretion reserves the right to close the program prior to the deadline if funding is depleted or no longer available.

Information Session for Applicants: The Department will provide Grantees with a PowerPoint presentation outlining the program and its requirements. Intake counselors are required to use this presentation with all potential applicants either in a group sessions (such as an Orientation) or in a one-on-one session with the potential applicant.

Grantee's and Counselor's Responsibilities: (1) use the Department PowerPoint presentation to present the program to potential applicants, answering questions from residents interested in the program; (2) complete the application document and collection of **all required** supporting documentation *(incomplete applications will not be accepted)*; (3) post-application and post-grant support; and (4) providing performance and reporting data as required.

45 Day Period: It is critical that no application be uploaded in the SFRRP portal unless it is complete with all required documents and intake form completed. If an incomplete application is uploaded in the portal, the SFRRP staff will notify the counselor and the applicant that the application cannot be accepted. The notification state that what is complete and state the **applicant has 45 days** to provide the requested information including documents. After 45 days if the application remains incomplete, the application will be closed as incomplete for funding.

Application Portal: Counselors will need to provide their name and contact information (e.g. email) when uploading in case SFRRP program staff need to follow up.

Legal Citations Governing Program Area for Category B:

Applicants to provide any service in Category B should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

- Lead Safe Washington 24 CFR, Part 35, 24 CFR, Part 85.37, Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992
- Single Family Rehabilitation 14 DCMR, Chapter 28 First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
- Saving DC Homes from Foreclosure Emergency Amendment Act of 2010 (DC Act 18-635; 57 DCR 12404)

B12: Legal Services for Homeowners and/or Coop & Condo Associations

The Department seeks organizations to provide legal services to provide one or both of the services noted below. Grantees will conduct outreach to low- and moderate-income populations in need of these services.

- Legal Services to Seniors
  Seniors who are homeowners can be assisted by the Applicant to have legal services to assist Seniors to avoid housing instability or the loss of ownership of their home. In addition to their own attorney staff, Applicants may seek *pro bono* services from other members of the Bar.

- Legal Services to Coop-Condo Associations
  Legal services may be provided to Cooperatives and/or Condominiums ("Associations") to ensure housing stability. If Associations have problems in areas of legal entity status, required legal or financial filings, compliance issues, risk management concerns, board and member training, best legal practices, and collection of association fees (to name of few), such issues may threaten the member's housing stability, and the owners' (or members') investment in their properties. Selected applicants will provide legal services to Associations in low- and moderate-income census blocks to mitigate these concerns, to preserve housing stability of owners and to ensure well-functioning Associations and Boards.

B13: Technical Assistance for Coop and Condo Associations

The Department seeks one or more organizations to provide technical assistance to Associations. The situation many Associations may face is a need for training in best practices of Association management. Training in best practices and frequently encountered problem situations may be offered by the grantee not only to the Association Board but also to the owners in the Association. Association boards and their member owners frequently face issues of association fees not being paid, lack of income to fund reserves, special projects that would require a special assessment, and decisions of taking court action or being the defendant in a court action. These are just a few of the legal issues which may arise for the Association, in addition to the more routine matters of by-laws and required legal documents for the operation of the Association.

B14: Technical Assistance for Landlords of Small Rental Properties

Landlords of small rental properties face enormous challenges. They frequently lack the staff and the resources of large multi-family properties to deal with the many details of operations and asset management. Small unit properties cannot readily absorb mistakes or challenges.

In a ten-unit property, one vacancy is a 10% vacancy rate, while one unit in a 100-unit property is 1% vacancy rate. Yet, small unit properties are often the affordable renter properties. To preserve this housing stock as an affordable option, DHCD seeks grantees to provide Technical Support to Owners of Small Unit Properties (of 30 units or less).

Services can be provided through group training as well as through one-on-one counseling. Like many small business owners, owners can often benefit from a better understanding of accounting practices and financial statements (balance sheet, income statement, cash flow report). Knowledge of financing options is another common to many business owners. Topics such as these are particularly suitable to the needs of owners.

1. **Property Management Software**: Landlords often need help selecting and implementing property management software to track rent payments, maintenance requests, tenant information, and other critical operational data.

2. **Legal Compliance**: Guidance on navigating complex local, state, and federal housing laws and regulations related to fair housing, security deposits, evictions, and other landlord-tenant issues.

3. **Financial Management**: Guidance with accounting, tax preparation, and financial planning specific to rental property ownership and operations.

4. **Maintenance and Repairs**: Access to vetted contractors, tradespeople, and service providers to handle property maintenance, repairs, and upgrades in a timely and cost-effective manner.

5. **Tenant Screening and Selection**: Guidance and best practices with tenant screening processes, background checks, and selecting responsible renters to minimize vacancies and evictions.

6. **Marketing and Leasing**: Help with listing vacant units, advertising, showing properties, and executing leases to keep units occupied.

7. **Emergency Response**: Guidance on developing emergency plans and protocols to address unexpected events like natural disasters, property damage, or tenant issues.

8. **Asset Management Issues**: The ratios and metrics of asset management for multi-family properties provide a helpful guide to best practices. For example: Many landlords are unaware of the effect that certain metrics have in their properties. Slow "Make-Ready" times, refers to the length of time it takes to prepare an apartment to be shown to prospective tenants. Similarly, "turn time" refers to the times it takes to find a renter and receive the first month's rent. Slow turn times are also a drain on resources. When there are slow "make ready" and slow "turn times" the combined effect can be detrimental for the property's future. High turn-over rates among renters is another draw on the income. Other issues and topics include: What to do when you have a tenant who is not paying rent? What are the alternatives to eviction? How do the Court work? Are there pre-eviction resources? What legal services are available to the owner?

CATEGORY C: TENANTS AND TENANT GROUPS: SERVICES RELATIVE TO Tenants Opportunity to Purchase Act, Rental Conversion and Sale Division, and Rental Accommodations Division

The DC Tenants Opportunity to Purchase Act (TOPA) seeks to protect tenants and tenant groups from displacement due to sale of the property. The law allows tenants to purchase their apartment building. Tenants have the choice of maintaining the apartments for rent or converting to cooperatives or condominiums. DHCD seeks to preserve affordable housing in the District and limit displacement of low- and moderate-income households. For groups that choose coop or condo conversion, this provides a path to homeownership.

DHCD provides both financial assistance and technical assistance, as well as specialized organizational and development services, for tenant groups who are pursuing the purchase of their apartment buildings. Through DHCD's Development Finance Division, organized tenant associations may be provided with seed money, earnest money deposits, and acquisition and/or rehabilitation assistance. After acquisition and rehabilitation, DHCD also provides ongoing Board training and property management support to the newly formed cooperative or condominium Boards.

C15: TOPA: Pre-purchase Training

DHCD seeks one or more organizations which will provide pre-acquisition organizational and developmental counseling and training to tenant groups or tenant associations in support of their intent to purchase their building. These tenant groups must be preliminarily qualified as eligible for DHCD's Tenant Purchase Technical Assistance program. Grantees must provide the following services to tenant groups:

a) establishment of a tenant association.
b) selection and appropriate training of Board members.
c) training of captains (court, building and floor).
d) training in roles and functions of committee members; (5) training tenant groups in detail about the building purchase process.
e) training tenant associations in property management techniques.
f) provide training to the tenant association on each type of ownership; and conducting surveys of tenant associations to determine the appropriate form of ownership for their building (cooperative or condominium).

It is critical that Grantees in this service maintain an outreach to educate and inform low- and moderate-income tenants about their rights and opportunities provided by TOPA. Grantees are encouraged to make this a central aspects of their marketing plan, and to create

opportunities as well as avail themselves of opportunities to participate in educational outlets to reach tenants. Collaboration with other Grantees in this or similar service lines is encouraged. Grantees should participate in DHCD when and as those opportunities for outreach are available.

While training the tenant association, the grantee must be able to prepare and submit appropriate documentation required in the purchase process, including but not limited to tenant profiles and feasibility analyses, response to Notice of Sale of Building, preliminary development, acquisition, and rehabilitation plans, and operational plans.

The grantees must have skill and experience in negotiating the lease or purchase of the building. In addition, grantees must assist tenant groups in procurement related to the development, purchase, and rehabilitation process, including but not limited to attorneys, architects, engineers, financial and developmental consultants, private developers, appraisers, and property managers.

C16: TOPA: Post-Purchase Training

DHCD seeks one or more organizations which will provide ongoing post-acquisition counseling services which include property management and Board training for properties which have been purchased and/or rehabilitated with financial assistance from the DHCD Development Finance Division's First Right Purchase program. Generally, these are multi-family properties that have been purchased through limited equity cooperative agreements or condominium purchases. Therefore, non-profit Board training and development skill and/or experience, as well as multi-family property management skills are critical to providing effective counseling services. Services to be provided under this activity may include, but are not limited to:

a) establishing standards of evaluation for each participant's financial status and leadership capacity.
b) conducting annual management reviews of all Boards, oversee election and
c) training of new Board members.
d) assisting in the establishment of appropriate arrangements with required service providers such as exterminators, garbage collectors, landscapers, etc.
e) assisting in capital management planning and a stabilization plan for rehabilitation and/or refinancing.
f) tracking property vacancies and reviewing new applications for membership.
g) establishing and reviewing membership guidelines.
h) technical assistance in accounting, budgeting, and the preparation of financial statements for long-term financial viability.
i) providing Board of Directors with training as appropriate; and

j) other required management and support duties. Grantees will assist the condominium or cooperative in developing a budget for the overall management and carrying costs of the property.

Grantees will assist the Board and membership in all aspects of management, such as completion of the audit, Fair Housing issues, required individual, property, and Board insurance, taxes, the role of Board officers, evaluation of monthly financial performance, training on lender compliance, i.e. loan payments, income requirements. DHCD will likely negotiate assignment of specific properties to grantees for this service.

Legal Citations Governing Program Area in Category C:

Applicants to provide any service in Category C should review in detail the following legal citations governing the District's home preservation programs or services. Submission of an application intending to provide any of these services presumes that the applicant intends to meet all requirements to provide counseling and/or training for home preservation pursuant to the relevant citations.

First Right to Purchase Program 14 DMCR, 2700, and 14 CDMR 4700
Tenant Purchase Technical Assistance Program DC Code 42-3404.02
Rental Housing Conversion and Sale Act of 1980, as amended (DC Code 42-3401.01 et. seq.) (Also known as the Tenant Opportunity to Purchase Act or "TOPA")

C17: Services for Tenants and Tenant Organizations
(in partnership with Housing Regulation Administration, Rental Accommodation Division, Rental Conversion and Sale Division).

Activities under this service will supplement and enhance the services provided by DHCD's Housing Regulation Administration (HRA), which includes the Rental Accommodations Division (RAD) and the Rental Conversion and Sale Division (CASD).

RAD administers the Rental Housing Act of 1985 (D.C. Official Code § 42-3501.01 et seq.) which regulates residential rental housing registration and the rent stabilization program (commonly known as rent control). RAD oversees rent adjustment procedures, processes notices to vacate, reviews tenant petitions prior to adjudication by the Office of Administrative Hearings and adjudicates most types of landlord petitions. RAD also proposes rules and regulations for administration of the Rental Housing Act for review and publication by the Rental Housing Commission.

CASD administers the Rental Housing Conversion and Sale Act of 1980 (D.C. Official Code § 42- 3401.01 et seq.) which regulates the sale or transfer of ownership interests under the

Tenant Opportunity to Purchase Act of 1980 (TOPA) (D.C. Official Code § 42-3401.01 et seq.), the conversion of use of rental housing to condominium or cooperative ownership and residential condominium formation and registration under the Condominium Act of 1976 (D.C. Official Code § 42-1901.01 et seq.). Further, CASD administers a Housing Assistance Payment program (HAP), under which tenants may be eligible for rent assistance if they are displaced due to the conversion of use of their apartment building to condominium or cooperative ownership.

CASD also proposes rules and regulations for administration of the Rental Housing Conversion and Sale Act of 1980.

DHCD seeks one or more organizations which will support RAD and CASD operations by providing counseling and tenant education services to tenants and tenant groups. Grantees must provide counseling and training assistance to tenants and tenant organizations regarding the District's rental housing laws and tenant and landlord rights and responsibilities.

For CASD, grantee organizations must provide counseling and training concerning: (1) tenants' TOPA rights when a landlord intends to sell, demolish, or discontinue rental housing use; (2) transfers of rental housing ownership or economic interests; (3) assisting tenants or tenant organizations in exercising their right to purchase; (4) informing tenants or tenant organizations relating to partner-investors and assigning TOPA rights; (5) conversion of use from rental housing to condominium or cooperative ownership by tenant elections, or conversion in lieu of tenant elections; (6) the Housing Assistance Payment program and relocation assistance; (7) tenant organization formation, incorporation, and registration; (8) protections for elderly or disabled tenants; (9) coercive or retaliatory activities; (10) tenant rights when rental housing is in foreclosure; (11) notices of intent to convert use from rental housing to condominium or cooperative ownership; and (12) relocation counseling for displaced tenants.

For RAD, service providers must demonstrate the ability to counsel and train tenants and tenant organizations on rent control provisions including properties that are regulated by or exempted/excluded from rent stabilization under the Rental Housing Act:

1) petition- based and annual rent increases.
2) executing and filing tenant petitions.
3) responding to landlord petitions.
4) protections for elderly and disabled tenants.
5) RAD's conciliation services.
6) notices to vacate and eviction procedures.
7) disclosures to tenants.
8) changes and decreases in services and facilities.

9) learning about and securing enforcement of housing condition regulations.
10) security deposits.
11) understanding lease provisions.
12) rent increases if a property is not under rent control.
13) appealing decisions of the Rent Administrator or the Office of Administrative Hearings; and
14) relocation counseling for displaced tenants. Note: Advocacy on behalf of tenant groups, or tenant rights assignees– including, but not limited to, legal advice or advocacy on tenants or tenant organizations' behalf in negotiations with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators, and not as advocacy groups. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns, or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a grantee is to ensure that tenants understand all available options.

Direct Counseling to Tenants and Tenant Groups: tenant counseling services will be designed to educate tenants in privately-owned properties about their legal rights and opportunities. This service is to be provided to tenants and tenant groups which are not subject to foreclosure and have not selected to exercise their Opportunity to Purchase Rights and/or Right of First Refusal under TOPA. It also includes providing other services and tenant education, which may not fall into the categories of services outlined above, such as eviction counseling, relocation counseling, apartment search, or apartment management.

DHCD seeks one or more organizations with the capacity to bring a range of resources to prevent involuntary displacement and to provide opportunities for continued affordable rental housing. Grantees must provide counseling services to tenants and tenant groups which include, but are not limited to: (1) outreach to tenant groups upon notice of one-year potential for subsidy expiration; (2) technical assistance in negotiations between owners and HUD relative to the renewal of federal subsidy contracts; (3) counseling for tenants in buildings where the subsidy will be lost and the tenant(s) must move; (4) counseling for tenants who are behind in their rent on best-action options; and (5) appropriately referring tenants who are in landlord/tenant disputes to all available resources. Grantees must also conduct research using the many databases and research tools available to identify properties that have a critical need for counseling assistance, including but not limited to DCHousingsearch.org. Note: Advocacy on behalf of tenant groups or tenants' rights assignee –including, but not limited to, legal advice or advocacy on tenants or tenant organizations behalf in negotiations

with a property owner—is expressly beyond the scope of required services for grantees.

Grantees are expected to understand their role as tenant educators and not as tenant advocates. They must manage the various resources of the District Government to ensure that tenant rights and responsibilities are understood. Further, DHCD will not support organizations conducting activities for properties that the organization owns or in which it has an ownership interest.

Additionally, in the event of a development or purchase opportunity for the tenants, the role of a prospective grantee is to ensure that tenants understand all available options.

Additional Legal Citations Governing Programs in Category C.

Applicants to provide any service in this Category and should review in detail the legal citations governing DHCD's rental accommodation functions:
(1) the Rental Housing Act of 1985, D.C. Official Code § 42-3501 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapters 38-44.
(2) the Rental Housing Conversion and Sale Act of 1980, D.C. Official Code § 42-3401 et seq. and title 14 of the District of Columbia Municipal Regulations, Chapter 47.
(3) the Condominium Act of 1976, D.C.

Official Code § 42-1901 et seq.; (4) D.C. Official Code § 42-1901 et seq.; (5) the First Right to Purchase Program, title 14 of the District of Columbia Municipal Regulation, chapter 2700; and (6) Housing Conditions, Title 14 of the District of Columbia Municipal Regulations, Chapters 1-15. Submission of an application relevant to these services presumes that the applicant intends to meet all requirements to provide counseling to tenants and tenant groups pursuant to these above referenced citations.

3.3 Geographic Distribution of Services

The Department's decision to select one or more grantees to provide services will be influenced by the potential geographical distribution of service among the qualified applications received. Applicants can designate their proposed service areas in the District based on their by-laws, Board policies, etc. However, the Department reserves the right to designate any service areas it deems appropriate or necessary in making awards and negotiating grant terms. In reviewing the applicant pool, the Department's priority will be to ensure that excellent affordable housing counseling and training services are provided to all low- and moderate-income citizens of the District of Columbia. The Department will seek to bring parity in the quality of all housing services provided for all areas of the District through the award and ongoing management of these grants.

3.4 Marketing and Outreach

Marketing Plan to be submitted: Marketing and outreach are critical aspects of the grant's work. Grantees' efforts ensure these programs and services' success and desired impact. No Grantee or service is exempt from this requirement. Applicants must submit a detailed marketing and outreach plan for the services they are applying for. The plan should be detailed and not assume an understanding that has not been stated. Marketing should be included in the proposed budget and work plan.

DHCD will review and approve the marketing plan. In accordance with agency policy, marketing activities should highlight partnerships with and funding by DHCD.

Aspects of Marketing and Outreach to be considered:

- Continuous and consistent marketing and outreach are essential to achieving these services' objectives and maximizing public awareness of DHCD housing programs.
- Because of DHCD's diverse target population, grantees must utilize various marketing tools.
- Grantees are responsible for distributing DHCD program materials at community forums, public events, homeownership meetings, and fairs. Marketing and outreach may include but are not limited to, websites, email blasts, blogs, listservs, Twitter, Facebook, YouTube, Hope Hotline, flyers, door-to-door visits, community meetings, use of cable television (Channel 16), and public service announcements.

Coordinated with the Department: The grantee's marketing and outreach must be coordinated with DHCD. Grantees are expected to continually assess the success and impact of their marketing efforts to identify the most effective and efficient ways of reaching low– and moderate-income populations.

Participation in Department Marketing Activities: As required by DHCD, Grantees must participate in public activities and events related to housing opportunities. These may include but are not limited to tabling at events, participating in panel discussions, and providing speakers to groups, agencies, or organizations that request them.

DHCD Acknowledgement: Grantees must always acknowledge such housing assistance activities as Department of Housing and Community Development programs in any distributed print or electronic materials. DHCD must approve all such materials before distribution.

Use of DHCD Logo: All written or printed materials distributed or posted by Grantee that publicize the activities being funded by the D.C. Department of Housing and Community Development shall include information that the service, activity, or program is being supported and funded, partially or entirely, by the Department.

1. The written or printed materials must include the authorized DHCD logo.
2. Written or printed materials include, but are not limited to, newspaper, radio, and television announcements or advertisements. Websites, stationery, publicity materials, and written media communications, including newsletters, flyers, and brochures.
3. Grantees must abide by DHCD style guidelines when using the authorized DHCD logo.

4. The grantor may require that specific templates be used when promoting certain grant-funded programs. In those instances, DHCD will provide the templates and instructions to the Grantee.
5. The grantee must provide copies of all marketing materials, brochures, flyers, and other materials that publicize grant-funded activities to the Grantor via email at dhcd.occo@dc.gov
6. The grantee shall publicize as appropriate to its constituency through social media, print, and online postings, DHCD communications, and events related to Grant-supported activities.

Diversity and Language Access in Marketing: Grantees must demonstrate the capability to effectively serve and communicate with the District's various non-English speaking and special needs populations. This means that marketing and outreach materials must be made available in multiple languages and media based on the needs of those populations. The grantee must demonstrate its intent and capability to comply with the District's Language Access Law. In addition, grantees must demonstrate the availability of appropriate staffing to ensure compliance with the District's Language Access Law.

3.5 Focus Areas and Neighborhood Revitalization Strategy Areas (NRSA)

DHCD has identified specific areas of the District as "Focus Areas." These Areas represent areas where the District has invested in funding to create and preserve affordable housing. Focus Areas follow main routes through the District and their associated neighborhoods. In many cases, business owners are centered on these major routes, while resident services will be seen as more appropriate for those in the communities. Applicants must ensure services are delivered to low- and moderate-income households or areas as part of their program (Housing Services, Small Business Technical Assistance, Façade Improvement). This is a CDBG requirement.

- For Housing Counseling applicants, these Focus Areas should be used to plan outreach activities to inform residents of their services.
- For SBTA and Façade grantees, the Focus Areas define the geographical areas of the District in which they will provide services. In this latter case, the Focus Areas define not only their outreach area but also their service area.

NRSAs Targeting East of the River

The Department obtained the HUD designation for the Neighborhood Revitalization Strategy Area (NRSA) for the Focus Areas in Wards 7 and 8. DHCD has designated areas of Historic Anacostia in the city's Southeast and Far Northeast communities as Neighborhood Revitalization Strategy Areas (NRSAs). This designation will allow the city to target Community Development Block Grant (CDBG) funding that supports economic and community revitalization efforts. These include Martin Luther King Jr Avenue, Marion Barry Avenue, Minnesota Avenue, and Benning Road. However, all areas of Ward 7 and Ward 8 remain the focus of the grantee's work and outreach.

For communities outside of the NRSA areas, DHCD has designated Focus Areas throughout the District. Applicants are encouraged to partner with other community-based organizations. This collaboration can include cross-disciplinary collaboration. For example, a Façade grantee may partner with an SBTA grantee to provide business owners various services encompassing both disciplines. Housing service grantees may partner to promote or provide services one grantee offers, but another may not. The key to collaboration is an outlook of being partners, not competitors.

The following is a list of the Focus Areas and some of their associated neighborhoods. The outreach plans can include other nearby neighborhoods, mindful of the low-income requirements. Each applicant is asked to select one or more Focus Areas for their application. Please note that this is a minimum, and applicants may choose more than three. Applicants will be asked to provide reporting on outreach activities.

The following is a list of the Focus Areas outreach plans, mindful of the low and income requirements.

Instructions Show/Hide

As in the past, Performance Reporting is divided into three sections:

- **Workplan Metrics** (numbers only),
- **Accomplishment Narrative** (Text Boxes), and
- **Various uploads** (spreadsheets usually).

This data is extremely important. Reports can affect performance goals and funding. Your reports are used to report to the City Administrator, the Mayor (including DMPED) and to the District Council and its Committee on Housing. Where uploads are required, **use excel files or Word files.** This will allow your information to be uploaded into the database and reported to District leaders.

For **Workplan Metrics,** use only numbers or leave it blank. **Letters such as N/A are to be avoided.** This will make your report impossible to be uploaded in the DHCD database and will require your corrections. Only numbers zero (0) and above can be used. If a metric is left blank, it will be treated as a zero.

In the **Accomplishment Narrative,** text boxes are provided to provide statements of activities or the information requested. In the first Report, please answer Question 22 (Points of Contact) with all points of contact for the areas mentioned. Thereafter in subsequent months, if there are no changes, it is okay to say, "No Changes". The same is true for Question 21 (staffing). Please answer Question 23 (Success Stories), Question 24 (Good News), Question 25 (Other DC agencies and initiatives). Question 26 is important. Remember the RFA asked applicants to align outreach to the Focus Areas mentioned on pages 33 and 34 of the RFA. Mentioning specific Focus Areas in the narrative for Q26 is helpful.

The **Document Upload** section is where excel spreadsheets (usually, sometimes Word Documents) are uploaded. **PDFs cannot be uploaded into database.** [The District of Columbia is fortunate to have many DC Based Programs such as HPAP, IZ/ADU, PADD, SFRRP, TOPA, HRA/RAD related activities, as well as direct services to tenants and tenant groups, and services to Condo/Coop Associations. DHCD staff need monthly reporting in order to better do their work and respond to the needs of DC citizens. These reports are shared directly with the appropriate program manager.]

There three areas of your activities will be reported on a monthly basis to help us meet our HUD and DC Government requirements and the needs of DC residents.

Reporting for Fiscal Year 2025 will begin with Report # 1. The end of Government's fiscal year (9/30/2025) will conclude with Report # 10 and the close-out of FY25 Purchase Orders. The complete schedule is below for the monthly report.

Other Reporting: Beneficiary Data and Language Access

Other reports are also required. These include **Beneficiary Report** and **Language Access Report.** These two reports are required on a quarterly basis. These reports will not be answered within ZoomGrants. The Office of Program Monitoring will provide the spreadsheets to use for these quarterly reports. Please see your Grant Agreement for additional information about the monthly and quarterly reports. Please note, the Beneficiary Report corresponds to the sources and uses of your Grant Agreement. A separate Beneficiary Report is needed for each type of funding awarded: Public Service (PS), Non-Public Service (NPS) and NRSA Wards 7 & 8 PS and NPS.

These quarterly reports will be due:

Oct/Nov/Dec 2/24/2025

Jan/Feb/March 4/10/2025

April/May/June 7/10/2025

July/August/Sept 10/10/2025

Please note we cannot extend these deadlines since they are HUD's deadlines and not in our control. Please submit your report on schedule.

Please remember HUD views reporting and reimbursement requests as inseparable and therefore to be coordinated at the same time. Please avoid not filing on the deadline.

AND

HOUSING COUNSELING SERVICES INC.

This Grant Agreement ("Grant" or "Agreement"), is made effective as of March 13, 2025, ("Effective Date"), by and between the District of Columbia, a municipal corporation (hereinafter referred to as the "District"), acting by and through the D.C. Department of Housing and Community Development (hereinafter referred to as "Department," "DHCD" or "Grantor") and Housing Counseling Services, Inc., a District of Columbia non-profit corporation Grantee [DUNS No. Unique Entity Identifier (UEI) NA6MQB4FM3C1] (hereinafter referred to as "Grantee") with its principal place of business at 2410 17th St NW Ste 100 Washington DC 20009. Grantor and Grantee shall be collectively referred to herein as the "Parties."

RECITALS

1. The Department with offices at 1909 Martin Luther King Jr Avenue SE, is undertaking the planning and execution of housing and community development activities in accordance with the District of Columbia's Community Development Program (hereinafter referred to as the "Program"), pursuant to the District of Columbia Community Development Act of 1975, D.C. Official Code§ 6-1001 *et seq.*, and the District of Columbia Reorganization Plan No. 3 of 1975.

2. The Department is authorized to fund community based non-profit organizations that provide housing counseling services for low- and moderate-income persons.

3. On June 7, 2024, the Department published a Notice of Funding Availability ("NOFA") in the D.C. Register, which announced the forthcoming issuance of the Fiscal Year ("FY") 2025 Request for Applications ("RFA") for the Neighborhood-Based Activities Housing Counseling Services Program ("HCSP"). The RFA was issued on June 21, 2024, that solicited applicants to provide services to District of Columbia ("District") residents as a part of the Department's HCSP. HCSP includes Public Services ("PS"), and Non-Public Services ("NPS") as defined in Section I herein. U.S. Department of Housing and Urban Development ("HUD") approved counseling agencies employing one or more certified HUD counselors are eligible to provide both PS and NPS services, while organizations which do not have HUD approval status may provide PS services only. The RFA included an opportunity for applicants to provide one or more of seventeen (17) services listed in the RFA. These services include HUD-approved counseling in keeping with 24 CFR 5.100 and related Federal regulations (in 2 CFR Part 200, and 24 CFR Part 214) as well as services related to local DC programs which are administered by the Department. The RFA and the requirements set forth therein are also incorporated by reference herein.

4. The Grantee's RFA application demonstrates that its organization possesses project management, and organizational and administrative capacity to successfully perform as a nonprofit grant subrecipient under the Department's HCSP, and accordingly DHCD has determined to award a grant to the Grantee in FY 2025 ("25" or "2025").

5. The Grantor proposes to fund HCSP grant activities in FY 2025 from its allocation of Community Development Block Grant ("CDBG") funds authorized by Title I of the U.S. Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.), 24 CFR Part 570.

6. As a condition precedent to disbursement of the Grant proceeds to Grantee for the sole and exclusive purposes described in Exhibit A (which includes the "Statement of Work" and the approved "Workplan", both attached hereto and made a part hereof), the Department requires that Grantee enter into this Agreement setting forth the terms and conditions of the Grant.

Section V. Statement of Work/CDBG Eligible Activities/Eligible Costs/Business Operations

A. CDBG Eligible Activities

1. Grantee shall use the CDBG Grant proceeds solely to fund Grantor-approved service activities that are intended to provide services and empower low- and moderate- income persons in the District of Columbia to make informed housing choices and achieve their housing goals, whether it's finding affordable rental housing, purchasing a home or obtaining financial assistance for critical home repairs.

The best way to provide this critical information to a client in order to assist them in their decision-making process is to adhere to 24 CFR 5.100[18] [in which a HUD certified counselor conducts (1) intake (2) financial and housing affordability analysis with affordability calculation (3) an action plan and (4) follow-up counseling to implement the action plan and achieve its stated goals].

The Grant services to be provided are described in Exhibit A. This description includes the major tasks, activities and project deliverables to be provided under this Grant. The Grantor reserves the right to alter or change the District of Columbia program requirements including eligibility, services provided, service methodology, service delivery and program goals during the performance period.

The proposed Grant activities are CDBG eligible activities pursuant to 24 CFR 570.201(e).

2. Grantee shall sponsor outreach events that inform the community about the Grant activities and participate in other community events as requested by Grantor.

---

[18] 24 CRF 5.100: "Housing counseling is independent, expert advice customized to the need of the consumer to address the consumer's housing barriers and to help achieve their housing goals and must include the following processes: Intake; financial and housing affordability analysis; an action plan, except for reverse mortgage counseling; and a reasonable effort to have follow-up communication with the client when possible. The content and process of housing counseling must meet the standards outlined in 24 CFR part 214. Homeownership counseling and rental counseling are types of housing counseling."

3. The Grantee must retain records which demonstrate that each activity funded under this Grant is CDBG eligible and document the amount of CDBG funds expended for each activity. This includes the activity itself, the outcomes, and the records concerning beneficiaries in keeping with subsection (B)(2) below receiving services. Any authorizations needed together with beneficiary statistical information should be obtained by the Grantee during intake or registration. HUD does not grant exceptions or authorize the District to make exceptions to this requirement.

B. CDBG National Objectives

1. All activities funded with CDBG funds must meet one of the CDBG program's National Objectives: 1) benefit low- and moderate-income persons; 2) aid in the prevention of slums or blight; 3) meet community development needs having a particular urgency, as defined in 24 CFR 570.208.

2. The Grantee certifies that the CDBG-assisted activities to be carried out under this Agreement will meet the National Objective of primarily benefiting low- and moderate-income persons (limited clientele activities) in accordance with Federal and District Requirements. The minimum threshold requires that at least 51% of the households served with CDBG funding must be low- and moderate-income households; provided however, that a Grantee whose application claimed additional scoring points for agreeing to provide Grant services to more than 51% low- and moderate-income beneficiaries, must adhere to the percentage they elected in their application.[19]

In accordance with the Grantee's election in their Application for a grant award and for receiving additional points in scoring, the Grantee has agreed to exceed the minimum requirement and to serve at least 90% low- and moderate-income beneficiaries.

Note: This percentage cannot be decreased as it was used for scoring in a competitive round of funding.

4. The Grantee shall disclose to any client that services are provided free of charge by a Grant funded by DHCD using Federal funds and therefore the Grantee has certain reporting

requirements in order to provide the Grant services free of charge. The Grantee shall use appropriate forms to obtain a client authorization, as required, to comply with the terms of this Agreement and to meet HUD reporting requirements,

C. Staffing

Where HUD requires services are to be provided by a Certified HUD Housing Counselor, the Grantee shall comply with that requirement and not permit services reserved to HUD certified counselors to be provided by others.

To the extent applicable, Grantee agrees to secure the services of qualified personnel that are licensed and bonded in the District of Columbia to perform the CDBG Federal Award activities and services listed in Exhibit A.

Any changes in personnel or their general Grant responsibilities as set forth in Exhibit A are subject to the prior written approval of DHCD. In this regard, it is essential that the Grantee immediately report terminations and proposed new hires to the Grantor.

D. Business Operations

1. Grantee shall observe business hours of operation onsite in their service location(s) that align with District Government hours of operation specifically Monday through Friday 9:00 am to 4:30 pm (DC holidays excepted)[20] and shall ensure that sufficient staff are on site at Grantee's place of business to carry out Grant services.

If the Grantee's phone system utilizes an auto-attendant function or voicemail, announced option to the caller must include an option to press a certain key (such as "0" for an Operator) to be connected to a staff person in real time who can answer and field questions, redirect a caller to a staff person who can address a caller's inquiries, or provide registration information.
